16. HEARINGS**

16.1 22-0436 ADOPT THE BUDGET FOR THE FISCAL YEAR 2022-23 CENTRAL STOCKTON LIGHTING MAINTENANCE ASSESSMENT DISTRICT

Recommended Action: RECOMMENDATION

This public hearing is to consider public comments and testimony regarding the Fiscal Year (FY) 2022-23 Central Stockton Lighting Maintenance Assessment District (District) Annual Engineer's Report, budget, and levy of assessments.

After the public hearing, if owners of more than 50 percent of the area of assessable lands within the District have not protested the proposed levy of annual maintenance assessments, it is recommended that the City Council adopt a resolution to:

1. Overrule any and all protests or objections (including all written protests not withdrawn in writing before the conclusion of the public hearing) to the proposed levy of assessments in the District in each zone.

2. Approve and adopt the District's Annual Engineer's Report for the FY 2022-23 containing the budget for each zone and confirm and levy the assessments for each zone as set forth in the Annual Engineer's Report.

3. Certify that the special assessment(s), fee(s), or charge(s) to be placed on the FY 2022-23 Secured Property Tax bill by the City of Stockton are certified to meet the requirements of Proposition 218 that added Articles XIIIC and XIIID to the California State Constitution.

4. Confirm that the assessments of the annual amount of costs and expenses for the maintenance and operation of the improvements upon the assessable lands in the District, as contained in the Annual Engineer's Report, shall be levied and collected for FY 2022-23. The assessments are in compliance with all laws pertaining to the levy of the annual assessment (State of California Streets and Highways Code Section 22500). The assessments are levied without regard to property valuation. The purpose of the assessments is to pay the costs and expenses for administration, maintenance, and operation of the Central Stockton Lighting Maintenance Assessment District, Zone 4, Oxford Manor.

5. Authorize the City Manager or designee, on behalf of the City Clerk, to file the assessments or a copy thereof certified by the City Clerk with the San Joaquin County Auditor and cause the assessments to be entered on the 2022-23 tax roll for the parcels in the District, Zone 4, Oxford Manor, as set forth in the Annual Engineer's Report on file with the City Clerk.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

16.2 22-0437 **ADOPT THE BUDGET FOR THE FISCAL YEAR 2022-23 STOCKTON CONSOLIDATED LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 96-2**

Recommended Action: RECOMMENDATION

This public hearing is to consider public comments and testimony regarding the Fiscal Year (FY) 2022-23 Stockton Consolidated Landscape Maintenance Assessment District No. 96-2 (Consolidated Landscape District) Annual Engineer's Report, budget, and levy of assessments.

After the public hearing, if owners of more than 50 percent of the area of assessable lands within the Consolidated Landscape District have not protested the proposed levy of annual maintenance assessments, it is recommended that the City Council adopt a resolution to:

1. Overrule any and all protests or objections (including all written protests not withdrawn in writing before the conclusion of the public hearing) to the proposed levy of assessments in the Consolidated Landscape District in each zone.

2. Approve and adopt the Consolidated Landscape District's Annual Engineer's Report for the FY 2022-23 containing the budget for each zone and confirm and levy the assessments for each zone as set forth in the Annual Engineer's Report.

3. Certify that the special assessment(s), fee(s), or charge(s) to be placed on the FY 2022-23 Secured Property Tax bill by the City of Stockton are certified to meet the requirements of Proposition 218 that added Articles XIIIC and XIIID to the California State Constitution.

4. Confirm that the assessments of the annual amount of costs and expenses for the maintenance and operation of the improvements upon the assessable lands in the Consolidated Landscape District, as contained in the Annual Engineer's Report, shall be levied and collected for FY 2022-23. The assessments are in compliance with all laws pertaining to the levy of the annual assessment (State of California Streets and Highways Code Section 22500). The assessments are levied without regard to property valuation. The purpose of the assessments is to pay the costs and expenses for maintenance and operation of public parks and landscape improvements in public rights-of-way and public open spaces.

5. Authorize the City Manager or designee, on behalf of the City Clerk, to file the assessments or a copy thereof certified by the City Clerk with the San Joaquin County Auditor and cause the assessments to be entered on the 2022-23 tax roll for the parcels in the Consolidated Landscape District and each zone within the Consolidated Landscape District as set forth in the Annual Engineer's Report on file with the City Clerk.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

16.3 22-0486 **HOLD PUBLIC HEARING FOR APPROVAL OF THE ANNUAL ENGINEER'S REPORT, FISCAL YEAR 2022-23 ANNUAL BUDGET, AND CONFIRM AND LEVY ASSESSMENTS FOR THE STOCKTON CONSOLIDATED STORM DRAINAGE MAINTENANCE ASSESSMENT DISTRICT 2005-1**

Recommended Action: RECOMMENDATION

The City Council, at its meeting on April 19, 2022, preliminarily approved and confirmed the Engineer's estimate of costs and expenses of the Consolidated Storm Drainage Maintenance Assessment District 2005-1 and the annual assessments related thereto and set a required public hearing for June 14, 2022.

It is recommended that the City Council now conduct a public hearing to consider public comment and testimony regarding the approval and adoption of the annual budgets and assessment rolls for the District.

After the public hearing, if a majority protest based on assessment amount does not exist, it is recommended that the City Council adopt a resolution to:

1. Overrule all public hearing protests or objections (including all written protests not withdrawn in writing before the conclusion of the public hearing) to the proposed levy of assessments in the District in each zone.

2. Approve and adopt the Stockton Consolidated Storm Drainage Maintenance Assessment District No. 2005-1 (District) Annual Engineer's Report for the Fiscal Year (FY) 2022-23, which contains the budget for each zone.

3. Confirm and levy the assessments for each zone as set forth in the Report.

4. File the assessments of a copy thereof, certified by the City Clerk or other City official, with the San Joaquin County Auditor and cause the assessments to be entered on the 2022-23 tax roll as set forth in the Annual Engineer's Report on file with the City Clerk.

5. Approve the Annual Report providing for various Amendments to the several Zone Assessment Diagrams showing segregated parcels created since the last Annual Report and directing the City Clerk to deliver said assessment to the Superintendent of Streets of the City, along with all Amendments to the Assessment Diagrams attached, with a certificate of such confirmation and of the date thereto, and that said Superintendent of Streets shall record all said Amendments to the Assessment Diagrams and assessment in a suitable book to be kept for that purpose.

6. Authorize the City Clerk to file in the office of the County Recorder a copy of the Amendments to the Assessment Diagrams, after the recording of the assessment and the Amendments to the Assessment Diagrams in the office of the Superintendent of Streets.

It is further recommended that the City Manager be authorized to take all appropriate and necessary actions to carry out the purpose and intent of this resolution.

16.4 22-0489 **HOLD PUBLIC HEARING FOR APPROVAL OF THE ENGINEER'S REPORT, FISCAL YEAR 2022-23 ANNUAL BUDGETS AND ASSESSMENTS FOR INDUSTRIAL STORM DRAINAGE BASIN MAINTENANCE DISTRICTS**

Recommended Action: RECOMMENDATION

It is recommended that the City Council conduct the public hearing called for at its meeting on April 19, 2022, to consider public comment and testimony regarding the approval and adoption of the annual budgets and assessment rolls for the six districts listed below (each, a "District").

At the conclusion of the public hearing, if less than fifty percent (50%) of the owners of the assessable lands within a district file a protest of the proposed levy of annual maintenance assessments, it is recommended that the City Council adopt resolutions to:

1. Overrule all public hearing protests or objections (including all written protests not withdrawn in writing before the conclusion of the public hearing) to the proposed levy of assessments in each District, provided, as to each District, no majority protest exists.

2. Approve and adopt the preliminary Fiscal Year (FY) 2022-23 annual budget for each District.

3. Confirm and levy FY 2022-23 assessments for each of the following six industrial storm drainage basin maintenance assessment districts (Districts).

1) Western Pacific Industrial Park Storm Drainage Basin Maintenance District, Project Number 81-1 (Western Pacific)

2) Charter Way Industrial Site Storm Drainage Basin Maintenance District, Project Number 86-4 (Charter Way)

3) Arch Road Industrial Park Storm Drainage Basin Maintenance District, Project Number 84-2 (Arch Road)

4) Airport Gateway Center Storm Drainage Basin Maintenance District (Airport Gateway)

5) Stockton Airport Business Center Storm Drainage Basin Maintenance District, Project Number 84-1 (Stockton Airport)

6) North Newcastle Storm Pump Station and Basin Maintenance District, Project Number 20-1 (North Newcastle)

4. Approve and adopt the Report showing the 2022-23 assessments and the adjusted drainage acres to be used in assessing the costs and expenses in connection therewith as the method of assessment to be used to pay the costs and expenses of the maintenance and operation.

5. Approve, confirm, and levy the assessments, as set forth in the Report, of the annual amount of costs and expenses to maintain and operate the improvements upon the several subdivisions of land in each District, in proportion to the estimated benefits to be received by said subdivisions, respectively, from the operation of said improvements and of

the expenses incidental thereto, as set forth in each respective Report.

It is further recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of these resolutions.

CERTIFICATE OF POSTING

I declare, under penalty of perjury, that I am employed by the City of Stockton and that I caused this agenda to be posted in the City Hall notice case on June 8, 2022, in compliance with the Brown Act.

Eliza R. Garza, CMC
City Clerk

By: Allison Lambertson Digitally signed by Allison Lambertson Date: 2022.06.08 12:09:30 -07'00'

Deputy

**Citizens may comment on any subject within the jurisdiction of the City Council/Successor Agency to the Redevelopment Agency/Public Finance Authority/Parking Authority, including items on the Agenda. Each speaker is limited to three minutes. Speakers must submit "Request to Speak" cards to the City Clerk, and be prepared to speak when called. No speaker cards will be received after the close of the Citizen's Comments portion of the meeting.*

***Speakers should hold comments on items listed as a Hearing until the Hearing is opened. If a large number of people desire to speak at a Hearing, the Mayor/Chair may reduce the amount of time allocated to each speaker to three (3) minutes.*

****Additions to the Agenda - Government Code Section 54954.2(b)(2), allows members of the City Council present at the meeting to take immediate action, with either a two-thirds or unanimous vote, to place an item on the agenda that action must be taken and that the item came to the attention of the City subsequent to the agenda being posted.*

All proceedings before this meeting body are conducted in English. The City of Stockton does not furnish language interpreters and, if one is needed, it shall be the responsibility of the person needing one.

In accordance with the Americans With Disabilities Act and California Law, it is the policy of the City of Stockton to offer its public programs, services and meetings in a manner that is readily accessible to everyone, including those with disabilities. If you are disabled and require a copy of a public hearing notice, or an agenda and/or agenda packet in an appropriate alternative format; or if you require other accommodation, please contact the Office of the City Clerk located at 425 North El Dorado Street, Stockton, California 95202 during normal business hours or by calling (209) 937-8459, at least 5 days in advance of the hearing/meeting. Advance notification within this guideline will enable the City/Agency to make reasonable arrangements to ensure accessibility.

Materials related to an item on this agenda submitted to City Council after distribution of the agenda packet are available for public inspection in the City Clerk's Office at 425 North El Dorado Street, Stockton, California 95202, during normal business hours. Such documents are also available on the City's website at www.stocktongov.com subject to staff's ability to post the documents before the meeting.

CHALLENGING CITY DECISIONS: The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Stockton, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

File #: 22-0290, **Version:** 1

AUTHORIZE AGREEMENTS WITH MUNICIPAL ADVISOR FIRMS TO ESTABLISH A POOL FOR THE ISSUANCE OF MUNICIPAL DEBT AND FOR INDEPENDENT REGISTERED MUNICIPAL ADVISOR SERVICES

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Authorize the City Manager to execute agreements with three municipal advisor firms for the purpose of forming a vendor pool to issue bonds and other municipal debt instruments for the financing of capital facilities and infrastructure, and the refinancing of existing debt issuances. The term of the contracts are five years with no option to extend.

2. Authorize the City Manager to include in the executed agreement with Del Rio Advisors, LLC, a section pertaining to them acting as the City's Independent Registered Municipal Advisor, for a term of five years with no option to extend.

3. Authorize the City Manager to take appropriate and necessary actions to carry out the purpose and intent of the motion.

Summary

The City, on an as-needed basis, issues debt to finance the construction of capital facilities and infrastructure, and refinance existing debt when it is advantageous to do so. The frequency varies from year to year; however, the City typically issues or refinances existing debt from once to as much as five times per year. The City issues several types of debt including Lease Revenue Bonds, Certificates of Participation, Revenue Bonds, and Land-secured debt (1913/15 Act assessment bonds, Mello-Roos or Marks-Roos bonds).

Entering into agreements with the three recommended firms will create a pool of pre-qualified firms to provide municipal advisor services to support City debt issuances.

In addition, staff recommends selection of Del Rio Advisors as an Independent Registered Municipal Advisor (IRMA) to provide day-to-day financial advisory services and act as a liaison between City staff and the financing team. The IRMA is also expected to assist in the development of capital facility or infrastructure financial plans and assist and advise the City as to the most cost-effective financing plan for the debt that is being considered.

DISCUSSION

Background

On July 25,2017, the City Council, through Motion 2017-07-25-1102, authorized agreements with four financial (municipal) advisor firms to form a vendor pool to issue bonds and other municipal debt instruments for the financing of capital facilities and infrastructure, and the refinancing of existing debt. The pool expires on June 30, 2022.

Since March 2011, Del Rio Advisors, LLC served as the City's IRMA and provided the City with financial advice throughout its bankruptcy proceedings, various debt issuances and debt refunding transactions.

Present Situation

On November 29, 2021, the City released a Request for Statement of Qualifications (RFSOQ) for municipal advisor services. The objective of the RFSOQ was to ensure a fair, competitive procurement of municipal advisor services and identify firms capable of meeting the City's needs.

The City received four responses from interested municipal advisor firms. While all four firms met the minimum qualifications, the limited prospects for debt issuance projects in the next five years and scoring of the separate proposals has led to a recommendation to include only three of the firms in the pool.

Staff recommends executing agreements with the three firms listed below, forming a Municipal Advisor vendor pool.

- Del Rio Advisors, LLC
- Fieldman, Rolapp & Associates, Inc.
- KNN Public Finance, LLC

The firms all demonstrated a wide range of experience and expertise related to debt issues in California. It is anticipated the City will have a highly qualified pool of municipal advisors available for all types of financing that the City may pursue.

The committee also recommends that the City include in the contract with Del Rio Advisors, LLC, a section specific to the services provided as the City's IRMA, including day-to-day financial advisory services and acting as a liaison between City staff and financing teams. Del Rio Advisors, LLC will also assist in the development of capital facility and infrastructure financial plans, and advise the City as to the most cost-effective financing plan for debt being considered.

FINANCIAL SUMMARY

The cost for municipal advisor services related to bond financings are reimbursed or paid directly from proceeds generated from the bond sale. In cases of land-based district formation work (CFD and 1915 Act Districts), costs for municipal advisor services are paid from developer deposits placed with the City.

Compensation for the City's IRMA for work not directly related to bond financings will be paid as part of the City's debt administration program using account 2030-004-630006-400. Sufficient funds are budgeted in this account to cover estimated costs for these services. The City's debt program is supported through an annual allocation of costs to the funds that are responsible for making payments on the City's outstanding debt including a small contribution from the General Fund.

STATEMENT OF WORK

MUNICIPAL ADVISOR SERVICES AND

INDEPENDENT REGISTERED MUNICIPAL ADVISOR SERVICES (IRMA)

1. Project Objectives

1.1 Municipal Advisor and IRMA Services

2. Project Scope – Municipal Advisor Services

2.1 The nature of services to be provided by Contractor shall include, but not be limited to, the following:

2.1.1 Assist in structuring and managing debt financing in accordance with the City's financing plan and goals including developing a detailed financing schedule and assignments of responsibility.

2.1.2 Coordinate the efforts of bond counsel, disclosure counsel, underwriters, trustee, and verification agent and other specialized consultants on the preparation and approval of the financing documents by the City Council.

2.1.3 Attend all meetings and present materials for the debt financing.

2.1.4 Assist in preparation and coordination of comprehensive presentations to the rating agencies and bond insurers, if required.

2.1.5 Assist in assembling the Official Statement for the financing in a manner consistent with existing laws, regulations, and standards of the securities industry

2.1.6 Assist the Chief Financial Officer and treasury staff in negotiating and obtaining bids from bond/disclosure counsel, underwriters, and specialized consultants. Undertake pre-pricing analysis before the sale; develop target pricing range for all maturities; advise the City on pricing on the day of sale; assist in the negotiation of pricing and provide a post-pricing analysis with relevant comparable data to assist the City in memorializing the transaction.

2.1.7 Coordinate the delivery, printing and final approval of legal documents, and the preparation of closing certificates and final Official Statement.

2.1.8 Coordinate all specialized consultant reports and the verification report with the verification agent and bond counsel.

2.2 City staff will provide all readily available plans, documentation, and data necessary for completing the above tasks.

2.3 City staff will be available as needed and will assist with coordination of stakeholder meetings and public outreach.

3. Independent Registered Municipal Advisor (IRMA) Services

Contractor shall assist the City in the development of a sound financial plan for the capital facility or infrastructure that is planned to be financed and assist in the establishment of a district. The Contractor will also be requested to assist and advise the City as to the most cost-effective financing plan for the debt that is being considered and recommend alternatives regarding innovative options available in order to assist the City. In addition, Contractor shall help the City staff with City's debt administration and other operations upon request.

3.1 Fiduciary Duty - Contractor is registered as a Municipal Advisor with the SEC and Municipal Securities Rulemaking Board (MSRB). As such, Contractor has a Fiduciary duty to the City and must provide both a Duty of Care and Loyalty that entail the following:

3.1.1 Duty of Care

- Exercise due care in performing its municipal advisory activities.
- Possess the degree of knowledge and expertise needed to provide the City with informed advice.
- Make a reasonable inquiry as to the facts that are relevant to the determination as to whether to proceed with a course of action or that form the basis for any advice provided to the City; and
- Contractor must undertake a reasonable investigation to determine that Municipal Advisor is not forming any recommendation on materially inaccurate or incomplete information; Municipal Advisor must have a reasonable basis for:
    - Any advice provided to or on behalf of the City
    - Any representations made in a certificate that Municipal Advisor signs that will be foreseeably relied on by the City, any other party involved in the

municipal securities transaction or municipal financial product, or investors in the City securities; and

- Any information provided to the City of other parties involved in the municipal securities transaction when participating in the preparation of an official statement.

3.1.2 Duty of Loyalty - Contractor must deal honestly and with the utmost good faith with City and act in City's best interests without regard to the financial or other interests of Contractor. Contractor will eliminate or provide full and fair disclosure (included herein) to City about each material conflict of interest (as applicable). Contractor will not engage in municipal advisory activities with City as a municipal entity, if Contractor cannot manage or mitigate its conflicts in a manner that will permit Contractor to act in City's best interests.

3.2 Conflicts of Interest and Other Matters Requiring Disclosures

As of the date of the Agreement, there are no actual or potential conflicts of interest that Contractor is aware of that might impair its ability to render unbiased and competent advice or to fulfill its fiduciary duty. If Contractor becomes aware of any potential conflict of interest that arises after this disclosure, Contractor will disclose the detailed information in writing to City in a timely manner. The following are potential conflicts of interest to be considered:

- The fee paid to Contractor increases the cost of investment to City. The increased cost occurs from compensating Contractor for municipal advisory services provided.
- Contractor does not act as principal in any of the transaction(s) related to this Agreement.
- Contractor works with the San Joaquin Area Flood Control Agency ("Agency"). The governing board of the Agency consists of persons from the governing boards of the member agencies including members of the City Council of the City of Stockton. Contractor hereby discloses this role and does not believe this creates a conflict of interest with any ongoing role as Municipal Advisor to the City.
- During the term of the municipal advisory relationship, this Agreement will be promptly amended or supplemented to reflect any material changes in or additions to the terms or information within this agreement and the revised writing will be promptly delivered to City.
- Contractor does not have any affiliate that provides any advice, service, or product to or on behalf of the City that is directly or indirectly related to the municipal advisory activities to be performed by Contractor.

- Contractor has not made any payments directly of indirectly to obtain or retain the City's municipal advisory business.
- Contractor has not received any payments from third parties to enlist Contractor's recommendation to City of its services, any municipal securities transaction, or any municipal finance product.
- Contractor has not engaged in any fee-splitting arrangements involving Contractor and any provider of investments or services to City.
- Contractor has a conflict of interest from compensation for municipal advisory activities to be performed, that is contingent on the size or closing of any transactions as to which Contractor is providing advice.
- Contractor does not have any other engagements or relationships that might impair Contractor's ability either to render unbiased and competent advice to or on behalf of City or to fulfill its fiduciary duty to the City, as applicable; and
- Contractor does not have any legal or disciplinary events that are material to City's evaluation of the municipal advisory or the integrity of its management of advisory personnel.

3.3 Legal Events and Disciplinary History

Contractor does not have any legal events and disciplinary history on their Form MA and Form MA-I, which includes information about any criminal actions, regulatory actions, investigations, terminations, judgments, liens, civil judicial actions, customer complaints, arbitrations, and civil litigation. City may electronically access Contractor's most recent Forms MA and each most recent Forms MA-I filed with the Commission at the following website: www.sec.gov/edgar/searchedgar/companysearch.html.

There have been no material changes to a legal or disciplinary event disclosure on any Form MA or Form MA-I filed with the SEC.

3.4 Registration and Customer Complaints

Pursuant to Municipal Securities Rulemaking Board Rule G-10, on Investor and Municipal Advisory Client Education and Protection, Municipal Advisors are required to provide certain written information to their municipal entity and obligated person clients which include the following:

- Contractor is currently registered as a Municipal Advisor with the U.S. Securities and Exchange Commission and the Municipal Securities Rulemaking Board

- Within the Municipal Securities Rulemaking Board ("MSRB") website at www.msrg.org, City may obtain the Municipal Advisory client brochure that is posted on the MSRB website. The brochure describes the protections that may be provided by the MSRB Rules along with how to file a complaint with financial regulatory authorities.

3.5 Recommendations

If Contractor is requested by City to prepare written documentation that makes a recommendation of a municipal securities transaction, a municipal financial product or is requested to review the recommendation of another party within the scope of this engagement, Contractor will determine, based on the information obtained through reasonable diligence of Contractor, whether a municipal securities transaction or municipal financial product is suitable for City. In addition, Contractor will inform City of:

- The evaluation of the material risks, potential benefits, structure, and other characteristics of the recommendation.
- The basis upon which Contractor reasonably believes that the recommended municipal securities transaction or municipal financial product is, or is not, suitable for City; and
- Whether Contractor has investigated or considered other reasonably feasible alternatives to the recommendation that might also or alternatively serve the City's objectives.
- If City elects a course of action that is independent of or contrary to the advice provided by Contractor, Contractor is not required on that basis to disengage from City.

4. Internal and External Standards and Guidelines

Any professional certifications or licenses that may be required will be at the sole cost and responsibility of the Contractor.

Contractor shall possess all necessary licenses to perform the work specified within these documents, including a City of Stockton Business License which must be kept in effect during the term of this Agreement.

5. Notices

Pursuant to Exhibit C – General Terms and Conditions, Paragraph 15 – Notices, the mailing address for all required notices is as follows:

Contractor: Del Rio Advisors, LLC
Kenneth L. Dieker, Principal
1325 Country Club Drive
Modesto, CA 95356

City: City of Stockton
Attn: City Manager
425 N. El Dorado Street
Stockton, CA 95202

5. Option to Renew

The term of the Agreement shall be five years and may not be extended, however, should Vendor be involved in an issuance on June 30, 2027, contract shall apply through the closing of that issuance.

Exhibit B:
Insurance Requirements for Professional Services

Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$1,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability**: Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.
(Not required if consultant provides written verification it has no employees)

4. **Professional Liability** (Errors and Omissions) Insurance appropriates to the Consultant's profession, with limit no less than **$1,000,000** per occurrence or claim, **$1,000,000** aggregate.

If the Consultant maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this

provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds $25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements**. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work***.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

City of Stockton
Its Officers, Officials, Employees, and Volunteers
400 E Main Street, 3rd Floor – HR
Stockton, CA 95202

EXHIBIT C

GENERAL TERMS AND CONDITIONS

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation**. City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work**. All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work**. All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree

to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. **Timeliness.** Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. **Changes**. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. **Amendment.** No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. **Contractor's Status**.

9.1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's

control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees, agents, and volunteers, against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, arising from all acts or omissions of contractor or its officers, agents, or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's sole negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. Licenses, Certifications and Permits. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. Records and Audits. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. Confidentiality. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. Conflicts of Interest. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. Waiver. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. Governing Law. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. No Personal Liability. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. **Severability.** If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statue, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. **Non-Discrimination.** During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). http://www.dol.gov/oasam/regs/statutes/titlevi.htm. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. **Force Majeure**. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. **Taxes and Charges.** Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. **Cumulative Rights.** Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. **Advice of Attorney.** Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. **Heading Not Controlling.** Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. **Entire Agreement, Integration, and Modification.**

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. **Counterparts.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. **Authority.** The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D

PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid on the rates set forth in Exhibit E attached hereto and made a part of this Agreement.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

EXHIBIT E

COMPENSATION SCHEDULE

City's financing projects will have individual aspects that may impact the pricing listed below. The Contractor is paid contingent upon a successful closing of debt issuance and will be paid from the debt proceeds at closing of the transaction. The payment will be made by the trustee/fiscal agent for the transaction. The Contractor will be paid quarterly for IRMA services, upon receipt of the invoices.

1. Project Price

Hourly Rates. Contractor shall be compensated based on the hourly rates set forth below, on a time and material basis for those services that are within the general scope of services of this Agreement. Any changes and related fees shall be mutually agreed upon between the parties by a written amendment to this Agreement.

Team Member	Hourly Rate
Kenneth L. Dieker	$200.00

Option One – Public Offering or Private Placement to Institutional Investors

Public Offering / Private Placement		
ow	High	Fee (1, 2)
$0	$5,000,000	$32,500
$5,000,001	$10,000,000	$42,500
$10,000,001	$25,000,000	$52,500
$25,000,001	$50,000,000	$62,500
$50,000,001	$75,000,000	$72,500
>$75,000,001		$82,500

(1) Add to this figure a "not-to-exceed" $750 for normal reimbursable expenses.

(2) All fees assume negotiated bond sale; add $5,000.00 for competitive sale.

Reimbursable expenses include normal items such as mileage, travel, meals, document reproduction or any other expenses incurred by the MA on behalf of the City.

Option Two – Direct Placement to Banks and Other Financial Institution

Direct Placement		
Low	High	Fee (1, 2)
$0	$5,000,000	$27,500
$5,000,001	$10,000,000	$27,500
$10,000,001	$25,000,000	$32,500
$25,000,001	$50,000,000	$37,500
$50,000,001	$75,000,000	$42,500
>$75,000,001		$47,500

(1) Add to this figure a "not-to-exceed" $750 for normal reimbursable expenses.

Reimbursable expenses include normal items such as mileage, travel, meals, document reproduction or any other expenses incurred by the MA on behalf of the City.

2. **Invoice to Address.** Each invoice submitted shall identify the specific task(s) listed in Exhibit A and this Exhibit, and the completed work product/deliverable for the agreed upon price listed in this Exhibit. Invoices shall be submitted to the below address:

City of Stockton Administrative Services Department
Attention: Kevin Beltz
425 N. El Dorado Street
Stockton, CA 95202

STATEMENT OF WORK

MUNICIPAL ADVISOR SERVICES

1. Project Objectives

1.1 Municipal Advisor Services

2. Project Scope

2.1 The nature of services to be provided by Contractor shall include, but not be limited to, the following:

2.1.1 Assist in structuring and managing debt financing in accordance with the City's financing plan and goals including developing a detailed financing schedule and assignments of responsibility.

2.1.2 Coordinate the efforts of bond counsel, disclosure counsel, underwriters, trustee, and verification agent and other specialized consultants on the preparation and approval of the financing documents by the City Council.

2.1.3 Attend all meetings and present materials for the debt financing.

2.1.4 Assist in preparation and coordination of comprehensive presentations to the rating agencies and bond insurers, if required.

2.1.5 Assist in assembling the Official Statement for the financing in a manner consistent with existing laws, regulations, and standards of the securities industry

2.1.6 Assist the Chief Financial Officer and treasury staff in negotiating and obtaining bids from bond/disclosure counsel, underwriters, and specialized consultants. Undertake pre-pricing analysis before the sale; develop target pricing range for all maturities; advise the City on pricing on the day of sale; assist in the negotiation of pricing and provide a post-pricing analysis with relevant comparable data to assist the City in memorializing the transaction.

2.1.7 Coordinate the delivery, printing and final approval of legal documents, and the preparation of closing certificates and final Official Statement.

2.1.8 Coordinate all specialized consultant reports and the verification report with the verification agent and bond counsel.

2.2 City will provide all readily available plans, documentation, and data necessary for completing the above tasks.

2.3 City staff will be available as needed and will assist with coordination of stakeholder meetings and public outreach.

3. Internal and External Standards and Guidelines

Any professional certifications or licenses that may be required will be at the sole cost and responsibility of the Contractor.

Contractor shall possess all necessary licenses to perform the work specified within these documents, including a City of Stockton Business License which must be kept in effect during the term of this Agreement.

4. Notices

Pursuant to Exhibit C – General Terms and Conditions, Paragraph 15 – Notices, the mailing address for all required notices is as follows:

Contractor: Fieldman, Rolapp & Associates, Inc.
James V. Fabian, Principal
1 Samsone Street, Suite 3500
San Francisco, CA 94104

City: City of Stockton
Attn: City Manager
425 N. El Dorado St.
Stockton, CA 95202

5. Option to Renew.

The term of the Agreement shall be five years and may not be extended, however, should Contractor be involved in an issuance on June 30, 2027, contract shall apply through the closing of that issuance.

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Exhibit B:
Insurance Requirements for Professional Services

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.
(Not required if Contractor provides written verification it has no employees)

4. **Professional Liability** (Errors and Omissions) Insurance appropriate to the Contractor's profession, with limit no less than **$2,000,000** per occurrence or claim, $2,000,000 aggregate. (If Claims-made, see below.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this

Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation

Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the City of Stockton**.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (note – applicable only to professional liability)

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

3. If coverage is canceled or non-renewed, and not ***replaced with another claims-made policy form with a Retroactive Date*** prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of contract work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

City of Stockton Attn: City Risk Services
400 E Main Street, 3rd Floor – HR
Stockton, CA 95202

EXHIBIT C

GENERAL TERMS AND CONDITIONS

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation**. City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work**. All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work**. All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree

to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. Timeliness. Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. Changes. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. Amendment. No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. Contractor's Status.

9.1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's

control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees, agents, and volunteers, against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, arising from all acts or omissions of contractor or its officers, agents, or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's sole negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. **Licenses, Certifications and Permits**. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. **Records and Audits**. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. **Confidentiality**. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. **Conflicts of Interest**. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. **Waiver**. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. **Governing Law**. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. **No Personal Liability**. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statue, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). http://www.dol.gov/oasam/regs/statutes/titlevi.htm. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D

PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. **Definitions.** The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. **General.** The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. **Time for Performance.**

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid on the rates set forth in Exhibit E attached hereto and made a part of this Agreement.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

EXHIBIT E

COMPENSATION SCHEDULE

City's financing projects will have individual aspects that may impact the pricing listed below. The Contractor is paid contingent upon a successful closing of debt issuance and will be paid from the debt proceeds at closing of the transaction. The payment will be made by the trustee/fiscal agent for the transaction.

The Contractor shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. Project Price

COPs/Revenue Bonds

$47,500 contingent upon the successful closing of the bonds for any size bond issue. The fee will be increased by $10,000 if there are more than one series of bonds or refunding bonds. Verifiable approved out of pocket expenses is capped at $2,500.

Assessment Debt (Mello Roos)

$42,500 contingent upon the successful closing of the bonds for any size bond issue. The fee will be increased by $10,000 if there are more than one series of bonds or refunding bonds. Verifiable approved out of pocket expenses is capped at $2,500.

Formation services for land-secured districts will be billed at hourly rates (listed below) payable from the Developer's Deposit capped at $30,000 for a typical land secured district formation process.

SCHEDULE OF FEES (Effective January 1, 2002)	
Executive Officer	$380 Per Hour
Principal	$365 Per Hour
Executive/Senior Vice President	$355 Per Hour
Vice President	$305 Per Hour
Assistant Vice President	$285 Per Hour
Senior Associate	$250 Per Hour
Associate	$225 Per Hour
Analyst	$125 Per Hour
Administrative Assistant	$90 Per Hour
Clerical	$55 Per Hour

1.1 Standard Reimbursable Items: Only the reimbursable items identified in Exhibit A, C, and D (Compensation), shall be compensated to the Contractor.

Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii below shall be attached to the invoice submitted to the City for reimbursement. Payments shall be based upon work documents submitted by the Contractor to the City and accepted by the City as being satisfactory to City's needs. The City shall not pay a markup on any of the items listed in i, ii or iii. Additionally, items such a telephone, fax, postage or freight are already included in the billable hourly rate. Contractor shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services:

i. Expenses, fees or charges for printing, reproduction or binding of documents at actual costs with no markup added to the actual cost.

ii. Any filing fees, permit fees, or other fees paid or advanced by the Contractor at actual costs with no markup added to the actual cost.

iii. Travel expenses shall be reimbursed in accordance with the City's travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost.

2. **Invoice to Address.** Each invoice submitted shall identify the specific task(s) listed in Exhibit A and this Exhibit, and the completed work product/deliverable for the agreed upon price listed in this Exhibit. Invoices shall be submitted to the below address:

City of Stockton Administrative Services Department

425 N. El Dorado Street
Stockton, CA 95202

EXHIBIT F

TIMELINE

Intentionally left blank

APPENDIX 1

Disclosure Statement

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, as a municipal advisor, CONTRACTOR has a fiduciary duty to the City of Stockton (the "CITY") with respect to the municipal advisory services we provide to the CITY. Under new Municipal Securities Rulemaking Board Rules G-42(b) and (c), we are providing this disclosure statement ("Disclosure Statement') to you which includes our scope of services (including activities not included within the scope), a description of the form and basis of our compensation, a description of the term of our engagement, a description of actual or potential conflicts of interest, and a description of how to access to our SEC Form MA and the Forms MA-I for our professionals. We will be submitting a proposal for the provision of financial advisory services (the "Agreement") if engaged by the City.

While it is not required that you acknowledge receipt of this Disclosure Statement, we would appreciate acknowledgement as an indication that you understand the disclosures made herein.

The Project

Services to be Provided. The Agreement describes the scope of our Services, including any limitations on our Services.

Form and Basis of Compensation

The Agreement describes the form and basis of our compensation.

Representations and Conflict of Interest

MSRB Rule G-42 requires that municipal advisors provide to their CITYs disclosures relating to all material conflicts of interest, including certain categories of potential conflicts of interest identified in Rule G-42, if applicable. With respect to all aspects of the relationship between CONTRACTOR and the CITY, CONTRACTOR adheres to its fiduciary duty to the CITY, which includes a duty of loyalty to the CITY in performing all municipal advisory activities for the CITY. The duty of loyalty obligates CONTRACTOR to deal honestly and with the utmost good faith with the CITY and to act in the CITY's best interest without regard to any interest CONTRACTOR has or may have. CONTRACTOR has a wide range of CITYs so our success and profitability are not dependent on maximizing short-term revenue generated from individual recommendations to our CITYs but is instead dependent on long-term profitability based on a foundation of integrity, quality and adherence to our fiduciary duty. Furthermore, CONTRACTOR's supervisory structure provides strong safeguards against individual representatives of CONTRACTOR violating their duty due to personal interests.

CONTRACTOR makes the following representations to the CITY with regard to the Services:

A. Other than the compensation to be paid to CONTRACTOR, we have no other interest, direct or indirect, that would interfere with or impair in any matter or degree the performance of our obligations. During our work on the Services, we do not intend to acquire or obtain any such interest, direct or indirect. If any such interest is acquired or obtained, we will immediately advise the CITY.

B. We have not provided any gift or consideration to any officer, employee or agent of the CITY to either obtain the Agreement or any assignment from the CITY, including the Services. Neither our firm, nor its officers or employees will provide any such gift or consideration to any officer, employee or agent of the CITY to influence decisions with regard to the Services or our obligations under the Agreement.

C. The compensation agreed to between the CITY and CONTRACTOR for our Services has attributes that can potentially create conflicts of interest which we outline below:

A conflict may arise to the extent that our compensation for the Services is based on the size of the Project and/or is contingent on the completion of the Project. While this form of compensation is customary in the market for financial services to municipal entities, this may present conflict of interest as we would have an incentive to recommend to the CITY the Project even if it is unnecessary or provides insufficient benefit or advise the CITY to increase the size of the Project. This potential conflict is mitigated by CONTRACTOR's fiduciary duty to the CITY.

Information Regarding Legal Events and Disciplinary Actions

MSRB Rule G-42 requires that municipal advisors provide their CITYs disclosures of legal or disciplinary events material to the evaluation of the municipal advisor or the integrity of the municipal advisor's management or advisory personnel. CONTRACTOR sets out required disclosures and related information below:

A. There are no legal or disciplinary events material to the CITY's evaluation of CONTRACTOR or the integrity of CONTRACTOR's management or advisory personnel disclosed, or that should be disclosed, on any Form MA or Form MA- I with the Securities and Exchange Commission (the "SEC").

B. CONTRACTOR's most recent Form MA and each most recent Form MA-I filed with the SEC are available on the SEC's EDGAR system at http://www.sec.gov/cgi-bin/browse-edgar?action=getcompany&CIK=0001612429

CITY OF STOCKTON
STANDARD AGREEMENT

Agreement Number:

1. This Agreement is entered into between the City of Stockton ("City") and KNN Public Finance, LLC ("Contractor") to provide Municipal Advisor Services as set forth in Exhibit A to this Agreement.

2. The term of this Agreement is as follows, unless amended as described in Exhibit A and Exhibit C section 8:

EXHIBIT A

STATEMENT OF WORK

MUNICIPAL ADVISOR SERVICES

1. Project Objectives

1.1 Municipal Advisor Services

2. Project Scope

2.1 The nature of services to be provided by Contractor shall include, but not be limited to, the following:

2.1.1 Assist in structuring and managing debt financing in accordance with the City's financing plan and goals including developing a detailed financing schedule and assignments of responsibility.

2.1.2 Coordinate the efforts of bond counsel, disclosure counsel, underwriters, trustee, and verification agent and other specialized consultants on the preparation and approval of the financing documents by the City Council.

2.1.3 Attend all meetings and present materials for the debt financing.

2.1.4 Assist in preparation and coordination of comprehensive presentations to the rating agencies and bond insurers, if required.

2.1.5 Assist in assembling the Official Statement for the financing in a manner consistent with existing laws, regulations, and standards of the securities industry

2.1.6 Assist the Chief Financial Officer and treasury staff in negotiating and obtaining bids from bond/disclosure counsel, underwriters, and specialized consultants. Undertake pre-pricing analysis before the sale; develop target pricing range for all maturities; advise the City on pricing on the day of sale; assist in the negotiation of pricing and provide a post-pricing analysis with relevant comparable data to assist the City in memorializing the transaction.

2.1.7 Coordinate the delivery, printing and final approval of legal documents, and the preparation of closing certificates and final Official Statement.

2.1.8 Coordinate all specialized consultant reports and the verification report with the verification agent and bond counsel.

2.2 City will provide all readily available plans, documentation, and data necessary for completing the above tasks.

2.3 City staff will be available as needed and will assist with coordination of stakeholder meetings and public outreach.

3. Internal and External Standards and Guidelines

Any professional certifications or licenses that may be required will be at the sole cost and responsibility of the Contractor.

Contractor shall possess all necessary licenses to perform the work specified within these documents, including a City of Stockton Business License which must be kept in effect during the term of this Agreement.

4. Notices

Pursuant to Exhibit C – General Terms and Conditions, Paragraph 15 – Notices, the mailing address for all required notices is as follows:

Contractor: KNN Public Finance, LLC
Melissa Shick, Director
2054 University Ave., Suite 300
Berkeley, CA 94704

City: City of Stockton
Attn: City Manager
425 N. El Dorado Street
Stockton, CA 95202

5. Option to Renew.

The term of the Agreement shall be five years and may not be extended, however, should Contractor be involved in an issuance on June 30, 2027, contract shall apply through the closing of that issuance.

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Exhibit B:
Insurance Requirements for Professional Services

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.
(Not required if Contractor provides written verification it has no employees)

4. **Professional Liability** (Errors and Omissions) Insurance appropriate to the Contractor's profession, with limit no less than **$2,000,000** per occurrence or claim, $2,000,000 aggregate. (If Claims-made, see below.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this

Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation

Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the City of Stockton.**

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (note – applicable only to professional liability)

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

3. If coverage is canceled or non-renewed, and not ***replaced with another claims-made policy form with a Retroactive Date*** prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of contract work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

City of Stockton Attn: City Risk Services
400 E Main Street, 3rd Floor – HR
Stockton, CA 95202

EXHIBIT C

GENERAL TERMS AND CONDITIONS

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation**. City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work**. All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work**. All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree

to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. Timeliness. Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. Changes. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. Amendment. No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. Contractor's Status.

9.1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's

control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees, agents, and volunteers, against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, arising from all acts or omissions of contractor or its officers, agents, or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's sole negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. Licenses, Certifications and Permits. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. Records and Audits. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. Confidentiality. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. Conflicts of Interest. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. Waiver. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. Governing Law. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. No Personal Liability. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statue, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). http://www.dol.gov/oasam/regs/statutes/titlevi.htm. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D

PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid on the rates set forth in Exhibit E attached hereto and made a part of this Agreement.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

EXHIBIT E

COMPENSATION SCHEDULE

City's financing projects will have individual aspects that may impact the pricing listed below. The Contractor is paid contingent upon a successful closing of debt issuance and will be paid from the debt proceeds at closing of the transaction. The payment will be made by the trustee/fiscal agent for the transaction.

The Contractor shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. Project Price

1.1 Transaction Fees

Transaction Type	Fee Range
COPS/Revenue Bonds	$40,000 - $80,000
Assessment Bonds/Mello-Roos Bonds (Rated and Non-Rated)	$35,000 - $70,000

The final fees determined in the context of a specific transaction within the proposed fee ranges will be based on the complexity of the transaction and will not, in fact, vary based on the par amount of the offering.

Contractor typically negotiates fixed fees at the time the plan of finance is known, based on factors that impact complexity and time commitments, such as bond structure, credit structure and type (including, rated and non-rated), project specifics (such as single or multiple projects, and estate issues, or tax considerations), disclosure issues, financing vehicle, interest rate mode, and the method of sale (public versus private offering).

State laws (specifically Government Code Section 53592) requires the basis of compensation for financial advisory services to be rendered on a basis other than as a percentage of the amount of the bonds to be sold.

1.2 Standard Reimbursable Items: Only the reimbursable items identified in Exhibit A, C, and D (Compensation), shall be compensated to the Contractor. Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii below shall be attached to the invoice submitted to the City for reimbursement. Payments shall be based upon work documents submitted by the Contractor to the City and accepted by the City as being satisfactory to City's needs. The City shall not pay a markup on any of the items listed in i, ii or iii. Additionally, items such a telephone, fax, postage or freight are already included in the billable hourly rate. Contractor shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services:

i. Expenses, fees or charges for printing, reproduction, or binding of documents at actual costs with no markup added to the actual cost.

ii. Any filing fees, permit fees, or other fees paid or advanced by the Contractor at actual costs with no markup added to the actual cost.

iii. Travel expenses shall be reimbursed in accordance with the City's travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost.

In addition, Contractor includes a $550 overhead data charge per transaction for access to Bloomberg and TM3. Given the expectation of limited travel costs, Contractor expects reimbursable expenses to the minimal and capped at $1,000 per transaction.

1.3 Disclosures

As fixed transaction fees are paid from bond proceeds (i.e., cost of issuance) payment is therefore contingent on the successful closing of bonds. Contingent fee structures do raise a potential conflict of interest, which is addressed in our MSRB G-42 disclosure statement contained **in Exhibit 1 MSRB Rule G-42 Additional Disclosures.**

2. **Invoice to Address.** Each invoice submitted shall identify the specific task(s) listed in Exhibit A and this Exhibit, and the completed work product/deliverable for the agreed upon price listed in this Exhibit. Invoices shall be submitted to the below address:

City of Stockton Administrative Services Department
Attention: Kevin Beltz
425 N. El Dorado Street
Stockton, CA 95202

APPENDIX 1

MSRB Rule G-42 Additional Disclosures

MSRB Rule G-42

Disclosure of Conflicts of Interest and Legal or Disciplinary Events

Pursuant to Municipal Securities Rulemaking Board ("MSRB") Rule G-42, on Duties of Non-Solicitor Municipal Advisors, Municipal Advisors are required to make certain written disclosures to clients which include, amongst other things, Conflicts of Interest and any Legal or Disciplinary events of CONTRACTOR and its associated persons.

Conflicts of Interest

Other Municipal Advisor Relationships. CONTRACTOR serves a wide variety of other clients that may from time to time have interests that could have a direct or indirect impact on the interests of another CONTRACTOR client. For example, CONTRACTOR serves as municipal advisor to other municipal advisory clients and, in such cases, owes a regulatory duty to such other clients just as it will to your entity, if hired. CONTRACTOR may serve overlapping jurisdictions, such as San Joaquin County, who has been a client of the firm. These other clients may, from time to time and depending on the specific circumstances, have competing interests. In acting in the interests of its various clients, CONTRACTOR could potentially face a conflict of interest arising from these competing client interests. CONTRACTOR fulfills its regulatory duty and mitigates such conflicts through dealing honestly and with the utmost good faith with its clients.

Compensation. CONTRACTOR represents that in connection with the issuance of municipal securities, CONTRACTOR may receive compensation from an Issuer or Obligated Person for services rendered, which compensation is contingent upon the successful closing of a transaction and/or is based on the size of a transaction. Consistent with the requirements of MSRB Rule G-42, CONTRACTOR hereby discloses that such contingent and/or transactional compensation may present a potential conflict of interest regarding CONTRACTOR's ability to provide unbiased advice to enter into such transaction. This conflict of interest will not impair CONTRACTOR's ability to render unbiased and competent advice or to fulfill its fiduciary duty to the Issuer.

If CONTRACTOR becomes aware of any additional potential or actual conflict of interest after this disclosure, CONTRACTOR will disclose the detailed information in writing to the Issuer in a timely manner.

Legal or Disciplinary Events

CONTRACTOR has never been subject to any legal, disciplinary or regulatory actions nor was it ever subject to any legal, disciplinary or regulatory actions previously, when it was a division of Zions First National Bank or Zions Public Finance, Inc.

A regulatory action disclosure has been made on Form MA-I for one of CONTRACTOR municipal advisory personnel relating to a 1998 U.S. Securities and Exchange Commission ("SEC") order that was filed while the municipal advisor was employed with a prior firm, (not CONTRACTOR). The details of which are available in Item 9; C(1), C(2), C(4), C(5) and the corresponding regulatory action DRP section on Form MA and Item 6C; (1), (2), (4), (5) and the corresponding regulatory action DRP section on Form MA-I. Issuers may electronically access CONTRACTOR Public Finance's most recent Form MA and each most recent Form MA-I filed with the Commission at the following website: www.sec.gov/edgar/searchedgar/companysearch.html.

The SEC permits certain items of information required on Form MA and Form MA-I to be provided by reference to such required information already filed on a regulatory system (e.g., FINRA CRD). The above noted regulatory action has been referenced on both Form MA and MA-I due to the information already filed on FINRA's CRD system and is publicly accessible through BrokerCheck at http://brokercheck.finra.org. For purposes of accessing such BrokerCheck information, the Municipal Advisor's CRD number is 4457537.

There has been no change to any legal or disciplinary event that has been disclosed on CONTRACTOR's original SEC registration Form MA filed on February 8, 2016 or Form MA-I's filed on January 22, 2016.

File #: 22-0546, **Version:** 1

CONSIDERATION OF AN ORDINANCE AMENDING TITLE 8, CHAPTER 8.92, SECTIONS 8.92.010 AND 8.92.090 AND ADDING SECTIONS 8.92.140 AND 8.92.150 OF THE STOCKTON MUNICIPAL CODE RELATING TO ADMINISTRATIVE PENALTIES FOR UNLAWFUL FIREWORKS AND STRICT LIABILITY FOR THE UNLAWFUL IGNITION, USE, DISCHARGE, OR DISPLAY OF FIREWORKS BY OTHER PERSONS

RECOMMENDATION

It is recommended that the City Council adopt an urgency ordinance amending Title 8, chapter 8.92 Section 8.92.010 and 8.92.090 and adding sections 8.92.140 and 8.92.150 of the Stockton Municipal Code relating to administrative penalties for unlawful fireworks and strict liability for the unlawful ignition, use, discharge, or display of fireworks by other persons.

Summary

Existing City law prohibits the use of illegal fireworks and imposes penalties on the individuals who use them. The proposed ordinance extends that liability to those in charge of property, like property owners and tenants, for violations which occur on their property. The proposed ordinance also revises the penalties for illegal firework use.

DISCUSSION

Background

The Stockton Municipal Code (SMC) at Chapter 8.92 governs the sale, possession, and use of fireworks. Under current law, a person cannot possess or use dangerous fireworks within the City. Sale and use of “safe and sane fireworks,” as defined by state law, is permitted but regulated by the SMC concerning location, dates, and times. The SMC imposes $1,000 administrative penalties for all relevant violations, including illegal use and sale.

City staff report difficulty in enforcing the current prohibitions on illegal use. Due in large part to the temporary nature of the illegal activity, the high frequency by which the activity occurs on and around July 4th of each year, and number of officers able to respond to calls results in a comparatively low number of issued citations relative to the number of violations reported or heard by residents.

Present Situation

On May 18, 2022, the Council Legislative and Environmental Committee and Planning Commission considered an ordinance imposing strict liability upon property owners where the illegal activity occurs and increasing administrative penalties for fireworks violations. Via Motion 2022-05-18-0303 the Committee voted unanimously to recommend the adoption of the proposed ordinance.

The proposed ordinance introduces the following regulations into SMC Chapter 8.92.

Social Host Liability

A social host is defined in proposed subsection 8.92.010(L) as anyone either “in charge of property” (including owners, tenants, landlords, and property managers) or anyone in charge of an activity on a property. These social hosts would be responsible for illegal firework activity which occurs on their property or at their events.

Exceptions to Liability

Proposed section 8.92.140(B) places strict liability on social hosts for illegal firework use on their property, unless the following exceptions apply:

8.92.140(B)(1): An exemption for tenants in multifamily properties where the violations occur in common areas of their property.

8.92.140(B)(2): An exception for social hosts who contact law enforcement or fire officials prior to those officials arriving at a scene or receiving a complaint of a violation.

8.92.140(B)(3): An owner exception where the property owner can demonstrate that at the time of the violation, (a) the property was rented/leased to another person, (b) the owner was not present at the property, and (c) the owner had no knowledge of the violation.

Violations in the Right-of-Way

Proposed section 8.92.140(C) includes a provision that social hosts may also be held liable for violations in the public rights-of-way adjacent to their private property where the social host aided or abetted in the violation. Two of the cities surveyed by Staff included this provision, Sacramento and Long Beach.

Penalties for Violation - Fines

Staff reviewed the administrative penalties of eleven jurisdictions and included the information in “Attachment B”. With the exception of City of Fresno who recently increased its penalties in May of 2022, no surveyed cities levied more than $1,000 for a first violation. Among the surveyed cities, the most severe penalties for third and further violations were $5,000, levied by Sacramento and San Bernardino.

The SMC currently imposes $1,000 fines for violations of the chapter on fireworks. The proposed ordinance at 8.92.090(A) provides for a three-tier system with penalties of $1,000, $2,000, and $3,000 for each successive violation. As drafted, the penalty would apply to all violations of the fireworks chapter: not just social hosts.

Penalties for Violation - Cost Recovery

Consistent with Committee direction, this proposed ordinance includes a definition for “response

costs" at 8.92.010(J) and implements response costs as a penalty at 8.92.090(B). As drafted, the response cost penalty would apply to any person using fireworks unlawfully: not just social hosts. All offenders from a single response would be jointly and severally liable for the cost.

Reward Fund

Proposed section 8.92.150 permits the City Manager to create and administer a reward fund consisting of penalties from fireworks violations, and authorizes rewards of up to $250 to any person who provides information leading to the identification and successful prosecution of an offender. Of the surveyed cities, San Bernardino uses such a reward fund.

Process

Violation of the social host ordinance, like other violations of the firework ordinance, would typically be enforced through issuance of an administrative citation, not initiation of criminal proceedings: though the ordinance does not foreclose the option for the City to prosecute a violation as a criminal matter.

Non-criminal violations would be served by mail, would specify that offenders have 30 days to pay, and would state that persons charged have 10 days to file a notice of appeal to dispute the violation according to the City's standard appeal policy at Chapter 1.44. The mailed violation would also include an itemized statement of response costs being charged to the offender.

The notices of violation would, as a practical matter, be mailed to the record owner of the property unless the citing officials, at the time of violation, knew the identity of the tenant or other responsible social host. If an exception applied, a property owner would be able to provide the City a lease agreement or other documents as evidence there was an active lease at the time of violation, and the notice of violation could then be re-issued in the name of the tenant social host.

FINANCIAL SUMMARY

There are no General Fund costs associated with adoption of the ordinance as drafted. Expanding liability to property owners for firework violations may increase the amount of penalties received for those violations. Due to the cost recovery component, the City may recover some costs currently expended during firework enforcement.

Attachment B - Administrative Penalties in Select Jurisdictions

ORDINANCE NO.

AN URGENCY ORDINANCE AMENDING TITLE 8, CHAPTER 8.92, SECTIONS 8.92.010 AND 8.92.090 AND ADDING SECTIONS 8.92.140 AND 8.92.150 OF THE STOCKTON MUNICIPAL CODE RELATING TO ADMINISTRATIVE PENALTIES FOR UNLAWFUL FIREWORKS AND STRICT LIABILITY FOR THE UNLAWFUL IGNITION, USE, DISCHARGE, OR DISPLAY OF FIREWORKS BY OTHER PERSONS

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

SECTION I. DECLARATION OF URGENCY

Pursuant to Section 508 of the City of Stockton Charter, the City Council of the City of Stockton has determined that the provisions contained herein are necessary for the immediate preservation of the public peace, health, or safety within the incorporated areas of the City. This determination is based on the following facts and circumstances:

1. Fireworks can cause significant anxiety in adults and children, especially veterans and others with post-traumatic stress, as well as pets; and

2. Fireworks pose a serious risk of fire and the City historically experiences an increase of fire damage as result of the use of fireworks on or around the Fourth of July Holiday; and

3. During the period of June 28 to July 5, 2021, the City experienced three building fires, twenty-four grass fires, twenty-one outside rubbish and trash fires, and numerous other fireworks related fires; and

4. There is a need for deterrence and enforcement tools with which emergency responders can hold those posing a significant risk to public health and safety accountable for the unlawful possession and detonation of fireworks in this City.

SECTION II. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.010 of the Stockton Municipal Code is amended and shall read as follows:

8.92.010 Definitions.

The following words and phrases, as used in this chapter, are defined as follows:

A. “Applicant” means a nonprofit organization that applies for a fireworks sales permit as provided in this chapter.

B. “City Manager” means the City Manager of the City of Stockton and/or designee or designees.

C. “Dangerous fireworks” mean: (1) dangerous fireworks as set forth in California State Fireworks Law (Sections 12505 and 12561 of the Health and Safety Code and the relevant sections of Title 19, Code of Regulations, Subchapter 6), as hereinafter may be amended from time to time, which are hereby incorporated by reference; or (2) safe and sane fireworks, as defined in subsection J below, that have been modified in any respect from their original design

D. “Fire Chief” means the Fire Chief of the City of Stockton or the Fire Chief’s designee.

E. “Nonprofit organization” means:

1. Any organization that: (a) has been created for charitable, religious, philanthropic or educational purposes, (b) has obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board, (c) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents;

2. An organization that: (a) itself has not obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board but is an integral part of a recognized national organization that has obtained such tax exempt status, (b) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents;

3. Any organization that: (a) has not obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board but has been created for charitable, religious, philanthropic or educational purposes and the net proceeds of such organization are committed to the promotion of the objectives of the organization and not for private gain, (b) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents.

F. “Permit” means a fireworks sale permit.

G. “Permittee” means an applicant to which the City has issued a permit.

H. “Person” means and includes any individual, firm, partnership, joint venture, association, concern, corporation, state, trust, business trust, receiver, syndicate, or any other group of combination acting as a unit.

I. “Residents of the City” or “City residents” mean and include owners of businesses and/or property in the City as well as occupants of residential dwellings.

J. "Response costs" means costs associated with law enforcement, fire, medical, or other emergency personnel responding to, remaining at, and leaving the scene where dangerous fireworks, or safe and sane fireworks at a prohibited date, time, or location, were used or discharged, including but not limited to:

1. Salaries and benefits of law enforcement, fire, medical, or other emergency personnel;

2. Administrative costs;

3. The cost of any medical treatment of injuries to any law enforcement, fire, medical, or other emergency personnel;

4. The cost of using any city equipment;

5. The cost of repairing any damaged city equipment or property; and

6. Any other costs related to enforcement of this chapter.

~~J~~K. "Safe and sane fireworks" or "fireworks" mean safe and sane fireworks as set forth in California State Fireworks Law (Sections 12529 and 12562 of the Health and Safety Code and the relevant sections of Title 19, Code of Regulations, Subchapter 6), as hereinafter may be amended from time to time, which are hereby incorporated by reference.

L. "Social host" means a person who either:

1. Is in charge of a property, including, but not limited to, an owner, tenant, landlord, or property manager; or

2. Organizes, supervises, officiates, conducts, controls, or is otherwise in charge of the activity on a property.

~~K~~M. "Stockton zip code" means those zip codes as established from time to time by the Fire Chief.

SECTION III. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.090 of the Stockton Municipal Code is amended and shall read as follows:

8.92.090 Administrative penalties—Appeals.

A. In addition to any other remedy available at law, any person ~~who possess, uses, stores, and/or displays dangerous fireworks or any person who sells, possesses, uses or discharges safe and sane fireworks on or at dates, times, and/or locations other than~~

~~those permitted by this chapter, or any permittee~~ who violates any provision of this chapter~~,~~ is subject to an administrative penalty~~,~~ in an amount as provided below:

1. $1,000 for a first violation;

2. $2,000 for a second violation within one year of a previous violation; and

3. $3,000 for each additional violation within one year of two or more previous violations

~~A. The amount of the administrative penalty shall be $1,000.00 dollars for each violation.~~

~~B. Appeals of administrative penalties shall be made and heard in accordance with Chapter 1.44 of this Code. (Ord. 2017-03-28-1502 § 3; Ord. 2012-02-28-1601 C.S. § 1)~~

B. Any person who ignites, uses, discharges, or displays any dangerous firework or safe and sane firework in violation of 8.92.015 shall be liable for the response costs relating to the violation. The amount of response costs constitutes a debt owed to the City. All persons, including strictly liable social hosts and those with the care, custody or control of offending minors, who violate this chapter in the same incident are jointly and severally liable for response costs.

C. This chapter may be enforced by the officials provided in section 1.24.020.

D. Violations of this chapter may be served by first-class or certified mail.

E. Payment for violations of this chapter shall be remitted to the City within 30 calendar days of the date of the notice. Payment of any such costs may be stayed upon the filing of a timely appeal.

F. A person charged under this chapter may, within 10 calendar days of the date of the notice, appeal in accordance with Chapter 1.44 of this Code. Failure to timely file an appeal constitutes a failure to exhaust available administrative remedies and bars any further review or appeal of the violation.

G. Violations of this chapter are hereby declared to be a public nuisance.

H. All remedies prescribed under this chapter are cumulative and the election of one or more remedies does not bar the City from the pursuit of any other remedy to enforce this chapter.

SECTION IV. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.140 is added to the Stockton Municipal Code and shall read as follows:

8.92.140 Strict liability for unlawful ignition, use, discharge, or display of fireworks by another person.

A. Ignition, Use, Discharge, or Display by Minors. Any person having the care, custody, or control of a person under 18 years of age shall be strictly liable for any unlawful ignition, use, discharge, or display of dangerous fireworks or safe and sane fireworks in violation of section 8.92.015. Nothing in this subsection A shall limit the liability of any social host for a violation of this chapter.

B. Social Host Liability. Any social host shall be strictly liable for any unlawful ignition, use, discharge, or display of any dangerous fireworks or safe and sane fireworks in violation of 8.92.015 at their property or gathering; except that:

1. No person who has the right to use, possess or occupy a unit in a multifamily residential property under a lease, rental agreement or contract shall be liable under this subsection B for violations of section 8.92.015 occurring in the common areas of the property.

2. No social host shall be liable under this subsection B who initiates contact with law enforcement or fire officials to assist in removing any person from the property or terminating the activity in order to comply with this chapter, if the request for assistance is made before the arrival of law enforcement or fire officials to the property and before any other person contacts law enforcement or fire officials to complain about the violation of this chapter.

3. No owner of private property shall be liable under this subsection B for a violation of section 8.92.015 on that property if that owner can demonstrate that at the time of such violation they:

a. Rented or leased the property to another;

b. Were not present; and

c. Had no prior knowledge of the violation.

C. Violations in the Right-of-Way. No social host shall aid or abet another person's violation of a provision of this chapter in a public right-of-way adjacent to the social host's property. A social host aids and abets another person's violation of a provision of this chapter if he or she knows of the other person's unlawful purpose and the social host specifically intends to, and does in fact, aid, facilitate, promote, encourage, or instigate the other person's commission of that violation.

SECTION V. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.150 is added to the Stockton Municipal Code and shall read as follows:

8.92.150 Reward Fund.

The City Manager may establish a special fund consisting of penalties collected from violations of this chapter to pay rewards in the amount of no more than $250 to individuals providing information leading to the identification of, and successful criminal or civil action against, any person violating this chapter. The City Manager may create rules concerning administration of the fund and eligibility for rewards.

SECTION VI. SEVERABILITY

If any section of this ordinance or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given without the invalid provisions or application, and to this end the provisions of this act are severable.

SECTION VII. EFFECTIVE DATE

This ordinance shall take effect and be in full force immediately after its passage.

ORDINANCE NO.

AN URGENCY ORDINANCE AMENDING TITLE 8, CHAPTER 8.92, SECTIONS 8.92.010 AND 8.92.090 AND ADDING SECTIONS 8.92.140 AND 8.92.150 OF THE STOCKTON MUNICIPAL CODE RELATING TO ADMINISTRATIVE PENALTIES FOR UNLAWFUL FIREWORKS AND STRICT LIABILITY FOR THE UNLAWFUL IGNITION, USE, DISCHARGE, OR DISPLAY OF FIREWORKS BY OTHER PERSONS

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

SECTION I. DECLARATION OF URGENCY

Pursuant to Section 508 of the City of Stockton Charter, the City Council of the City of Stockton has determined that the provisions contained herein are necessary for the immediate preservation of the public peace, health, or safety within the incorporated areas of the City. This determination is based on the following facts and circumstances:

1. Fireworks can cause significant anxiety in adults and children, especially veterans and others with post-traumatic stress, as well as pets; and

2. Fireworks pose a serious risk of fire and the City historically experiences an increase of fire damage as result of the use of fireworks on or around the Fourth of July Holiday; and

3. During the period of June 28 to July 5, 2021, the City experienced three building fires, twenty-four grass fires, twenty-one outside rubbish and trash fires, and numerous other fireworks related fires; and

4. There is a need for deterrence and enforcement tools with which emergency responders can hold those posing a significant risk to public health and safety accountable for the unlawful possession and detonation of fireworks in this City.

SECTION II. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.010 of the Stockton Municipal Code is amended and shall read as follows:

8.92.010 Definitions.

The following words and phrases, as used in this chapter, are defined as follows:

A. “Applicant” means a nonprofit organization that applies for a fireworks sales permit as provided in this chapter.

B. “City Manager” means the City Manager of the City of Stockton and/or designee or designees.

C. “Dangerous fireworks” mean: (1) dangerous fireworks as set forth in California State Fireworks Law (Sections 12505 and 12561 of the Health and Safety Code and the relevant sections of Title 19, Code of Regulations, Subchapter 6), as hereinafter may be amended from time to time, which are hereby incorporated by reference; or (2) safe and sane fireworks, as defined in subsection J below, that have been modified in any respect from their original design

D. “Fire Chief” means the Fire Chief of the City of Stockton or the Fire Chief’s designee.

E. “Nonprofit organization” means:

1. Any organization that: (a) has been created for charitable, religious, philanthropic or educational purposes, (b) has obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board, (c) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents;

2. An organization that: (a) itself has not obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board but is an integral part of a recognized national organization that has obtained such tax exempt status, (b) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents;

3. Any organization that: (a) has not obtained tax exempt status from the Internal Revenue Service or the State Franchise Tax Board but has been created for charitable, religious, philanthropic or educational purposes and the net proceeds of such organization are committed to the promotion of the objectives of the organization and not for private gain, (b) has had a Stockton zip code mailing address for more than 12 consecutive months immediately prior to filing an application, and (c) primarily serves City residents.

F. “Permit” means a fireworks sale permit.

G. “Permittee” means an applicant to which the City has issued a permit.

H. “Person” means and includes any individual, firm, partnership, joint venture, association, concern, corporation, state, trust, business trust, receiver, syndicate, or any other group of combination acting as a unit.

I. “Residents of the City” or “City residents” mean and include owners of businesses and/or property in the City as well as occupants of residential dwellings.

J. “Response costs” means costs associated with law enforcement, fire, medical, or other emergency personnel responding to, remaining at, and leaving the scene where dangerous fireworks, or safe and sane fireworks at a prohibited date, time, or location, were used or discharged, including but not limited to:

1. Salaries and benefits of law enforcement, fire, medical, or other emergency personnel;

2. Administrative costs;

3. The cost of any medical treatment of injuries to any law enforcement, fire, medical, or other emergency personnel;

4. The cost of using any city equipment;

5. The cost of repairing any damaged city equipment or property; and

6. Any other costs related to enforcement of this chapter.

K. “Safe and sane fireworks” or “fireworks” mean safe and sane fireworks as set forth in California State Fireworks Law (Sections 12529 and 12562 of the Health and Safety Code and the relevant sections of Title 19, Code of Regulations, Subchapter 6), as hereinafter may be amended from time to time, which are hereby incorporated by reference.

L. “Social host” means a person who either:

1. Is in charge of a property, including, but not limited to, an owner, tenant, landlord, or property manager; or

2. Organizes, supervises, officiates, conducts, controls, or is otherwise in charge of the activity on a property.

M. “Stockton zip code” means those zip codes as established from time to time by the Fire Chief.

SECTION III. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.090 of the Stockton Municipal Code is amended and shall read as follows:

8.92.090 Administrative penalties—Appeals.

A. In addition to any other remedy available at law, any person who violates any provision of this chapter is subject to an administrative penalty in an amount as provided below:

1. $1,000 for a first violation;

2. $2,000 for a second violation within one year of a previous violation; and

3. $3,000 for each additional violation within one year of two or more previous violations

B. Any person who ignites, uses, discharges, or displays any dangerous firework or safe and sane firework in violation of 8.92.015 shall be liable for the response costs relating to the violation. The amount of response costs constitutes a debt owed to the City. All persons, including strictly liable social hosts and those with the care, custody or control of offending minors, who violate this chapter in the same incident are jointly and severally liable for response costs.

C. This chapter may be enforced by the officials provided in section 1.24.020.

D. Violations of this chapter may be served by first-class or certified mail.

E. Payment for violations of this chapter shall be remitted to the City within 30 calendar days of the date of the notice. Payment of any such costs may be stayed upon the filing of a timely appeal.

F. A person charged under this chapter may, within 10 calendar days of the date of the notice, appeal in accordance with Chapter 1.44 of this Code. Failure to timely file an appeal constitutes a failure to exhaust available administrative remedies and bars any further review or appeal of the violation.

G. Violations of this chapter are hereby declared to be a public nuisance.

H. All remedies prescribed under this chapter are cumulative and the election of one or more remedies does not bar the City from the pursuit of any other remedy to enforce this chapter.

SECTION IV. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.140 is added to the Stockton Municipal Code and shall read as follows:

8.92.140 Strict liability for unlawful ignition, use, discharge, or display of fireworks by another person.

A. Ignition, Use, Discharge, or Display by Minors. Any person having the care, custody, or control of a person under 18 years of age shall be strictly liable for any unlawful ignition, use, discharge, or display of dangerous fireworks or safe and

sane fireworks in violation of section 8.92.015. Nothing in this subsection A shall limit the liability of any social host for a violation of this chapter.

B. Social Host Liability. Any social host shall be strictly liable for any unlawful ignition, use, discharge, or display of any dangerous fireworks or safe and sane fireworks in violation of 8.92.015 at their property or gathering; except that:

1. No person who has the right to use, possess or occupy a unit in a multifamily residential property under a lease, rental agreement or contract shall be liable under this subsection B for violations of section 8.92.015 occurring in the common areas of the property.

2. No social host shall be liable under this subsection B who initiates contact with law enforcement or fire officials to assist in removing any person from the property or terminating the activity in order to comply with this chapter, if the request for assistance is made before the arrival of law enforcement or fire officials to the property and before any other person contacts law enforcement or fire officials to complain about the violation of this chapter.

3. No owner of private property shall be liable under this subsection B for a violation of section 8.92.015 on that property if that owner can demonstrate that at the time of such violation they:

a. Rented or leased the property to another;

b. Were not present; and

c. Had no prior knowledge of the violation.

C. Violations in the Right-of-Way. No social host shall aid or abet another person's violation of a provision of this chapter in a public right-of-way adjacent to the social host's property. A social host aids and abets another person's violation of a provision of this chapter if he or she knows of the other person's unlawful purpose and the social host specifically intends to, and does in fact, aid, facilitate, promote, encourage, or instigate the other person's commission of that violation.

SECTION V. AMENDMENT OF CODE

Title 8, Chapter 8.92, section 8.92.150 is added to the Stockton Municipal Code and shall read as follows:

8.92.150 Reward Fund.

The City Manager may establish a special fund consisting of penalties collected from violations of this chapter to pay rewards in the amount of no more than $250 to individuals providing information leading to the identification of, and successful criminal or civil action

against, any person violating this chapter. The City Manager may create rules concerning administration of the fund and eligibility for rewards.

SECTION VI. SEVERABILITY

If any section of this ordinance or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given without the invalid provisions or application, and to this end the provisions of this act are severable.

SECTION VII. EFFECTIVE DATE

This ordinance shall take effect and be in full force immediately after its passage.

ADOPTED: _____

EFFECTIVE: _____

_____
KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

_____
ELIZA R. GARZA, CMC
City Clerk of the City of Stockton

16.3 22-0265 ADOPT A RESOLUTION CERTIFYING AN ENVIRONMENTAL IMPACT REPORT, ADOPT AN ORDINANCE FOR PRE-ZONING, ADOPT A DEVELOPMENT AGREEMENT, AND ADOPT A RESOLUTION AUTHORIZING ANNEXATION REQUESTS FOR A PROPOSED INDUSTRIAL DEVELOPMENT AT 5110, 5150, 5268, 5280, AND 5290 MARIPOSA ROAD, 4500 EAST CLARK ROAD, AND 4600 AND 4610 MARFARGOA DRIVE (APNS 179-220-10; -11; -12; -13; -16; -17; -18; -19; -24) (P20-0805)

RECOMMENDATION It is recommended that the City Council: 1. Adopt a Resolution certifying the Mariposa Industrial Park Environmental Impact Report (SCH #2020120283), including a Statement of Overriding Considerations, and adopt a Mitigation Monitoring and Reporting Program; and 2. Adopt an Ordinance for the Pre-zoning of APNs 179-220-10; -11; -12; -13; -16; -17; -18-; 19; and -24 to Industrial, Limited (IL); and 3. Adopt an Ordinance for a Development Agreement; and 4. Adopt a Resolution authorizing the filing of an annexation application with the San Joaquin Local Agency Formation Commission; and 5. Authorize the City Manager to take appropriate and necessary actions to carry out the purpose and intent of the resolutions.

AUTHORIZE A FAÇADE IMPROVEMENT FORGIVABLE LOAN FOR $109,316 TO PRICE RITE RESTAURANT EQUIPMENT FOR PROPERTY LOCATED AT 706 EAST WEBER AVENUE

RECOMMENDATION

It is recommended that the City Council adopt a resolution:

1. Authorizing a Façade Improvement Forgivable Loan to Price Rite Restaurant Equipment for property located at 706 East Weber Avenue in the amount of $109,316.

2. Authorizing the City Manager, or designee, to take all actions necessary and appropriate to carry out the purpose and intent of the resolution.

Summary

The owner of 706 East Weber Avenue, Four Ten Enterprises, Inc. DBA Price Rite Restaurant Equipment, has applied for a Commercial Façade Improvement Forgivable Loan to make exterior improvements to the property (Attachment A - Vicinity Map, Attachment B - Property Photos, Attachment C - Rendering of Proposed Improvements). The total cost of the project is $298,000. The financial assistance requested from the City of Stockton is $109,316, allocated from the federally funded Community Development Block Grant (CDBG) program. The property owner will contribute $188,684 toward the project, meeting the matching funds requirement within the Commercial Façade Improvement Forgivable Loan Program (Façade Improvement Program) guidelines. The proposed project will enhance the appearance of the building and have a positive impact on the surrounding properties.

DISCUSSION

Background

In 1988, City Council adopted the CDBG Commercial Loan Program. The program included the Façade Improvement Program to improve the downtown area. At that time, the Façade Improvement Program was limited to the Central Stockton Redevelopment Area and was limited to $10,000 as a one-time loan per commercial property.

In 1999, City Council authorized revisions to the Commercial Loan Program, which included changes that allowed larger properties to receive additional financial assistance from the Façade Improvement Program. For every 50 linear feet of building frontage, a property is eligible for a $10,000 base loan. A property owner may qualify for an additional loan if they contribute at least $5,000 (for a maximum of $10,000) in matching funds for each additional loan obtained.

The total project cost is $298,000, and of this amount, $40,000 is in the form of four (4) $10,000 base loans from the City with an additional $40,000 in matching funds for the project. Pursuant to section 5.1 of the program guidelines, “The Economic Development Director, or designee, shall have discretionary authority to reduce or increase funding for a project based upon specific criteria such as remaining funds, impact on surrounding neighborhoods, and financial need.” Due to the current construction supply chain causing high bids, the property owner requested additional financial assistance. Based on funds available in the current fiscal year and the project area’s impact on enhancing the property’s façade, an additional $29,316 has been approved by City staff to recommend funding to complete this project.

The property owner is responsible for the remaining $188,684 of this project. Of this amount, $40,000 is their matching funds obligation under the program guidelines, and the additional $148,684 is the remaining project costs. The following table demonstrates the breakdown of funding for this project:

	CITY	**PROPERTY OWNER**	**TOTAL**
Base Loan #1	$10,000	--	$10,000
Matching Funds	$10,000	$10,000	$20,000
Base Loan #2	$10,000	--	$10,000
Matching Funds	$10,000	$10,000	$20,000
Base Loan #3	$10,000	--	$10,000
Matching Funds	$10,000	$10,000	$20,000
Base Loan #4	$10,000	--	$10,000
Matching Funds	$10,000	$10,000	$20,000
Additional Funds	$29,316	$148,684	$178,000
TOTAL	**$109,316**	**$188,684**	**$298,000**

Present Situation

Price Rite Restaurant Equipment purchased the commercial property at 706 East Weber Avenue in 2011. Price Rite Restaurant Equipment has requested financial assistance of $109,316 for façade improvements to the property. The subject property is within a Low/Moderate Income Area and is eligible for the Façade Improvement Program. As noted above, the Façade Improvement Program eligibility is based on location, matching funds, and a commitment to maintaining the exterior of the building, keeping it free of graffiti and other blighting influences. Beyond these essential eligibility criteria, façade loans are considered at the request and initiative of the applicants and available funding per fiscal year.

This façade improvement project involves exterior renovations consistent with the City’s Design Review Guidelines. As part of the façade improvement project, the proposed improvements include exterior paint, installing brick veneer, and repairing and painting the existing awning.

The total project cost is $298,000. Under the Façade Improvement Program described above, this project is eligible for $80,000 in façade loan funds and approved for an additional $29,316 totaling $109,316. Funds are in the form of a forgivable loan and financed per program guidelines over a six (6) year term at 10% simple interest. The property owner is responsible for the remaining $188,684 for the project.

Under this program and per the Façade Improvement Program guidelines, the principal and interest payments are forgiven annually if the property owner maintains the exterior of the building, keeping it free of graffiti and other blighting influences.

The anticipated project will improve the appearance of the building and have a positive impact on the surrounding properties. This project encourages and complements the investment of private sector funds.

ENVIRONMENTAL CLEARANCE

This project is exempt from the National Environmental Protection Act (NEPA) requirements. It has been determined to be categorically excluded under Title 24 of the Code of Federal Regulations - Housing and Urban Development, Section 58.35 (a)(iii). City staff determined that the proposed improvements will not have an adverse effect on historic properties. The California State Historic Preservation Office has concurred with this determination under 36 Code of Federal Regulations, Part 800 (§106).

FINANCIAL SUMMARY

This action will have no impact on the General Fund or to any other unrestricted funds as the program is supported through Federal Housing and Urban Development Department funding. Sufficient funds are available in the Community Development Block Grant (CDBG) Fund, Business Development Division, Façade Program account for the $109,316 forgivable loan.

MURAL DESIGN CONCEPT

2020 HAS BEEN A HISTORICAL YEAR OF TRAGEDY AND DESPAIR. MANY INDIVIDUALS AND BUSINESSES HAVE SUFFERED AND STILL ARE SUFFERING AS WE STRIVE TO RISE ABOVE THESE CHALLENGING TIMES. AS PROUD STOCKTON BUSINESS OWNERS, THE 'PRICE RITE RESTAURANT EQUIPMENT' TEAM HAS ELECTED TO DEDICATE THE WEST FACADE OF THEIR BUILDING TO AN INSPIRATIONAL MURAL AS PART OF THEIR FACADE IMPROVEMENT PACKAGE. THE INTENT OF THE MURAL DESIGN IS TO EVOKE EMOTION AND INTEREST AMONG PASSERSBY AND SERVE AS A SYMBOLIC BEACON FOR DOWNTOWN STOCKTON. WE DEVELOPED THIS BOLD LION DESIGN AROUND THE IDEA OF INSTILLING A SENSE OF **COURAGE**, **STRENGTH**, AND **PRIDE** BACK INTO THE LOCAL COMMUNITY. WE BELIEVE THE CITY OF STOCKTON HAS THE COURAGE TO LEARN AND GROW; THE FEROCITY AND STRENGTH TO PERSEVERE; AND THE COMMUNITY PRIDE TO MAINTAIN A PATH OF SUCCESS.

THE PAINT APPLICATION OF THE DESIGN HAS BEEN DISTILLED DOWN TO THREE (3) PRIMARY COLORS. THE GOAL BEHIND THIS DESIGN APPROACH WAS TO MINIMIZE COMPLEXITY AND AFFORD OPPORTUNITIES TO MULTIPLE PAINTING VENDORS. THE EXISTING ~2,800 sf CONCRETE PANEL CLAD WALL SYSTEM WILL REQUIRE STEAM CLEANING PRIOR TO RECEIVING ITS NEW MATTE EXTERIOR PAINT MURAL FINISH. UPON REQUEST, THE ARCHITECT CAN PROVIDE THE VECTOR ARTWORK FILE FOR USE BY THE PAINTER OR ARTIST. BELOW IS A BREAKDOWN OF PAINT COVERAGE QUANTITIES FOR EACH OF THE MURAL COLORS:

PNT-2 (Grey): 193 sf
PNT-3 (White): 5 sf
PNT-4 (Black): 1,436 sf
PNT-5 (Tan): 212 sf
PNT-6 (Brown): 410 sf
PNT-7 (Dark Brown): 545 sf

TOTAL: 2,801 sf

Resolution No.

STOCKTON CITY COUNCIL

AUTHORIZE A FAÇADE IMPROVEMENT FORGIVABLE LOAN FOR $109,316 TO PRICE RITE RESTAURANT EQUIPMENT FOR PROPERTY LOCATED AT 706 EAST WEBER AVENUE, APN 149-180-23

In 1988, the City Council adopted the Community Development Block Grant Commercial Loan Program which helped provide funds to improve the downtown area and to provide a local incentive for the Enterprise Zone application process; and

In 1999, the City Council authorized revisions to the Commercial Loan Program, which included changes to the Façade Improvement Program and allowed larger properties to receive additional financial assistance to improve commercial façades; and

On December 16, 2003, the City Council approved revisions to the Façade Improvement Forgivable Loan Program authorizing additional areas outside of Downtown Stockton in need of financial assistance; and

In July 2007, the Commercial Façade Improvement Forgivable Loan Program was further revised by the City Council to expand the program boundary beyond the downtown core and increase funding available to commercial property owners; and

Four Ten Enterprises, Inc. DBA Price Rite Restaurant Equipment has applied for a Commercial Façade Improvement Forgivable Loan and is eligible for $80,000, and approved for an additional $29,316 pursuant to section 5.1 of the program guidelines, for a total of $109,316 for façade improvements to the commercial property located at 706 East Weber Avenue; and

It is anticipated that this project will improve the appearance of the building and have a positive impact on surrounding properties and neighborhood; and

The project encourages and complements the investment of private sector funds in the West End (Downtown Stockton) Redevelopment Area; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Manager is hereby authorized and directed to execute a Façade Improvement Forgivable Loan Agreement between the City of Stockton and Four Ten Enterprises, Inc. DBA Price Rite Restaurant Equipment in the amount of $109,316, for the commercial property located at 706 East Weber Avenue, Stockton, California, to be evidenced by a Promissory Note and secured by a Deed of Trust on said property.

2. This project is exempt from the National Environmental Protection Act (NEPA) requirements. It has been determined to be categorically excluded under Title 24 of the Code of Federal Regulations – Housing and Urban Development, section 58.35 (a)(iii). City staff determined that the proposed improvements will not have an adverse effect on historic properties. The California State Historic Preservation Office has occurred with this determination under 36 Code of Federal Regulations, Part 800 (§106).

3. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED June 14, 2022.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

ELIZA R. GARZA, CMC
City Clerk of the City of Stockton

File #: 22-0449, **Version:** 1

ADOPT A RESOLUTION TO APPROVE AN AMENDMENT TO THE 2020-2024 CONSOLIDATED PLAN, AND AN AMENDMENT TO THE 2021-2022 ANNUAL ACTION PLAN, AND ACCEPT AND APPROPRIATE THE HOME INVESTMENT PARTNERSHIP PROGRAM (HOME-ARPA) AMERICAN RECOVERY SUPPLEMENTAL ACT FUNDING FOR ACTIVITIES TO MITIGATE AND CONTAIN THE SPREAD OF COVID-19

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Amend the 2020-2024 Consolidated Plan, 2021-2022 Annual Action Plan,

2. Approve and accept the HOME-ARPA funding allocation of $6,380,677,

3. Approve and authorize the execution of the HOME-ARPA Standard Agreement, and any associated documents, with the Department of Housing and Urban Development (HUD) to accept grant funding; and,

4. Authorize the City Manager, or designee, to appropriate grant funds and to take necessary actions to carry out the purpose and intent of this resolution.

Summary

In response to the pandemic outbreak of the coronavirus disease COVID-19 the US Department of Housing and Urban Development (HUD) announced the allocation of nearly $5 billion in American Rescue Plan Act funds to assist households that are homeless, at risk of homelessness, and other vulnerable populations, such as individuals fleeing domestic violence, sexual assault stalking or human trafficking, by providing housing, rental assistance, supportive services, and non-congregate shelter.

The supplemental $5 billion is allocated through the HOME Investment Partnership Program to States, Counties, and local jurisdictions. The City of Stockton is an entitlement jurisdiction that receives an annual allocation of HOME, CDBG, and ESG funding and has received notification that the City has been allocated $6,380,677 of HOME-ARPA funds.

On April 5, a public hearing was held for community input on the HOME-ARPA activities and City Council gave authorization to accept, appropriate, and execute the HOME-ARPA supplemental funding Agreement and the authority to allocate the funding to eligible affordable housing projects (Attachment A - Resolution No. 2022-04-05-1602). The prior public comment period did not meet the 15-day requirement. To remain in compliance with HUD regulations, the public comment period has been republished to the required 15-day public comment period. The republished public comment

period began May 31, 2022, and ended June 14, 2022. Because of the new public comment period, Council must reapprove the recommended actions.

HOME-ARPA eligible activities include:

- Production or Preservation of Affordable Housing
- Tenant-Based Rental Assistance (TBRA)
- Supportive Services, Homeless Prevention Services, and Housing Counseling
- Purchase and Development of Non-Congregate Shelter

Staff recommends that the Council approve a resolution authorizing the acceptance, appropriation, and execution of the HOME-ARPA supplemental funding Agreement and authority to allocate the funding to eligible affordable housing projects.

DISCUSSION

Background

On January 31, 2020, COVID-19 was declared a Public Health emergency by the United States; and on March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to begin the process of making resources available to the state to combat COVID-19.

In response to the continued pandemic outbreak of the coronavirus disease COVID-19 HUD announced the allocation of nearly $5 billion in American Rescue Plan Act funds to help communities across the country create affordable housing and services for people experiencing or at risk of experiencing homelessness, individuals fleeing or attempting to flee, domestic violence, dating violence, sexual assault, stalking, or human trafficking.

The City of Stockton was allocated a combined $6,380,677 of supplemental HOME American Rescue Plan Act funding to assist individuals or households that are homeless or at risk of homelessness, and other vulnerable populations in need of housing, rental assistance, supportive services, and non-congregate shelter.

Present Situation

The City is committed to increasing the availability of affordable housing for its most vulnerable low-income residents. Upon Council approval, and in accordance with the HOME-ARPA guidelines, the City agrees that HOME-ARPA grant funds of $6,380,677 will support the following eligible activities:

- Production or Preservation of Affordable Housing focused on homeless housing activities, not limited to acquisition, rehabilitation, and new construction.
- Tenant-Based Rental Assistance (TBRA)
- Supportive Services, Homeless Prevention Services, and Housing Counseling
- Purchase and Development of Non-Congregate Shelter
- Funded activities are supported by the Homeless Needs Assessment as outlined in the 2020-20224 Consolidated Plan and attached as part of this exhibit.

Staff recommends that the Council re-approve the resolution authorizing the acceptance, appropriation, and execution of the HOME-ARPA supplemental funding Agreement.

Revised Public Comment Period

Amendments to the 2020-2024 Consolidated Plan and 2021-2022 Annual Action Plan are being re-presented before the City Council to allow for a repeat of the public comment period required by HUD. The prior public comment period, in line with other HUD COVID-related funds, was five days and began on March 7, 2022, and ended on March 12, 2022. This five-day public comment period was not in compliance with the HUD regulations for the HOME-ARPA funding program. Per HUD guidance the public comment period must be 15-days. The republished and increased public comment period began May 31, 2022 and ended June 14, 2022. Due to the public comment period extension, the City Council must reapprove the recommended actions.

FINANCIAL SUMMARY

There is no financial impact on the City's General Fund or any other unrestricted fund because of the recommended action. The grant does not require any matching funds from the City, and 15% of the grant can be allocated for administrative and planning costs. HOME-ARPA funds will be appropriated in the Special Grants Fund, Housing Division, and EDD Administration Program.

STOCKTON CITY COUNCIL

ADOPT A RESOLUTION TO APPROVE AN AMENDMENT TO THE 2020-2024 CONSOLIDATED PLAN, AND AN AMENDMENT TO THE 2021-2022 ANNUAL ACTION PLAN, AND ACCEPT AND APPROPRIATE THE HOME INVESTMENT PARTNERSHIP PROGRAM (HOME) AMERICAN RECOVERY SUPPLEMENTAL ACT FUNDING FOR ACTIVITIES TO MITIGATE AND CONTAIN THE SPREAD OF COVID-19

On January 31, 2020, COVID-19 was declared a Public Health emergency by the United States; and on March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to begin the process of making resources available to the state to combat COVID-19, and

In response to the continued pandemic outbreak of the coronavirus disease COVID-19 HUD announced the allocation of nearly $5 billion in American Rescue Plan Act funds to help communities across the country create affordable housing and services for people experiencing or at risk of experiencing homelessness, individuals fleeing or attempting to flee, domestic violence, dating violence, sexual assault, stalking, or human trafficking, and

The City of Stockton was allocated a combined $6,380,677 of supplemental HOME American Rescue Plan Act funding to assist individuals or households that are homeless or at risk of homelessness, and other vulnerable populations in need of housing, rental assistance, supportive services, and non-congregate shelter, and

The supplemental $5 billion is allocated through the HOME Investment Partnership Program to States, Counties, and local jurisdictions. The City of Stockton is an entitlement jurisdiction that receives an annual allocation of HOME, CDBG, and ESG funding and has received notification that the City has been allocated $6,380,677 of HOME-ARPA funds, and

In accordance with the HOME-ARPA guidelines, the City agrees that HOME-ARPA grant funds of $6,380,677 will support the following eligible activities:

- Production or Preservation of Affordable Housing
- Tenant-Based Rental Assistance (TBRA)
- Supportive Services, Homeless Prevention Services, and Housing Counseling Purchase and Development of Non-Congregate Shelter; now, therefore,

//
//

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Amend the 2020-2024 Consolidated Plan, 2021-2022 Annual Action Plan (Exhibit 1).

2. Approve and accept the HOME-ARPA funding allocation of $6,380,677.

3. Approve and authorize the execution of the HOME-ARP Standard Agreement, and any associated documents, with the Department of Housing and Urban Development (HUD) to accept grant funding.

4. The City Manager, or designee, is authorized to appropriate grant funds.

5. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED April 5, 2022.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

City Clerk of the City of Stockton

CITY OF STOCKTON

SUBSTANTIAL AMENDMENT TO THE CITY OF STOCKTON 2020-2024 CONSOLIDATED PLAN AND FISCAL YEAR 2021 ANNUAL ACTION PLAN TO INCLUDE HOME-ARPA FUNDINGSP – 05 EXECUTIVE SUMMARY 91.200 (c), 91.220 (b), 91.300 (c), 91.320 (b)

On April 8, 2021, in response to the pandemic outbreak of the coronavirus disease COVID-19 the US Department of Housing and Urban Development (HUD) announced the allocation of nearly $5 billion in American Rescue Plan Act funds to help communities across the country create affordable housing and services for people experiencing or at risk of experiencing homelessness, individuals fleeing or attempting to flee, domestic violence, dating violence, sexual assault, stalking, or human trafficking.

In 2021, the City of Stockton submitted the 2021 – 2024 Consolidated Plan and the FY 2021 Annual Action to the Department of Housing and Urban Development (HUD).

To prevent and contain the spread of COVID-19 and its financial and health impacts HUD has waived certain CDBG and ESG program requirements. The CDBG 15 percent public service cap has been eliminated, the public comment period has been reduced from 30 days to five days (5) and allows for the ability to conduct virtual meetings in lieu of in-person public hearings in order to comply with national and local social distancing requirements.

SUBSTANTIAL AMENDMENT TO FY 2020-2024 CONSOLIDATED PLAN:

Amendments to the approved Consolidated Plan and the Annual Action Plan shall be required whenever the City seeks to:

1) Make a change in its allocation priorities or a change in the method of distribution of funds.
2) Carry out an activity, using funds from any program covered by the Consolidated Plan (including program income), not previously described in the Annual Action Plan; or
3) Change the purpose, scope, location, or beneficiaries of an activity.

Amendments are categorized as “substantial” or “non-substantial”. An amendment is considered “substantial” if it exceeds five percent (5%) of the City’s annual entitlement.

- SP-35 Anticipated Resources 91.215(a)(4), 91.220(c)(1,2). $6,380,677 in HOME-ARP funds is identified as additional financial resources.

CITIZEN PARTICIPATION PLAN PROCESS:

Due to COVID-19, HUD has issued guidance that reduces the public comment period from 30 days to five days (5) and that reasonable notice and the opportunity for community comment are provided. HUD also allows for the ability to conduct virtual meetings in lieu of in-person public hearings to comply with national and local social distancing requirements. A five-day public comment period begins on March 7, 2022, with the posting of the public notice in the Record, on the City of Stockton website, and through email distribution to program distribution list inviting comments through March 12, 2022.

CITY OF STOCKTON
SUBSTANTIAL AMENDMENT TO FY 2021-2022 ACTION PLAN

AP 15 Expected Resources:
Annual Action Plan is substantially amended to allocate HOME-ARPA funds to the following eligible activities to prevent and respond to the spread of COVID-19.

Program	Proposed Activity	Ending Date	Existing Budget	New Budget
HOME-ARPA	Homeless Services and Housing Activities	9/30/2030	One-time award	$5,742,610
HOME-ARPA	Program Administrative	9/30/2030	One-time Award	$638,067
Total HOME-ARPA Funding				**$6,380,677**

FY 2021-2022 Annual Action Plan

AP-35 Projects expected resources $6,380,677 HOME-ARPA Funding.

- Funding will be focused on homeless housing activities, not limited to acquisition, rehabilitation, new construction, and rental assistance.

- Eligible local nonprofits are eligible to apply for HOME-ARPA funds.

Resolution No.

STOCKTON CITY COUNCIL

ADOPT A RESOLUTION TO APPROVE AN AMENDMENT TO THE 2020-2024 CONSOLIDATED PLAN, AND AN AMENDMENT TO THE 2021-2022 ANNUAL ACTION PLAN, AND ACCEPT AND APPROPRIATE THE HOME INVESTMENT PARTNERSHIP PROGRAM (HOME) AMERICAN RECOVERY SUPPLEMENTAL ACT FUNDING FOR ACTIVITIES TO MITIGATE AND CONTAIN THE SPREAD OF COVID-19

On January 31, 2020, COVID-19 was declared a Public Health emergency by the United States; and on March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to begin the process of making resources available to the state to combat COVID-19, and

In response to the continued pandemic outbreak of the coronavirus disease COVID-19 HUD announced the allocation of nearly $5 billion in American Rescue Plan Act funds to help communities across the country create affordable housing and services for people experiencing or at risk of experiencing homelessness, individuals fleeing or attempting to flee, domestic violence, dating violence, sexual assault, stalking, or human trafficking, and

The City of Stockton was allocated $6,380,677 of supplemental HOME American Rescue Plan Act funding to assist individuals or households that are homeless or at risk of homelessness, and other vulnerable populations in need of housing, rental assistance, supportive services, and non-congregate shelter, and

The supplemental $5 billion is allocated through the HOME Investment Partnership Program to States, Counties, and local jurisdictions. The City of Stockton is an entitlement jurisdiction that receives an annual allocation of HOME, CDBG, and ESG funding and has received notification that the City has been allocated $6,380,677 of HOME-ARPA funds, and

NA-40 Homeless Needs Assessment – 91.205(c)

Introduction:

The following section describes the nature and extent of unsheltered and sheltered homelessness in the City of Stockton. The data presented in this section were collected from the Central Valley Low Income Housing Corporation (CLIHC), which acts as the Homeless Information Management System (HMIS) manager for the San Joaquin County/Stockton Continuum of Care (CoC). The San Joaquin CoC represents a network of local government agencies, as well as non-profit and private organizations, that provide services and assistance to homeless individuals and families. The goal of the CoC is to coordinate local efforts to identify and address the needs of the homeless population, provide coordinated outreach services, and to identify gaps and shortfalls where additional resources and coordination may be necessary. Though the CoC effort is led by the San Joaquin County Community Development Department, it incorporates the resources and efforts of a wide variety of jurisdictions, organizations and agencies. These include CVLIHC, the Housing Authority of San Joaquin County (HACSJ), Gospel Center Rescue Mission, Ready to Work, Community Medical Centers, Health Plan of San Joaquin, and representative from other cities throughout the county including the City of Stockton among other important organizations and agencies.

The tables provided below identify the estimated number of unsheltered and sheltered homeless individuals and families in the City of Stockton. The tables present data collected through the 2019 PITC and 2018 annual shelter count. It should be noted that preliminary results indicate an increase in the total number of unsheltered homeless included in the 2019 PITC, compared to the 2017 count. The increase may be attributed to improvements in the survey method and increased outreach, though actual increases in the size of the unsheltered homeless population are also likely. The data on the number of sheltered homeless residing in emergency and transitional housing facilities are those reported in the HMIS system for facilities located within the City of Stockton.

Homeless Needs Assessment

Population	Estimate the # of persons experiencing homelessness on a given night		Estimate the # experiencing homelessness each year	Estimate the # becoming homeless each year	Estimate the # exiting homelessness each year	Estimate the # of days persons experience homelessness
	Sheltered	Unsheltered				
Persons in Households with Adult(s) and Child(ren)	398	0	6,250	3,520	5,980	0
Persons in Households with Only Children	3	0	75	60	70	14
Persons in Households with Only Adults	426	921	2,000	900	1,600	0
Chronically Homeless Individuals	83	183	600	250	0	0
Chronically Homeless Families	3	0	25	12	0	0
Veterans	63	39	250	120	0	0
Unaccompanied Child	19	23	760	600	0	35
Persons with HIV	14	0	25	10	0	0

Table 31 - Homeless Needs Assessment

Data Source Comments:

Indicate if the homeless population is: Has No Rural Homeless

If data is not available for the categories "number of persons becoming and exiting homelessness each year," and "number of days that persons experience homelessness," describe these categories for each homeless population type (including chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth):

The 2019 PITC identified 2,629 unduplicated homeless individuals countywide, including 1,558 unsheltered homeless and 1,071 persons in emergency shelters and transitional housing facilities. The 2017 PITC identified a total of 1,552 unduplicated homeless individuals, including 567 unsheltered homeless and 985 persons in emergency shelters and transitional housing facilities. Overall, this represents a 73 percent increase in the number of homeless individuals countywide. Note, however, that the PITC may not represent a complete census of the homeless population. Due to methodological improvements, the 2019 count likely captured a larger proportion of the existing homeless population, which implies that the increase in the number of surveyed homeless individuals could be less pronounced that it would otherwise appear.

Additional information provided by the CVLIHC indicates that 2,325 unique individuals utilized emergency shelter facilities within the City of Stockton during the 2018 calendar year. The reported average length of stay for shelter residents who exited a facility during the 2018 calendar year was 42 days, while the median length of stay was seven days. The average length of stay for residents still residing in a shelter at the end of 2018 was 275 days, with a median stay of 76 days. For households with both adults and children, the average length of stay in an emergency shelter was 30 days, compared to 66 days for veterans and households with adults only.

There were also 290 persons who resided in transitional housing in Stockton in 2018. Note that there may be some duplication of persons that resided in emergency shelter facilities, but then moved into a transitional housing facility, during the same calendar year. The reported average length of stay for transitional housing residents who exited a facility during the 2018 calendar year was 178 days, while the median length of stay was 92 days. The average length of stay for residents still residing in transitional housing at the end of 2018 was 206 days, with a median stay of 148 days. The average length of stay in transitional shelter facilities for both family households (i.e., both adults and children), adults-only households, and veterans was 230 days.

Nature and Extent of Homelessness: (Optional)

See discussion below.

Estimate the number and type of families in need of housing assistance for families with children and the families of veterans.

Household Type	Unsheltered (a)	Sheltered	
		Emergency**	Transitional**
Adults	799	435	118
Children	4	224	55
Unknown	119	0	0
Total	**922**	**659**	**173**
Chronically Homeless (Adults and Head of Households)	183	72	n.a.
Families with Children	*n.a.*	*92*	*18*
Mentally Ill	*170*	*103*	*19*
Substance Abuse	*280*	*125*	*44*
Elderly (60 years and over)	*42*	*72*	*7*
Unaccompanied Youth	*n.a.*	*13*	*5*
Veterans	*39*	*27*	*34*

Note:
(a) Data presented as a subset of the total reported unsheltered population (e.g. families with children, mental health problems, etc.) and only represents information for the 469 unsheltered individuals who were surveyed as part of the PITC. Another 453 unsheltered individuals were observed, but not surveyed for the information provided in this section of the table

Table 32 - Unsheltered and Sheltered Homeless by Population Type

Data Source: 2019 PIT, HMIS

Table 32 report the number of homeless persons in the City of Stockton during the 2019 PITC. There were a total of 922 unsheltered persons in Stockton on the night of the PITC, including 799 homeless adults and four children, as well as 119 persons whose age could not be identified. The PITC recorded 659 persons residing in emergency shelters, including 435 adults and 224 children. There were 173 persons residing in transitional housing facilities, including 118 adults and 16 children. While data was not collected regarding the number of unsheltered families with children there were a total of 92 sheltered families with young children residing in emergency shelters in Stockton, and 18 families with children in emergency shelter facilities. Additional data from the 2018 annual shelter count identified 209 families with children residing in emergency shelters and 23 residing in transitional housing throughout 2018.

The PITC also did not collect information regarding unsheltered unaccompanied minors, however, 13 unaccompanied minors were living in emergency shelters in Stockton, while five unaccompanied minors were living in transitional housing in Stockton.

The count identified a total of 280 unsheltered individuals with substance abuse issues, and 170 with mental health issues. Another 169 sheltered persons in the City of Stockton experienced substance abuse issues, while 122 experienced mental health issues.

The PITC identified a total of 39 unsheltered veterans and 42 individuals age 62 years or older living in the City of Stockton. There were 61 sheltered veterans living in Stockton as of the 2019 PITC, and 79 sheltered individuals age 62 years or older.

Note that the unsheltered figures provided in the bottom section of Table 32 (i.e., families with children, individuals with mental health issues, etc.) only includes information for the 469 individuals who were surveyed as part of the 2019 PIT, and does not include another 469 individuals whom surveyors observed, but did not interview and did not collect the detailed information on, similar to that provided at the bottom of Table 32. Nature and Extent of Homelessness

Describe the Nature and Extent of Homelessness by Racial and Ethnic Group.

Racial/Ethnic Group	Unsheltered	Sheltered	
		Emergency	Transitional
American Indian	11	7	0
Asian	25	18	4
African American	249	265	52
Pacific Islander	9	16	4
White	476	301	106
Multi-Racial	13	45	4
Unknown	139	7	3
Total, All Racial Groups	**922**	**659**	**173**
Non-Hispanic/Latino	488	449	133
Hispanic/Latino	245	202	34
Unknown	189	8	6
Total, All Ethnic Groups	**922**	**659**	**173**

Table 33 - Unsheltered and Sheltered Homeless by Race and Ethnicity

Data Source: 2019 PIT, HMIS

Table 33 identifies the number of sheltered and unsheltered homeless persons present within the City of Stockton by racial and ethnic group. Based on these data, around 52 percent of the unsheltered homeless identified in the 2019 PITC were White, with African American individuals making up the second largest sub-group at 27 percent of the total. Homeless persons living in emergency and transitional shelters had similar characteristics, with 51 percent of the population in emergency shelters

being White and 33 percent being African American. The population living in transitional shelters was 46 percent White, and 40 percent African American. In terms of ethnic heritage, an estimated 27 percent of unsheltered homeless were Hispanic, while 53 percent were non-Hispanic, while the ethnic heritage for another 20 percent could not be determined. Around 32 percent of the population residing in emergency shelters were Hispanic, while 66 percent were non-Hispanic. Ethnic heritage could not be determined for two percent of unsheltered individuals. Within transitional housing, 31 percent of the population was Hispanic, 68 percent was non-Hispanic, and ethnic heritage could not be determined for one percent of the population.

Describe the Nature and Extent of Unsheltered and Sheltered Homelessness.

As described previously, the data reported in Table 32 and Table 33 indicate that there were approximately 922 unsheltered homeless on a given night within the City of Stockton in 2019. The majority were adults, with only four children identified in the count. The count data indicate that there were 659 persons in emergency shelter, and 173 persons in transitional housing on the day of the survey. Roughly one-third of individuals residing in emergency shelters were children, including 92 families with children residing in emergency shelters. A little less than a third of transitional housing residents were children, with 18 families with children living in transitional housing.

Federal regulations provide special priority for four distinct sub-populations, including chronically homeless individuals and families, homeless veterans, and unaccompanied and transition age youth. The 2019 PITC identified 39 unsheltered veterans and 183 chronically homeless persons. The PITC did not report unsheltered unaccompanied youth within the City of Stockton. Additional data from the 2019 PITC indicate that there were 27 homeless veterans in emergency shelters in Stockton, and 34 veterans in transitional housing facilities. There were 183 unsheltered chronically homeless adults and head of households, and 72 chronically homeless adults and head of households in emergency shelters within the City of Stockton. There were 13 unaccompanied youth in emergency shelters and five unaccompanied youth in transitional housing.

Discussion:

Not applicable.

NA-45 Non-Homeless Special Needs Assessment - 91.205 (b,d)

Introduction:

The following section describes, to the extent practicable, the housing needs of persons who are not homeless, but require supportive housing. This is done through a brief analysis of the characteristics and housing needs of six special needs groups, including:

- Elderly (defined as 62 years of age and over)
- Frail elderly (defined as an elderly person who requires assistance with three or more activities or daily living, such as bathing, walking, and performing light housework)
- Persons with mental, physical, and/or developmental disabilities
- Persons with alcohol or other addictions
- Victims of domestic violence, dating violence, sexual assault, and stalking

These housing needs were identified through consultations with various organizations and service providers representing each of the special needs groups. The facilities and services available to meet the needs of these subpopulations are discussed in the Market Analysis (MA-35) section of this plan.

Describe the characteristics of special needs populations in your community:

Elderly and Frail Elderly

According to the 2011-2015 CHAS, 27,694 Stockton households contained at least one resident age 62 and over, accounting for 30.0 percent of total households. There were 9,329 households that contained at least one person age 75 and over, representing 10.1 percent of all Stockton households. The 2013-2017 ACS indicate that 43.2 percent of persons age 65 and over are disabled. Approximately 30.7 percent of disabled individuals age 65 and have ambulatory difficulty, while 23.0 percent have difficulty living independently, 13.5 percent have a cognitive disability, and 12.0 percent have difficulty with self-care. Roughly 15.0 percent have difficulty hearing, while eight percent have vision difficulty. A person may have more than one disability.

Persons with Disabilities

According to the 2013-2017 ACS, an average 13.7 percent of Stockton residents had a disability, regardless of age. The largest disabled subpopulation included those between the ages of 18 and 64, which accounted for 56.1 percent of all disabled persons. The second largest subgroup was those age 65 and over, which accounted for 35.9 percent of all disabled persons. Disabled children age five to 17 represented 7.6 percent of all disabled persons. Disabled children under five years of age represented 0.3 percent of all disabled persons. The most common disabilities included ambulatory difficulties, which affected approximately 60 percent of the disabled population. Cognitive and independent living difficulties impacted 43 percent and 40 percent of disabled individuals, respectively. The remaining disability categories, including hearing, vision, and self-care difficulties each impact around 20 percent of all disabled persons.

Persons with Alcohol/Drug Addiction

According to the 2017 U.S. Department of Health and Human Services conducts the National Survey on Drug Use and Health (NSDUH) approximately 11.2 percent of the national civilian, non-institutionalized population, age 12 years and over used illicit drugs during the prior month. Estimates for California indicate that approximately 13.1 percent of the statewide population used illicit drugs during the month prior to taking the survey. Nationally, around 52 percent of the population use alcohol, with 47 percent being binge drinkers. In California, approximately 50 percent of the population are alcohol users, with 24 percent being binge drinkers.
While no city-level data is available through the NSDUH, the 2019 PITC identified 280 unsheltered homeless individuals, 125 individuals in emergency shelter, and 44 individuals in transitional housing who acknowledged suffering from alcohol and/or drug addiction.

Victims of Domestic Violence

The available data on the prevalence of domestic violence, dating violence, sexual assault, and stalking are quite limited. As described earlier, the WCYFS assisted 3,000 victims of domestic violence and of sexual assault via their 24-hour help-lines in fiscal year 2017/2018. While not all victims of domestic violence or sexual assault require housing assistance, the WCYFS provided emergency shelter to 305 unique individuals at the DAWN House facility in fiscal year 2018/2019. The Women's Center Safe House facility housed 101 homeless and runaway youth in fiscal year 2017/2018. Between the Safe House and Opportunity House facility, the WCYFS housed 127 young adults and seven children, and provided services to 111 homeless youth at their Drop In Center in fiscal year 2017/18. The WCYFS also provides essential services for victims of human trafficking and operates the County's Human Trafficking Task Force. In fiscal year 2017/2018, the WCYFS assisted an average of three and a half victims per month and identifies 44 a risk or confirmed CSECs.

What are the housing and supportive service needs of these populations and how are these needs determined?

Elderly and Frail Elderly

The Stockton Housing Element Background Report identifies, and consultations confirm, that three main factors that contribute to the ability of elderly households to secure and maintain adequate housing, including transportation, income, and housing. Many elderly persons are unable to drive and depend on public transportation, transportation provided by others, or walking. The elderly often rely on fixed income sources, like Social Security or Supplemental Security Income (SSI). Recipients often have difficulty finding market-rate housing that fits their budget. Consultations indicate that the elderly are one of the fastest-growing populations accessing food assistance. Many elderly households consist of a single person living alone or a couple, and often desire smaller more affordable housing units that require less maintenance. Elderly homeowners not living in these lower cost, lower maintenance units

may require assistance with regular household and yard upkeep.

Persons with Disabilities

Disabled persons housing needs depend on the nature and severity of their disability. Physically disabled persons require modifications to their housing units, such as the installation of wheelchair ramps, elevators or lifts, accessible fixtures and appliances, handrails, etc. In those cases where a person's disability prevents them from operating a vehicle, proximity to services and access to quality public transportation is critical. When disability prevents an individual from working or limits income, housing costs are challenging. The elderly disabled, as well as those with employment and independent living difficulties, may rely on Supplemental Security Income (SSI), which is often insufficient to afford market rate housing. Persons with severe physical or mental disabilities may also require supportive housing, nursing facilities, or care facilities.

Persons with Alcohol/Drug Addiction

Organizations that provide supportive housing and services for addicts indicate that these persons require a significant amount of intervention, treatment, complementary services, and case management. Resident group quarters facilities typically provide the most appropriate settings for these activities. Gospel Center Rescue Mission's (GCRM) New Life Program (NLP) provides residential addiction treatment for men, women, and families, with a capacity for 100 beds. New Directions Alcohol and Drug Awareness program also provides group quarters residential alcohol and drug treatment, with a capacity of 30 inpatient beds and 45 patients via outpatient therapy. lack of available affordable housing is the most important housing related issues participants face, as many participants have difficultly securing adequate housing following completion of their program, in some cases resulting in their return to unsafe and/or unhealthy living environments.

Victims of Domestic Violence

According to WCYFS staff, there is no "typical client" as it pertains to the provision of services to persons experiencing domestic violence, sexual assault, and/or stalking. Victims can require a wide array of housing assistance and social services. Housing needs can range from simple emergency shelter and transitional housing, to the need for protective shelter. Social service needs can range from crisis counseling, group therapy, and educational programs to hospital response, accompaniment to law enforcement agencies and court proceedings, and legal assistance. Other important services for persons experiencing, or recovering from, domestic violence can include mental healthcare, childcare, employment counseling and training, and transportation, though housing remains the most prevalent need. Victims of domestic violence, and related issues, can have a wide variety of housing needs.

Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:

Not applicable.

Discussion:

Regardless of special needs status, consultations with public and private service sector providers indicate that the most immediate issue facing those who are not homeless but require supportive housing is the ability to find landlords willing to accept HCVs. Data provided by the HACSJ indicate that of the 5,174 HCV's available countywide, only 78 percent were utilized as of October 2019, indicating that 1,150 HCV recipients are unable to secure housing despite having a HCV. This is due to a confluence of factors including the stigma associated with HVC recipients and the difficulty of finding a willing landlord who has a vacant unit that also meets quality standards and rent limits set by HUD. Stakeholders report that in many cases, landlords are discouraged from accepting HCVs because the per unit operating costs and restricted rental rates exceed the Fair Market Rents set by HUD, which would result in a net deficit to the landlord. As an incentive for landlords to accept HCVs, in 2018 the CVLIHC began offering one-time up-front cash payment of $1,500 for units rented below FMR, and $500 for units rented above FMR. Additionally, the CVLIHC hired a staff person whose sole job is to build relationships with landlords and encourage them to rent to HVC holders. While CVLIHC staff indicate the housing locator and cash incentives have expanded the pool of landlords willing to accept HCVs, demand for HCVs still dramatically exceeds supply. For more information regarding the potential revenue deficit landlords who accept HCVs face, see MA-15: Housing Market Analysis: Cost of Housing.

Additionally, stakeholders identified pro-active and sustained code enforcement for single-family housing, as well as market rate multi-family housing, and stronger renter protections as a serious housing need. For example, numerous stakeholders indicate that lower income residents who live in poorly maintained rental units are hesitant to file code enforcement complaints out of fear of retaliatory actions, such as eviction. Fred Shiel of STAND Affordable Housing indicates that this is especially true of the city's undocumented migrant population, who fear deportation in addition to eviction. However, one important caveat noted by stakeholders representing the city's elderly population is that code enforcement efforts must take into account the limited ability of many elderly residents, both physical and financial, to maintain their homes in accordance with adopted codes, and that punitive actions, such as fines, should not cause an undue burden.

NA-50 Non-Housing Community Development Needs – 91.215 (f)

Describe the jurisdiction's need for Public Facilities:

The CDBG program regulations identify a broad range of eligible activities, including but not limited to acquisition and disposition of real property, construction of public facilities and improvements, and the provision of public services, among a wide variety of other categories of eligible activities. However, the regulations also identify certain ineligible activities, including buildings (or portions thereof) used for general government activities, general government expenses, political activities, purchases of equipment, and operating and maintenance expenses.

The last exclusion identified above pertaining to operating and maintenance expenses is particularly important in Stockton, which faces a significant deferred maintenance burden. According to the 2019-2024 Capital Improvement Program (CIP), the Facilities Conditions Assessment completed by the City in fiscal year 2017/2018 identified more than $700 million in deferred maintenance costs for City facilities, without accounting for maintenance and repair needs of City Hall. Nonetheless, the CIP identifies a variety of other capital improvement needs that are eligible for CDBG funding, including construction and reconstruction of various public facilities, including police and fire facilities, parks, golf courses, libraries, and other City buildings and infrastructure. The CIP includes public facility projects totaling $382 million over the current five-year planning period, which accounts for around 35 percent of the $1.1 billion long-term CIP.

This section of the Consolidated Plan does not specifically identify the portion of the CIP that is anticipated to be funded using CDBG dollars, as the City evaluates and priorities projects under the CIP on an annual basis based on the availability of funding from a wide variety of sources, including CDBG. Nonetheless, the first four years of the CIP are financially constrained, but does reflect some projects where funding has been identified. The fifth year of the CIP reflects the City's unfunded needs in addition to projects with identified funding. For example, the CIP budgets approximately $39.7 million, or roughly ten percent, of the CIP budget for public facility improvements in the first four years of the program, while the remaining $342 million, or 90 percent, of the CIP public facilities budget is planned for the fifth year. Projects budgeted for the first four years of the CIP, some of which have identified funding sources, tend to include maintenance and minor renovation projects, such as ADA compliance, repaving, HVAC repairs, roof replacement and construction, and recreation center renovations, only some of which are eligible for CDBG funding. More costly unfunded projects budgeted for the fifth year include a City facility assessment rehabilitation program, reconstruction of two fire stations, construction of a regional emergency services dispatch center, and construction of a new Police Department firing range, most of which would be eligible for CDBG funding.

How were these needs determined?

The jurisdiction's need for public facilities, as described above, was primarily identified through an evaluation of the City of Stockton CIP, as well as various Stockton General Plan elements. Additional needs were identified through consultations with a variety of affordable housing stakeholders, homeless service providers, the Mayor's Office (broadband needs), and other social service organizations in

Stockton. Additional information was added based on consultations conducted during the recent General Plan update process.

The CIP represents a five-year plan for the implementation of public projects necessary to maintain and improve the public works of the City and to implement the Stockton General Plan. This includes the development and maintenance of buildings, parks, golf courses, utilities, and the transportation system, among other components. To identify needs to be incorporated into the CIP, Public Works staff consulted with other City departments, as well as a variety of external agencies, including the Council of Governments and the Regional Transit District. A public participation process was also utilized to solicit input from the community at large. Based on this input, staff from Public Works and the Department of Municipal Utilities developed a list of proposed projects, which was then coupled with available revenue projections in order to identify potential funding sources including, but not limited to, the General Fund, Public Facilities Fees, Enterprise Funds, and various State and federal grants. Upon approval of the 2019-2024 CIP, the City estimated that implementation of the complete CIP would cost roughly $1.1 billion. Of that amount, funding sources have been identified for only $592.3 million.

Describe the jurisdiction's need for Public Improvements:

The City's 2019-2024 CIP identifies improvements to the transportation system necessary to improve traffic flow, safety, and personal mobility, many of which are eligible for CDBG funding. They are similarly intended to accommodate growth, foster economic development, promote diverse transit modes, reduce air pollution, and to preserve and expand the existing transportation network. Projects associated with the transportation component of the CIP are primarily focused on new bicycle and pedestrian paths, road diets, street resurfacing, neighborhood traffic calming initiatives, projects that enhance safe routes to school, bridge repairs and replacements, and curb and gutter repairs. The need for improved pedestrian facilities was seconded by residents of the Conway Homes affordable housing development in South Stockton. According to Pandora Crowder, President of Conway Homes Resident Council, the neighborhood around Conway Homes lacks sidewalks and sufficient pedestrian infrastructure to facilitate safe travel.

The Public Works Department has been successful in securing grant funding for transportation related projects. As a result, the CIP includes a significant list of transportation projects that have either already secured grant funding, or will be included in applications for grant funding in the near future. However, the CIP also indicates that an annual budget of approximately $10 million would be necessary to adequately resurface pavement in such a way as to simply maintain the roadway network in its existing condition. The potential cost could increase significantly if streets warrant reconstruction due to severe stress, among other factors, which may also make those improvements eligible for CDBG funding. Despite this, the existing CIP allocates only $2.5 million annual for roadway maintenance, with an additional $2.6 million in additional federal funds anticipated in the later three years of the plan.

Improvement and expansion of the existing water, wastewater, and storm water utilities are primarily funded through utility user fees, connection fees, and Public Facilities Fees. According to the CIP, the Wastewater Enterprise is currently planning for Phase II of its Capital Improvement and Energy

Management Plan (CIEMP), which represents a $190 million project intended to repair, replace, and upgrade the Regional Wastewater Treatment Facility, some components of which are over 60 years old and are running past their effective operating lifespans. To complement the CIEMP, Wastewater Enterprise also proposes the use of funds for pump station and pipeline repair and replacement in areas with undersized and/or aged infrastructure. The CIP also includes an update to the Sewer Master Plan in the fiscal year 2019/2020 budget. Under CDBG regulations, many of these improvements may be eligible for CDBG funding so long as they pertain to construction or reconstruction of facilities, versus ongoing maintenance or repairs.

The CIP also indicates that unless the Stormwater Enterprise is permitted to increase the user fee rate, which has remained unchanged since 1992, the utility will be insufficiently funded to conduct permit compliance activities and needed capital improvements. Without additional revenues, the utility is unlikely to be able to fund improvements necessary to correct existing pipeline and pump station deficiencies. To the extent that these facilities include construction, they may be eligible for funding.

How were these needs determined?

The jurisdiction's need for public improvements, as described above, was identified through an evaluation of the adopted CIP, as well as various other General Plan documents. Additional needs were identified through consultations with affordable housing stakeholders and developers, homeless service providers, and other agencies in Stockton.

Describe the jurisdiction's need for Public Services:

Under CDBG regulations, entitlement funds can be used to fund public services to the extent that those services are new or represent a quantifiable increase in the level of service.

Consultations with a variety of stakeholders, ranging from affordable housing developers to public and non-profit service providers, indicate the highest priority service needs are those that enable residents to secure and maintain quality affordable housing, as well as transportation improvements that provide better connectivity between employment opportunities and the existing and planned affordable housing inventory. Numerous public, private, and non-profit service providers indicate that the existing public transportation system is not robust enough (e.g., too few routes, infrequent headways) to get workers to and from their jobs in a timely manner, particularly for those who work in many of the industrial areas which are not well serviced by public transit. This has made it difficult for lower-income residents, particularly those attempting to exit homelessness or those who are nearing the end of Rapid Rehousing Assistance, to maintain steady employment and the earned income stream necessary to secure and maintain adequate housing. While some service providers provide transit to and from work as part of their programs, consultations indicate it is extremely costly to do so on an ad-hoc basis.

Other public services that would better enable lower-income residents to secure the earned income necessary to maintain stable housing include more affordable childcare options. While some programs like First 5 California or the Family Resource and Referral Center of San Joaquin County do offer childcare services for lower-income residents, stakeholders indicate they are heavily impacted. Ongoing

mental health care is another primary need for individuals at-risk of homelessness. There is a perceived pattern that homeless and at-risk persons facing mental health issues reach a point of crisis, receive assistance, only to repeat the cycle once they are determined to be "stabilized" and mental health services are reduced. Consultations also revealed there are a number of programs throughout the city and county for services such as vocational/life skills training, case management, and accesses to health care services which could be better coordinated and advertised to the public. Not only would this help to make services within the city and county more accessible, but it would also help to identify gaps in service provision.

While public services related to securing and maintaining housing were identified as one of the highest priorities, enhanced crime reduction is also a priority. With a long history of high crime rates, including violent crime, the City Council initiated a process in January 2012 to develop the Stockton Marshall Plan to reduce crime and improve public safety. Since initiation of the Marshall Plan, the City made significant strides in its fight against crime. Data obtained through the U.S. Federal Bureau of investigation's (FBI) Uniform Crime Reporting (UCR) database shows that between 2012 and 2016 Stockton's total Part I crime rate (i.e., the number of Part I crimes committed per 100,000 residents) fell 22 percent. Part I crimes consist of violent crimes (i.e., murder and non-negligent homicide, rape, robbery, and aggravated assault) and property crimes (i.e., burglary, motor vehicles theft, larceny-theft, and arson). During the same time-period, Stockton's violent crime rate decreased eight percent, while the property crime rate decreased 26 percent. Due to changes in the City's reporting practices, data collected after 2016 is not comparable to previous years, though the data indicate that between 2017 and 2018 Stockton's total Part I crime rate increased four percent, primarily driven by a six percent increase in the rate of property crimes committed. During this time, the City's violent crime rate decreased one percent. Despite these improvements, crime rates in the City of Stockton are well above the statewide average.

How were these needs determined?

The jurisdiction's need for public services, as described above, was primarily identified through a review of applicable City planning documents, including the 2015-2020 Consolidated Plan and associated Consolidated Annual Performance Review (CAPER) documents, as well as applicable General Plan document. Additional needs were identified through consultations with a variety of affordable housing stakeholders, homeless service providers, social service providers, and City staff.

File #: 22-0511, **Version:** 1

APPROVE A MOTION TO JUSTIFY EXCEPTION TO THE COMPETITIVE BID PROCESS AND ENTER INTO SERVICE AGREEMENTS WITH EMPOWER RETIREMENT, LLC, FOR INVESTMENT AND RECORDKEEPING ADMINISTRATION SERVICES FOR THE 457(B), 457(B) PART-TIME, TEMPORARY, SEASONAL, AND 401(A) DEFERRED COMPENSATION PLANS

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Approve entering into the service agreements with Empower Retirement, LLC, for investment and recordkeeping administration services for the 457(b), 457(b) Part-Time, Temporary, Seasonal employees, and 401(a) Deferred Compensation Plans;

2. Authorize the City Manager to execute one-year service agreements with the option of two (2), one (1) year extensions, for investment and recordkeeping administration services; and

3. Approve findings pursuant to Stockton Municipal Code 3.68.070 in support of an exception to the competitive bidding process.

It is also recommended that the City Manager be authorized to take necessary and appropriate actions to carry out the purpose and intent of the motion.

Summary

The City of Stockton offers two Section 457(b) Plans and one Section 401(a) Plan. One of the 457(b) Plans is a voluntary plan for full time employees. The second Section 457(b) Plan is a mandatory plan for part-time, seasonal, and temporary employees and serves as a mandated Social Security replacement plan for employees not eligible for enrollment in the California Public Employees Retirement System (CalPERS) due to the City not participating in Social Security. The 401(a) Plan exists for specifically contracted obligations that have been in place over various periods of time.

The City entered into a five-year service agreement with Empower Retirement, LLC, previously known as MassMutual, on May 1, 2014 to provide investment and recordkeeping administrative services for the City's 457(b) and 401(a) plans, with the option of two (2), one (1) year extensions. Upon expiration of this agreement, an RFP was issued.

On April 21, 2021, the issuance of a Request for Proposal (RFP) for Plan Provider and Recordkeeping services for these plans was approved by the City Manager. Human Resources staff worked with Shuster and the Procurement Division to complete the Request for Proposal (RFP) process. The RFP responses were received on April 14, 2022.

Recently, there has been a dramatic increase in interest rates in the stock market which could potentially have a negative impact to plan participants if a provider change was made for record-keeping and administrative services. The Fixed Account in the City of Stockton's 457(b), 401(a), and Part-time plans have a market value adjustment (MVA) that can be par, negative, or positive which only comes into play when a contract is terminated. When the RFP was published, the Fixed Account MVA was par, therefore a contract termination would not have had a negative impact on plan participants. With the recent interest rate increases in the fixed income marketplace, the MVA for the Fixed Account in the City's plans has gone from par to negative in a very short timeframe.

If the City were to change service providers for investment and recordkeeping services and the Fixed Account contract was terminated and assets were liquidated, the approximate financial loss to employees would be $2,300,000 as of the end of April 2022. This loss not only negatively impacts the participants but would also have a negative impact on the recordkeeping and administrative expenses of the plan and could also negatively impact the fixed interest rate offered by alternative providers.

DISCUSSION

Background

The City sponsors a voluntary employee-funded retirement savings program through a Section 457 Plan for the full-time employees, a mandatory Section 457 Omnibus Reconciliation Act of 1990 Plan (OBRA) for the part-time, seasonal, and temporary employees, and a Section 401(a) Plan for specified individual(s)/groups. Each plan is held for the exclusive benefit of eligible participants and their beneficiaries.

In October 1972, Council adopted Resolution 30,047 providing for a deferred compensation Section 457 Plan for specific full-time employees of the City. In 1978, the ability to participate in the voluntary plan was opened to all bargaining units with the exception of safety employees. Participation in the Section 457 Plan was extended to the Fire Unit in 1981 and to the Police Unit in 1984. Currently, full-time employees in all bargaining groups have the ability to participate in the voluntary full-time Section 457 Plan.

In July 1991, the City established a Section 457 OBRA Plan for all part-time, seasonal, and temporary employees, who are not eligible for enrollment in the City's CalPERS plan, to provide a retirement plan alternative to Social Security, since the City does not participate in Social Security. The Omnibus Reconciliation Act of 1990 (OBRA) introduced into law IRC Section 3121(b)(7)(f), which provided for an alternative to the Federal Insurance Contributions Act (F.I.C.A.), a Social Security tax. The City automatically reduces the eligible employees' wages each pay period by 7.5% and has this amount deferred under this plan. As a result, employees of a government entity may deposit money into a private retirement plan instead of Social Security, as defined in Section 457(h) of the Internal Revenue Code.

In July 2009, pursuant to the agreement extension between the City and the Fire Unit, the City established a 401(a) Plan as an investment vehicle in which members of the Fire Unit were permitted to convert ninety-six (96) hours of longevity vacation leave and credit it to a tax deferred 401(a) Plan. In addition to the 96-hours, a 1% benefit for the Fire Unit was paid by the City into the 401(a) Plan

until July 2010, when the 1% benefit contribution was redirected by a 1% contribution to a Health Reimbursement Account (HRA). Since 2008, participation in the 401(a) Plan has been extended to the City Manager.

Since the establishment of the 457 plans in 1972, the City has had a variety of providers for investments and recordkeeping services, such as Guaranty Savings, American Savings, Sacramento Savings, Stockton Savings, and the J & W Seligman Group. In 1983, ICMA-RC began providing investment and recordkeeping services for the City, and in 1990, the City added The Hartford as an investment and recordkeeping option to employees. The Hartford provided services until they were purchased by Empower Retirement, LLC in late 2012. Empower Retirement, LLC assumed the contractual obligations of The Hartford to serve as a co-plan provider and recordkeeper alongside ICMA-RC.

Present Situation

By remaining with Empower Retirement, LLC for investment and recordkeeping services, the City protects the plan and participants from a negative financial impact. Staff will work with the City's fiduciary consultant and continue to monitor the interest rate environment and the impact to the fixed account.

Findings

Stockton Municipal Code section 3.68.070 provides an exception to the competitive bidding process in cases where the City Council has approved findings that support and justify the exception. Below are proposed findings which, if adopted by Council, constitute sufficient grounds for making such an exception:

1. Sole Source - Empower Retirement, LLC has provided investment and retirement administrative services for the City since 2014. As discussed in this report, changing service providers at this time could result in either significant financial losses to employee participants with assets in fixed accounts, and/or cause all employee participants to be negatively impacted with higher fees.

FINANCIAL SUMMARY

There is no administrative cost to the City associated with the Section 457 and Section 401(a) Plans. Each Section 457 Plan is a retirement savings program fully funded by the participants. The Section 401(a) Plan is an employee/employer funded Plan, with City contributions determined by employment contract or, if applicable, labor agreements.

Attachment A - Agreement Empower Retirement, LLC - 401(a)
Attachment B - Agreement Empower Retirement, LLC - 457(b)
Attachment C - Agreement Empower Retirement, LLC - 457(b) Part-time / Temporary / Seasonal

RESTATED
MASTER SERVICES AGREEMENT

This Restated Master Services Agreement ("**Agreement**") is dated July 1, 2022 ("**Effective Date**") and sets forth the general terms and conditions under which Empower Retirement, LLC will provide Services to the undersigned Plan Sponsor with respect to the employee benefit plan(s) sponsored by Plan Sponsor, as identified in the attached Schedules (the "**Plan**" or "**Plans**"). This Agreement amends and restates the prior Administrative Services Agreement entered into between the parties in its entirety.

1. DEFINITIONS

"**Affiliate**" means a corporate entity that directly or indirectly is controlled by or is under common control with a party, including any entity that conforms to this definition after the effective date of this Agreement.

"**Agreement**" includes this Master and any Exhibits, Schedules, notices and other documents attached, incorporated or referenced herein.

"**Business Day**" means any day, and only for as many hours as, the New York Stock Exchange is open.

"**Code**" means the Internal Revenue Code of 1986, as amended from time to time.

"**Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Data Protection Laws**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Direction**" and "**Direct**" and their similar terms shall mean the instruction, authorization, or direction given to Empower by the Plan Sponsor, another fiduciary of the Plan, or a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or another fiduciary. Plan Sponsor directs Empower to process certain Plan transactions based solely on Participant instruction under the terms of this Agreement.

"**Empower**" and "**Empower Retirement**" refer to Empower Retirement, LLC and its Affiliates with respect to products and Services offered in the retirement markets, including but not limited to recordkeeping and other financial services.

"**Information Security Breach**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Investment Options**" means those investment options made available under the Plan based on Plan Sponsor or another Plan investment fiduciary designated by the Plan Sponsor (other than Empower or one of its Affiliates).

"**Participant**" shall mean an employee, former employee, participant, former participant, member, beneficiary or alternate payee who is or may be entitled to participate in or receive benefits under the Plan.

"**Personal Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Administrator**" means a designated employee or committee, or a third party retained by Plan Sponsor or named in the Plan (other than Empower or one of its Affiliates), to be the "plan administrator" and "named fiduciary" as defined by applicable law.

"**Plan Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Sponsor**" means the Plan Sponsor identified above, the Plan Administrator, named fiduciaries, and other delegates of the Plan Sponsor (other than Empower or one of its Affiliates) as dictated by the context.

"**Services**" means the services provided by Empower or an Empower Affiliate, as applicable, acting as a service provider Directed by the Plan Sponsor to perform such Services under an applicable Schedule. Empower shall provide the Services in a non-fiduciary capacity (except where Empower acknowledges its fiduciary status in writing). The provision of Services shall be governed by the terms and conditions set forth in this Agreement, by applicable law and regulations and any additional terms and conditions contained in the applicable Schedule.

2. SCOPE OF THE AGREEMENT

This Agreement sets forth the terms and conditions pursuant to which Plan Sponsor may receive Services from Empower or an Empower Affiliate, as the case may be, pursuant to a separate Services Schedule attached hereto. These terms and conditions will be deemed to be incorporated by reference into each and every Schedule entered into between the parties. Each Schedule will be a separate agreement between Plan Sponsor and the Empower Affiliate that enters into the Schedule. All references to "Empower" in this Agreement will be deemed references to Empower or the Empower Affiliate, as the case may be, that entered into the Schedule.

3. FEES/CHARGES & FEE DISCLOSURES

3.1 Fees / Charges. Plan Sponsor agrees to pay Empower for the Services. Unless otherwise Directed by the Plan Sponsor, the Plan Sponsor hereby Directs Empower to deduct applicable Plan expenses from the Plan and/or Participant accounts, as applicable.

4. CONFIDENTIALITY

4.1 Confidential Information. In order to perform the Services, both parties may have access to certain information of the other party, including, without limitation, trade secrets, commercial and competitively sensitive information of the party related to business methods or practices, and proprietary software or websites of a party ("**Confidential Information**"). For the purpose of clarity, any software or website owned, licensed, or made available by Empower ("**Empower Software**") is Confidential Information of Empower. The parties mutually agree to hold all Confidential Information of the other party in confidence and not to disclose any Confidential Information of the other party to anyone except the parties' Affiliates, suppliers, and respective personnel in connection with the performance or receipt of Services hereunder, or as otherwise directed or approved by the other party or its agents. Confidential Information does not include: information that is otherwise in the public domain through no action of the non-disclosing party; information that is acquired by a party from a person other than the other party or its agents without any obligation of confidentiality; or information that is independently developed by a party without reference to the Confidential Information of the other party.

4.2 Permitted Disclosures of Confidential Information.

4.2.1 Legally Required Disclosures. In the event a party is required to make a legally required disclosure of the other party's Confidential Information, such party shall notify the other party of the disclosure as soon as reasonably practicable and shall cooperate with any efforts by such party to obtain protective treatment of such Confidential Information to the extent permitted by law. The foregoing shall not apply to (i) broad-based regulatory examinations associated with a party's general business or operations; (ii) disclosures made in conjunction with a law enforcement investigation or inquiry; (iii) or where notice is prohibited by law. For purposes of Rule 14(b)-1 and Rule 14(b)-2 of the Securities Exchange Act

of 1934, as amended from time to time, Plan Sponsor authorizes Empower, and/or its Affiliates and services providers, to provide the name, address and share position of the Plan with respect to any class of securities registered under the Investment Company Act of 1940 when requested by such SEC registrant for purposes of shareholder meetings. The above-referenced rules prohibit the requesting SEC registrant from using the Plan's name and address for any purpose other than corporate communications of the type contemplated under the rules.

4.2.2 Authorized Disclosures. Plan Sponsor authorizes Empower to disclose Data to Empower's Affiliates and service providers in connection with Empower's performance of Services under this Agreement. In addition, Plan Sponsor authorizes Empower to disclose Data to Plan Sponsor's advisors, third-party administrators, service providers (such as payroll providers) and representatives authorized by Plan Sponsor in writing to receive such Data. Empower may use and disclose, for benchmarking and research purposes, de-identified Data that is aggregated with other anonymized data of a similar nature across Empower's client base in a manner that makes such Data unidentifiable to a particular individual or plan. Empower's current Privacy Notice is attached to this Agreement, but shall not lessen any of Empower's obligations regarding Personal Data hereunder. Plan Sponsor agrees that any changes to the Privacy Notice may be delivered to Plan Sponsor through the Plan Service Center or by email to designated representatives of the Plan Sponsor.

4.2.3 Disclosures of Personal Data to Plan Sponsor. Plan Sponsor may direct Empower to provide Plan Sponsor or its designated agent with information (which may include Personal Data) received from or in relation to Participants in connection with the performance of Services under this Agreement, which may include private information shared by the Participant during recorded phone calls and written or electronic correspondence.

5. DATA PROTECTION

5.1 Mutual Obligation to Protect Data. Empower and Plan Sponsor each agree to maintain and hold in confidence all Data and Confidential Information, as applicable, received in connection with the performance of Services under this Agreement. Empower and Plan Sponsor agree that their collection, use and disclosure of all Data is and will at all times be conducted in compliance with all applicable Data Protection Laws. Each party will implement, support, and maintain appropriate physical and logical security measures designed to secure Data, and will take all commercially reasonable organizational and technical steps to protect against unlawful and unauthorized processing of Personal Data. In accordance with the foregoing, Empower maintains a comprehensive data security program designed to safeguard Data and access to the Empower Software and systems, as further set forth in the Data Security & Privacy Addendum attached hereto as Exhibit 1.

5.2 Mutual Notice of an Information Security Breach. The parties will promptly notify each other in the event of an Information Security Breach. Such notice shall include: (i) the consequences of the breach, including (without limitation) any potential impact on the other party's security measures, systems, Data, Confidential Information, or the Empower Software; and (ii) the corrective action taken to remedy the breach. In addition to the foregoing, Plan Sponsor will notify Empower immediately upon discovering a compromise of the security and/or log-on credentials of any Plan Sponsor employee or agent that has a plan administration role in Empower's system.

6. BUSINESS CONTINUITY & DISASTER RECOVERY

Empower will maintain business continuity and disaster recovery procedures to address the security, integrity and availability of the technology, operational, financial, human and other resources

required to provide mission-critical Services in the event of a natural disaster or other interruption of normal business operations. Such procedures will be tested at least once annually. GWFS Equities, Inc.'s current Business Continuity Plan Notice is attached to this Agreement. By executing this Agreement, Plan Sponsor acknowledges receipt of this Notice.

7. RECORDS & AUDIT

7.1 Record Retention. Empower shall retain all records in its custody and control that are pertinent to performance under this Agreement in accordance with its record retention policy and as required by law. Subject to the foregoing, each party agrees to return or destroy the other party's Confidential Information and Data once it is no longer required for the purpose of performing or receiving the Services, provided that the parties are not obligated to destroy copies of Confidential Information or Data that must be retained for audit, legal or regulatory purposes, or that is stored in non-readily accessible electronic format, such as on archival systems; in such cases Empower's data protection obligations shall continue until such Data is destroyed in accordance with Empower's record retention policy.

7.2 SSAE 18. Each year upon the request of Plan Sponsor, Empower will provide a copy of the review performed by Empower's external auditors under the "Statement of Standards for Attestation Engagements Number 18, Attestation Standards: Clarification and Recodification" of the American Institute of Certified Public Accountants ("**SSAE18**") SOC 1, or any new or replacement standard or protocol established by the American Institute of Certified Public Accountants.

8. INTELLECTUAL PROPERTY RIGHTS

8.1 Plan Sponsor Materials. As between the parties hereto, excluding the Empower Materials (as defined below), Plan Sponsor shall own materials, trademarks, trade names, logos, trade dress, and other Confidential Information provided or made accessible by Plan Sponsor to Empower for use in providing the Services (collectively, the "**Plan Sponsor Materials**"). Plan Sponsor grants Empower a limited, revocable right and license to use Plan Sponsor's name, logo, and trademarks in materials created by Empower in connection with providing the Services. Nothing contained herein shall prohibit Empower from referencing client partnerships in the normal course of public-relations communications or in materials prepared at the request of prospective clients.

8.2 Empower Materials. As between the parties hereto, Empower and its Affiliates shall own all materials, documentation, user guides, forms, templates, business methods, trademarks, trade names, logos, websites, Empower Software, technology, computer codes, domain names, text, graphics, photographs, artwork, interfaces, and other information or material provided by Empower or its Affiliates hereunder (collectively, the "**Empower Materials**"). Empower grants to Plan Sponsor and Participants (as applicable) a non-exclusive, non-transferable license to use the Empower Materials during the term of the Agreement for purposes of using Empower's Services hereunder and subject to the terms and conditions set forth in this Agreement and any terms of use associated with Empower Software. All rights with respect to the Empower Materials not specifically granted hereunder are reserved by Empower.

9. LIABILITY & INDEMNIFICATION

9.1 Empower agrees to indemnify the Plan Sponsor from and against any and all expenses, costs, reasonable attorneys' fees, settlements, fines, judgments, damages, liabilities, penalties or court awards asserted by a third party (collectively, "**Damages**") to the extent resulting from Empower's breach of this Agreement, negligence, or willful misconduct. Notwithstanding anything to the contrary herein, Empower shall not be liable to Plan Sponsor for any Damages resulting from: 1) any acts or omissions undertaken at the Direction of the Plan Sponsor or any agent or any third party authorized by Plan Sponsor

to provide Direction to Empower, including but not limited to prior service providers, investment advisors, or any authorized agent thereof; 2) any performance of the Services that is in strict compliance with the terms of this Agreement; or 3) Plan Sponsor's or its designee's failure to provide accurate documents, material, information or data to Empower or its Affiliates, as applicable on a timely basis.

9.2 Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, LOSS OF REVENUE OR PROFIT) EVEN IF THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9.3 Insurance. Empower will, at its own cost and expense, procure and maintain in full force and effect throughout the term of this Agreement insurance coverage that is reasonably appropriate to the Services provided under this Agreement and any Schedule hereto. The requirements in this section are not intended to, and will not in any way, limit or qualify the liabilities and obligations of Empower under this Agreement.

10. DISPUTE RESOLUTION

The parties shall engage in reasonable and good faith discussions to resolve any dispute arising out of or relating to this Agreement. If the parties are unable to agree between themselves, the parties will submit the dispute to non-binding mediation conducted by a private mediator agreed to by both parties. If the parties cannot agree on a mediator, the mediator may be selected by a nationally recognized, independent arbitration or mediation organization to which the parties mutually agree. The costs of mediation shall be borne equally by the parties, and each party shall pay its own expenses. If the parties are unable to resolve the dispute through non-binding mediation, either party may initiate litigation; provided, however, that if one party requests mediation and the other party rejects the proposal or refuses to participate, the requesting party may initiate litigation immediately upon such refusal.

11. TERM & TERMINATION

11.1 Term & Termination. This Agreement shall be in effect commencing on the Effective Date set forth above and continuing for a one (1)-year period through July 1, 2023, with the option to exercise two (2) additional one (1)-year renewal periods.. In the event this Agreement should terminate or expire prior to the completion date designated in any Schedule, such Schedule shall terminate concurrently with the Agreement.

11.2 Termination for Convenience. This Agreement or any Schedule attached hereto may be terminated by either party by delivering ninety (90) days advance written notice to the other party. The termination of this Agreement shall also operate as a termination of all Schedules hereto.

11.3 Termination for Default. Either party may, upon written notice, terminate this Agreement or any Schedule attached hereto if the other party materially breaches or is in default of any material obligation hereunder, which default is incapable of cure, or which being capable of cure, has not been cured within ninety (90) days after receipt of notice of such default from the non-defaulting party, or within such additional cure period as mutually agreed upon by the parties.

11.4 Transition Assistance Services. Upon termination for any reason, Empower will provide to Plan Sponsor the deconversion and transition assistance services set forth in the Recordkeeping Services Schedule, attached hereto. For the avoidance of doubt, this Agreement will govern the transition assistance services provided.

12. MISCELLANEOUS

12.1 Affiliates & Agents. Plan Sponsor acknowledges and agrees that Empower may utilize the services of Affiliates, agents and suppliers selected by Empower. Empower's use of any such party will not relieve Empower of its obligations hereunder, and Empower shall at all times remain liable for the performance of the Services hereunder. Notwithstanding the foregoing, and notwithstanding that Empower and Plan Sponsor are entering into this Agreement, the obligations under each Schedule are solely the obligations of the Empower Affiliate that entered into that Schedule (including the terms of this Agreement that are incorporated therein by reference), and neither Empower nor any Empower Affiliate shall be jointly and severally liable with any other Empower entity. Neither Empower nor any Empower Affiliate shall be the guarantor of the obligations of any other Empower Affiliate.

12.2 Relationship of the Parties. The relationship between the parties is that of independent contractors. Neither party nor its personnel shall be considered employees of the other party for any purpose. None of the provisions of this Agreement shall be construed to create an agency, partnership or joint venture relationship between the parties or the partners, officers, members or employees of the other party by virtue of either this Agreement or actions taken pursuant to this Agreement. The parties shall bear sole responsibility for all taxes, assessments and other real property related levies on their owned or leased real property, personal property (including software), franchise and privilege taxes on their business, and taxes based on their net income or gross receipts. If applicable, the parties shall reasonably cooperate to more accurately determine each party's tax liability and to minimize such liability to the extent legally permissible.

12.3 No Third Party Beneficiaries. This Agreement is solely for the benefit of the parties hereto and their Affiliates and is not intended to confer any rights or remedies upon any other person.

12.4 Assignment. This Agreement shall be binding upon and inure to the benefit of each of the parties, their Affiliates, successors and permitted assigns; provided, however, that neither party may assign its rights or obligations hereunder without the other party's prior written consent. Notwithstanding the foregoing, a party may assign this Agreement in connection with: (i) the sale of substantially all of its assets or the assets of any business unit to an entity that assumes the assignor's obligations under this Agreement; (ii) a merger, acquisition or divestiture; and/or (iii) a transfer to a parent or Affiliate, in each case without the other party's consent.

12.5 Entire Agreement. Each Schedule, including any Exhibits, notices and attachments (including an incorporation by reference of the terms and conditions of this Agreement), constitutes the entire agreement of the parties thereto with respect to the subject matter thereof and supersedes all prior drafts, agreements, negotiations and proposals, written or verbal, relating to the Services contained in the applicable Schedule. This Agreement or any Schedule may be amended by written agreement of the parties; for that purpose, emails do not constitute signed writings. Notwithstanding the foregoing, Empower may add or enhance the Services, update the method of providing the Services without any reduction in service, or modify the Services to comply with applicable laws by providing written notice to Plan Sponsor at least 30 days in advance of the effective date of such change, provided that Plan Sponsor may opt out of certain Services that directly impact Participants and any changes that result in an increase in fees to the Plan. Any Empower notices or policies that are attached to or referenced in this Agreement may be modified by Empower at any time, provided that such modifications shall not materially degrade the rights or protections set forth therein. No waiver of any breach of any provision of this Agreement shall constitute a waiver of any prior, concurrent or subsequent breach of such provision or any other provision hereof and no waiver shall be effective unless made in writing.

12.6 Governing Law; Waiver of Jury Trial. Unless and to the extent provided otherwise in a Schedule hereto, this Agreement shall be construed and enforced in accordance with and governed by the laws of the state of California, without regard to conflict of law principles, and any claim arising under or related to this Agreement shall be subject to the exclusive jurisdiction of the federal and state courts located in California. Both parties agree to waive any right to have a jury participate in the resolution of any dispute or claim arising out of, connected with, related to or incidental to this Agreement to the fullest extent permitted by law.

12.7 Force Majeure. Neither Empower nor Plan Sponsor shall be liable to the other for any and all losses, damages, costs, charges, attorney fees, payments, expenses or liability due to delay or interruption in performing its obligations hereunder, and without the fault or negligence of such party, due to causes or conditions beyond its control, including, without limitation, labor disputes, riots, war and war-like operations including acts of terrorism, explosions, sabotage, civil disturbance, governmental restriction, transportation problems, failure of power or other utilities including phones, internet disruptions, fire or other casualty, natural disasters, epidemics, pandemics, acts of God, disruptions in orderly trading on any relevant exchange or market, or any other cause that is beyond the reasonable control of either party.

12.8 Severability. The provisions of this Agreement are severable, and if for any reason a clause, sentence, paragraph or provision of this Agreement is determined to be invalid by a court or federal or state agency, board or commission having jurisdiction over the subject matter thereof, such invalidity will not affect other provisions of this Agreement that can be given effect without the invalid provision.

12.9 Notices. All formal notices required by this Agreement will be in writing and shall be sent to Empower as set forth below and to the most current Plan Sponsor and trustee address on file with Empower. All notices sent shall be effective upon receipt.

Notice To Empower:

Attn: General Counsel

12.10 Headings; Defined Terms; Counterparts. Section headings used in this Agreement are intended for reference purposes only and shall not affect the interpretation of this Agreement. Unless the context requires otherwise, capitalized terms defined in this Agreement have the meanings set forth herein for all purposes of this Agreement, including any Schedules or Exhibits. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same agreement. The parties' execution and delivery of this Agreement by facsimile, email, or electronic copies shall have the same force and effect as execution and delivery of an original.

12.11 No Tax or Legal Advice. Nothing in this Agreement is intended to constitute legal or tax advice from Empower to Plan Sponsor, or to any other party. Plan Sponsor understands that Empower has not given and may not give legal advice. All issues should be reviewed and discussed with Plan Sponsor's legal counsel and/or tax adviser.

12.12 Survival. The provisions of the following sections shall survive the termination of this Agreement: Fees & Charges; Confidentiality; Data Protection; Record Retention; Intellectual Property Rights; Indemnification; Limitation of Liability; Dispute Resolution; Governing Law; Waiver of Jury Trial; Survival; Severability; Transition Assistance Services; No Tax or Legal Advice; No Third-Party Beneficiaries; and any other section that would by its context be reasonably expected to survive termination.

12.13 Signatures/Corporate Authenticity. By signing this Agreement, the parties certify that they have read and understood it, that they agree to be bound by its terms, and that they have the authority to sign it. This Agreement is not binding on either party until signed by both parties.

12.14 Electronic Signatures. Each party agrees that this Agreement and any other documents to be delivered in connection herewith may be electronically signed, and that any electronic signatures reasonably believed to be genuine on this Agreement or such other documents are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

EXHIBIT 1:
DATA SECURITY & PRIVACY ADDENDUM

This Data Security & Privacy Addendum applies to Empower and its Affiliates and describes how Empower protects Personal Data and Plan Data (the "**Addendum**"). Capitalized terms used but not defined herein have the meanings given to them in the Master Service Agreement executed by Empower and Plan Sponsor under which Empower provides services to Plan Sponsor ("**Agreement**").

1. Definitions. The following terms have the meanings set out below and similar terms shall be construed accordingly:

"**Data**" means Personal Data and Plan Data.

"**Data Protection Laws**" means any law with respect to the protection of Personal Data that is applicable to Empower's Services under the Agreement or any Schedule thereto.

"**Information Security Breach**" means a confirmed compromise of an information system within the authority or responsibility of Empower that results in: (i) the unauthorized acquisition, disclosure, modification or use of unencrypted Personal Data, or encrypted Personal Data where the encryption key has also been compromised; and (ii) a reasonable likelihood of identity theft or fraud against a data subject in the Plan. An Information Security Breach includes, without limitation, theft and/or malicious use of Data by Empower personnel. A good faith but unauthorized or unintentional acquisition, disclosure, modification or use of Personal Data by an employee or contractor of Empower or a party who has signed a confidentiality agreement with Empower does not constitute a Security Breach if the Personal Data is not subject to further unauthorized acquisition, disclosure, loss, modification, or use.

"**Personal Data**" shall mean information that identifies or is reasonably capable of being associated with a Participant in the Plan or an eligible employee of Plan Sponsor, and includes personally identifiable financial information as defined by Title V of the Gramm-Leach-Bliley Act, but excluding data that is publicly-available and data from which individual identities have been removed and that is not linked or reasonably linkable to any individual.

"**Plan Data**" shall mean non-public Plan level information that is provided to Empower in connection with receipt of the Services. Plan Data excludes data that is de-identified and aggregated for benchmarking and research purposes.

"**Subprocessor**" means any person (including any third party service provider and any Empower Affiliate, but excluding personnel employed by such parties) engaged by Empower to process Personal Data.

2. Direction. Plan Sponsor Directs Empower and its Affiliates (and authorizes Empower and its Affiliates to Direct each Subprocessor), where applicable, to process Personal Data as follows: (a) processing in accordance with the Master Agreement and any amendments thereto as executed by the parties; and (b) processing initiated by Participants in their use of the Services. Plan Sponsor represents that it is and covenants that it will at all relevant times remain duly and effectively authorized to give the Direction set out herein.

3. Security. In order to protect Personal Data, Empower will implement appropriate technical and organizational measures designed to protect Personal Data in accordance with the requirements of any

Data Protection Laws. In addition to the foregoing, Empower's security program shall conform to the commitments described below.

4. Subprocessing. Plan Sponsor hereby agrees that Empower may engage its Affiliates and third parties as Subprocessor in connection with the provision of Services under the Agreement. Empower shall carry out reasonable due diligence as appropriate to the nature of each Subprocessor's services to ensure that the Subprocessor is capable of providing the level of protection for Personal Data required by the Information Security Policies. Upon request, Empower shall make available a current list of any material Subprocessors that have access to Personal Data; the parties hereto agree that such list is the Confidential Information of Empower and subject to the confidentiality provisions of the Agreement.

5. Data Subject Rights. Empower responds to any request from a Participant under applicable Data Protection Laws (such as "Right to Know" requests) as required by applicable Data Protection Laws. Empower will advise Plan Sponsor of any such request that requires Plan Sponsor's assistance or response, and in such case the parties shall cooperate with respect to the response to such Participant.

6. Data Security. Empower's Information Security Policies and related policies address the management of information security, the security controls employed by the organization. These policies include, without limitation:

6.1 An Information Security Board that is responsible for the development, implementation, and ongoing maintenance of Empower's data security.

6.2 Documented policies ("**Information Security Policies**") that Empower formally approves, internally publishes, communicates to appropriate personnel and reviews at least annually. Empower's Information Security Policies shall (i) mandate the secure protection and handling of confidential data, (ii) comply with applicable laws, (iii) conform to or exceed applicable industry standards for the retirement plan services industry, and (iv) documented, clear assignment of responsibility and authority for data security-related activities.

6.3 Policies covering acceptable computer use, record retention/destruction, information classification, cryptographic controls, access control, network security, removable media, remote access, mobile computing and wireless access.

6.4 Regular testing of the key controls, systems and procedures, including (i) testing of information technology general controls (ITGC) at least annually or whenever there is a material change in business practices, and (ii) infrastructure penetration tests and scans against internet-facing points of presence. Empower will correct vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards.

6.5 Policies and procedures designed to protect the security of Plan Data and Personal Data that is accessible to, or held by, Empower's third party suppliers. Such policies shall be based on Empower's Information Security Policies, and shall address, as applicable: (i) the identification and risk assessment of such supplier; (ii) minimum cybersecurity standards required to be met by such suppliers; (iii) due diligence processes used to evaluate the adequacy of cybersecurity practices of such suppliers; and (iv) periodic assessment of such suppliers based on the risk they present and the continued adequacy of their cybersecurity practices.

6.6 Use of appropriate administrative, technical and operational measures designed to ensure Personal Data and Plan Data is secure.

6.7 Monitoring, evaluating and adjusting, as appropriate, its data security protocols summarized herein, in light of relevant changes in Data Protection Laws, Services, technology or industry security standards, the sensitivity of data collected or processed by Empower in the provision of its Services, and evolving internal or external risks. Empower may make such updates to its data security protocols and the terms hereof at any time without notice so long as such updates maintain a comparable or better level of security. Individual measures may be replaced by new measures that serve the same purpose without diminishing the security level protecting Personal Data or Plan Data.

7. Risk Management. Empower has a risk assessment program that includes regular risk assessments and management for risk identification, analysis, monitoring and reporting.

8. Human Resources.

8.1 Acknowledgements. Empower shall provide training on its information security practices to its personnel at least annually. Empower personnel shall acknowledge their information security and privacy responsibilities under Empower's policies.

8.2 Personnel Controls. Empower completes appropriate pre-employment background checks and screening on its personnel, and requires personnel to complete initial security training at the time they are first employed with Empower and annually thereafter. All personnel attest annually to Empower's Code of Business Conduct and Ethics, which enforces the tenets of Empower's Information Security Policies and its privacy policies. Empower has disciplinary processes for violations of information security or privacy requirements, and promptly removes personnel access to Plan Data or Personal Data upon termination or applicable role change.

9. Physical and Environmental Safety.

9.1 Physical and Environmental Security Controls. Empower has appropriate physical and environmental controls to protect Empower's equipment, assets, and facilities used to provide services. Physical security includes, without limitation (i) physical security in the protection of valuable information assets of the business enterprise; and (ii) the provision of protection techniques for the entire facility, from the outside perimeter to the inside office space, including the datacenters and wiring closets.

9.2 Ongoing Operations. Empower protects its facilities and systems containing Data from failures of power, networks, telecommunications, water supply, sewage, heating, ventilation, and air-conditioning.

10. Communications and Operations Management.

10.1 Controls. Empower has policies and procedures in place for communications and operations management controls. Such controls address: hardening, change control, segregation of duties, separation of development and production environments, network security, virus protection, patch management, media controls, data in transit, encryption, audit logs, and time synchronization.

10.2 Operations Security. Empower's Information Security Policies mandate ongoing operations security requirements, including but not limited to, installing or maintaining (i) security patches for operating systems and applications within standard timeframes based on severity; (ii) industry standard versions of operating systems, software and firmware for system applications and components; and (iii) up-to-date system security agent software which includes updated malware and virus definitions.

11. Access Control.

11.1 Access Control. Empower utilizes access controls designed to ensure that only Empower personnel with the proper need and authority can access its internal recordkeeping system and associated data. Empower's access controls include but are not limited to: limiting access to personnel with a requirement to view Personal Data; establishing least-privilege controls to protect systems and Personal Data; generation of audit trails; periodic review and approval of personnel who need to access the Empower recordkeeping system; and termination of personnel access promptly following severance from employment.

11.2 Authentication. Empower authenticates user identity through appropriate authentication controls such as strong passwords, token devices, or biometrics. Passwords must meet minimum length and complexity requirements.

11.3 Remote Access to Empower Systems. Empower uses multi-factor authentication for remote access to its systems.

12. Information Systems Acquisition, Development and Maintenance.

12.1 Systems Development Security. Empower addresses security as part of information systems development and operations and follows secure coding methodologies based on application development security best practices.

12.2 Software Security Management. Empower's information systems (including operating systems, infrastructure, business applications, off-the-shelf products, services and user-developed applications) adheres to the information security standards set forth in Empower's Information Security Policies.

12.3 Vulnerability Assessments/Ethical Hacking. Empower performs vulnerability assessments and penetration testing against Internet-facing points of presence. Empower corrects vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards set forth in Empower's Information Security Policies.

12.4 Cryptography. Empower uses cryptography techniques that assist Empower with preventing the unauthorized capture, modification of or access to data or information. Empower uses standard encryption algorithms that follow up-to-date encryption standards and industry practices. Such cryptography techniques may include but are not limited to: encryption of sensitive data sent across external communication lines; requirement of minimum 128-bit encryption TLS encryption for web browsers; and encryption of Personal Data while stored on laptops, mobile devices, and in recordkeeping databases.

13. Information Security Breach Management.

13.1 Incident Management Program. Empower maintains investigative measures and techniques for incident handling, including but not limited to: a formalized, enterprise-wide Computer Security Incident Response Team ("**CSIRT**"), and CSIRT processes which are tested at least annually.

13.2 Information Security Breach Response. Empower will notify Plan Sponsor after becoming aware of any Information Security Breach in accordance with all applicable Data Protection Laws. For the avoidance of doubt, Empower will (i) keep the Plan Sponsor informed of significant developments in connection with the investigation of such incident; (ii) investigate and assist any regulator or other governmental body with oversight over the Information Security Breach in investigating, remedying and

taking any other action regarding the Information Security Breach as appropriate or required by law; and (iii) provide Plan Sponsor with information about remedial measures that have been undertaken to prevent such Information Security Breach from reoccurring. In the event that individual or regulatory notifications are required under applicable Data Protection Laws, the parties will cooperate with respect to notifications. To the extent the Information Security Breach is caused by Empower's failure to abide by its obligations as set forth in this Addendum, Empower shall bear the costs of such notifications and provision of credit monitoring services to affected individuals to the extent required by law or otherwise appropriate in Plan Sponsor's and Empower's reasonable judgment.

14. Plan Sponsor Assessment Rights.

14.1 Assessment via Security Assurance Package. Within the secure Plan Sponsor website provided by Empower, Empower provides documentation that supports and informs the reader about Empower's current security program and practices. These documents are referred to as the Security Assurance Package ("**SAP**"), which currently consists of the following items: Security Program Overview document, SOC 1 report, SOC 2 report, available IT certification reports (e.g. Verizon CRP), and a completed SIG questionnaire with related supporting materials. (The SIG is a standardized document template created by the Shared Assessments Program, a consortium of leading financial institutions, the Big 4 accounting firms, and companies from a wide array of industries.)

14.2 Regulatory Assessment. If Plan Sponsor's governmental regulators require that Plan Sponsor perform an on-site audit of Empower's network security, as supported by evidence provided by Plan Sponsor, Plan Sponsor may conduct an on-site audit of Empower's network security, relevant to the security of Plan Data ("**Regulatory Audit**"). Unless a different notice or frequency is required by Plan Sponsor's governmental regulators, a Regulatory Audit may be conducted by Plan Sponsor once per year at a mutually agreed-upon time with at least 60 days' advance written notice to Empower. If a Regulatory Audit requires the equivalent of more than two business days of Empower Personnel's time to support such audit, Empower may charge Plan Sponsor an audit fee at Empower's then-current rates for each day thereafter.

14.3 Miscellaneous. This Addendum is governed by and incorporated into the Agreement. In the event of any conflict between the Agreement and this Addendum, the Agreement will prevail. Any capitalized terms used but not otherwise defined herein shall have the meaning set forth in the Agreement.

EXHIBIT 2:
PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

This Exhibit 2 shall apply to any Recordkeeping Services Schedule under the Master Services Agreement

PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

The prospectuses, policies and/or procedures of certain fund companies require retirement plan providers offering their fund(s) to agree to restrict market timing and/or excessive trading ("prohibited trading") in their funds. The following procedures describe how we, as your recordkeeper, will comply with fund company instructions designed to prevent or minimize prohibited trading.

Various fund companies instruct intermediaries to perform standardized trade monitoring while others perform their own periodic monitoring and request trading reports when they suspect that an individual is engaging in prohibited trading. If an individual's trading activity is determined to constitute prohibited trading, as defined by the applicable fund company, the individual will be notified that a trading restriction will be implemented if prohibited trading does not cease. (Some funds may require that trading restrictions be implemented immediately without warning, in which case notice of the restriction will be provided to the individual and plan, if applicable). If the individual continues to engage in prohibited trading, the individual will be restricted from making transfers into the identified fund(s) for a specified time period, as determined by the applicable fund company. Individuals are always permitted to make transfers out of the identified fund(s) to other available investment options. When the fund company's restriction period has been met, the individual will automatically be allowed to resume transfers into the identified fund(s).

Additionally, if prohibited trading persists, the fund company may reject all trades initiated by the plan, including trades of individuals who have not engaged in prohibited trading.

Note: certain plan sponsors have or may elect to implement plan level restrictions to prevent or minimize individual prohibited trading. To the extent that such procedures are effective, we may not receive requests for information from the fund companies or requests to implement the restrictions described above.

10/16/07

EXHIBIT 3: PRIVACY NOTICE

PRIVACY NOTICE

REV 5/2021

FACTS	What does Great-West Life & Annuity Insurance Company (Empower Retirement) do with your personal information?
WHY?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share and protect your personal information. Please read this notice carefully to understand what we do.
WHAT?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: • Social Security number and account balances. • Retirement assets and transaction history. • Employment information and income. When you are no longer our customer, we continue to share your information as described in this notice.
HOW?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information, the reasons Empower Retirement chooses to share and whether you can limit this sharing.

REASONS WE CAN SHARE YOUR PERSONAL INFORMATION	**DOES EMPOWER RETIREMENT SHARE?**	**CAN YOU LIMIT THIS SHARING?**
For our everyday business purposes — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes — to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes — information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes — information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

QUESTIONS?	Call toll-free at **855-756-4738** or go to **empower-retirement.com/privacy**

WHO WE ARE	
Who is providing this notice?	Companies owned by Great-West Life & Annuity Insurance Company. A list of companies is provided at the end of this notice.
WHAT WE DO	
How does Empower Retirement protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include physical, technical and procedural safeguards, such as building and system security and personnel training.
How does Empower Retirement collect my personal information?	We collect your personal information, for example, when you: • Provide account information or apply for a loan. • Enter into an investment advisory contract or seek advice about your investments. • Tell us about your investment or retirement portfolio. We also collect your personal information from others, such as credit bureaus, affiliates or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only: • Sharing for affiliates' everyday business purposes — information about your creditworthiness. • Affiliates from using your information to market to you. • Sharing for nonaffiliates to market to you. State laws and individual companies may give you additional rights to limit sharing.
DEFINITIONS	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • *Our affiliates include companies with the Empower, Empower Retirement or Great-West names, as listed below, and other financial companies such as Advised Assets Group, LLC and Empower Retirement, LLC.*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • *Empower does not share with nonaffiliates so they can market to you.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. • *Empower doesn't jointly market.*
WHO IS PROVIDING THIS NOTICE?	
Great-West Life & Annuity Insurance Company; The Great-West Life Assurance Company (U.S. operations); Great-West Life & Annuity Insurance Company of New York; Great-West Financial Retirement Plan Services, LLC; Advised Assets Group, LLC; GWFS Equities, Inc.; The Canada Life Assurance Company (U.S. operations); Empower Retirement, LLC; Great-West Life & Annuity Insurance Company of South Carolina; Great-West Capital Management, LLC; Great-West Funds, Inc.; and Great-West Trust Company, LLC	

EXHIBIT 4: BUSINESS CONTINUITY PLAN NOTICE

GWFS Equities, Inc., a subsidiary of Great-West Life & Annuity Insurance Company and affiliate of Great-West Life & Annuity Insurance Company of New York* ("the Company") and Empower Retirement, LLC, maintains a comprehensive business continuity plan designed to respond reasonably and effectively to events that lead to significant business disruption, such as natural disasters, power outages, or other events of varying scope. This plan defines critical functions and systems, alternate work locations, vital books and records, and staff resources, and provides for the continuation of business operations with minimal impact, depending on the severity and scope of the disruption. The plan is reviewed and tested no less than once annually to ensure that the information in the plan is kept current and that documented recovery and continuity strategies adequately support its business operations. Of utmost importance to the plan is the ability for customers to maintain access to securities accounts and assets in those accounts.

In the event that one of the contact centers or back office operation facilities becomes unavailable for any reason, calls would be re-routed to one of the firm's alternative contact center or operations facilities.

In the event of a significant business disruption to the primary office and/or data center, access to customer accounts will be provided via the Company's Web site and voice response system, operated from an alternative data center. Customer service will continue to be provided by re-routing telephone calls to a contact center located in one or more alternative sites located outside of the region. Secure work from home solutions are available for all staff.

While no contingency plan can eliminate the risk of business interruption, or prevent temporary delays with account access, the firm's continuity plan is intended to mitigate all reasonable risk and resume critical business operations within 24 hours or the next business day, whichever is later.

* Recordkeeping and administrative services are provided by Empower Retirement, LLC, and in New York, Great-West Life & Annuity Insurance Company of New York, or one of its subsidiaries or affiliates. Securities offered in your account may be offered through another broker/dealer firm other than GWFS Equities, Inc., a wholly owned subsidiary of Great-West Life & Annuity Insurance Company. Please contact your investment provider for more information if needed.

This disclosure is subject to modification at any time. The most current version of this disclosure can be found on the Web site or can be obtained by requesting a written copy by mail.

BCP – GWFS Customer Notice (Ed. Feb. 2021)

SCHEDULE A:
RECORDKEEPING SERVICES SCHEDULE
FOR THE

LIST OF PLANS

1. CITY OF STOCKTON, 401(A) PLAN ("401(a)") Group Account Number: 061361-0003-0000

1. GENERAL

This Recordkeeping Services Schedule ("**Schedule**") is a separate agreement between the parties hereto and incorporates the terms and conditions of the Agreement ("**Agreement**") between Empower Retirement, LLC and Plan Sponsor. All references to "Empower" in this Schedule are deemed to be references to Empower or the Empower Affiliate, as the case may be, that enters into this Schedule. Capitalized terms used but not defined herein shall have the meanings given to them in the Agreement. Any conflict between this Schedule and the terms of the Agreement shall be resolved in favor of the Agreement, unless this Schedule specifically states that its provision will prevail.

2. SCHEDULE TERM

2.1 The Effective Date of this Schedule is July 1, 2022 ("**Schedule Effective Date**"). Unless terminated in accordance with the termination provisions at Section 11 of the Agreement, this Schedule shall remain in full force and effect. The termination of this Schedule shall also operate as a termination of all Schedules to the Agreement.

2.2 Upon termination, Plan Sponsor Directs Empower to deduct any and all outstanding expenses and fees owed to Empower from the Plan's trust on the termination date, unless paid by the Plan Sponsor. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from the Plan consistent with the foregoing. Upon termination of this Schedule, Empower will cease to provide the Services herein. Plan Sponsor acknowledges that after the termination of this Schedule, Plan Sponsor will be responsible for performing all actions required to be taken with respect to the Plan including, but not limited to: processing of contributions, loans and distributions, and the distribution of forms to Participants. On and after the actual date of termination of this Schedule, Empower shall have no further obligations hereunder except as set forth in the Transition Assistance section.

3. NATURE OF EMPOWER'S SERVICES

3.1 Services. Empower will provide the Services set forth in this Schedule or as further described in the Exhibits attached hereto.

3.2 Fiduciary Status. Except with respect to any Services for which Empower has specifically agreed to act as a fiduciary under this Schedule, Plan Sponsor acknowledges that (i) Empower acts as a non-discretionary service provider Directed by the Plan Sponsor or other Plan fiduciary and, as authorized by the Plan Sponsor, by Participants; and (ii) performance of the Services do not involve the exercise of any discretion in the administration or management of the Plan that would cause Empower to be a fiduciary or a Plan Administrator as defined under the Code, ERISA, the Investment Advisors Act of 1940, or state law, as applicable. The Plan Sponsor has appointed a Plan Administrator that has discretionary authority for the administration and management of the Plan. The parties agree that Empower will not perform a

Service that could cause it to have discretionary authority or responsibility for the administration or management of the Plan or disposition of Plan assets. Empower shall not render, or have any authority or responsibility to render, investment advice for a fee or other compensation, direct or indirect, with respect to any Plan assets, except as specifically provided for under this Agreement.

4. PLAN SPONSOR RESPONSIBILITIES

Plan Sponsor acknowledges that Empower cannot effectively perform the Services without Plan Sponsor's cooperation. Accordingly, Plan Sponsor acknowledges and agrees that it will fulfill the following duties and obligations:

4.1 Provision of Information. Plan Sponsor or its designee, including any third parties retained by or on behalf of the Plan or Plan Sponsor, will provide all information necessary for Empower to perform the Services in a manner and format that does not require manual intervention or manipulation by Empower. Plan Sponsor acknowledges and agrees that Empower shall not bear any responsibility for any penalties or other costs incurred as a result of Plan Sponsor's failure to provide such information in a timely manner. Plan Sponsor further acknowledges and agrees that Empower may charge an additional fee if any necessary information is not provided on a timely basis, or in an electronic format usable by Empower without any manual intervention or manipulation. Plan Sponsor agrees that Empower shall be entitled to fully rely upon the accuracy and completeness of information Plan Sponsor submits and that Empower shall have no duty or responsibility to verify such information. If, as a result of incorrect or incomplete information furnished by Plan Sponsor, it becomes necessary to repeat any calculation or service, complete any new forms or revise any completed forms, Empower reserves the right to charge an additional fee. Each party agrees to bear its own transmission costs and is solely responsible for its own acts and omissions relating to transmitting, receiving, storing and handling documents and information, including the maintenance of all equipment, software and testing necessary to effectively, reliably and securely send and receive such documents and information.

4.2 Remitting Contributions and Allocation Instructions. Plan Sponsor agrees that it is solely responsible for collecting and remitting all initial and recurring contributions and loan repayments to Empower electronically via Empower's plan sponsor website, or another mutually agreed-upon manner within the time prescribed by applicable law. Plan Sponsor acknowledges that Empower is not responsible for monitoring the amount and/or timeliness of such contributions and loan repayments.

4.3 Plan Document Responsibilities. Plan Sponsor has the responsibility to ensure that the Plan documents are accurate and complete, to interpret Plan terms and to review the Plan document services provided by Empower, if any. Plan Sponsor is responsible to ensure that the Plan is being operated in accordance with its terms. Plan Sponsor shall provide Empower with a signed copy of the Plan document and all amendments to the Plan document within thirty (30) days after such document and/or amendment is adopted.

4.4 Investment Options. Plan Sponsor is responsible for the selection of all Investment Options based on Plan Sponsor's independent evaluation, or that of its registered investment advisor, consultant, broker or other agent, as applicable. Plan Sponsor must notify Empower in writing of the Investment Options intended to be serviced by Empower and such Investment Option services are only provided as agreed upon by Empower and may be subject to certain limitations or conditions. Plan Sponsor acknowledges that Empower or its Affiliates may receive fees from mutual fund families or other Investment Option Sponsors or their Affiliates for providing certain administrative or other services thereto ("**Fund Service Fees**") in connection with the Plan. Plan Sponsor may request additional information regarding such fees at any time. If the provider of an Investment Option causes an Investment Option to become

unavailable to the Plan, Empower will notify Plan Sponsor as soon as practicable after the Investment Option Sponsor notifies Empower.

4.5 Plan Sponsor Acknowledgement of Market Timing Procedures. Plan Sponsor acknowledges that the SEC requires mutual fund companies to establish procedures to prevent market timing and excessive trading. Plan Sponsor acknowledges receipt of, and agrees to adhere to, the terms and conditions of the Procedures for Complying with Fund Company Market Timing and Excessive Trading Policy attached as an Exhibit to the Agreement, as amended from time to time.

4.6 Payment of Plan Expenses. Plan Sponsor may Direct Empower in writing to deduct Plan expenses from the Plan to the extent Plan Sponsor has determined that deduction is specifically allowed by the Plan document and applicable law, and to remit to the party designated by the Plan Sponsor.

4.7 Plan Sponsor Direction to Perform the Services. In performing the Services, Empower is acting at the Direction of the Plan Sponsor or other fiduciary of the Plan by following the procedures set forth in a plan administration guide or similar procedural document provided by Empower to the Plan Sponsor, including by posting such procedural documents to the Plan Sponsor website. To the extent the procedures do not fully address a specific issue, the Plan Sponsor agrees to provide Direction in a manner reasonably requested by Empower, and Empower may rely upon any such Direction by a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or other fiduciary. Plan Sponsor specifically intends that Empower will have no discretionary authority with respect to following such Direction.

4.8 Electronic Delivery. Empower will deliver plan-related documents to Participants under the Agreement in an electronic manner as described below.

4.8.1 Plan notices to be delivered by Empower via an email notice of the availability of the plan-related documents on the Participant website will be sent to an email address provided to Empower by the Participant or by Plan Sponsor. If Empower is not provided with an email address, notices will be delivered to the Participant via regular mail.

4.8.2 Empower will send an initial notification of default electronic delivery via regular mail to each Participant at least 10 days prior to delivering any plan-related documents via email. The initial notice of default electronic delivery will include the participant's email address that will be used to deliver notices of the availability of plan-related documents, a statement of the Participant's right to request and obtain a paper version of the documents and a statement of the option to opt out of electronic delivery and receive only paper versions of the documents.

4.8.3 If an email notice of availability of a plan-related document is returned undeliverable, Empower will send the notice to another email on file for the Participant. If no other email is on file for the Participant or such other email is also returned undeliverable, plan related documents will be delivered via regular mail to the Participant until such time as Empower is provided another email address for the Participant.

4.8.4 Participants may request to receive one paper copy of a plan-related document for no cost. In addition, Participants may opt out of electronic delivery and request that their plan-related documents be delivered via regular mail at any time.

4.9 Review of Reports. Plan Sponsor is responsible for reviewing and monitoring reports made available by Empower (whether provided electronically, by posting on an Empower website, or otherwise) regarding Plan activity, transactions and investments to verify that the transactions indicated in

the reports properly reflect the Direction provided by the Plan Sponsor. Empower's performance of its obligations under this Agreement shall be presumed to be accurate unless Plan Sponsor provides Empower with proper notice of discrepancies.

4.10 Error Correction.

4.10.1 Transactional and Operational Errors.

4.10.1.1 Transactional Errors. If Empower does not accurately process contribution, distribution, or investment instructions provided in good order by a Participant or the Plan Sponsor (e.g., investment allocation of Plan contributions, investment exchanges or transfers, or timely processing of a Plan distribution) and the issue is timely brought to Empower's attention, Empower will, at its own expense, retroactively correct the Plan or Participant account to reflect its adjusted financial position had the error not occurred, including any investment earnings and reduced by any investment losses. If the issue is not timely brought to Empower's attention, Empower may correct the error by adjusting the Plan or Participant account prospectively.

4.10.1.2 Plan Operational Errors. If Empower is timely notified that it has made an error that creates an operational or fiduciary issue for the Plan, Empower will, within a reasonable time after being notified of or discovering such error, notify the Plan Sponsor and describe the corrective option that Empower proposes to employ that is consistent with the Internal Revenue Service, Department of Labor, or other agency correction guidelines, where applicable, and Plan Sponsor shall review the proposed correction option. Unless the Plan Sponsor objects to such proposed correction and requests an alternate correction option within five (5) business days after receiving notice of Empower's suggested corrective option, the Plan Sponsor Directs Empower to promptly process the correction in accordance with the proposal, at Empower's expense. If Empower's proposed correction is consistent with Internal Revenue Service, Department of Labor, other agency correction guidelines, or other guidance, but the Plan Sponsor requests an alternate correction method resulting in expenses in excess of what Empower would have incurred under its proposed correction, the Plan Sponsor shall bear such additional expenses (including without limitation any attorney's fees, regulatory filing costs and additional net loss resulting from such method).

4.10.2 Trading Errors. If Empower does not accurately process a trade with the mutual fund company as Directed by the Plan Sponsor or as instructed by a Participant, then Empower will correct the share position at the mutual fund company as if the error had not occurred. In the event there are multiple funds or related errors in one or more funds involved, Empower will net gains and losses across all funds involved in the associated error(s). If the Plan Sponsor utilizes the services of a third-party trustee and/or custodian ("**Third-Party Trustee**"), Empower shall in no event be required to perform any correction: (i) for a trading error that results from an error or omission by the Third-Party Trustee, (ii) to be performed under the terms of any service arrangements between the Plan Sponsor and such Third-Party Trustee (the "**Third-Party Trust Agreement**"), (iii) that falls within error tolerance ranges under the Third-Party Trust Agreement, or (iv) that otherwise would exceed any requirements for error correction by the Third-Party Trustee under the Third-Party Trust Agreement.

4.10.3 The parties acknowledge and agree that Empower will have no liability for an error caused by acts or omissions of the Plan Sponsor, Participants or any other third party.

4.10.4 Duty to Mitigate. The parties acknowledge and agree that the Plan Sponsor, the Plan Administrator and Participants each have a duty to mitigate any errors so as to minimize the expenses that may be incurred to correct such errors by promptly reviewing transaction confirmations, account

statements and other Plan reports, as applicable, and providing notification of any error, providing timely approval of correction measures and taking such other reasonable steps as may be necessary (e.g., proactively transferring account holdings into the appropriate Investment Option).

4.10.5 Transactional Gain/Loss Compensation Policies for Error Correction. Empower may incur a gain or loss in the process of adjusting a Plan or Participant account to correct certain errors due to changes in the share/unit price of an Investment Option between the original transaction date and the correction date. The adjusted position of Plan and Participant accounts are not impacted by transactional gains or losses incurred by Empower to settle the Investment Option positions in the course of correcting the account. Empower will net any Investment Option pricing differences as part of the correction process. If a correction is made at Empower's expense, Empower, not the Plan or Participant, will incur any transactional loss and Empower will retain any transactional gain.

4.11 Account Protection. Empower, Plan Sponsor or the Participant will promptly notify the other parties if it discovers that an unauthorized distribution was made from the Participant's account. Empower will conduct an investigation and take any appropriate steps, which may include working with law enforcement, to determine the root cause of the unauthorized distribution. Plan Sponsor agrees to cooperate in any such investigation and will comply with reasonable requests for information. To the extent Empower offers Participants protection against account losses that result from unauthorized transactions, Empower will restore losses as of the date of the account loss once Empower has had sufficient time to conduct a preliminary investigation and attempt to ascertain the root cause. Such protection is not available if Plan Sponsor refuses or neglects to follow commercially reasonable security practices, as set forth in Section 5.1 of the Agreement, or if the loss resulted from a compromise of the systems or security protocols of Plan Sponsor or its third party service providers (other than Empower).

4.12 Uncashed Checks. With respect to any checks issued from Plan assets during the term of the Agreement, Plan Sponsor Directs Empower to follow state unclaimed property regulations and escheat such assets to the Plan's or the Participant's state of residence based on Empower's records. However, Plan Sponsor may Direct Empower, in writing, to treat the Plan's uncashed checks in a different manner. Plan Sponsor is solely responsible for determining the appropriate handling of uncashed checks and any unclaimed property under the applicable federal and state laws including the determination and handling of amounts related to lost Participants.

5. PLAN INVESTMENT OPTIONS & FEES

5.1 Selection of Investment Options

5.1.1 The parties agree that the purchase and sale of securities for the Plan, except for employer stock and unaffiliated self-directed brokerage, will be effected through GWFS Equities, Inc., a broker/dealer affiliate of Empower.

5.1.2 In addition to the sole responsibility for the selection of the Investment Options to be made available under the Plan, Plan Sponsor will also Direct Empower to designate one of the Investment Options available to be the default investment, in which any contribution or other amount credited under the Plan for which neither the Participant nor the Plan Sponsor has provided Empower with investment directions in good order will be invested ("**Default Investment Fund**"). Plan Sponsor may designate a Default Investment Fund(s) for Participant contributions and also designate a second Default Investment Fund for employer contributions.

5.1.3 Plan Sponsor Directs Empower and its Affiliates, as applicable, to cause all dividends, capital gain distributions, interest or other earnings paid by an Investment Option under the Plan

to be reinvested in such Investment Option unless Directed otherwise by the Plan Sponsor and agreed to by Empower.

5.2 Information Regarding Investment Options

Plan Sponsor Directs Empower to obtain, or cause its designee to obtain, all necessary information (including but not limited to valuation, performance, prospectuses and other investment information) regarding any Investment Option available under the Plan from any third parties representing such Investment Options ("**Investment Option Sponsor(s)**"). Plan Sponsor acknowledges that prospectuses for the Investment Options, as applicable, will be made available electronically through one or more websites maintained by Empower or its Affiliates. In the event an Investment Option Sponsor does not provide all necessary information and Empower agrees, Plan Sponsor will arrange to provide Empower or its designee, or cause Empower or its designee to be provided, the necessary information regarding said Investment Option. In no event will Empower be responsible for the accuracy of any such information provided to Empower or its designee regarding any Investment Option, and Empower or its designee will have no duty or obligation to question, confirm or independently verify any such information.

5.3 Investment Option Changes.

5.3.1 Plan Sponsor may replace the Investment Options at any time, subject to applicable notice requirements. Plan Sponsor will notify Empower in writing of any changes to such Investment Options or the Default Investment Fund(s), and the parties will agree upon a process for the transfer of assets and investment elections, if applicable, from prior Investment Options to new Investment Options.

5.3.2 If any Investment Option is terminated by the Investment Option Sponsor, and Plan Sponsor wishes to replace the terminated option, Plan Sponsor agrees to replace the terminated option with an available fund from any fund company that currently has, or will enter into, a trading agreement with Empower.

6. ACH AUTOMATION AND PLAN MERGERS & ACQUISITIONS

6.1 ACH Automation. Plan Sponsor Directs Empower to accept a transfer of Plan records that reflects Participant ACH banking information as provided by the Plan Sponsor or by the Plan's prior service provider, without any further review and validation of the ACH information provided.

6.1.1 In Directing Empower to accept a transfer of existing Participant ACH banking information to its recordkeeping system, the Plan Sponsor certifies the following:

6.1.1.1 The Participant has previously authorized the Plan to process an ACH debit and/or credit of the Participant's account at the designated financial institution ("**Account**") in connection with all applicable Plan transactions and has authorized the designated financial institution, in the form of electronic fund transfer, to credit and/or debit the same to such Account.

6.1.1.2 The Participant has not revoked the ACH authorization for the Account prior to the transfer and the Plan shall treat the Participant's ACH authorization for the Account as remaining in effect until Empower receives a notice of cancellation from the Participant.

6.1.1.3 Plan Sponsor Directs Empower to administer all ACH transactions for all Plan purposes under the terms of Empower's separate ACH Agreement, which the Plan Sponsor has

adopted as the Plan's terms and conditions governing all applicable ACH transactions processed on the Empower platform.

7. RECORDKEEPING AND ADMINISTRATION SERVICES & FEES

7.1 Basic Plan Administration Fee. Empower will be entitled to the following annual administration fee ("**Basic Plan Administration Fee**"). This fee is used, in whole or in part, for administrative services provided by Empower as described in this Schedule. In addition, some or all of the fee (or any other compensation, revenue, asset or source of funding available to Empower, in Empower's sole discretion) may be used by Empower to make payments to the Plan under a Plan Expense Account or similar arrangement, if applicable, between the Plan Sponsor and Empower. All Services set forth in this Schedule are included in the Basic Plan Administration Fee unless an additional fee is otherwise noted herein. In the event that the Plan Sponsor requests different or additional Services, the parties shall meet to discuss relevant Empower capabilities and any additional fees that may apply.

The Basic Plan Administration Fee is 0.11% (11 basis points) per year.

For the avoidance of doubt, the Basic Plan Administration Fee set forth above is inclusive of the reimbursement credit as set forth in Exhibit G of Plan Sponsor's prior administrative services agreement.

The Basic Plan Administration Fee will be payable on a monthly basis, based on the average daily balance of Plan assets during the assessment period.

In addition, Empower and/or one or more of its Affiliates may receive Fund Service Fees in connection with the Plan.

7.2 Transactional Fees. Transactional fees set forth in Exhibit D of your prior administrative services agreement shall remain 'as is' unless there is a reduced fee on the Empower platform, in which case the reduced pricing will be honored.

7.3 Enrollment

7.3.1 Enrollment. Based on information provided by the Plan Sponsor or its designee, Empower will enroll Participants in the Plan in a manner mutually agreed upon by the parties.

7.3.1.1 **Eligibility Determination.** Plan Sponsor Directs Empower to determine employee eligibility as Directed by the Plan Sponsor and through Plan Sponsor provided information and criteria. Empower shall also communicate details of the enrollment process to eligible Participants. Plan Sponsor agrees to notify Empower at least thirty (30) days prior to any change in the Plan's eligibility requirements. Empower may discontinue this service if the Plan's new eligibility requirements are incompatible with Empower's recordkeeping system requirements.

7.3.2 Deferral Processing. If Plan Sponsor provides Empower at implementation with an electronic employee data feed of all the Participant deferral amounts/percentages or full PDI file, Plan Sponsor hereby Directs

and authorizes Empower to allow Participants to update their deferral elections via the website and VRU. Empower will forward updated deferral information to Plan Sponsor according to the schedule elected by Plan Sponsor.

7.3.3 Vesting Services. Plan Sponsor will provide Empower with up-to-date full-service vesting information electronically and ongoing Participant information as needed for the purpose of performing vesting services. Plan Sponsor Directs Empower to:(i) maintain each Participant's vesting percentage on Empower's recordkeeping system; (ii) calculate and process withdrawals and/or loans according to the vested percentage; and (iii) display the Participant's vested account balance on the quarterly statements.

7.3.4 **Receipt and Investment of Contributions.** Empower will credit contributions for allocation to Participant accounts in accordance with Direction from the Plan Sponsor and as set forth below. Empower will allocate or otherwise apply forfeitures under the Plan accounts, if any, as Directed by the Plan Sponsor. Empower will pass Directions to invest such contributions, and to execute appropriate transactions related to forfeitures, to the Plan trustee or custodian in accordance with investment Directions of the Plan Sponsor.

7.3.4.1 **Timing Requirements for Contributions Funded via ACH, Check or Wire.** Contributions received by Empower in good order prior to the close of any Business Day will be processed effective that Business Day, at that Business Day's net asset / unit values. Contributions not received by Empower prior to the close of Business Day will be processed effective the next Business Day.

7.3.5 **Investment Transfers of Existing Assets.** Empower or its designee will process investment transfers or exchanges, as applicable, received in good order subject to any conditions and/or limitations imposed by the available Investment Options under the Plan or Investment Option Sponsors. Empower will pass to the Plan trustee or custodian, as applicable, Directions to execute or record as appropriate the corresponding transactions involving the assets of the Plan's trust. Requests for Participant-initiated transfers between Investment Options will be processed if the request is received by Empower in good order prior to market close on a Business Day. Any transfer request not received by Empower during a Business Day will be processed the next Business Day, or such earlier time as may be required in order to comply with applicable law.

7.3.6 Plan Loans. Empower will administer Participant account reduction loans repaid by payroll deduction pursuant to the Plan's loan policy, as amended from time to time. Loan requests may be initiated through the VRU or Participant website or submitted on approved Plan administrative forms with Plan Sponsor signature authorization.

7.3.7 Distributions.

7.3.7.1 Empower will make payments to Participants pursuant to a Participant's request and Plan Sponsor's Direction received in good order and will debit Participant accounts accordingly.

7.3.7.2 Plan Sponsor agrees to provide a signature authorization for all distribution requests allowed under the Plan, including but not limited to distributions, alternate payee distributions and beneficiary distributions. Empower reserves the right to charge an additional fee for services related to distributions to non-resident aliens and other distributions outside the ordinary course of plan administration.

7.3.7.3 Tax Withholding and Reporting of Distributions

7.3.7.3.1 **Responsibility for Withholding and Reporting**. Plan Sponsor appoints Empower or its designee as its agent to perform income tax withholding and reporting for all distributions Empower processes and to collect and remit state documentary stamp or similar taxes on all loans Empower processes, to the extent applicable. Plan Sponsor agrees to provide all information needed by Empower to perform these services. Empower or its designee shall deposit the income tax withheld with the Internal Revenue Service ("**IRS**") and other appropriate governmental entities, as applicable, on or before the applicable due dates for such remittances. Empower will complete necessary tax reporting forms for distributions it processes, file the tax reporting forms with the IRS or other governmental authority, as applicable, and send copies to the distributee. Distributions to a person subject to reporting and withholding rules that differ from those applicable to United States residents will be subject to withholding applicable to non-resident aliens unless otherwise Directed by the Plan Sponsor.

7.3.7.3.2 **Withholding and Reporting for Plan Sponsor Initiated Distributions and Rollovers.** With respect to Plan Sponsor-initiated distributions or rollovers from the Plan, Plan Sponsor Directs Empower to rely upon the information on Empower's

recordkeeping system for purposes of tax reporting and withholding, and to treat payees with U.S. addresses as U.S. persons and payees with foreign addresses as foreign persons. Plan Sponsor certifies that such information is accurate and compliant with the Foreign Account Tax Compliance Act ("**FATCA**") and the Code, and that required documentation supporting such information has been collected by Plan Sponsor.

7.3.8 **Code Section 402(f) Notice.** Empower shall provide Participants with the IRS model notice, as amended from time to time, pursuant to Code Section 402(f).

7.3.9 **Distribution Education Services.** Empower or its Affiliates will make retirement consultants available to Participants to provide distribution education services and may contact Participants who are eligible to receive distributions from the Plan to provide information regarding distribution options under the Plan including rollover services and products offered by Empower.

7.4 PAYMENT OF FEES & FEE CHANGES

7.4.1 **General Requirements.** This Section 7.4 describes certain services under which Empower will process Participant requests without obtaining Plan Sponsor signature or other further approval. In doing so, Empower will not exercise any fiduciary authority or make any discretionary determinations. Rather, this Section 7.4 will act as Direction by Plan Sponsor for Empower to process all Participant requests that meet the stated criteria. In order to receive the signatureless services detailed in this Section 7.4 Plan Sponsor must utilize the Plan Service Center ("**PSC**") and must provide all necessary information in a PDI file. Plan Sponsor must also provide any additional information or Direction as required by, and in a form acceptable to, Empower. In addition, in most cases, Empower must be the sole recordkeeper for the Plan. If at any time Plan Sponsor does not meet these general requirements, or does not meet the specific requirements of any service described in this Section 7.4, Empower shall not be responsible to continue to provide such service.

7.4.2 **Required Minimum Distributions (RMDs).** The Plan Sponsor Directs Empower to provide a notice to Participants who, based on the Plan records reflected on Empower's recordkeeping platform, are RMD eligible. If the Participant does not timely provide an election for the RMD as described in the notice, the Plan Sponsor acknowledges and agrees that it must provide timely Direction to Empower with respect to processing any RMD payments prior to the regulatory deadline. Empower will process RMDs upon receipt of a Participant or Plan Sponsor request in good order.

7.4.3 **Payment of Fees.** All fees not paid by Participants must be paid within thirty (30) days of Empower's invoice to the Plan Sponsor unless another arrangement has been pre-approved by Empower in writing. In the event any charges or fees reasonably and properly chargeable under the terms of the Agreement, including this Schedule or other applicable documents signed by the Plan Sponsor remain unpaid sixty (60) days after the date billed, Plan Sponsor Directs Empower to deduct such expense charges from the Plan and Plan Sponsor affirms that the Plan document specifically allows such deduction from the Plan. To the extent that the forfeiture or other Plan accounts would not pay Plan expenses under the Plan document or the Plan accounts are insufficient, Plan Sponsor Directs Empower to allocate such fees to the Participant accounts, and to the investment choices in which the Participant accounts are invested, on a pro rata basis using Participant account and investment option balance ratios as of the date of deduction. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from Plan assets consistent with the foregoing.

7.4.4 **Fee Changes.** Empower may adjust the fees set forth in this Agreement upon the earlier of (i) thirty (30) days' written notice to Plan Sponsor or (ii) mutual agreement by the parties.

7.5 ACCESS TO RECORDKEEPING SYSTEM & SERVICE REPRESENTATIVES

7.5.1 **Automated Voice Response System.** Participants will have access to an automated voice response system via a toll and toll-free number to inquire or make account changes from a touch-tone telephone. Inquiry services available from the automated voice response system will utilize share prices, unit values and account balances that are as of the last calculated unit value/share price. The automated voice response system will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

7.5.2 Participant Service Representatives. Participant service representatives will be available via a toll-free telephone call to Empower to answer Participant questions and process applicable transactions each Business Day between the hours of 5:00 am and 7:00 pm Pacific Time and on Saturdays between 6:00 am and 2:30 pm Pacific Time.

7.5.3 Plan Sponsor Access to Recordkeeping System. Plan Sponsor may interface with Empower's recordkeeping system online via Empower's Plan Sponsor website to inquire or make changes while administering the Plan. Upon request, Empower representatives will be made available to assist and train employees of Plan Sponsor in properly accessing and processing transactions on the Empower's Plan Sponsor website.

Empower's Plan Sponsor website will be available consistent with the availability of the automated VRU.

7.5.4 Participant Website

7.5.4.1 **Website Use.** Empower will, as part of the Services, host, maintain and make certain information available to Plan Sponsor and Participants on a website or websites (the "**Website Services**"). Plan Sponsor will not use or permit any use of the Website Services (i) in any unlawful or illegal manner; (ii) in any way that could impair the Website Services or any other party's use thereof; or (iii) to distribute, sell, resell, license or transfer any of Plan Sponsor's rights to access or use the Website Services or make the Website Services available to any third party. Any user credentials, including user identification and passwords, established by Plan Sponsor and its delegates or any Participant (each a "**User ID**") is issued to a specific user and may not be shared or used by any individual other than that user. Plan Sponsor will be responsible for the compliance by its users with the applicable terms of this Section. Empower may terminate the User ID, or portions thereof, for any user involved in a breach of this Section. Plan Sponsor acknowledges that transmissions through the internet are inherently unsecure, that virus protection software, firewalls and other security measures are not foolproof, and that the Website Services and their content are not invulnerable to fraud or hacking. In addition, Plan Sponsor acknowledges that Empower shall from time to time perform scheduled or emergency repairs, maintenance, and disaster recovery testing on the websites, and that such activity, or other circumstances beyond Empower's reasonable control, may cause the Website Services to be unavailable or delayed. Plan Sponsor agrees that Empower shall not be liable for any such delays or downtime in the Website Services, or for any virus or malicious access to the Website Services by third parties, provided that Empower has implemented and maintained security features with respect to the Website Services that are consistent with the Agreement and commercially reasonable industry standards.

7.5.4.2 Access to Participant Website. Participants will have access to a mobile responsive website to inquire or make certain account changes via the internet. In addition, Participants can download a complimentary Android app and an iOS phone, iPad and Apple Watch app. The Android and Apple Watch apps currently support inquiry-only capabilities while the iOS phone / iPad app supports both inquiry and certain change capabilities. All such apps will be subject to

the terms of the Agreement, as related to privacy and data security.

7.5.4.3 Website Availability. The website will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

7.5.4.4 **Enhancements.** Empower may periodically update or add new content, features, services, tools or other functionality to the Participant website or other Empower Software as part of its ongoing enhancement of the Services offered to Plan Sponsor or its Participants. Such additions will be offered at no additional cost unless expressly agreed by Plan Sponsor or Participants (as applicable).

7.6 PARTICIPANT COMMUNICATION AND EDUCATION

7.7 REPORTING SERVICES

7.7.1 **Participant Reporting.** Empower will provide Participants a confirmation for transactions involving investment allocations, investment transfers, contribution rates, change of address, rollover contributions, and rebalance activity. Empower will also make available to each Participant account information on at least a quarterly basis, including beginning and ending balances, all contributions and transactions processed, interest credited or change in value, fees and withdrawals deducted, transfers processed and performance data on Investment Options held by the Plan to the extent such data is provided by the Investment Option Sponsor, personal rate of return on investments, account balance translated into an estimated monthly income amount, and balance in the SDB, as applicable. Participants' statements shall be distributed in accordance with Section 4.8 of this Schedule, Electronic Delivery. Statements will be available within fifteen (15) Business Days after receipt of final information in good order from third party sources.

7.7.2 **Participant Fee Disclosure Services.** Empower agrees to create a Participant fee disclosure, based on the U.S. Department of Labor's Model Comparative Chart, to assist the Plan Administrator with meeting its obligations under 29 CFR §2550.404a-5 (also known as the Participant fee disclosure regulation) for the Plan Sponsor's review and approval. Empower will distribute the fee disclosure document to Participants in accordance with Section 4.8 of this Schedule, Electronic Delivery.

7.7.3 **Plan Sponsor Reporting.** Empower will provide an Employer Plan Summary Report to Plan Sponsor, summarizing Plan-level assets and Participant account balances, within thirty (30) Business Days after each

calendar quarter end ("**Employer Plan Summary Report**"). The following Plan information will be addressed in the Employer Plan Summary Report: (i) summary of Plan transactions and assets; (ii) summary of contributions processed; (iii) withdrawals; (iv) annuities purchased, if applicable; (v) periodic payments; (vi) Investment Option grand totals – summarizes both dollars and units/shares and Plan activity; (vii) Investment Option totals by money type – summarizes both dollars and units/shares and money type activity; (viii)Participant summary – a report of account activity for each Participant.

7.8 TRANSITION ASSISTANCE SERVICES

7.8.1 **Transition Services.** Empower agrees to support the transition of recordkeeping and administrative services ("**Transition Services**") to a successor service provider subject to the terms and conditions of the Agreement. Empower shall provide the following Transition Services prior to the Service End Date (as defined below) of the Agreement.

7.8.2 **Planning.** Participate in conference calls and in-person meetings, as needed, with Plan Sponsor and the successor service provider to designate the transfer team, define communication channels, discuss the transfer process and define expectations, responsibilities, and applicable deadlines. Empower will designate a transition Project Manager to lead and be the contact person for the transition effort. In the event Plan Sponsor requests that the Project Manager or other deconversion team member attend a transition services meeting in person at a site other than Empower's office location, Empower's fees for time and travel for such in-person meetings are $1500 per day, per person.

7.8.3 **Data Layouts.** Provide the successor service provider with data layouts for Participants and Plan data residing on Empower administration systems, including but not limited to data layouts for paper statement indicators, rebalance frequency elections, ACH indicators, outstanding loan terms and payment amounts, powers of attorney on file, and dividend pass-through elections. The data layouts will correspond to Empower standard file formats.

7.8.4 **Plan Materials.** Upon termination, Empower shall provide the successor service provider with copies of all Plan summaries, individual Participant statements (upon request) and other forms, reports, or web content; provided, however, Empower will provide such Plan materials only to the extent designed specifically for the Plan and not deemed by Empower to be proprietary. In addition, Plan Sponsor agrees, and will require any third party to whom Plan Sponsor provides the materials to agree, to maintain the confidentiality of all Empower materials and information, including but not limited to web content, communications material, and information on Empower's Plan Sponsor Website.

7.8.5 **"Test" Data Transfer Files.** Provide the successor service provider with two (2) full volume test extract data transfer files for the Plan. Such files

will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

7.8.6 **"Refresher" Data Transfer Files.** Provide the successor service provider with one (1) full volume test extract refresher data transfer files for the Plan. Such files will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

7.8.7 **"Live" Data Transfer Files.** Provide the successor service provider with one (1) full live data transfer file to the successor service provider in Empower standard file format for the Participant and Plan data residing on Empower administration systems as of a date mutually agreed upon by the parties. The live data file will be in the same format as the test data file or in the test data file format. Control totals and standard Empower reports will accompany the live data transfer file.

7.8.8 **Questions about Data on Transfer Files.** Provide up to 25 aggregate hours of Empower's time to answer questions about system data provided by Empower on the test data transfer files, the refresher data transfer files and the live data transfer file. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

7.8.9 **Answering Questions.** Provide up to 25 aggregate hours of Empower's time responding to questions about Plan administrative practices and communication materials used by Empower in servicing the Plan. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

7.8.10 **Final Participant Valuation.** Send to the successor service provider, at a mutually agreed upon date, reports of all historical files, documents and records necessary for the continuing administration and recordkeeping of the Plan in electronic form (where available) and/or paper form ("**Final Participant Valuation**"). As of the Service End Date, the Final Participant Valuation includes: (i) Current Participant indicative and financial data; (ii) Participant level reports; (iii) Plan level totals; (iv) Investment valuation statement; (v) Employee loan status report; (vi) Loan summary report; (vii) Deemed loan report; (viii) Highest outstanding loan balance report; (ix) MRD report; (x) Installment tax withholding report; (xii) On-line beneficiary data, if maintained by Empower; and (xiii) Scanned beneficiary forms, if maintained by Empower. Notwithstanding the foregoing, the parties acknowledge that the reports and information identified as Final Participant Valuation are subject to change based upon changes in plan administration and/or system requirements. Plan Sponsor acknowledges that at the mutually agreed upon date, Empower will provide only those reports applicable to the Plan and currently available from Empower's recordkeeping system.

7.8.11 **Open Participant Case Records.** Send open case records at a mutually agreed upon date, or Service End Date, if later, to Plan Sponsor or to successor service provider at Plan Sponsor's Direction.

7.8.12 **Year-end Processing.** For Services that conclude as of December 31 for a calendar year plan or the end of the Plan's fiscal year, as applicable, perform any compliance testing, government filings, or other reporting required as of that year-end. For Services that conclude as of any date other than December 31, perform any government filings for completed Services (e.g., Forms 1099-R for Participant distributions) and provide to Plan Sponsor the same year-end reports and information otherwise provided for a calendar or fiscal year, as applicable, but only reflecting the portion of the calendar or fiscal year, as applicable, for which Services were provided.

7.8.13 **Fees Related to Transition Services.** In the event Plan Sponsor requests Empower to provide additional or extraordinary Transition Services (beyond those described in items 7.8.1 through 7.8.12 above) including, but not limited to, change in data layout, change of data elements in standard layouts, number of data transfer files, or services beyond Service End Date, Empower reserves the right to charge the Plan or Plan Sponsor, as Directed by the Plan Sponsor, for additional or extraordinary Transition Services at then-current hourly rates. Empower shall receive payment for services rendered within 30 days of invoice delivery. In the event payment is not received within the stated timeframe all Transition Services will cease until such time payment is received.

7.8.14 **Transition Services after Service End Date.** In addition to the foregoing, Empower agrees to provide the following Transition Services for ninety days following the Agreement's termination effective date ("**Service End Date**").

7.8.14.1 Provide up to 20 hours of Empower's time responding to questions from the Plan Sponsor or its auditor. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 20 hours.

7.8.14.2 To the extent information and/or reporting is readily available from Empower's systems, Empower agrees to provide to the successor service provider the following Transition Services for up to 110 requests per month: (a) loan repayment information; (b) Participant account balances as of specific dates; (c) Participant account earnings and/or dividends for specific time periods; (d) distribution history information; (e) reporting or respond to other Participant account history information requests; (f) Participant account history information (excluding QDRO related information); (j) Participant Statements; (k) Duplicate Forms 1099-R; (l) Provide QDRO related account history; (m) Respond to questions regarding Plan specific processes, provided

however that if the number of requests exceeds 110 in any given month, a per-request fee of $500 will be assessed.

Schedule A: Recordkeeping Services Schedule 20

This Restated Master Services Agreement ("**Agreement**") is dated July 1, 2022 ("**Effective Date**") and sets forth the general terms and conditions under which Empower Retirement, LLC will provide Services to the undersigned Plan Sponsor with respect to the employee benefit plan(s) sponsored by Plan Sponsor, as identified in the attached Schedules (the "**Plan**" or "**Plans**"). This Agreement amends and restates the prior Administrative Services Agreement entered into between the parties in its entirety.

1. DEFINITIONS

"**Affiliate**" means a corporate entity that directly or indirectly is controlled by or is under common control with a party, including any entity that conforms to this definition after the effective date of this Agreement.

"**Agreement**" includes this Master and any Exhibits, Schedules, notices and other documents attached, incorporated or referenced herein.

"**Business Day**" means any day, and only for as many hours as, the New York Stock Exchange is open.

"**Code**" means the Internal Revenue Code of 1986, as amended from time to time.

"**Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Data Protection Laws**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Direction**" and "**Direct**" and their similar terms shall mean the instruction, authorization, or direction given to Empower by the Plan Sponsor, another fiduciary of the Plan, or a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or another fiduciary. Plan Sponsor directs Empower to process certain Plan transactions based solely on Participant instruction under the terms of this Agreement.

"**Empower**" and "**Empower Retirement**" refer to Empower Retirement, LLC and its Affiliates with respect to products and Services offered in the retirement markets, including but not limited to recordkeeping and other financial services.

"**Information Security Breach**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Investment Options**" means those investment options made available under the Plan based on Plan Sponsor or another Plan investment fiduciary designated by the Plan Sponsor (other than Empower or one of its Affiliates).

"**Participant**" shall mean an employee, former employee, participant, former participant, member, beneficiary or alternate payee who is or may be entitled to participate in or receive benefits under the Plan.

"**Personal Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Administrator**" means a designated employee or committee, or a third party retained by Plan Sponsor or named in the Plan (other than Empower or one of its Affiliates), to be the "plan administrator" and "named fiduciary" as defined by applicable law.

"**Plan Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Sponsor**" means the Plan Sponsor identified above, the Plan Administrator, named fiduciaries, and other delegates of the Plan Sponsor (other than Empower or one of its Affiliates) as dictated by the context.

"**Services**" means the services provided by Empower or an Empower Affiliate, as applicable, acting as a service provider Directed by the Plan Sponsor to perform such Services under an applicable Schedule. Empower shall provide the Services in a non-fiduciary capacity (except where Empower acknowledges its fiduciary status in writing). The provision of Services shall be governed by the terms and conditions set forth in this Agreement, by applicable law and regulations and any additional terms and conditions contained in the applicable Schedule.

2. SCOPE OF THE AGREEMENT

This Agreement sets forth the terms and conditions pursuant to which Plan Sponsor may receive Services from Empower or an Empower Affiliate, as the case may be, pursuant to a separate Services Schedule attached hereto. These terms and conditions will be deemed to be incorporated by reference into each and every Schedule entered into between the parties. Each Schedule will be a separate agreement between Plan Sponsor and the Empower Affiliate that enters into the Schedule. All references to "Empower" in this Agreement will be deemed references to Empower or the Empower Affiliate, as the case may be, that entered into the Schedule.

3. FEES/CHARGES & FEE DISCLOSURES

3.1 Fees / Charges. Plan Sponsor agrees to pay Empower for the Services. Unless otherwise Directed by the Plan Sponsor, the Plan Sponsor hereby Directs Empower to deduct applicable Plan expenses from the Plan and/or Participant accounts, as applicable.

4. CONFIDENTIALITY

4.1 Confidential Information. In order to perform the Services, both parties may have access to certain information of the other party, including, without limitation, trade secrets, commercial and competitively sensitive information of the party related to business methods or practices, and proprietary software or websites of a party ("**Confidential Information**"). For the purpose of clarity, any software or website owned, licensed, or made available by Empower ("**Empower Software**") is Confidential Information of Empower. The parties mutually agree to hold all Confidential Information of the other party in confidence and not to disclose any Confidential Information of the other party to anyone except the parties' Affiliates, suppliers, and respective personnel in connection with the performance or receipt of Services hereunder, or as otherwise directed or approved by the other party or its agents. Confidential Information does not include: information that is otherwise in the public domain through no action of the non-disclosing party; information that is acquired by a party from a person other than the other party or its agents without any obligation of confidentiality; or information that is independently developed by a party without reference to the Confidential Information of the other party.

4.2 Permitted Disclosures of Confidential Information.

4.2.1 Legally Required Disclosures. In the event a party is required to make a legally required disclosure of the other party's Confidential Information, such party shall notify the other party of the disclosure as soon as reasonably practicable and shall cooperate with any efforts by such party to obtain protective treatment of such Confidential Information to the extent permitted by law. The foregoing shall not apply to (i) broad-based regulatory examinations associated with a party's general business or operations; (ii) disclosures made in conjunction with a law enforcement investigation or inquiry; (iii) or where notice is prohibited by law. For purposes of Rule 14(b)-1 and Rule 14(b)-2 of the Securities Exchange Act

of 1934, as amended from time to time, Plan Sponsor authorizes Empower, and/or its Affiliates and services providers, to provide the name, address and share position of the Plan with respect to any class of securities registered under the Investment Company Act of 1940 when requested by such SEC registrant for purposes of shareholder meetings. The above-referenced rules prohibit the requesting SEC registrant from using the Plan's name and address for any purpose other than corporate communications of the type contemplated under the rules.

4.2.2 Authorized Disclosures. Plan Sponsor authorizes Empower to disclose Data to Empower's Affiliates and service providers in connection with Empower's performance of Services under this Agreement. In addition, Plan Sponsor authorizes Empower to disclose Data to Plan Sponsor's advisors, third-party administrators, service providers (such as payroll providers) and representatives authorized by Plan Sponsor in writing to receive such Data. Empower may use and disclose, for benchmarking and research purposes, de-identified Data that is aggregated with other anonymized data of a similar nature across Empower's client base in a manner that makes such Data unidentifiable to a particular individual or plan. Empower's current Privacy Notice is attached to this Agreement, but shall not lessen any of Empower's obligations regarding Personal Data hereunder. Plan Sponsor agrees that any changes to the Privacy Notice may be delivered to Plan Sponsor through the Plan Service Center or by email to designated representatives of the Plan Sponsor.

4.2.3 Disclosures of Personal Data to Plan Sponsor. Plan Sponsor may direct Empower to provide Plan Sponsor or its designated agent with information (which may include Personal Data) received from or in relation to Participants in connection with the performance of Services under this Agreement, which may include private information shared by the Participant during recorded phone calls and written or electronic correspondence.

5. DATA PROTECTION

5.1 Mutual Obligation to Protect Data. Empower and Plan Sponsor each agree to maintain and hold in confidence all Data and Confidential Information, as applicable, received in connection with the performance of Services under this Agreement. Empower and Plan Sponsor agree that their collection, use and disclosure of all Data is and will at all times be conducted in compliance with all applicable Data Protection Laws. Each party will implement, support, and maintain appropriate physical and logical security measures designed to secure Data, and will take all commercially reasonable organizational and technical steps to protect against unlawful and unauthorized processing of Personal Data. In accordance with the foregoing, Empower maintains a comprehensive data security program designed to safeguard Data and access to the Empower Software and systems, as further set forth in the Data Security & Privacy Addendum attached hereto as Exhibit 1.

5.2 Mutual Notice of an Information Security Breach. The parties will promptly notify each other in the event of an Information Security Breach. Such notice shall include: (i) the consequences of the breach, including (without limitation) any potential impact on the other party's security measures, systems, Data, Confidential Information, or the Empower Software; and (ii) the corrective action taken to remedy the breach. In addition to the foregoing, Plan Sponsor will notify Empower immediately upon discovering a compromise of the security and/or log-on credentials of any Plan Sponsor employee or agent that has a plan administration role in Empower's system.

6. BUSINESS CONTINUITY & DISASTER RECOVERY

Empower will maintain business continuity and disaster recovery procedures to address the security, integrity and availability of the technology, operational, financial, human and other resources

required to provide mission-critical Services in the event of a natural disaster or other interruption of normal business operations. Such procedures will be tested at least once annually. GWFS Equities, Inc.'s current Business Continuity Plan Notice is attached to this Agreement. By executing this Agreement, Plan Sponsor acknowledges receipt of this Notice.

7. RECORDS & AUDIT

7.1 Record Retention. Empower shall retain all records in its custody and control that are pertinent to performance under this Agreement in accordance with its record retention policy and as required by law. Subject to the foregoing, each party agrees to return or destroy the other party's Confidential Information and Data once it is no longer required for the purpose of performing or receiving the Services, provided that the parties are not obligated to destroy copies of Confidential Information or Data that must be retained for audit, legal or regulatory purposes, or that is stored in non-readily accessible electronic format, such as on archival systems; in such cases Empower's data protection obligations shall continue until such Data is destroyed in accordance with Empower's record retention policy.

7.2 SSAE 18. Each year upon the request of Plan Sponsor, Empower will provide a copy of the review performed by Empower's external auditors under the "Statement of Standards for Attestation Engagements Number 18, Attestation Standards: Clarification and Recodification" of the American Institute of Certified Public Accountants ("**SSAE18**") SOC 1, or any new or replacement standard or protocol established by the American Institute of Certified Public Accountants.

7.3 Audit. During the term of this Agreement, Plan Sponsor, at Plan Sponsor's sole cost and expense, shall have the right, once per year and with 30 days' advance notice to Empower, to review and perform operational and administrative audits (collectively, an "**Operational Audit**") of the Services. Empower will provide up to 40 hours of audit assistance, per year, at no additional cost to Plan Sponsor. Any Operational Audit requested pursuant to this Section will be performed in a reasonable time, place and manner so as not to disrupt Empower's normal business. Plan Sponsor may use a third party to perform such Operational Audit, provided, however, that no third party may perform an Operational Audit hereunder except pursuant to such third party's signature to Empower's confidentiality agreement. Such audit will be limited to Plan records, data and information related to the Plan, and will not require Empower to divulge confidential or proprietary information.

8. INTELLECTUAL PROPERTY RIGHTS

8.1 Plan Sponsor Materials. As between the parties hereto, excluding the Empower Materials (as defined below), Plan Sponsor shall own materials, trademarks, trade names, logos, trade dress, and other Confidential Information provided or made accessible by Plan Sponsor to Empower for use in providing the Services (collectively, the "**Plan Sponsor Materials**"). Plan Sponsor grants Empower a limited, revocable right and license to use Plan Sponsor's name, logo, and trademarks in materials created by Empower in connection with providing the Services. Nothing contained herein shall prohibit Empower from referencing client partnerships in the normal course of public-relations communications or in materials prepared at the request of prospective clients.

8.2 Empower Materials. As between the parties hereto, Empower and its Affiliates shall own all materials, documentation, user guides, forms, templates, business methods, trademarks, trade names, logos, websites, Empower Software, technology, computer codes, domain names, text, graphics, photographs, artwork, interfaces, and other information or material provided by Empower or its Affiliates hereunder (collectively, the "**Empower Materials**"). Empower grants to Plan Sponsor and Participants (as applicable) a non-exclusive, non-transferable license to use the Empower Materials during the term of the

Agreement for purposes of using Empower's Services hereunder and subject to the terms and conditions set forth in this Agreement and any terms of use associated with Empower Software. All rights with respect to the Empower Materials not specifically granted hereunder are reserved by Empower.

9. LIABILITY & INDEMNIFICATION

9.1 Empower agrees to indemnify the Plan Sponsor from and against any and all expenses, costs, reasonable attorneys' fees, settlements, fines, judgments, damages, liabilities, penalties or court awards asserted by a third party (collectively, "**Damages**") to the extent resulting from Empower's breach of this Agreement, negligence, or willful misconduct. Notwithstanding anything to the contrary herein, Empower shall not be liable to Plan Sponsor for any Damages resulting from: 1) any acts or omissions undertaken at the Direction of the Plan Sponsor or any agent or any third party authorized by Plan Sponsor to provide Direction to Empower, including but not limited to prior service providers, investment advisors, or any authorized agent thereof; 2) any performance of the Services that is in strict compliance with the terms of this Agreement; or 3) Plan Sponsor's or its designee's failure to provide accurate documents, material, information or data to Empower or its Affiliates, as applicable on a timely basis.

9.2 Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, LOSS OF REVENUE OR PROFIT) EVEN IF THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9.3 Insurance. Empower will, at its own cost and expense, procure and maintain in full force and effect throughout the term of this Agreement insurance coverage that is reasonably appropriate to the Services provided under this Agreement and any Schedule hereto. The requirements in this section are not intended to, and will not in any way, limit or qualify the liabilities and obligations of Empower under this Agreement.

10. DISPUTE RESOLUTION

The parties shall engage in reasonable and good faith discussions to resolve any dispute arising out of or relating to this Agreement. If the parties are unable to agree between themselves, the parties will submit the dispute to non-binding mediation conducted by a private mediator agreed to by both parties. If the parties cannot agree on a mediator, the mediator may be selected by a nationally recognized, independent arbitration or mediation organization to which the parties mutually agree. The costs of mediation shall be borne equally by the parties, and each party shall pay its own expenses. If the parties are unable to resolve the dispute through non-binding mediation, either party may initiate litigation; provided, however, that if one party requests mediation and the other party rejects the proposal or refuses to participate, the requesting party may initiate litigation immediately upon such refusal.

11. TERM & TERMINATION

11.1 Term & Termination. This Agreement shall be in effect commencing on the Effective Date set forth above and continuing for a one (1)-year period through July 1, 2023, with the option to exercise two (2) additional one (1)-year renewal periods. In the event this Agreement should terminate or expire

prior to the completion date designated in any Schedule, such Schedule shall terminate concurrently with the Agreement.

11.2 Termination for Convenience. This Agreement or any Schedule attached hereto may be terminated by either party by delivering ninety (90) days advance written notice to the other party. The termination of this Agreement shall also operate as a termination of all Schedules hereto.

11.3 Termination for Default. Either party may, upon written notice, terminate this Agreement or any Schedule attached hereto if the other party materially breaches or is in default of any material obligation hereunder, which default is incapable of cure, or which being capable of cure, has not been cured within ninety (90) days after receipt of notice of such default from the non-defaulting party, or within such additional cure period as mutually agreed upon by the parties.

11.4 Transition Assistance Services. Upon termination for any reason, Empower will provide to Plan Sponsor the deconversion and transition assistance services set forth in the Recordkeeping Services Schedule, attached hereto. For the avoidance of doubt, this Agreement will govern the transition assistance services provided.

12. MISCELLANEOUS

12.1 Affiliates & Agents. Plan Sponsor acknowledges and agrees that Empower may utilize the services of Affiliates, agents and suppliers selected by Empower. Empower's use of any such party will not relieve Empower of its obligations hereunder, and Empower shall at all times remain liable for the performance of the Services hereunder. Notwithstanding the foregoing, and notwithstanding that Empower and Plan Sponsor are entering into this Agreement, the obligations under each Schedule are solely the obligations of the Empower Affiliate that entered into that Schedule (including the terms of this Agreement that are incorporated therein by reference), and neither Empower nor any Empower Affiliate shall be jointly and severally liable with any other Empower entity. Neither Empower nor any Empower Affiliate shall be the guarantor of the obligations of any other Empower Affiliate.

12.2 Relationship of the Parties. The relationship between the parties is that of independent contractors. Neither party nor its personnel shall be considered employees of the other party for any purpose. None of the provisions of this Agreement shall be construed to create an agency, partnership or joint venture relationship between the parties or the partners, officers, members or employees of the other party by virtue of either this Agreement or actions taken pursuant to this Agreement. The parties shall bear sole responsibility for all taxes, assessments and other real property related levies on their owned or leased real property, personal property (including software), franchise and privilege taxes on their business, and taxes based on their net income or gross receipts. If applicable, the parties shall reasonably cooperate to more accurately determine each party's tax liability and to minimize such liability to the extent legally permissible.

12.3 No Third Party Beneficiaries. This Agreement is solely for the benefit of the parties hereto and their Affiliates and is not intended to confer any rights or remedies upon any other person.

12.4 Assignment. This Agreement shall be binding upon and inure to the benefit of each of the parties, their Affiliates, successors and permitted assigns; provided, however, that neither party may assign its rights or obligations hereunder without the other party's prior written consent. Notwithstanding the foregoing, a party may assign this Agreement in connection with: (i) the sale of substantially all of its assets or the assets of any business unit to an entity that assumes the assignor's obligations under this Agreement; (ii) a merger, acquisition or divestiture; and/or (iii) a transfer to a parent or Affiliate, in each case without the other party's consent.

12.5 Entire Agreement. Each Schedule, including any Exhibits, notices and attachments (including an incorporation by reference of the terms and conditions of this Agreement), constitutes the entire agreement of the parties thereto with respect to the subject matter thereof and supersedes all prior drafts, agreements, negotiations and proposals, written or verbal, relating to the Services contained in the applicable Schedule. This Agreement or any Schedule may be amended by written agreement of the parties; for that purpose, emails do not constitute signed writings. Notwithstanding the foregoing, Empower may add or enhance the Services, update the method of providing the Services without any reduction in service, or modify the Services to comply with applicable laws by providing written notice to Plan Sponsor at least 30 days in advance of the effective date of such change, provided that Plan Sponsor may opt out of certain Services that directly impact Participants and any changes that result in an increase in fees to the Plan. Any Empower notices or policies that are attached to or referenced in this Agreement may be modified by Empower at any time, provided that such modifications shall not materially degrade the rights or protections set forth therein. No waiver of any breach of any provision of this Agreement shall constitute a waiver of any prior, concurrent or subsequent breach of such provision or any other provision hereof and no waiver shall be effective unless made in writing.

12.6 Governing Law; Waiver of Jury Trial. Unless and to the extent provided otherwise in a Schedule hereto, this Agreement shall be construed and enforced in accordance with and governed by the laws of the state of California, without regard to conflict of law principles, and any claim arising under or related to this Agreement shall be subject to the exclusive jurisdiction of the federal and state courts located in California. Both parties agree to waive any right to have a jury participate in the resolution of any dispute or claim arising out of, connected with, related to or incidental to this Agreement to the fullest extent permitted by law.

12.7 Force Majeure. Neither Empower nor Plan Sponsor shall be liable to the other for any and all losses, damages, costs, charges, attorney fees, payments, expenses or liability due to delay or interruption in performing its obligations hereunder, and without the fault or negligence of such party, due to causes or conditions beyond its control, including, without limitation, labor disputes, riots, war and war-like operations including acts of terrorism, explosions, sabotage, civil disturbance, governmental restriction, transportation problems, failure of power or other utilities including phones, internet disruptions, fire or other casualty, natural disasters, epidemics, pandemics, acts of God, disruptions in orderly trading on any relevant exchange or market, or any other cause that is beyond the reasonable control of either party.

12.8 Severability. The provisions of this Agreement are severable, and if for any reason a clause, sentence, paragraph or provision of this Agreement is determined to be invalid by a court or federal or state agency, board or commission having jurisdiction over the subject matter thereof, such invalidity will not affect other provisions of this Agreement that can be given effect without the invalid provision.

12.9 Notices. All formal notices required by this Agreement will be in writing and shall be sent to Empower as set forth below and to the most current Plan Sponsor and trustee address on file with Empower. All notices sent shall be effective upon receipt.

Notice To Empower:
Empower Retirement, LLC

Attn: General Counsel

12.10 Headings; Defined Terms; Counterparts. Section headings used in this Agreement are intended for reference purposes only and shall not affect the interpretation of this Agreement. Unless the context requires otherwise, capitalized terms defined in this Agreement have the meanings set forth herein for all purposes of this Agreement, including any Schedules or Exhibits. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same agreement. The parties' execution and delivery of this Agreement by facsimile, email, or electronic copies shall have the same force and effect as execution and delivery of an original.

12.11 No Tax or Legal Advice. Nothing in this Agreement is intended to constitute legal or tax advice from Empower to Plan Sponsor, or to any other party. Plan Sponsor understands that Empower has not given and may not give legal advice. All issues should be reviewed and discussed with Plan Sponsor's legal counsel and/or tax adviser.

12.12 Survival. The provisions of the following sections shall survive the termination of this Agreement: Fees & Charges; Confidentiality; Data Protection; Record Retention; Intellectual Property Rights; Indemnification; Limitation of Liability; Dispute Resolution; Governing Law; Waiver of Jury Trial; Survival; Severability; Transition Assistance Services; No Tax or Legal Advice; No Third-Party Beneficiaries; and any other section that would by its context be reasonably expected to survive termination.

12.13 Signatures/Corporate Authenticity. By signing this Agreement, the parties certify that they have read and understood it, that they agree to be bound by its terms, and that they have the authority to sign it. This Agreement is not binding on either party until signed by both parties.

12.14 Electronic Signatures. Each party agrees that this Agreement and any other documents to be delivered in connection herewith may be electronically signed, and that any electronic signatures reasonably believed to be genuine on this Agreement or such other documents are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

EXHIBIT 1:
DATA SECURITY & PRIVACY ADDENDUM

This Data Security & Privacy Addendum applies to Empower and its Affiliates and describes how Empower protects Personal Data and Plan Data (the "**Addendum**"). Capitalized terms used but not defined herein have the meanings given to them in the Master Service Agreement executed by Empower and Plan Sponsor under which Empower provides services to Plan Sponsor ("**Agreement**").

1. Definitions. The following terms have the meanings set out below and similar terms shall be construed accordingly:

"**Data**" means Personal Data and Plan Data.

"**Data Protection Laws**" means any law with respect to the protection of Personal Data that is applicable to Empower's Services under the Agreement or any Schedule thereto.

"**Information Security Breach**" means a confirmed compromise of an information system within the authority or responsibility of Empower that results in: (i) the unauthorized acquisition, disclosure, modification or use of unencrypted Personal Data, or encrypted Personal Data where the encryption key has also been compromised; and (ii) a reasonable likelihood of identity theft or fraud against a data subject in the Plan. An Information Security Breach includes, without limitation, theft and/or malicious use of Data by Empower personnel. A good faith but unauthorized or unintentional acquisition, disclosure, modification or use of Personal Data by an employee or contractor of Empower or a party who has signed a confidentiality agreement with Empower does not constitute a Security Breach if the Personal Data is not subject to further unauthorized acquisition, disclosure, loss, modification, or use.

"**Personal Data**" shall mean information that identifies or is reasonably capable of being associated with a Participant in the Plan or an eligible employee of Plan Sponsor, and includes personally identifiable financial information as defined by Title V of the Gramm-Leach-Bliley Act, but excluding data that is publicly-available and data from which individual identities have been removed and that is not linked or reasonably linkable to any individual.

"**Plan Data**" shall mean non-public Plan level information that is provided to Empower in connection with receipt of the Services. Plan Data excludes data that is de-identified and aggregated for benchmarking and research purposes.

"**Subprocessor**" means any person (including any third party service provider and any Empower Affiliate, but excluding personnel employed by such parties) engaged by Empower to process Personal Data.

2. Direction. Plan Sponsor Directs Empower and its Affiliates (and authorizes Empower and its Affiliates to Direct each Subprocessor), where applicable, to process Personal Data as follows: (a) processing in accordance with the Master Agreement and any amendments thereto as executed by the parties; and (b) processing initiated by Participants in their use of the Services. Plan Sponsor represents that it is and covenants that it will at all relevant times remain duly and effectively authorized to give the Direction set out herein.

3. Security. In order to protect Personal Data, Empower will implement appropriate technical and organizational measures designed to protect Personal Data in accordance with the requirements of any

Data Protection Laws. In addition to the foregoing, Empower's security program shall conform to the commitments described below.

4. Subprocessing. Plan Sponsor hereby agrees that Empower may engage its Affiliates and third parties as Subprocessor in connection with the provision of Services under the Agreement. Empower shall carry out reasonable due diligence as appropriate to the nature of each Subprocessor's services to ensure that the Subprocessor is capable of providing the level of protection for Personal Data required by the Information Security Policies. Upon request, Empower shall make available a current list of any material Subprocessors that have access to Personal Data; the parties hereto agree that such list is the Confidential Information of Empower and subject to the confidentiality provisions of the Agreement.

5. Data Subject Rights. Empower responds to any request from a Participant under applicable Data Protection Laws (such as "Right to Know" requests) as required by applicable Data Protection Laws. Empower will advise Plan Sponsor of any such request that requires Plan Sponsor's assistance or response, and in such case the parties shall cooperate with respect to the response to such Participant.

6. Data Security. Empower's Information Security Policies and related policies address the management of information security, the security controls employed by the organization. These policies include, without limitation:

6.1 An Information Security Board that is responsible for the development, implementation, and ongoing maintenance of Empower's data security.

6.2 Documented policies ("**Information Security Policies**") that Empower formally approves, internally publishes, communicates to appropriate personnel and reviews at least annually. Empower's Information Security Policies shall (i) mandate the secure protection and handling of confidential data, (ii) comply with applicable laws, (iii) conform to or exceed applicable industry standards for the retirement plan services industry, and (iv) documented, clear assignment of responsibility and authority for data security-related activities.

6.3 Policies covering acceptable computer use, record retention/destruction, information classification, cryptographic controls, access control, network security, removable media, remote access, mobile computing and wireless access.

6.4 Regular testing of the key controls, systems and procedures, including (i) testing of information technology general controls (ITGC) at least annually or whenever there is a material change in business practices, and (ii) infrastructure penetration tests and scans against internet-facing points of presence. Empower will correct vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards.

6.5 Policies and procedures designed to protect the security of Plan Data and Personal Data that is accessible to, or held by, Empower's third party suppliers. Such policies shall be based on Empower's Information Security Policies, and shall address, as applicable: (i) the identification and risk assessment of such supplier; (ii) minimum cybersecurity standards required to be met by such suppliers; (iii) due diligence processes used to evaluate the adequacy of cybersecurity practices of such suppliers; and (iv) periodic assessment of such suppliers based on the risk they present and the continued adequacy of their cybersecurity practices.

6.6 Use of appropriate administrative, technical and operational measures designed to ensure Personal Data and Plan Data is secure.

6.7 Monitoring, evaluating and adjusting, as appropriate, its data security protocols summarized herein, in light of relevant changes in Data Protection Laws, Services, technology or industry security standards, the sensitivity of data collected or processed by Empower in the provision of its Services, and evolving internal or external risks. Empower may make such updates to its data security protocols and the terms hereof at any time without notice so long as such updates maintain a comparable or better level of security. Individual measures may be replaced by new measures that serve the same purpose without diminishing the security level protecting Personal Data or Plan Data.

7. Risk Management. Empower has a risk assessment program that includes regular risk assessments and management for risk identification, analysis, monitoring and reporting.

8. Human Resources.

8.1 Acknowledgements. Empower shall provide training on its information security practices to its personnel at least annually. Empower personnel shall acknowledge their information security and privacy responsibilities under Empower's policies.

8.2 Personnel Controls. Empower completes appropriate pre-employment background checks and screening on its personnel, and requires personnel to complete initial security training at the time they are first employed with Empower and annually thereafter. All personnel attest annually to Empower's Code of Business Conduct and Ethics, which enforces the tenets of Empower's Information Security Policies and its privacy policies. Empower has disciplinary processes for violations of information security or privacy requirements, and promptly removes personnel access to Plan Data or Personal Data upon termination or applicable role change.

9. Physical and Environmental Safety.

9.1 Physical and Environmental Security Controls. Empower has appropriate physical and environmental controls to protect Empower's equipment, assets, and facilities used to provide services. Physical security includes, without limitation (i) physical security in the protection of valuable information assets of the business enterprise; and (ii) the provision of protection techniques for the entire facility, from the outside perimeter to the inside office space, including the datacenters and wiring closets.

9.2 Ongoing Operations. Empower protects its facilities and systems containing Data from failures of power, networks, telecommunications, water supply, sewage, heating, ventilation, and air-conditioning.

10. Communications and Operations Management.

10.1 Controls. Empower has policies and procedures in place for communications and operations management controls. Such controls address: hardening, change control, segregation of duties, separation of development and production environments, network security, virus protection, patch management, media controls, data in transit, encryption, audit logs, and time synchronization.

10.2 Operations Security. Empower's Information Security Policies mandate ongoing operations security requirements, including but not limited to, installing or maintaining (i) security patches for operating systems and applications within standard timeframes based on severity; (ii) industry standard versions of operating systems, software and firmware for system applications and components; and (iii) up-to-date system security agent software which includes updated malware and virus definitions.

11. Access Control.

11.1 Access Control. Empower utilizes access controls designed to ensure that only Empower personnel with the proper need and authority can access its internal recordkeeping system and associated data. Empower's access controls include but are not limited to: limiting access to personnel with a requirement to view Personal Data; establishing least-privilege controls to protect systems and Personal Data; generation of audit trails; periodic review and approval of personnel who need to access the Empower recordkeeping system; and termination of personnel access promptly following severance from employment.

11.2 Authentication. Empower authenticates user identity through appropriate authentication controls such as strong passwords, token devices, or biometrics. Passwords must meet minimum length and complexity requirements.

11.3 Remote Access to Empower Systems. Empower uses multi-factor authentication for remote access to its systems.

12. Information Systems Acquisition, Development and Maintenance.

12.1 Systems Development Security. Empower addresses security as part of information systems development and operations and follows secure coding methodologies based on application development security best practices.

12.2 Software Security Management. Empower's information systems (including operating systems, infrastructure, business applications, off-the-shelf products, services and user-developed applications) adheres to the information security standards set forth in Empower's Information Security Policies.

12.3 Vulnerability Assessments/Ethical Hacking. Empower performs vulnerability assessments and penetration testing against Internet-facing points of presence. Empower corrects vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards set forth in Empower's Information Security Policies.

12.4 Cryptography. Empower uses cryptography techniques that assist Empower with preventing the unauthorized capture, modification of or access to data or information. Empower uses standard encryption algorithms that follow up-to-date encryption standards and industry practices. Such cryptography techniques may include but are not limited to: encryption of sensitive data sent across external communication lines; requirement of minimum 128-bit encryption TLS encryption for web browsers; and encryption of Personal Data while stored on laptops, mobile devices, and in recordkeeping databases.

13. Information Security Breach Management.

13.1 Incident Management Program. Empower maintains investigative measures and techniques for incident handling, including but not limited to: a formalized, enterprise-wide Computer Security Incident Response Team ("**CSIRT**"), and CSIRT processes which are tested at least annually.

13.2 Information Security Breach Response. Empower will notify Plan Sponsor after becoming aware of any Information Security Breach in accordance with all applicable Data Protection Laws. For the avoidance of doubt, Empower will (i) keep the Plan Sponsor informed of significant developments in connection with the investigation of such incident; (ii) investigate and assist any regulator or other governmental body with oversight over the Information Security Breach in investigating, remedying and

taking any other action regarding the Information Security Breach as appropriate or required by law; and (iii) provide Plan Sponsor with information about remedial measures that have been undertaken to prevent such Information Security Breach from reoccurring. In the event that individual or regulatory notifications are required under applicable Data Protection Laws, the parties will cooperate with respect to notifications. To the extent the Information Security Breach is caused by Empower's failure to abide by its obligations as set forth in this Addendum, Empower shall bear the costs of such notifications and provision of credit monitoring services to affected individuals to the extent required by law or otherwise appropriate in Plan Sponsor's and Empower's reasonable judgment.

14. Plan Sponsor Assessment Rights.

14.1 Assessment via Security Assurance Package. Within the secure Plan Sponsor website provided by Empower, Empower provides documentation that supports and informs the reader about Empower's current security program and practices. These documents are referred to as the Security Assurance Package ("**SAP**"), which currently consists of the following items: Security Program Overview document, SOC 1 report, SOC 2 report, available IT certification reports (e.g. Verizon CRP), and a completed SIG questionnaire with related supporting materials. (The SIG is a standardized document template created by the Shared Assessments Program, a consortium of leading financial institutions, the Big 4 accounting firms, and companies from a wide array of industries.)

14.2 Regulatory Assessment. If Plan Sponsor's governmental regulators require that Plan Sponsor perform an on-site audit of Empower's network security, as supported by evidence provided by Plan Sponsor, Plan Sponsor may conduct an on-site audit of Empower's network security, relevant to the security of Plan Data ("**Regulatory Audit**"). Unless a different notice or frequency is required by Plan Sponsor's governmental regulators, a Regulatory Audit may be conducted by Plan Sponsor once per year at a mutually agreed-upon time with at least 60 days' advance written notice to Empower. If a Regulatory Audit requires the equivalent of more than two business days of Empower Personnel's time to support such audit, Empower may charge Plan Sponsor an audit fee at Empower's then-current rates for each day thereafter.

14.3 Miscellaneous. This Addendum is governed by and incorporated into the Agreement. In the event of any conflict between the Agreement and this Addendum, the Agreement will prevail. Any capitalized terms used but not otherwise defined herein shall have the meaning set forth in the Agreement.

EXHIBIT 2:
PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

This Exhibit 2 shall apply to any Recordkeeping Services Schedule under the Master Services Agreement

PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

The prospectuses, policies and/or procedures of certain fund companies require retirement plan providers offering their fund(s) to agree to restrict market timing and/or excessive trading ("prohibited trading") in their funds. The following procedures describe how we, as your recordkeeper, will comply with fund company instructions designed to prevent or minimize prohibited trading.

Various fund companies instruct intermediaries to perform standardized trade monitoring while others perform their own periodic monitoring and request trading reports when they suspect that an individual is engaging in prohibited trading. If an individual's trading activity is determined to constitute prohibited trading, as defined by the applicable fund company, the individual will be notified that a trading restriction will be implemented if prohibited trading does not cease. (Some funds may require that trading restrictions be implemented immediately without warning, in which case notice of the restriction will be provided to the individual and plan, if applicable). If the individual continues to engage in prohibited trading, the individual will be restricted from making transfers into the identified fund(s) for a specified time period, as determined by the applicable fund company. Individuals are always permitted to make transfers out of the identified fund(s) to other available investment options. When the fund company's restriction period has been met, the individual will automatically be allowed to resume transfers into the identified fund(s).

Additionally, if prohibited trading persists, the fund company may reject all trades initiated by the plan, including trades of individuals who have not engaged in prohibited trading.

Note: certain plan sponsors have or may elect to implement plan level restrictions to prevent or minimize individual prohibited trading. To the extent that such procedures are effective, we may not receive requests for information from the fund companies or requests to implement the restrictions described above.

EXHIBIT 3: PRIVACY NOTICE

PRIVACY NOTICE

REV 5/2021

FACTS	What does Great-West Life & Annuity Insurance Company (Empower Retirement) do with your personal information?
WHY?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share and protect your personal information. Please read this notice carefully to understand what we do.
WHAT?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: • Social Security number and account balances. • Retirement assets and transaction history. • Employment information and income. When you are no longer our customer, we continue to share your information as described in this notice.
HOW?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information, the reasons Empower Retirement chooses to share and whether you can limit this sharing.

REASONS WE CAN SHARE YOUR PERSONAL INFORMATION	**DOES EMPOWER RETIREMENT SHARE?**	**CAN YOU LIMIT THIS SHARING?**
For our everyday business purposes — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes — to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes — information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes — information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

QUESTIONS?	Call toll-free at **855-756-4738** or go to **empower-retirement.com/privacy**

WHO WE ARE	
Who is providing this notice?	Companies owned by Great-West Life & Annuity Insurance Company. A list of companies is provided at the end of this notice.
WHAT WE DO	
How does Empower Retirement protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include physical, technical and procedural safeguards, such as building and system security and personnel training.
How does Empower Retirement collect my personal information?	We collect your personal information, for example, when you: • Provide account information or apply for a loan. • Enter into an investment advisory contract or seek advice about your investments. • Tell us about your investment or retirement portfolio. We also collect your personal information from others, such as credit bureaus, affiliates or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only: • Sharing for affiliates' everyday business purposes — information about your creditworthiness. • Affiliates from using your information to market to you. • Sharing for nonaffiliates to market to you. State laws and individual companies may give you additional rights to limit sharing.
DEFINITIONS	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • *Our affiliates include companies with the Empower, Empower Retirement or Great-West names, as listed below, and other financial companies such as Advised Assets Group, LLC and Empower Retirement, LLC.*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • *Empower does not share with nonaffiliates so they can market to you.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. • *Empower doesn't jointly market.*
WHO IS PROVIDING THIS NOTICE?	
Great-West Life & Annuity Insurance Company; The Great-West Life Assurance Company (U.S. operations); Great-West Life & Annuity Insurance Company of New York; Great-West Financial Retirement Plan Services, LLC; Advised Assets Group, LLC; GWFS Equities, Inc.; The Canada Life Assurance Company (U.S. operations); Empower Retirement, LLC; Great-West Life & Annuity Insurance Company of South Carolina; Great-West Capital Management, LLC; Great-West Funds, Inc.; and Great-West Trust Company, LLC	

EXHIBIT 4: BUSINESS CONTINUITY PLAN NOTICE

GWFS Equities, Inc., a subsidiary of Great-West Life & Annuity Insurance Company and affiliate of Great-West Life & Annuity Insurance Company of New York* ("the Company") and Empower Retirement, LLC, maintains a comprehensive business continuity plan designed to respond reasonably and effectively to events that lead to significant business disruption, such as natural disasters, power outages, or other events of varying scope. This plan defines critical functions and systems, alternate work locations, vital books and records, and staff resources, and provides for the continuation of business operations with minimal impact, depending on the severity and scope of the disruption. The plan is reviewed and tested no less than once annually to ensure that the information in the plan is kept current and that documented recovery and continuity strategies adequately support its business operations. Of utmost importance to the plan is the ability for customers to maintain access to securities accounts and assets in those accounts.

In the event that one of the contact centers or back office operation facilities becomes unavailable for any reason, calls would be re-routed to one of the firm's alternative contact center or operations facilities.

In the event of a significant business disruption to the primary office and/or data center, access to customer accounts will be provided via the Company's Web site and voice response system, operated from an alternative data center. Customer service will continue to be provided by re-routing telephone calls to a contact center located in one or more alternative sites located outside of the region. Secure work from home solutions are available for all staff.

While no contingency plan can eliminate the risk of business interruption, or prevent temporary delays with account access, the firm's continuity plan is intended to mitigate all reasonable risk and resume critical business operations within 24 hours or the next business day, whichever is later.

* Recordkeeping and administrative services are provided by Empower Retirement, LLC, and in New York, Great-West Life & Annuity Insurance Company of New York, or one of its subsidiaries or affiliates. Securities offered in your account may be offered through another broker/dealer firm other than GWFS Equities, Inc., a wholly owned subsidiary of Great-West Life & Annuity Insurance Company. Please contact your investment provider for more information if needed.

This disclosure is subject to modification at any time. The most current version of this disclosure can be found on the Web site or can be obtained by requesting a written copy by mail.

BCP – GWFS Customer Notice (Ed. Feb. 2021)

SCHEDULE A:
RECORDKEEPING SERVICES SCHEDULE
FOR THE

LIST OF PLANS

1. CITY OF STOCKTON, DEFERRED COMPENSATION PLAN AND TRUST - A 457 PLAN ("457(b) Governmental") Group Account Number: 061361-0001-0000

1. GENERAL

This Recordkeeping Services Schedule ("**Schedule**") is a separate agreement between the parties hereto and incorporates the terms and conditions of the Agreement ("**Agreement**") between Empower Retirement, LLC and Plan Sponsor. All references to "Empower" in this Schedule are deemed to be references to Empower or the Empower Affiliate, as the case may be, that enters into this Schedule. Capitalized terms used but not defined herein shall have the meanings given to them in the Agreement. Any conflict between this Schedule and the terms of the Agreement shall be resolved in favor of the Agreement, unless this Schedule specifically states that its provision will prevail.

2. SCHEDULE TERM

2.1 The Effective Date of this Schedule is July 1, 2022 ("**Schedule Effective Date**"). Unless terminated in accordance with the termination provisions at Section 11 of the Agreement, this Schedule shall remain in full force and effect. The termination of this Schedule shall also operate as a termination of all Schedules to the Agreement.

2.2 Upon termination, Plan Sponsor Directs Empower to deduct any and all outstanding expenses and fees owed to Empower from the Plan's trust on the termination date, unless paid by the Plan Sponsor. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from the Plan consistent with the foregoing. Upon termination of this Schedule, Empower will cease to provide the Services herein. Plan Sponsor acknowledges that after the termination of this Schedule, Plan Sponsor will be responsible for performing all actions required to be taken with respect to the Plan including, but not limited to: processing of contributions, loans and distributions, and the distribution of forms to Participants. On and after the actual date of termination of this Schedule, Empower shall have no further obligations hereunder except as set forth in the Transition Assistance section.

3. NATURE OF EMPOWER'S SERVICES

3.1 Services. Empower will provide the Services set forth in this Schedule or as further described in the Exhibits attached hereto.

3.2 Fiduciary Status. Except with respect to any Services for which Empower has specifically agreed to act as a fiduciary under this Schedule, Plan Sponsor acknowledges that (i) Empower acts as a non-discretionary service provider Directed by the Plan Sponsor or other Plan fiduciary and, as authorized by the Plan Sponsor, by Participants; and (ii) performance of the Services do not involve the exercise of any discretion in the administration or management of the Plan that would cause Empower to be a fiduciary or a Plan Administrator as defined under the Code, ERISA, the Investment Advisors Act of 1940, or state law, as applicable. The Plan Sponsor has appointed a Plan Administrator that has discretionary authority for the administration and management of the Plan. The parties agree that Empower will not perform a

Service that could cause it to have discretionary authority or responsibility for the administration or management of the Plan or disposition of Plan assets. Empower shall not render, or have any authority or responsibility to render, investment advice for a fee or other compensation, direct or indirect, with respect to any Plan assets, except as specifically provided for under this Agreement.

4. PLAN SPONSOR RESPONSIBILITIES

Plan Sponsor acknowledges that Empower cannot effectively perform the Services without Plan Sponsor's cooperation. Accordingly, Plan Sponsor acknowledges and agrees that it will fulfill the following duties and obligations:

4.1 Provision of Information. Plan Sponsor or its designee, including any third parties retained by or on behalf of the Plan or Plan Sponsor, will provide all information necessary for Empower to perform the Services in a manner and format that does not require manual intervention or manipulation by Empower. Plan Sponsor acknowledges and agrees that Empower shall not bear any responsibility for any penalties or other costs incurred as a result of Plan Sponsor's failure to provide such information in a timely manner. Plan Sponsor further acknowledges and agrees that Empower may charge an additional fee if any necessary information is not provided on a timely basis, or in an electronic format usable by Empower without any manual intervention or manipulation. Plan Sponsor agrees that Empower shall be entitled to fully rely upon the accuracy and completeness of information Plan Sponsor submits and that Empower shall have no duty or responsibility to verify such information. If, as a result of incorrect or incomplete information furnished by Plan Sponsor, it becomes necessary to repeat any calculation or service, complete any new forms or revise any completed forms, Empower reserves the right to charge an additional fee. Each party agrees to bear its own transmission costs and is solely responsible for its own acts and omissions relating to transmitting, receiving, storing and handling documents and information, including the maintenance of all equipment, software and testing necessary to effectively, reliably and securely send and receive such documents and information.

4.2 Remitting Contributions and Allocation Instructions. Plan Sponsor agrees that it is solely responsible for collecting and remitting all initial and recurring contributions and loan repayments to Empower electronically via Empower's plan sponsor website, or another mutually agreed-upon manner within the time prescribed by applicable law. Plan Sponsor acknowledges that Empower is not responsible for monitoring the amount and/or timeliness of such contributions and loan repayments.

4.3 Plan Document Responsibilities. Plan Sponsor has the responsibility to ensure that the Plan documents are accurate and complete, to interpret Plan terms and to review the Plan document services provided by Empower, if any. Plan Sponsor is responsible to ensure that the Plan is being operated in accordance with its terms. Plan Sponsor shall provide Empower with a signed copy of the Plan document and all amendments to the Plan document within thirty (30) days after such document and/or amendment is adopted.

4.4 Investment Options. Plan Sponsor is responsible for the selection of all Investment Options based on Plan Sponsor's independent evaluation, or that of its registered investment advisor, consultant, broker or other agent, as applicable. Plan Sponsor must notify Empower in writing of the Investment Options intended to be serviced by Empower and such Investment Option services are only provided as agreed upon by Empower and may be subject to certain limitations or conditions. Plan Sponsor acknowledges that Empower or its Affiliates may receive fees from mutual fund families or other Investment Option Sponsors or their Affiliates for providing certain administrative or other services thereto ("**Fund Service Fees**") in connection with the Plan. Plan Sponsor may request additional information regarding such fees at any time. If the provider of an Investment Option causes an Investment Option to become

unavailable to the Plan, Empower will notify Plan Sponsor as soon as practicable after the Investment Option Sponsor notifies Empower.

4.5 Plan Sponsor Acknowledgement of Market Timing Procedures. Plan Sponsor acknowledges that the SEC requires mutual fund companies to establish procedures to prevent market timing and excessive trading. Plan Sponsor acknowledges receipt of, and agrees to adhere to, the terms and conditions of the Procedures for Complying with Fund Company Market Timing and Excessive Trading Policy attached as an Exhibit to the Agreement, as amended from time to time.

4.6 Payment of Plan Expenses. Plan Sponsor may Direct Empower in writing to deduct Plan expenses from the Plan to the extent Plan Sponsor has determined that deduction is specifically allowed by the Plan document and applicable law, and to remit to the party designated by the Plan Sponsor.

4.7 Plan Sponsor Direction to Perform the Services. In performing the Services, Empower is acting at the Direction of the Plan Sponsor or other fiduciary of the Plan by following the procedures set forth in a plan administration guide or similar procedural document provided by Empower to the Plan Sponsor, including by posting such procedural documents to the Plan Sponsor website. To the extent the procedures do not fully address a specific issue, the Plan Sponsor agrees to provide Direction in a manner reasonably requested by Empower, and Empower may rely upon any such Direction by a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or other fiduciary. Plan Sponsor specifically intends that Empower will have no discretionary authority with respect to following such Direction.

4.8 Electronic Delivery. Empower will deliver plan-related documents to Participants under the Agreement in an electronic manner as described below.

4.8.1 Plan notices to be delivered by Empower via an email notice of the availability of the plan-related documents on the Participant website will be sent to an email address provided to Empower by the Participant or by Plan Sponsor. If Empower is not provided with an email address, notices will be delivered to the Participant via regular mail.

4.8.2 Empower will send an initial notification of default electronic delivery via regular mail to each Participant at least 10 days prior to delivering any plan-related documents via email. The initial notice of default electronic delivery will include the participant's email address that will be used to deliver notices of the availability of plan-related documents, a statement of the Participant's right to request and obtain a paper version of the documents and a statement of the option to opt out of electronic delivery and receive only paper versions of the documents.

4.8.3 If an email notice of availability of a plan-related document is returned undeliverable, Empower will send the notice to another email on file for the Participant. If no other email is on file for the Participant or such other email is also returned undeliverable, plan related documents will be delivered via regular mail to the Participant until such time as Empower is provided another email address for the Participant.

4.8.4 Participants may request to receive one paper copy of a plan-related document for no cost. In addition, Participants may opt out of electronic delivery and request that their plan-related documents be delivered via regular mail at any time.

4.9 Review of Reports. Plan Sponsor is responsible for reviewing and monitoring reports made available by Empower (whether provided electronically, by posting on an Empower website, or otherwise) regarding Plan activity, transactions and investments to verify that the transactions indicated in

the reports properly reflect the Direction provided by the Plan Sponsor. Empower's performance of its obligations under this Agreement shall be presumed to be accurate unless Plan Sponsor provides Empower with proper notice of discrepancies.

4.10 Error Correction.

4.10.1 Transactional and Operational Errors.

4.10.1.1 Transactional Errors. If Empower does not accurately process contribution, distribution, or investment instructions provided in good order by a Participant or the Plan Sponsor (e.g., investment allocation of Plan contributions, investment exchanges or transfers, or timely processing of a Plan distribution) and the issue is timely brought to Empower's attention, Empower will, at its own expense, retroactively correct the Plan or Participant account to reflect its adjusted financial position had the error not occurred, including any investment earnings and reduced by any investment losses. If the issue is not timely brought to Empower's attention, Empower may correct the error by adjusting the Plan or Participant account prospectively.

4.10.1.2 Plan Operational Errors. If Empower is timely notified that it has made an error that creates an operational or fiduciary issue for the Plan, Empower will, within a reasonable time after being notified of or discovering such error, notify the Plan Sponsor and describe the corrective option that Empower proposes to employ that is consistent with the Internal Revenue Service, Department of Labor, or other agency correction guidelines, where applicable, and Plan Sponsor shall review the proposed correction option. Unless the Plan Sponsor objects to such proposed correction and requests an alternate correction option within five (5) business days after receiving notice of Empower's suggested corrective option, the Plan Sponsor Directs Empower to promptly process the correction in accordance with the proposal, at Empower's expense. If Empower's proposed correction is consistent with Internal Revenue Service, Department of Labor, other agency correction guidelines, or other guidance, but the Plan Sponsor requests an alternate correction method resulting in expenses in excess of what Empower would have incurred under its proposed correction, the Plan Sponsor shall bear such additional expenses (including without limitation any attorney's fees, regulatory filing costs and additional net loss resulting from such method).

4.10.2 Trading Errors. If Empower does not accurately process a trade with the mutual fund company as Directed by the Plan Sponsor or as instructed by a Participant, then Empower will correct the share position at the mutual fund company as if the error had not occurred. In the event there are multiple funds or related errors in one or more funds involved, Empower will net gains and losses across all funds involved in the associated error(s). If the Plan Sponsor utilizes the services of a third-party trustee and/or custodian ("**Third-Party Trustee**"), Empower shall in no event be required to perform any correction: (i) for a trading error that results from an error or omission by the Third-Party Trustee, (ii) to be performed under the terms of any service arrangements between the Plan Sponsor and such Third-Party Trustee (the "**Third-Party Trust Agreement**"), (iii) that falls within error tolerance ranges under the Third-Party Trust Agreement, or (iv) that otherwise would exceed any requirements for error correction by the Third-Party Trustee under the Third-Party Trust Agreement.

4.10.3 The parties acknowledge and agree that Empower will have no liability for an error caused by acts or omissions of the Plan Sponsor, Participants or any other third party.

4.10.4 Duty to Mitigate. The parties acknowledge and agree that the Plan Sponsor, the Plan Administrator and Participants each have a duty to mitigate any errors so as to minimize the expenses that may be incurred to correct such errors by promptly reviewing transaction confirmations, account

statements and other Plan reports, as applicable, and providing notification of any error, providing timely approval of correction measures and taking such other reasonable steps as may be necessary (e.g., proactively transferring account holdings into the appropriate Investment Option).

4.10.5 Transactional Gain/Loss Compensation Policies for Error Correction. Empower may incur a gain or loss in the process of adjusting a Plan or Participant account to correct certain errors due to changes in the share/unit price of an Investment Option between the original transaction date and the correction date. The adjusted position of Plan and Participant accounts are not impacted by transactional gains or losses incurred by Empower to settle the Investment Option positions in the course of correcting the account. Empower will net any Investment Option pricing differences as part of the correction process. If a correction is made at Empower's expense, Empower, not the Plan or Participant, will incur any transactional loss and Empower will retain any transactional gain.

4.11 Account Protection. Empower, Plan Sponsor or the Participant will promptly notify the other parties if it discovers that an unauthorized distribution was made from the Participant's account. Empower will conduct an investigation and take any appropriate steps, which may include working with law enforcement, to determine the root cause of the unauthorized distribution. Plan Sponsor agrees to cooperate in any such investigation and will comply with reasonable requests for information. To the extent Empower offers Participants protection against account losses that result from unauthorized transactions, Empower will restore losses as of the date of the account loss once Empower has had sufficient time to conduct a preliminary investigation and attempt to ascertain the root cause. Such protection is not available if Plan Sponsor refuses or neglects to follow commercially reasonable security practices, as set forth in Section 5.1 of the Agreement, or if the loss resulted from a compromise of the systems or security protocols of Plan Sponsor or its third party service providers (other than Empower).

4.12 Uncashed Checks. With respect to any checks issued from Plan assets during the term of the Agreement, Plan Sponsor Directs Empower to follow state unclaimed property regulations and escheat such assets to the Plan's or the Participant's state of residence based on Empower's records. However, Plan Sponsor may Direct Empower, in writing, to treat the Plan's uncashed checks in a different manner. Plan Sponsor is solely responsible for determining the appropriate handling of uncashed checks and any unclaimed property under the applicable federal and state laws including the determination and handling of amounts related to lost Participants.

5. PLAN INVESTMENT OPTIONS & FEES

5.1 Selection of Investment Options

5.1.1 The parties agree that the purchase and sale of securities for the Plan, except for employer stock and unaffiliated self-directed brokerage, will be effected through GWFS Equities, Inc., a broker/dealer affiliate of Empower.

5.1.2 In addition to the sole responsibility for the selection of the Investment Options to be made available under the Plan, Plan Sponsor will also Direct Empower to designate one of the Investment Options available to be the default investment, in which any contribution or other amount credited under the Plan for which neither the Participant nor the Plan Sponsor has provided Empower with investment directions in good order will be invested ("**Default Investment Fund**"). Plan Sponsor may designate a Default Investment Fund(s) for Participant contributions and also designate a second Default Investment Fund for employer contributions.

5.1.3 Plan Sponsor Directs Empower and its Affiliates, as applicable, to cause all dividends, capital gain distributions, interest or other earnings paid by an Investment Option under the Plan

to be reinvested in such Investment Option unless Directed otherwise by the Plan Sponsor and agreed to by Empower.

5.2 Information Regarding Investment Options

Plan Sponsor Directs Empower to obtain, or cause its designee to obtain, all necessary information (including but not limited to valuation, performance, prospectuses and other investment information) regarding any Investment Option available under the Plan from any third parties representing such Investment Options ("**Investment Option Sponsor(s)**"). Plan Sponsor acknowledges that prospectuses for the Investment Options, as applicable, will be made available electronically through one or more websites maintained by Empower or its Affiliates. In the event an Investment Option Sponsor does not provide all necessary information and Empower agrees, Plan Sponsor will arrange to provide Empower or its designee, or cause Empower or its designee to be provided, the necessary information regarding said Investment Option. In no event will Empower be responsible for the accuracy of any such information provided to Empower or its designee regarding any Investment Option, and Empower or its designee will have no duty or obligation to question, confirm or independently verify any such information.

5.3 Investment Option Changes.

5.3.1 Plan Sponsor may replace the Investment Options at any time, subject to applicable notice requirements. Plan Sponsor will notify Empower in writing of any changes to such Investment Options or the Default Investment Fund(s), and the parties will agree upon a process for the transfer of assets and investment elections, if applicable, from prior Investment Options to new Investment Options.

5.3.2 If any Investment Option is terminated by the Investment Option Sponsor, and Plan Sponsor wishes to replace the terminated option, Plan Sponsor agrees to replace the terminated option with an available fund from any fund company that currently has, or will enter into, a trading agreement with Empower.

6. ACH AUTOMATION AND PLAN MERGERS & ACQUISITIONS

6.1 ACH Automation. Plan Sponsor Directs Empower to accept a transfer of Plan records that reflects Participant ACH banking information as provided by the Plan Sponsor or by the Plan's prior service provider, without any further review and validation of the ACH information provided.

6.1.1 In Directing Empower to accept a transfer of existing Participant ACH banking information to its recordkeeping system, the Plan Sponsor certifies the following:

6.1.1.1 The Participant has previously authorized the Plan to process an ACH debit and/or credit of the Participant's account at the designated financial institution ("**Account**") in connection with all applicable Plan transactions and has authorized the designated financial institution, in the form of electronic fund transfer, to credit and/or debit the same to such Account.

6.1.1.2 The Participant has not revoked the ACH authorization for the Account prior to the transfer and the Plan shall treat the Participant's ACH authorization for the Account as remaining in effect until Empower receives a notice of cancellation from the Participant.

6.1.1.3 Plan Sponsor Directs Empower to administer all ACH transactions for all Plan purposes under the terms of Empower's separate ACH Agreement, which the Plan Sponsor has

adopted as the Plan's terms and conditions governing all applicable ACH transactions processed on the Empower platform.

7. RECORDKEEPING AND ADMINISTRATION SERVICES & FEES

7.1 Basic Plan Administration Fee. Empower will be entitled to the following annual administration fee ("**Basic Plan Administration Fee**"). This fee is used, in whole or in part, for administrative services provided by Empower as described in this Schedule. In addition, some or all of the fee (or any other compensation, revenue, asset or source of funding available to Empower, in Empower's sole discretion) may be used by Empower to make payments to the Plan under a Plan Expense Account or similar arrangement, if applicable, between the Plan Sponsor and Empower. All Services set forth in this Schedule are included in the Basic Plan Administration Fee unless an additional fee is otherwise noted herein. In the event that the Plan Sponsor requests different or additional Services, the parties shall meet to discuss relevant Empower capabilities and any additional fees that may apply.

The Basic Plan Administration Fee is 0.11% (11 basis points) per year.

For the avoidance of doubt, the Basic Plan Administration Fee set forth above is inclusive of the reimbursement credit as set forth in Exhibit G of Plan Sponsor's prior administrative services agreement.

The Basic Plan Administration Fee will be payable on a monthly basis, based on the average daily balance of Plan assets during the assessment period.

In addition, Empower and/or one or more of its Affiliates may receive Fund Service Fees in connection with the Plan.

7.2 Transactional Fees. Transactional fees set forth in Exhibit D of Plan Sponsor's prior administrative services agreement shall remain 'as is' unless there is a reduced fee on the Empower platform, in which case the reduced pricing will be honored.

7.3 Enrollment

7.3.1 Enrollment. Based on information provided by the Plan Sponsor or its designee, Empower will enroll Participants in the Plan in a manner mutually agreed upon by the parties.

7.4 Receipt and Investment of Contributions. Empower will credit contributions for allocation to Participant accounts in accordance with Direction from the Plan Sponsor and as set forth below. Empower will allocate or otherwise apply forfeitures under the Plan accounts, if any, as Directed by the Plan Sponsor. Empower will pass Directions to invest such contributions, and to execute appropriate transactions related to forfeitures, to the Plan trustee or custodian in accordance with investment Directions of the Plan Sponsor.

7.5 Timing Requirements for Contributions Funded via ACH, Check or Wire. Contributions received by Empower in good order prior to the close of any Business Day will be processed effective that Business Day, at that Business Day's net asset / unit values. Contributions not received by Empower prior to the close of Business Day will be processed effective the next Business Day.

7.6 Investment Transfers of Existing Assets. Empower or its designee will process investment transfers or exchanges, as applicable, received in good order subject to any conditions and/or limitations imposed by the available Investment Options under the Plan or Investment Option Sponsors. Empower will pass to the Plan trustee or custodian, as applicable, Directions to execute or record as appropriate the

corresponding transactions involving the assets of the Plan's trust. Requests for Participant-initiated transfers between Investment Options will be processed if the request is received by Empower in good order prior to market close on a Business Day. Any transfer request not received by Empower during a Business Day will be processed the next Business Day, or such earlier time as may be required in order to comply with applicable law.

7.7 Plan Loans. Empower will administer Participant account reduction loans repaid by payroll deduction pursuant to the Plan's loan policy, as amended from time to time. Loan requests may be initiated through the VRU or Participant website or submitted on approved Plan administrative forms with Plan Sponsor signature authorization.

7.8 Distributions.

7.8.1 Empower will make payments to Participants pursuant to a Participant's request and Plan Sponsor's Direction received in good order and will debit Participant accounts accordingly.

7.8.2 Plan Sponsor agrees to provide a signature authorization for all distribution requests allowed under the Plan, including but not limited to distributions, alternate payee distributions and beneficiary distributions. Empower reserves the right to charge an additional fee for services related to distributions to non-resident aliens and other distributions outside the ordinary course of plan administration.

7.9 Tax Withholding and Reporting of Distributions

7.9.1 Responsibility for Withholding and Reporting. Plan Sponsor appoints Empower or its designee as its agent to perform income tax withholding and reporting for all distributions Empower processes and to collect and remit state documentary stamp or similar taxes on all loans Empower processes, to the extent applicable. Plan Sponsor agrees to provide all information needed by Empower to perform these services. Empower or its designee shall deposit the income tax withheld with the Internal Revenue Service ("**IRS**") and other appropriate governmental entities, as applicable, on or before the applicable due dates for such remittances. Empower will complete necessary tax reporting forms for distributions it processes, file the tax reporting forms with the IRS or other governmental authority, as applicable, and send copies to the distributee. Distributions to a person subject to reporting and withholding rules that differ from those applicable to United States residents will be subject to withholding applicable to non-resident aliens unless otherwise Directed by the Plan Sponsor.

7.9.2 Withholding and Reporting for Plan Sponsor Initiated Distributions and Rollovers. With respect to Plan Sponsor-initiated distributions or rollovers from the Plan, Plan Sponsor Directs Empower to rely upon the information on Empower's recordkeeping system for purposes of tax reporting and withholding, and to treat payees with U.S. addresses as U.S. persons and payees with foreign addresses as foreign persons. Plan Sponsor certifies that such information is accurate and compliant with the Foreign Account Tax Compliance Act ("**FATCA**") and the Code, and that required documentation supporting such information has been collected by Plan Sponsor.

7.9.3 Code Section 402(f) Notice. Empower shall provide Participants with the IRS model notice, as amended from time to time, pursuant to Code Section 402(f).

7.9.4 Distribution Education Services. Empower or its Affiliates will make retirement consultants available to Participants to provide distribution education services and may contact Participants who are

eligible to receive distributions from the Plan to provide information regarding distribution options under the Plan including rollover services and products offered by Empower.

7.10 PAYMENT OF FEES & FEE CHANGES

7.10.1 General Requirements. This Section 7.10 describes certain services under which Empower will process Participant requests without obtaining Plan Sponsor signature or other further approval. In doing so, Empower will not exercise any fiduciary authority or make any discretionary determinations. Rather, this Section 7.10 will act as Direction by Plan Sponsor for Empower to process all Participant requests that meet the stated criteria. In order to receive the signatureless services detailed in this Section 7.10 Plan Sponsor must utilize the Plan Service Center ("**PSC**") and must provide all necessary information in a PDI file. Plan Sponsor must also provide any additional information or Direction as required by, and in a form acceptable to, Empower. In addition, in most cases, Empower must be the sole recordkeeper for the Plan. If at any time Plan Sponsor does not meet these general requirements, or does not meet the specific requirements of any service described in this Section 7.10, Empower shall not be responsible to continue to provide such service.

7.10.2 Payment of Fees. All fees not paid by Participants must be paid within thirty (30) days of Empower's invoice to the Plan Sponsor unless another arrangement has been pre-approved by Empower in writing. In the event any charges or fees reasonably and properly chargeable under the terms of the Agreement, including this Schedule or other applicable documents signed by the Plan Sponsor remain unpaid sixty (60) days after the date billed, Plan Sponsor Directs Empower to deduct such expense charges from the Plan and Plan Sponsor affirms that the Plan document specifically allows such deduction from the Plan. To the extent that the forfeiture or other Plan accounts would not pay Plan expenses under the Plan document or the Plan accounts are insufficient, Plan Sponsor Directs Empower to allocate such fees to the Participant accounts, and to the investment choices in which the Participant accounts are invested, on a pro rata basis using Participant account and investment option balance ratios as of the date of deduction. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from Plan assets consistent with the foregoing.

7.10.3 Fee Changes. Empower may adjust the fees set forth in this Agreement upon the earlier of (i) thirty (30) days' written notice to Plan Sponsor or (ii) mutual agreement by the parties.

7.11 ACCESS TO RECORDKEEPING SYSTEM & SERVICE REPRESENTATIVES

7.11.1 Automated Voice Response System. Participants will have access to an automated voice response system via a toll and toll-free number to inquire or make account changes from a touch-tone telephone. Inquiry services available from the automated voice response system will utilize share prices, unit values and account balances that are as of the last calculated unit value/share price. The automated voice response system will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

7.11.2 Participant Service Representatives. Participant service representatives will be available via a toll-free telephone call to Empower to answer Participant questions and process applicable transactions each Business Day between the hours of 5:00 am and 7:00 pm Pacific Time and on Saturdays between 6:00 am and 2:30 pm Pacific Time.

7.11.3 Plan Sponsor Access to Recordkeeping System. Plan Sponsor may interface with Empower's recordkeeping system online via Empower's Plan Sponsor website to inquire or make changes while

administering the Plan. Upon request, Empower representatives will be made available to assist and train employees of Plan Sponsor in properly accessing and processing transactions on the Empower's Plan Sponsor website. Empower's Plan Sponsor website will be available consistent with the availability of the automated VRU.

7.11.4 Participant Website

7.11.4.1 Website Use. Empower will, as part of the Services, host, maintain and make certain information available to Plan Sponsor and Participants on a website or websites (the "**Website Services**"). Plan Sponsor will not use or permit any use of the Website Services (i) in any unlawful or illegal manner; (ii) in any way that could impair the Website Services or any other party's use thereof; or (iii) to distribute, sell, resell, license or transfer any of Plan Sponsor's rights to access or use the Website Services or make the Website Services available to any third party. Any user credentials, including user identification and passwords, established by Plan Sponsor and its delegates or any Participant (each a "**User ID**") is issued to a specific user and may not be shared or used by any individual other than that user. Plan Sponsor will be responsible for the compliance by its users with the applicable terms of this Section. Empower may terminate the User ID, or portions thereof, for any user involved in a breach of this Section. Plan Sponsor acknowledges that transmissions through the internet are inherently unsecure, that virus protection software, firewalls and other security measures are not foolproof, and that the Website Services and their content are not invulnerable to fraud or hacking. In addition, Plan Sponsor acknowledges that Empower shall from time to time perform scheduled or emergency repairs, maintenance, and disaster recovery testing on the websites, and that such activity, or other circumstances beyond Empower's reasonable control, may cause the Website Services to be unavailable or delayed. Plan Sponsor agrees that Empower shall not be liable for any such delays or downtime in the Website Services, or for any virus or malicious access to the Website Services by third parties, provided that Empower has implemented and maintained security features with respect to the Website Services that are consistent with the Agreement and commercially reasonable industry standards.

7.11.4.2 Access to Participant Website. Participants will have access to a mobile responsive website to inquire or make certain account changes via the internet. In addition, Participants can download a complimentary Android app and an iOS phone, iPad and Apple Watch app. The Android and Apple Watch apps currently support inquiry-only capabilities while the iOS phone / iPad app supports both inquiry and certain change capabilities. All such apps will be subject to the terms of the Agreement, as related to privacy and data security.

7.11.4.3 Website Availability. The website will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

7.11.4.4 Enhancements. Empower may periodically update or add new content, features, services, tools or other functionality to the Participant website or other Empower Software as part of its ongoing enhancement of the Services offered to Plan Sponsor or its Participants. Such additions will be offered at no additional cost unless expressly agreed by Plan Sponsor or Participants (as applicable).

7.12 PARTICIPANT COMMUNICATION AND EDUCATION

7.13 REPORTING SERVICES

7.13.1 Participant Reporting. Empower will provide Participants a confirmation for transactions involving investment allocations, investment transfers, contribution rates, change of address, rollover contributions,

and rebalance activity. Empower will also make available to each Participant account information on at least a quarterly basis, including beginning and ending balances, all contributions and transactions processed, interest credited or change in value, fees and withdrawals deducted, transfers processed and performance data on Investment Options held by the Plan to the extent such data is provided by the Investment Option Sponsor, personal rate of return on investments, account balance translated into an estimated monthly income amount, and balance in the SDB, as applicable. Participants' statements shall be distributed in accordance with Section 4.8 of this Schedule, Electronic Delivery. Statements will be available within fifteen (15) Business Days after receipt of final information in good order from third party sources.

7.13.2 Plan Sponsor Reporting. Empower will provide an Employer Plan Summary Report to Plan Sponsor, summarizing Plan-level assets and Participant account balances, within thirty (30) Business Days after each calendar quarter end ("**Employer Plan Summary Report**"). The following Plan information will be addressed in the Employer Plan Summary Report: (i) summary of Plan transactions and assets; (ii) summary of contributions processed; (iii) withdrawals; (iv) annuities purchased, if applicable; (v) periodic payments; (vi) Investment Option grand totals – summarizes both dollars and units/shares and Plan activity; (vii) Investment Option totals by money type – summarizes both dollars and units/shares and money type activity; (viii)Participant summary – a report of account activity for each Participant.

7.14 TRANSITION ASSISTANCE SERVICES

7.14.1 Transition Services. Empower agrees to support the transition of recordkeeping and administrative services ("**Transition Services**") to a successor service provider subject to the terms and conditions of the Agreement. Empower shall provide the following Transition Services prior to the Service End Date (as defined below) of the Agreement.

7.14.2 Planning. Participate in conference calls and in-person meetings, as needed, with Plan Sponsor and the successor service provider to designate the transfer team, define communication channels, discuss the transfer process and define expectations, responsibilities, and applicable deadlines. Empower will designate a transition Project Manager to lead and be the contact person for the transition effort. In the event Plan Sponsor requests that the Project Manager or other deconversion team member attend a transition services meeting in person at a site other than Empower's office location, Empower's fees for time and travel for such in-person meetings are $1500 per day, per person.

7.14.3 Data Layouts. Provide the successor service provider with data layouts for Participants and Plan data residing on Empower administration systems, including but not limited to data layouts for paper statement indicators, rebalance frequency elections,

ACH indicators, outstanding loan terms and payment amounts, powers of attorney on file, and dividend pass-through elections. The data layouts will correspond to Empower standard file formats.

7.14.4 Plan Materials. Upon termination, Empower shall provide the successor service provider with copies of all Plan summaries, individual Participant statements (upon request) and other forms, reports, or web content; provided, however, Empower will provide such Plan materials only to the extent designed specifically for the Plan and not deemed by Empower to be proprietary. In addition, Plan Sponsor agrees, and will require any third party to whom Plan Sponsor provides the materials to agree, to maintain the confidentiality of all Empower materials and information, including but not limited to web content, communications material, and information on Empower's Plan Sponsor Website.

7.14.5 "Test" Data Transfer Files. Provide the successor service provider with two (2) full volume test extract data transfer files for the Plan. Such files will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

7.14.6 "Refresher" Data Transfer Files. Provide the successor service provider with one (1) full volume test extract refresher data transfer files for the Plan. Such files will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

7.14.7 "Live" Data Transfer Files. Provide the successor service provider with one (1) full live data transfer file to the successor service provider in Empower standard file format for the Participant and Plan data residing on Empower administration systems as of a date mutually agreed upon by the parties. The live data file will be in the same format as the test data file or in the test data file format. Control totals and standard Empower reports will accompany the live data transfer file.

7.14.8 Questions about Data on Transfer Files. Provide up to 25 aggregate hours of Empower's time to answer questions about system data provided by Empower on the test data transfer files, the refresher data transfer files and the live data transfer file. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

7.14.9 Answering Questions. Provide up to 25 aggregate hours of Empower's time responding to questions about Plan administrative practices and communication materials used by Empower in servicing the Plan. Empower will charge the Plan or

Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

7.14.10 Final Participant Valuation. Send to the successor service provider, at a mutually agreed upon date, reports of all historical files, documents and records necessary for the continuing administration and recordkeeping of the Plan in electronic form (where available) and/or paper form ("**Final Participant Valuation**"). As of the Service End Date, the Final Participant Valuation includes: (i) Current Participant indicative and financial data; (ii) Participant level reports; (iii) Plan level totals; (iv) Investment valuation statement; (v) Employee loan status report; (vi) Loan summary report; (vii) Deemed loan report; (viii) Highest outstanding loan balance report; (ix) MRD report; (x) Installment tax withholding report; (xii) On-line beneficiary data, if maintained by Empower; and (xiii) Scanned beneficiary forms, if maintained by Empower. Notwithstanding the foregoing, the parties acknowledge that the reports and information identified as Final Participant Valuation are subject to change based upon changes in plan administration and/or system requirements. Plan Sponsor acknowledges that at the mutually agreed upon date, Empower will provide only those reports applicable to the Plan and currently available from Empower's recordkeeping system.

7.14.11 Open Participant Case Records. Send open case records at a mutually agreed upon date, or Service End Date, if later, to Plan Sponsor or to successor service provider at Plan Sponsor's Direction.

7.14.12 Year-end Processing. For Services that conclude as of December 31 for a calendar year plan or the end of the Plan's fiscal year, as applicable, perform any compliance testing, government filings, or other reporting required as of that year-end. For Services that conclude as of any date other than December 31, perform any government filings for completed Services (e.g., Forms 1099-R for Participant distributions) and provide to Plan Sponsor the same year-end reports and information otherwise provided for a calendar or fiscal year, as applicable, but only reflecting the portion of the calendar or fiscal year, as applicable, for which Services were provided.

7.14.13 Fees Related to Transition Services. In the event Plan Sponsor requests Empower to provide additional or extraordinary Transition Services (beyond those described in items 7.14.1 through 7.14.12 above) including, but not limited to, change in data layout, change of data elements in standard layouts, number of data transfer files, or services beyond Service End Date, Empower reserves the right to charge the Plan or Plan Sponsor, as Directed by the Plan Sponsor, for additional or extraordinary Transition Services at then-current hourly rates. Empower shall

receive payment for services rendered within 30 days of invoice delivery. In the event payment is not received within the stated timeframe all Transition Services will cease until such time payment is received.

7.14.14 Transition Services after Service End Date. In addition to the foregoing, Empower agrees to provide the following Transition Services for ninety days following the Agreement's termination effective date ("**Service End Date**").

7.14.14.1 Provide up to 20 hours of Empower's time responding to questions from the Plan Sponsor or its auditor. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 20 hours.

7.14.14.2 To the extent information and/or reporting is readily available from Empower's systems, Empower agrees to provide to the successor service provider the following Transition Services for up to 110 requests per month: (a) loan repayment information; (b) Participant account balances as of specific dates; (c) Participant account earnings and/or dividends for specific time periods; (d) distribution history information; (e) reporting or respond to other Participant account history information requests; (f) Participant account history information (excluding QDRO related information); (j) Participant Statements; (k) Duplicate Forms 1099-R; (l) Provide QDRO related account history; (m) Respond to questions regarding Plan specific processes, provided however that if the number of requests exceeds 110 in any given month, a per-request fee of $500 will be assessed.

Schedule A: Recordkeeping Services Schedule 20

This Restated Master Services Agreement ("**Agreement**") is dated July 1, 2022 ("**Effective Date**") and sets forth the general terms and conditions under which Empower Retirement, LLC will provide Services to the undersigned Plan Sponsor with respect to the employee benefit plan(s) sponsored by Plan Sponsor, as identified in the attached Schedules (the "**Plan**" or "**Plans**"). This Agreement amends and restates the prior Administrative Services Agreement entered into between the parties in its entirety.

1. DEFINITIONS

"**Affiliate**" means a corporate entity that directly or indirectly is controlled by or is under common control with a party, including any entity that conforms to this definition after the effective date of this Agreement.

"**Agreement**" includes this Master and any Exhibits, Schedules, notices and other documents attached, incorporated or referenced herein.

"**Business Day**" means any day, and only for as many hours as, the New York Stock Exchange is open.

"**Code**" means the Internal Revenue Code of 1986, as amended from time to time.

"**Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Data Protection Laws**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Direction**" and "**Direct**" and their similar terms shall mean the instruction, authorization, or direction given to Empower by the Plan Sponsor, another fiduciary of the Plan, or a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or another fiduciary. Plan Sponsor directs Empower to process certain Plan transactions based solely on Participant instruction under the terms of this Agreement.

"**Empower**" and "**Empower Retirement**" refer to Empower Retirement, LLC and its Affiliates with respect to products and Services offered in the retirement markets, including but not limited to recordkeeping and other financial services.

"**Information Security Breach**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Investment Options**" means those investment options made available under the Plan based on Plan Sponsor or another Plan investment fiduciary designated by the Plan Sponsor (other than Empower or one of its Affiliates).

"**Participant**" shall mean an employee, former employee, participant, former participant, member, beneficiary or alternate payee who is or may be entitled to participate in or receive benefits under the Plan.

"**Personal Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Administrator**" means a designated employee or committee, or a third party retained by Plan Sponsor or named in the Plan (other than Empower or one of its Affiliates), to be the "plan administrator" and "named fiduciary" as defined by applicable law.

"**Plan Data**" has the meaning set forth in the Data Security & Privacy Addendum, attached as Exhibit 1.

"**Plan Sponsor**" means the Plan Sponsor identified above, the Plan Administrator, named fiduciaries, and other delegates of the Plan Sponsor (other than Empower or one of its Affiliates) as dictated by the context.

"**Services**" means the services provided by Empower or an Empower Affiliate, as applicable, acting as a service provider Directed by the Plan Sponsor to perform such Services under an applicable Schedule. Empower shall provide the Services in a non-fiduciary capacity (except where Empower acknowledges its fiduciary status in writing). The provision of Services shall be governed by the terms and conditions set forth in this Agreement, by applicable law and regulations and any additional terms and conditions contained in the applicable Schedule.

2. SCOPE OF THE AGREEMENT

This Agreement sets forth the terms and conditions pursuant to which Plan Sponsor may receive Services from Empower or an Empower Affiliate, as the case may be, pursuant to a separate Services Schedule attached hereto. These terms and conditions will be deemed to be incorporated by reference into each and every Schedule entered into between the parties. Each Schedule will be a separate agreement between Plan Sponsor and the Empower Affiliate that enters into the Schedule. All references to "Empower" in this Agreement will be deemed references to Empower or the Empower Affiliate, as the case may be, that entered into the Schedule.

3. FEES/CHARGES & FEE DISCLOSURES

3.1 Fees / Charges. Plan Sponsor agrees to pay Empower for the Services. Unless otherwise Directed by the Plan Sponsor, the Plan Sponsor hereby Directs Empower to deduct applicable Plan expenses from the Plan and/or Participant accounts, as applicable.

4. CONFIDENTIALITY

4.1 Confidential Information. In order to perform the Services, both parties may have access to certain information of the other party, including, without limitation, trade secrets, commercial and competitively sensitive information of the party related to business methods or practices, and proprietary software or websites of a party ("**Confidential Information**"). For the purpose of clarity, any software or website owned, licensed, or made available by Empower ("**Empower Software**") is Confidential Information of Empower. The parties mutually agree to hold all Confidential Information of the other party in confidence and not to disclose any Confidential Information of the other party to anyone except the parties' Affiliates, suppliers, and respective personnel in connection with the performance or receipt of Services hereunder, or as otherwise directed or approved by the other party or its agents. Confidential Information does not include: information that is otherwise in the public domain through no action of the non-disclosing party; information that is acquired by a party from a person other than the other party or its agents without any obligation of confidentiality; or information that is independently developed by a party without reference to the Confidential Information of the other party.

4.2 Permitted Disclosures of Confidential Information.

4.2.1 Legally Required Disclosures. In the event a party is required to make a legally required disclosure of the other party's Confidential Information, such party shall notify the other party of the disclosure as soon as reasonably practicable and shall cooperate with any efforts by such party to obtain protective treatment of such Confidential Information to the extent permitted by law. The foregoing shall not apply to (i) broad-based regulatory examinations associated with a party's general business or operations; (ii) disclosures made in conjunction with a law enforcement investigation or inquiry; (iii) or where notice is prohibited by law. For purposes of Rule 14(b)-1 and Rule 14(b)-2 of the Securities Exchange Act

of 1934, as amended from time to time, Plan Sponsor authorizes Empower, and/or its Affiliates and services providers, to provide the name, address and share position of the Plan with respect to any class of securities registered under the Investment Company Act of 1940 when requested by such SEC registrant for purposes of shareholder meetings. The above-referenced rules prohibit the requesting SEC registrant from using the Plan's name and address for any purpose other than corporate communications of the type contemplated under the rules.

4.2.2 Authorized Disclosures. Plan Sponsor authorizes Empower to disclose Data to Empower's Affiliates and service providers in connection with Empower's performance of Services under this Agreement. In addition, Plan Sponsor authorizes Empower to disclose Data to Plan Sponsor's advisors, third-party administrators, service providers (such as payroll providers) and representatives authorized by Plan Sponsor in writing to receive such Data. Empower may use and disclose, for benchmarking and research purposes, de-identified Data that is aggregated with other anonymized data of a similar nature across Empower's client base in a manner that makes such Data unidentifiable to a particular individual or plan. Empower's current Privacy Notice is attached to this Agreement, but shall not lessen any of Empower's obligations regarding Personal Data hereunder. Plan Sponsor agrees that any changes to the Privacy Notice may be delivered to Plan Sponsor through the Plan Service Center or by email to designated representatives of the Plan Sponsor.

4.2.3 Disclosures of Personal Data to Plan Sponsor. Plan Sponsor may direct Empower to provide Plan Sponsor or its designated agent with information (which may include Personal Data) received from or in relation to Participants in connection with the performance of Services under this Agreement, which may include private information shared by the Participant during recorded phone calls and written or electronic correspondence.

5. DATA PROTECTION

5.1 Mutual Obligation to Protect Data. Empower and Plan Sponsor each agree to maintain and hold in confidence all Data and Confidential Information, as applicable, received in connection with the performance of Services under this Agreement. Empower and Plan Sponsor agree that their collection, use and disclosure of all Data is and will at all times be conducted in compliance with all applicable Data Protection Laws. Each party will implement, support, and maintain appropriate physical and logical security measures designed to secure Data, and will take all commercially reasonable organizational and technical steps to protect against unlawful and unauthorized processing of Personal Data. In accordance with the foregoing, Empower maintains a comprehensive data security program designed to safeguard Data and access to the Empower Software and systems, as further set forth in the Data Security & Privacy Addendum attached hereto as Exhibit 1.

5.2 Mutual Notice of an Information Security Breach. The parties will promptly notify each other in the event of an Information Security Breach. Such notice shall include: (i) the consequences of the breach, including (without limitation) any potential impact on the other party's security measures, systems, Data, Confidential Information, or the Empower Software; and (ii) the corrective action taken to remedy the breach. In addition to the foregoing, Plan Sponsor will notify Empower immediately upon discovering a compromise of the security and/or log-on credentials of any Plan Sponsor employee or agent that has a plan administration role in Empower's system.

6. BUSINESS CONTINUITY & DISASTER RECOVERY

Empower will maintain business continuity and disaster recovery procedures to address the security, integrity and availability of the technology, operational, financial, human and other resources

required to provide mission-critical Services in the event of a natural disaster or other interruption of normal business operations. Such procedures will be tested at least once annually. GWFS Equities, Inc.'s current Business Continuity Plan Notice is attached to this Agreement. By executing this Agreement, Plan Sponsor acknowledges receipt of this Notice.

7. RECORDS & AUDIT

7.1 Record Retention. Empower shall retain all records in its custody and control that are pertinent to performance under this Agreement in accordance with its record retention policy and as required by law. Subject to the foregoing, each party agrees to return or destroy the other party's Confidential Information and Data once it is no longer required for the purpose of performing or receiving the Services, provided that the parties are not obligated to destroy copies of Confidential Information or Data that must be retained for audit, legal or regulatory purposes, or that is stored in non-readily accessible electronic format, such as on archival systems; in such cases Empower's data protection obligations shall continue until such Data is destroyed in accordance with Empower's record retention policy.

7.2 SSAE 18. Each year upon the request of Plan Sponsor, Empower will provide a copy of the review performed by Empower's external auditors under the "Statement of Standards for Attestation Engagements Number 18, Attestation Standards: Clarification and Recodification" of the American Institute of Certified Public Accountants ("**SSAE18**") SOC 1, or any new or replacement standard or protocol established by the American Institute of Certified Public Accountants.

8. INTELLECTUAL PROPERTY RIGHTS

8.1 Plan Sponsor Materials. As between the parties hereto, excluding the Empower Materials (as defined below), Plan Sponsor shall own materials, trademarks, trade names, logos, trade dress, and other Confidential Information provided or made accessible by Plan Sponsor to Empower for use in providing the Services (collectively, the "**Plan Sponsor Materials**"). Plan Sponsor grants Empower a limited, revocable right and license to use Plan Sponsor's name, logo, and trademarks in materials created by Empower in connection with providing the Services. Nothing contained herein shall prohibit Empower from referencing client partnerships in the normal course of public-relations communications or in materials prepared at the request of prospective clients.

8.2 Empower Materials. As between the parties hereto, Empower and its Affiliates shall own all materials, documentation, user guides, forms, templates, business methods, trademarks, trade names, logos, websites, Empower Software, technology, computer codes, domain names, text, graphics, photographs, artwork, interfaces, and other information or material provided by Empower or its Affiliates hereunder (collectively, the "**Empower Materials**"). Empower grants to Plan Sponsor and Participants (as applicable) a non-exclusive, non-transferable license to use the Empower Materials during the term of the Agreement for purposes of using Empower's Services hereunder and subject to the terms and conditions set forth in this Agreement and any terms of use associated with Empower Software. All rights with respect to the Empower Materials not specifically granted hereunder are reserved by Empower.

9. LIABILITY & INDEMNIFICATION

9.1 Empower agrees to indemnify the Plan Sponsor from and against any and all expenses, costs, reasonable attorneys' fees, settlements, fines, judgments, damages, liabilities, penalties or court awards asserted by a third party (collectively, "**Damages**") to the extent resulting from Empower's breach of this Agreement, negligence, or willful misconduct. Notwithstanding anything to the contrary herein, Empower shall not be liable to Plan Sponsor for any Damages resulting from: 1) any acts or omissions undertaken at the Direction of the Plan Sponsor or any agent or any third party authorized by Plan Sponsor

to provide Direction to Empower, including but not limited to prior service providers, investment advisors, or any authorized agent thereof; 2) any performance of the Services that is in strict compliance with the terms of this Agreement; or 3) Plan Sponsor's or its designee's failure to provide accurate documents, material, information or data to Empower or its Affiliates, as applicable on a timely basis.

9.2 Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, LOSS OF REVENUE OR PROFIT) EVEN IF THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9.3 Insurance. Empower will, at its own cost and expense, procure and maintain in full force and effect throughout the term of this Agreement insurance coverage that is reasonably appropriate to the Services provided under this Agreement and any Schedule hereto. The requirements in this section are not intended to, and will not in any way, limit or qualify the liabilities and obligations of Empower under this Agreement.

10. DISPUTE RESOLUTION

The parties shall engage in reasonable and good faith discussions to resolve any dispute arising out of or relating to this Agreement. If the parties are unable to agree between themselves, the parties will submit the dispute to non-binding mediation conducted by a private mediator agreed to by both parties. If the parties cannot agree on a mediator, the mediator may be selected by a nationally recognized, independent arbitration or mediation organization to which the parties mutually agree. The costs of mediation shall be borne equally by the parties, and each party shall pay its own expenses. If the parties are unable to resolve the dispute through non-binding mediation, either party may initiate litigation; provided, however, that if one party requests mediation and the other party rejects the proposal or refuses to participate, the requesting party may initiate litigation immediately upon such refusal.

11. TERM & TERMINATION

11.1 Term & Termination. This Agreement shall be in effect commencing on the Effective Date set forth above and continuing for a one (1)-year period through July 1, 2023, with the option to exercise two (2) additional one (1)-year renewal periods. In the event this Agreement should terminate or expire prior to the completion date designated in any Schedule, such Schedule shall terminate concurrently with the Agreement.

11.2 Termination for Convenience. This Agreement or any Schedule attached hereto may be terminated by either party by delivering ninety (90) days advance written notice to the other party. The termination of this Agreement shall also operate as a termination of all Schedules hereto.

11.3 Termination for Default. Either party may, upon written notice, terminate this Agreement or any Schedule attached hereto if the other party materially breaches or is in default of any material obligation hereunder, which default is incapable of cure, or which being capable of cure, has not been cured within ninety (90) days after receipt of notice of such default from the non-defaulting party, or within such additional cure period as mutually agreed upon by the parties.

11.4 Transition Assistance Services. Upon termination for any reason, Empower will provide to Plan Sponsor the deconversion and transition assistance services set forth in the Recordkeeping Services Schedule, attached hereto. For the avoidance of doubt, this Agreement will govern the transition assistance services provided.

12. MISCELLANEOUS

12.1 Affiliates & Agents. Plan Sponsor acknowledges and agrees that Empower may utilize the services of Affiliates, agents and suppliers selected by Empower. Empower's use of any such party will not relieve Empower of its obligations hereunder, and Empower shall at all times remain liable for the performance of the Services hereunder. Notwithstanding the foregoing, and notwithstanding that Empower and Plan Sponsor are entering into this Agreement, the obligations under each Schedule are solely the obligations of the Empower Affiliate that entered into that Schedule (including the terms of this Agreement that are incorporated therein by reference), and neither Empower nor any Empower Affiliate shall be jointly and severally liable with any other Empower entity. Neither Empower nor any Empower Affiliate shall be the guarantor of the obligations of any other Empower Affiliate.

12.2 Relationship of the Parties. The relationship between the parties is that of independent contractors. Neither party nor its personnel shall be considered employees of the other party for any purpose. None of the provisions of this Agreement shall be construed to create an agency, partnership or joint venture relationship between the parties or the partners, officers, members or employees of the other party by virtue of either this Agreement or actions taken pursuant to this Agreement. The parties shall bear sole responsibility for all taxes, assessments and other real property related levies on their owned or leased real property, personal property (including software), franchise and privilege taxes on their business, and taxes based on their net income or gross receipts. If applicable, the parties shall reasonably cooperate to more accurately determine each party's tax liability and to minimize such liability to the extent legally permissible.

12.3 No Third Party Beneficiaries. This Agreement is solely for the benefit of the parties hereto and their Affiliates and is not intended to confer any rights or remedies upon any other person.

12.4 Assignment. This Agreement shall be binding upon and inure to the benefit of each of the parties, their Affiliates, successors and permitted assigns; provided, however, that neither party may assign its rights or obligations hereunder without the other party's prior written consent. Notwithstanding the foregoing, a party may assign this Agreement in connection with: (i) the sale of substantially all of its assets or the assets of any business unit to an entity that assumes the assignor's obligations under this Agreement; (ii) a merger, acquisition or divestiture; and/or (iii) a transfer to a parent or Affiliate, in each case without the other party's consent.

12.5 Entire Agreement. Each Schedule, including any Exhibits, notices and attachments (including an incorporation by reference of the terms and conditions of this Agreement), constitutes the entire agreement of the parties thereto with respect to the subject matter thereof and supersedes all prior drafts, agreements, negotiations and proposals, written or verbal, relating to the Services contained in the applicable Schedule. This Agreement or any Schedule may be amended by written agreement of the parties; for that purpose, emails do not constitute signed writings. Notwithstanding the foregoing, Empower may add or enhance the Services, update the method of providing the Services without any reduction in service, or modify the Services to comply with applicable laws by providing written notice to Plan Sponsor at least 30 days in advance of the effective date of such change, provided that Plan Sponsor may opt out of certain Services that directly impact Participants and any changes that result in an increase in fees to the Plan. Any Empower notices or policies that are attached to or referenced in this Agreement may be modified by Empower at any time, provided that such modifications shall not materially degrade the rights or protections set forth therein. No waiver of any breach of any provision of this Agreement shall constitute a waiver of any prior, concurrent or subsequent breach of such provision or any other provision hereof and no waiver shall be effective unless made in writing.

12.6 Governing Law; Waiver of Jury Trial. Unless and to the extent provided otherwise in a Schedule hereto, this Agreement shall be construed and enforced in accordance with and governed by the laws of the state of California, without regard to conflict of law principles, and any claim arising under or related to this Agreement shall be subject to the exclusive jurisdiction of the federal and state courts located in California. Both parties agree to waive any right to have a jury participate in the resolution of any dispute or claim arising out of, connected with, related to or incidental to this Agreement to the fullest extent permitted by law.

12.7 Force Majeure. Neither Empower nor Plan Sponsor shall be liable to the other for any and all losses, damages, costs, charges, attorney fees, payments, expenses or liability due to delay or interruption in performing its obligations hereunder, and without the fault or negligence of such party, due to causes or conditions beyond its control, including, without limitation, labor disputes, riots, war and war-like operations including acts of terrorism, explosions, sabotage, civil disturbance, governmental restriction, transportation problems, failure of power or other utilities including phones, internet disruptions, fire or other casualty, natural disasters, epidemics, pandemics, acts of God, disruptions in orderly trading on any relevant exchange or market, or any other cause that is beyond the reasonable control of either party.

12.8 Severability. The provisions of this Agreement are severable, and if for any reason a clause, sentence, paragraph or provision of this Agreement is determined to be invalid by a court or federal or state agency, board or commission having jurisdiction over the subject matter thereof, such invalidity will not affect other provisions of this Agreement that can be given effect without the invalid provision.

12.9 Notices. All formal notices required by this Agreement will be in writing and shall be sent to Empower as set forth below and to the most current Plan Sponsor and trustee address on file with Empower. All notices sent shall be effective upon receipt.

Notice To Empower:
Empower Retirement, LLC
8515 East Orchard Road
Greenwood Village, CO 80111
Attn: Market Segment Head

With a copy to:
Empower Retirement, LLC

Attn: General Counsel

12.10 Headings; Defined Terms; Counterparts. Section headings used in this Agreement are intended for reference purposes only and shall not affect the interpretation of this Agreement. Unless the context requires otherwise, capitalized terms defined in this Agreement have the meanings set forth herein for all purposes of this Agreement, including any Schedules or Exhibits. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same agreement. The parties' execution and delivery of this Agreement by facsimile, email, or electronic copies shall have the same force and effect as execution and delivery of an original.

12.11 No Tax or Legal Advice. Nothing in this Agreement is intended to constitute legal or tax advice from Empower to Plan Sponsor, or to any other party. Plan Sponsor understands that Empower has not given and may not give legal advice. All issues should be reviewed and discussed with Plan Sponsor's legal counsel and/or tax adviser.

12.12 Survival. The provisions of the following sections shall survive the termination of this Agreement: Fees & Charges; Confidentiality; Data Protection; Record Retention; Intellectual Property Rights; Indemnification; Limitation of Liability; Dispute Resolution; Governing Law; Waiver of Jury Trial; Survival; Severability; Transition Assistance Services; No Tax or Legal Advice; No Third-Party Beneficiaries; and any other section that would by its context be reasonably expected to survive termination.

12.13 Signatures/Corporate Authenticity. By signing this Agreement, the parties certify that they have read and understood it, that they agree to be bound by its terms, and that they have the authority to sign it. This Agreement is not binding on either party until signed by both parties.

12.14 Electronic Signatures. Each party agrees that this Agreement and any other documents to be delivered in connection herewith may be electronically signed, and that any electronic signatures reasonably believed to be genuine on this Agreement or such other documents are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

EXHIBIT 1:
DATA SECURITY & PRIVACY ADDENDUM

This Data Security & Privacy Addendum applies to Empower and its Affiliates and describes how Empower protects Personal Data and Plan Data (the "**Addendum**"). Capitalized terms used but not defined herein have the meanings given to them in the Master Service Agreement executed by Empower and Plan Sponsor under which Empower provides services to Plan Sponsor ("**Agreement**").

1. Definitions. The following terms have the meanings set out below and similar terms shall be construed accordingly:

"**Data**" means Personal Data and Plan Data.

"**Data Protection Laws**" means any law with respect to the protection of Personal Data that is applicable to Empower's Services under the Agreement or any Schedule thereto.

"**Information Security Breach**" means a confirmed compromise of an information system within the authority or responsibility of Empower that results in: (i) the unauthorized acquisition, disclosure, modification or use of unencrypted Personal Data, or encrypted Personal Data where the encryption key has also been compromised; and (ii) a reasonable likelihood of identity theft or fraud against a data subject in the Plan. An Information Security Breach includes, without limitation, theft and/or malicious use of Data by Empower personnel. A good faith but unauthorized or unintentional acquisition, disclosure, modification or use of Personal Data by an employee or contractor of Empower or a party who has signed a confidentiality agreement with Empower does not constitute a Security Breach if the Personal Data is not subject to further unauthorized acquisition, disclosure, loss, modification, or use.

"**Personal Data**" shall mean information that identifies or is reasonably capable of being associated with a Participant in the Plan or an eligible employee of Plan Sponsor, and includes personally identifiable financial information as defined by Title V of the Gramm-Leach-Bliley Act, but excluding data that is publicly-available and data from which individual identities have been removed and that is not linked or reasonably linkable to any individual.

"**Plan Data**" shall mean non-public Plan level information that is provided to Empower in connection with receipt of the Services. Plan Data excludes data that is de-identified and aggregated for benchmarking and research purposes.

"**Subprocessor**" means any person (including any third party service provider and any Empower Affiliate, but excluding personnel employed by such parties) engaged by Empower to process Personal Data.

2. Direction. Plan Sponsor Directs Empower and its Affiliates (and authorizes Empower and its Affiliates to Direct each Subprocessor), where applicable, to process Personal Data as follows: (a) processing in accordance with the Master Agreement and any amendments thereto as executed by the parties; and (b) processing initiated by Participants in their use of the Services. Plan Sponsor represents that it is and covenants that it will at all relevant times remain duly and effectively authorized to give the Direction set out herein.

3. Security. In order to protect Personal Data, Empower will implement appropriate technical and organizational measures designed to protect Personal Data in accordance with the requirements of any

Data Protection Laws. In addition to the foregoing, Empower's security program shall conform to the commitments described below.

4. Subprocessing. Plan Sponsor hereby agrees that Empower may engage its Affiliates and third parties as Subprocessor in connection with the provision of Services under the Agreement. Empower shall carry out reasonable due diligence as appropriate to the nature of each Subprocessor's services to ensure that the Subprocessor is capable of providing the level of protection for Personal Data required by the Information Security Policies. Upon request, Empower shall make available a current list of any material Subprocessors that have access to Personal Data; the parties hereto agree that such list is the Confidential Information of Empower and subject to the confidentiality provisions of the Agreement.

5. Data Subject Rights. Empower responds to any request from a Participant under applicable Data Protection Laws (such as "Right to Know" requests) as required by applicable Data Protection Laws. Empower will advise Plan Sponsor of any such request that requires Plan Sponsor's assistance or response, and in such case the parties shall cooperate with respect to the response to such Participant.

6. Data Security. Empower's Information Security Policies and related policies address the management of information security, the security controls employed by the organization. These policies include, without limitation:

6.1 An Information Security Board that is responsible for the development, implementation, and ongoing maintenance of Empower's data security.

6.2 Documented policies ("**Information Security Policies**") that Empower formally approves, internally publishes, communicates to appropriate personnel and reviews at least annually. Empower's Information Security Policies shall (i) mandate the secure protection and handling of confidential data, (ii) comply with applicable laws, (iii) conform to or exceed applicable industry standards for the retirement plan services industry, and (iv) documented, clear assignment of responsibility and authority for data security-related activities.

6.3 Policies covering acceptable computer use, record retention/destruction, information classification, cryptographic controls, access control, network security, removable media, remote access, mobile computing and wireless access.

6.4 Regular testing of the key controls, systems and procedures, including (i) testing of information technology general controls (ITGC) at least annually or whenever there is a material change in business practices, and (ii) infrastructure penetration tests and scans against internet-facing points of presence. Empower will correct vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards.

6.5 Policies and procedures designed to protect the security of Plan Data and Personal Data that is accessible to, or held by, Empower's third party suppliers. Such policies shall be based on Empower's Information Security Policies, and shall address, as applicable: (i) the identification and risk assessment of such supplier; (ii) minimum cybersecurity standards required to be met by such suppliers; (iii) due diligence processes used to evaluate the adequacy of cybersecurity practices of such suppliers; and (iv) periodic assessment of such suppliers based on the risk they present and the continued adequacy of their cybersecurity practices.

6.6 Use of appropriate administrative, technical and operational measures designed to ensure Personal Data and Plan Data is secure.

6.7 Monitoring, evaluating and adjusting, as appropriate, its data security protocols summarized herein, in light of relevant changes in Data Protection Laws, Services, technology or industry security standards, the sensitivity of data collected or processed by Empower in the provision of its Services, and evolving internal or external risks. Empower may make such updates to its data security protocols and the terms hereof at any time without notice so long as such updates maintain a comparable or better level of security. Individual measures may be replaced by new measures that serve the same purpose without diminishing the security level protecting Personal Data or Plan Data.

7. Risk Management. Empower has a risk assessment program that includes regular risk assessments and management for risk identification, analysis, monitoring and reporting.

8. Human Resources.

8.1 Acknowledgements. Empower shall provide training on its information security practices to its personnel at least annually. Empower personnel shall acknowledge their information security and privacy responsibilities under Empower's policies.

8.2 Personnel Controls. Empower completes appropriate pre-employment background checks and screening on its personnel, and requires personnel to complete initial security training at the time they are first employed with Empower and annually thereafter. All personnel attest annually to Empower's Code of Business Conduct and Ethics, which enforces the tenets of Empower's Information Security Policies and its privacy policies. Empower has disciplinary processes for violations of information security or privacy requirements, and promptly removes personnel access to Plan Data or Personal Data upon termination or applicable role change.

9. Physical and Environmental Safety.

9.1 Physical and Environmental Security Controls. Empower has appropriate physical and environmental controls to protect Empower's equipment, assets, and facilities used to provide services. Physical security includes, without limitation (i) physical security in the protection of valuable information assets of the business enterprise; and (ii) the provision of protection techniques for the entire facility, from the outside perimeter to the inside office space, including the datacenters and wiring closets.

9.2 Ongoing Operations. Empower protects its facilities and systems containing Data from failures of power, networks, telecommunications, water supply, sewage, heating, ventilation, and air-conditioning.

10. Communications and Operations Management.

10.1 Controls. Empower has policies and procedures in place for communications and operations management controls. Such controls address: hardening, change control, segregation of duties, separation of development and production environments, network security, virus protection, patch management, media controls, data in transit, encryption, audit logs, and time synchronization.

10.2 Operations Security. Empower's Information Security Policies mandate ongoing operations security requirements, including but not limited to, installing or maintaining (i) security patches for operating systems and applications within standard timeframes based on severity; (ii) industry standard versions of operating systems, software and firmware for system applications and components; and (iii) up-to-date system security agent software which includes updated malware and virus definitions.

11. Access Control.

11.1 Access Control. Empower utilizes access controls designed to ensure that only Empower personnel with the proper need and authority can access its internal recordkeeping system and associated data. Empower's access controls include but are not limited to: limiting access to personnel with a requirement to view Personal Data; establishing least-privilege controls to protect systems and Personal Data; generation of audit trails; periodic review and approval of personnel who need to access the Empower recordkeeping system; and termination of personnel access promptly following severance from employment.

11.2 Authentication. Empower authenticates user identity through appropriate authentication controls such as strong passwords, token devices, or biometrics. Passwords must meet minimum length and complexity requirements.

11.3 Remote Access to Empower Systems. Empower uses multi-factor authentication for remote access to its systems.

12. Information Systems Acquisition, Development and Maintenance.

12.1 Systems Development Security. Empower addresses security as part of information systems development and operations and follows secure coding methodologies based on application development security best practices.

12.2 Software Security Management. Empower's information systems (including operating systems, infrastructure, business applications, off-the-shelf products, services and user-developed applications) adheres to the information security standards set forth in Empower's Information Security Policies.

12.3 Vulnerability Assessments/Ethical Hacking. Empower performs vulnerability assessments and penetration testing against Internet-facing points of presence. Empower corrects vulnerabilities or security issues discovered through such assessments in a manner and time frame consistent with established standards set forth in Empower's Information Security Policies.

12.4 Cryptography. Empower uses cryptography techniques that assist Empower with preventing the unauthorized capture, modification of or access to data or information. Empower uses standard encryption algorithms that follow up-to-date encryption standards and industry practices. Such cryptography techniques may include but are not limited to: encryption of sensitive data sent across external communication lines; requirement of minimum 128-bit encryption TLS encryption for web browsers; and encryption of Personal Data while stored on laptops, mobile devices, and in recordkeeping databases.

13. Information Security Breach Management.

13.1 Incident Management Program. Empower maintains investigative measures and techniques for incident handling, including but not limited to: a formalized, enterprise-wide Computer Security Incident Response Team ("**CSIRT**"), and CSIRT processes which are tested at least annually.

13.2 Information Security Breach Response. Empower will notify Plan Sponsor after becoming aware of any Information Security Breach in accordance with all applicable Data Protection Laws. For the avoidance of doubt, Empower will (i) keep the Plan Sponsor informed of significant developments in connection with the investigation of such incident; (ii) investigate and assist any regulator or other governmental body with oversight over the Information Security Breach in investigating, remedying and

taking any other action regarding the Information Security Breach as appropriate or required by law; and (iii) provide Plan Sponsor with information about remedial measures that have been undertaken to prevent such Information Security Breach from reoccurring. In the event that individual or regulatory notifications are required under applicable Data Protection Laws, the parties will cooperate with respect to notifications. To the extent the Information Security Breach is caused by Empower's failure to abide by its obligations as set forth in this Addendum, Empower shall bear the costs of such notifications and provision of credit monitoring services to affected individuals to the extent required by law or otherwise appropriate in Plan Sponsor's and Empower's reasonable judgment.

14. Plan Sponsor Assessment Rights.

14.1 Assessment via Security Assurance Package. Within the secure Plan Sponsor website provided by Empower, Empower provides documentation that supports and informs the reader about Empower's current security program and practices. These documents are referred to as the Security Assurance Package ("**SAP**"), which currently consists of the following items: Security Program Overview document, SOC 1 report, SOC 2 report, available IT certification reports (e.g. Verizon CRP), and a completed SIG questionnaire with related supporting materials. (The SIG is a standardized document template created by the Shared Assessments Program, a consortium of leading financial institutions, the Big 4 accounting firms, and companies from a wide array of industries.)

14.2 Regulatory Assessment. If Plan Sponsor's governmental regulators require that Plan Sponsor perform an on-site audit of Empower's network security, as supported by evidence provided by Plan Sponsor, Plan Sponsor may conduct an on-site audit of Empower's network security, relevant to the security of Plan Data ("**Regulatory Audit**"). Unless a different notice or frequency is required by Plan Sponsor's governmental regulators, a Regulatory Audit may be conducted by Plan Sponsor once per year at a mutually agreed-upon time with at least 60 days' advance written notice to Empower. If a Regulatory Audit requires the equivalent of more than two business days of Empower Personnel's time to support such audit, Empower may charge Plan Sponsor an audit fee at Empower's then-current rates for each day thereafter.

14.3 Miscellaneous. This Addendum is governed by and incorporated into the Agreement. In the event of any conflict between the Agreement and this Addendum, the Agreement will prevail. Any capitalized terms used but not otherwise defined herein shall have the meaning set forth in the Agreement.

EXHIBIT 2:
PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

This Exhibit 2 shall apply to any Recordkeeping Services Schedule under the Master Services Agreement

PROCEDURES FOR COMPLYING WITH FUND COMPANY MARKET TIMING AND EXCESSIVE TRADING

The prospectuses, policies and/or procedures of certain fund companies require retirement plan providers offering their fund(s) to agree to restrict market timing and/or excessive trading ("prohibited trading") in their funds. The following procedures describe how we, as your recordkeeper, will comply with fund company instructions designed to prevent or minimize prohibited trading.

Various fund companies instruct intermediaries to perform standardized trade monitoring while others perform their own periodic monitoring and request trading reports when they suspect that an individual is engaging in prohibited trading. If an individual's trading activity is determined to constitute prohibited trading, as defined by the applicable fund company, the individual will be notified that a trading restriction will be implemented if prohibited trading does not cease. (Some funds may require that trading restrictions be implemented immediately without warning, in which case notice of the restriction will be provided to the individual and plan, if applicable). If the individual continues to engage in prohibited trading, the individual will be restricted from making transfers into the identified fund(s) for a specified time period, as determined by the applicable fund company. Individuals are always permitted to make transfers out of the identified fund(s) to other available investment options. When the fund company's restriction period has been met, the individual will automatically be allowed to resume transfers into the identified fund(s).

Additionally, if prohibited trading persists, the fund company may reject all trades initiated by the plan, including trades of individuals who have not engaged in prohibited trading.

Note: certain plan sponsors have or may elect to implement plan level restrictions to prevent or minimize individual prohibited trading. To the extent that such procedures are effective, we may not receive requests for information from the fund companies or requests to implement the restrictions described above.

10/16/07

EXHIBIT 3: PRIVACY NOTICE

PRIVACY NOTICE

REV 5/2021

FACTS	What does Great-West Life & Annuity Insurance Company (Empower Retirement) do with your personal information?
WHY?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share and protect your personal information. Please read this notice carefully to understand what we do.
WHAT?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: • Social Security number and account balances. • Retirement assets and transaction history. • Employment information and income. When you are no longer our customer, we continue to share your information as described in this notice.
HOW?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information, the reasons Empower Retirement chooses to share and whether you can limit this sharing.

REASONS WE CAN SHARE YOUR PERSONAL INFORMATION	**DOES EMPOWER RETIREMENT SHARE?**	**CAN YOU LIMIT THIS SHARING?**
For our everyday business purposes — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes — to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes — information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes — information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

QUESTIONS?	Call toll-free at **855-756-4738** or go to **empower-retirement.com/privacy**

WHO WE ARE	
Who is providing this notice?	Companies owned by Great-West Life & Annuity Insurance Company. A list of companies is provided at the end of this notice.
WHAT WE DO	
How does Empower Retirement protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include physical, technical and procedural safeguards, such as building and system security and personnel training.
How does Empower Retirement collect my personal information?	We collect your personal information, for example, when you: • Provide account information or apply for a loan. • Enter into an investment advisory contract or seek advice about your investments. • Tell us about your investment or retirement portfolio. We also collect your personal information from others, such as credit bureaus, affiliates or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only: • Sharing for affiliates' everyday business purposes — information about your creditworthiness. • Affiliates from using your information to market to you. • Sharing for nonaffiliates to market to you. State laws and individual companies may give you additional rights to limit sharing.
DEFINITIONS	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • *Our affiliates include companies with the Empower, Empower Retirement or Great-West names, as listed below, and other financial companies such as Advised Assets Group, LLC and Empower Retirement, LLC.*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • *Empower does not share with nonaffiliates so they can market to you.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. • *Empower doesn't jointly market.*
WHO IS PROVIDING THIS NOTICE?	
Great-West Life & Annuity Insurance Company; The Great-West Life Assurance Company (U.S. operations); Great-West Life & Annuity Insurance Company of New York; Great-West Financial Retirement Plan Services, LLC; Advised Assets Group, LLC; GWFS Equities, Inc.; The Canada Life Assurance Company (U.S. operations); Empower Retirement, LLC; Great-West Life & Annuity Insurance Company of South Carolina; Great-West Capital Management, LLC; Great-West Funds, Inc.; and Great-West Trust Company, LLC

EXHIBIT 4: BUSINESS CONTINUITY PLAN NOTICE

GWFS Equities, Inc., a subsidiary of Great-West Life & Annuity Insurance Company and affiliate of Great-West Life & Annuity Insurance Company of New York* ("the Company") and Empower Retirement, LLC, maintains a comprehensive business continuity plan designed to respond reasonably and effectively to events that lead to significant business disruption, such as natural disasters, power outages, or other events of varying scope. This plan defines critical functions and systems, alternate work locations, vital books and records, and staff resources, and provides for the continuation of business operations with minimal impact, depending on the severity and scope of the disruption. The plan is reviewed and tested no less than once annually to ensure that the information in the plan is kept current and that documented recovery and continuity strategies adequately support its business operations. Of utmost importance to the plan is the ability for customers to maintain access to securities accounts and assets in those accounts.

In the event that one of the contact centers or back office operation facilities becomes unavailable for any reason, calls would be re-routed to one of the firm's alternative contact center or operations facilities.

In the event of a significant business disruption to the primary office and/or data center, access to customer accounts will be provided via the Company's Web site and voice response system, operated from an alternative data center. Customer service will continue to be provided by re-routing telephone calls to a contact center located in one or more alternative sites located outside of the region. Secure work from home solutions are available for all staff.

While no contingency plan can eliminate the risk of business interruption, or prevent temporary delays with account access, the firm's continuity plan is intended to mitigate all reasonable risk and resume critical business operations within 24 hours or the next business day, whichever is later.

* Recordkeeping and administrative services are provided by Empower Retirement, LLC, and in New York, Great-West Life & Annuity Insurance Company of New York, or one of its subsidiaries or affiliates. Securities offered in your account may be offered through another broker/dealer firm other than GWFS Equities, Inc., a wholly owned subsidiary of Great-West Life & Annuity Insurance Company. Please contact your investment provider for more information if needed.

This disclosure is subject to modification at any time. The most current version of this disclosure can be found on the Web site or can be obtained by requesting a written copy by mail.

BCP – GWFS Customer Notice (Ed. Feb. 2021)

SCHEDULE A:
RECORDKEEPING SERVICES SCHEDULE
FOR THE

LIST OF PLANS

1. CITY OF STOCKTON, DEFERRED COMPENSATION PLAN AND TRUST - A 457 PLAN (PART TIME/SEASONAL/TEMPORARY EMPLOYEES) ("457(b) Governmental") Group Account Number: 061361-0002-0000

1. GENERAL

This Recordkeeping Services Schedule ("**Schedule**") is a separate agreement between the parties hereto and incorporates the terms and conditions of the Agreement ("**Agreement**") between Empower Retirement, LLC and Plan Sponsor. All references to "Empower" in this Schedule are deemed to be references to Empower or the Empower Affiliate, as the case may be, that enters into this Schedule. Capitalized terms used but not defined herein shall have the meanings given to them in the Agreement. Any conflict between this Schedule and the terms of the Agreement shall be resolved in favor of the Agreement, unless this Schedule specifically states that its provision will prevail.

2. SCHEDULE TERM

2.1 The Effective Date of this Schedule is July 1, 2022 ("**Schedule Effective Date**"). Unless terminated in accordance with the termination provisions at Section 11 of the Agreement, this Schedule shall remain in full force and effect. The termination of this Schedule shall also operate as a termination of all Schedules to the Agreement.

2.2 Upon termination, Plan Sponsor Directs Empower to deduct any and all outstanding expenses and fees owed to Empower from the Plan's trust on the termination date, unless paid by the Plan Sponsor. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from the Plan consistent with the foregoing. Upon termination of this Schedule, Empower will cease to provide the Services herein. Plan Sponsor acknowledges that after the termination of this Schedule, Plan Sponsor will be responsible for performing all actions required to be taken with respect to the Plan including, but not limited to: processing of contributions, loans and distributions, and the distribution of forms to Participants. On and after the actual date of termination of this Schedule, Empower shall have no further obligations hereunder except as set forth in the Transition Assistance section.

3. NATURE OF EMPOWER'S SERVICES

3.1 Services. Empower will provide the Services set forth in this Schedule or as further described in the Exhibits attached hereto.

3.2 Fiduciary Status. Except with respect to any Services for which Empower has specifically agreed to act as a fiduciary under this Schedule, Plan Sponsor acknowledges that (i) Empower acts as a non-discretionary service provider Directed by the Plan Sponsor or other Plan fiduciary and, as authorized by the Plan Sponsor, by Participants; and (ii) performance of the Services do not involve the exercise of any discretion in the administration or management of the Plan that would cause Empower to be a fiduciary or a Plan Administrator as defined under the Code, ERISA, the Investment Advisors Act of 1940, or state law, as applicable. The Plan Sponsor has appointed a Plan Administrator that has discretionary authority

for the administration and management of the Plan. The parties agree that Empower will not perform a Service that could cause it to have discretionary authority or responsibility for the administration or management of the Plan or disposition of Plan assets. Empower shall not render, or have any authority or responsibility to render, investment advice for a fee or other compensation, direct or indirect, with respect to any Plan assets, except as specifically provided for under this Agreement.

4. PLAN SPONSOR RESPONSIBILITIES

Plan Sponsor acknowledges that Empower cannot effectively perform the Services without Plan Sponsor's cooperation. Accordingly, Plan Sponsor acknowledges and agrees that it will fulfill the following duties and obligations:

4.1 Provision of Information. Plan Sponsor or its designee, including any third parties retained by or on behalf of the Plan or Plan Sponsor, will provide all information necessary for Empower to perform the Services in a manner and format that does not require manual intervention or manipulation by Empower. Plan Sponsor acknowledges and agrees that Empower shall not bear any responsibility for any penalties or other costs incurred as a result of Plan Sponsor's failure to provide such information in a timely manner. Plan Sponsor further acknowledges and agrees that Empower may charge an additional fee if any necessary information is not provided on a timely basis, or in an electronic format usable by Empower without any manual intervention or manipulation. Plan Sponsor agrees that Empower shall be entitled to fully rely upon the accuracy and completeness of information Plan Sponsor submits and that Empower shall have no duty or responsibility to verify such information. If, as a result of incorrect or incomplete information furnished by Plan Sponsor, it becomes necessary to repeat any calculation or service, complete any new forms or revise any completed forms, Empower reserves the right to charge an additional fee. Each party agrees to bear its own transmission costs and is solely responsible for its own acts and omissions relating to transmitting, receiving, storing and handling documents and information, including the maintenance of all equipment, software and testing necessary to effectively, reliably and securely send and receive such documents and information.

4.2 Remitting Contributions and Allocation Instructions. Plan Sponsor agrees that it is solely responsible for collecting and remitting all initial and recurring contributions and loan repayments to Empower electronically via Empower's plan sponsor website, or another mutually agreed-upon manner within the time prescribed by applicable law. Plan Sponsor acknowledges that Empower is not responsible for monitoring the amount and/or timeliness of such contributions and loan repayments.

4.3 Plan Document Responsibilities. Plan Sponsor has the responsibility to ensure that the Plan documents are accurate and complete, to interpret Plan terms and to review the Plan document services provided by Empower, if any. Plan Sponsor is responsible to ensure that the Plan is being operated in accordance with its terms. Plan Sponsor shall provide Empower with a signed copy of the Plan document and all amendments to the Plan document within thirty (30) days after such document and/or amendment is adopted.

4.4 Investment Options. Plan Sponsor is responsible for the selection of all Investment Options based on Plan Sponsor's independent evaluation, or that of its registered investment advisor, consultant, broker or other agent, as applicable. Plan Sponsor must notify Empower in writing of the Investment Options intended to be serviced by Empower and such Investment Option services are only provided as agreed upon by Empower and may be subject to certain limitations or conditions. Plan Sponsor acknowledges that Empower or its Affiliates may receive fees from mutual fund families or other Investment Option Sponsors or their Affiliates for providing certain administrative or other services thereto ("**Fund Service Fees**") in connection with the Plan. Plan Sponsor may request additional information regarding

such fees at any time. If the provider of an Investment Option causes an Investment Option to become unavailable to the Plan, Empower will notify Plan Sponsor as soon as practicable after the Investment Option Sponsor notifies Empower.

4.5 Plan Sponsor Acknowledgement of Market Timing Procedures. Plan Sponsor acknowledges that the SEC requires mutual fund companies to establish procedures to prevent market timing and excessive trading. Plan Sponsor acknowledges receipt of, and agrees to adhere to, the terms and conditions of the Procedures for Complying with Fund Company Market Timing and Excessive Trading Policy attached as an Exhibit to the Agreement, as amended from time to time.

4.6 Payment of Plan Expenses. Plan Sponsor may Direct Empower in writing to deduct Plan expenses from the Plan to the extent Plan Sponsor has determined that deduction is specifically allowed by the Plan document and applicable law, and to remit to the party designated by the Plan Sponsor.

4.7 Plan Sponsor Direction to Perform the Services. In performing the Services, Empower is acting at the Direction of the Plan Sponsor or other fiduciary of the Plan by following the procedures set forth in a plan administration guide or similar procedural document provided by Empower to the Plan Sponsor, including by posting such procedural documents to the Plan Sponsor website. To the extent the procedures do not fully address a specific issue, the Plan Sponsor agrees to provide Direction in a manner reasonably requested by Empower, and Empower may rely upon any such Direction by a person that Empower reasonably believes to be authorized to act on behalf of the Plan Sponsor or other fiduciary. Plan Sponsor specifically intends that Empower will have no discretionary authority with respect to following such Direction.

4.8 Electronic Delivery. Empower will deliver plan-related documents to Participants under the Agreement in an electronic manner as described below.

4.8.1 Plan notices to be delivered by Empower via an email notice of the availability of the plan-related documents on the Participant website will be sent to an email address provided to Empower by the Participant or by Plan Sponsor. If Empower is not provided with an email address, notices will be delivered to the Participant via regular mail.

4.8.2 Empower will send an initial notification of default electronic delivery via regular mail to each Participant at least 10 days prior to delivering any plan-related documents via email. The initial notice of default electronic delivery will include the participant's email address that will be used to deliver notices of the availability of plan-related documents, a statement of the Participant's right to request and obtain a paper version of the documents and a statement of the option to opt out of electronic delivery and receive only paper versions of the documents.

4.8.3 If an email notice of availability of a plan-related document is returned undeliverable, Empower will send the notice to another email on file for the Participant. If no other email is on file for the Participant or such other email is also returned undeliverable, plan related documents will be delivered via regular mail to the Participant until such time as Empower is provided another email address for the Participant.

4.8.4 Participants may request to receive one paper copy of a plan-related document for no cost. In addition, Participants may opt out of electronic delivery and request that their plan-related documents be delivered via regular mail at any time.

4.9 Review of Reports. Plan Sponsor is responsible for reviewing and monitoring reports made available by Empower (whether provided electronically, by posting on an Empower website, or

otherwise) regarding Plan activity, transactions and investments to verify that the transactions indicated in the reports properly reflect the Direction provided by the Plan Sponsor. Empower's performance of its obligations under this Agreement shall be presumed to be accurate unless Plan Sponsor provides Empower with proper notice of discrepancies.

4.10 Error Correction.

4.10.1 Transactional and Operational Errors.

4.10.1.1 Transactional Errors. If Empower does not accurately process contribution, distribution, or investment instructions provided in good order by a Participant or the Plan Sponsor (e.g., investment allocation of Plan contributions, investment exchanges or transfers, or timely processing of a Plan distribution) and the issue is timely brought to Empower's attention, Empower will, at its own expense, retroactively correct the Plan or Participant account to reflect its adjusted financial position had the error not occurred, including any investment earnings and reduced by any investment losses. If the issue is not timely brought to Empower's attention, Empower may correct the error by adjusting the Plan or Participant account prospectively.

4.10.1.2 Plan Operational Errors. If Empower is timely notified that it has made an error that creates an operational or fiduciary issue for the Plan, Empower will, within a reasonable time after being notified of or discovering such error, notify the Plan Sponsor and describe the corrective option that Empower proposes to employ that is consistent with the Internal Revenue Service, Department of Labor, or other agency correction guidelines, where applicable, and Plan Sponsor shall review the proposed correction option. Unless the Plan Sponsor objects to such proposed correction and requests an alternate correction option within five (5) business days after receiving notice of Empower's suggested corrective option, the Plan Sponsor Directs Empower to promptly process the correction in accordance with the proposal, at Empower's expense. If Empower's proposed correction is consistent with Internal Revenue Service, Department of Labor, other agency correction guidelines, or other guidance, but the Plan Sponsor requests an alternate correction method resulting in expenses in excess of what Empower would have incurred under its proposed correction, the Plan Sponsor shall bear such additional expenses (including without limitation any attorney's fees, regulatory filing costs and additional net loss resulting from such method).

4.10.2 Trading Errors. If Empower does not accurately process a trade with the mutual fund company as Directed by the Plan Sponsor or as instructed by a Participant, then Empower will correct the share position at the mutual fund company as if the error had not occurred. In the event there are multiple funds or related errors in one or more funds involved, Empower will net gains and losses across all funds involved in the associated error(s). If the Plan Sponsor utilizes the services of a third-party trustee and/or custodian ("**Third-Party Trustee**"), Empower shall in no event be required to perform any correction: (i) for a trading error that results from an error or omission by the Third-Party Trustee, (ii) to be performed under the terms of any service arrangements between the Plan Sponsor and such Third-Party Trustee (the "**Third-Party Trust Agreement**"), (iii) that falls within error tolerance ranges under the Third-Party Trust Agreement, or (iv) that otherwise would exceed any requirements for error correction by the Third-Party Trustee under the Third-Party Trust Agreement.

4.10.3 The parties acknowledge and agree that Empower will have no liability for an error caused by acts or omissions of the Plan Sponsor, Participants or any other third party.

4.10.4 Duty to Mitigate. The parties acknowledge and agree that the Plan Sponsor, the Plan Administrator and Participants each have a duty to mitigate any errors so as to minimize the expenses

that may be incurred to correct such errors by promptly reviewing transaction confirmations, account statements and other Plan reports, as applicable, and providing notification of any error, providing timely approval of correction measures and taking such other reasonable steps as may be necessary (e.g., proactively transferring account holdings into the appropriate Investment Option).

4.10.5 Transactional Gain/Loss Compensation Policies for Error Correction. Empower may incur a gain or loss in the process of adjusting a Plan or Participant account to correct certain errors due to changes in the share/unit price of an Investment Option between the original transaction date and the correction date. The adjusted position of Plan and Participant accounts are not impacted by transactional gains or losses incurred by Empower to settle the Investment Option positions in the course of correcting the account. Empower will net any Investment Option pricing differences as part of the correction process. If a correction is made at Empower's expense, Empower, not the Plan or Participant, will incur any transactional loss and Empower will retain any transactional gain.

4.11 Account Protection. Empower, Plan Sponsor or the Participant will promptly notify the other parties if it discovers that an unauthorized distribution was made from the Participant's account. Empower will conduct an investigation and take any appropriate steps, which may include working with law enforcement, to determine the root cause of the unauthorized distribution. Plan Sponsor agrees to cooperate in any such investigation and will comply with reasonable requests for information. To the extent Empower offers Participants protection against account losses that result from unauthorized transactions, Empower will restore losses as of the date of the account loss once Empower has had sufficient time to conduct a preliminary investigation and attempt to ascertain the root cause. Such protection is not available if Plan Sponsor refuses or neglects to follow commercially reasonable security practices, as set forth in Section 5.1 of the Agreement, or if the loss resulted from a compromise of the systems or security protocols of Plan Sponsor or its third party service providers (other than Empower).

4.12 Uncashed Checks. With respect to any checks issued from Plan assets during the term of the Agreement, Plan Sponsor Directs Empower to follow state unclaimed property regulations and escheat such assets to the Plan's or the Participant's state of residence based on Empower's records. However, Plan Sponsor may Direct Empower, in writing, to treat the Plan's uncashed checks in a different manner. Plan Sponsor is solely responsible for determining the appropriate handling of uncashed checks and any unclaimed property under the applicable federal and state laws including the determination and handling of amounts related to lost Participants.

5. PLAN INVESTMENT OPTIONS & FEES

5.1 Selection of Investment Options

5.1.1 The parties agree that the purchase and sale of securities for the Plan, except for employer stock and unaffiliated self-directed brokerage, will be effected through GWFS Equities, Inc., a broker/dealer affiliate of Empower.

5.1.2 In addition to the sole responsibility for the selection of the Investment Options to be made available under the Plan, Plan Sponsor will also Direct Empower to designate one of the Investment Options available to be the default investment, in which any contribution or other amount credited under the Plan for which neither the Participant nor the Plan Sponsor has provided Empower with investment directions in good order will be invested ("**Default Investment Fund**"). Plan Sponsor may designate a Default Investment Fund(s) for Participant contributions and also designate a second Default Investment Fund for employer contributions.

5.1.3 Plan Sponsor Directs Empower and its Affiliates, as applicable, to cause all dividends, capital gain distributions, interest or other earnings paid by an Investment Option under the Plan to be reinvested in such Investment Option unless Directed otherwise by the Plan Sponsor and agreed to by Empower.

5.2 Information Regarding Investment Options

Plan Sponsor Directs Empower to obtain, or cause its designee to obtain, all necessary information (including but not limited to valuation, performance, prospectuses and other investment information) regarding any Investment Option available under the Plan from any third parties representing such Investment Options ("**Investment Option Sponsor(s)**"). Plan Sponsor acknowledges that prospectuses for the Investment Options, as applicable, will be made available electronically through one or more websites maintained by Empower or its Affiliates. In the event an Investment Option Sponsor does not provide all necessary information and Empower agrees, Plan Sponsor will arrange to provide Empower or its designee, or cause Empower or its designee to be provided, the necessary information regarding said Investment Option. In no event will Empower be responsible for the accuracy of any such information provided to Empower or its designee regarding any Investment Option, and Empower or its designee will have no duty or obligation to question, confirm or independently verify any such information.

5.3 Investment Option Changes.

5.3.1 Plan Sponsor may replace the Investment Options at any time, subject to applicable notice requirements. Plan Sponsor will notify Empower in writing of any changes to such Investment Options or the Default Investment Fund(s), and the parties will agree upon a process for the transfer of assets and investment elections, if applicable, from prior Investment Options to new Investment Options.

5.3.2 If any Investment Option is terminated by the Investment Option Sponsor, and Plan Sponsor wishes to replace the terminated option, Plan Sponsor agrees to replace the terminated option with an available fund from any fund company that currently has, or will enter into, a trading agreement with Empower.

6. ACH AUTOMATION AND PLAN MERGERS & ACQUISITIONS

6.1 ACH Automation. Plan Sponsor Directs Empower to accept a transfer of Plan records that reflects Participant ACH banking information as provided by the Plan Sponsor or by the Plan's prior service provider, without any further review and validation of the ACH information provided.

6.1.1 In Directing Empower to accept a transfer of existing Participant ACH banking information to its recordkeeping system, the Plan Sponsor certifies the following:

6.1.1.1 The Participant has previously authorized the Plan to process an ACH debit and/or credit of the Participant's account at the designated financial institution ("**Account**") in connection with all applicable Plan transactions and has authorized the designated financial institution, in the form of electronic fund transfer, to credit and/or debit the same to such Account.

6.1.1.2 The Participant has not revoked the ACH authorization for the Account prior to the transfer and the Plan shall treat the Participant's ACH authorization for the Account as remaining in effect until Empower receives a notice of cancellation from the Participant.

6.1.1.3 Plan Sponsor Directs Empower to administer all ACH transactions for all Plan purposes under the terms of Empower's separate ACH Agreement, which the Plan Sponsor has adopted as the Plan's terms and conditions governing all applicable ACH transactions processed on the Empower platform.

7. RECORDKEEPING AND ADMINISTRATION SERVICES & FEES

7.1 Transactional Fees. Transactional fees set forth in Exhibit D of Plan Sponsor's prior administrative services agreement shall remain 'as is' unless there is a reduced fee on the Empower platform, in which case the reduced pricing will be honored.

7.2 Enrollment

7.2.1 Enrollment. Based on information provided by the Plan Sponsor or its designee, Empower will enroll Participants in the Plan in a manner mutually agreed upon by the parties.

7.2.2 Eligibility Determination. Plan Sponsor Directs Empower to determine employee eligibility as Directed by the Plan Sponsor and through Plan Sponsor provided information and criteria. Empower shall also communicate details of the enrollment process to eligible Participants. Plan Sponsor agrees to notify Empower at least thirty (30) days prior to any change in the Plan's eligibility requirements. Empower may discontinue this service if the Plan's new eligibility requirements are incompatible with Empower's recordkeeping system requirements.

7.3 Deferral Processing. If Plan Sponsor provides Empower at implementation with an electronic employee data feed of all the Participant deferral amounts/percentages or full PDI file, Plan Sponsor hereby Directs and authorizes Empower to allow Participants to update their deferral elections via the website and VRU. Empower will forward updated deferral information to Plan Sponsor according to the schedule elected by Plan Sponsor.

7.4 Vesting Services. Plan Sponsor will provide Empower with up-to-date full-service vesting information electronically and ongoing Participant information as needed for the purpose of performing vesting services. Plan Sponsor Directs Empower to:(i) maintain each Participant's vesting percentage on Empower's recordkeeping system; (ii) calculate and process withdrawals and/or loans according to the vested percentage; and (iii) display the Participant's vested account balance on the quarterly statements.

7.5 Receipt and Investment of Contributions. Empower will credit contributions for allocation to Participant accounts in accordance with Direction from the Plan Sponsor and as set forth below. Empower will allocate or otherwise apply forfeitures under the Plan accounts, if any, as Directed by the Plan Sponsor. Empower will pass Directions to invest such contributions, and to execute appropriate transactions related to forfeitures, to the Plan trustee or custodian in accordance with investment Directions of the Plan Sponsor.

7.5.1 Timing Requirements for Contributions Funded via ACH, Check or Wire. Contributions received by Empower in good order prior to the close of any Business Day will be processed effective that Business Day, at that Business Day's net asset / unit values. Contributions not received by Empower prior to the close of Business Day will be processed effective the next Business Day.

7.6 Investment Transfers of Existing Assets. Empower or its designee will process investment transfers or exchanges, as applicable, received in good order subject to any conditions and/or limitations imposed by the available Investment Options under the Plan or Investment Option Sponsors. Empower will pass to the Plan trustee or custodian, as applicable, Directions to execute or record as

appropriate the corresponding transactions involving the assets of the Plan's trust. Requests for Participant-initiated transfers between Investment Options will be processed if the request is received by Empower in good order prior to market close on a Business Day. Any transfer request not received by Empower during a Business Day will be processed the next Business Day, or such earlier time as may be required in order to comply with applicable law.

7.7 Plan Loans. Empower will administer Participant account reduction loans repaid by payroll deduction pursuant to the Plan's loan policy, as amended from time to time. Loan requests may be initiated through the VRU or Participant website or submitted on approved Plan administrative forms with Plan Sponsor signature authorization.

7.8 Distributions.

7.8.1 Empower will make payments to Participants pursuant to a Participant's request and Plan Sponsor's Direction received in good order and will debit Participant accounts accordingly.

7.8.2 Plan Sponsor agrees to provide a signature authorization for all distribution requests allowed under the Plan, including but not limited to distributions, alternate payee distributions and beneficiary distributions. Empower reserves the right to charge an additional fee for services related to distributions to non-resident aliens and other distributions outside the ordinary course of plan administration.

7.8.3 Tax Withholding and Reporting of Distributions

7.8.3.1 Responsibility for Withholding and Reporting. Plan Sponsor appoints Empower or its designee as its agent to perform income tax withholding and reporting for all distributions Empower processes and to collect and remit state documentary stamp or similar taxes on all loans Empower processes, to the extent applicable. Plan Sponsor agrees to provide all information needed by Empower to perform these services. Empower or its designee shall deposit the income tax withheld with the Internal Revenue Service ("**IRS**") and other appropriate governmental entities, as applicable, on or before the applicable due dates for such remittances. Empower will complete necessary tax reporting forms for distributions it processes, file the tax reporting forms with the IRS or other governmental authority, as applicable, and send copies to the distributee. Distributions to a person subject to reporting and withholding rules that differ from those applicable to United States residents will be subject to withholding applicable to non-resident aliens unless otherwise Directed by the Plan Sponsor.

7.8.3.2 Withholding and Reporting for Plan Sponsor Initiated Distributions and Rollovers. With respect to Plan Sponsor-initiated distributions or rollovers from the Plan, Plan Sponsor Directs Empower to rely upon the information on Empower's recordkeeping system for purposes of tax reporting and withholding, and to treat payees with U.S. addresses as U.S. persons and payees with foreign addresses as foreign persons. Plan Sponsor certifies that such information is accurate and compliant with the Foreign Account Tax Compliance Act ("**FATCA**") and the Code, and that required documentation supporting such information has been collected by Plan Sponsor.

7.9 Code Section 402(f) Notice. Empower shall provide Participants with the IRS model notice, as amended from time to time, pursuant to Code Section 402(f).

7.10 Distribution Education Services. Empower or its Affiliates will make retirement consultants available to Participants to provide distribution education services and may contact Participants

who are eligible to receive distributions from the Plan to provide information regarding distribution options under the Plan including rollover services and products offered by Empower.

8. PAYMENT OF FEES & FEE CHANGES

8.1 General Requirements. This Section 8 describes certain services under which Empower will process Participant requests without obtaining Plan Sponsor signature or other further approval. In doing so, Empower will not exercise any fiduciary authority or make any discretionary determinations. Rather, this Section 8 will act as Direction by Plan Sponsor for Empower to process all Participant requests that meet the stated criteria. In order to receive the signatureless services detailed in this Section 8 Plan Sponsor must utilize the Plan Service Center ("**PSC**") and must provide all necessary information in a PDI file. Plan Sponsor must also provide any additional information or Direction as required by, and in a form acceptable to, Empower. In addition, in most cases, Empower must be the sole recordkeeper for the Plan. If at any time Plan Sponsor does not meet these general requirements, or does not meet the specific requirements of any service described in this Section 8, Empower shall not be responsible to continue to provide such service.

8.2 Payment of Fees. All fees not paid by Participants must be paid within thirty (30) days of Empower's invoice to the Plan Sponsor unless another arrangement has been pre-approved by Empower in writing. In the event any charges or fees reasonably and properly chargeable under the terms of the Agreement, including this Schedule or other applicable documents signed by the Plan Sponsor remain unpaid sixty (60) days after the date billed, Plan Sponsor Directs Empower to deduct such expense charges from the Plan and Plan Sponsor affirms that the Plan document specifically allows such deduction from the Plan. To the extent that the forfeiture or other Plan accounts would not pay Plan expenses under the Plan document or the Plan accounts are insufficient, Plan Sponsor Directs Empower to allocate such fees to the Participant accounts, and to the investment choices in which the Participant accounts are invested, on a pro rata basis using Participant account and investment option balance ratios as of the date of deduction. Plan Sponsor agrees to amend the Plan, if necessary, to provide for the payment of expenses from Plan assets consistent with the foregoing.

8.3 Fee Changes. Empower may adjust the fees set forth in this Agreement upon the earlier of (i) thirty (30) days' written notice to Plan Sponsor or (ii) mutual agreement by the parties.

9. ACCESS TO RECORDKEEPING SYSTEM & SERVICE REPRESENTATIVES

9.1 Automated Voice Response System. Participants will have access to an automated voice response system via a toll and toll-free number to inquire or make account changes from a touch-tone telephone. Inquiry services available from the automated voice response system will utilize share prices, unit values and account balances that are as of the last calculated unit value/share price. The automated voice response system will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

9.2 Participant Service Representatives. Participant service representatives will be available via a toll-free telephone call to Empower to answer Participant questions and process applicable transactions each Business Day between the hours of 5:00 am and 7:00 pm Pacific Time and on Saturdays between 6:00 am and 2:30 pm Pacific Time.

9.3 Plan Sponsor Access to Recordkeeping System. Plan Sponsor may interface with Empower's recordkeeping system online via Empower's Plan Sponsor website to inquire or make changes

while administering the Plan. Upon request, Empower representatives will be made available to assist and train employees of Plan Sponsor in properly accessing and processing transactions on the Empower's Plan Sponsor website. Empower's Plan Sponsor website will be available consistent with the availability of the automated VRU.

9.4 Participant Website

9.4.1 Website Use. Empower will, as part of the Services, host, maintain and make certain information available to Plan Sponsor and Participants on a website or websites (the "**Website Services**"). Plan Sponsor will not use or permit any use of the Website Services (i) in any unlawful or illegal manner; (ii) in any way that could impair the Website Services or any other party's use thereof; or (iii) to distribute, sell, resell, license or transfer any of Plan Sponsor's rights to access or use the Website Services or make the Website Services available to any third party. Any user credentials, including user identification and passwords, established by Plan Sponsor and its delegates or any Participant (each a "**User ID**") is issued to a specific user and may not be shared or used by any individual other than that user. Plan Sponsor will be responsible for the compliance by its users with the applicable terms of this Section. Empower may terminate the User ID, or portions thereof, for any user involved in a breach of this Section. Plan Sponsor acknowledges that transmissions through the internet are inherently unsecure, that virus protection software, firewalls and other security measures are not foolproof, and that the Website Services and their content are not invulnerable to fraud or hacking. In addition, Plan Sponsor acknowledges that Empower shall from time to time perform scheduled or emergency repairs, maintenance, and disaster recovery testing on the websites, and that such activity, or other circumstances beyond Empower's reasonable control, may cause the Website Services to be unavailable or delayed. Plan Sponsor agrees that Empower shall not be liable for any such delays or downtime in the Website Services, or for any virus or malicious access to the Website Services by third parties, provided that Empower has implemented and maintained security features with respect to the Website Services that are consistent with the Agreement and commercially reasonable industry standards.

9.4.2 Access to Participant Website. Participants will have access to a mobile responsive website to inquire or make certain account changes via the internet. In addition, Participants can download a complimentary Android app and an iOS phone, iPad and Apple Watch app. The Android and Apple Watch apps currently support inquiry-only capabilities while the iOS phone / iPad app supports both inquiry and certain change capabilities. All such apps will be subject to the terms of the Agreement, as related to privacy and data security.

9.4.3 Website Availability. The website will be available 24 hours a day, 7 days a week, except for routine maintenance of the system which, when necessary, will generally take place on Sunday between the hours of 2:01 am and 2:01 pm Eastern Time. However, the system may also be limited or unavailable during periods of peak demand, market volatility, systems upgrades, or maintenance, or for other reasons.

9.4.4 Enhancements. Empower may periodically update or add new content, features, services, tools or other functionality to the Participant website or other Empower Software as part of its ongoing enhancement of the Services offered to Plan Sponsor or its Participants. Such additions will be offered at no additional cost unless expressly agreed by Plan Sponsor or Participants (as applicable).

10. PARTICIPANT COMMUNICATION AND EDUCATION

11. REPORTING SERVICES

11.1 Participant Reporting. Empower will provide Participants a confirmation for transactions involving investment allocations, investment transfers, contribution rates, change of address, rollover contributions, and rebalance activity. Empower will also make available to each Participant account information on at least a quarterly basis, including beginning and ending balances, all contributions and transactions processed, interest credited or change in value, fees and withdrawals deducted, transfers processed and performance data on Investment Options held by the Plan to the extent such data is provided by the Investment Option Sponsor, personal rate of return on investments, account balance translated into an estimated monthly income amount, and balance in the SDB, as applicable. Participants' statements shall be distributed in accordance with Section 4.8 of this Schedule, Electronic Delivery. Statements will be available within fifteen (15) Business Days after receipt of final information in good order from third party sources.

11.2 Plan Sponsor Reporting. Empower will provide an Employer Plan Summary Report to Plan Sponsor, summarizing Plan-level assets and Participant account balances, within thirty (30) Business Days after each calendar quarter end ("**Employer Plan Summary Report**"). The following Plan information will be addressed in the Employer Plan Summary Report: (i) summary of Plan transactions and assets; (ii) summary of contributions processed; (iii) withdrawals; (iv) annuities purchased, if applicable; (v) periodic payments; (vi) Investment Option grand totals – summarizes both dollars and units/shares and Plan activity; (vii) Investment Option totals by money type – summarizes both dollars and units/shares and money type activity; (viii)Participant summary – a report of account activity for each Participant.

12. TRANSITION ASSISTANCE SERVICES

12.1 Transition Services. Empower agrees to support the transition of recordkeeping and administrative services ("**Transition Services**") to a successor service provider subject to the terms and conditions of the Agreement. Empower shall provide the following Transition Services prior to the Service End Date (as defined below) of the Agreement.

12.2 Planning. Participate in conference calls and in-person meetings, as needed, with Plan Sponsor and the successor service provider to designate the transfer team, define communication channels, discuss the transfer process and define expectations, responsibilities, and applicable deadlines. Empower will designate a transition Project Manager to lead and be the contact person for the transition effort. In the event Plan Sponsor requests that the Project Manager or other deconversion team member attend a transition services meeting in person at a site other than Empower's office location, Empower's fees for time and travel for such in-person meetings are $1500 per day, per person.

12.3 Data Layouts. Provide the successor service provider with data layouts for Participants and Plan data residing on Empower administration systems, including but not limited to data layouts for paper statement indicators, rebalance frequency elections, ACH indicators, outstanding loan terms and payment amounts, powers of attorney on file, and dividend pass-through elections. The data layouts will correspond to Empower standard file formats.

12.4 Plan Materials. Upon termination, Empower shall provide the successor service provider with copies of all Plan summaries, individual Participant statements (upon request) and other forms, reports, or web content; provided, however, Empower will provide such Plan materials only to the extent designed specifically for the Plan and not deemed by Empower to be proprietary. In addition, Plan Sponsor agrees, and will require any third party to whom Plan Sponsor provides the materials to agree, to maintain the

confidentiality of all Empower materials and information, including but not limited to web content, communications material, and information on Empower's Plan Sponsor Website.

12.5 "Test" Data Transfer Files. Provide the successor service provider with two (2) full volume test extract data transfer files for the Plan. Such files will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

12.6 "Refresher" Data Transfer Files. Provide the successor service provider with one (1) full volume test extract refresher data transfer files for the Plan. Such files will be provided at a time mutually agreed upon by the parties. Control totals and standard Empower reports will accompany the files.

12.7 "Live" Data Transfer Files. Provide the successor service provider with one (1) full live data transfer file to the successor service provider in Empower standard file format for the Participant and Plan data residing on Empower administration systems as of a date mutually agreed upon by the parties. The live data file will be in the same format as the test data file or in the test data file format. Control totals and standard Empower reports will accompany the live data transfer file.

12.8 Questions about Data on Transfer Files. Provide up to 25 aggregate hours of Empower's time to answer questions about system data provided by Empower on the test data transfer files, the refresher data transfer files and the live data transfer file. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

12.9 Answering Questions. Provide up to 25 aggregate hours of Empower's time responding to questions about Plan administrative practices and communication materials used by Empower in servicing the Plan. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 25 hours.

12.10 Final Participant Valuation. Send to the successor service provider, at a mutually agreed upon date, reports of all historical files, documents and records necessary for the continuing administration and recordkeeping of the Plan in electronic form (where available) and/or paper form ("**Final Participant Valuation**"). As of the Service End Date, the Final Participant Valuation includes: (i) Current Participant indicative and financial data; (ii) Participant level reports; (iii) Plan level totals; (iv) Investment valuation statement; (v) Employee loan status report; (vi) Loan summary report; (vii) Deemed loan report; (viii) Highest outstanding loan balance report; (ix) MRD report; (x) Installment tax withholding report; (xii) On-line beneficiary data, if maintained by Empower; and (xiii) Scanned beneficiary forms, if maintained by Empower. Notwithstanding the foregoing, the parties acknowledge that the reports and information identified as Final Participant Valuation are subject to change based upon changes in plan administration and/or system requirements. Plan Sponsor acknowledges that at the mutually agreed upon date, Empower will provide only those reports applicable to the Plan and currently available from Empower's recordkeeping system.

12.11 Open Participant Case Records. Send open case records at a mutually agreed upon date, or Service End Date, if later, to Plan Sponsor or to successor service provider at Plan Sponsor's Direction.

12.12 Year-end Processing. For Services that conclude as of December 31 for a calendar year plan or the end of the Plan's fiscal year, as applicable, perform any compliance testing, government filings, or other reporting required as of that year-end. For Services that conclude as of any date other than December 31, perform any government filings for completed Services (e.g., Forms 1099-R for Participant distributions) and provide to Plan Sponsor the same year-end reports and information otherwise provided

for a calendar or fiscal year, as applicable, but only reflecting the portion of the calendar or fiscal year, as applicable, for which Services were provided.

12.13 Fees Related to Transition Services. In the event Plan Sponsor requests Empower to provide additional or extraordinary Transition Services (beyond those described in items 12.1 through 12.12 above) including, but not limited to, change in data layout, change of data elements in standard layouts, number of data transfer files, or services beyond Service End Date, Empower reserves the right to charge the Plan or Plan Sponsor, as Directed by the Plan Sponsor, for additional or extraordinary Transition Services at then-current hourly rates. Empower shall receive payment for services rendered within 30 days of invoice delivery. In the event payment is not received within the stated timeframe all Transition Services will cease until such time payment is received.

12.14 Transition Services after Service End Date. In addition to the foregoing, Empower agrees to provide the following Transition Services for ninety days following the Agreement's termination effective date ("**Service End Date**").

12.14.1 Provide up to 20 hours of Empower's time responding to questions from the Plan Sponsor or its auditor. Empower will charge the Plan or Plan Sponsor at then-current hourly rates for time spent in excess of 20 hours.

12.14.2 To the extent information and/or reporting is readily available from Empower's systems, Empower agrees to provide to the successor service provider the following Transition Services for up to 110 requests per month: (a) loan repayment information; (b) Participant account balances as of specific dates; (c) Participant account earnings and/or dividends for specific time periods; (d) distribution history information; (e) reporting or respond to other Participant account history information requests; (f) Participant account history information (excluding QDRO related information); (j) Participant Statements; (k) Duplicate Forms 1099-R; (l) Provide QDRO related account history; (m) Respond to questions regarding Plan specific processes, provided however that if the number of requests exceeds 110 in any given month, a per-request fee of $500 will be assessed.

File #: 22-0468, **Version:** 1

ADOPT A RESOLUTION APPROVING SUBMITTAL OF A GRANT APPLICATION TO THE DEPARTMENT OF WATER RESOURCES DELTA WATER QUALITY AND FISH FACILITIES PROGRAM

RECOMMENDATION

It is recommended that the City Council adopt a resolution approving submittal of a grant application to the Department of Water Resources for the Delta Water Quality and Fish Facilities Program.

It is also recommended that the City Manager be authorized to take all necessary and appropriate actions to carry out the purpose and intent of this resolution.

Summary

The Department of Water Resources (DWR) Division of Multi-Benefit Initiatives has received funding from Proposition 50, the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Program). The Program will award grant funding to agencies with projects that meet specific criteria aimed at improving the water quality of the Delta, protecting fish habitat, and managing water levels and diversion.

The Municipal Utilities Department (MUD) is requesting approval to prepare and submit a grant application for $10 million to help finance the investigation, design, and construction of a portion of the Regional Wastewater Control Facility Modifications Project (RWCF Project); and the construction of an official DWR monitoring station in the San Joaquin River at the Delta Water Supply Intake Pump Station on Empire Tract.

Staff recommends that the City Council adopt a resolution approving the submission of a $10 million grant application to the DWR Delta Water Quality and Fish Facilities Program.

DISCUSSION

Background

The Program will award grant funding to agencies with projects that meet specific criteria aimed at improving the water quality, protecting fish habitat, and managing water levels and diversion of the Sacramento-San Joaquin Delta, the largest estuary on the Pacific Coast of the United States.

Awards will be granted only to those projects with the greatest feasibility and public benefit value, and which are at least generally consistent with local and state adopted plans for Delta water quality and ecosystem enhancement.

The MUD is requesting approval to prepare and submit a grant application for $10 million. If approved, this funding will help finance the investigation, design, and construction of a portion of the RWCF Project that will include the new wastewater discharge outfall into the San Joaquin River (Eastside Outfall); and the construction of an official DWR monitoring station in the San Joaquin River at the Delta Water Supply Intake Pump Station on Empire Tract.

Present Situation

The Program application period is now open, with application packets from eligible agencies due by June 30, 2022. There are several criteria for determining eligible projects under the Program, including constructing facilities to control waste discharges that contribute to low dissolved oxygen and other water quality problems in the lower San Joaquin River and the South Delta.

If approved by the DWR, grant funding worth $10 million will finance two projects: 1) the investigation, design, and construction of the Eastside Outfall ($9.5 million); and 2) construction of a new DWR monitoring and gauging station in the San Joaquin River at the Delta Water Supply Project Intake Pump Station ($500,000). The outfall project is underway and will become part of the RWCF Project. If awarded, the grant will reimburse monies already spent on the outfall project, reduce overall Project expenditures, and lessen the burden on rate payers.

Consistent with the grant program guidelines, applicants are required to adopt resolutions authorizing the application for the Program grants and designating a representative to execute all necessary documentation.

Staff recommends that the City Council adopt a resolution approving the submission of a $10 million grant application to the Department of Water Resources Delta Water Quality and Fish Facilities Program and identifying the City Manager as the authorized representative.

FINANCIAL SUMMARY

Grant funding will be available July 1, 2022 through June 30, 2025. If approved for the Program, funding payments will be made in arrears. The outfall project is currently funded through the MUD Capital Improvement Program (CIP). The grant will reimburse investigation, design, and construction costs. The gauging station project will be funded by the CIP and approved by the City Council through the annual CIP budget process.

There is no impact to the General Fund, or any other unrestricted fund, from this action.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING SUBMITTAL OF A GRANT APPLICATION TO THE DEPARTMENT OF WATER RESOURCES DELTA WATER QUALITY AND FISH FACILITIES PROGRAM

The City of Stockton, Municipal Utilities Department is implementing the RWCF Plant Modifications Project, which includes construction of a new outfall structure on the east bank of the San Joaquin River, referred to as the Eastside Outfall; and

The City of Stockton is also considering installing an official Department of Water Resources monitoring station in the San Joaquin River at the Delta Water Supply Intake Pump Station on Empire Tract; and

Both projects meet the criteria for grant funding consideration under the Department of Water Resources Delta Water Quality and Fish Facilities Program; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. That an application be made to the Department of Water Resources' Division of Multi-Benefit Initiatives to obtain a grant under the terms and conditions of the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Wat. Code § 79500 et seq).

2. If such grant funding is awarded, to enter into an agreement, on behalf of the City of Stockton, to receive said grant funds to be used in the manner described in the grant application.

3. The City Manager, or designee, is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED June 14, 2022.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

AWARD A PROFESSIONAL SERVICES AGREEMENT TO GEOSYNTEC CONSULTANTS, INC. TO PERFORM A GEOTECHNICAL INVESTIGATION FOR THE DELTA WATER TREATMENT PLANT GROUNDWATER RECHARGE PROJECT

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Approve the filing of a Notice of Exemption No. NOE 16-22 under the California Environmental Quality Act (CEQA) for the geotechnical Investigation, (Exhibit 1 to the Resolution).

2. Approve findings pursuant to Stockton Municipal Code section 3.68.070 which support and justify an exception to the competitive bidding process.

3. Award a Professional Services Agreement to Geosyntec Consultants, Inc. of Rancho Cordova, CA in the not-to-exceed amount of $538,303 to perform a geotechnical investigation and complete a hydrogeologic characterization report for the Delta Water Treatment Plant Groundwater Recharge Project.

It is also recommended that the City Manager be authorized to take all appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

As part of the City's original water supply conjunctive use program, the Municipal Utilities Department (MUD) plans to investigate the potential development of a groundwater recharge project at the Delta Water Treatment Plant (DWTP). The conjunctive use of water supplies includes the recharge of available water into the groundwater basin that is stored and later pumped in dry years or during extended droughts.

The Phase 1 development of a groundwater recharge project begins with investigating the soil characteristics at the site of the proposed recharge project. To collect this hydrogeological information, the MUD solicited proposals from qualified geotechnical engineering firms. The firms were asked to provide professional service proposals for conducting a geotechnical investigation and preparing a hydrogeologic characterization report on a 70-acre field at the DWTP site. The data and conclusions from this study will be used to confirm the feasibility of constructing a groundwater recharge project. This project will be receiving State funding feasibility and future construction through the Department of Water Resources Sustainable Groundwater Management Act (SGMA) Round 1 grant program ($300,000) and the Integrated Regional Water Management Program ($2,000,000).

If the geotechnical investigation demonstrates the project is feasible, Phase 2 will include engineering design, environmental review, permitting, funding and construction. In addition, the development and future construction of the recharge basin project will help to balance groundwater levels in the critically-over drafted Eastern San Joaquin Groundwater Sub-basin to meet the Region's Sustainable Groundwater Management Act (SGMA) requirements.

On January 7, 2022, the City advertised the Request for Proposal (RFP) for the Geotechnical Investigation and Hydrogeologic Characterization Report of the Delta Water Treatment Plant groundwater recharge project. Seven proposals were received and evaluated. Staff recommends that the City Council adopt a resolution awarding a Professional Services Agreement to Geosyntec Consultants, Inc. of Rancho Cordova, CA, in the not-to-exceed amount of $538,303 for a Geotechnical Investigation and Hydrogeologic Characterization Report for the DWTP groundwater recharge project.

DISCUSSION

Background

In 2012, the MUD dedicated the Delta Water Supply Project (DWSP). This project was a key component of the City's conjunctive use program to help balance groundwater levels in the Eastern San Joaquin Groundwater Sub-basin and has provided supplemental surface water supply to the City of Stockton's water customers. The project included a river diversion and pumping station to convey water to the 30-million gallon per day water treatment plant located along Lower Sacramento Road north of 8-Mile Road between the City of Stockton and the City of Lodi.

The DWSP was designed, in part, to protect the groundwater basin through conjunctive management of water resources and to improve the City's water supply reliability portfolio. The next phase of the DWSP is to develop additional conjunctive use capability with the investigation, design, and construction of a groundwater recharge project on 70 acres of the available land near the treatment plant. This project would make use of water available under the City's Water Right Permit 21176, contract supplies from Woodbridge Irrigation District (WID), and possibly stormwater runoff from the City of Lodi as a direct groundwater recharge and recovery project. Available water supply that is recharged into the groundwater basin can be stored and later pumped during dry years or extended droughts.

Before a recharge basin is designed and constructed, professional services are needed to conduct geotechnical investigations and hydrogeologic characterization of the soil profiles at the DWTP site. The purpose of this effort is to conduct a subsurface investigation at the DWTP site to determine soil profile characteristics for suitability of infiltrating surface-applied water for direct recharge. Information acquired and conclusions from this effort will be summarized into a feasibility report.

Present Situation

On January 7, 2022, the City advertised an RFP for a geotechnical investigation and a hydrogeologic characterization report of the DWTP groundwater recharge project. On March 17, 2022, seven proposals were received from the following Consultants:

Consultant	Location	Price
GEI Consultants, Inc.	Rancho Cordova, CA	$527,524
Geosyntec Consultants, Inc.	Rancho Cordova, CA	$538,303
Hazen and Sawyer	Sacramento, CA	$356,966
Kleinfelder, Inc.	Stockton, CA	$256,090
Stantec Consulting Services, Inc.	Fresno, CA	$335,019
West Yost & Associates, Inc.	Davis, CA	$489,384
Woodard & Curran	Sacramento, CA	$718,565

A Selection Committee comprised of MUD staff evaluated and ranked all proposals based on each Consultant's understanding of the work, experience with similar work, qualifications of proposed team, project approach, and cost. Geosyntec Consultants, Inc. met or exceeded the requirements and was found to be the most qualified based on the RFP criteria. Furthermore, Geosyntec Consultants, Inc. has over 30 years of experience in providing hydrogeologic services in California.

Staff recommends that the City Council adopt a resolution to award a Professional Services Agreement to Geosyntec Consultants, Inc. in the not-to-exceed amount of $538,303 for geotechnical investigation and hydrogeologic characterization report of the DWTP groundwater recharge project (Exhibit 2 to the resolution).

Findings

Pursuant to Stockton Municipal Code section 3.68.070, City Council may approve findings which support and justify an exception to the competitive bidding process. The following findings support such an exception:

1. A strict cost-competitive basis for the selection of a professional may lower the quality and thoroughness of the services provided.

2. Use of the RFP process is appropriate for this Professional Services Agreement because it relies on the evaluation of professional qualifications and performance as the basis for the selection of a vendor, which is a typical practice for this type of work. Use of these criteria resulted in the selection of a vendor with over thirty years of hydrogeologic experience in California.

3. Considering the size, complexity, and schedule requirements of the project, the City does not have sufficient staff resources to monitor and ensure compliance of the project in a cost-effective and timely manner.

4. The City negotiated the contract following the solicitation of competitive proposals in accordance with SMC section 3.68.070.A.3.

The recommended resolution will award a Professional Services Agreement to Geosyntec Consultants, Inc. in the not-to-exceed amount of $538,303 for geotechnical investigation and hydrogeologic characterization of the DWTP groundwater recharge project.

ENVIRONMENTAL CLEARANCE

It has been determined that this project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) guidelines as specified under Article 19, Section 15306, Class 6 of the CEQA guidelines because it consists of soil borings for a geotechnical investigation and is for the purpose of basic data collection activities which would not result in a serious or major disturbance to an environmental resource. In addition, the proposed project is consistent with the 2040 Stockton General Plan (Land Use Policy 6.3) because it improves existing utility services to ensure that all neighborhoods have access to well-maintained public facilities and utilities that meet community service needs.

LOCAL EMPLOYMENT ORDINANCE

On September 1, 2009, the City Council adopted a Local Employment Ordinance establishing a goal that 50 percent of the workforce on public works projects of at least $100,000 be residents of the City of Stockton. The contract amount for this project is more than $100,000 and is subject to the Local Employment Ordinance.

FINANCIAL SUMMARY

In 2021, the MUD applied for grant funding for project feasibility and future construction under the Department of Water Resources Sustainable Groundwater Management Act (SGMA) Round 1 grant program and the Integrated Regional Water Management Program. The MUD has been informed by the State that the project will be receiving $300,000 and $2,000,000 from these programs, respectively.

There are sufficient funds available in the MUD Capital Improvement Projects under Project Number UH21005 to award the PSA in the amount of $538,303 to Geosyntec Consultants, Inc. of Rancho Cordova, for geotechnical investigation and hydrogeologic characterization report for the DWTP groundwater recharge project.

There is no impact to the General Fund, or any other unrestricted funds, from this action.

Resolution No.

STOCKTON CITY COUNCIL

AWARD A PROFESSIONAL SERVICES AGREEMENT TO GEOSYNTEC CONSULTANTS, INC. TO PERFORM A GEOTECHNICAL INVESTIGATION FOR THE DELTA WATER TREATMENT PLANT GROUNDWATER RECHARGE PROJECT

In 2012, the Municipal Utilities Department (MUD) dedicated the Delta Water Supply Project (DWSP) to provide a supplemental surface water supply to the City of Stockton and protect the groundwater basin through conjunctive management; and

The project included a river diversion and pumping station, 12 miles of 54-inch raw water pipeline, and a 30 million gallon per day water treatment plant (DWTP), on a 130-acre parcel on Lower Sacramento Road; and

The next phase of the DWSP is the development of additional conjunctive use capabilities through groundwater recharge and storage on a 70-acre site located at the DWTP; and

A groundwater recharge project will make use of water available under the City's Water Right Permit 21176, contract supply from Woodbridge Irrigation District, and potentially other water sources; and

The development of a groundwater recharge project begins with investigating the soil profile characteristics of the specific area that will be used for recharge; and

On January 7, 2022, the City advertised an RFP for a geotechnical investigation and a hydrogeologic characterization report of the DWTP groundwater recharge project; and

The Municipal Utilities Department staff recommends an award of a professional service agreement to Geosyntec Consultants, Inc. in the not-to-exceed amount of $538,303; and

The project is in conformance with the City's General Plan and is exempt from the requirements of the California Environmental Quality Act (CEQA) as specified under Article 19, section 15330(b)(5), of the CEQA Guidelines; The project is in conformance with the Stockton General Plan based on Policy Land Use – 6.3; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Approve the filing of the Notice of Exemption No. NOE 16-22 under CEQA for the geotechnical investigation, a copy of which is attached as Exhibit 1 and incorporated by this reference.

2. The City Council approves the following findings pursuant to Stockton Municipal Code section 3.68.070 in support of an exception to the competitive bidding process:

a. A strict cost-competitive basis for the selection of a professional may lower the quality and thoroughness of the services provided.

b. Use of the RFP process is appropriate for this Professional Services Agreement because it relies on the evaluation of professional qualifications and performance as the basis for the selection of a vendor, which is a typical practice for this type of work. Use of these criteria resulted in the selection of a vendor with over 30 of hydrogeologic experience in California.

c. Considering the size, complexity, and schedule requirements of the project, the City does not have sufficient staff resources to monitor and ensure compliance of the project in a cost-effective and timely manner.

d. The City negotiated the contract following the solicitation of competitive proposals in accordance with SMC section 3.68.070.A.3.

3. A Professional Services Agreement to perform a geotechnical investigation and hydrogeologic characterization report for the Delta Water Treatment Plant Groundwater Recharge Project, in the not-to-exceed amount of $538,303, between the City of Stockton and Geosyntec Consultants, Inc. of Rancho Cordova, CA is hereby awarded, and the City Manager is authorized and directed to execute the same, a copy of which is attached as Exhibit 2 and incorporated by this reference.

4. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED June 14, 2022.

NOTICE OF EXEMPTION PURSUANT TO PUBLIC RESOURCES CODE SECTION 21152(B) AND CALIFORNIA CODE OF REGULATIONS TITLE 14, SECTION 15062

PROJECT DATA
Project Title: The Delta Water Treatment Plant Groundwater Recharge Improvement Project, Project No. UH21005

CEQA Exemption File No.: NOE 16-22
Applicant: City of Stockton - Municipal Utilities Department
Project Description/Location: The Municipal Utilities Department (MUD) is developing a groundwater recharge and recovery project at the Delta Water Treatment Plant (DWTP).

DETERMINATION/FINDING OF EXEMPTION
The above-described activity/project is exempt from the environmental assessment requirements of the California Environmental Quality Act (CEQA) pursuant to the following section(s) of the State CEQA Guidelines (California Code of Regulations, Title 14):

☐ The activity is not a "project" as defined in Section 15378.
☐ The activity is exempt under the "general rule" that CEQA applies only to projects which have the potential for causing significant environmental effects, as specified in Section 15061(B)(3).
☐ The project has been granted a "Statutory Exemption" under Article 18 and, specifically, by Section(s): _____.
☒ The project has been granted a "Categorical Exemption" under Article 19 and, specifically, by Section: 15306, Class 6.

BASIS FOR FINDING OF EXEMPTION
☐ The activity does not qualify as a project and/or clearly could not have a significant effect on the environment and, therefore, CEQA does not apply.
☒ The activity constitutes a discretionary project under the City's jurisdiction and qualifies as a project which has been determined not to have a significant effect on the environment and, therefore, is exempt from the provisions of CEQA under the above-noted statutory or categorical exemption(s).

EXHIBIT A

STATEMENT OF WORK

1. Project Objectives

The purpose of this project is to perform a geotechnical investigation, evaluate the feasibility, provide planning, and to develop a feasibility study and report for the Delta Water Treatment Plant (DWTP) Groundwater Recharge Basin Improvements Project. The geotechnical investigations will establish the subsurface soil characteristics and evaluate if they have the likelihood of supporting a successful groundwater recharge project.

2. Project Scope

Provide professional services to conduct a geotechnical investigation and hydrogeologic characterization of a portion of the DWTP site for direct groundwater recharge and recovery potential. The intent of this effort is to conduct a subsurface investigation at the DWTP site to:

- Determine soil profile characteristics for suitability of infiltrating surface-applied water for direct recharge
- Subsurface lithology
- Groundwater levels
- Potential storage volume (volume of water that can be recharged and recovered while avoiding local impacts)
- Specific yield
- Hydraulic conductivity
- Water quality

Data acquired and conclusions from this work effort will be used to confirm the feasibility of a direct DWTP site recharge project. Engineering design, environmental review, water rights and project funding will be the focus of a future project phase.

3. Specifications

The City uses ArcGIS. The data natively is in California State Plane grid 3 EPSG 2227 – units are in feet. The GIS system does not adhere to a vertical system.

The horizontal and vertical coordinate system and datums will be based on the North American Datum of 1983 (NAD83) converted to the California Grid

Coordinate System of 1983, Zone 3 (CA83111-F) as referenced by the City of Stockton Horizontal Control System.

The vertical datum will be based on the National Vertical Datum of 1929 (NGVD29) as referenced by available City of Stockton 1996 Local Adjustment (COS96) benchmarks.

4. Major Deliverables

- Technical Memorandum Summarizing results of Literature Search
- Meetings to discuss project and results
- Topographic Survey in feature class format within a file geodatabase using NAD83 State Plane, California Zone 3 (feet)
- Summarizing results of utility locations and historical land use
- Geophysical survey analysis report, including lithologic and stratigraphic data interpretations
- Final Work Plan
- Drilling permits
- Model Documentation Report
- Feasibility Report

5. Tasks That Support the Deliverables

Task 1: Project Management

The Consultant shall provide comprehensive project management services to include budget and schedule maintenance, resource allocation, communication management and quality assurance and quality control of project deliverables.

Consultant shall establish a regional geotechnical setting for the DWTP groundwater recharge and recovery site by reviewing and referencing publicly sourced geotechnical information including existing well and groundwater monitoring locations, groundwater elevations, groundwater flow direction and groundwater quality data to be used to plan the geotechnical and hydrogeologic approach and site groundwater recharge and recovery evaluation.

Task 2: GIS-based Survey, Utilities Evaluation and Site Assessments

Provide all field survey work necessary to support the subsurface investigation effort. Survey and base mapping of the project site shall be prepared in US Customary English units by a California licensed Land Surveyor in

accordance with the City guidelines in Geographical Information System (GIS) format.

- Utilities Research
- Coordinate the proposed geotechnical work with existing field conditions and utilities.
- Site Assessments

Research property history for any prior site assessments to determine any prior site uses that may impact the geotechnical work or site suitability.

Task 3: Surface Geophysical Survey

Consultant shall conduct a surface geophysical survey of the DWTP recharge pond sites utilizing an Electrical Resistivity Profiling (ERP) method.

The data shall provide a Geophysical survey analysis report, including lithologic and stratigraphic data interpretation.

Task 4: Preliminary Geotechnical Investigation Approach and Planning Activities

Consultant shall provide a draft work plan and schedule demonstrating the approach to thegeotechnical investigation that will document subsurface soil conditions over the site.

The preliminary geotechnical investigation approach and planning activities must provide adequate detail regarding the suitability of the soil matrix to support the hydrogeologic characterization effort and ultimately inform the potential of the DWTP site to support a groundwater recharge and recovery operation.

Task 5: Final Geotechnical Plan

Upon review and approval of City staff, Consultant shall finalize the geotechnical investigation plan and schedule to project completion.

Task 6: Permits

Consultant is responsible for acquiring the necessary regulatory approvals and required permits. Submit applications and pay associated fees in advance of the geotechnicalinvestigation.

Task 7: Geotechnical Investigation

- Conduct exploratory test borings in accordance with the Final Geotechnical Plan.
- Maintain a boring log of the soils encountered for visual examination, classification, and laboratory testing.
- Conduct field penetration tests to evaluate relative density, strength, compression, and percolation characteristics of the native soils.
- Submit soil and groundwater samples to a certified laboratory for testing to confirm the following characteristics:
  - Density
  - Gradation
  - Strength
  - Compression
  - Corrosion Characteristics
  - TDS
  - Nitrates
  - TOC (THM potential)
  - Other recommended analyses not listed here

Task 8: Hydrogeologic Characterization

The purpose of the hydrogeologic characterization is to assess the ability of the site to accept, store and recover stored surface water. This characterization shall include the following:

- Expected percolation rate
- Specific yield estimate
- Hydraulic conductivity
- Available storage estimate
- Recovery well production rates (location and number of recovery wells)
- Existing groundwater quality
- Groundwater flow direction

Task 9: Feasibility Report

This task will compile results of the geotechnical and hydrogeologic characterization into a Groundwater Recharge and Recovery Project Feasibility Report. This report shall confirm the following:

- Suitability to recharge surface-applied water in terms of feet/day over the site and an estimate of the annual quantity of water capable of being recharged to the underlying groundwater basin
- Potential for groundwater recovery in terms of million gallons per day or acre-feet per year
- Recommendation for monitoring groundwater movement to determine the volume of water recharged and available for recovery without negatively impacting the groundwater basin and/or nearby private (or public) wells
- Preliminary basin layout that considers the existing surface water delivery locations and how water is best distributed and managed across the site
- Environmental clearance requirements
- Permitting requirements
- Operation and maintenance recommendations
- Estimate of probable design and construction cost

6. Notices

Pursuant to Exhibit C – General Terms and Conditions, Paragraph 15 – Notices, the mailing address for all required notices is as follows:

Contractor: Geosyntec Consultants, Inc
3043 Gold Canal DR, Suite 100
Rancho Cordova, CA 95670

City: City of Stockton
Attn: City Manager
425 N. El Dorado Street
Stockton, CA 95202

7. Key Personnel

Danny Trejo

Program Manager III, Water Division

11373 N Lower Sacramento Rd

Lodi, CA 95242

8. Option to Renew.

There is no option to renew.

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s).

Exhibit B:
Insurance Requirements for Professional Services

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.
(Not required if Contractor provides written verification it has no employees)

4. **Professional Liability** (Errors and Omissions) Insurance appropriate to the Contractor's profession, with limit no less than **$2,000,000** per occurrence or claim, $2,000,000 aggregate. (If Claims-made, see below.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No

representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation

Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the City of Stockton**.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (note – applicable only to professional liability)

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided *for at least five (5) years after completion of the contract of work*.

3. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *five (5)* years after completion of contract work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: "S*ubcontractors hired by Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request."* Contractor shall provide proof of such compliance and verification to the City upon request.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

City of Stockton Attn: City Risk Services
400 E Main Street, 3rd Floor – HR
Stockton, CA 95202

EXHIBIT C

GENERAL TERMS AND CONDITIONS

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation**. City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work**. All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work**. All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree

to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. Timeliness. Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. Changes. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. Amendment. No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. Contractor's Status.

9.1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's

control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor’s personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees, agents, and volunteers, against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, arising from all acts or omissions of contractor or its officers, agents, or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's sole negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. **Licenses, Certifications and Permits**. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. **Records and Audits**. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. **Confidentiality**. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. **Conflicts of Interest**. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. **Waiver**. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. **Governing Law**. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. **No Personal Liability**. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statue, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). http://www.dol.gov/oasam/regs/statutes/titlevi.htm. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D

PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 “Deliverable” means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions (“GTC”) Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor’s agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid monthly, in arrears on a not to exceed

basis, based upon the rates set forth in Exhibit E attached hereto and made a part of this Agreement. Contractor may vary the compensation for each task in Exhibit E provided that the total project compensation listed in Exhibit E and the Standard Agreement is not exceeded.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

EXHIBIT E

COMPENSATION SCHEDULE

The Contractor shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. Project Price

1.1 The maximum the Contractor shall be paid on this Agreement is $__538,303_____ (hereafter the "not to exceed" amount). The "not to exceed" amount includes all payments to be made pursuant to this Agreement, including City approved reimbursable expenses, if any. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit D section 4 or other requirements of this Agreement.

1.2 Standard Reimbursable Items: Only the reimbursable items identified in Exhibit A, C, and D (Compensation), shall be compensated to the Contractor. Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii below shall be attached to the invoice submitted to the City for reimbursement. Payments shall be based upon work documents submitted by the Contractor to the City and accepted by the City as being satisfactory to City's needs. The City shall not pay a markup on any of the items listed in i, ii or iii. Additionally, items such a telephone, fax, postage or freight are already included in the billable hourly rate. Contractor shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services:

i. Expenses, fees or charges for printing, reproduction or binding of documents at actual costs with no markup added to the actual cost.

ii. Any filing fees, permit fees, or other fees paid or advanced by the Contractor at actual costs with no markup added to the actual cost.

iii. Travel expenses shall be reimbursed in accordance with the City's travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost.

1.3 The Contractor shall be entitled to receive payments for its work performed pursuant to the Agreement. The City will pay Contractor based on invoices for acceptable work performed and approved until the "not to exceed" amount is reached. Thereafter, Contractor must complete services based on the Agreement without additional compensation unless there is a material change to the Statement of Work and Scope by a written Amendment.

1.4 If work is completed before the "not to exceed" amount is reached, the Contractor's compensation will be based on the Contractor's invoices previously submitted for acceptable work performed and approved.

1.5 Subcontractor Costs: Compensation for subcontractors shall be limited to the same restrictions imposed on the Contractor. Maximum markup Contractor may apply to subcontractor fees, minus reimbursable expenses, shall not exceed __0___%.

2. Task Price. Below is the price for the services and reimbursable expenses as described in Exhibit A of this Agreement.

Not Applicable

3. Additional Fees. Should an amendment to the Agreement be issued for additional services that require the following items, the unit prices are as follows:

Not Applicable

5. Invoice to Address. Each invoice submitted shall identify the specific task(s) listed in Exhibit A, the contract number (purchase order number), and the completed work product/deliverable.

Invoices are to be submitted electronically to the City's Vendor Self Service portal at http://ww1.stocktonca.gov/ or emailed directly to mudfinance@stocktonca.gov.

Invoices may also be mailed to:
Delta Water Treatment Plant (MUD)
Attn: MUD Finance
2500 Navy Drive
Stockton, CA 95206

EXHIBIT F

TIMELINE

1. Consultant shall complete the requested services identified in Exhibit A as follows:

1.1 **TIMELINE FOR COMPLETION OF WORK**

1.1.1	**Task 1**	**August 2022**
1.1.2	**Task 2**	**August 2022**
1.1.3	**Task 3**	**August 2022**
1.1.4	**Task 4**	**September 2022**
1.1.5	**Task 5**	**September 2022**
1.1.6	**Task 6**	**November 2022**
1.1.7	**Task 7**	**February 2023**
1.1.8	**Task 8**	**February 2023**
1.1.9	**Task 9**	**February 2023**

Proposal Fee

We propose to complete the scope of work on a Time and Materials basis, Not to Exceed without prior authorization.

Attached is:

1) Pricing Summary
2) Breakdown by Task and Other Direct Costs
3) Geosyntec Standard Rate Schedule

Assumptions

Task 1

- Project Administration will include 6-hours per month each for PM and Administrative Staff.
- Quarterly progress reports will not be revised
- The TM will be revised based on one set of comments provided by the City.
- The TM will be provided in electronic (pdf) format
- Two meeting will be attended by Geosyntec Project Manager and 2 Professional Staff.
- Meetings will be by teleconference and will be 2-hours in duration
- 3 hours of preparation time will be required by Project Manager and one Professional Staff for each meeting

Task 2

- Reports reviewed for Site Assessment will be provided by the City.
- The TM will be revised based on one set of comments provided by the City.
- The TM will be provided in electronic (pdf) format.
    - A vertical benchmark and horizontal control with data exist and are provided within one-half mile of site (or can be approximated)
    - Dimensions are approximated based on a 80-acre square
    - The survey does not include property boundary, easements or other legal property information
    - The survey does not include new aerial mapping
    - There are no unique surveying or GIS guidelines required by the City
    - Three trips will be made to site
    - No design or drafting for basin, borings or other efforts are included
    - Access is provided when needed for performing work

Task 3

- The City will provide access to the Site.
- The survey will be completed within seven (7) 8-hour days.
- Geophysical report will be revised based on one set of comments provided by the City
- The geophysical report will be provided in electronic (pdf) format.
- A hard copy report will not be provided.

Task 4

- The Draft Work Plan will be revised based on one set of comments provided by the City.
- The Draft Work Plan will be provided in electronic (pdf) format.
- Two meetings will be attended by Geosyntec Project Manager and 2 Professional Staff.
- Meeting will be by teleconference and will be 2-hours in duration.

- 3 hours of preparation time will be required by Project Manager and one Professional Staff for each meeting

Task 5

- Two hard copies of the Final Work Plan will be provided to the City. The Final Work Plan will also be provided in electronic (pdf) format.

Task 6

- Drilling permits will be obtained for 5 CPT points, 4 soil borings, 1 nested monitoring well, and 1 pumping well

Task 7

Field Setup Coordination

- The drilling contractor will prepare their own site-specific healthy plan.
- No revisions to the field safety plan will be required.
- The Site visit will be completed within one (1) 8-hour day.

CPT Survey

- Total depth of CPT points will be 90 feet bgs.
- The City will provide access to the Site.
- The CPT survey will be completed within four (3) 10-hour days.
- Up to 6 pore pressure tests will be conducted at each CPT location

Soil Borings

- Four (4) soil borings will be drilled to 90 feet bgs.
- Two downhole permeability tests each will be conducted in the soil borings.
- Drilling and testing will be completed within four (4) 10-hour workdays.
- Costs do not include delays encountered due to weather conditions.
- Water needed for drilling activities will be provided by the City and located within 0.5 miles of the Site.
- Drill cuttings will be spread at the Site.
- No hazardous wastes will be generated

Well Installation

- One (1) Nested monitoring well will be completed in one soil boring consisting of screen intervals at three separate depths to a depth of 90 feet bgs.
- The well completed for pumping tests will consist of 6-inch PVC casing and will be completed at a depth of 90-feet bgs.
- Drilling and development of the nested monitoring well and pumping well will be completed within 5 10-hour workdays.
- All work will be conducted during normal business hours.
- Costs do not include delays encountered due to weather conditions.
- Water needed for drilling activities will be provided by the City and located within 0.5 miles of the Site.
- Four vented pressure transducers with cables will be purchased for the step-test and pumping test described below.

- Drill cuttings will be spread at the Site and purge water from development and step test will be discharged at the Site.
- No hazardous wastes will be generated

Aquifer Test

- Transducers will be placed in observation wells (3) and pumping well at least one week before constant rate test to assess regional water level changes.
- The aquifer test will be 8-hours in duration.
- Water will be discharged directly to the ground surface.
- The constant rate test including recovery will be completed in 1 10-hour day.

Groundwater, Soil, and Source Water Sampling

- Including quality control samples, a total of 15 soil samples will be submitted for laboratory testing.
- Including quality control samples, a total of 20 water samples will be submitted for laboratory testing.

Task 8

- The Model Documentation Report will be revised based on one set of comments.

Task 9

- The Feasibility Report will be revised once based on one set of comments from the City.
- A meeting will be conducted to present the results of the Report
- The meeting will be attended by the PM and 2 professional staff.
- The meeting will be 3-hour in duration and conducted at the City offices
- A total of 4-hours each for preparation of meeting material will be required by the PM and one professional staff.

Proposal Fee Summary

TASK 1 - PM and Review		Labor Hours	Labor	Direct Expenses	Cost
Task 1.1	Project Management	75	$13,830	$0	$13,830
Task 1.2	Data Review and Compilation	29	$5,176	$117	$5,293
Task 1.3	TM	49	$7,789	$0	$7,789
Task 1.4	Meetings	29	$5,670	$117	$5,787
	Total Task Budget Authorization Request	**153**	**$32,465**	**$234**	**$32,699**

TASK 2 - GIS, Utilities, and Site Assessment		Labor Hours	Labor	Direct Expenses	Cost
Task 2.1	GIS-Based Topo Survey	13	$2,419	$36,689	$39,108
Task 2.2	Utility Survey	20	$3,388	$59	$3,447
Task 2.3	Site Assessments	34	$6,472	$30	$6,502

March 17, 2022

Ms. Susan Garcia
City of Stockton, Office of the City Clerk
425 North El Dorado Street, First Floor
Stockton, CA 95202-1997

Subject: **Proposal for Professional Services for Delta Water Treatment Plant Groundwater Recharge Improvements Project**

Dear Ms. Garcia,

Geosyntec Consultants, Inc. (Geosyntec) appreciates the opportunity to submit this proposal to the City of Stockton (City) to provide Delta Water Treatment Plant (DWTP) groundwater recharge improvement services. We understand that the City requires feasibility, planning, and preliminary design services for the DWTP Groundwater Recharge Basin Improvements Project. Geosyntec understands the importance of having a defendable characterization of recharge potential to confirm that the proposed DWTP recharge basin is capable of successfully recharging groundwater to the underlying aquifers and future scopes of work such as filing for an Underground Storage Supplement permit can begin. This proposal was prepared in accordance with the Request for Proposals (RFP) issued on January 7, 2022, and subsequent addenda. Forms acknowledging receipt of the addenda are provided in Appendix 1.

After careful review of the scope of work, Geosyntec has crafted a forward-thinking approach that will meet the City's needs for this project but also provide elements that will be needed in the future. Geosyntec will serve as the prime and has engaged vendors for various services. These vendors are:

Vendor	Task(s)	Service(s)
Gregg Drilling	7	Sonic Drilling and Cone Penetrometer Test (CPT)
AAX Engineering LLP	2	Surveying; Utilities
NORCAL Geophysics	2, 7	Geophysics
Fruit Growers Laboratory, Inc.	7	Laboratory Services

These vendors have worked with Geosyntec on dozens of projects. In the Executive Summary, we will highlight the project team, capabilities, and experience this team will bring to the City project.

Main Point of Contact	Authorized to Bind the Firm
Joseph "Joe" Turner, Project Manager	**Amer Hussain, PE,** Principal-in-Charge
3043 Gold Canal Dr. Suite 100	1111 E. Herndon Avenue

Geosyntec is not subject to prevailing wage requirements and meets the insurance requirements. Our insurance coverage meets or exceeds the requirements. Geosyntec subcontractors will comply with prevailing wage requirements for this project.

Sincerely,

Joe Turner, PG, CHG
Proposed Project Manager

Amer Hussain, PE
Principal-in-Charge

a. Executive Summary

Established in 1983 as an employee-owned corporation, Geosyntec has grown to comprise a staff of more than 1,600 engineers, geologists, scientists, other technical professionals, and project support staff located in more than 80 offices throughout the United States (U.S.).

Geosyntec has strong water resource capabilities in the western U.S., with over 130 water resource professionals working across varied specialties in recharge assessments, groundwater, surface water, stormwater, and water treatment. We have an internal working group that focuses on how these core components of water resources can combine and interact to help public and private sector clients sustainably manage water over the long-term.

Our project team is composed of experts in sustainable groundwater management from hydrogeology, engineering, and policy perspectives. We are well versed with the various methods to assess groundwater recharge projects for providing cost-effective feasibility, planning, and preliminary design services on individual projects and offer the following advantages:

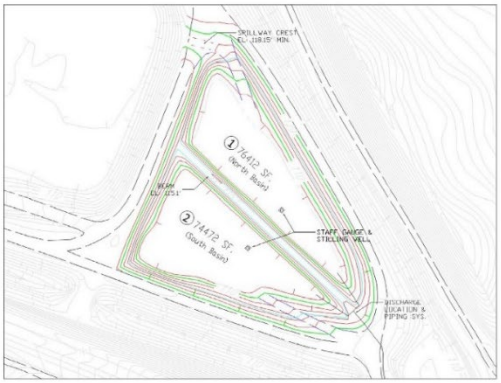
A responsive team: Joe Turner, PG, CHG, will serve as the project manager and act as the single point of contact for the project. He is a California Professional Geologist and Certified Hydrogeologist with over 35 years of experience managing and directing similar projects. Joe will be supported by Amer Hussain, PE, Principal-in-Charge. Mr. Hussain will ensure that the project has the resources to successfully execute the scope of work. Periodically, he will check in with the City to ensure that we are meeting your expectations.

Mr. Turner, as project manager, will be responsible for the overall project technical elements, schedule, and budget. He is supported by qualified leads for each task. Mr. Turner will manage the subcontractors to support services required to execute this project.

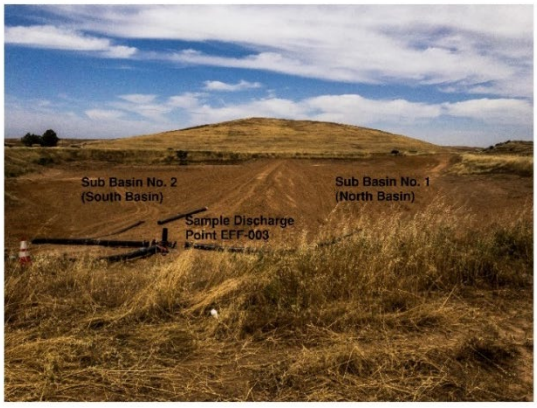
This project will be primarily served out of our Sacramento office to enable frequent face-to-face interaction and the ability to act swiftly to accommodate evolving project needs.

Expertise: Our proposed team has successfully worked together on similar projects in Northern California and greater Central Valley area and is committed for the performance of this project. Our proposed Project Manager, Joe Turner, PG, CHG, has overseen similar projects including the assessment, design, pilot testing, permitting, and operation of groundwater infiltration basin at Sacramento County's Kiefer Landfill, the $1,600,000 Lower Tuscan Aquifer Monitoring, Recharge, and Data Management Project and the proof-of-concept feasibility assessment for a flood-managed aquifer recharge (Flood-MAR) project for the Sacramento Area Flood Control Agency.

Our proposed Project Director and Civil Engineer, Amer Hussain, PE and Technical Advisor Bob Anderson, LHG,



Infiltration Basins grading plan



Infiltration basin located at Sacramento County's Kiefer Landfill. Geosyntec team members, Joe Turner, Mike van den Enden, and Craig Riddle were responsible for the design, pilot testing, and assistance with permitting with the Water Board for full-scale operation. These small 2-acre basins were documented to be able to handle more than 4 acre-feet per day of continuous discharge. Site was awarded the Outstanding Waste Management Award from the American Society of Civil Engineers Sacramento Section.

CWRE, completed a pilot test and feasibility analysis for an aquifer storage and recovery well that has many of the same issues that will be encountered for this project including demonstrating that infiltrated water will not impact nearby supply wells. Amer Hussain, PE supported by Joe Turner, PG, CHG have also recently completed a feasibility assessment of a sixty acre property proposed for use as an infiltration basin in Tulare County. This work included a literature search to assess water quality, potential regional effects from recharge, and completion of soil borings and infiltration testing to assess the suitability of the on-site soils for recharge.

Team members Brandon Steets, PE and Scott Struck, PhD are assisting the California State Water Resources Control Board in the development of statewide standards for dry wells and their use in infiltration projects. These structures may become an important component of the overall design of the recharge basin to allow water to bypass low permeability sediments that are known to occur within the shallow surface. Partnered with the Department of Energy's Lawrence Berkley National Laboratory and the United States Bureau of Reclamation and Geological Survey, Brandon and Scott have also developed the use of electrical resistivity tomograph (ERT) sensors for assessing the pathways of recharge through the vadose zone.

Site Knowledge: Arthur Forma, PG, CEG, CHG, EIT and his team have been working for over 10 years on groundwater issues at the nearby Lincoln Center site (more information about this project may be found on page 4). The project has included development of a detailed hydrogeologic conceptual model used to assess aquifer properties, soil permeabilities, fluid migration pathways from the surface to the vadose zone, groundwater quality, and potential effects on nearby supply wells from groundwater extraction wells. They have also designed and installed groundwater extraction wells that provided additional information on the aquifer properties in the area. Joe Turner assisted with the development and design of future groundwater monitoring networks that were included in the Eastern San Joaquin Groundwater Basin Groundwater Sustainability Plan (GSP) and has also published papers describing the makeup of the geologic formations that exist beneath the DWTP and how to recognize these formations during the drilling of soil borings.

Long-Range Planning: Geosyntec has been assisting clients with a broad range of issues related to groundwater resources and mechanisms for recharge including initial assessments, pilot testing, water market development, funding, permitting, and satisfying requirements of California's Sustainable Groundwater Management Act (SGMA). From this experience, we are well aware that successful planning during feasibility assessments requires foresight for future portions of the project so that appropriate data and conceptual designs take into account future considerations and portions for the project. For example, our proposed approach for data collection considers the full cycle of the project, including long-term and full-scale operation and maintenance, and analysis for future proposal solicitation packages to obtain grant funds for project construction.

High-Quality Deliverables: Geosyntec is known for providing our clients with the highest quality of service from draft preparation and filing to public meeting support. We understand the need to work closely with the City and stakeholders when finalizing a deliverable and will maintain direct contact with your team to provide accurate, high-quality project deliverables.

Geosyntec is confident that the experience of the team outlined above and in the following pages will provide the City of Stockton with a unique group of individuals that can perform the requested scope of services for a successful assessment of the DWTP proposed recharge basin.

Team Performance References

South Fork Kings GSA Aquifer Storage and Recovery Pilot Test

South Forks Kings Groundwater Sustainability Agency

Kings County, CA

Project Budget: $311,496

Completion Date: March 2022

Name: Charlotte Gallock
Title: Manager of Water Resources, Kings River Conservation District
Email: cgallock@krcd.org
Phone: (530) 307-7934

Services Provided:

- Preparation of Work Plan
- Permitting
- Aquifer Testing and Analysis
- Groundwater Recharge and Recovery
- Assessment on effects on Nearby Groundwater Wells
- Modeling
- Water Quality Assessment

Project Description

As part of the Tulare Lake Subbasin's GSP implementation, Geosyntec conducted an Aquifer Storage and Recovery (ASR) pilot test in an existing active irrigation supply well within the South Fork Kings GSA (SFKGSA). This GSA has poor soils that are not amenable to surface infiltration, and the objective of the test was to evaluate the potential for direct injection as a method for developing groundwater storage using excess surface water when it is available. The test involved comprehensive monitoring of water levels and water quality and was designed to be compatible with typical irrigation operations in the area. Twenty-six million gallons of water was injected into the aquifer, stored for 45 days, and then recovered for irrigation.

Geosyntec's Scope of Services

Geosyntec was retained by the South Forks Kings GSA to design and complete a pilot test for ASR using an existing active irrigation supply well. The goal of the pilot test was to demonstrate that active irrigation wells could be used for ASR so that SFKGSA could develop an expanded ASR program for the basin. Geosyntec prepared a work plan for submittal and approval of the pilot test to the Central Valley Regional Water Quality Control Board (CVRWQCB) and Division of Drinking Water and obtained an Underground Injection Control permit from the United States Environmental Protection Agency. Pre-pilot test work included identifying nearby supply/domestic wells, water sampling and analysis of groundwater and source water to be used for recharge, performance of aquifer tests to collect aquifer parameters and assess interactions within aquifer zones where nearby wells are located, and groundwater modeling analysis to evaluate the influence of injecting, storing, and extracting groundwater. Injection began on June 21, 2021, using water obtained from a nearby canal and continued until August 1, 2021. The injected water was stored for 45 days then recovered for irrigation. An approximate total of 26 million gallons of water was injected into the aquifer at an average injection rate of 800 gallons per minute. During the pilot test, Geosyntec maintained the system and collected water levels and water quality data from the injection well and nearby observation wells.

Notable Accomplishments

Geosyntec has provided valuable insight and advocacy for the SFKGSA towards achieving an overall program for ASR within the basin. Geosyntec was able to help the agency identify realistic goals for operation of wells and identified a key maintenance issue to be considered. The system design was critical for the startup of the test to not drag air down the well as it limits the amount of water that can be injected. Geosyntec is currently assessing changes to the well efficiency of the irrigation well to allow adjustments in the ASR program and design appropriate operation and maintenance procedures for future ASR operations.

Engineering Evaluation – Proposed Recharge Facility

Crescent Management, LLC

Tulare County, CA

Project Budget: $60,000

Completion Date: March 2022

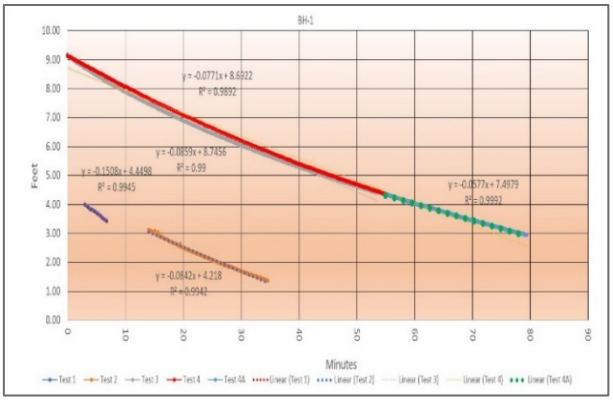
Name: Allen Nazarian
Title: Realtor and Associate Broker
Email: allen26@gmail.com
Phone: (310) 266-9761

Services Provided:

- Preparation of Work Plan
- Literature Search
- Infiltration Testing
- Feasibility Study
- Development of Hydrogeologic Conceptual Model
- Assessment on Regional Effects from Recharge
- Assessment of Site Recharge Potential
- Identification of Data Gaps

Project Objective

In the preliminary assessment, Geosyntec conducted an engineering evaluation for a potential infiltration basin of a 60-acre parcel located near the City of Terra Bella in Tulare County. The goal of the project was to provide Crescent Management a preliminary assessment of the site as a groundwater recharge facility prior to purchase of the property. Specific objectives for the project included estimating the rate of recharge that could occur on the site and the expected fate of the recharge water and Identifying data gaps needed to fully assess the recharge potential of the Site and provide recommendations for collecting these data.



Plot showing results of downhole infiltration test used for estimating infiltration rates of proposed basin.

Geosyntec's Scope of Services

Geosyntec's scope for this project included: an initial review of available information including well logs, water level data, water quality data, and groundwater flow directions; drilling of soil borings to assess lithology and allow collection of soil samples for physical testing; and completion of downhole infiltration tests (within borehole) at depths anticipated for recharge basin. Physical soil testing included grain size analysis, moisture content, and permeability testing. The downhole infiltration tests were conducted by drilling to desired depth, installing well casing and placing bentonite pellets within the annular space so that water used for test cannot come back up the borehole. The test is conducted by adding water to the well casing and measuring water levels with a pressure transducer. After completion of the field program,

Geosyntec prepared report discussing the suitability of the property as a recharge basin and provided recommendations for future activities if the property is purchased.

Notable Accomplishments

Geosyntec has provided valuable insight into the potential use of property as a recharged facility. Based on the results of infiltration testing and assessment on the ability of infiltrated water to reach groundwater, it was estimated that a 10-acre basin constructed on property could infiltrate between 30 acre-feet per day to 280 acre-feet per day. Geosyntec also provided insights into future needs for a recharge facility including additional testing needed, permitting, and fate of the infiltrated water that the Client is currently using to assess if they will purchase the property.

Lincoln Center Remediation Project

Lincoln Center Remediation Trust

Stockton, CA

Project Budget: $7,738,067

Completion Date: In process

Name: Phil Johnson
Title: President
Email: pjohnson@sims-grupe.com
Phone: (209) 478-9200

Services Provided:

- Groundwater Extraction
- Development of hydrogeologic conceptual model
- Assessment of infiltration through vadose zone
- Regional water quality issues

Project Description

Lincoln Center is a commercial property located in Stockton, California where past operation by three dry cleaners impacted soil and groundwater with PCE on- and off-site and is located about 4-miles south of the DTWP facility. Joe Niland (Geosyntec Senior Principal) is the Trustee named by the Federal court to oversee the assessment and remediation of the project. Through his oversight, a long-term strategy for the final remedy was developed to bring the site to closure quickly and within the financial limits of the insurance policy. As part of this plan, Geosyntec evaluated existing site data and developed a hydrogeologic conceptual model that assessed: fluid migration pathways from the vadose zone to groundwater (infiltration); aquifer properties; groundwater flow paths and directions; groundwater quality; and data gaps. From this assessment, Geosyntec developed an investigation plan to close the identified data gaps, complete the conceptual site model, and support development of the final feasibility study for remediation of the groundwater plume. The investigation included design and installation oversight of the more than a dozen groundwater monitoring, injection, and extraction wells. Following the investigation, Geosyntec tested and designed the final in-situ remediation approach in groundwater, which included pilot testing, Waste Discharge Requirement permitting, injection well system design (similar to ASR wells), and construction oversight. From this project, Geosyntec has gained valuable insights into the characteristics of the vadose zone soils and groundwater system that will be transferable to an assessment of a recharge basin at DTWP site.

Notable Accomplishments

Geosyntec also successfully negotiated permanent shutdown of the soil vapor extraction SVE system and case closure for soil source areas with the CVRWQCB using our detailed knowledge of fluid migration pathways through the vadose zone. Geosyntec currently oversees the operations and maintenance activities of the groundwater extraction and injection system and has implemented several system optimization cost savings measures. We have implemented a cost effective and expeditious remedy that will meet budget and schedule requirements of the stakeholders and meet the requirements of the CVRWQCB and the Federal court.

Pre-Design Civil Plan Layout for the Argo Drain Stormwater BMP

Argo Infiltration Recharge Basin

City of Los Angeles, Bureau of Engineering and Bureau of Sanitation

Los Angeles, CA

Project Budget: $610,000

Completion Date: June 2021

Name: Bryan Powell
Title: Civil Engineer for Los Angeles Bureau of Engineering (LABOE)
Email: bryan.powell@lacity.org
Phone: (213) 485-5908

Services Provided:

- Performed multi-phase geotechnical investigations
- Conducted hydrological and geotechnical analyses
- Lead Pre-Design Report preparation
- Produced preliminary design civil drawings

Project Objective

The Argo Drain Stormwater Best Management Practice (BMP) project is a regional stormwater BMP that is designed to comply with Santa Monica Bay Beaches Bacteria Total Maximum Daily Load (SMBBB TMDL), the 2012 Los Angeles Municipal Separate Storm Sewer System Permit, and the 2015 Industrial General Permit. The Project is located at the northwest edge of Los Angeles International Airport near the intersections of Westchester Parkway and Falmouth Avenue and will treat runoff from a 2,320 acre drainage area, consisting of commercial, residential, and industrial areas. The project is designed to demonstrate compliance specified for the applicable drainage area. **The recommended Project design diverts and conveys stormwater runoff from three existing major storm drain lines to an underground infiltration facility where runoff is infiltrated into the groundwater basin underneath. The proposed facility includes diversion structures, a pumping station, an 8.9 million gallon underground infiltration gallery, and a network of infiltration dry wells.**

Geosyntec's Scope of Services

Geosyntec previously completed the draft 100% design in 2008. The project was put on hold following the design completion and was re-initiated in 2015. Design modifications are necessary to meet new regulatory criteria associated with the 2012 MS4 Permit and the 2015 IGP, and to account for an updated methodology for estimating compliance with the SMBB TMDL as outlined in the Santa Monica Bay Watershed J2/3 Enhanced Watershed Management Program (EWMP). Geosyntec was contracted to acquire necessary subsurface geotechnical information; develop new design criteria based on updated regulatory and geotechnical information; perform hydrologic modeling (using EPA SWMM) and geotechnical analyses to address changes from the previous design; produce preliminary design layouts; and assist project cost estimation and project schedule development.

Notable Accomplishments

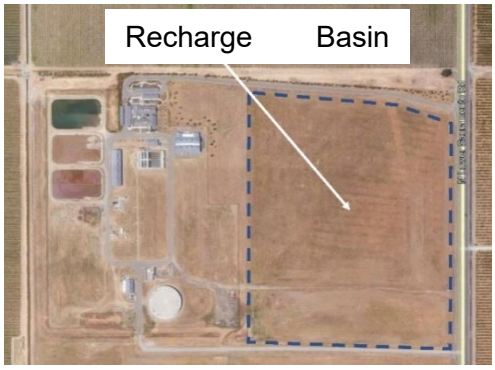
Geosyntec worked closely with the City of Los Angeles, Los Angeles World Airports, and other consulting teams to come up with a feasible, cost-effective solution to meet all design criteria within project site constraints, including minimizing interference with airfield operation during construction and operation phases, and integrating with the existing storm drain network. Modeling results indicate that the proposed facility can achieve the required capture efficiency.

c. Financial Statement

Geosyntec Consultants, Inc. has sufficient financial resources to ensure that we can satisfactorily provide the services required. We have provided a balance sheet and income statement in Attachment D which is *CONFIDENTIAL*.

d. Project Understanding

The purpose of the project is to evaluate the feasibility, provide planning, and preliminary design services related to developing a feasibility study and preliminary design report for the DWTP Groundwater Recharge Basin Improvements Project. The DWTP is located along Lower Sacramento Road north of 8-Mile Road between the City of Stockton and the City of Lodi. The geotechnical investigations will establish the subsurface soil characteristics and evaluate if they have the likelihood of supporting a successful groundwater recharge project. The specific area that will be assessed for the project is open land to the east as depicted in the adjacent photo.



During the design phase of the DWTP, the City of Stockton Municipal Utility District (MUD) commissioned the Design-Build team to conduct a preliminary groundwater recharge feasibility study of the approximately 70-acre site adjacent to the DWTP. This draft study, completed in 2009, concluded that with available water from the Woodbridge Irrigation District (WID) and possibly City of Lodi stormwater flows, a direct groundwater recharge and recovery project was feasible and recommended additional engineering feasibility and design studies to confirm water availability, recharge infiltration rates, and storage capabilities.

Proposed Approach

This section presents Geosyntec's proposed approach for performing the Geotechnical Investigation and Hydrogeologic Characterization for the DWTP groundwater recharge improvement project. The tasks developed for this approach follow those presented in the RFP and subsequent addendums. The specific scope and approach presented within each task is based on Geosyntec's experience both in the immediate area and performance of infiltration/recharge investigations throughout California. In addition, our proposed approach for data collection considers the full cycle of the project, including long-term and full-scale operation and maintenance, and future proposal solicitation packages to obtain grant funds for project construction. We have also designed our proposed scope of work to follow a phased approach whereby the results of each task are assessed to determine if subsequent tasks should be revised or if enough information has been collected that indicates that the basin will not be an effective location for recharge. For example, if the results of the geophysical survey indicate that soils beneath the site are all low permeability, the subsequent drilling program may be reduced to confirm this finding, or the project can be discontinued at this stage. This approach will make sure the City does not spend unnecessary funds to complete the overall goal of the project to assess if the DWTP site is suitable for recharge.

Review of existing data for the vicinity of the DWTP Facility is key to developing an initial conceptual site model for the site and guiding the initial phases of the field programs. Geosyntec will develop a GIS geodatabase, conduct a geophysical survey and CPT program with infiltration data, complete soil borings with continuous cores for detailed lithologic analysis, and collect soil, groundwater, and source water samples to assess water quality and potential changes to groundwater quality from potential recharge operations, and conduct an aquifer test to assess aquifer properties. The collection of high-quality data is essential for the success of subsequent modeling to assess groundwater mounding from recharge, groundwater recovery, residence time of water between the recharge basin, dry wells, or injection wells and production wells, potential influence on the local and regional groundwater systems. These data will also provide the information needed for preliminary design layouts, operation and maintenance considerations, and estimate of probable design and construction costs. All the data collected will be uploaded to a common geodatabase to facilitate efficient incorporation into models and future design phases of the project.

Several physical parameters determine the suitability of a potential site for providing groundwater recharge benefits. Some parameters may require significant research to determine suitability or suitable methods. Not all physical parameters are important for every recharge mechanism (e.g., the requirements for recharge

basins are different than those for in-lieu recharge or dry wells). Important physical parameters include the following:

- Hydraulic conductivity (vertical and horizontal) of the vadose-zone and aquifer
- Depth to groundwater and fluctuation of depth to groundwater
- Groundwater storage capacity
- Chemical properties of the soil, vadose-zone, and aquifer materials
- Chemical properties of the water available for recharge and receiving groundwater.

Each of these parameters with respect to the Site will be assessed for this project as discussed for the tasks presented below. In addition to the above parameters, existing and historical land use, and production wells in the vicinity are important for consideration in the evaluation of feasibility and design of recharge.

As discussed in the RFP, the City of Stockton is requesting analysis for a recharge basin using Delta Water as the source water for infiltration. In addition, our investigation will include assessment of other recharge mechanisms such as dry wells, aquifer storage and recovery wells, and combinations of technologies. Our anticipated scope of work for the overall project is based on our initial review of readily available information as discussed in the following sections.

Preliminary Hydrogeologic Conceptual Model

The project site is within the Bear Creek interfan area between the Mokelumne and Calaveras River alluvial fans. The Eastern San Joaquin Groundwater Sustainability Plan (GSP) reports that the interfan soils generally have well-developed profiles, medium-to-heavy textures, fairly well-compacted subsoils, and local hardpan that overlies silty to silty clay loams. Consequently, the interfan soils generally have low infiltration rates (less than 0.6 inches per hour).

Figure 3-14 from the GSP shows the modified Soil Agricultural Groundwater Banking Index (SAGBI). This index provides a composite evaluation of soil suitability to accommodate groundwater recharge while maintaining healthy soils, crops, and a clean groundwater supply. The SAGBI is based on five major factors that are critical to successful agricultural groundwater banking: deep percolation, root zone residence time, topography, chemical limitations, and soil surface condition. However, a limitation of this index is that it only assesses soils within the top 5 to 10 feet. To account for this limitation, the modified SAGBI map (shown below) includes an assumption that all soils with restrictive layers in the upper couple feet are modified by deep tillage. Even with the assumption of deep tillage, the map suggests that soils in the vicinity of the DWTP

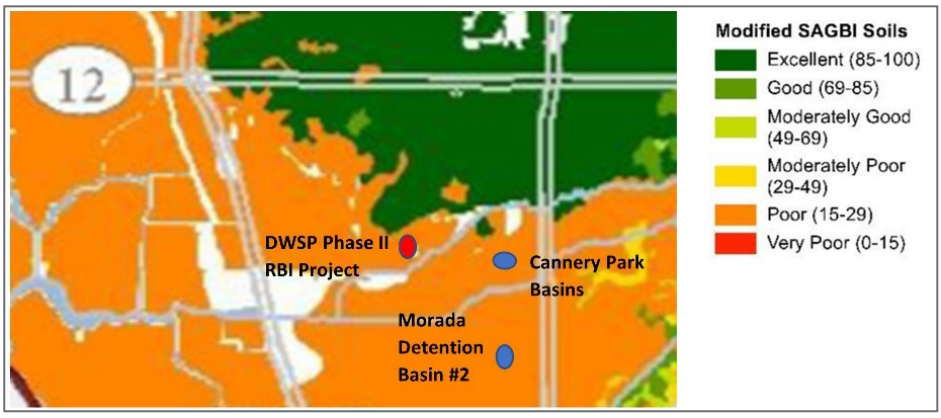


Figure 3-14 from GSP showing SGAGBI modified map for Site area.

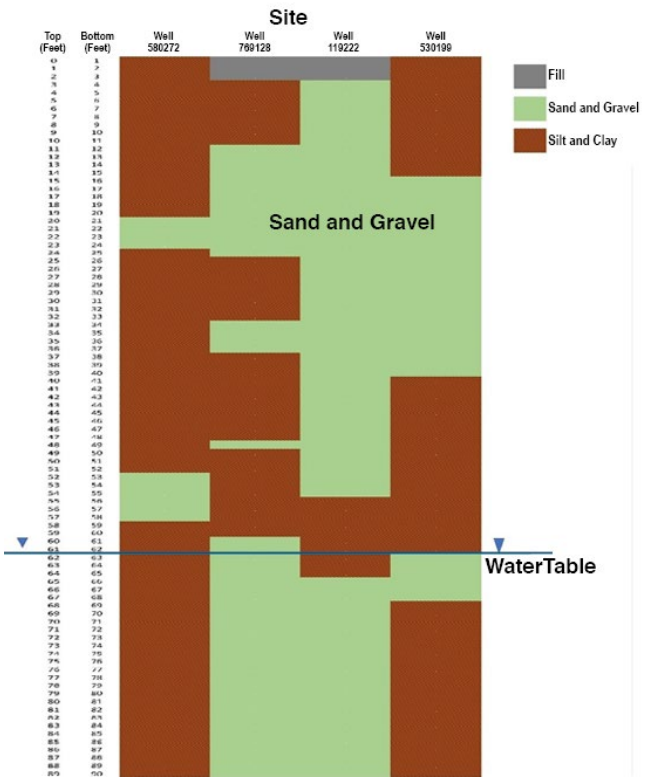
are poor for accommodating groundwater recharge. Note, however, that the regional map shows soils with excellent groundwater banking potential not far to the north of the DWTP location.

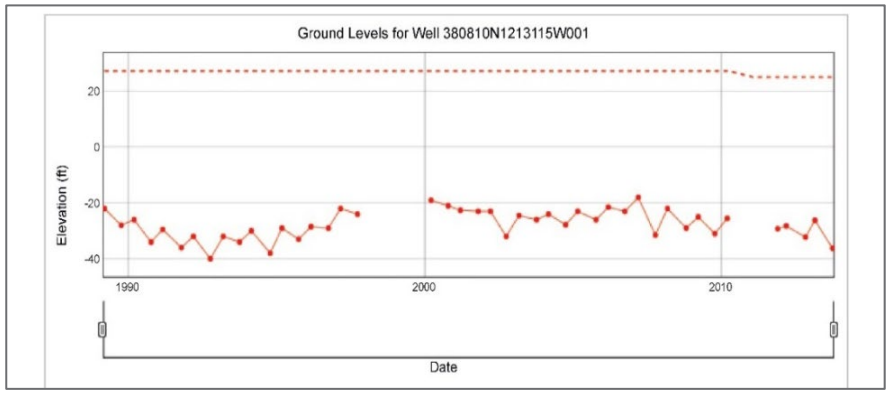
As stated in the RFP, infiltration testing conducted at the Site in 2009 concluded that a direct groundwater recharge and recovery project was feasible with a preliminary infiltration rate of 0.8 acre-feet per day. However, the specific area and depth of the infiltration tests were not provided in the report describing this information. Geosyntec has reviewed several boring logs in the vicinity of the Site. Based on these boring logs a cross-section (adjacent) shows intervals of sand and gravel that are likely present beneath the Site that are conducive for recharge. However, these permeable zones may be at depths that will require more than deep tillage to access. Accordingly, based on the results of the characterization, Geosyntec will consider engineered alternatives to a recharge basin such as shallow wells ("dry wells") or trenches.



Stratigraphic cross section constructed using well logs near Site.

The cross-section also suggests that there may be a good pathway for recharge water to reach the underlying water table. Based on a hydrograph (below) for a nearby well in the DWR's Water Data Library, the depth of the water table beneath the DWTP facility is approximately 60 feet. Based on data presented in the Eastern San Joaquin GSP and other documents in the area, transmissivity (T) of the underlying aquifer is 4,100 to 5.000 feet^2/day. In wells with T values greater than 1,300 ft^2/day, the production yields are typically sufficient for industrial, municipal, or irrigation use indicating that the underlying aquifer has the capacity to allow storage of recharged water.

Vertical hydraulic conductivity of the soil beneath the recharge basin and of the alluvial sediments in the upper 50 feet are a key constraint on the percolation rates that are feasible for the basin. Consequently, Geosyntec's proposed scope of work includes a feasibility evaluation of a network of shallow percolation wells (sometimes called "dry wells") or system of trenches to enhance the recharge rate at the DWTP facility. Geosyntec staff are experts in the design of dry wells and are working with the California State Water Resources Control Board to develop the permit requirements for these types of recharge facilities.



Hydrograph for well completed near Site as shown on DWR's Water Data Library.

Although additional assessments are required, a cursory review of California's GeoTracker database suggests the groundwater beneath the Site has not been impacted with volatile organic compounds or pesticides, but there might be some elevated nitrate concentrations in the area. Water quality data obtained from DWR's Water Data Library for wells near the Site with reported depths less than 200 feet BGS indicate that water quality beneath the Site is of good quality with the average total dissolved solids (TDS) values below 500 milligrams per liter. These data also indicate a calcium-bicarbonate to sodium-bicarbonate water type for the upper aquifer. Calcium-bicarbonate is typical of shallow fresh groundwaters, and sodium-bicarbonate is typical of groundwater influenced by ion exchange processes. This type of data assessment will be critical for assessing how recharge water may interact with the underlying groundwater.

Task 1 – Project Management and Review of Groundwater Subbasin Data

Project Management

Geosyntec's project manager, Joe Turner, PG, CHG, will develop an internal project management plan (PMP) as a guide to monitor project performance. The plan will document critical success factors, a work breakdown structure (WBS), milestones, key deliverable dates, task budgets, and a project schedule. Joe has managed several recharge assessments including the assessment and construction of recharge basin at the Kiefer Landfill in Sacramento and the $1.6M Lower Tuscan Aquifer Monitoring, Recharge, and Data Management Project. He was also the Senior Principal Hydrogeologist for the ASR project conducted for the South Fork Kings Groundwater Sustainability Agency. The approach described below is based on the successful administration of these projects.

Cost Management

Budget procedures, reports, and the baseline budget will be included in the project budget management section of the PMP. Geosyntec's Project Manager Dashboard provides a detailed view of project financials and helps monitor and control the project by providing near real-time project data. The system will also help Joe confirm invoice accuracy. Each invoice will show how the budget is managed month-to-month and will be structured to match the tasks presented in the approved agreement.

Managing Risks

Geosyntec will coordinate with the City project team to identify risks and develop mitigation measures to better control the outcome of the project. This assessment will be a guide to help the project team to detect and mitigate risks.

Quality Assurance/Quality Control (QA/QC)

Geosyntec has established QA/QC procedures that require review of calculations and deliverables by senior professionals. The PMP will include a Quality Management Plan (QMP) which will provide a road map for meeting your quality expectations. By integrating planning and tracking tools with major project requirements, ongoing interaction and guidance by company experts will facilitate program delivery that is on time, within budget, and at a level of quality that meets the City's expectations.

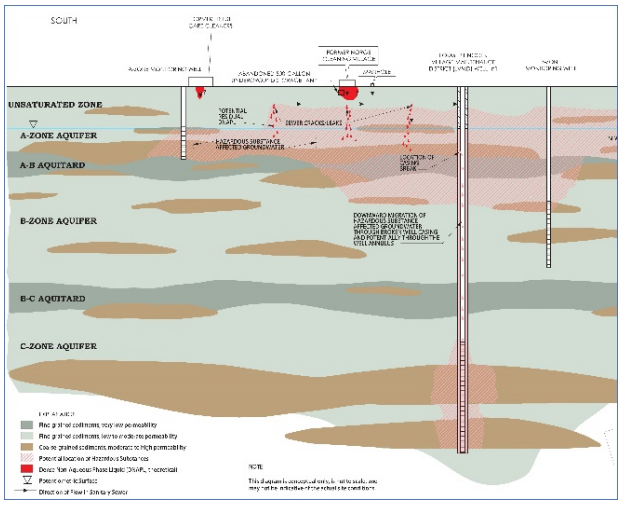
Joe Turner will work closely with the City for the duration of the project and resolve potential changes in scope. Any suggested or requested changes to the scope of work derived through meetings or other communications with our team will be communicated promptly to the City. Joe will also work with the team and expeditiously discuss and propose potential additional tasks that would add value to the project.

Status Reports

Geosyntec will provide the City with written progress reports as part of the monthly invoicing to communicate progress, issues, changes, and deliverable status. In addition, Geosyntec will also maintain open and frequent communication with the City. This approach will provide an efficient use of resources for successful project execution and will help the City to inform other stakeholders on the progress of the project.

Data Review and Compilation

Geosyntec will conduct a literature search and file review to compile information on hydrogeology in the vicinity of the DWTP including aquifer characteristics, existing production well and groundwater monitoring locations, groundwater elevations, groundwater flow directions, and groundwater quality. Geosyntec will use this information to plan the geotechnical and hydrogeologic approach and site groundwater recharge and recovery evaluation. As discussed on page 6 of this proposal, Geosyntec team members have worked extensively at the nearby Lincoln Center facility (4-miles south of DWTP) and have developed detailed conceptual and geologic site models that will be instrumental in developing the initial conceptual site model for the study area. Other information that will be assessed includes, the following:



Cross Section from Lincoln Center showing fluid migration to groundwater surface.

- Eastern San Joaquin County Groundwater Authority GSP (2019)
- Department of Water Resources California Statewide Groundwater Elevation Monitoring (CASGEM) Program
- SGMA Data Viewer
- DWR's Water Data Library
- California State Water Resources Control Board GeoTracker database
- California Department of Toxic Substances Envirostor database
- USGS Groundwater Ambient and Monitoring and Assessment (GAMA) Program
- Eastern San Joaquin Data Management System
- SAGBI Data for the Site Vicinity
- California Natural Resource Agency (CNRA) Well Completion Report Map Application

In addition to the Lincoln Center Facility, known facilities that have public records on Geotracker and Envirostor within the study area include the associated facilities with the Lodi Plume and several leaking underground fuel sites. Many of the publically available files for these sites could have information regarding soil and aquifer properties that can be used for the assessment of the hydrogeologic properties of the general vicinity of the DWTP Facility.

Geosyntec will document the results of the literature search and review in a Technical Memorandum (TM) that will include the initial conceptual site model and focus on assessing how a groundwater recharge and recovery operation may affect local groundwater conditions and production wells in the vicinity of the DWTP facility. The TM will also identify data gaps needed for assessment of the recharge potential of the Site. These identified data gaps will form the basis of the Work Plan for Tasks 4 and 5.

Deliverables

1. TM summarizing results of Literature Search
2. Two meetings to discuss project and results

Task 2 - GIS-based Survey, Utilities Evaluation and Site Assessments

GIS-Based Survey

This task will include development of a Geographic Information Systems (GIS) formatted topographic survey over the recharge basin area as outlined below. As specified in the RFP, a topographic survey will be conducted by a California licensed Land Surveyor. This survey will be conducted by AAX Engineering, LLP (AAX) to support the recharge basin design and subsurface investigation discussed for Tasks 3 through 7.

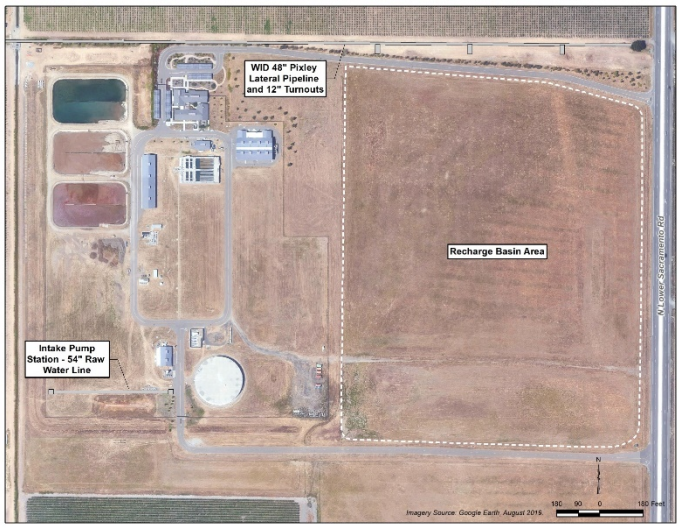


Figure showing approximate locations of water lines near proposed recharge basin area (Source: RFP).

Utilities

AAX will conduct a utility survey of the proposed recharge basin area using geophysical methods on the surface. USA and geophysical markings will be collected by field survey, and sewer and drainage manhole depths measured within the proposed recharge basin area. Identified utilities from the as-built drawings and utility survey will be included in the geodatabase. Conclusions of likely utility locations and project impacts will be identified and coordinated with the City and applicable utility owners. If warranted, pothole locations and relocation efforts will be proposed. No subsurface investigations or utility relocation efforts are currently anticipated but can be provided if deemed necessary.

Survey

AAX will conduct the survey which includes:

- Survey points around the perimeter of the recharge basin at a spacing of approximately 25-feet including the edge of road improvements,
- Survey points internal to the recharge basin on a grid spaced at approximately 200-feet,
- Visible permanent structures, utility appurtenances and markings placed by USA and Utility locator within the recharge basin area,
- Identify gravity sewer and drainage manholes with pipelines crossing the work area will be surveyed and dipped,
- Survey points will be imported into Autodesk Civil3D and illustrated with applicable linework,
- City GIS data, as-builts and other utility records collected by Geosyntec will be added to drawing,
- Existing surface will be modeled, and contours generated in Autodesk Civil3D,
- Aerial imagery included with Autodesk Civil3D will be overlaid,
- All drawing and model data will be output to a shape file or other city approved GIS format for further use by others.

Site Assessments

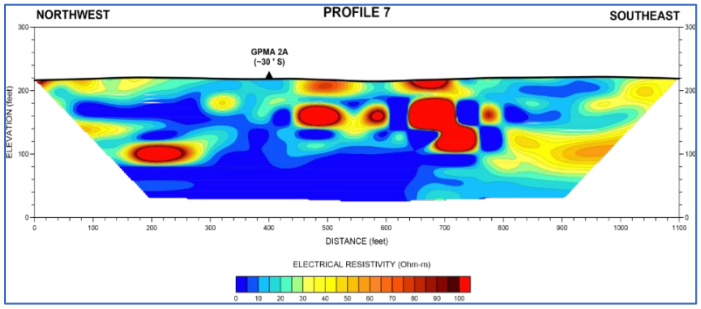
Geosyntec will research history for any prior site assessments to evaluate any prior site uses including agrichemical use that may impact the geotechnical work or Site suitability for use for a recharge facility. Potential reports would include geotechnical and soils reports completed for construction of the DWTP and environmental assessments completed for purchase of the property.

The results of Task 2 will be summarized in a TM that will include a copy of the topographic map, utility locations, and other geographic information. Relevant data from Task 1 will also be added to and georeferenced (where applicable) in the file geodatabase. This TM will also update data gaps discussed in

the TM for Task 1 for an assessment of the recharge potential of the Site. As indicated for Task 1, these identified data gaps will form the basis of the Work Plan described for Tasks 4 and 5.

Deliverables

1. Topographic Survey in feature class format within a file geodatabase using NAD83 State Plane, California Zone 3 (feet)
2. Project specific geodatabase
3. TM summarizing results of utility locations and historical land use



Example of geophysical survey from Turner et al (2014) for Site located in Sacramento, California

Task 3: Surface Geophysical Survey

Electrical resistivity profiling (ERP) measures subsurface electrical properties related to lithologic and chemical variations of the pore water. For example, fine grained silts and clays typically have lower electrical resistivities than coarser grained sands and gravel. The apparent resistivity of subsurface material is determined by transmitting electrical current into the ground through electrodes placed along a traverse and measuring the resulting voltage. The adjacent figure shows a typical profile from Turner et al (2014) for the Kiefer landfill located in Sacramento showing differences between low permeability silts and clays (blue) and coarse-grained sands and gravel (red). As seen on these figures sands and gravels form channel-like features (red) that control the migration of fluids. This information was critical in designing the infiltration basins for discharge of treated water completed by Geosyntec team members Joe Turner, Mike van den Enden, and Craig Riddle. Joe Turner, PG, CHG has completed several similar studies in northern California including assisting in the interpretation of airborne electromatic method (AEM) surveys in Butte County to assess recharge pathways and has been a speaker at two symposiums discussing the interpretation of geophysical surveys for development of hydrogeologic conceptual models for use in assessing groundwater migration pathways.

For this task, the City has requested an ERP survey using an Advanced Geosciences Inc. (AGI) SuperSting RB Resistivity/IP Earth Resistivity meter. NORCAL Geophysical Consultants, Inc. (NORCAL) of Cotati, California will conduct the ERP survey. NORCAL conducted the ERP survey discussed above for the Kiefer landfill and has worked with Joe Turner on several other similar projects. As specified in the RFP, data for the survey will be acquired along each transect using the dipole-dipole and strong gradient array configuration with up to 56-electrodes. Measurements will be made at transmitter-receiver separations (n-spacings) of at least 1 through 8 using an electrode separation (a-spacing) of 30 feet. This spacing results in a depth of detection of approximately 400- to 450-feet and a length of about 1,540 feet that extends across the entire length in the north to south direction of the proposed basin. After the initial acquisition along the 56-electrode array is completed, data are acquired by rolling along each line in 14- to 28-electrode increments until the total distance of each line is reached. Data post-processing and numerical modeling are accomplished using Earthlmager 2D to generate 2-dimensional (x-z) gee-electric cross-sections of electrical resistivity along each survey line. The survey conducted will consist of 4 transects across the proposed recharge basin as shown in above figure.

Red lines show anticipated locations of ERP lines.

Prior to issuance of Addendum 3, we had included this task as part of Task 6 (now Task 7), Geotechnical Investigation, but recommended an electrode separation (a-spacing) of 15 feet as opposed to 30 feet. This spacing provides a depth of detection of approximately 200 feet as opposed to 400 feet but with better resolution on the shallower material. As discussed in the preliminary hydrogeologic model above, groundwater at the DWTP facility is approximately 60 feet below ground surface (bgs) and the upper aquifer is within the first 150 feet bgs. Based on these depths, we recommend changing the spacing to 15 feet. This change will provide better information of the shallower material and insights into infiltration pathways for recharge pathways. In addition, this higher resolution for the shallower material will allow better recommendations for locations and depths for subsequent tasks conducted in Task 7.

Deliverable:

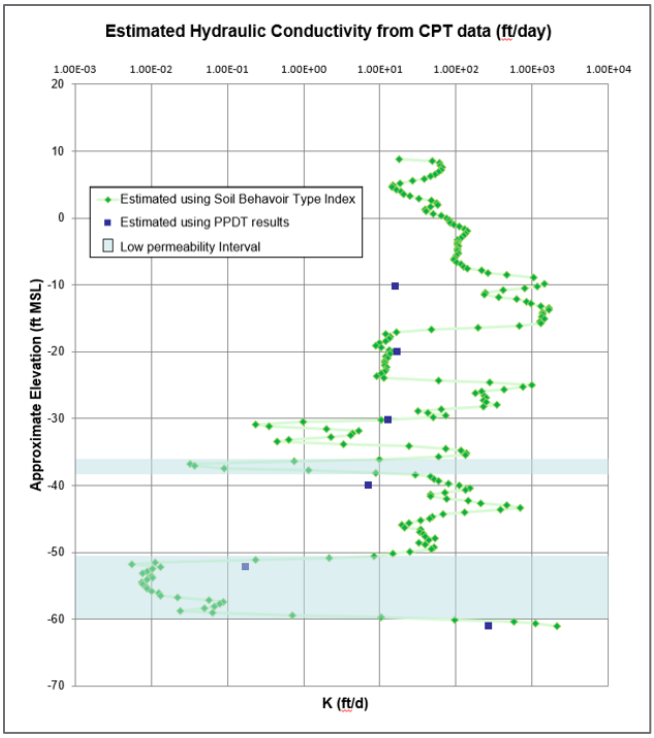
1. Geophysical survey analysis report, including lithologic and stratigraphic data interpretation

Task 4: Preliminary Geotechnical Investigation Approach and Planning Activities

After City approval of the TMs prepared for Tasks 1 and 2 and geophysical report for Task 3, Geosyntec will prepare a Draft Work Plan and schedule for the approach to the geotechnical investigation that will characterize subsurface soil conditions beneath the vicinity of the DWTP facility. The preliminary geotechnical investigation approach and planning activities will be designed to evaluate the suitability of the soil matrix and hydrogeologic properties of the subsurface. As discussed above, the specific scope of work presented in the Draft Work Plan will be based on the information and data gaps identified in the Tasks 1 and 2 TMs and the information from the ERP survey conducted for Task 3. The Draft Work Plan will be based on the Geosyntec team's experience preparing work plans for similar types of projects.

Based on a preliminary assessment of data presented in the preliminary hydrogeologic model discussed above, Geosyntec anticipates that the Draft Work Plan will include methods and procedures for the following:

CPT borings to provide continuous profiles of geotechnical properties including Soil Behavior Type (SBT) indices. In addition, pore-dissipation testing (PPDT) will be conducted at selected depths to provide calculations of hydraulic conductivity (K). The pore-dissipation test should provide more accurate local measurements of K that will be used to calibrate the profile of K values calculated from the SBT data. The adjacent figure is an example of a profile at a CPT boring calculated from normalized SBT indices that also includes several K values based on the PPDTs.

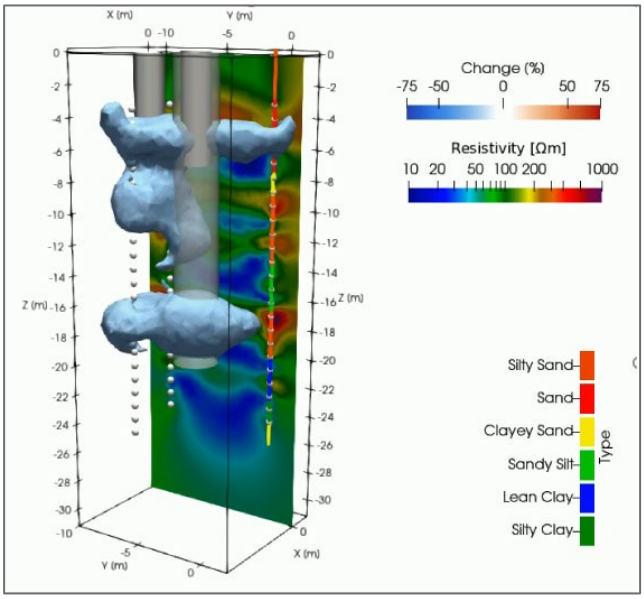


Estimate of hydraulic conductivities by depth from CPT data constructed by Geosyntec for facility operated by the West Basin Municipal Water District in El Segundo, California.

Installation of soil borings and monitoring wells. The Work Plan will include sampling, and logging procedures, estimated depths, anticipated screen intervals, and development procedures, for borings and monitoring wells. The drilling of soil borings will be conducted in two phases. The first phase will be with sonic drilling method to allow collection of continuous cores for preparation of detailed lithologic logs to assess fluid migration pathways. The locations of these soil borings will be based on the results of the geophysical and CPT surveys discussed above. Downhole permeability tests will be conducted within major lithologic units identified during the CPT survey. This method will confirm hydraulic conductivity

calculations conducted during the CPT survey and will provide valuable input parameters for hydraulic calculations and groundwater modeling.

Using this information in conjunction with the detailed lithologic logs developed from the sonic cores, the second phase will include drilling of soil borings for installation of monitoring wells and a pumping well that will be used for aquifer testing. Although currently not recommended, based on initial results of Tasks 1 through 3, it may be recommended to install ERT sensors. The ERT sensors, placed at various depths, can be used to observe the progression of the wetting front as moisture from rain events or pilot tests of infiltration basins passes through the subsurface and provide similar information downhole to the ERP survey discussed in Task 3. Scott Struck, PhD successfully used this method to assess infiltration of water through dry wells for the Los Angeles County Public Works. For this project, Geosyntec was teamed with the Department of Energy's Lawrence Berkley National Laboratory and partnered with the United States Bureau of Reclamation and Geological Survey. The project was conducted to better quantify the benefits of infiltrating stormwater.



Still shot from animation created from ERT data used to assess dry well. Light blue features show water migrating down through the soil column.

Geosyntec anticipates installing multiple screened intervals at monitoring well locations for use as observation wells during subsequent pump tests as discussed below to assess vertical hydraulic conductivities. These wells can also be used for monitoring of mounding of groundwater and groundwater chemistry changes during infiltration pilot tests. At least one soil boring will be converted to a well that can be used as a pumping well for aquifer testing (see discussion of anticipated field program for Task 7).

Sampling of soil, groundwater, and source water. The Work Plan will include procedures and locations for samples of soil, groundwater, and the source water anticipated to be used for recharge. The Work Plan will include sampling frequency, analyte list, and QA/QC procedures. The primary objective of this testing will be to assess interactions between soils, recharge source water, and groundwater. The anticipated analytical program is discussed for Task 7 and includes soil physical properties and, chemical parameters.

After completion of the Draft Work Plan, Geosyntec will schedule a meeting with the City and other stakeholders to present the overall recommended approach. This meeting will provide the City with opportunities to ask questions prior to their review and approval of the recommended approach.

Deliverables

1. Draft Work Plan

Task 5: Final Geotechnical Plan

After review and approval of the Draft Work Plan by the City, Geosyntec will finalize the plan with an updated schedule for conducting the field program discussed for Task 7 and submittal of hydrogeologic characterization discussed for Task 8.

Deliverables

1. Final Work Plan

Task 6: Permits

Geosyntec will obtain all necessary permits and regulatory approval for the project. At this time, it is only anticipated that permits from the County Environmental Management Department to drill wells and soil borings will be required for this project.

Deliverables

1. Drilling Permits

Task 7: Geotechnical Investigation

Geosyntec will conduct the geotechnical investigation in accordance with the approved Final Work Plan. Our anticipated scope of work for this task is based on our initial review of readily available information as discussed in the preliminary hydrogeologic conceptual model provided above. As discussed in our project approach, we have designed our field program to follow a phased approach whereby the results of each task are assessed to determine if subsequent tasks should be revised or if enough information has been collected that indicates that the basin will not be an effective location for recharge. For example, for the field program, if the results of the CPT survey and soil boring program indicate that soils beneath the site are not conducive to a recharge program, it may be recommended that the subsequent program for installation of wells and performance of aquifer test not be conducted, and the project could be discontinued at this stage

Proposed Scope of Work

Based on our compilation and review of existing data as discussed above, our anticipated scope of work includes performance of a CPT program, drilling and sampling of two soil borings, drilling sampling and installation of one nested (multiple well screens in one soil boring) monitoring well and one well used for aquifer test, performance of aquifer test, and physical and chemical testing of soil, groundwater, and source water samples. Each item is discussed below. The actual scope of work will be as approved by the City in the Final Work Plan. Fieldwork will be under the supervision of a California Professional Geologist and Certified Hydrogeologist.

Field Setup Coordination

This task includes coordinating with subcontractors, obtaining necessary field supplies and preparation of site-specific field safety plan for use by the Geosyntec team, and marking Site for clearance of utilities by USA. The task also includes a site visit to discuss the overall project with City personnel and mark locations for the USA utility clearance.

CPT Survey

The CPT borings will provide data on the geotechnical properties of the subsurface including continuous profiles of SBT indices, and pore-pressure dissipation testing. The anticipated locations are shown on the adjacent figure that includes four CPT points. The actual locations may be modified based on the results of the geophysical survey. This figure also shows the locations of anticipated soil borings at the Site.

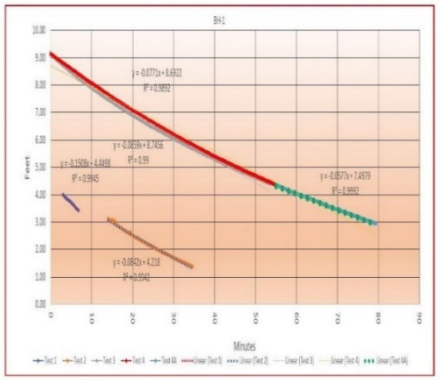
Anticipated Locations of CPT and soil borings

For each CPT boring, pore-pressure dissipation tests will be conducted at approximately 6 depths. To assess the infiltration rates at various depths, values of hydraulic conductivity K will be calculated from the SBT data to provide detailed trends of stratigraphic variation of K. However, the pore-dissipation test should provide more accurate local measurements of K that will be used to calibrate the profile of K values calculated from the SBT data. An example of a profile at a CPT boring

calculated from normalized SBT indices that also includes several K values based on Pore-Pressure Dissipation Test (PPDT) values was illustrated in discussion for Task 4.

Soil Borings

As shown on the previous page, two soil borings are proposed. The actual location of these soil borings may be modified based on the results of the geophysical and CPT surveys. The soil borings will be drilled using the sonic boring method that allows collection of a continuous core sample. These cores will be logged by the on-site geologist proficient in the methods described by ASTM D2488-84 and reviewed by a California Professional Geologist and Certified Hydrogeologist. The boring logs will provide detailed lithologic profiles that will be used to prepare stratigraphic cross-sections. At selected depths, during the drilling of these soil borings, down-hole permeability tests will be conducted. These tests will allow assessment of infiltration rates within the major material types encountered at the Site and will also allow verification of the results provided by the CPT survey. Tests will be conducted by advancing the outer casing of sonic drill stem to the desired depth. A pressure transducer will then be lowered down the drill stem and programmed to record water levels at 10 to 15 second intervals. The drill stem will then be filled with water then allowed to infiltrate into the desired materials. Infiltration rates are then calculated by the slope of the line developed during this process as shown on the adjacent figure produced for a down-hole permeability test conducted at the Terra Bella, California Site.



Test	Infiltration Rate (Feet/Day)
1	124
2	83
3	217
4	121
4A	111

Plot of data for downhole infiltration test used to calculate infiltration rates at Crescent Management proposed infiltration basin near Terra Bells, California

Well Installation

Geosyntec anticipates that one soil boring will be drilled for installation of a monitoring well cluster (multi-completion) at a location determined based on the results of the above investigations. The well would consist of three 2-inch-diameter casings with 5-foot screened intervals (e.g., 60 to 70 feet BGS, 75 to 85 feet BGS, and 95 to 100 feet BGS). Based on cost, logistics, and access issues, the monitoring cluster may be constructed in a single boring or in separate borings. Actual screened intervals will be based on results of the geophysical and CPT surveys and soil boring programs discussed above and observations during drilling of these soil borings. The monitoring well will facilitate collection of groundwater samples for water quality testing and will also be used as an observation well for the aquifer test described below. This well can also be used for assessment of mounding during any subsequent pilot tests of infiltration and potential long-term recharge operations.

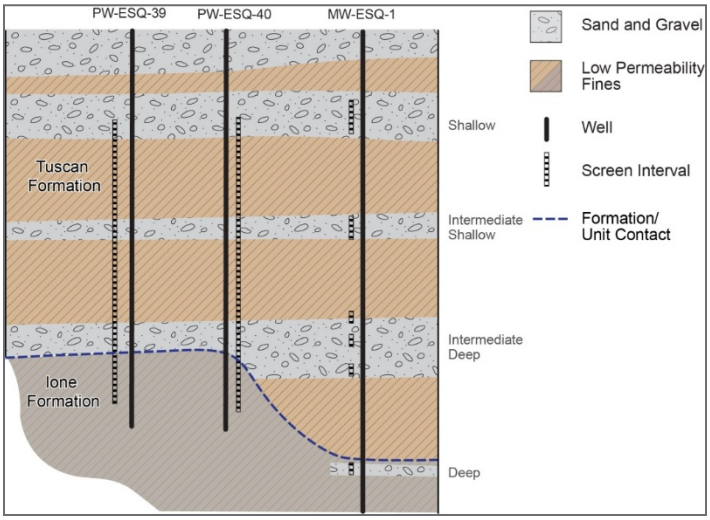
Nested monitoring well designed and installed by proposed Project Manager Joe Turner for the Lower Tuscan Aquifer Recharge and Monitoring project. Wells completed to depths of 1,000 feet BGS.

An additional well will be installed that will be used to conduct the aquifer pumping test. This test well will be located and designed based on the results of the field testing discussed above. The test well will also allow collection of groundwater samples for comparison with samples collected from the individual depth intervals screened by the nested monitoring wells. Following development of this well, a step-drawdown test will be conducted that will provide preliminary values of T and K and determination of pumping rate used for the

constant rate pumping test described below. This well will be screened over the entire interval monitored by the observation well (e.g., 60 to 100) and is anticipated to be 6-inches in diameter.

Aquifer Test

After completion of development of the observation wells and pumping well, a constant rate pumping test will be conducted. The pumping rate will be based on the results of the step test discussed above. It is anticipated that the constant rate test will be 8-hours in duration, but a longer test may be recommended based on results of the step test. To monitor the test, vented pressure transducers will be placed in each well within the nested monitored well (3 total) and the pumping well. Use of vented pressure transducers eliminates the need for barometric corrections of the data. The transducers will be placed in the wells during the step test discussed above and allowed to record water levels at 1-hour intervals to assess regional changes to groundwater levels prior to the constant rate test.



Conceptual model and schematic of pumping well and observation wells used for aquifer testing during the Lower Tuscan Aquifer project. From Turner et al, 2013.

Groundwater, Source Water, and Soil Sampling

Geosyntec anticipates that approximately 6 soil samples will be collected from each of the cored soil borings: 3 samples from the vadose zone and 3 samples from the saturated zone.

The actual sample depths will be based on specific conditions observed while drilling each boring with the objective of obtaining samples of both coarse- and fine-grained horizons.

Each soil sample will be analyzed for:

- Grain-size distribution (sieve analysis)
- Atterberg limits
- Moisture content
- Electrical conductivity
- Metals
- Cations and anions
- Total organic carbon (TOC)

If the results of the literature search discussed for Tasks 1 and 2 indicates potential for environmental impacts, other constituents such as pesticides and volatile organic compounds may be added to the list.

Geosyntec anticipates collection of grab groundwater samples near the total depth of each of the two soil borings, two additional grab water samples each will also be collected from relatively permeable depths in three of the CPT points based on observations in the field, and one sample from each screen interval of the nested monitoring well and from the pumping test well collected after development. In addition, we propose to collect and analyze two samples of the potential source water for recharge: one at the beginning of the field investigation program and one at the end.

Each groundwater and source water sample will be analyzed for the following:

Analysis	Specific Compounds
Cations	Cations Calcium, iron, magnesium, manganese, sodium, potassium
Anions	Chloride, alkalinity, nitrate/nitrite, phosphate, sulfate/sulfide
General Parameters	THM Potential, TOC, Total dissolved solids, total suspended solids, hardness, pH, electrical conductivity, oxidation/reduction potential, dissolved oxygen
Metals	Title 22 Metals

Electrical conductivity, oxidation/reduction potential, dissolved oxygen, and pH will be collected as field parameters during collection of grab groundwater samples. Additional analytes may be added based on results of Tasks 1 and 2.

Task 8: Hydrogeologic Characterization

The Geosyntec team will characterize the hydrogeology of the vicinity of the DWTP. This assessment will include documentation of our calculations and estimation of:

- Percolation rate and migration pathways
- Specific yield
- Hydraulic conductivity
- Available storage
- Recovery well production rates, and recommended location and number of recovery wells
- Groundwater flow directions
- Existing groundwater quality
- Potential chemical interactions between source water, soils, and groundwater.

Geosyntec will develop a three-dimensional groundwater flow model as a tool to evaluate the recharge capacity and engineering alternatives to optimize recharge and recovery. The model properties will be based on information from the ESJ Water Resources Model (ESJWRM, Woodard & Curran, 2018, Appendix 2-A, ESJ Groundwater Authority, 2019) with refinements based on site-specific data including lithologic logs of boring, aquifer testing data, and well information in the vicinity. The model grid will be designed with sufficient resolution of hydraulic gradients and groundwater mounding associated with simulated recharge from the basin engineered recharge alternatives such as shallow wells and trenches.

Geosyntec will use the model to evaluate and compare engineering alternatives including:

- a recharge basin,
- a network of percolation wells,
- a network of trenches,
- injection wells, and
- recovery wells.

The model simulations will provide calculations of:

- groundwater mounding,
- flow directions,
- percolation rates from a recharge basin, percolation wells, or trenches,
- injection rates,
- recovery well production rates,
- travel time of groundwater between the recharge facility and production wells, and
- percentage of recycled water pumped by production wells.

We will also conduct sensitivity analyses of the model results with simulations using a range of assigned hydraulic properties. Geosyntec will document the model design and simulations that will be included as an appendix to the Feasibility Report for Task 9.

Deliverable

1. Model Documentation Report

Task 9 Feasibility Report

After completion of Task 8, Geosyntec will prepare a Groundwater Recharge and Recovery Project Feasibility Report that will include the compiled results of the geotechnical investigation (Task 7) and hydrogeologic characterization (Task 8). This report will provide the following information:

- Suitability to recharge surface-applied water in terms of feet per day over the site and an estimate of the annual quantity of water capable of being recharged to the underlying groundwater basin.
- Potential for groundwater recovery in terms of millions of gallons per day or acre-feet per year
- Recommendation for monitoring groundwater movement to determine the volume of water recharged and available for recovery without negatively impacting the groundwater basin and/or nearby private (or public) wells
- Potential Impacts to groundwater quality related to recharge operations
- Preliminary basin layout that considers the existing surface water delivery locations and how water is best distributed and managed across the site
- Environmental clearance requirements
- Permitting requirements
- Operation and maintenance recommendations
- Estimate of probable design and construction cost

The report will also provide recommendations for performance of pilot tests for the preliminary basin outlet, and, if applicable, engineered alternatives including dry wells and trenches that could enhance the performance of recharge. The information provided in the report will be formatted so that it can be used as part of package for obtaining grant funding such as grants for SGMA implementation.

Deliverable

1. Feasibility Report

e. Corporate Structure, Organization

Geosyntec is a consulting and engineering firm that works with private and public sector clients to address new ventures and complex problems involving our environment, natural resources, and civil infrastructure. Geosyntec serves our clients with 1,700 engineers, scientists, and support personnel in the United States and worldwide. We offer more than 20 in-house technical disciplines and a breadth of resources to apply appropriate expertise and experience to address project needs. This project would be primarily served by staff in our Sacramento office.

History of Geosyntec

Geosyntec was founded in 1983 and since then we have grown based on the application of sustainability principles to projects involving engineering and design for environmental, water resources, civil infrastructure, environmental contamination studies and remediation; natural resources assessment and restoration; and compliance management for air emissions, wastewater discharges, and waste disposal. We are known for our technology leadership, broad experience, and exceptional client service.

Our public sector clients include departments and agencies of municipal, state/provincial, regional, and national governments. Our private sector clients come from a variety of industries including oil and gas, chemical, aerospace, pharmaceutical, diversified manufacturing, advanced technology, power and utility and environmental management. Our private sector clients also include regional and national developers, large commercial property owners, and law firms.

Our Businesses

We deliver solutions through Geosyntec and our seamlessly integrated divisions, SiREM, Savron, and Applied Technology & Management.

Key Personnel

Presented below are the biographies of the key personnel. These staff represent the management and technical leadership that will guide the project from Task 1 through Task 9. The team was assembled so the staff involved in the data review in Task 1, will be involved in the draft work plan in Task 4, and then carry that knowledge to the final work plan in Task 5. This will provide the City with a cohesive team that is knowledgeable in all aspects of the project.

All key personnel are experienced project managers capable of implementing a scope of work under a budget and schedule. Following the biographies is a table highlighting the technical resource that will support the key personnel. Full resumes for key staff are provided as Attachment 5.

Joseph "Joe" Turner, PG, CHG

Role: **Project Manager**; **Task 1 Lead** – Project Management and Review of Groundwater Subbasin Data; **Task 3 Lead** – Surface Geophysical Survey; **Task 8 Lead** – Hydrogeologic Characterization

Education: MS, Geological Sciences; BS, Marine Geology

Professional Registration: Professional Geologist, CA No. 5125; Certified Hydrologist, CA No. 454

Summary: Joe has more than 33 years of experience providing hydrogeologic services from California. His experience includes design and installation of pilot and full-scale infiltration basins, feasibility assessment of flood-managed aquifer recharge (Flood-MAR) using infiltration basins and/or dry wells, and assessment of aquifer storage and recovery wells. Joe has also designed and performed large-scale investigations to assess recharge mechanisms using infiltration testing, geophysical methods, aquifer testing, isotopic analysis, and surface water/groundwater interaction assessments using stream gauging and temperature profiling. He is also the geologist of record for preparation of Groundwater Sustainability Plans (GSPs) in compliance with Sustainable Groundwater Management Act for the Sutter, Vina, and Wyandotte Creek Subbasins located in Northern California that require assessment of recharge mechanisms for the basins. Joe has published papers describing methods to assess aquifer characteristics, aquifer interactions, recharge mechanisms, and development of criteria to recognize geologic formation boundaries during drilling including the primary geologic formations that occur at the DWTP site.

Arthur Forma, PG, CEG, CHG, EIT

Role: **Task 2 Lead** – GIS-Based Survey, Utilities Evaluation and Site Assessment

Education: BS, Geosciences in Geology

Professional Registration:
Engineer-in-Training, CA No. 119478; Registered Professional Geologist, CA No. 8133; Certified Engineering Geologist, CA No. 2443; Certified Hydrogeologist, CA No. 896

Summary: Arthur Forma has over 23 years of consulting experience including project management, soil and groundwater investigation, implementation of remedial action programs, and assuring compliance with regulatory requirements. He is adept at the development and refinement of hydrogeologic conceptual site models for complex projects. Arthur is experienced in the development and management of monitoring programs for projects in complex hydrostratigraphic terrains. He currently manages Geosyntec's Aerojet database management contract that includes more than 3,000 monitoring wells separated into 17 programs across an approximate 60 square mile site. Reporting tasks include performance evaluation reports for the multiple groundwater extraction and treatment systems, compliance monitoring reports, and routine monitoring reports. He also oversees management of the project's database which includes daily incoming field and analytical data, data validation, and advanced project chemistry support.

Craig Riddle, PG

Role: **Task 4 Lead** – Preliminary Geotechnical Investigation Approach Planning Activities; **Task 5 Lead** – Final Geotechnical Plan; **Task 6 Lead** – Permits; **Task 7 Lead** – Geotechnical Investigation

Education: BA, Geology

Professional Registration: Professional Geologist, CA No. 9369

Summary: Craig Riddle is a professional hydrogeologist and project manager with a specialized focus in hydrogeologic and environmental work throughout California. He provides expertise in hydrogeologic evaluations, water supply planning and assessments, pre-construction permitting (local and State), and conducts well pumping tests, well rehabilitation, aquifer analysis, surface water and groundwater sampling, and water quality investigations. Typical responsible geologic work includes evaluation and interpretation of geologic, hydrogeologic and geophysical data for technical reports, interpretation of subsurface lithology and groundwater parameters, evaluation of groundwater flow and chemistry trends, aquifer analysis and construction groundwater extraction/dewatering analysis. Mr. Riddle is an experienced project and task manager including project planning and scheduling, procurement/ delivery management, engineering and subcontractor schedule management, construction coordination, cost control, quality control, change order review and negotiation/administration, and safety management.

Amer Hussain, PE

Role: **Principal-in-Charge; Task 9 Lead** – Feasibility Report

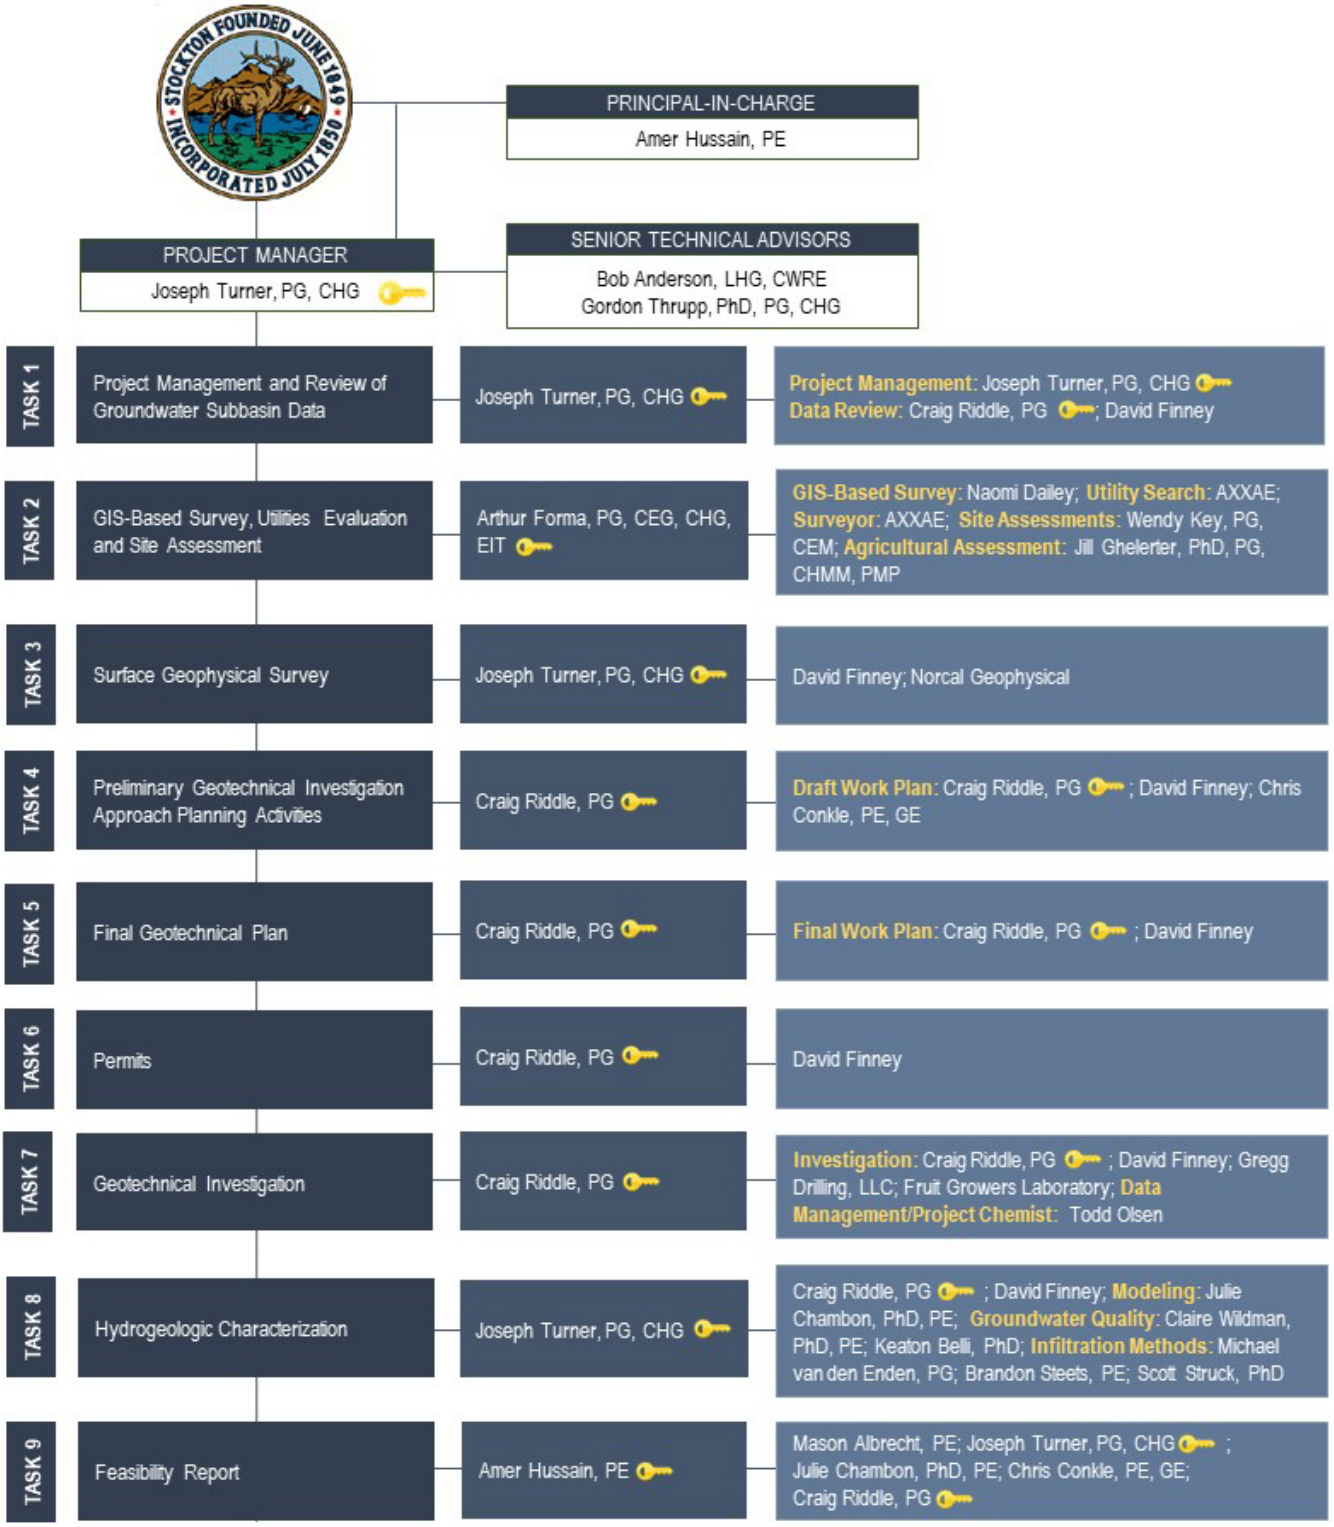
Education: MS, Civil Engineering; BS, Civil Engineering

Professional Registration: Professional Engineer, CA No. 57343

Summary: Amer Hussain, PE has more than 25 years of experience, primarily in the southern Central Valley. He has led a variety of projects focused on water resources development, water quality, groundwater assessment and remediation, regulatory compliance and permitting. As a practicing civil engineer in the Central Valley, he has knowledge of farm activities and irrigation practices. In addition, he has close working relationship with the local water supply providers and regulatory agencies.

Organizational Structure

Geosyntec proposes the organizational structure below.



Non-Key Personnel

The table below represents the staff that will support the key personnel. Resumes for these staff are provided in Attachment 5.

Name	Role	Years of Exp.	Education	Brief Biography
David Finney	▶ Task 1 Data Review ▶ Task 3 Geophysical ▶ Task 4 Draft Work Plan ▶ Task 5 Geotechnical Plan ▶ Task 6 Permits ▶ Task 7 Investigation ▶ Task 8 Hydrogeologic Characterization	5	▶ MS, Geology ▶ BS, Geology	Focus is on sustainable groundwater management projects and subsurface investigations. Experience includes Superfund site investigation/remediation, aquifer storage and recovery, and water quality investigations. Technical skills include performing geologic analysis and interpretations, groundwater plan development, and design and construction of wells.
Naomi Dailey	▶ Task 2 GIS-Based Survey	4	▶ MA, Geography ▶ BS, Anthropology	GIS specialist with experience in structured query language (SQL) and database management, geographic information systems (GIS) analysis, and implementing automated solutions for data visualization and processing. Develops tools with Python and visual basic applications (VBA) for data quality assurance, designs and manages multiple databases, and utilizes GIS for spatial data analysis.
Chris Conkle, PE, GE	▶ Task 4: Draft Work Plan ▶ Task 9 Feasibility Report	18	▶ MS, Geoengineering ▶ BS, Civil Engineering	Geotechnical engineer with experience in geotechnical engineering including management and execution of design, analysis, quality assurance monitoring, and geotechnical investigations for a variety of water resources projects.
Wendy Key, PG	▶ Task 2 Site Investigation	15	▶ MS, Geology ▶ BS, Geology	Experience in the management, planning, implementation, data analysis, and reporting phases of environmental assessments including ASTM-compliant Phase I Environmental Site Assessments (ESAs), subsurface soil, and groundwater investigations.
Jill Ghelerter, PhD, PG, CHMM, PMP	▶ Task 2 Agricultural Assessment	18	▶ PhD, Chemistry (Concentration in Geology) ▶ MS, Geology ▶ BS, Geology	Technical experience in agricultural chemicals and their impact to soil and groundwater on irrigated farmland, oil fields, and processing facilities.
Todd Olsen	▶ Task 7 Geotechnical Investigation	10	▶ MS, Environmental Engineering ▶ BS, Chemistry ▶ BA, Mathematics	Experience conducting data verification and Stage 2A data validation. This experience includes the evaluation of organic and inorganic analytical methods for soil, water, and air sample matrices.
Julie Chambon, PhD	▶ Task 8 Hydrogeologic Characterization	9	▶ PhD, Environmental Engineering ▶ MS, Environmental Engineering ▶ MS, Engineering	Responsible for managing and supporting multiple projects that include groundwater flow and transport modeling, hydrogeological evaluations, well field design, groundwater monitoring and remediation performance evaluation.

Name	Role	Years of Exp.	Education	Brief Biography
Claire Wildman, PE	▶ Task 8 Hydrogeologic Characterization	15	▶ PhD, Environmental Science and Engineering ▶ MS, Environmental Science and Engineering ▶ BS, Civil Engineering	Applies her background in environmental engineering, water chemistry, and geochemistry to remediation and litigation technical support.
Keaton Belli, PhD	▶ Task 8 Hydrogeologic Characterization	3	▶ PhD, Biogeochemistry ▶ BS, Earth and Atmospheric Sciences	Specializes in biogeochemistry and biogeochemistry. Applies his experience in biogeochemistry, soil and groundwater sampling, and geochemical modeling to projects involving organic and inorganic contaminants in diverse geochemical and geological environments.
Michael van den Enden, PG	▶ Task 8 Hydrogeologic Characterization	16	▶ BS, Geology	Provides site investigation and remediation services; hazardous materials and hazardous waste management; asbestos, lead-based paint; PCB management; and regulatory compliance on contaminated sites across central and Northern California.
Brandon Steets, PE	▶ Task 8 Hydrogeologic Characterization	22	▶ MS, Environmental Engineering ▶ BS, Environmental Engineering	Specializes in NPDES and TMDL regulations, pollutant source investigation, watershed water quality modelling, and Green Infrastructure design. He often serves as technical expert on Clean Water Act litigation. He helped develop new guidance for state regulators nationwide, for ITRC's Stormwater BMP Performance and Harmful Cyanobacteria Bloom teams.
Scott Struck, PhD	▶ Task 8 Hydrogeologic Characterization	19	▶ PhD, Water Resources Management ▶ MS, Water Resources Engineering and Management ▶ MPA, Env. Policy and Natural Resource Mgmt. ▶ BS, Zoology ▶ BA, Psychology	Water resources experience with a focus on planning and implementation of stormwater management practices including green stormwater infrastructure to meet drainage and NPDES permit requirements. He is experienced in infrastructure prioritization, modeling, design, optimization, real-time controls, monitoring, performance assessment, economic and triple bottom line cost analyses, and integrated watershed planning. Dr. Struck serves as an associate journal editor for the Journal of Sustainable Water in the Built Environment and is currently the President of the Environmental and Water Resources Institute of the American Society of Civil Engineers.

Vendors

Vendor	Task Involvement and Service
Gregg Drilling	CPT, sonic drilling, well installation, pumping services in Task 7
AAX Engineering LLP	Utility Search and Surveying in Task 2
Fruit Growers Laboratory, Inc.	Laboratory services in Task 7
NORCAL Geophysical	Geophysical survey in Task 3

Geosyntec has worked with these firms on dozens of projects.

Gregg Drilling

Gregg Drilling, in business since 1985, offers a wide range of drilling and cone penetration testing (CPT) services for environmental and geotechnical site investigation and remediation. Gregg is widely recognized as a leader and innovator in drilling, sampling, and subsurface investigation for industry and government clients.

AAX Engineering LLP (AXXAE)

AAX specializes in supporting public improvement projects through land surveying, civil engineering, and geology. They have a capable team with strong backgrounds in surveying, utility improvements, site development, design, site remediation, geology, flood control, and roadways. This knowledge is coupled with a strong technical proficiency in related land surveying, GIS, AutoCAD, Civil 3D, and SSWMM/XPSWMM modeling software and the other crucial tools of the trade. AAX has a strong professional team including Professional Land Surveyors (PLS with FAA License), Professional Engineers (PE), and Professional Geologists (PG & CEG).

Fruit Growers Lab

Fruit Growers Lab is a local laboratory, familiar with Geosyntec's expectations for data quality and the Requirements for minimum practical quantitation limits to meet RECAP requirements.

NORCAL

NORCAL is a team of Professional Geologists and Geophysicists dedicated to providing a comprehensive range of proven geophysical technologies in support of geologic, groundwater, environmental and engineering investigations. NORCAL provides non-invasive geophysical surveys from the ground surface as well as geophysical logging in boreholes to provide images or models of subsurface conditions. Our geophysical services include carefully defining specific survey objectives, designing a cost-effective approach to meet those objectives, acquiring high quality geophysical data using state-of-the-art instrumentation, analyzing the resulting geophysical data using leading edge computer processing and inversion techniques and providing our interpretation of the results.

f. Similar Processes

Geosyntec has experience with similar processes as highlighted in the Executive Summary, References, Team References, Resumes and demonstrated in our Project Understanding and Project Approach.

g. Additional Data

No additional information is provided.

Attachments

Attachment 1-Acknowledgement of Addendum(s)

The Acknowledgement of the four addenda is provided on the following pages.

REQUEST FOR PROPOSAL (RFP)
DWTP GROUNDWATER RECHARGE IMPROVEMENTS PROJECT GEOTECHNICAL INVESTIGATION AND HYDROGEOLOGIC CHARATERIZATION REPORT FOR THE CITY OF STOCKTON, CALIFORNIA
(PUR 21-034)

ADDENDUM No. 1 DATE: 1/21/22

To All Potential Proponents:

A. This Addendum shall be considered part of the proposal documents for the above-mentioned project as though it had been issued at the same time and shall be incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original proposal documents, this Addendum shall govern and take precedence. PROPONENTS MUST SIGN THE ADDENDUM AND SUBMIT IT WITH THEIR PROPOSALS.

B. Proponents are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum. It will be construed that each Proponent's Proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

PLEASE NOTE THE FOLLOWING QUESTIONS/ANSWERS/CHANGES TO RFP (PUR 21-034). THE CITY'S RESPONSES TO QUESTIONS SUBMITTED ARE IN BLUE

Questions & Answers

1. Is there an engineer's estimate? If yes, please post to the website.

   An engineering estimate was not created for this project.

2. As required per the Attachment A – Project Submittal Checklist, please provide a copy of the "Proponent's Fee Schedule" form to be completed and signed and submitted under a separate cover. We do not see this Fee Schedule in the package, will you provide this to us?

   There is no form provided with this solicitation. Please provide a fee schedule detailing cost by task and also include an hourly fee schedule detailing the title of professionals who will perform work on this contract and their billable rate. Ensure the fee schedule accounts for pricing for the duration of the proposed term of an awarded contract and provides a not to exceed total cost.

3. Request for clarification, as noted in the Attachment A – Project Submittal Checklist, can the proposal be submitted electronically to city.clerk@stocktonca.gov? Or do you require the physical copies be submitted?

   An electronic copy is acceptable as long as it is received by the time and date specified in the solicitation documents. Please ensure pricing is identified as a separate document and that there is no pricing in the Proposal portion of your submission.

12. On Page I, Special License, the box is checked for Civil Engineer in the State of California. Does the City expect a California licensed PE as the Project Manager? Please clarify.

The City doesn't expect the project manager be a licensed PE; however, the City is requiring for a California licensed PE to be on the project team.

13. This RFP looks as though it overlaps with portions of RFP PUR 20-040 issued in 2021. Was RFP PUR 20-040 awarded and implemented? Is the data generated from RPH PUR 20-040 available for use on this project?

RFP PUR 20-040 was not awarded nor implemented.

PROPONENT MUST ACKNOWLEDGE THIS ADDENDUM BY SIGNING BELOW AND ATTACHING THE SIGNED ADDENDUM TO THE PROPOSAL:

Company Name Geosyntec Consultants, Inc.

Contact Person Joseph "Joe" Turner, PG, CHG

Signature _____

Date March 17, 2022

Proposals Due – Promptly by 2:00 P.M., Thursday, March 10, 2022, at the City Clerk's Office.

Addendum acknowledged and signed?_____(Procurement Specialist's initials)

REQUEST FOR PROPOSAL (RFP)
DWTP GROUNDWATER RECHARGE IMPROVEMENTS PROJECT GEOTECHNICAL INVESTIGATION AND HYDROGEOLOGIC CHARATERIZATION REPORT FOR THE CITY OF STOCKTON, CALIFORNIA
(PUR 21-034)

ADDENDUM No. 2 DATE: 2/2/22

To All Potential Proponents:

A. This Addendum shall be considered part of the proposal documents for the above-mentioned project as though it had been issued at the same time and shall be incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original proposal documents, this Addendum shall govern and take precedence. PROPONENTS MUST SIGN THE ADDENDUM AND SUBMIT IT WITH THEIR PROPOSALS.

B. Proponents are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum. It will be construed that each Proponent's Proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

PLEASE NOTE THE FOLLOWING CLARIFICATION

1. The following Item is removed in its entirety from Section 4 – Submittal Requirements, Subsection – 4.1 Proposal Guidelines, Content and Format:

   "Item I - If the proposal is submitted by a partnership or joint venture, the Statement of Personal History attached to the Proposal must be completed by each general partner or joint venture thereof. If the proposal is submitted by a corporation, the Statement must be completed by each principal officer of said corporation."

REQUEST FOR PROPOSAL (RFP)
GROUNDWATER RECHARGE IMPROVEMENTS PROJECT, GEOTECHNICAL INVESTIGATION AND HYDROGEOLOGIC CHARACTERIZATION REPORT FOR THE CITY OF STOCKTON, CALIFORNIA
(PUR 21-034)

ADDENDUM No. 3 DATE: 02/24/22

To All Potential Proponents:

A. This Addendum shall be considered part of the proposal documents for the above-mentioned project as though it had been issued at the same time and shall be incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original proposal documents, this Addendum shall govern and take precedence. PROPONENTS MUST SIGN THE ADDENDUM AND SUBMIT IT WITH THEIR PROPOSALS.

B. Proponents are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum. It will be construed that each Proponent's Proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

PLEASE NOTE THE FOLLOWING CHANGES TO (PUR 21-034).

The solicitation was modified as follows:

1. RFP INFORMATION Page i
CHANGE DATE:

Due Date for Questions and Clarifications: March 3, 2022; no later than 4:00 pm PST
Due Date for Response to Questions/Clarifications: March 10, 2022; no later than 5:00 pm PST
RFP Submittal Due Date & Time: March 17, 2022; no later than 2:00 pm PST

2. BACKGROUND
STRIKE LODI LOCATION

The City of Stockton (the "City") was incorporated on July 25, 1850, under the general laws of the State of California. Under the charter adopted in 1923, the City operates under a Council-Manager and appointed City Manager form of government. The Municipal Utilities Department (MUD) provides potable water service to City customers, and wastewater collection/treatment, and stormwater collection and disposal services to the greater Stockton Metropolitan Area.

In 2012, the MUD commissioned the Delta Water Supply Project (DWSP) to provide a supplemental surface water supply to its customers. The project included a river diversion and pumping station, 12 miles of 54-inch raw water pipeline, a 30 million gallon per day water treatment plant and six miles of finished water pipelines. This project, located on approximately 60 acres of a larger 130-acre parcel on Lower Sacramento Road, was designed, in part, to protect the groundwater basin through conjunctive management to improve the City's water supply reliability portfolio.

Water Treatment Plant Site - The original Draft Environmental Impact Report (DEIR, 2005) programmatically evaluated the concept of an Aquifer Storage and Recovery (ASR) project as a part of a long-term water resource planning effort for the City. During the design phase of the DWSP Staged Design-

4. SCOPE OF WORK

ADD SCOPE DESCRIPTION

Experienced geotechnical engineering firms shall prepare a detailed scope of services based in part on the requirements in this RFP, but also incorporate each proposers' project approach that is based on similar project experience.
The primary objective of this Groundwater Recharge Project Geotechnical Investigation Request for Proposal is to solicit Proposals from experienced firms that possess expertise in geotechnical investigations to establish the subsurface soil characteristics that have the likelihood of supporting a successful groundwater recharge project. The next step, (Phase II), upon confirming this site is suitable for groundwater recharge, is to develop the hydrologic analysis, environmental review and engineering design of construction-ready plans and specifications for the proposed DWTP Groundwater Recharge Improvements Project.

INSERT TASK 3 AND SHIFT THE FOLLOWING TASKS KEEPING SEQUENTIAL ORDER:

Task 3 *Surface Geophysical Survey*

Consultant shall conduct a surface geophysical survey of the DWTP recharge pond sites utilizing the Electrical Resistivity Profiling (ERP) method. The ERP method measures the lateral and vertical variation of electrical resistivity (ER) beneath a given transect (line). ERP data are acquired using an Advanced Geosciences Inc. (AGI) SuperSting R8 Resistivity/IP Earth Resistivity meter. Data are acquired along each transect using the dipole-dipole and strong gradient array configuration with up to 56-electrodes. Measurements are made at transmitter-receiver separations (n-spacings) of at least 1 through 8 using an electrode separation (a-spacing) of 30-ft. This results in a depth of detection of approximately 400- to 450-ft. After the initial acquisition along the 56-electrode array is completed, data are acquired by rolling along each line in 14- to 28-electrode increments until the total distance of each line is reached. Data post-processing and numerical modeling is accomplished using EarthImager 2D to generate 2-dimensional (x-z) geo-electric cross-sections of electrical resistivity along each survey line.

Deliverable: Geotechnical survey analysis report, including lithologic and stratigraphic data interpretation.

ADD TASK 9:

Task 9 *Feasibility Report*

This task will compile results of the geotechnical and hydrogeologic characterization into a Groundwater Recharge and Recovery Project Feasibility Report. This report shall confirm the following:

- Suitability to recharge surface-applied water in terms of feet/day over the site and an estimate of the annual quantity of water capable of being recharged to the underlying groundwater basin
- Potential for groundwater recovery in terms of million gallons per day or acre-feet per year
- Recommendation for monitoring groundwater movement to determine the volume of water recharged and available for recovery without negatively impacting the groundwater basin and/or nearby private (or public) wells
- Preliminary basin layout that considers the existing surface water delivery locations and how water is best distributed and managed across the site
- Environmental clearance requirements

Statement must be completed by each principal officer of said corporation.

K. The original proposal must have wet ink signatures. Modification to a proposal after the proposal submittal deadline will not be accepted by the City.

PROPONENT MUST ACKNOWLEDGE THIS ADDENDUM BY SIGNING BELOW AND ATTACHING THE SIGNED ADDENDUM TO THE PROPOSAL:

Company Name Geosyntec Consultants, Inc.

REQUEST FOR PROPOSAL (RFP)
GROUND WATER RECHARGE IMPROVEMENTS PROJECT GEOTECHNICAL INVESTIGATION AND HYDROGEOLOGIC CHARACTERIZATION REPORT FOR THE CITY OF STOCKTON, CALIFORNIA
(PUR 21-034)

ADDENDUM No. 4 DATE: 3/10/2022

To All Potential Proponents:

A. This Addendum shall be considered part of the proposal documents for the above-mentioned project as though it had been issued at the same time and shall be incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original proposal documents, this Addendum shall govern and take precedence. PROPONENTS MUST SIGN THE ADDENDUM AND SUBMIT IT WITH THEIR PROPOSALS.

B. Proponents are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum. It will be construed that each Proponent's Proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

PLEASE NOTE THE FOLLOWING QUESTIONS/ANSWERS/CHANGES TO (PUR 21-034). THE CITY'S RESPONSES TO QUESTIONS SUBMITTED ARE IN BLUE

Questions & Answers

1. Please clarify if both a Preliminary Design Report (PDR) indicated in the Revised Notice and the Feasibility Report described in Addendum No. 3 (new Task 9) are to be prepared? If a PDR is to be prepared, which task would that document be associated with in the scope of work and what are the required contents of the PDR?

The Feasibility Report described in Addendum No. 3 (new Task 9) is to be prepared with respects to the scope of work. A stand-alone Preliminary Design Report (PDR) is not required. Any work and information related to a PDR would be part of the Feasibility Report. There is no specific scope of work or required contents for a PDR.

2. Please provide the requirements of the topographic survey to be performed in Task 2 including a scaled map showing the survey area boundaries and dimensions, contour interval and survey standard.

The horizontal and vertical coordinate system and datums will be based on the North American Datum of 1983 (NAD83) converted to the California Grid Coordinate System of 1983, Zone 3 (CA83111-F) as referenced by the City of Stockton Horizontal Control System.

The vertical datum will be based on the National Vertical Datum of 1929 (NGVD29) as referenced by available City of Stockton 1996 Local Adjustment (COS96) benchmarks.

The area to be surveyed is to be suggested by the proposer. It is recommended for the proposal to explain why the area was chosen.

3. Are there specific bonding requirements for consulting firms or their subcontractors? If so, please specify the requirements pertinent to submittal of this proposal.

There are not specific or separate bonding requirements for consulting firms or their

method outlined in task 3.

11. Based on the language in the addendum and review of the AGI website, it appears that only AGI can provide this service, so are they going to be available to be on every team that is submitting?

Questions related to AGI's or alternative method provider's availability need to be addressed to them. Please also see the responses to question 8 and 10.

12. With it scoped to this level of detail, did AGI provide the cost estimate to deliver this service?

The City did not receive a cost estimate from AGI for this Groundwater Recharge Project (PUR 21-034). Please also see the responses to question 8 and 10.

13. Is there anything proprietary about their tools, approach, data processing, and deliverables?

Questions related to AGI or alternative provider's tools, approach, data processing, and deliverables need to be addressed to them. Please also see the responses to question 8 and 10.

14. In addendum 3, the page limit is 30 pages excluding resumes. Does this also exclude our financial statement, acknowledgment of addendums (4), proponent's covenant, non-collusion affidavit?

Financial annual report, acknowledgment of all addendums, proponent's covenant, and non-collusion affidavit will be excluded from the page limit.

15. If you need signatures from all of our principal officers, they are all in different locations, can these be electronic signatures?

YES.

16. Addendum No. 1, #3 seems to indicate that proposals can be submitted electronically instead of by physical copy. However, Addendum No. 3, which rewrites Section 4.1 Proposal Guidelines, Content and Format does not include this option.

See answer to question 9.

17. Are wet signatures required anywhere on a hard copy submittal?

The original proposal must have wet ink signatures.

18. The following item is removed in its entirety from addendum 3 Section 5 – Submittal Requirements, Subsection J.

"If the proposal is submitted by a partnership or joint venture, the Statement of Personal History attached to the proposal must be completed by each general partner or joint venture thereof. If the proposal is submitted by a corporation, the statement must be completed by each principal officer of said corporation."

PROPONENT MUST ACKNOWLEDGE THIS ADDENDUM BY SIGNING BELOW AND ATTACHING THE SIGNED ADDENDUM TO THE PROPOSAL:

Attachment 2- Proponent's Covenant

The executed Proponent's Covenant is provided on the following page.

ATTACHMENT B- PROPONENT'S COVENANT

In submitting this proposal, as herein described, the Proponent agrees that:

1. They have carefully examined the Scope of Work and all other provisions of this document and understand the meaning, intent and requirements of same.
2. They will enter into contract negotiations and furnish the services specified.
3. They have signed and notarized the attached Non-Collusion Affidavit form, whether individual, corporate or partnership. Must be 'A Jurat' notarization.
4. They have reviewed all clarifications/questions/answers on the City's website at www.stocktonca.gov/adminbid.
5. Confidentiality: Successful Proponent hereby acknowledges that information provided by the City is personal and confidential and shall not be used for any purpose other than the original intent outlined in the Request for Proposal. Breach of confidentiality shall be just cause for immediate termination of contract agreement.

Attachment 5-Resumes

Key staff resumes are provided on the following pages.

Joseph "Joe" Turner, PG, CHG

Senior Consultant

34 Years of Experience
2 Years with Geosyntec

Project Roles
- Project Manager
- Task 1 Lead
- Task 3 Lead
- Task 8 Lead

Specialties
- Landfill Title 27 Compliance
- Groundwater Remediation
- Well Design and Installation
- Environmental Site Assessment and Closure

Education
- MS, Geologic Sciences, San Diego State University, San Diego, California, 1986
- BS, Marine Geology, San Diego State University, San Diego, California, 1983

Registration & Certifications
- California Professional Geologist No. 5125
- California Certified Hydrogeologist No. 454

Career Summary

Joe has more than 33 years of experience providing hydrogeologic services from the southern end of California in El Centro and San Diego to the northern end in Crescent City and Tulelake. His experience includes design and installation of pilot and full-scale infiltration basins, feasibility assessment of flood-managed aquifer recharge (Flood-MAR) using infiltration basins and/or dry wells, and assessment of aquifer storage and recovery wells. Joe has also designed and performed large-scale investigations to assess recharge mechanisms using infiltration testing, geophysical methods, aquifer testing, isotopic analysis, and surface water/groundwater interaction assessments using stream gauging and temperature profiling. He is also the geologist of record for preparation of Groundwater Sustainability Plans (GSPs) in compliance with Sustainable Groundwater Management Act for the Sutter, Vina, and Wyandotte Creek Subbasins located in Northern California that require assessment of recharge mechanisms for the basins. Joe has published papers describing methods to assess aquifer characteristics, aquifer interactions, recharge mechanisms, and development of criteria to recognize geologic formation boundaries during drilling including the primary geologic formations that occur at the DWTP site.

Relevant Project Experience

On-Call Groundwater Consultation and Infiltration Basin Pilot Test, *Sacramento County Waste Management Department*
As program manager and principal hydrogeologist, Joe provided consultation to the county on groundwater issues associated with active and inactive landfills. At the active Kiefer Landfill, Joe led the design and implementation for pilot test of an infiltration basin for use in infiltrating treated groundwater back into the groundwater system. The assessment included detailed monitoring of aquifer effects from the infiltrated groundwater using detailed analysis of hydrographs, water quality data, and knowledge of the overall regional hydrogeologic conditions. The pilot test was successful, and Joe assisted the County in obtaining a permit from the Regional Water Quality Control Board for full-scale operation.

Aquifer Storage and Recovery (ASR) Pilot Test*, South Fork Kings Groundwater Sustainability Agency*
Joe is the senior principal hydrogeologist for this ASR Pilot Test being completed by the recently completed GSP for the Tulare Lake Subbasin. The pilot test consists of injecting surface waters from a nearby canal system into existing supply well then extracting the water for use in irrigation practices as a test for ASR within the region. Project included response to comments to project Work Plan from the Regional Water Quality Control Board that included performance of aquifer test to assess potential hydraulic and water quality effects on nearby domestic wells. The Work Plan was approved based on data from the aquifer test and begin in the Summer of 2021 and is currently ongoing. Injection rates for the test range between 600 to 800 gallons per minute. Joe assisted with initial startup of the system to improve efficiencies with the injection that included developing injecting process that did not allow air to enter the well screen.

Proof of Concept Analysis, Flood-Managed Aquifer Recharge, American River Groundwater Basin*, Sacramento Area Flood Control Agency*
Joe acted as project manager and senior principal hydrogeologist for this feasibility study to assess if sediments within the Study Area are conducive to Flood-MAR using dry wells and water from adjacent canal system. The primary objective of this analysis was to identify if there are any "fatal flaws" that would result in a Flood-Mar project not working at the anticipated location within the Study Area. Specific objectives of this analysis included: 1) demonstrate that subsurface materials within the Study Area have the potential to allow adequate infiltration in this Flood-MAR project, 2,000 acre-feet of water for a pilot test and 14,000 acre-feet of water for full-scale implementation, to the regional groundwater aquifer systems; 2) demonstrate that dry well technology can successfully infiltrate the anticipated volume of water during this

Flood-MAR project; and, 3)demonstrate that a Flood-MAR project within the Study Area consisting of both infiltration and later extraction will not adversely affect known contaminant plumes in the area. The results of these analyses were also used to identify data needs for a Flood-MAR project so that a work plan for the pilot study can be developed.

Lower Tuscan Aquifer (LTA) Investigation and Stable Isotope Recharge Study, *Butte County Department of Water and Resource Conservation (BCDWRC), CA*
Joe acted as a project manager and chief hydrogeologist for this 3-year project funded by a DWR-awarded Proposition 50 Grant. Butte County oversaw the project in cooperation with a four-county group comprised of Butte, Tehama, Colusa, and Glenn counties. The project objective was to further the scientific understanding of the LTA system by assessing the recharge areas that included the collection, analysis, and interpretation of the stable isotopes deuterium and oxygen-18. Other activities included design and installation of nested monitoring wells and design, performance, and interpretation of aquifer tests conducted using pumping of agricultural wells during normal irrigation practices. Other activities included conducting infiltration testing, assessing groundwater interaction through the installation of monitoring wells, performance of aquifer pumping tests, water quality interactions between surface water and groundwater, and stream aquifer interaction. Joe was the author for development of field sampling plans that included identifying geologic formation boundaries from lithologic samples collected during drilling. Joe helped BCDWRC with coordination and facilitating public outreach programs and meetings with a Technical Steering Committee. The data collected from this project were critical in framing the basis for future studies of the aquifer system including the need for additional isotopic studies.

Preparation of Groundwater Sustainability Plan, Sutter Subbasin, *Sutter County, CA*
As the senior principal hydrogeologist for preparation of the Sutter Subbasin GSP funded by a DWR-awarded Proposition 1 Grant, Joe was responsible for development of the hydrogeologic conceptual model (HCM) and assessment of aquifer interactions and source of salts identified within specific zones of the basin. The assessment included development of detailed hydrographs from numerous nested wells within the basin used to assess aquifer interactions and stresses on the overall basin and water quality data used to assess zones where impacts from natural conditions such as arsenic, iron, and manganese occurred.

Completion of Groundwater Sustainability Plans (GSPs) for the Vina and Wyandotte Creek Subbasins, *Butte County Department of Water and Resource Conservation (BCDWRC), CA*
Joe is the project manager and senior principal hydrogeologist for completion of these GSPs funded by a DWR-awarded Proposition 1 Grant. As part of this project, Joe provided review and comments to development of hydrogeologic conceptual models based on previous work done in the basins, assessment of groundwater monitoring networks, and development of sustainable management criteria, estimates of the sustainable yield, and project management actions and projects in accordance with California's Sustainable Groundwater Management Act. Joe also assisted in the interpretation of the AEM survey with regards to geologic formations presented as a cross-section for the Vina Subbasin GSP.

As-Needed Groundwater Consulting, *Sustainable Groundwater Management Act (SGMA), City of San Diego Public Utilities Department, San Diego, CA*
Joe was the Program Manager and Senior Principal Hydrogeologist providing groundwater supply evaluations. This was one of the first comprehensive contracts for the statewide SGMA, recently enacted by the state to monitor and manage California's groundwater resources. Individual projects for this contract are listed below:

- ***Development of HCM and Assessment of Groundwater Levels****, San Pasqual Valley Groundwater Basin*
  Joe was the Project Manager and Senior Principal Geologist for development of hydrogeologic conceptual model (HCM and assessment of groundwater level trends with the groundwater basin. The review was conducted to identify data gaps in the HCM, assess seasonal variations in groundwater trends, assess interactions with surface water and groundwater and effects from agricultural pumping, interactions between basin aquifers and underlying bedrock fractured system, provided recommendations for development of data management system consistent with SGMA, and review relevance of existing groundwater model of basin for use as part of the SGMA process.
- ***Groundwater Quality Resource Stewardship Assessments****, San Pasqual Valley Groundwater Basin*
  Joe was the Project Manager and Senior Principal Hydrogeologist for project designed to develop a tool that can be used to assess existing and future operations within the groundwater basin and provide a roadmap for acceptable operations that will improve groundwater quality within the basin. Project Included initial assessment of potential sources identified agricultural water impacts both within and outside the groundwater basin, literature search and preliminary GIS assessment and mapping, development of a site prioritization and ratings table, and development of custom Excel spreadsheet tool for use as management tool to assess future operations within the basin.

Joe Turner, PG, CHG

- ***Installation of Nested Monitoring Wells, Aquifer Testing, Aquifer Recharge Assessment, and Preparation of Monitoring Plan**, San Pasqual Valley Groundwater Basin*
  Joe was the Project Manager and Senior Principal Hydrogeologist for project designed to provide data for use in development of Groundwater Sustainability Plan. The project included: design, installation, and development of nested monitoring wells with screens within basin sediments, weathered bedrock, and bedrock; downhole geophysical logging to assess orientation of fractures and which fractures produced water; collection of water quality data including stable isotopes to assess recharge within the basin; design of aquifer testing program using normal operations of agricultural supply wells; and preparation of monitoring plan required by DWR.
- ***Long Range, Reservoir-Basin Conjunctive Use Pre-Feasibility Assessment**, El Monte and Moreno Groundwater Subbasins*
  Joe was the Project Manager and Senior Principal Hydrogeologist for study of long-range planning and conjunctive use and system optimization of the San Vicente reservoir, El Capitan reservoir, and the El Monte Valley and Moreno Valley groundwater subbasins. The study included a variety of groundwater recovery and extraction methods for the pre-feasibility assessment of conjunctive use alternatives between groundwater basins, reservoirs, and conveyance systems using a combination of aquifer recharge and storage (ASR) wells, standard extraction wells, and streambed percolation. The San Diego Simulation Model Version 4 was used to run simulations of the different alternatives.

***Salinas River Valley Groundwater Basin Study**, Monterey County Water Resources Agency, CA*
Joe was the technical manager and chief hydrogeologist for this 5-year project to conduct a comprehensive water resources assessment of Zone 2C of the county's Salinas River Groundwater Basin. This two-part study was developed as part of the Monterey County Board of Supervisors Referral and the litigation settlement agreement between the Salinas Valley Water Coalition and the County of Monterey. The first part included a near-term assessment of the health and status of Zone 2C with regards to potential water supply issues, such as seawater intrusion, should current drought conditions continue. The assessment included developing a hydrogeologic conceptual site model, evaluating groundwater level and gradient changes resulting from historical pumping, developing water balance, and assessing water quality conditions. The results of the first part of the study were provided to Monterey County in a State of the Basin Report. He also reviewed stable isotope data for use in assessing recharge sources and effects of seawater intrusion and assisting with the coordination and facilitation of a technical steering committee and public outreach program.

***SGMA Technical Assistance and Modeling Support**, California Department of Water Resources (DWR), CA*
Joe was a senior principal hydrogeologist for this contract and provided DWR with expert technical advice and consultation in service areas related to water budget development and integrated groundwater and surface water modeling. He assisted with the development of technical specifications for siting, design, and installation of groundwater monitoring networks that comply with SGMA. These specifications included initial assessment of the hydrogeologic environment and development of logging criteria of samples collected during drilling, specifically for identifying individual geologic formations. Drilling methods used for these wells involved mud-rotary, air-rotary, and reverse-circulation.

Amer Hussain, PE

Senior Principal

31 Years of Experience
5 Years with Geosyntec

Project Roles
- Principal-in-Charge
- Task 9 Lead

Specialties
- Water Resources Evaluation and Development
- Groundwater Investigation and Remediation
- Civil Engineering
- Geotechnical Engineering

Education
- MS, Civil Engineering, California State University Fresno, 1995
- BS, Civil Engineering, California State University Fresno, 1989

Registration & Certifications
- California Professional Engineer No. 57343

Career Summary

Amer has more than 30 years of experience in civil and environmental engineering design. His experience includes preparation of design drawings, technical specifications, and bid documents. He understands the importance of a "buildable" design to minimize costly change orders during construction. Amer has previously been the Engineer of Record for design projects at a landfill site and provided geotechnical engineering services for a Superfund site. His project experience includes proposal development, project budget management, program design, work plan preparation, field supervision, data analysis, project QA/QC, and technical report preparation. He has extensive experience with Phase I Environmental Site Assessments (ESA), Preliminary Endangerment Assessments (PEAs), Phase II investigations, UST removals, groundwater monitoring/vapor extraction well installations, and soil and groundwater remediation system operations.

Relevant Project Experience

***South Fork Kings GSA SGMA Support**, Kings County, CA*
Amer served as the project manager to support the preparation of the Groundwater Sustainability Plan (GSP) for the GSA that included feasibility analysis of proposed projects. Other responsibilities included extensive public outreach to various stakeholder groups. This included actively engaging with members of the public to address their concerns and incorporate solutions into the document.

***Aquifer Storage and Recovery (ASR) Pilot Test**, South Fork Kings Groundwater Sustainability Agency*
Amer is the project manager and senior principal engineer for this ASR Pilot Test being completed by for the Tulare Lake Subbasin. The pilot test consists of injecting surface waters from a nearby canal system into existing supply well then extracting the water for use in irrigation practices as a test for ASR within the region. Prior to conducting the project, Amer prepared a feasibility study for the project that was used to develop a Work Plan that was submitted to the Regional Water Quality Control Board for approval. The Work Plan was approved the ASR pilot test begin in the Summer of 2021. Injection rates for the test range between 600 to 800 gallons per minute.

Engineering (Feasibility) Evaluation, Proposed Recharge Facility, Tulare County, California, Crescent Management, LLC. Amer is the project manager and senior principal engineer for this engineering evaluation (feasibility study) of a 60-acre parcel located near the City of Terra Bella, California. The goal of the project was to provide the client a preliminary feasibility assessment of the site as a groundwater recharge facility prior to purchase of the property. Specific objectives for the project included estimating the rate of recharge that could occur on the site and the expected fate of the recharge water and identifying data gaps needed to fully assess the recharge potential of the Site and provide recommendations for collecting these data.

***Completion of Groundwater Sustainability Plans (GSPs) for the Vina and Wyandotte Creek Subbasins,** Butte County Department of Water and Resource Conservation (BCDWRC), CA*
Amer was the lead engineer for completion of these GSPs funded by a DWR-awarded Proposition 1 Grant. As part of this project, Amer prepared feasibility studies and cost analysis for proposed projects that included assessment of recharge basins throughout Butte County. Other responsibilities included extensive public outreach to various stakeholder groups. This included actively engaging with members of the public to address their concerns and incorporate solutions into the document.

***Confidential Client SGMA Support**, Various Counties, CA*
Amer served as the project manager representing a private agricultural business with multiple landholdings in various GSAs. He was responsible for coordinating their efforts to understand how different GSPs will impact their operations.

***Various Irrigated Lands Programs**, Tulare and Kern Counties, CA*
Amer served as the project manager for the monitoring and analytical programs for several coalitions. He assisted with the preparation of the updated QAPP documents. In addition, he oversaw the field monitoring crews to ensure quality control.

***Madera Irrigation District Monitoring Program**, Madera, CA*
Amer oversaw the groundwater monitoring program for evaluating groundwater quality in eastern Madera County. The program included sampling and monitoring wells to evaluate potential impacts from dairy operations in the area.

***Process Water Reuse**, Confidential Oil and Gas Client, Kern County, CA*
Amer developed a monitoring program to assist the client with permitting the use of oil field process water for agricultural use. He provided oversight on the treatment system design and implementation. He also prepared the Report of Waste Discharge and performed the anti-degradation analysis.

***Monitoring Network Cardoza Recharge Basin**, Tulare Irrigation District, Tulare County, CA*
Amer oversaw the design and construction of a monitoring well network to evaluate recharge in the District's boundaries associated with recharge basins. The evaluation was key to the location of future recharge basins.

***Pinedale Groundwater Plume**, The Vendo Company, Fresno, CA*
Amer assisted with the development of various plans, including a half-mile forced main pipeline, groundwater capture zone analysis, groundwater data evaluation, and removal action plan implementation.

***Monitoring Network Cardoza Recharge Basin**, Tulare Irrigation District, Tulare County, CA*
Amer assisted the district with the selection and construction of a monitoring well network to evaluate recharge in the district's boundaries associated with recharge basins.

***New Football Stadium**, Merced Union School District, Phase I, CA*
A recent Phase I assessment included the location of the new football stadium for Merced Union School. The site is located adjacent to the existing school within the City of Merced, as such a number of ongoing groundwater investigations were identified and evaluated for potential impacts.

***UST Assessments and Remediation**, City of Merced, CA*
Prior to joining Geosyntec, Amer served as the project manager and lead engineer for two UST sites in the City of Merced. The projects included extensive groundwater assessments over multiple blocks and at multiple depths. Several groundwater monitoring wells were installed and monitored to evaluate groundwater quality over time. Two soil vapor extractions systems were designed and installed to address the containment at the source. In addition, an in-situ oxidation system was installed to treat groundwater to cut-off plume migration from potentially impacting a City well.

***Chlorinated Volatile Organic Compounds Assessment and Remediation**, DTSC, Delano, Kern County, CA*
Amer served as the principal lead for the Delano Groundwater Plume Project. DTSC created the project to further investigate and mitigate the sources of PCE contamination released to soil and groundwater from multiple dry cleaners in the downtown Delano area. Geosyntec is the lead consultant, and provides oversight of multiple source evaluations, identification of potentially responsible parties (PRPs), conducts soil vapor, indoor air, and groundwater investigations, develops remediation approaches, and monitoring and reporting soil gas and groundwater. Project work by Geosyntec has included data compilation from previous investigations, CSM development, and data gap identification. Critical data gaps identified included potential for impacts to City of Delano water supply wells, potential exposure from soil vapor to indoor air, and vertical delineation of PCE near the primary source areas. Geosyntec is currently reviewing the performance of an SVE pilot test, finalizing a PRP search, preparing a Removal Action Work Plan (RAW) for two source areas, supporting the California Environmental Quality Act (CEQA) requirements including Public Notification for the selected removal action, collecting pre-design data including the installation of soil vapor wells and, designing SVE systems to remediate PCE source areas. The PRP search will be used by the DTSC's legal group to pursue responsible parties for participation in the City PCE investigation and cleanup. The RAW will present a source area remedy that will cut off source area releases and will also mitigate vapor intrusion to indoor air. Geosyntec is also supporting the DTSC in its public participation process by responding to a local action group.

Robert "Bob" Anderson, LHG, CWRE

Senior Principal

32 Years of Experience
7 Years with Geosyntec

Project Roles
- Senior Technical Advisor

Specialties
- Aquifer characterization
- Water Supply Development
- Groundwater modeling
- Stream-Aquifer Interaction
- Water rights
- Mining and geotechnical
- Geophysics

Education
- MS, Hydrogeology and Geophysics, University of Wisconsin, Milwaukee, Wisconsin, 1987
- BS, Geology, University of Washington, Seattle, Washington, 1983

Registration & Certifications
- Professional Geologist with Hydrogeology Specialty license (LHG), Washington #636
- Certified Water Rights Examiner (CWRE), Washington, #22

Career Summary

Mr. Anderson has 30 years of professional consulting experience in hydrogeology and geophysics providing technical and project management support to clients in the western U.S. on groundwater resource characterization and management. He has supported public and private clients on a wide variety of surface water and groundwater projects including water supply development, aquifer exploration, water rights, water quality characterization, mining hydrogeology, basin planning, source water protection, and regulatory compliance. Bob is respected by regulators and works well with stakeholder groups addressing issues associated with water resources and water quality management. He is an expert on groundwater-surface water interaction and an accomplished modeler across a variety of modeling platforms.

Relevant Project Experience

***Salem Aquifer Storage and Recovery MODFLOW Groundwater Model**, City of Salem Oregon*
Lead hydrogeologist for modeling of aquifer response to injection of 10 million gallons per day (MGD) of treated drinking water into a confined basalt aquifer.

***Yakima Basin FEFLOW Groundwater Model for Aquifer Storage and Recovery**, Yakima Washington*
Project director for modeling of 2 MGD capacity injection wells for water supply in a sub-basin with unique geologic structures that control basin-scale groundwater surface water interactions.

***Snohomish County Critical Aquifer Recharge Area Delineation**, Everett, Washington*
Delineated critical aquifer recharge areas and well head protection areas for Snohomish County.

***Critical Aquifer Recharge Area Delineation**, City of Woodinville*
Technical lead and project manager for delineation of CARA's and stakeholder/city council interface.

***Tulare Lake Basin**, California*
Project director for development of a Groundwater Sustainability Plan (GSP) for the South Fork Kings GSA in the Tulare Lake Basin. Addressing complex agricultural demand issues, surface and groundwater availability, and subsidence. Developed visualization of groundwater flow and infiltration from the Kings River. Evaluated aquifer storage and recovery (ASR) as a potential planning action to offset groundwater overdraft.

***Borrego Basin**, California*
Senior technical advisor and quality assurance manager for development of a Groundwater Sustainability Plan (GSP) for the Basin.

***Salinas Basin**, California*
Technical review of hydrogeologic conceptual model for the Salinas Basin.

***Santa Ynez Basin**, California*
Technical support for public outreach components of Groundwater Sustainability Plan.

***Confidential Client**, California*
Ongoing SGMA and groundwater development advice to a grower with multiple properties in Kern and Kings County. Conducting site-specific water budgets for selected facilities to assess potential SGMA impacts to operations.

***Confidential Client**, California*
Ongoing SGMA support for a client with multiple industrial facilities throughout California. Conducting site-specific water budgets for selected facilities to assess potential SGMA impacts to operations.

Sustainable Groundwater Management Act (SGMA) Support, Los Angeles Basin, California
Project director for on-call support to Los Angeles Department of Water and Power related to formation of Groundwater Sustainability Agency (GSA) and development of a Groundwater Sustainability Plan (GSP) for the Santa Monica groundwater basin.

***Tanana Basin MODFLOW-USG Integrated Groundwater Flow and Transport Model**, Fairbanks, Alaska*
Lead hydrogeologist and task manager for development of a comprehensive base-wide groundwater flow and transport model at Eielson Air Force Base. The model is constructed in the recently released MODFLOW-USG (Unstructured Grid), which is the first major revision to MODFLOW's numerical solution, using volume-based finite difference calculations.

***Tulare Lake Basin MODFLOW Groundwater Model**, Lemoore, California*
Part of a multi-consultant team working on various aspects of a groundwater sustainability plan (GSP) required to comply with California's Sustainable Groundwater Management Act (SGMA). Provided peer review of a regional MODFLOW model in the Tulare Lake Bed area of the San Joaquin Basin and utilized the model for scenario analysis. The multi-layer transient model includes capability for modeling of irrigation delivery, crop water demand, and ground subsidence.

***Spokane River MIKE-SHE Integrated Groundwater-Surface Water Model**, Spokane Basin, Washington*
Project manager for development of a complex, integrated groundwater/surface water model of the Spokane River watershed. The main goal of the model was to support decision making during development of a watershed plan. The model simulates all hydrologic processes within the watershed.

***Issaquah Valley Aquifer System MODFLOW Integrated Groundwater-Surface Water Model**, Issaquah, Washington*
Lead hydrogeologist for modeling of wellfield withdrawal scenarios and impacts to streamflows in a glaciofluvial hydrogeologic setting. Conducted fieldwork for model calibration that included streambed piezometers and lakebed seepage meters to measure groundwater fluxes.

***Cross Valley Aquifer MODFLOW Groundwater Model and Capture Zone Delineation**, Everett Washington*
Project manager for modeling of capture zones in a wellfield tapping multiple aquifers in a glaciofluvial hydrogeologic setting. Conducted fieldwork for model calibration that included pumping tests and monitoring across different aquifer zones.

***Snoqualmie Basin MODFLOW Integrated Groundwater-Surface Water Model**, Snoqualmie Basin, Washington*
Project manager for modeling of potential impacts from developing a 40 MGD wellfield in the upper Snoqualmie Valley. The multi-aquifer system has a complex geometry, prolific mountain front recharge, and significant interaction with the Snoqualmie River. Conducted fieldwork for model calibration that included geophysical exploration and pumping tests with monitoring across different aquifer zones.

***Couer d'Alene Lake CE-QUAL-W2 and PHREEQUE Water Quality Model**, Couer d'Alene, Idaho*
Project manager for comprehensive water quality modeling of Couer d'Alene Lake to support relicensing of a hydroelectric project. Water quality issues included total dissolved gas, trace metal inflows from adjacent mining areas, low dissolved oxygen, and temperature. CE-QUAL-W2 was used to simulate primary hydrodynamics processes and PHREQUE was integrated into the analysis to examine release of trace metals during periods of low dissolved oxygen in the hypolimnetic areas of the lake. Various scenarios were analyzed with and without hydroelectric operations.

***Ahtanum Creek GoldSim model of stream/aquifer interaction and irrigation delivery**, Yakima Washington*
Project manager for flow routing analysis of irrigation delivery and streamflows from a proposed water storage project. The model was developed to simulate various scenarios of water delivery based on crop types and incorporated year-to-year variations in hydrologic inputs to the proposed reservoir. The model was created using GoldSim, a systems dynamics model capable of incorporating complex uncertainty and feedback loop processes in a time-based simulation environment.

Gordon Thrupp, PhD, PG, CHG

Senior Consultant

44 Years of Experience
16 Years with Geosyntec

Project Role
- Senior Technical Advisor

Specialties
- Geology and Hydrogeology
- Groundwater Modeling
- Water Resources Assessments

Education
- PhD, Earth Sciences, University of California, Santa Cruz, 1987
- BS, Geology, Stanford University, 1980

Registration & Certifications
- Registered Geologist, California, Number 5849, Arizona, Number 58233
- Certified Hydrogeologist, California, Number 541

Career Summary

Dr. Thrupp has forty years of experience providing geological and hydrogeological consulting services to industrial and municipal clients. For numerous projects, he has conducted hydrogeologic evaluations and developed groundwater flow models as tools for assessing water resources and engineering design alternatives, designed wells and hydraulic testing programs, evaluated aquifer-testing and streamflow data, prepared and reviewed technical reports for CEQA projects, and negotiated permit conditions with regulatory agencies.

Applications of his hydrogeologic analyses and groundwater modeling include:
- Groundwater resources and sustainable yield evaluations
- Recharge feasibility studies, and design of infiltration basins
- Modeling of enhanced recharge and aquifer storage and recovery
- Investigation of contaminant migration and design of remediation alternatives
- Evaluation of hydraulic connection between surface water and groundwater
- Construction dewatering design
- SB610 water supply assessments and technical studies for CEQA projects

Relevant Project Experience

***Feasibility Study of Recharge of Recycled Water**, Newhall County Water District, Castaic, CA*
Dr. Thrupp directed the compilation of hydrogeologic information and development of a groundwater model to evaluate feasibility of recharging recycled water in the Santa Clara River alluvial aquifer for augmentation of groundwater supply. The MODFLOW groundwater model served as a tool to estimate infiltration capacity, mounding of the water table, groundwater flow direction and velocity, feasible pumping rates of wells to recover the infiltrated water, and residence time. The analysis determined that the project was of limited benefit due to the small storage capacity and insufficient residence times of groundwater between recharge basins and production wells.

***Evaluation of Influence of Recharge Basins on a Plume of VOCs in Groundwater**, Chino Basin, General Electric Corporation, Ontario, CA*
Dr. Thrupp evaluated remedial alternatives and protection of municipal supply wells from two plumes of VOCs and chromium in groundwater in the Chino Basin. He compiled hydrogeologic and geophysical data, conducted aquifer testing, and developed groundwater flow and transport models incorporating supply wells and infiltration from stormwater detention basins. He designed two 1,000 GPM extraction wells, collected samples bottom of the recharge basins, and recommended rehabilitation of the basins that resulted in a ten-fold increase in percolation rate. He also modeled the influence of increased recharge on the distribution of VOCs in groundwater. He collaborated with the Chino Basin Water Master, IEUA, the City of Ontario, and the Regional Water Quality Control Board to protect and manage groundwater resources in Chino Basin.

***Groundwater Modeling and Design of Injection Wells,** Olin Corporation, Morgan Hill, CA*
Dr. Thrupp developed and used a groundwater model to evaluate the feasibility of remediation alternatives for containment of perchlorate impacts to groundwater. He designed, installed, and tested three injection wells that are used to re-inject treated groundwater into a shallow alluvial aquifer. The injection capacity of wells has continued to exceed project needs for several years.

***Review of Groundwater Modeling to Evaluate Feasibility of In-Lieu Recharge**, San Francisco PUC, San Mateo and San Francisco Counties, CA*
Dr. Thrupp reviewed groundwater modeling to evaluate feasibility of in-lieu recharge when excess imported water is available and increased pumping when imported water is scarce. He indicated that the recharge rates assigned to the model were unusually high and that because precipitation mainly replenishes the shallow aquifer, the potential for depletion of the deeper aquifer in which the pumping occurs is a concern.

Gordon Thrupp, PhD, PG, CHG

***Salinas Valley Basin Groundwater Sustainability Plans**, Salinas Valley Basin GSA, Monterey County, CA*
Dr. Thrupp was lead hydrogeologist and project manager for Geosyntec on the Montgomery & Associates consulting team engaged by the Salinas Valley Basin GSA to prepare the GSP for the 180-400 foot subbasin, which is a high priority basin due to saltwater intrusion of the coastal margin aquifers. Gordon compiled, reviewed, and documented information for the hydrogeologic conceptual model, including the subbasin setting, basin boundaries, water balance, geologic structure and stratigraphy, soils, aquifer characteristics, recharge and discharge areas, groundwater and surface water interaction, water quality, and groundwater dependent ecosystems. He also developed groundwater models as tools to evaluate feasibility of engineering measures to help curtail seawater intrusion and achieve sustainable utilization of groundwater resources. This multidisciplinary project involved numerous consultants, stakeholders including landowners and regulatory agencies, and the Monterey County Water Resources Agency.

***East Bay Plain Groundwater Sustainability Plan (GSP)**, East Bay Municipal Utility District (EBMUD), Alameda County, CA*
Geosyntec is a key member of the Luhdorff & Scalmanini, Consulting Engineers (LSCE) team engaged by the EBMUD and the City of Hayward to prepare a GSP for the East Bay Plain Sub-Basin. Dr. Thrupp oversaw the development of a groundwater flow model as a tool to assess sustainable yield of groundwater, evaluate feasibility of potential projects to utilize groundwater resources during droughts, and develop monitoring criteria for management of groundwater resources in the East Bay Plain.

***Basin Evaluation and Water Supply Feasibility Study**, Soquel Creek Water District, CA*
Dr. Thrupp evaluated alternatives to enhance water supply for the Soquel Creek Water District. Evaluated alternatives included additional groundwater pumping, enhancement of recharge, a shared County desalinization plant, diversion from Soquel Creek, exchange of water with an adjacent district, and groundwater banking with aquifer storage and recovery (ASR) wells. Subsequently, Dr. Thrupp was on an advisory panel convened by the National Water Research Institute (NWRI) for the District's PURE Water Soquel Groundwater Replenishment Project.

Water Resource Capacity Study, *San Luis Obispo County, Nipomo Mesa, CA*
Dr. Thrupp conducted a groundwater resource capacity evaluation of the Nipomo Mesa area for San Luis Obispo County Departments of Planning and Public Works. The project included reviewing DWR reports, consultant's reports, and regional groundwater models; compiling hydrogeologic and groundwater monitoring data for the area; variable-density flow modeling with SEAWAT to evaluate seawater intrusion for a range of pumping rates; and making recommendations to San Luis Obispo County that were used to determine appropriate limits on growth rates and development on Nipomo Mesa. Dr. Thrupp presented his findings at public hearings.

Monitoring Plan Update and Evaluation of Source of Arsenic in Groundwater, *Kekaha Landfill, County of Kauai, HI*
Dr. Thrupp evaluated the source of arsenic in groundwater downgradient of Kekaha Landfill and determined that the landfill was likely not the source of the arsenic, but the reducing conditions associated with the landfill increased the solubility of arsenic that was present in the soil that was (1) naturally occurring is volcanic soils; and (2) associated with to a long history of use of herbicides and pesticides for agricultural operations in the vicinity. Dr. Thrupp also oversaw the preparation of an updated monitoring plan for the landfill and attended regulatory meetings.

- Environmental Site Assessment

Education

- BA (Cum Laude), Geology, California State University, Sacramento

Registration & Certifications

- California Professional Geologist No. 9369
- OSHA 40-Hour HAZWOPER Certified

Career Summary

Craig Riddle is a professional hydrogeologist and project manager with 14-years of experience with a focus in hydrogeologic and environmental work throughout California. He provides expertise in hydrogeologic evaluations, water supply planning and assessments, pre-construction permitting (local and State), and conducts well pumping tests, well rehabilitation, aquifer analysis, surface water and groundwater sampling, and water quality investigations. Typical responsible geologic work includes evaluation and interpretation of geologic, hydrogeologic and geophysical data for technical reports, interpretation of subsurface lithology and groundwater parameters, evaluation of groundwater flow and chemistry trends, aquifer analysis, and construction dewatering analysis. Mr. Riddle is an experienced project and task manager including project planning and scheduling, procurement/ delivery management, engineering and subcontractor schedule management, construction coordination, cost control, quality control, change order review and negotiation/administration, and safety management.

Relevant Project Experience

Aquifer Storage and Recovery Pilot Test, *South Fork Kings GSA, Kings County, CA*
As part of GSP implementation, Mr. Riddle conducted an Aquifer Storage and Recovery (ASR) pilot test in an existing active irrigation supply well within the South Fork Kings GSA. The test involved comprehensive monitoring of water levels and water quality and was designed to be compatible with typical irrigation operations in the area. Over 20 million gallons of water were injected into the aquifer, stored for 45 days, and then recovered for irrigation. Mr. Riddle conducted the aquifer test analysis (AQTESOLV) for transmissivity, hydraulic conductivity, storativity, specific capacity, and well efficiency.

Production Test Well, *San Joaquin Delta College, Stockton, CA*
Mr. Riddle oversaw the field operations/installation of a new test well for San Joaquin Delta College, Manteca Farm Campus. The project included providing specifications in order to secure a qualified C-57 licensed drilling subcontractor. The scope of the test well included drilling to a depth of 350 feet, evaluating the geophysical log for zone selection, coordinating multiple zone tests of water-bearing zones, coordinating laboratory analyses, and preparing a technical report for use in preliminary design of the new potable water supply well.

Relief Well Program*, City of Sacramento DOU, Sacramento, CA*
Project manager and technical lead for pressure relief well condition assessments and rehabilitations for multiple projects covering 66 wells since 2017. Oversaw and performed mechanical rehabilitation, pre- and post-rehabilitation video inspection, pumping tests, and analysis of pumping tests and technical report detailing results including recommendations for well performance and maintenance.

Pump Station Relief Wells*, Sacramento Regional County Sanitation District, Sacramento, CA*
The Sacramento Regional County Sanitation District constructed a ring levee at their South River Pump Station facility. A total of 32 pressure relief wells were installed to relieve groundwater pore pressure within the levee. Mr. Riddle provided construction oversight to ensure that wells were properly constructed, installed, and developed according to the County's specifications by working closely with the County's general contractor and drilling subcontractor and the lead Sacramento County inspector.

Craig Riddle, PG

California State Fair and Exposition Water Well # 1A**,** *California Department of General Services, Sacramento, CA*
Mr. Riddle was the task leader for the design, construction, and testing of a new water supply well for the California State fairgrounds. Mr. Riddle assisted in preparation of contractor specifications, permitting, well design, construction oversight, and the final connection to the water conveyance system.

Surface and Groundwater Sampling Programs, *California Rice Commission, Sacramento Valley, CA*
The California Rice Commission has a monitoring and reporting program consisting of 3 surface water sampling and 1 groundwater sampling program. Mr. Riddle oversees all aspects of the programs, including the project management, coordination of the field staff, the fieldwork, and the analytical laboratories, and reporting to the regulating agency.

Sacramento Suburban Water District Wells 69 and N20 Condition Assessment*, Sacramento, CA*
Mr. Riddle was the task lead for a well condition assessment and rehabilitation project for two of the Sacramento Suburban Water District's municipal water supply wells (69 and N20). The project required a pre-inspection pumping test and water quality analysis for microbiologically induced corrosion, video inspection of the well interior, mechanical cleaning, chemical treatment of the wells for manganese and coliform bacteria, post-rehabilitation pumping test, and post-rehabilitation video inspection.

Dewitt and Santa Ana Test Well*, Site Evaluation, and Zone Water Quality Testing, City of Clovis, CA*
Mr. Riddle was the task lead for the installation of a new test well for the City of Clovis. The project included providing specifications in order to secure a qualified drilling subcontractor. The scope of the test well included drilling to a depth of 620 feet, evaluating the geophysical log for zone testing, coordinating multiple (5) zone tests of water-bearing zones, coordinating laboratory analyses, and preparing a technical report for use in preliminary design of the new municipal well.

Hydrogeological Assessment Report*, Soper-Wheeler Company, Sonoma County, CA*
The Soper-Wheeler company owns a ranching and recreational property in Sonoma County, California. Mr. Riddle prepared a Hydrogeological Assessment Report for approximately 2,000 acres of the site in accordance with Sonoma County standards. The report included an assessment of the site hydrogeology, water basin, groundwater supply and aquifer testing, groundwater recharge, and water quality.

Pacific Gas and Electric (PG&E) Gas Line Retirement Bundle*, Northern Sacramento Valley, CA*
Mr. Riddle was the task lead for the hydrogeologic and dewatering evaluation for four PG&E projects (R-1228, R-1216, R-1233, and R-1247) involving excavations into shallow groundwater for gas transmission line retirements. As task lead coordinated the installation of multiple test wells and conducted aquifer tests to assess hydraulic conductivity and other groundwater parameters in support of proposed excavations at 10 sites. Coordinated the permitting, fieldwork and regulatory communication in addition to performing analysis and reporting of hydrogeologic data acquired.

Dewatering Assessment for Hydro-testing*, Pacific Gas and Electric (PG&E) L-167, Northern Sacramento Valley, CA*
PG&E requested construction dewatering assessment and recommendations at select locations in preparation for hydro-testing and related construction of over 26 miles of their L-167 gas line. Mr. Riddle coordinated the installation of multiple test wells and aquifer tests (including pumping tests) to assess hydraulic conductivity and other groundwater parameters in support of proposed excavations at 13 sites. Mr. Riddle coordinated the permitting, fieldwork and regulatory communication in addition to performing analysis (AQTESOLV) and reporting of hydrogeologic data acquired.

Surface Water Interceptor Project*, City of Tacoma, WA*
Mr. Riddle was the task lead for the evaluation of hydrogeologic conditions for dewatering considerations. The project involves over 3,400 linear feet of new stormwater conveyance pipeline with outfall to Commencement Bay. Mr. Riddle conducted aquifer testing in shallow groundwater areas to obtain aquifer parameters for use in formulating dewatering recommendations for construction and installation of the pipeline.

Hydrogeological Assessment Report*, Red Fan Winery, Sonoma County, CA*
Mr. Riddle prepared a Hydrogeological Assessment Report for an approximately 55-acre winery in accordance with Sonoma County standards. The report included an assessment of the well yields, site hydrogeology, groundwater basin, aquifer testing, groundwater recharge, and water quality.

David Finney

Professional

5.5 Years of Experience
8 Months with Geosyntec

Project Roles

- Task 1 Data Review
- Task 3 Surface Geophysical Plan
- Task 4 Preliminary Geotechnical Investigation Approach Planning Activities
- Task 5 Final Geotechnical Plan
- Task 6 Permits
- Task 7 Geotechnical Investigation
- Task 8 Hydrogeologic Characterization

Specialties

- Monitoring well installation
- Hydrogeology
- Groundwater Monitoring & Assessment
- Geostatistics
- Environmental Site Assessment

Education

- MS, Geology, California State University, Sacramento
- BS, Geology, California State University, Long Beach

Registration & Certifications

- OSHA 40-Hour HAZWOPER Certified

Career Summary

David Finney is a geologist whose focus is on sustainable groundwater management projects and subsurface investigations. David earned his Master of Science degree from Sacramento State and has worked in Northern California on a number of projects over the past 5 years. His experience includes Superfund site remediation, aquifer storage and recovery, and water quality investigations. Some of his technical skills include performing geologic analysis and interpretations, groundwater plan development, and the design and construction of wells.

Relevant Project Experience

***Aquifer Storage and Recovery Monitoring Well Construction**, City of Roseville, Roseville, CA*
David planned well installations in potentially suitable zones for aquifer storage and recovery systems. Selected optimal drilling sites by developing cross-sections and interpreting geologic data. Performed sample logging and interpretation and oversaw drilling and installation of 8 monitoring wells within the city. Assisted with well design, developed final well schematics, and completed well completion reports. Oversaw well construction and water quality sampling.

***Groundwater Level Monitoring, North American Subbasin GSAs**, West Placer and Sutter GSAs, Placer County, CA*
David was responsible for conducting groundwater monitoring activities throughout the North American Subbasin to better estimate surface-groundwater connectivity and regional water quality and availability trends. Deployed and maintained an array of transducers and associated data. Assisted in site selection and analysis of various proposed gaging sites to ensure representative monitoring. Collected stream gauge data and analyzed relationships between stream flow, precipitation, and groundwater levels. Analyzed results to determine groundwater recharge and delivered technical reports.

***Aerojet Superfund Site Groundwater/Soil Remediation**, Aerojet, Rancho Cordova, CA*
David designed, planned, permitted, and installed groundwater extraction and monitoring wells for the Aerojet Superfund site. Designed wells to capture the maximum possible extent of contaminant. Performed routine treatment plant operations and maintenance tasks including sampling and system monitoring.

***Groundwater Sustainability Plan**, Buena Vista Water Storage District, Kern County, CA*
David collected, analyzed, interpreted, and confirmed the accuracy of a decade's worth of groundwater quality data from multiple sources and for multiple constituents. Assisted in writing narrative portions of GSP, created hydrographs for wells in the GSA, and performed extensive technical editing. Additionally, coordinated administrative elements of the final GSP submission process, including collecting and documenting all baseline information and references, migrating CASGEM data to SGMA, carefully correlating each SGMA article to the pertinent GSP section, and submitting every required element to the online portal.

***Ground Water Sustainability Plan**, Sacramento Groundwater Authority, Sacramento County, CA*
David assisted with development of the groundwater sustainability plan. Notable contributions include the hydrogeologic conceptual model, groundwater conditions, sustainable management criteria, and monitoring networks. Compiled well construction data and groundwater information to develop a conceptual model and associated figures and text. Participated in project review process and contributed to development of the plan's data management system. Developed and interpreted geologic data to construct detailed hydrostratigraphic cross sections.

David Finney

***North American Subbasin Groundwater Quality Technical Reports**, West Placer and Sutter County, CA*
David assisted in the development of Groundwater Quality reports detailing regional water quality setting and trends. Performed fieldwork to collected water quality data and performed spatio-temporal analysis on water quality samples using hydrographs, time series analysis, and Mann-Kendall test to detect trends. Used well construction and borehole data to develop cross sections for the final report. Proposed future water quality sampling protocols and helped in the development of standards for future well sites. Additionally, assisted in defining principal aquifers and helped to delineate sources of waters high in total dissolved solids.

***Central Valley Flood Protection Project Variable Infiltration (VIC) modeling**, Department of Water Resources, Sacramento, CA*
David calibrated the California Department of Water Resources Central Valley VIC climate mode under various climate scenarios. Developed algorithms for managing model datasets and performed daily protocols to ensure model QA-QC. Applied statistical methods and automation techniques to meet project goals. Analyzed model results and delivered technical reports to DWR staff.

Arthur Forma, PG, CEG, CHG, EIT

Senior Principal

23 Years of Experience
10 Years with Geosyntec

Project Roles
- Task 2 Lead

Specialties
- Groundwater Monitoring Programs
- Site Investigation and Remediation
- Hydrogeologic Studies

Education
- BS, Geosciences in Geology, Math Minor, California State University, Chico, California, 2000

Registration & Certifications
- California Engineer-in-Training, No. 119478
- California Registered Professional Geologist, No. 8133
- California Certified Engineering Geologist, No. 2443
- California Certified Hydrogeologist, No. 896

Career Summary

Arthur Forma has over 23 years of consulting experience in geologic, hydrogeologic, geotechnical, and hazardous waste investigation and remediation projects throughout California. Arthur leads and coordinates projects with the Department of Toxic Substances Control (DTSC), various Regional Water Quality Control Boards (RWQCB), County of Sacramento Environmental Management Department, and other counties and cities throughout California for properties contaminated with petroleum hydrocarbons, chlorinated solvents, polycyclic aromatic hydrocarbons, metals, pesticides, and perchlorate.

Arthur's primary responsibilities include project management, contaminated soil and groundwater investigation, implementation of remedial action programs, and assuring compliance with regulatory requirements. He is adept at the development and refinement of hydrogeologic conceptual site models for complex projects. Arthur is experienced in the development and management of monitoring programs for projects in complex hydrostratigraphic terrains. He has experience in due diligence work including conducting numerous Phase I and Phase II environmental site assessments (Phase I/Phase II) for real estate transactions at industrial and commercial facilities, agricultural properties, and residential developments. Arthur has conducted various geologic and hydrogeologic investigations in soil, groundwater and soil vapor media utilizing a variety of subsurface drilling methodology including hollow-stem auger, sonic, direct-push sampling technology, mud rotary, air-rotary casing hammer, cone penetrometer testing, membrane interface probe, and laser-induced fluorescence technology.

Relevant Project Experience

***Aerojet Superfund Site**, Rancho Cordova, CA*
Arthur manages the groundwater monitoring program for the site which includes over 3,000 monitoring wells separated into 17 programs across an approximate 60 square mile area. As part of this effort, various scheduling and tracking tools were developed to assure compliance with the monitoring requirements of the various federal and state orders for the project. Reporting tasks include performance evaluation reports for the multiple groundwater extraction and treatment systems, compliance monitoring reports, and routine monitoring reports. He also oversees management of the project's database which includes daily incoming field and analytical data, data validation, and advanced project chemistry support. Geosyntec is continuing to refine the data visualization program that will allow the various stakeholders to have access to new and historic data for the entire project.

***Lincoln Center Environmental Remediation Trust (Trust)**, Stockton, CA*
Arthur manages the update of the project's groundwater numerical flow model and conceptual site model. The updates to these models are necessary to set the basis for the upcoming feasibility study for the project's final remedy. To do this, the 20-year subsurface investigation history was reviewed, compiled, and analyzed to identify characterization data gaps and to perform a depositional sequencing evaluation. Through this work, it was determined that the conceptual site model and subsequently the groundwater flow model required significant revisions.

***Delano Perchloroethylene (PCE) Groundwater Plume,** Delano, CA*
Arthur is the hydrogeologic and conceptual site model (CSM) technical lead for the project. He provides oversight of multiple source evaluations, identifying potentially responsible parties (PRP), conducting soil vapor, indoor air, and groundwater investigations, developing remediation approaches, and monitoring and reporting in a large downtown area in Delano, California. His team compiled data collected from previous investigations, developed a CSM, and identified specific data gaps. Critical data gaps identified included evaluating the potential for impacts to the city of Delano water

supply wells, evaluating potential exposure from soil vapor to indoor air, and vertical delineation of PCE near the primary source areas.

***Visalia Dry Cleaner Investigation Project**, Visalia, CA*
Arthur is the hydrogeologic and CSM technical lead for the project. He is providing technical oversite of an investigation of multiple sources, assisting in identification of PRPs, evaluating the extent of soil vapor, indoor air, and groundwater impacts, and developing the remedy approach in Visalia, California. The goal of this work is to obtain site characterization information, identify areas where the presence of contaminants poses unacceptable risks to human health and the environment, and identify PRPs.

***Red Bluff PCE Investigation**, Red Bluff, CA*
Arthur is supporting the DTSC to assess the sources of PCE in the Red Bluff downtown area through high-resolution definition investigative methods to cost-effectively delineate the lateral and vertical extent of soil, soil vapor, and groundwater contamination. These data will then be used to identify target areas in support of groundwater monitoring well placement and future remedial actions.

***Dry Cleaner Remediation**, Crestview Shopping Center, Carmichael, CA*
Arthur has provided hydrogeologic assessment and conceptual site model development for a landowner on a property with a former dry cleaner undergoing remediation. Soil vapor extraction (SVE) has been used to successfully remediate the vadose zone tetrachloroethene (PCE) impacts and has successfully cut off the migration of PCE to groundwater, resulting in declining PCE concentrations in all site monitoring wells. Recently, SVE rebound testing demonstrated that the vadose zone soils have been sufficiently remediated, and the case is expected to be closed within the next year without active remediation of groundwater.

***Site Assessment and Remediation**, Arnold Cleaners, Sacramento, CA*
Arthur is currently providing hydrogeologic and reporting oversight for the remediation activities at a former dry cleaner site in the Arden Arcade area of Sacramento. He led the site assessment effort and is overseeing the remediation evaluation and its indirect effect on groundwater. Currently, PCE concentrations in groundwater have been decreasing over time and active remediation of groundwater will likely not be required.

***Dry Cleaner Remediation**, Southgate Norge Dry Cleaner Site, Sacramento, CA*
Arthur is currently providing senior hydrogeologic and report oversight for a former dry cleaner undergoing remediation in Sacramento, California. Records show that PCE was released along the sanitary sewer laterals and main and has impacted soil and soil vapor in the area. Arthur is currently responsible for conducting routine groundwater monitoring and reporting activities at the site and for evaluating hydraulic capture of the groundwater extraction system.

***White Rock North Dump**, Rancho Cordova, CA*
Arthur is the project manager for the continued monitoring and reporting for the former landfill located within the Aerojet Superfund site. Monitoring and reporting for the landfill are conducted in accordance with a Central Valley Regional Water Quality Control Board (CVRWQCB) Cleanup and Abatement Order (CAO) while remediation is conducted under the direction of the United States Environmental Protection Agency (USEPA). Monitoring at the landfill consists of sampling over 80 groundwater monitoring wells completed in four hydrostratigraphic units on variable frequencies. An innovative scheduling and tracking program was developed for the project to ensure that the CAO requirements are met for each reporting period.

***Former Whittaker Ordnance Facility**, Hollister, CA*
Arthur manages all investigation and monitoring tasks for a former explosives manufacturing facility. The site is located in a heavily faulted terrain with dipping stratigraphy that dominates groundwater flow and contaminant transport. Recently, Arthur updated the hydrogeologic conceptual site model for the site that will be used in future hydrogeologic and remedial planning activities. Investigation tasks include source area assessment and evaluations to optimize hydraulic containment of contaminants. Monitoring at the site includes incorporation of the project's 5 remedial action performance monitoring plans and various discharge requirements on over 150 monitoring wells on varying sampling frequencies into semi-annual reports as required by the project's orders and permits.

Naomi Dailey

Scientist

5 Years of Experience
4 Years with Geosyntec

Project Roles

- Task 2 GIS-Based Survey

Specialties

- Data Management and Visualization
- Geospatial Analysis and Cartographic Design
- Programming and Modeling

Education

- MA, Geography, University of California, Davis, 2016
- BA, Anthropology, University of California, Berkeley, 2014

Career Summary

Naomi Dailey has over 4 years of private industry experience with structured query language (SQL) and database management, geographic information systems (GIS) analysis, and implementing automated solutions for data visualization and processing. She develops tools with Python and visual basic applications (VBA) for data quality assurance, designs and manages multiple databases, and utilizes GIS for spatial data analysis. Naomi's experience includes building stored procedures and queries in SQL server and developing Access tools with VBA to easily retrieve and format data for requests from clients. She has rebuilt existing Access databases to optimize routine workflows and has developed data processing and GIS tools with Python to streamline workflows for several monitoring reports and visualization tasks.

Relevant Project Experience

Aerojet Superfund Site, *Rancho Cordova, CA*
Naomi is the assistant project manager for the project database and routine groundwater monitoring tasks. She is responsible for routine monitoring reports and data visualization tasks, manipulating databases, writing ad hoc queries in SQL server, and scheduling monthly sample collection. Naomi regularly generates figures and tables for routine reports and non-routine requests, and has streamlined the functionality of existing Access databases used for data processing and validation of laboratory analytical data. She assists with external reporting tools that allow users to interact with data, including tabular data queries, sample scheduling forms, and a project webmap that allows users to view and interact with data associated with project locations. She has automated and improved time-intensive data processing tools with Python and VBA, including data formatting macros and file transformation applications.

Caltrans Aerially Deposited Lead Task Orders*, Los Angeles, CA*
Naomi is responsible for the database design, data manipulation and management, and figure generation of aerially deposited lead task orders for Caltrans in Southern California. She developed an Access database and user form that is easily recycled for each task order, reducing the overall effort in replicating each report. Additionally, Naomi produces final tables and figures with the help of a Python tool built to automate callout table generation in the figures.

Baldwin Park Operable Unit of the San Gabriel Valley Superfund Sites, *Los Angeles County, CA*
Naomi is the database administrator and GIS practitioner for the Baldwin Park Operable Unit (BPOU) annual performance evaluation reports. She is responsible for data analysis and database management, figure and table development, and Python data processing. Visualization outputs incorporate data from an external web-based database, public entities, water purveyors, and in-house modeled numerical data. Naomi regularly improves existing queries used in the Access data import tool and updates the Python scripts used to generate particle track shapefiles to increase efficiency year over year. She has also led the project's documentation effort and gathered detailed workflows from team members to increase knowledge redundancy while also managing the data and contour updates for over 100 figures and 15 tables as part of the annual report.

Former Occidental Chemical Corporation Facility, *Lathrop, CA*
Naomi is a primary GIS practitioner for a large-scale groundwater monitoring project where she supports database design, transducer data management and analysis, and routine reporting figures. She also assists with maintaining a project webmap that allows users to view and interact with data associated with project locations.

Former Whittaker Ordnance Facility, *Hollister, CA*
Naomi supports routine groundwater monitoring and reporting for the Former Whittaker Ordnance facility and assists the lead task manager in routine semi-annual groundwater monitoring reports and table generation, pulling ad hoc queries for the larger project staff as needed.
Geospatial Analysis and Cartographic Design

Naomi Dailey

DTSC, *Multiple Locations, CA*
Naomi is the primary GIS practitioner for multiple California Department of Toxic Substances Control (DTSC) brownfield redevelopment projects located throughout California. Projects include a former lumber mill, oil recycling facilities, a wood treatment facility, a former smelter, and a former metal fabrication facility. She provides routine figure support for annual and semi-annual groundwater monitoring reports, and addresses ad hoc figure needs throughout the year. Naomi developed a Python script and associated database workflow to streamline labeling efforts for soil vapor samples in Delano, California, reducing the projected effort by half.

Port of Stockton Site 47, *Stockton, CA*
Naomi provides GIS support for ad hoc figure reporting and human health screening at Site 47. The site contains numerous contaminants of concern, and her figures allow regulators to visualize analytical concentrations spatially and by depth. She also assists the database administrator in manipulating and querying relevant data.

Port of Stockton Groundwater Monitoring, *Stockton, CA*
Naomi assists with the contaminant management program at the former Rough and Ready Island Naval Base. The site contains numerous sources of chlorinated solvents in soil and groundwater and Naomi is responsible for groundwater data visualization using EVS to identify data gaps for investigations and sampling redundancy, and generating 3D figures for routine reporting efforts. The emerging firefighting foam contaminants, per-and polyfluoroalkyl Substances (PFAS), have also been detected in groundwater and a management plan is currently in progress.

Pedrick Landfill, *Davis, CA*
Naomi leads an extract, transform, load (ETL) project using historical data from the Pedrick Landfill. Using variegated tabular data from the last 10 years, she designed a melt and transform procedure with Python that homogenizes files for streamlined appending. All data is compiled in a single database under a standard format for easy querying. Naomi also utilizes Python to scrape data tables from PDFs, ultimately saving the client over 80 hours in manual transcription.

Yerba Buena Island Site 11, *San Francisco, CA*
Naomi manages the database design and tool development for historical data at the Yerba Buena Site 11 landfill site. She developed scripts with Python and VBA to scrape data from historic PDF reports and append into an Access database. She is also responsible for digitizing historic maps in GIS and developing new analytical maps to use for upcoming work plans.

UC Davis Pastured Poultry Farm, *University of California, Davis (UC Davis), CA*
Naomi managed the UC Davis Pastured Poultry Farm, a research and demonstration farm at the university. Her responsibilities included training a student team on epidemiological data collection of *Salmonella* samples around the farm, and subsequent data processing and analysis. Naomi used open source programs such as R and QGIS to manipulate results and display data in interactive web maps used by local farms. Additionally, she created predictive models of statewide poultry disease using R. Data collected on the research farm was presented at numerous conference and resulted in publications in *Poultry Science*.

Wendy Key, PG, CEM

Senior Geologist

16 Years of Experience
7 Years with Geosyntec

Project Roles
- Task 2 Site Assessments

Specialties
- Environmental Due Diligence and Compliance
- Site Investigation and Redevelopment

Education
- MS, Geology, University of Nevada, Reno, 2009
- BS, Geology, California State University, Sacramento, 2005

Registration & Certifications
- Professional Geologist, California No. 8915
- Licensed Geologist, Washington No. 3089
- Certified Environmental Manager, Nevada No. 2345
- OSHA 40-Hour HAZWOPER, Environmental Compliance Services, Inc.

Career Summary

Wendy is a licensed geologist with over 16 years of experience in variety of environmental projects in both the public and private sectors. She has experience in the management, planning, implementation, data analysis, and reporting phases of environmental assessments including ASTM-compliant Phase I Environmental Site Assessments (ESAs), subsurface soil and groundwater investigations, and Brownfield's redevelopment projects. Wendy also conducts environmental compliance assessments and audits to assist businesses looking to achieve and maintain compliance with environmental regulations in California and Nevada. Wendy provides support to companies with regulatory issues/violations and businesses seeking assistance with agency interaction, strategy, and litigation support/risk reduction. Wendy has served as a technical reviewer on large litigation projects and has provided litigation support in a variety of environmental cases. Her management experience includes communicating with clients and client attorneys to meet project goals, coordination with regulatory agencies to meet designated requirements and cleanup goals, and managing field staff and activities. Wendy also has management experience leading California environmental compliance programs and health & safety programs for a Fortune 500 company.

Relevant Project Experience

Multiple Phase Is, *Confidential Social Media Client, CA*
Wendy is a senior reviewer on a national program conducting and overseeing Phase Is at multiple locations in the western US for a large social media company. Wendy is responsible for the quality and completeness of all products and she coordinates closely with corporate and legal staff to assure timely reporting to support acquisition of each property. For many properties, this responsibility includes early verbal reports and virtual meetings with the project team to facilitate the property acquisition process and timing.

Phase I Environmental Site Assessments (ESAs) and Limited Environmental Compliance Reviews, *Confidential Power Client, AZ, CA, HI, NV, NM*
Wendy provides technical support and project management services, including the identification of geographically local Geosyntec staff to implement project activities, for corporate transactions. Wendy conducts and provides senior oversight for compliance reviews and Phase I ESAs to evaluate for the potential presence of Recognized Environmental Conditions (RECs) at select distribution, repair, and training facilities in the western United States. The compliance portion of the projects typically includes a review of available hazardous waste manifests, environmental permits, Safety Data Sheets, and plans, such as Hazardous Materials Business Plans (HMBPs), Spill Prevention Control and Countermeasure (SPCC) Plans, and Stormwater Pollution Prevention Plans (SWPPPs).

Limited Environmental Compliance Review and Environmental Site Assessment, *Confidential Client, Milpitas, CA*
In support of a potential commercial transaction, Wendy conducted a limited environmental compliance review and Phase I ESA to evaluate the potential presence of RECs at a building materials manufacturing facility and batch plant in Milpitas, California. As part of the limited compliance review, Wendy assessed whether the facility had the appropriate environmental permitting documents, including but not limited to, hazardous materials storage permits, stormwater permits, and air permits. As a result of Wendy's evaluation, the client has requested Geosyntec complete an Air Permit Applicability Assessment to determine if the facility qualified for air permitting exemptions within the Bay Area Air Quality Management District's (BAAQMD's) regulatory jurisdiction.

Wendy Key, PG, CEM

Limited Environmental Compliance Review and Environmental Site Assessment, *Confidential Client, Fairfield and Rio Vista, CA*
In support of a potential commercial transaction, Wendy participated in a limited environmental compliance review and Phase I ESA to evaluate the potential presence of RECs at a transformer oil testing facility located in Fairfield, California and a transformer repair facility located in Rio Vista, California. As part of the limited compliance review, Wendy assisted in the evaluation of whether the facility had the appropriate environmental permitting documents, including but not limited to, hazardous materials storage permits, stormwater permits, and air permits. Wendy also assisted in the evaluation of waste transportation, storage, and accumulation processes associated with these facilities.

Phase I and Phase II Environmental Site Assessments, *Confidential Automotive Retailer, Various locations in NV and WA*
Wendy has managed and conducted Phase I and Phase II Environmental Site Assessments (ESAs) association with the acquisition of individual automotive dealerships and larger acquisitions consisting of multiple automotive dealerships in a particular geography. Phase II activities were conducted concurrently with Phase I ESA to evaluate impacts at facilities with known current or historical releases and facilities with features likely to result in a release to the environment, such as underground storage tanks (USTs), oil-water separators, and in-ground hoists.

Litigation Support, *Confidential Client, Portland, OR*
As part of a larger team consisting of professionals from five Geosyntec offices, Wendy serves as a technical reviewer to evaluate previous environmental assessments and compliance documentation for numerous potentially responsible parties (PRPs) as part of the allocation process associated with the Portland Harbor Superfund Site. Wendy has reviewed thousands of pages and hundreds of documents to assess the origin of documented impacts in the Swan Island Lagoon and Willamette River. Upon review of these documents, Wendy has drafted supplemental information requests and developed PRP summaries to be submitted to the Allocation Team as part of the disclosure process.

Phase I Environmental Site Assessments (ESAs), *Various Clients, AZ, CA, HI, ID, NV, NM, OR, UT, WA*
Wendy has completed hundreds of Phase I ESAs, according to ASTM standards (ASTM E 1527-05 and ASTM E 1527-13), U.S. Environmental Protection Agency All Appropriate Inquiries Rule, and client-specific standards, for a broad range of clients including private and governmental agencies. In addition to providing technical support for the preparation of Phase I ESAs, Wendy also coordinates with local offices throughout Geosyntec to implement assessment activities and provide a consistent work product. Environmental conditions likely to affect the sites were evaluated. Activities included review of regulatory agency files, historical documents, including aerial photographs and topographic maps, completion of a site reconnaissance, and preparation of a final report.

Bryte Landfill Waste Characterization*, Downey Brand Attorneys, LLP, West Sacramento, CA*
Wendy currently provides project management and waste characterization support for the Former Bryte Landfill which operated as a burn dump from approximately 1940 through 1974 and possibly as late as 1981. The landfill needs to be removed to facilitate an expansion of the Sacramento Weir and Bypass, portions of the State Plan of Flood Control (SPFC), planned by the Sacramento Area Flood Control Agency (SAFCA) and others, including the California Department of Water Resources (DWR). Wendy assisted in the development of a Data Collection Work Plan designed to evaluate excavation, separation, management, reuse and disposal options for the landfill material. Implementation of the Work Plan was divided into two phases: Phase 1 included the installation of 40 trenches and potholes throughout the Site to evaluate the lateral and vertical extent and character of the waste; and Phase 2 included the excavation and screening of 500 tons of ash/waste material to assess the ratio of ash/soil to solid waste within the former landfill. Results of the investigation indicated that the total volume of ash and waste is present at the landfill was less than previously estimated. The investigation also revealed that while the majority of the ash was found to contain total and soluble lead concentrations that are considered hazardous in California, a limited area of ash contained soluble levels of lead considered hazardous per federal regulations and debris greater than 1-inch was generally inert.

Initial Site Assessments*, Caltrans, Multiple Locations, CA*
Wendy has completed numerous Initial Site Assessments to evaluate roadways and adjacent properties for potential environmental conditions prior to planned completion of roadway improvement, addition, and/or widening activities. Activities included review of regulatory agency files, historical documents, including aerial photographs and topographic maps, a site reconnaissance, and completion of a final report and a Caltrans environmental checklist.

Jill Ghelerter, PhD, PG, CHMM, PMP

Senior Geologist

18 Years of Experience
1 Years with Geosyntec

Project Roles

- Task 2 Agricultural Assessment

Specialties

- Project Management
- Site Investigation
- Underground Storage Tank Programs
- Groundwater Assessment
- Groundwater Remediation
- Regulatory Compliance

Education

- PhD, Chemistry with Concentration in Geology, Georgia State University, Atlanta, 2014
- MS, Geology, Florida Atlantic University, Boca Raton, 2005
- BS, Geology, Florida Atlantic University, Boca Raton, 2002

Registration & Certifications

- Professional Geologist California, No. 9684
- Certified Hazardous Materials Manager (CHMM), Number 14803
- Project Management Professional, No. 1527604

Career Summary

Dr. Ghelerter has over 18 years of experience in the environmental consulting industry with focus on project management and hydrogeology. She has provided technical direction and oversight with industrial, landfills, irrigated farmland, oil fields, agricultural chemical processing facilities, refineries, and commercial and residential projects. Her current focus area supporting oil producers with various hydrogeology related regulatory compliance. Previous experience has been with environmental assessment, designing monitoring well networks and sampling strategies, developing and implementing remediation plans, designing remediation systems, remediation system optimization, and site closure. She has worked with large and complex groundwater plumes. She has been involved with soil and groundwater monitoring and remediation sites impacted by hydrocarbons, pesticides, chlorinated solvents, and metals. She has also been involved in vapor intrusion sampling and evaluation.

Relevant Project Experience

Orphan Project Program, *California Department of Toxic Substances Control (DTSC), Various Sites, CA*
Project Manager/PG for investigation, monitoring, reporting, and remediation of chlorinated solvents with a focus on perchloroethylene in soil, soil vapor, indoor air, and groundwater at city-wide plume sites. Included semi-annual groundwater monitoring and reporting, installation of soil vapor probes, collecting indoor air samples, preparing work plans, obtaining permits, oversight of remedial installation, and reviewing routine reports.

Georgia Underground Storage Tank Program*, Statewide, GA*
Program coordinator and geologist for numerous UST sites throughout Georgia. Dr. Ghelerter provided technical direction and oversight for designing monitoring well networks and sampling strategies, developing and implementing remediation plans, remediation system optimization, and site closure. Tasks included assessment of indoor air, soil, groundwater, water supply wells, and surface water impacted with gasoline and/or diesel fuel including free product. Several groundwater plumes extended over 1-mile. Prepared and reviewed Corrective Action Plans and Monitoring Reports for the Environmental Protection Division. Designed, installed, and operated remediation systems. Replaced impacted water supply wells and/or connected structures to the municipal water supply. The contract was pay-for-performance requiring remediation goals to be achieved within 2 years.

Remedial Investigation*, Confidential Client, Bakersfield, Kern County, CA*
Dr. Ghelerter's work on this project includes preparing a comprehensive remedial investigation report for a former refinery with a 90-year history of operations, numerous hydrocarbon releases, and interim remedial actions. Petroleum constituents and non-aqueous phase liquids are present within various hydrostratigraphic zones. Active and interim remedial actions are on-going. The refinery is currently being converted into a renewable fuel facility.

Firebaugh Facility*, JR Simplot, Firebaugh, CA*
Project Manager/PG for investigation, monitoring, and reporting of agricultural chemicals in soil and groundwater at a 20-acre active fertilizer production facility. Soil and groundwater investigation resulted in monitoring well installation and quarterly groundwater monitoring and reporting of 1,2,3-trichloropropane, 1,2-dichloropropane, and 1,2-dibromo-3-chloropropane and nitrogen. Subsequent on-site and off-site soil assessment resulted in shallow soil impacted with chlorinated pesticides including toxaphene. Assisted client in demonstrating off site detections were not from site activities. Presented different options to client for removing/remediating shallow soil impacted with toxaphene.

***Regulatory Compliance, Former Retail Site**, JR Simplot, Wasco, CA*
Project Manager/PG for investigation, remediation, and reporting of agricultural chemicals in soil vapor and groundwater at a 1-acre site. Soil assessments revealed subsurface soil and soil vapor impacts of 1,2,3-trichloropropane, 1,2-dichloropropane, and 1,2-dibromo-3-chloropropane to 250 feet deep. Two soil vapor extraction (SVE) systems were installed and were monitored monthly under an air permit issued by the Air Pollution Control District. Reports were prepared and submitted annually. Media from the SVE system was treated with granular activated carbon. Groundwater was monitored quarterly and was impacted with agricultural chemicals above background levels. Groundwater quarterly reports were submitted to the Regional Water Quality Control Board. Due to extensive pumping in the area, the aquifer beneath the site went from confined to unconfined, creating a natural subsurface vacuum resulting in downward migration of contamination. The SVE system was optimized to counteract this phenomenon. Surface soil was impacted with metals and pesticides; concrete capping was implemented as an interim mitigation measure.

***Underground Injection Control Permitting and Consulting**, Confidential Client, San Joaquin Valley, CA*
Dr. Ghelerter acts as the liaison between the client and both the RWQCB and the California Geologic Energy Management Division (CalGEM). She is assisting an oil company in obtaining permits for underground injection control of applying an innovative sustainable production technology in California. Duties include compiling permit materials and coordinating with regulators.

***Oil Field Land Discharge Compliance and Hydrogeologic Investigation**, McLennan Oil Company, Midway-Sunset Oil Field, CA*
Dr. Ghelerter conducted hydrogeologic investigation and characterization of the subsurface and prepared a technical report for a small oil operation discharging to unlined wastewater ponds to comply with the RWQCB's Waste Discharge Requirements. The hydrogeologic investigation included reviewing electric logs to determine the location of subsurface fluids and whether those fluids were hydrocarbon-producing or groundwater, creating cross sections, and evaluating if produced wastewater from the unlined ponds would migrate to underground fluids.

***Oil Field Land Discharge Compliance and Hydrogeologic Investigation**, Engineers Oil Company, Midway-Sunset Oil Field, CA*
Dr. Ghelerter conducted hydrogeologic investigation and characterization of the subsurface and prepared a technical report for a small oil operation discharging to unlined wastewater ponds to comply with the RWQCB's Waste Discharge Requirements. The hydrogeologic investigation included reviewing electric logs to determine the location of subsurface fluids and whether those fluids were hydrocarbon-producing or groundwater, creating cross sections, and evaluating if produced wastewater from the unlined ponds would migrate to underground fluids.

***Initial Site Assessments**, Caltrans, Multiple Locations, CA*
Ms. Key has completed numerous Initial Site Assessments to evaluate roadways and adjacent properties for potential environmental conditions prior to the planned completion of roadway improvement, addition, and/or widening activities. Activities included a review of regulatory agency files, historical documents, including aerial photographs and topographic maps, a site reconnaissance, and completion of a final report and a Caltrans environmental checklist.
Site Investigations and Redevelopment

Chris Conkle, PE, GE

Principal

18 Years of Experience
14 Years with Geosyntec

Project Roles

- Task 4 Preliminary Geotechnical Investigation Approach and Planning Activities
- Task 9 Feasibility Report

Specialties

- Geotechnical engineering
- Seismic Risk
- Water resources engineering
- Low Impact Development

Education

- MS, Geoengineering, University of California, Berkeley
- BS, Civil Engineering, University of California, Berkeley

Registration & Certifications

- Registered Professional Engineer, Geotechnical, California, No. GE 2926
- Registered Professional Engineer, Civil, California, No. C 70923

Career Summary

Chris is a geotechnical engineer with over 15 years of experience in geotechnical engineering and project management, with over a decade of that experience in engineering consulting. His experience includes management and execution of design, analysis, quality assurance monitoring, and geotechnical investigations for a variety of geotechnical systems including dams and levees. The bulk of his current practice relates to performing and supporting dam safety evaluations and providing related support to dam owners.

Chris recently served as Geosyntec's principal-in-charge for work related to the ongoing modifications to the Flood Control District of Maricopa County's Cave Buttes Dam. Chris's dam safety experience includes serving as the project manager and technical lead for Geosyntec's Embankment Dam Stability Evaluation and On-Call Dam Safety projects for the Southern California Edison as well as participating in Risk Informed Dam Safety Workshops for other utilities. Prior to joining Geosyntec, Chris worked in the Water Resources division of the Los Angeles County Flood Control District. This division is trusted with providing for the safety of the Department's 14 major dams.

Relevant Project Experience

***Geotechnical Instrumentation for Cave Buttes Dam Modifications**, Flood Control District of Maricopa County, AZ*

Chris served as Geosyntec's principal-in-charge for Geosyntec's installation of geotechnical instrumentation at the Flood Control District of Maricopa County's (FCDMC) Cave Buttes Dam as a subcontractor to the project's general contractor. Geosyntec's scope of services in support of this tunneling under the embankment dam included installation, configuration and setup of the automated instrumentation (in-place inclinometers, borehole extensometers, automated motorized total stations, survey prisms) and automated data acquisition systems. Working collaboratively with the project designer and the FCDMC, Geosyntec implemented the instrumentation system on-time. The tunneling which was the subject of this monitoring was successfully completed in September 2020.

***On Call Dam Safety Support Services**, Southern California Edison, CA*

Chris is currently serving as project manager for a 5 year long on call dam safety contract providing a variety of dam safety support services to Southern California Edison. Among other items, Chris's team has performed the following tasks under his direction for dams within California.

- **Dam Safety Instrument Assessment**: For a large embankment dam site, Geosyntec evaluated the condition and functionality of twenty-nine (29) standpipe-type piezometer installations with vibrating wire transducers, associated electrical components, and an automated datalogging system. This evaluation used standard diagnostic tools to collect system information in combination with a field visit to assess the condition of the system and its components. Geosyntec prepared a letter report summarizing the findings based on a review of available information, onsite measurements, configurations, and observations.
- **FERC Part 12D Support**: Implementation of significant updates to the Supporting Technical Information Documents (STIDs) for several of Southern California Edison's dams in support of the FERC Part 12D process and annual reviews. These dams include embankment dams, concrete gravity dams and a concrete multiple-arch dam.
- **Seismic Evaluations of Gates**: Performed structural evaluations of a steel drum gate on a concrete multiple-arch dam. Developed a 3D finite element model of the drum gates and conducted evaluations considering hydrostatic, hydrodynamic and seismic loading.

- **Stability Evaluations for Embankment Dam**: Performed geotechnical stability evaluations for an embankment dam retaining a water supply reservoir with a height of over 200 feet which was originally constructed using hydraulic fill. Evaluations included an assessment of liquefaction potential and resulting static and seismic stability using residual strengths.
- **Stability Evaluations for a Concrete Gravity Dams**: Performed geotechnical and structural stability evaluations for a series of three concrete gravity dams and related earthen embankments retaining a reservoir with a height of over 200 feet which is part of a hydroelectric project.
- **Evaluation of Wave Overtopping**: To address questions raised by reviewers during the PFMA process, Geosyntec evaluated the potential for wave overtopping of a rockfill dam to threaten stability of the downstream slope of the dam.
- **Preparation of Field Investigation Works Plans for FERC Review**: Geosyntec prepared Field Investigation Work Plans to address potential dam safety concerns at a variety of facilities. These proposed geotechnical investigations including standard penetration tests (hollow steam auger, sonic drilling), deep borings, Cone Penetration Test soundings, and geophysical investigations. The facilities which were the subject of these work plans included embankment dams (both compacted and placed using sluicing) with heights up to 165 ft.

***Dam Stability Evaluations**, Southern California Edison Eastern Hydro Project, CA*
Geosyntec was retained by SCE as part of an ongoing Dam Safety and Risk Assessment Program (DSRAP) to better understand the risks associated with four of SCE's hydroelectric dams in the Eastern Sierra including embankment dams and both concrete and wood faced rockfill dams. Chris served as project manager and technical lead for this project which includes static and seismic stability evaluations for these dams under FERC guidelines. The projects involved the use of numerical modeling (including FLAC and Quad4M as well as seepage modeling) to estimate seismic deformations.

***Risk Informed Decision-Making (RIDM) Pilot Project**, Southern California Edison, CA*
Chris was retained by SCE to serve as the geotechnical engineering subject matter expert for the risk-based evaluation of concrete faced rockfill dam, as part of the semi quantitative and quantitative phases of the risk assessment of this dam under new FERC guidelines. This project is the first FERC regulated project to have a quantitative risk assessment conducted under these guidelines.

***Risk Informed Dam Safety Workshop,** Los Angeles Department of Water and Power, CA*
Geosyntec was selected by LADWP to provide its staff with training regarding risk informed decision making as applicable to the Department's dams. This training was the first of its kind for LADWP as the department begins to shift to a risk-based framework for evaluating their facilities. Chris assisting in facilitating the technical discussions during the training.

***Seismic Probabilistic Risk Assessment**, Southern California Edison, CA*
Chris led the geotechnical portion of the team pioneering the use of Probabilistic Seismic Risk Assessments on hydroelectric and gas fired power plants for SCE. The project ultimately provided clear and actionable recommendations to SCE which can be implemented to reduce the overall seismic risk for their generating assets.

***PS15-06, Seismic Evaluation of Structures at Plants 1 and 2**, Orange County, CA*
Chris is Geosyntec's project manager for this ongoing planning study with the Orange County Sanitation District. This multidisciplinary earthquake engineering project involves the combined geotechnical and structural evaluations of 60 existing structure at Plants 1 and 2. These Plants when considered together as a system comprise the 3rd largest wastewater treatment plant west of the Mississippi River. The PS15-06 Study will identify vulnerabilities, estimate planning- level budgetary costs to implement the retrofits, and prioritize the importance of implementing these measures.

***Los Angeles Water Wheel**, Los Angeles, CA*
The Los Angeles River Water Wheel will deliver water from the Los Angeles River for use at the Los Angeles State Historic Park. Flows from the Los Angeles River will be diverted into a tunnel before being lifted by the wheel to above ground elevation. Chris is the lead geotechnical engineer for this project which will include construction of a rubber dam within the Los Angeles River as well as an approximately 40-foot-deep excavation adjacent to Metrolink tracks and other infrastructure. This construction is within the Los Angeles River channel (including inlet and outlet structures) and hence has involved significant interface with the US Army Corps of Engineers including for the design related to dam safety.

Todd Olsen

Scientist

10 Years of Experience
4 Years with Geosyntec

Project Roles

- Task 7 Data Management/Project Chemist

Specialties

- Data Verification and Validation
- Chemistry/Laboratory Support Task Management

Education

- MS, Environmental Engineering, University of Illinois, Urbana-Champaign, Illinois, 2014
- BS, Chemistry, University of Montana, Missoula, Montana, 2008
- BA, Mathematics, University of Montana, Missoula, Montana, 2008

Registration & Certifications

- 40-Hour OSHA HAZWOPER

Career Summary

Todd Olsen has ten years of experience as a chemist performing a variety of analytical methods. He has four years of experience conducting analytical data verification and validation on environmental projects including organic and inorganic parameters for water, soil and air sample matrices. Additionally, Todd has led laboratory and sampling coordination on several projects.

Todd has over 4 years of experience conducting data verification and Stage 2A, 2B and 4 data validation. This experience includes the evaluation of organic and inorganic analytical methods for soil, water, and air sample matrices. Examples of Todd's experience include: routine validation of volatile organic compound, N-nitrosodimethylamine, and perchlorate data from groundwater samples for the Aerojet Rocketdyne Superfund Site; validation of priority pollutant data for national pollution discharge elimination system (NPDES) samples; contaminated site investigations with soil and water samples including data for volatile organic compounds, semi-volatile organic compounds, pesticides, herbicides, polychlorinated biphenyls, polycyclic aromatic hydrocarbons, polyfluoroalkyl substances, metals, extractable metals, mercury, methylmercury, hexavalent chromium and sulfide; and indoor and sub-slab air samples in support of vapor intrusion investigations.

Relevant Project Experience

***Aerojet Rocketdyne Superfund Site**, Rancho Cordova, California*
Todd is on a team that manages groundwater monitoring and reporting for various annual, semi-annual, and quarterly monitoring requirements for multiple Operable Units and in accordance with federal and state requirements for the Superfund Site. Todd also provides project quality assurance/quality control support, support for field investigations, and assists with groundwater monitoring and reporting programs and database management.

***Aerial Deposited Lead Investigations**, California Department of Transportation (Caltrans), Los Angeles, CA*
Todd coordinates field sampling, laboratory analyses and additional threshold-based analyses requests for several aerial deposited lead investigations along various highways in Los Angeles.

***NPDES Sampling and Monitoring**, Lincoln Center Environmental Remediation Trust (LCERT), Stockton, CA*
Todd coordinated the effluent and receiving water characterization study for LCERT between several laboratories and the field staff. This work included analytical method selection, laboratory contracting, field organization and laboratory communication.

***DoD Phase II Remedial Investigation Ogliuga Island Formerly Used Defense Site,** AK*
Todd conducted Stage 2B validation of the Phase II data sets including metals, petroleum hydrocarbons, VOCs, SVOCs and pesticides for soils, sediments and waters.

Todd Olsen

Data Verification and Validation

Todd has over 4 years of experience conducting data verification and Stage 2A, 2B and 4 data validation. This experience includes the evaluation of organic and inorganic analytical methods for soil, water, and air sample matrices. Examples of Todd's experience include: routine validation of volatile organic compound, N-nitrosodimethylamine, and perchlorate data from groundwater samples for the Aerojet Rocketdyne Superfund Site; validation of priority pollutant data for national pollution discharge elimination system (NPDES) samples; contaminated site investigations with soil and water samples including data for volatile organic compounds, semi-volatile organic compounds, pesticides, herbicides, polychlorinated biphenyls, polycyclic aromatic hydrocarbons, polyfluoroalkyl substances, metals, extractable metals, mercury, methylmercury, hexavalent chromium and sulfide; and indoor and sub-slab air samples in support of vapor intrusion investigations.

Stage	Project	Scope
2A	LCERT	Quarterly 2017-present: VOCs, TPH, SVOCs and metals
2A	Aerojet Rocketdyne	Daily 2017-present: VOCs, perchlorate and NDMA
2A	Cache Creek	2018: Mercury and methyl mercury
2A	Whittaker Groundwater Monitoring	Quarterly 2018-present: VOCs, metals, CrVI and perchlorate
2A	Caltrans	2019-present: Metals, TCLP metals, STLC metals
2A	Brisbane Poerable Unit 2	2019: Metals, pesticides, PCBs, SVOCs, TPH, VOCs and asbestos
2A	Port of Stockton	2019: VOCs, TPH, pesticides, dioxins, methyl mercury and metals
2A	Fort Morrow	2020: TPH, VOCs, PAHs, metals and CrVI
2A	Bryte Landfill	2020-2021: TPH, SVOCs, pesticides, PCBs, metals and anions
2A	Ogliuga	2020-2021: TPH, metals, PCBs, VOCs and PAHs
2A	SAFCA Sacramento Weir Widening Project	2021: TPH, pesticides, metals and mercury
2A	Target Davis Vapor Intrusion	2021: VOCs
2B	Joint Base Elmendorf-Richardson	2020: PCBs, pesticides, herbicides, PAHs and SVOCs
2B	Abbot Street and Harns Road Salinas	2022: Pesticides
4	Aerojet Rocketdyne	2022: Metals, CrVI and mercury

CrVI - Hexavalent chromium
NDMA - N-Nitrosodimethylamine
PAH - Polycyclic aromatic hydrocarbons
PCB - Polychlorinated biphenyl
STLC - Soluble Threshold Limit Concentration
SVOC - Semi-volatile organic compound
TCLP - Toxicity Characteristic Leaching Procedure
TPH - Total petroleum hydrocarbons
VOC - Volatile organic compounds

Julie Chambon, PhD, PE

Senior Engineer

9 Years of Experience
9 Years with Geosyntec

Project Roles
- Task 8 Modeling

Specialties
- Groundwater Fate and Transport Modeling
- Water Resources
- Hydrogeology

Education
- PhD, Environmental Engineering, Technical University of Denmark, Lyngby, Denmark, 2012
- MS, Environmental Engineering, Technical University of Denmark, Lyngby, Denmark, 2007
- MS, Engineering, Ecole Centrale de Lille, Lille, France, 2007

Career Summary

Dr. Chambon is a senior professional in Geosyntec's groundwater group. She is responsible for managing and supporting multiple projects that include water resources assessment, hydrogeological evaluation, groundwater flow and transport modeling, groundwater monitoring, remediation performance evaluation, site investigation and characterization, and well field design. Dr. Chambon has modeling, remediation, and strategic advisement experience with a wide variety and scale of sites. She applies her background in environmental engineering, hydrogeology, flow and transport modeling, and microbiology to remediation and water resources projects. Dr. Chambon has experience as a lead modeler for a groundwater modeling project to evaluate the feasibility of infiltration basins of recycled water and downgradient extraction for potable use at a project in Southern California.

Relevant Project Experience

***Multiple Remedies including Groundwater Extraction and Treatment for Potable Use and Surface Water Discharge**, Confidential Client, San Gabriel Basin, CA*

Dr. Chambon is the project manager for multiple remedies at San Gabriel Valley Superfund Site. The project includes development of a conceptual site model, groundwater flow model, designing and implementing a 1,500 gallon per minute (gpm) groundwater extraction and treatment system with treatment for potable use and a 200 gpm groundwater extraction and treatment system with discharge to surface water. Constituents to be treated include volatile organic compounds (VOCs), perchlorate, 1,4-dioxane, nitrate, metals, and total dissolved solids. Dr. Chambon is also the lead modeler on this project; she has updated an existing groundwater flow model and performed transient calibration. The FEFLOW model covered the entire San Gabriel Basin and consisted of 17 layers. The transient model was calibrated to a 40-year simulation period, and a series of datasets collected during multiple aquifer tests. Following model calibration, 30-year transient predictive simulations were performed to evaluate potential well field configurations for two proposed groundwater extraction systems. The model was also used to evaluate potential re-injection design for the remedy. The model will be used as a basis for monitoring and evaluating system performance during operation of the remedies.

***Groundwater Development and Augmentation Plan**, Los Angeles Department of Water and Power, Los Angeles, CA*

Dr. Chambon assists with management and technical analysis on a team developing a groundwater development and augmentation plan to enhance groundwater resources within the Los Angeles Plain south of the Elysian Narrows, including the Central, West Coast, Santa Monica, and Hollywood Basins. The work includes review and assessment of hydrogeological conditions, including groundwater flow modeling; hydraulic evaluation of the distribution system; and assessment of water sources for augmentation and treatment requirements.

***Ocean Water Desalination Subsurface Intake Study**, West Basin Municipal Water District, El Segundo, CA*

Dr. Chambon led the development of a guidance manual and screening tool for assessing feasibility of subsurface intakes for desalination facilities. The tool as developed as part of a feasibility study of subsurface intakes for a proposed desalination facility along the coastline of Santa Monica Bay, which require seawater intake rates of at least 40 million gallons per day (MGD). Dr. Chambon also assisted with the development of a cost estimate for implementation of a seabed infiltration gallery at El Segundo to support the preparation of the Environmental Impact Report by West Basin Municipal Water District.

***Recharge Feasibility Study**, Newhall County Water District, Castaic, CA*

Dr. Chambon is the lead modeler for a groundwater modeling project to evaluate the feasibility of infiltration basins of recycled water and downgradient extraction for potable use. Dr. Chambon developed and calibrated the flow model and

used it to assess multiple infiltration and extraction alternatives. The feasibility assessment was presented to the client and other stakeholders.

Numerical Model Calibration for Assessment of Water Supply Impacts, *Crystal Geyser, Cartago, CA*
Dr. Chambon reviewed and updated an existing groundwater flow model and performed steady-state calibration. The model was used to estimate the impacts of future pumping scenarios on groundwater level, spring flow, and other water supply wells in the area. The modeling results were included in the Groundwater Mitigation and Monitoring and Reporting Plan and contributed to the approval of the Crystal Geyser project.

Re-Injection Modeling Evaluation, Schlumberger Technology Corporation (STC), *Middlefield-Ellis-Whisman Superfund Site, Mountain View, CA*
Dr. Chambon led the development and use of a groundwater model to evaluate the feasibility of re-injection of extracted and treated groundwater. Dr. Chambon developed estimates of re-injection well capacity, and used the groundwater model to assess re-injection wellfield layouts, including evaluation of anticipated mounding and containment of the re-injected groundwater by the existing recovery wells.

Numerical Model Development for Groundwater Flow and Solute Transport, VOC Plume*, Santa Barbara County Public Works Department, Solvang, CA*
To predict the longterm behavior of a VOC plume, Dr. Chambon developed, calibrated, and performed predictive simulations of a numerical flow and transport model. The simulation period covered 30 years, with calibration focused on a 12-year period of available site data. The model was used to assess natural attenuation of the VOC plume and support the design of the monitoring network.

Numerical Model Development Strategy for Assessment of Source Remediation Alternatives, *LDD Technologies, Ashdod, Israel*
Dr. Chambon provided technical and project management support for development of a solute transport model to support the assessment of source remediation alternatives at an operating chemical plant. Dr. Chambon led the preparation of the work plan, including review of hydrogeological and analytical data at the site and regional scales, definition of model area and boundary conditions consistent with model purposes and available data, and determination of remediation scenarios to be evaluated using the model. The work plan was approved by the local regulatory authority. Dr. Chambon led the construction and calibration of the groundwater flow and solute transport model. The model was used to evaluate and compare multiple source reduction scenarios, including simulations of contaminant concentrations at downgradient monitoring and production wells.

Numerical Model Calibration for Assessment of Water Supply Impacts*, Crystal Geyser, Cartago, CA*
Dr. Chambon reviewed and updated an existing groundwater flow model and performed steady-state calibration. The model was used to estimate the impacts of future pumping scenarios on groundwater level, spring flow, and other water supply wells in the area. The modeling results were included in the Groundwater Mitigation and Monitoring and Reporting Plan and contributed to the approval of the Crystal Geyser project.

Numerical Model Development for Groundwater Flow and Solute Transport for Quarry Reclamation Plan*, Confidential Client, Aromas, CA*
Dr. Chambon developed, calibrated, and performed predictive simulations of a numerical flow and transport 3D model for assessing reclamation alternatives for a quarry. The model was used to assess the impact of the development of the quarry on local and regional groundwater flow in a complex geological system with multiple faults and fractures.

Groundwater Modeling Work Plan, Settling Work Defendants*, Omega Chemical Corporation Superfund Site, CA*
Dr. Chambon led the preparation of the groundwater flow modeling work plan for the Omega Chemical Corporation Superfund Site, Operable Unit 2. The work plan described the development and calibration of the groundwater flow model that would support design of the pump-and-treat system, selection of the compliance monitoring wells, and performance evaluation of the remedy after system startup.

Claire Wildman, PhD, PE

Senior Engineer

15 Years of Experience
10 Years with Geosyntec

Project Roles

- Task 8 Groundwater Quality

Specialties

- Site Investigation, Characterization, and Remediation
- Litigation Support
- Geochemistry Technical Expert

Education

- PhD, Environmental Science, and Engineering, California Institute of Technology, Pasadena, 2011
- MS, Environmental Science and Engineering, California Institute of Technology, Pasadena, 2007
- BS, Civil Engineering, magna cum laude, Washington University, St. Louis, Missouri, 2005

Registration & Certifications

- California Professional Engineer No. 83691
- 40-Hour OSHA HAZWOPER 29 CFR 1910.120(e)(3)I Training
- American Red Cross First Aid and CPR Certification

Career Summary

Dr. Wildman has over eight years of consulting experience in environmental engineering and project management, as well as eight years of prior academic research experience. In her consulting work, Dr. Wildman develops remediation strategies, work plans, feasibility studies, treatability studies, pilot studies, cost estimates, and remedial design and specification documents under the oversight of regulatory agencies. She applies her background in environmental engineering, water chemistry, and geochemistry to remediation and litigation technical support. Dr. Wildman's primary technical focus is on metals, and she is an active leader in Geosyntec's internal geochemistry practice group. Her selected project experience is described below.

Relevant Project Experience

***Evaluation of Copper Leaching from Sediments**, Confidential Client, New York City, NY*

Dr. Wildman performed geochemical modeling to evaluate leaching of copper from sediments under current conditions and under oxic conditions if sediments are disturbed. She used advanced software including Visual Minteq and Geochemist's Workbench to model the expected concentration of copper in sediment porewater under current and projected conditions, including complexation with solid- and dissolved-phase organic matter. The model results were paired with an ecological toxicology assessment to inform the client of potential risks of a remedial strategy to leave sediments in situ.

***Evaluation of Arsenic Background in Groundwater**, Confidential Client, Morris, KS*

Geosyntec supports a rail company and its consultant in evaluating the likely background concentration of arsenic in groundwater at a former rail yard in Kansas. The site is in the floodplain of the Kansas River, which is known to have an elevated arsenic concentration in soil and groundwater due to natural conditions. A nearby property owner has suggested that the former rail yard is the source of arsenic in their groundwater. Dr. Wildman and others have reviewed historical and regional arsenic groundwater data and provided a critical peer review to the sample collection program and statistical analysis performed by the other consultant.

***Ash Leaching Evaluation**, Waste Management, El Sobrante, CA*

Dr. Wildman performed geochemical modeling to help justify waste acceptance criteria for ash at a landfill. She used advanced software including Visual Minteq and Geochemist's Workbench to model the expected concentrations of the metals cadmium, copper, lead, and zinc in leachate when equilibrated with ash wastes. Geosyntec's effort helped gain approval from the Regional Water Quality Control Board for the waste acceptance criteria for ash.

***Feasibility Study for Remediation of Mercury in Groundwater**, Confidential Client, Oakland, CA*

Dr. Wildman reviewed technical data and coordinated with the lead consulting firm to develop remedial strategy for a former chlor-alkali site. Along with other Geosyntec practitioners, she helped the lead consulting firm draft a viable FS addendum based on bench-scale treatability testing for a permeable reactive barrier to treat dissolved mercury in groundwater. Currently, Geosyntec supports the development of an updated conceptual site model for groundwater.

***Conceptual Feasibility Study on Iodine Addition for Perchlorate in Drinking Water**, Confidential Client, Atlanta, GA*

Dr. Wildman researched and prepared a conceptual FS on the addition of iodine to drinking water supplies to mitigate the health impacts of low levels of perchlorate.

Geosyntec prepared and published a technical manuscript in the Journal of the American Water Works Association to assist in the client's push for regulatory approval of this risk mitigation strategy. The journal article was published in June 2015. Geosyntec continues to advise the client on regulatory feasibility aspects of this concept.

***Monitored Natural Attenuation (MNA) Framework at Coal Combustion Residuals (CCR) Sites**, Electric Power Research Institute (EPRI), National*
Dr. Wildman supported a multi-office Geosyntec team in developing an EPRI guidance document for owners and operators of CCR sites, such as ash tailings piles. The document presents a framework to implement MNA, where appropriate, for metals and inorganic constituents at CCR sites, in compliance with previous USEPA and Interstate Technology and Regulatory Council (ITRC) guidance documents as well as current CCR regulations.

***Source Characterization and Evaluation of Remedial Options**, Confidential Client, CA*
Geosyntec provides technical assistance to a client with a wastewater stream high in particulates, antimony, and boron. Services include an evaluation of the potential sources of antimony to the wastewater, an evaluation of on-site treatment options for antimony, an evaluation of treatment options for boron within the local wastewater treatment plant, and ongoing discussions with the local wastewater treatment plant operators. Geosyntec's technical guidance has helped the client's renovation project move forward with local permitting authorities.

***Peer Review Report of Ecological Risk Assessment for Deep-Sea Cyanide Tailings Discharge**, Lihir Gold Operation, Newcrest Mining Limited, Lihir, Papua New Guinea*
Dr. Wildman managed a multi-office Geosyntec team to review Lihir Gold Operation's Ecological Risk Assessment for Deep-Sea Cyanide Tailings Discharge, prepared for compliance with the International Cyanide Management Institute Code. Dr. Wildman maintained budget and coordinated the written report with technical findings from staff across the United States. The client then requested that Geosyntec prepare a single peer review panel report, synthesizing technical issues raised by Geosyntec and two other peer review teams hired by the client. The client was pleased with Geosyntec's effort for striking a balance between criticism of the ecological risk assessment report and understanding of the client's desire to comply with environmental regulations.

***Development of Predictive Tools for Assessment of Natural Attenuation Capacity and Treatment Transition at Chlorinated Solvent Sites**, SERDP, United States*
Geosyntec, in partnership with Dr. Natalie Capiro of Auburn University, Dr. Kurt Pennell of Brown University, and Dr. Mark Widdowson of Virginia Technical Institute, is conducting a research project through the Strategic Environmental Research and Development Program (SERDP) of the United States Department of Defense. Dr. Wildman is the project manager for this project, which entails fundamental research on the natural attenuation capacity of soils and aquifer materials for sites with chlorinated solvent plumes. Geosyntec's work focuses on coupling the findings of bench-scale experiments and contaminant fate and transport modeling with data available on project sites. The findings of this SERDP study, expected in 2023, will assist remedial site managers in evaluating and justifying the transition from active remediation to monitored natural attenuation on contaminated sites.

***Groundwater Remedial Technologies Review, United States Department of Energy Legacy Management**, Navarro Research and Engineering, Shiprock, New Mexico and Tuba City, AZ*
Dr. Wildman manages a project to evaluate groundwater remedial technologies to address contamination of United States Department of Energy Legacy Management Sites at Shiprock, New Mexico, and Tuba City, Arizona. Both sites are former uranium mills with capped piles of tailings in complex geological settings. Tailings and other residual source mass have leached into groundwater over years of operations prior to remedial activities beginning in the 1990s, leading to groundwater contamination with uranium, nitrate, and sulfate, among other constituents. Existing groundwater extraction and treatment systems are approaching their design lifetimes. Geosyntec's remedial technologies review includes in situ and ex situ technologies evaluated against the nine CERCLA criteria and recommends technologies to evaluate with further investigation activities.

Keaton Belli, PhD
Scientist

Career Summary

Dr. Belli has three years of professional consulting experience and specializes in biogeochemistry and soil and groundwater remediation. He conducts field investigations, environmental media sampling, and data analysis to support soil and groundwater remediation projects. Dr. Belli has seven years of biogeochemistry research experience, including both laboratory and field studies, and his doctoral dissertation focused on the bioremediation of uranium-contaminated groundwater associated with nuclear processing facilities. Dr. Belli applies his experience in biogeochemistry, soil and groundwater sampling, and geochemical modeling to support remediation projects involving organic and inorganic contaminants in diverse geochemical and geological environments. Highlights of his experience include the following projects.

Relevant Project Experience

***Reconnaissance and Reporting**, Confidential Client, Port of Richmond, CA*
Dr. Belli performed beach reconnaissance near a former oil seep to identity visible sheens and water seeps within the intertidal zone of the San Francisco Bay. Reconnaissance included collecting photographs, global positioning system (GPS) locations, and detailed descriptions of visible sheens. Dr. Belli was the lead author of the Main Beach Inspection report, which was submitted to the San Francisco Bay Regional Water Quality Control Board.

***Uranium Mill Tailings Radiation Control Act Title I Sites**, Navarro Research and Engineering, United States*
Dr. Belli co-authored the revised Technical Approach to Groundwater Restoration (TAGR) for United States Department of Energy (DOE) sites regulated under Title I of the Uranium Mill Tailings Radiation Control Act (UMTRCA). The TAGR provides general technical guidance to implement restoration of uranium-impacted groundwater at Title I sites in accordance with requirements established under UMTRCA. Since publication of the original TAGR in 1993, several key programmatic documents and regulations have since been finalized. The revised TAGR clarifies groundwater restoration based on the standards promulgated by the United States Environmental Protection Agency (USEPA); recognizes current programmatic requirements, processes, and efficiencies for groundwater compliance actions plans and associated efforts; and incorporates advances in remedial technology and site management. This document will guide groundwater restoration efforts at 21 Title I sites across nine states and tribal lands.

***Regional Program for Multiple Superfund Sites**, Volatile Organic Compound (VOC) Release, Former Manufacturing Facilities, Mountain View, CA*
Dr. Belli served as task manager for the preparation of an annual progress report related to a mile-long, regional trichloroethene (TCE) plume. His responsibilities included kriging of groundwater contour maps and extraction well capture zones using KT3D contouring software, preparation of 20 large chlorinated solvent isoconcentration contour maps, and Mann-Kendall trend analysis of chlorinated ethene concentrations at over 360 well locations. Dr. Belli coordinated peer, senior, and client review and submission of the annual progress report to the United States Environmental Protection Agency.

***In-Situ Chemical Oxidation (ISCO) Injections**, Schlumberger Technology Corporation (STC), Middlefield-Ellis-Whisman Superfund Site, Mountain View, CA*
Dr. Belli served as field staff for ISCO injections of sodium permanganate and sodium persulfate in a commercial and high-profile area that contained soil and groundwater impacted by chlorinated solvents. He was responsible for on-site supervision of subcontractors, collection of field data prior to and during injections, and preparation of daily summaries of injection details. Dr. Belli served as the lead author of the report summarizing the ISCO injection event, which was submitted to the United States Environmental Protection Agency.

Keaton Belli, PhD

***Remedial Investigation and Pilot Studies at a Former Western Chemical Facility**, Confidential Client, La Mirada, CA*
Dr. Belli assists with analysis and interpretation of geochemical data from a bench-top treatability study. The study examines a site characterized by a large 1,4 dioxane, tetrachloroethene (PCE), and TCE groundwater plume. Dr. Belli's responsibilities include analyzing data from the treatability study to determine the efficacy of potential oxidants to be used in the forthcoming ISCO treatment at the site. He also assists with the design of the forthcoming ISCO injection pilot test.

***Groundwater Extraction and Treatment System Operations and Maintenance**, Confidential Client, CA*
Dr. Belli assists with the operation and maintenance of a groundwater extraction and treatment system (GETS) featuring a fixed-bed bioreactor for removal of VOCs, selenium, chromium, and perchlorate.

***Conceptual Site Model and Transport Modeling of Molybdenum in Soil and Groundwater at a Molybdenum Processing Facility**, Confidential Client, IA*
Dr. Belli contributed to the development of a conceptual site model at a molybdenum processing facility where soil and groundwater are impacted by molybdenum. Dr. Belli evaluated soil and groundwater geochemical data to identify the dominant geochemical processes controlling the subsurface mobility of molybdenum. Based on the conceptual site model, Dr. Belli assisted with the development of a molybdenum fate and transport model and led the incorporation into the model of geochemical processes that retard the transport of molybdenum in groundwater. The molybdenum transport model successfully reproduced groundwater molybdenum concentrations at the site and was used to assess future changes to the molybdenum groundwater plume in response to operation and management of on-site groundwater production wells. Dr. Belli contributed to a technical memorandum that summarized the results of the molybdenum modeling exercises and was incorporated into a Remedial Action Plan.

***In Situ Biological Remediation (ISBR) System Operations and Maintenance**, Confidential Client, CA*
Dr. Belli assists with routine operations and maintenance of an ISBR remedy designed to reduce perchlorate concentrations within an isolated sand lens via pulsed injection of emulsified vegetable oil (EVO) into recirculated groundwater. Dr. Belli is involved in the analysis and interpretation of geochemical field data from the site to assess the efficacy of the remedy, and he summarizes these findings in the annual groundwater monitoring report submitted to the Regional Water Quality Control Board.

***Geochemical Controls of the Microbially Mediated Redox Cycling of Uranium and Iron**, Georgia Institute of Technology , Atlanta, GA*
For his Ph.D. dissertation, Dr. Belli studied microbial uranium reduction as a bioremediation strategy to address uranium-contaminated groundwater associated with nuclear processing facilities. This research investigated the effects of groundwater composition on uranium bioreduction kinetics and identified the geochemical conditions under which iron oxides are predicted to enhance or hinder uranium removal from solution via dissimilatory uranium reduction. These results were incorporated into a geochemical kinetic model that successfully reproduced the rate of uranium removal from groundwater over a wide range of conditions. Overall, this body of work identified geochemical parameters that should be considered when implementing uranium bioreduction technologies and advanced the ability to predict the fate of uranium in geochemically diverse environments.

***Source, Composition, and Stability of Soluble Iron Fluxing from Continental Margin Sediments**, Georgia Institute of Technology, Atlanta, GA*
Dr. Belli spent eight weeks aboard the research vessel (R/V) Savannah investigating the flux of soluble iron from ocean sediments along the North Atlantic continental margin. Dr. Belli managed the onboard wet chemistry laboratory and was responsible for sediment core collection, core sectioning and porewater extraction, onboard porewater analysis, sample inventory, and sample storage.

Mike van den Enden, PG

Senior Geologist

16 Years of Experience
1 Years with Geosyntec

Project Roles
- Task 8 Infiltration Methods

Specialties
- Hydrogeology
- Groundwater monitoring and assessment
- Hazardous materials/waste management

Education
- BS, Geology, California State University, Stanislaus

Registration & Certifications
- California Professional Geologist No. 9286

Career Summary

Mike is a senior geologist and project manager with 16 years of experience in project management support, remedial investigations/feasibility studies, and remedial actions at hazardous waste sites. He provides expertise related to hazardous materials/hazardous waste services during the preparation of multiple ISAs in accordance with lead agency standards and related consulting for the Environmental Impact Report (EIR) and has assisted in the preparation of EIRs with respect to hydrogeology, geology, and hazardous materials assessments and other associated planning documents. Mike has been the lead professional geologist for various types of projects throughout California, including evaluation and interpretation of data for technical reports, geophysical evaluations, geological investigations, geologic field mapping and interpretation, borehole logging, soil classifications with an emphasis on USCS classification, measurement of soil mechanic properties using the Atterberg limits, interpretation of groundwater chemistry trends, aquifer vulnerability analysis, and field identification of rocks and minerals.

Mike has extensive experience as a contract and project manager, supporting environmental programs, contracts, and projects. These projects include site investigation and remediation services; hazardous materials and hazardous waste management; asbestos, lead-based paint; PCB management; and regulatory compliance on contaminated sites across central and Northern California. He has superior project management skills and places a high value in being responsive to his clients. Mike is an effective communicator and clients appreciate his advocacy on their behalf and has successfully led projects to close on schedule and on budget.

Relevant Project Experience

Environmental Site Assessment, *BLT Property, Sacramento County, CA*
Responsible geologist for the site reconnaissance and preparation of a Phase I ESA on the property identified by the Sacramento County Assessor's Office as Assessor's Parcel Number (APN) 215-0244-027. During the Phase I ESA, recognized environmental conditions (RECs) were noted, including groundwater beneath the site, and surface water/sediment contamination along Don Julio Creek. Mike also performed a limited Phase II ESA to address the RECs discussed in the Phase I ESA by collecting surface water/sediment samples to assess for these potential RECs.

SAFCA Area Wide Due Diligence Environmental Assessment for Natomas Basin Levees, *Sacramento and Sutter Counties, CA*
Provided technical oversight for Phase I ESAs for this area-wide due diligence assessment of properties owned by approximately 200 individual landowners along the Natomas Basin in Sacramento and Sutter Counties. The purpose of the due diligence assessment was to evaluate environmental conditions that could affect the proposed levee upgrade project. In the preliminary evaluation, properties were screened for potential presence of hazardous materials, recognized environmental conditions, and identified "significant data gaps". Based on the results of the preliminary evaluation, individual properties with potential recognized environmental conditions were further evaluated in accordance with the ASTM Phase I ESA E 1527-05 process.

Rice Pesticide Monitoring Program, *California Rice Commission, Sacramento, CA*
Mike was the primary point of contact and program manager responsible for implementation of surface water sample collection and coordination of laboratory samples and analysis to monitor drainage basin water for sediment load and pesticides used for the production of rice. He was responsible for the review and quality assurance of field parameters and laboratory analysis reported to the California Rice Commission. Results were compiled and discussed in the annual groundwater assessment report as required under the Regional Water Quality Control Board's long-term irrigated lands regulatory program. Mike worked directly with the California Rice Commission and Yuba County Water Agency

Mike van den Enden, PG

Groundwater Sustainability Agency for the placement of shallow groundwater monitoring wells that would be used to monitor first encountered groundwater trends.

Groundwater Consultation, *Sacramento County Waste Management District and Recycling, Sacramento, CA*
Mike was the primary point of contact and project manager responsible for preparing a Corrective Action Program Monitoring Well Rehabilitation-Reconstruction Work Plan. He helped to prepare a detailed conceptual model of the hydrogeologic environment to address the notice of violation issued for wells that were determined to be dry. The Work Plan provided rationale for using other existing monitoring wells to replace the dry wells in the monitoring program. Mike prepared a pilot study to evaluate the effectiveness of extracted groundwater being directed to designated, on-site infiltration basins. This was meant to reduce the carbon footprint of the groundwater treatment system and provide a beneficial re-use of groundwater through aquifer recharge, following written executive officer approval from the Water Board. Under the National Pollutant Discharge Elimination System, the Kiefer Road landfill groundwater treatment plant was authorized to discharge up to 2.17 million gallons per day of extracted groundwater into Deer Creek or to an on-site sedimentation basin during maintenance treatment system operations.

On-Call Environmental Compliance and Program Development Services, *Sacramento Municipal Utility District (SMUD), Sacramento, CA*
Mike was the program manager for numerous environmental projects on a multi-year, on-call contract. He oversaw and performed regulatory compliance (RCRA, TSCA); Phase I and II Environmental Site Assessments; soil removal; environmental compliance program development; environmental health and safety; site investigation and remediation design; UST removal and sampling; stormwater management; PCB management; training; emergency response planning; greenhouse gas reporting; and hazardous materials and hazardous waste management.

PCB Management, *SMUD, Sacramento, CA*
Mike was the project manager and point of contact that worked with SMUD for the PCB notification and remedial management plan. His responsibilities included developing the scope of work and preparing cost proposals, work plans, and notifications to the United States Environmental Protection Agency (USEPA). Other tasks included collecting soil samples and performing statistical data analysis for soils containing PCBs. Mike worked closely with SMUD project managers to develop the approved PCB notification and remedial plan for SMUD headquarters' building renovation project to manage PCB remedial waste in accordance with the USEPA's risk-based disposal criteria.

Phase II Environmental Site Assessments (Phase II ESA), *Various SMUD Locations, Sacramento, CA*
Mike was the project manager responsible for conducting subsurface investigations utilizing hand-auger, hollow-stem, direct-push drilling, and CPT methods, groundwater well installations, groundwater monitoring, and groundwater well destructions. He coordinated underground storage tank (UST) removal activities and performed sampling and profiling of excavated contaminated soil for offsite disposal at licensed facilities.

California Highway Patrol Academy Site Investigation and Remediation, *Department of General Services (DGS), West Sacramento, CA*
Mike managed this $1+ million, 5-year contract involving site investigation and remediation work at the California Highway Patrol Academy where a release from an onsite UST resulted in soil and groundwater contamination. He coordinated and oversaw the removal of existing USTs and was responsible for costs, client coordination, preparation of work plans, assigning pre-field tasks to staff, conducting safety meetings, and coordinating field activities. Mike provided oversight of the UST Removal Work Plans, Underground Service Alert notifications, geophysical surveys, UST excavation and disposal; soil sampling and waste disposal as well as preparation of removal report, and coordination with regulatory agencies including Yolo County Division of Environmental Health Services (YCDEHS) and UST Tank Fund. Follow-on work included preparation and submittal of additional site investigation work plans for well installations, hydro-punch groundwater sampling, additional well installations, and implementation of further remedial action plans.

Brandon Steets, PE

Senior Principal

22 Years of Experience
18 Years with Geosyntec

Project Roles

- Task 8 Infiltration Methods

Specialties

- Stormwater planning and permitting
- Water quality modeling and monitoring studies

Education

- MS, Environmental Engineering, University of California, Santa Barbara, 2000
- BS, Environmental Engineering, Rensselaer Polytechnic Institute, Troy, New York, 1998

Registration & Certifications

- Registered Professional Engineer, Chemical, State of California, No. CH6132

Career Summary

Brandon Steets is a Senior Principal based in Santa Barbara with over 20 years' experience. Mr. Steets specializes in NPDES and TMDL regulations, pollutant source investigation, watershed water quality modelling, and Green Infrastructure design. He often serves as technical expert on Clean Water Act litigation. He is a frequently invited speaker, including to statewide audiences through CASQA, SWRCB webinars, California Association of Sanitation Agencies, and the California Lawyers Association. He has led online training for nationwide organizations including ASCE and ITRC. His projects have been recognized with awards from ASCE, CASQA, and NACWA. He is a trusted resource to regulators, having led multiple high profile studies for the SWRCB (e.g., statewide drywell guidance, modeling for new instream flow criteria, septic nutrient source tracking, and modeling for the 2018 IGP Amendment alternative compliance options) that may form the basis of new statewide regulation or policy or modify an existing TMDL. And he helped develop new guidance for state regulators nationwide, for ITRC's Stormwater BMP Performance and Harmful Cyanobacteria Bloom teams.

Mr. Steets is a subject matter expert on bacteria issues, including Microbial Source Tracking (MST), risk assessment, and modeling. He was a member of the SWRCB's Clean Beaches Task Force, stormwater focus group member for the Statewide Bacteria and Numeric Nutrient Objectives Updates, co-editor of the ASCE report Pathogens in Urban Stormwater Systems, co-author of the Colorado E. coli Toolbox guidance manual, expert peer reviewer on coastal bacteria topics for the journal Water Research, and advisor to the National Water Research Institute on MST issues. He has published articles in Stormwater Magazine and Water Research on bacteria treatment and modeling. He supported a SWRCB-funded MST study with UCSB that was the first to publish on sewer exfiltration into storm drains. He has led or supported roughly 20 bacteria-controlled MS4 watershed plans, resulting in the planning of over $6 billion in new green infrastructure, and was a TAC member for the San Francisco region's Reasonable Assurance Analysis (RAA) guidance.

Relevant Project Experience

***Statewide Drywell Guidance**, CA*
Project director for development of new statewide guidance for drywell siting, design, installation, maintenance, and monitoring. Includes review of existing data and published studies, identification of research needs and gaps, development of a framework to assess risks to groundwater quality, and management of a Technical Advisory Committee.

***Redding Stormwater Resource Plan (SRP)**, Redding, CA*
Project director for a SRP developed per State Water Board guidelines, for local MS4 agencies to access Proposition 1 state grants. Includes public parcel screening, structural BMP project prioritization and design concept development, hydrologic and water quality modeling for estimation of water supply capture and pollutant load reduction benefits, capital and O&M cost estimation, quantification of other multi-benefits, and stakeholder outreach support. Includes BMP feasibility assessment, 30% design, and implementation grant application development for multiple top priority projects.

***Lower Santa Clara River Bacteria TMDL Implementation Plans**, Ventura County, CA*
Project director for an Implementation Plan for agencies in the Lower Santa Clara River watershed, including identification/prioritization of structural and non-structural BMPs, Reasonable Assurance Analysis watershed modeling, implementation cost estimation, and recommendations for future monitoring and special studies. Includes development of multiple regional infiltration project design concepts for four cities and the County.

***Santa Barbara Countywide Stormwater Resource Plan (SRP)**, Santa Barbara County, CA*
Project director for development of a Countywide SRP, for County MS4 agencies to access State grants. Includes parcel screening, feasibility and permitting assessment, perc testing, project prioritization, conceptual through preliminary (30%)

design, modeling of water supply and pollutant load reduction benefits, quantification of other multi-benefits, capital and O&M cost estimation, and stakeholder outreach support.

***Confidential Stormwater Litigation Support**, Major Northern California Power Utility*
Retained as technical expert to support negotiation of Consent Decree with environmental NGO plaintiff related to stormwater runoff from treated wood pole storage areas at over two dozen facilities, under RCRA (Ecological Rights Foundation v. Pacific Gas and Electric Company, U.S. District Court N.D., Cal. Case No. 3:10-cv-00121-RS; settled). Includes analysis of sampling results, recommendations for numeric benchmarks and dioxin TEQ calculation/reporting procedures, and development of a stormwater sampling plan and BMP pilot study plan, to evaluate treatment performance among multiple BMP options. Ongoing work includes implementation of settlement – BMP design, construction, performance sampling, dilution factor calculations, and reporting.

***Confidential industrial wastewater and stormwater WDR and NDPES permitting and enforcement support**, Central Valley turkey processing facilities, CA*
Retained as regulatory expert to support outside counsel in response to potential enforcement action. Followed by development of WDR permit application for discharge of treated industrial wastewater and stormwater to pasture land. Includes water and pollutant mass balance modeling to evaluate antidegradation of groundwater for salts and nutrients, hydrogeological assessment, regulatory negotiation to support successful acquisition of new individual WDR permit, and ongoing permit compliance reporting. Involvement now extended to other facilities with tasks including discharge permit application for industrial stormwater (statewide IGP), compost stormwater (other statewide general NPDES permit), and discharge to land for small municipal wastewater treatment system (individual WDR order).

***San Francisco Baykeeper v. Cities of Sunnyvale and Mountain View**, Santa Clara County, CA*
Retained as technical expert supporting municipalities on Clean Water Act citizen suit case against NGO plaintiff over alleged non-compliance with regional MS4 NPDES permit and alleged bacteria Water Quality Standard exceedances. Includes technical analysis of MST data and claims of sewer exfiltration, and regulatory analysis of permit compliance. Tasks include production of expert and rebuttal reports, review of plaintiff expert reports, and deposition.

***Santa Monica Bay (SMB) Enhanced Watershed Management Plans (EWMPs) and Coordinated Integrated Monitoring Plans (CIMPs)**, Multiple Cities, Los Angeles County, CA*
Senior reviewer of CIMPs, to meet MS4 Permit receiving water and outfall monitoring requirements, and of Work Plans and EWMPs, including BMP identification and RAA modeling to demonstrate compliance with bacteria TMDL-based limits and other water quality standards, using the SBPAT and WMMS/LSPC models. The four SMB EWMP Groups include North SMB (led by City of Malibu), SMB J2/3 (led by City of Los Angeles), Southbay Beach Cities (led by Redondo Beach), and Peninsula Cities (led by Rancho Palos Verdes).

***South Orange County Water Quality Improvement Plan (WQIP)**, Orange County, CA*
Chief architect of a first of its kind, MST-based Pathogen Control Strategy to address the regional bacteria TMDL (including RAA modeling), in the first WQIP or EWMP in the State to address a bacteria TMDL primarily through source control rather than Green Infrastructure, with potential to reduce cost by over $600M while achieving greater public health protection. Ongoing work involves testing dry weather source water types (potable, reclaimed, sewage, groundwater) using novel forensic tools (community sequencing, pharmaceuticals and personal care products, ions, isotopes, HF183, and HF183 with PMA viability dye) to differentiate flow sources to MS4s.

***San Diego Bay Sediment Recontamination Study**, Paleta Creek and Naval Base San Diego, San Diego, CA*
Water quality monitoring plans, installation and programming of autosamplers, WinSLAMM model review/interpretation, data analysis, and reporting to evaluate risk of industrial and urban stormwater in recontaminating sediment remediation sites. Collaboration with researchers from Texas Tech, Univ. of Michigan, US Navy's Space and Naval Warfare Systems Command (SPAWAR), and Univ. of Alabama, and funded through Department of Defense Strategic Environmental Research and Development Program (SERDP) grant.

Scott Struck, PhD

Principal

19 Years of Experience
10 Years with Geosyntec

Project Roles

- Task 8 Infiltration Methods

Specialties

- Stormwater and Watershed Management
- Tool Development and Modeling of Stormwater BMPs
- Watershed Planning and Implementation
- Monitoring and Performance of Stormwater BMPs
- Policy Development and Training

Education

- PhD, Water Resources Management, Indiana University, Bloomington, IN, 2003
- MS, Water Resources Engineering and Management, Indiana University, Bloomington, IN, 2001
- MPA, Env. Policy and Natural Resource Mgmt., Indiana University, Bloomington, IN, 2001
- BS, Zoology, University of Washington, Seattle, WA, 1995
- BA, Psychology, University of Washington, Seattle, WA, 1995

Career Summary

Dr. Struck has 20 years of water resources experience with a focus on planning and implementation of stormwater management practices including green stormwater infrastructure to meet drainage and NPDES permit requirements. He is experienced in infrastructure prioritization, modeling, design, optimization, real-time controls, monitoring, performance assessment, economic and triple bottom line cost analyses, and integrated watershed planning. He has participated in projects throughout North America and has contributed to the development of several computational stormwater management and cost tools, including the cost module of EPA's National Stormwater Calculator and the US National Academies of Sciences Watershed-Based Planning Approach and Toolbox. Dr. Struck serves as an associate journal editor for the Journal of Sustainable Water in the Built Environment and is currently the President of the Environmental and Water Resources Institute of the American Society of Civil Engineers.

Relevant Project Experience

***Evaluating Low Impact Development (LID, Green Infrastructure) and Surface Water – Groundwater Interactions**, Los Angeles County Public Works, Los Angeles, CA*
Dr. Struck is project manager of this effort to better understand and quantify the volumetric benefits of various types of green stormwater infrastructure to provide water supply, aquifer recharge, prevent saltwater intrusion, and improve stormwater quality or receiving systems. Teamed with the Department of Energy's Lawrence Berkeley National Laboratory and partnering with the US Bureau of Reclamation and the US Geological Survey, this project is collecting data to support surface water and groundwater models to better quantify the benefits of infiltrating stormwater and developing integrated and secure sources of groundwater supply while improving the water quality of stormwater runoff.

***Beach Cities Enhanced Watershed Management Planning and Safe, Clean, Water Application**, City of Manhattan Beach, City of Hermosa Beach, City of Torrance, and the County of Los Angeles Department of Public Works, CA*
This project supports municipal stormwater compliance through capture and treatment of stormwater runoff that to enhance groundwater replenishment, protect local beaches, improve overall water quality, and reduce local flooding providing integrated, multi-beneficial outcomes. The project leverages existing flood control infrastructure with a retrofit to infiltrate 140 ac-ft per year of stormwater runoff supplementing groundwater supply in the shallower aquifer and providing preventing seawater intrusion. Dr. Struck is the project manager.

***Regional Bioretention Literature Review and Volume 3 Update**, Mile High Flood District (Urban Drainage Flood Control District), Denver, CO*
Dr. Struck is assisting the MHFD by providing a literature review of bioretention design and construction information to provide additional understanding of various material and design aspects to improve the water quality performance and improve plant survivability. Following the literature review, Geosyntec assisted MHFD as a team member to Update Volume 3 - Chapter 4 (Post Construction SCMs) of the Urban Storm Drainage Criteria Manual. Geosyntec has participated in stakeholder meeting as well as developed additional information to support bioretention media selection as well as the development of specialized media to target specific pollutants.

***3rd Party Stormwater Program Audit**, City of Austin, Austin, TX*
Dr. Struck was technical lead for this project which assessed over 30 years of SCM performance data to document whether the City of Austin was 1) reducing pollution load to receiving waters to the maximum extent practicable and 2) were they maintaining and increasing baseflows in waterways to the maximum extent

Scott Struck, PhD

Registration & Certifications

- Professional Wetland Scientist, Assoc. of Prof. Wetland Scientists, 2006 (No. 1655)
- Institute for Sustainable Infrastructure Certified Envision Sustainability Professional, 2017 (No. 23008)

practicable. Geosyntec's provided this 3rd party audit through collection of City stormwater monitoring data sets, reports, criteria and design manuals, and inspection and maintenance practices to evaluate how well the existing programs, projects, guidance documents and permitting processes met regulatory objectives and provided recommendations on how programs and processes might be improved.

***Green Infrastructure Project Identification and Conceptual Design**, City of Omaha, Omaha, NE*
This project evaluated five City of Omaha watersheds to identify and develop integrated stormwater management infrastructure projects that would be included in the City's Long-Term Control Plan Update. The project developed a multi-objective decision analysis (MODA) evaluation process that identified over 50 specific opportunities, impacting over 3,500 acres of runoff into the combined sewer system. These opportunities included public and private property and greening of City streets and management of runoff from limited access roadways. Five projects were selected based on volumetric and flow performance and cost effectiveness (i.e., 20-year life cycle cost/gallon of CSO volume reduced). Conceptual designs were developed to support design and next phases. The selected projects maximized initial investment made by the City by exploring right of way and other regional facilities located on public property. Dr. Struck was the project manager.

***Blacksnake Creek Wastewater/Stormwater Separation Improvements using Green Infrastructure and Real Time Management**, City of St. Joseph, St. Joseph, MS*
Geosyntec's role in the stormwater separation diversion structure and channel improvements on Blacksnake Creek was to develop and design green infrastructure and real time control projects to support the diversion of stormwater (creek water), for the CSO control design storm event, from the Blacksnake Creek combined sewer system to a new stormwater conduit. Geosyntec was tasked with planning and developing conceptual (30%), draft (60%) and final designs (90%, 95%, and 100%) for several kinds of green infrastructure as a part of combined system separation. Tasks include screening and evaluation of potential locations, hydrologic and hydraulic modeling, site inspection and feasibility analyses, evaluation of Real Time Control Concepts at Potential Sites, and conceptual, draft final, and final designs. In addition, Dr. Struck is involved in conducting public meetings and workshops assisting project and City staff in understanding and promoting the implementation, operation, and maintenance the selected green infrastructure and real time

***Green Stormwater Infrastructure Joint Program Management Services**, Seattle Public Utilities and King County-Wastewater Treatment Division, Seattle, WA*
Seattle Public Utilities (SPU) and King County's Wastewater Treatment Division (WTD) have implemented a green stormwater infrastructure program for the City of Seattle to reduce the volume of stormwater runoff and improve water quality. Dr. Struck was a part of a team that provided development of equivalency policies with state regulatory requirements, monitoring, modeling, operation and maintenance, and economic triple-bottom-line evaluation of programmatic elements.

***Colorado Regulation 85 Nutrient Data Gap Analysis**, Colorado Stormwater Council and Urban Drainage Flood Control District, Denver, CO*
For Municipal Separate Storm Sewer Systems and Colorado Discharge Permit System permittees, Regulation 85 requires public education and outreach on stormwater impacts associated with nutrients, pollution prevention/good housekeeping for municipal operations, and data collection regarding the approximate nitrogen and phosphorus contribution to state waters due to discharges from MS4s. The project determined whether adequate information exists to allow for determinations of representative nutrient estimates by statistically evaluating Front Range municipal data collected in the past. In this way, future data collection can be focused on areas that have a paucity of data to address the remaining information requirements under Regulation 85. Dr. Struck was project manager for Geosyntec.

***Stormwater Management Planning and Permitting Support**, General Services Administration, Denver Federal Center, Lakewood, CO*
Dr. Struck has provided permit and compliance assistance through development of the installation Stormwater Management Plan and assistance with EPA interviews and audits. Additional compliance assistance was delivered through review of the Draft MS4 permit as well as developing necessary facility education and workshop training.

Additional services were provided through facility inspection and monitoring of dry weather flows and modeling as a part of future facility master planning.

***Third Fork Creek Watershed Planning and Design**, Durham, NC*
Dr. Struck was task manager for a $1M+ planning and design project in Durham, NC. Dr. Struck led teams for included stream assessment, stormwater retrofit planning and design, LID implementation, and BMP maintenance to meet programmatic goals for Third Fork Creek.

***Pipers Creek Flow Control Plan**, Seattle Public Utilities, Seattle, WA*
Dr. Struck initiated efforts to assess the data available for the hydrology model used in Pipers Creek analyses. He also was a part of developing a standardized data assessment process that included development of a data inventory, creation of a data management system for geospatial and other electronic data, review of available data, evaluation of suitability of data compared to data needs, and identification of important data gaps. Scott also contributed to developing data quality objectives and a data collection QAPP that complies with SPU's QAPP guidelines.

***Comprehensive Load Reduction Program for Pollutant Load Reductions and Environmental Compliance**, City and County of San Diego, San Diego, CA*
To improve the efficiency of limited planning resources, and to take advantage of an extended 20-year wet weather compliance timeline, The San Diego NPDES Co-Permittees have chosen to address multiple pollutants of concern through a comprehensive load reduction program strategy. Dr. Struck provided review of approaches taken and draft documents submitted for the evaluation and prioritization of regional and distributed stormwater management controls to meet load reduction requirements for multiple pollutant impairments within the five City of San Diego watersheds, as well as the San Luis Rey and Upper San Diego Rivers.

***Orange County Transportation Authority Measure M2 Environmental Cleanup Program Tier 2 Grant Evaluation Assistance**, County of Orange, Santa Ana, CA*
Dr. Struck assisted a team in applying an integrated model to identify and categorize strategically effective areas for prioritizing best locations for water quality mitigation. He led the team in developing an evaluation methodology for determining cost-effective ranking of stormwater improvement plan submittals based on criteria developed through a technical advisory committee. The methodology ranked projects to determine award allocations to assist in implementation of the project with the greatest cost-benefit efficiency for stormwater improvements.

***Stormwater Strategic Planning**, City of San Diego, CA*
In order to ensure that stormwater management activities are sufficiently and cost-effectively contributing to an overall improvement water quality throughout the City, Dr. Struck assisted with the City's stormwater strategic planning section (now within the Streets Division) to establish a systematic method for evaluation of BMP costs and impacts. He developed methodologies for collecting and organizing key information for programmatic evaluations and structural BMP performance for permit compliance within the City's watersheds.

***Los Angeles County Watershed Planning**, Los Angeles, CA*
This project provided watershed planning assistance to prioritize and cost optimize implementation of stormwater controls to meet regulatory requirements. Dr. Struck has been involved with selection, design, placement, and cost optimization of runoff management and source control practices (LID and Green Infrastructure techniques) providing decision support for watershed planning and capital improvement projects in the unincorporated areas of Los Angeles County. Dr. Struck also assisted Los Angeles County engineers in the development of cost benefits analyses tools to assist in BMP selection.

***Otay Mesa Engineering and Drainage Reports Review**, City of San Diego, San Diego, CA*
Dr. Struck managed this project which provided review of existing stormwater management plans, current land use and drainage patterns based on GIS data, and other relevant information to evaluate recommended improvements in the drainage plans of the Otay Mesa Area of San Diego. The project provided detailed review of previously completed planning and engineering reports and local and county storm water regulations to develop recommendations for the placement and design of storm water-management facilities and restoration projects that may be required to mitigate impacts to sensitive areas (e.g., vernal pools) and manage stormwater runoff.

Mason Albrecht, PE

Senior Engineer

14 Years of Experience
8 Years with Geosyntec

Project Roles
- Task 9

Specialties
- Investigation and Remediation
- Vapor Intrusion Assessment and Mitigation
- Stormwater Compliance
- Landfill Operations
- Water/Wastewater

Education
- MS, Civil and Environmental Engineering, Stanford University, 2006
- BS, Civil and Environmental Engineering, University of California, Davis, 2004

Registration & Certifications

- 8-Hour OSHA Supervisor Training

Career Summary

Mason Albrecht has 14 years of experience implementing projects for the environmental remediation and water resources sectors. Mason has broad based project experience in site investigation, remediation, treatment system design, civil design, construction management, and operation and maintenance (O&M).

Relevant Project Experience

Engineering Consulting and Operation and Maintenance for CERCLA site, *Aerojet Rocketdyne, Rancho Cordova, CA*

Mason currently serves as the task manager and lead project engineer for engineering, O&M, and permit compliance support for several groundwater extraction and treatment (GET) systems that address a regional perchlorate, N-Nitrosodimethylamine (NDMA), and a volatile organic compounds (VOC) plume associated with former rocket manufacturing operations. He and the team developed O&M manuals for the GET systems with a detailed matrix of GET system parts and equipment inventory; description of component criticality and failure analysis; and maintenance checklists and procedures. The O&M manuals are a practical maintenance tool to be used by GET system operators. The purpose of the revised O&M protocols is to improve operational efficiency, reduce the risk of release of contaminants to the environment, and reduce non-routine O&M costs. Mason's team has completed several engineering evaluations for the GET systems to improve treatment effectiveness and reduce O&M costs. For example, the team performed evaluations of several alternatives for water treatment and operations modifications to manage perchlorate in groundwater at two of the GET systems. The team also evaluated alternatives for management of biofouling in GET system extraction wells to reduce fouling of influent bag filters and O&M costs. Mason manages a complex national pollutant discharge elimination system (NPDES) discharge permit that incorporates discharge of treated water from 10 different GET systems. His support engineering staff is responsible for coordinating monthly flow monitoring, treatment system sampling, and reporting activities. This requires extensive experience with acute and chronic aquatic toxicity monitoring and toxicity reduction evaluations. The engineering staff has been able to successfully manage and coordinate several different team members while complying with the NPDES requirements, including GET system operators, sampling subcontractors, couriers, laboratories, and database managers.

Remedial Action Evaluation, Optimization, and Project Management, *Baldwin Park Operable Unit (BPOU) of the San Gabriel Valley Superfund Sites*

Mason serves as the project manager and technical liaison for this complex ongoing Superfund project since 2013. The remedial action consists of groundwater extraction and treatment, and delivery of treated groundwater, meeting drinking water standards, to the distribution system. The overall project objectives include hydraulic capture of site chemicals of concern (COC) including chlorinated VOCs, perchlorate, NDMA, and 1,4-dioxane; and chemical mass removal in groundwater. Mason's team performs plume mapping and water quality trend evaluation using Earth Volumetric Studio (EVS®), statistical analysis of chemical concentration trends in groundwater, groundwater modeling using FeFlow, and preparation of the annual performance evaluation report. Mason also oversees the O&M along with monitoring and reporting associated with the discharge of wastewater produced as part of various water treatment operations at the potable water production plants within the BPOU. This involves coordination with plant operators on production schedules and operations, and coordination with the sanitation district for permit compliance.

Mason Albrecht, PE

Corrective Active Management Unit and Stabilization for Lead Waste, *Former Bryte Landfill, West Sacramento, CA*
Mason provided remedial action design, planning, and engineering support on this project involving waste removal, treatment and grading. The former landfill was historically used as a burn dump and is located adjacent to the existing Sacramento Bypass, which will be expanded as part of a larger flood control project for the City of Sacramento and surrounding areas. Waste in the former landfill was relocated to a corrective action management unit (CAMU) to accommodate the bypass expansion and portions of the waste with lead exceeding state and federal leaching criteria were treated with a stabilizing reagent prior to placement in the CAMU. Mason prepared the Remedial Design and Implementation Plan (RDIP), coordinated site civil design in AutoCAD Civil3D, prepared design plans and specifications, and develops cost estimates for bid procurement while also coordinating waste treatment pilot testing activities and evaluation and selection of lead stabilization reagent.

California Low Threat UST Case Closure Sites, *Multiple Caltrans Sites*
Mason provided engineering support for the evaluation of site closure for multiple Caltrans properties under the California Low-Threat UST Case Closure Policy (LTCP). As part of these evaluations, Mason updated conceptual site models (CSM) and compared current site conditions to LTCP requirements for closure. Based on the closure evaluations, he either assisted with preparing a formal request for closure or a work plan for additional site investigation/remediation. Mason provided engineering support for preparation of work plans for pilot testing innovative remedial technologies at multiple Caltrans sites. Geosyntec is evaluating innovative technologies to help progress Caltrans sites to closure and identify those effective technologies that can be applied in full scale at similar Caltrans sites statewide.

Soil Vapor Extraction (SVE) Systems for Chlorinated Volatile Organic Compounds (CVOC), *Sacramento, CA*
Mason is the lead engineer for the design, installation, and O&M of SVE systems for the remediation of CVOCs in vadose zone soils at two former dry cleaner sites in Sacramento. Design responsibilities include analysis of pilot test results, developing system design parameters, well spacing and construction, system curve development, equipment selection, and plans and specifications. The pilot testing results were rigorously evaluated, compared to SVE guidance documents, and incorporated into the full-scale design. Mason's team obtained the necessary permits from the Sacramento Metropolitan Air Quality Management District for discharge of treated vapors from the SVE system. Source testing for the permit involved analysis of vapor samples and monitoring of treatment system performance to demonstrate compliance with permitted CVOCs emissions limits. Samples of soil vapor processed through the SVE treatment system are routinely collected to evaluate CVOC mass removal and compliance with the air permit. Routine O&M activities include measurements of system process flow, vacuum, temperature, relative humidity, air permit compliance monitoring (above), inspection of mechanical equipment (e.g., positive displacement blower, motors, heat exchanger, condensate water transfer pump), and adjusting flow rates from extraction wells to optimize CVOC mass removal.

Remedial Cap for Pesticides and Metals Impacted Soils, *Former San Joaquin Drum Company Site, DTSC, Bakersfield, CA*
Mason currently supports the development and implementation planning for this former waste drum storage facility site managed by the California Department of Toxic Substances Control (DTSC). Mason prepared a Remedial Action Work Plan (RAW) consistent with the National Contingency Plan (NCP) and the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), and the RDIP. A low permeability modified asphalt cap was selected for groundwater and human health protection from shallow soils impacted by pesticides, semi-volatile organic compounds (SVOC), and metals. The cap remedy will contain stormwater management measures that includes concrete drainage ditches, drop inlets, drain piping, and a retention basin, and involves hydrologic and hydraulic analysis per local standards. Soil and concrete sampling were performed at the site to characterize contamination in this media prior to implementation of the RAW and for the evaluation of disposal options. The analyses included the federal toxicity characteristic leaching procedure (TCLP) and the California Waste Extraction Test (WET) to evaluate the leachability and hazardous waste classification.

File #: 22-0475, **Version:** 1

APPROVE ONE-YEAR EXTENSION TO MEMORANDUM OF UNDERSTANDING BETWEEN THE ANIMAL PROTECTION LEAGUE AND THE CITY OF STOCKTON IN THE AMOUNT OF $1,590,472

RECOMMENDATION

It is recommended that City Council approve a motion to:

1. Authorize the City Manager to renew the Memorandum of Understanding (MOU) between the Animal Protection League and the City of Stockton, by executing a one-year extension, at a cost of $1,590,472.

It is further recommended that the City Manager be authorized and directed to make any and all expenditures and appropriations on behalf of the City as appropriate and necessary to carry out the purpose and intent of this motion.

Summary

The Animal Protection League (APL) has supported the City of Stockton Animal Shelter (Shelter) for many years by raising funds and supporting spay and neuter clinics. The City is in need of contracting with professional veterinarian staff to assist in caring for animals brought to the Shelter. The current MOU with the APL expires June 30, 2022. The City entered into an MOU with APL, which includes an initial three-year period with two one-year extension options for a total potential term not to exceed five years. The proposed extension will be the final extension available per the terms of the MOU. (Attachments A-D)

DISCUSSION

Background

In November 2012, the City entered into an MOU with the San Francisco Society for Prevention of Cruelty to Animals (SF SPCA). The initial relationship between the SF SPCA and the Shelter was consultative in nature but quickly grew into a partnership that included life-saving programs. The annual Live Release Rate went from 32% in 2012 to 50% in 2013, 75% in 2014, and 82% in 2015. Staffing provided by the SF SPCA is one of the driving contributors to the increased Live Release Rate which has held steady since 2015. During the first two years of the SF SPCA partnership, the City did not financially contribute to the services provided, however, once it was determined that staffing, specifically veterinarian and medical assistance staffing, would be key to improving positive outcomes for Shelter animals, the City began supporting the added costs on an incremental basis. In Fiscal Year 2014-15, the City contributed $60,000 to partially fund the employee costs of one full-time SF SPCA veterinarian at the Shelter and increased the amount to $160,000 in Fiscal Year 2015-16,

to $500,000 in Fiscal Year 2016-17, and finally to $750,000 in Fiscal Year 2017-18.

In April 2017, SF SPCA provided notice that they would not be interested in renewing the MOU upon expiration on June 30, 2018. City staff began researching various alternatives to mitigate the consequence of losing this valuable partner; among the options considered were:

1. creating the equivalent City staff positions to what SF SPCA was providing, or
2. contracting with another private or non-profit entity, or
3. eliminating the Shelter services provided to San Joaquin County, or
4. losing the tremendous progress made on live release of Shelter animals.

The City's Long Range Financial Plan could not support the addition of 15 full-time positions. Contracting with another entity was the best, most viable option, however, there were no known entities with the capacity in place to assume such responsibility. Eliminating shelter services for San Joaquin County would only provide nominal relief as they only account for approximately 30% of the total animals serviced at the Shelter. In addition, elimination of providing these services has a corresponding reduction in revenue payments. Finally, losing the progress made on Live Release Rate was not a viable option because of the exposure to potential legal action. The City is obligated by State Health & Safety code to provide basic medical and sheltering services to animals.

After an unsuccessful Request for Information solicitation wherein no responses were received from interested parties willing to provide veterinary services, APL offered to provide medical care under their non-profit umbrella.

Present Situation

In June 2018, the City entered into the current MOU which expires on June 30, 2022. The initial annual cost was $1,308,485 with a five-percent (5%) increase each subsequent year, and includes an option for two one-year extensions. The chart below illustrates the contract price changes:

	Contract Amount	5% change
Year 1	$ 1,308,485	$ 65,424
Year 2	$ 1,373,909	$ 68,695
Year 3	$ 1,442,605	$ 72,130
Year 4	$ 1,514,735	$ 75,737
Year 5	$ 1,590,472	

The annual cost of this MOU is well below the value of the services provided and the cost to provide such services if the City were to employ the same level of staffing.

It is critical to ensure medical services are provided to animals at all times. Without providing adequate medical care, the vast improvements made to the Shelter's Live Release Rate over the years would suffer. The 2021 Live Release Rate finished the year at 92% and continues to have

public support to increase the Live Release Rate into future years. However, the humane care services for animals, such as staffing and equipment, will need to be provided and updated to sustain the outcomes at the Shelter. This service support must be balanced with the available funds to operate the Shelter. In addition, Shelter staff, in partnership with the APL, continue to spend countless hours raising funds to support the Shelter as well as identify cost saving ways to operate in the most efficient manner. Without continued support for medical and veterinarian services the City will not be able to sustain the dramatic results it has achieved since 2012. This MOU Amendment 3 provides the staffing needed at the Shelter while considering the long-term future of animal sheltering. In anticipation of the this contract expiration, a Request for Proposals will be released in FY 2022-23 for shelter veterinary services. Staff recommends Council approve a motion to execute a one-year extension, to expire on June 30, 2023, at a cost of $1,590,472.

FINANCIAL SUMMARY

The proposed cost of this extension is an annual amount of $1,590,472, for a final one-year term. Staff is recommending the General Fund be used to support this contract. The FY 2022-23 Budget Proposal includes the appropriation of $1,590,472 in the Police Department General Fund, Animal Services Division, Animal Shelter Program account.

Attachment D - MOU Amendment 2 - Animal Protection League

CITY OF STOCKTON
STANDARD AGREEMENT AMENDMENT

Agreement Number:	**Amendment Number:**
2018-05-15-1402 NP	**3**

This Amendment Number __3__ to the above referenced Agreement is entered into on _____ between the City of Stockton ("City") and the Animal Protection League, a California nonprofit public health corporation "Contractor".

RECITALS

Section 11.1 Amendment states that no provision of this MOU may be amended or modified except by a written instrument signed by both Parties; and

The City elects exercise the option to extend the term of the MOU by one year, as specified in section 4.2 to continue veterinary and shelter services to the Stockton Animal Shelter for the humane care and treatment of animals; and

Section 5.1 states annual payment for any term extension exercised will be for a mutually agreed upon amount not to exceed five percent (5%) of the preceding year; and

Now therefore, the City and the Contractor mutually agree as follows:

1.The termination date in Paragraph 2 of the Standard Agreement is amended to:
June 30, 2023

2.The maximum not to exceed amount to be paid to the Contractor for a one-year extension will be:

$1,590,471.71

All other terms and conditions of the Agreement shall remain unchanged and remain in full force and effect unless modified by a written amendment signed by both parties.

IN WITNESS WHEREOF, the authorized parties have executed this Agreement.

Memorandum of Understanding
between Animal Protection League and City of Stockton

This Memorandum of Understanding (the "***MOU***"), is made and entered into by and between the Animal Protection League, a California nonprofit public benefit corporation (the "***APL***"), and the City of Stockton, a municipal corporation (the "***City***"), as of 6/28/18. The APL and the City are sometimes referred to herein individually as a "***Party***" or collectively as the "***Parties***."

RECITALS

The City is responsible for enforcing ordinances governing the humane care, treatment, and regulation of certain animals within the territorial limits of the City of Stockton; and

The City provides such animal-related services through Stockton Animal Services, a section of the Stockton Police Department ("***Animal Services***"); and

The APL is a privately-funded non-profit organization located in the City of Stockton that is dedicated to supporting the Stockton Animal Shelter and the community it serves; and

The parties desire to collaborate to promote humane animal care and sheltering services in the City of Stockton; and

To this end, the City wishes to contract with APL for the performance of certain services as set for herein; and

The APL is agreeable to rendering such services on the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the mutual promises set forth in this MOU, the Parties agree as follows:

1. **APL RESPONSIBILITIES.** During the Term, and subject to the terms of this MOU, the APL agrees to perform the following services:

   1.1. **Personnel.** The APL will provide the personnel necessary to perform its obligations as described in this MOU, the type and quantity of which is set forth in Exhibit A. The Parties understand and agree that optimizing humane animal care at Animal Services, maintaining consistency in scheduling of staff, as well as the specific staff selected to work onsite at the Shelter, is desirable to

2018-05-15-1402 NP

both Parties and shall be periodically discussed and mutually agreed upon in writing by the APL's Appointee and the City's Appointee throughout the Term.

1.2. **Increased Personnel.** Nothing in Section 1.1 is intended to prevent APL from allocating additional funding or personnel to Animal Services in its discretion.

1.3. **Services.** The APL agrees to provide veterinary and shelter services to the City of Stockton Animal Shelter, the scope and specifics of which shall be periodically discussed at least quarterly and mutually agreed upon by the APL's Appointee and the City's Appointee throughout the Term. Veterinary and shelter services may include, but are not limited to, providing humane care, rescue services, foster care, and volunteer and adoption coordination.

1.4. **Licenses and Certifications.** At all times, the APL will ensure that each of its staff working at Animal Services maintains appropriate licenses and certifications, as required by law.

1.5. **Controlled Substances Registration.** The APL will designate a veterinary practitioner, whose selection shall be in the APL's sole discretion, to lawfully maintain a DEA Certificate of Registration at Animal Services. The DEA Certificate of Registration is required to purchase, process, and administer certain controlled substances that are used to prevent, control, and treat certain communicable diseases among its animal population and to euthanize animals.

1.6. **Fundraising.** The APL's Appointee will work in Partnership with the City's Appointee to pursue fundraising and grant opportunities to support additional shelter staff, services to the shelter and the public, and medical care for animals. Nothing in this Section 1.6 will prevent or otherwise limit either Party from pursuing alternate fundraising avenues to support its work as outlined in this MOU, whether collaboratively or independently.

1.7. **Tools and Supplies.** The APL may use its own tools and instrumentalities, equipment, and other supplies in performing its services under this MOU; provided, however, that the City will provide such materials to the APL as mutually agreed upon by City and APL are needed for the APL to perform such services under this MOU, including those outlined in Section 2.2.

1.8. **Performance; Obligations.** The APL will devote such time and attention as may be reasonably necessary for the satisfactory performance of its obligations pursuant to this MOU. The APL has no pre-existing obligations or commitments (and will not assume or otherwise undertake any obligations or commitments) that would be in conflict or inconsistent with, or that would hinder its performance of its obligations under this MOU. The APL will not be considered in default of this

MOU to the extent that such performance is delayed by any cause, present or future, which is beyond the reasonable control of the APL.

2. **CITY RESPONSIBILITIES**. During the Term, and subject to the terms of this MOU, the City agrees to perform the following:

2.1 **Personnel.** The City agrees that each of its staff working at Animal Services maintains appropriate licenses and certifications, as required by law. The City agrees to make every effort to fill vacant positions as soon as possible. Nothing in this Section 2.1 is intended to prevent the City from allocating additional funding or personnel to Animal Services in its discretion.

2.2 **Medical and Shelter Supplies.** The City will timely purchase and provide all the equipment, materials, and supplies (medical and other) customarily used at Animal Services. This includes, by way of example only and not by limitation or requirement, medical and sheltering supplies such as controlled substances, vaccines, sterilization equipment, and cleaning supplies. The quantity, type, brand, and vendor are at the City's sole discretion and in adherence to City procurement policies and available budgetary resources.

2.3 **Maintenance of Records.** The City will use its best efforts to maintain accurate and complete records of each animal at Animal Services, including by way of example only and not limitation or requirement, a description of the animal, date of receipt and outcome, manner of outcome, and associated fees or charges. The City is solely responsible for maintaining accurate records and reports as required by applicable law and regulations; however, the APL agrees to cooperate in good faith as is reasonably necessary to facilitate such recordkeeping and reporting (for example, by providing records regarding veterinary care for shelter animals).

2.4 **Transparency.** The City will permit the APL reasonable access to its systems, premises and personnel for the purpose of advancing the objectives set forth in this MOU, as its time and other business activities permit.

3. **MUTUAL RESPONSIBILITIES**. During the Term, and subject to the terms of this MOU, each Party agrees to perform the following:

3.1. **Humane Outcomes.** Each Party agrees to collaborate with the other Party to promote humane and sustainable programs for animal care and sheltering services in the City of Stockton. Such collaboration may include, by way of example only and not by limitation or requirement:

A. Improving the lives and humane outcomes of the impounded and surrendered animals at Animal Services and working to reduce the number of unwanted animals in the City of Stockton.

B. Respectively ensuring that all activities relating to this MOU are performed by humane and professional staff that is familiar with the "Five Freedoms of Animal Welfare" and the current "Guidelines for Standards of Care in Animal Shelters" established by The Association of Shelter Veterinarians.

C. Promoting humane and efficient operations at Animal Services through respective staff training and education and the strict observance of established protocols, policies and procedures at Animal Services.

D. Observing best practices and protocols with respect to infectious disease control (for example, quarantine, veterinary assessment and care) and animal housing (for example, cleaning, capacity and location) at Animal Services.

3.2. **Rescue Partnership.** In an effort to maximize opportunities for pet adoption and to reduce the homeless pet population in the City of Stockton, the Parties agree (A) to make available for transfer to the APL certain impounded or abandoned animals in Animal Services' possession, as may be mutually deemed desirable by the Parties, and (B) to abide by established intake and quarantine procedures in order to promote effective population management and to reduce the length of stay of such animals.

3.3. **Transparency and Performance Measures.** Each Party agrees to cooperate in good faith with the other Party in all matters relating to this MOU, to foster transparency and shared knowledge between the Parties through participation in regular meetings and the sharing of collected data and research findings, and to work together to develop and implement outcome-based performance measures that are both valid and reliable and that can be used to evaluate shelter performance. In furtherance of this Section 3.3, the City will promptly provide historical intake, output and related data; budget data and other relevant animal welfare statistics and confidential information as may be reasonably requested by the APL.

3.4. **Compliance with Laws.** Each Party will comply in all material respects with all applicable laws, rules, regulations and orders with respect to such Party and its business and properties.

4. **TERM; TERMINATION.**

4.1. **Term.** This MOU shall be effective from July 1, 2018 through and until June 30, 2021 (the "***Term***").

4.2. **Extensions.** The term of this MOU may be extended by up to two (2) one-year terms by mutual written agreement of both Parties for a total contract term of five (5) years. Notification and agreement to any extension must be received and approved at least one hundred eighty (180) days prior to current term's expiration.

4.3. **Termination for Convenience.** Either Party may terminate this MOU at any time and for any reason during the Term by giving three hundred sixty-five (365) days' notice in writing of such termination to the other Party.

4.4. **Termination for Breach.** If either Party breaches any term or condition of this MOU, and such breach continues for a period of sixty (60) days after written notice from the other Party (except for a breach regarding failure to pay any amount(s) due, whether due to City budget constraints or otherwise, in which case the period to cure shall be fourteen (14) days), the non-defaulting Party may terminate this MOU immediately. Time to cure may be extended in the discretion of the Party giving notice. Notice given under this Section 4.4 shall, at a minimum, specify the alleged default and the applicable time to cure. No Party shall be relieved of any obligation or liability arising from any prior breach of any provision of this MOU by such Party.

4.5. **Effect of Termination.** Upon the expiration or termination of this MOU, the City will pay the APL for any amounts that are due and payable under Section 5 for services performed by the APL prior to such expiration or termination. If this MOU is terminated prior to the end of the Term, whether for convenience or for breach, the City is obligated to pay for only the pro rata portion of the services provided by the APL, calculated using the per-diem amount set forth in Section 5.2.

4.6. **Survival.** If expressly stated herein to survive the Term, such provision shall continue to survive as set forth in this MOU (for example, Section 7 [Confidentiality; Publicity]). The provisions of this Section 4.6 (Survival), Section 6.2 (Employment Taxes and Benefits), Section 10 (Indemnity and Hold Harmless), and Section 11 (General Provisions) shall each survive indefinitely.

5. **PAYMENT.**

5.1. **Payment.** Subject to availability of budgeted funds, the City agrees to pay the APL for the services set forth in this MOU in the amount of $1,308,485 for year one. The amounts for the second and third year will be increased by a flat five percent (5%). Annual payment for any term extension exercised will be for a mutually agreed upon amount not to exceed five percent (5%) of the preceding year.

A. Start-Up Payment. The City will provide a one-time payment of $100,000 to APL within thirty (30) days of the execution of the MOU by both parties.

B. The City's payments during the Term of this MOU are subject to approval by the City Council during the City's Annual Budget Process.

5.2. **Method of Payment.** The City shall pay to the APL one twelfth (1/12) of the total annual contract amount specified in Sections 5.1 in twelve (12) equal installments. The APL will provide monthly invoices to the City and the City shall issue payment within thirty (30) days of invoice acceptance and approval. For purposes of determining the amount due if this MOU is terminated before June 30 of the then-current year, a per diem amount shall be established by dividing the total annual contract by three hundred sixty-five (365) days.

5.3. **Adjustment.** The Parties understand and agree that the payment schedule in Section 5.1 is calculated based on an average annual intake of 12,000 animals at Animal Services (the "***Baseline Volume***"). Should the actual annual intake volume at Animal Services (the "***Actual Volume***") exceed the Baseline Volume during any fiscal year, then the City agrees to pay to the APL a lump-sum payment that reflects the difference between the Baseline Volume and the Actual Volume for such fiscal year, at a per-animal price of $100.00, to be calculated as follows: (Actual Volume – Baseline Volume) x ($100.00). After the end of such fiscal year, the APL will provide an invoice to the City reflecting any adjustment, and the City shall issue payment within thirty (30) days of invoice receipt.

5.4. **Expenses.** Unless otherwise specified in this MOU or approved in writing by the City, the City will not reimburse the APL for any expenses incurred by the APL in connection with performing its obligations under this MOU, and vice versa.

5.5. **Use of Funds.** The APL agrees that all funds paid by the City pursuant to

this MOU will be used only to fulfill the terms of this MOU.

6. RELATIONSHIP OF THE PARTIES.

6.1. **Independent Contractor.** It is specifically understood and agreed that the APL is an independent contractor, and is not an agent, joint venturer or employee of, and has no authority to bind the City by contract or otherwise. The APL will perform its services as set forth in this MOU under the general direction of the City, but the APL will determine the manner and means by which such services are accomplished, subject to the requirements that the APL will (A) at all times comply with applicable laws and policies and procedures of the City and (B) openly receive and incorporate input and direction from the City as the APL reasonably determines is necessary and is consistent with prevailing professional standards and practices of the industry in which the APL operates. The APL shall consult with the appropriate manager or other designee of the City to ensure that its services are satisfactory to the City, both in the manner and at the frequency as may be requested by the City from time-to-time.

6.2. **Employment Taxes and Benefits.** Each Party understands and agrees that (A) neither Party will withhold on behalf of the other Party any sums for income tax, unemployment insurance, social security or any other withholding pursuant to any law or requirement of any governmental body or make available any of the benefits afforded to its employees; (B) all of such payments, withholdings and benefits, if any, are the sole responsibility of the Party incurring the liability; and (C) each Party will indemnify and hold the other harmless from any and all loss or liability arising with respect to such payments, withholdings and benefits, if any.

6.3. **Nonexclusive Relationship.** The relationship between the City and the APL is not exclusive. The City reserves the right to work with and contract with other entities and individuals for purposes of addressing shelter overcrowding and developing other means to enhance the effectiveness, efficiency and capacity of animal care and sheltering within the City of Stockton. Similarly, nothing in this MOU shall in any way prevent the APL from working with or contracting with shelters and organizations other than City, whether during the Term or at any time thereafter.

6.4. **Respective Costs.** Unless otherwise noted herein, each Party will bear its respective costs for any necessary permits, insurance, taxes and other matters required for compliance under this MOU.

6.5. **Reporting.** The Parties understand and agree that, with respect to the performance of its obligations as set forth in this MOU, the APL shall report to and be evaluated solely by the City (e.g., the City's Designee). The APL will not be obligated to engage with any "citizen oversight committee" for Animal Services or any similar non-governmental committee, entity or individual without its consent.

7. CONFIDENTIALITY; PUBLICITY.

7.1. Confidential Information.

A. Confidential Information. Each Party agrees to maintain in strict confidence any confidential information disclosed by the other Party in connection with the activities undertaken pursuant to this MOU, or that the Party has access to in connection with its performance of its obligations pursuant to this MOU, that (i) if disclosed in writing or orally, is marked or identified as "confidential" at the time of such disclosure or (ii) under the circumstances, a person exercising reasonable business judgment would understand to be confidential or proprietary (collectively, the "Confidential Information"). Each Party hereto agrees (i) to maintain all Confidential Information in strict confidence, (ii) not to disclose Confidential Information to any third parties; and (iii) not to use Confidential Information for any purpose except for in connection with this MOU. Each Party further agrees to take all actions reasonably necessary to protect the confidentiality of all Confidential Information including, without limitation, implementing and enforcing procedures to minimize the possibility of unauthorized use or disclosure of Confidential Information.

B. Exceptions. The provisions of this Section 7.1 will not restrict either Party from disclosing Confidential Information to the extent required by any law or regulation; provided that the disclosing Party uses its reasonable efforts to give the other Party reasonable advance notice of such required disclosure. Confidential Information will not include any information that (i) is now or thereafter becomes generally known or available to the public, through no act or omission on the part of either Party; (ii) was known by either Party prior to receiving such information from the disclosing Party and without any restriction as to use or disclosure; (iii) is rightfully acquired by either Party from a third party who has the right to disclose it and who provides it without restriction as to use or disclosure; or (iv) is independently developed by either Party without access to confidential or proprietary information.

7.2. **Publicity.** Each Party agrees to promptly notify the other Party of any known material consumer or other organizational complaint and adverse media coverage relating to or otherwise arising from this MOU. Each Party agrees not to use the other Party's name in any public announcement (oral or written), newsletter, press release, advertisement, social media, or similar communication without the prior approval of the other Party. Any use of a Party's intellectual property, including its logo and other marks, and any and all photographs, videos and other recordings relating to the MOU must be agreed to by such Party, and all such intellectual property is and remains forever the sole and exclusive property of such Party. In addition, City may not participate in any event promoting or otherwise relating to the MOU or the APL without prior authorization by the APL.

7.3. **Survival.** The provisions of this Section 7 shall remain in effect through and until the date that is two (2) years following the expiration or termination of this MOU.

8. **DESIGNEES; NOTICE.**

8.1. **Designees.** Each Party will appoint a person to serve as the official contact (each, a "***Designee***"). Each Designee shall have the authority to act on its respective Party's behalf in any matter relating to this MOU and shall be to whom formal notices and demands relating to this MOU are given. In addition, each Party will appoint a person to serve as the day-to-day coordinator for the activities of each Party in carrying out the terms of this MOU (each, an "***Appointee***"). Each Appointee shall have the authority to act on its respective Party's behalf in any matter relating to this MOU and shall be to whom communications relating to this MOU are given. The Designees and Appointees of each Party are as follows:

The APL's Designee and Appointee:
Jacqueline Ronzone, Executive Director
Animal Protection League
P.O. BOX 691912
Stockton, CA 95269
Tel: (209) 956-3647

The City's Designee:
Eric Jones, Chief of Police
City of Stockton Police Department

22 E. Market Street
Stockton, CA 95202
Tel: (209) 937-8217

The City's Appointee:
Phillip Zimmerman, Police Services Manager
Stockton Animal Services
1575 South Lincoln Street
Stockton, CA 95206
Tel: (209) 937-8274

8.2. **Notice.** Any notice required to be provided under the terms of this MOU shall be delivered by (A) email, deemed delivered upon email confirmation of receipt by the intended recipient; (B) certified U.S. mail, return receipt requested, at the addresses set forth above or to such other address as may be specified by either Party to the other in accordance with this Section 8.2; or (C) by personal service to the Appointee identified above or to any other person that the Appointee designates in writing to receive notice under this MOU and delivered in accordance with this Section 8.2.

9. **INSURANCE REQUIREMENTS.** The APL agrees to have and maintain appropriate insurance coverage in amounts and types as set forth by Exhibit B.

10. **INDEMNITY AND HOLD HARMLESS.** With the exception that this section shall in no event be construed to require indemnification by APL to a greater extent than permitted under the public policy of the State of California, APL shall, indemnify, protect, defend with counsel approved by CITY and at APL's sole cost and expense, and hold harmless CITY, its Mayor, Council, officials, representatives, agents employees and volunteers from and against any and all claims, causes of action, liabilities, judgments, awards, losses, liens, claims, stop notices, damages, expenses, and costs (including without limitation attorneys' fees, expert and APL fees, and other expenses of litigation) of every nature, including, but not limited to, death or injury to persons, or damage to property, which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement, or from any violation of any federal, state, or municipal law or ordinance, or CITY Policy, by APL or APL's officers, agents, employees, volunteers or subcontractors. APL shall not be obligated to indemnify or defend CITY for claims finally determined by a court of law or arbitrator to arise from the active negligence or willful misconduct of the CITY. It is the intent of the Parties that this indemnity obligation is at least as broad as is permitted under California law. To the extent California Civil Code sections 2782, et seq., limit the defense or indemnity obligations of APL to CITY, the intent hereunder is to provide the maximum defense and indemnity obligations allowed by APL under the law. The indemnity set forth in

this section shall not be limited by insurance requirements or by any other provision of this Agreement.

With the exception that this section shall in no event be construed to require indemnification, including the duty to defend, by APL to a greater extent than permitted under the public policy of the State of California, the parties agree that APL's duty to defend CITY is immediate and arises upon the filing of any claim against the CITY for damages which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement by APL or APL's officers, agents, employees, volunteers or subcontractors. APL's duties and obligations to defend the CITY shall apply regardless of whether or not the issue of the CITY'S liability, breach of this Agreement, or other obligation or fault has been determined. APL shall be immediately obligated to pay for CITY'S defense costs of the claim, including, but not limited to, court costs, attorney's fees and costs, expert and witness fees and costs, other witness fees, document reproduction costs, arbitration fees, and, if after final judgment an appeal is pursued, all of such costs for the appeal. At the conclusion of the claim, if there is any determination or finding of sole active negligence or willful misconduct on the part of the CITY, CITY will then reimburse APL for amounts paid in excess of APL's proportionate share of responsibility for the damages within 30 days after APL provides CITY with copies of all bills and expenses incurred in the defense of the claim(s). It is agreed between the parties that this reimbursement provision assures APL is not obligated to defend or indemnify CITY in an amount greater than provided for under California law, including, without limitation, California Civil Code sections 2782, 2782.6, and 2782.8.

With the exception that this section shall in no event be construed to require indemnification by APL to a greater extent than permitted under the public policy of the State of California, and in addition to the other indemnity obligations in this Agreement, APL shall indemnify, defend, and hold harmless CITY its Mayor, Council, officials, representatives, agents employees and volunteers from and against all claims, losses, expenses, and costs including but not limited to attorneys' fees, arising out of any claim brought against the CITY by an employee, office, agent, or volunteer of APL, regardless of whether such claim may be covered by any applicable workers compensation insurance. APL's indemnification obligation is not limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the APL under workers' compensation acts, disability acts, or other employee benefit acts.

11. GENERAL PROVISIONS.

11.1. **Amendment.** No provision of this MOU may be amended or modified except by a written instrument signed by both Parties to this MOU and delivered in accordance with Section 8.2.

11.2. **Assignment.** Neither Party may assign this MOU, in whole or in part,

without the prior written consent of the other Party.

11.3. **Existing Agreements.** This MOU constitutes the entire understanding and agreement between the Parties regarding the subject matter herein and supersedes all prior understandings, discussions, representations, warranties and agreements between the Parties, whether written or oral. Any prior existing Memorandum of Understanding between the Parties will be terminated upon execution of this MOU.

11.4. **Severability.** If any provision of this MOU is deemed invalid, void or unenforceable, such provision shall be considered severed from the MOU and the remaining provisions shall be given full force and effect.

11.5. **Governing Law.** California law shall govern any legal action pursuant to this MOU with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the federal District Court of California, Eastern District, Sacramento Division.

11.6. **Counterparts.** This MOU may be executed in counterparts and delivered by electronic signature or facsimile or otherwise, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

IN WITNESS WHEREOF, the Parties hereto have caused this Memorandum of Understanding to be executed as of the date first above written.

Exhibit B:
Insurance Requirements for Professional Services

APL shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the APL, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location or the **general aggregate limit shall be twice** the required occurrence limit.
2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if APL has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage.
3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease. ***(Not required if APL provides written verification it has no employees)***
4. **Professional Liability (Errors and Omissions)** Insurance appropriate to the APL's profession, with limit no less than **$2,000,000** per occurrence or claim, $2,000,000 aggregate. (If Claims-made, see below.)

If the APL maintains higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to coverage for the higher limits maintained by the APL. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions
The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status
The City of Stockton, its Mayor, Council, officers, representatives, agents, employees and volunteers are to be covered as additional insureds on the CGL policy and AL policy with respect to liability arising out of work or operations performed

by or on behalf of the APL including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the APL's insurance (**at least as broad as** ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions used). Additional insured Name of Organization shall read "City of Stockton, its Mayor, Council, officers, representatives, agents, employees and volunteers." Policy shall cover City of Stockton, its Mayor, Council, officers, representatives, agents, employees and volunteers for all locations work is done under this contract.

Primary Coverage
For any claims related to this contract, the **APL's insurance coverage shall be endorsed as primary** insurance as respects the City of Stockton, its Mayor, Council, officers, representatives, agents, employees and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its Mayor, Council, officers, representatives, agents, employees and volunteers shall be excess of the APL's insurance and shall not contribute with it. The City of Stockton does not accept endorsements limiting the APL's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation
Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the City of Stockton.**

Waiver of Subrogation
APL hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said APL may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. APL agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Deductibles and Self-Insured Retentions
Any deductibles or self-insured retentions must be declared to and approved by the City of Stockton Risk Services. The City of Stockton may require the APL to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

Acceptability of Insurers
Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII if admitted to do business in the State of California; if not admitted to do business in the State of California, insurance is to be placed with insurers with a current A.M. Best's rating of no less than A+:X.

Claims Made Policies

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
2. If Claims Made policy form is used, a three (3) year discovery and reporting tail period of coverage is required after completion of work.

Verification of Coverage
APL shall furnish the City of Stockton with original certificates and amendatory endorsements required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. Failure to obtain the required documents prior to the work beginning shall not waive the APL's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time, for any reason or no reason.

APL shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its Declarations Page and Endorsement Page for each of the required policies.

Certificate Holder Address
Proper address for mailing certificates, endorsements and notices shall be:

- City of Stockton
- 400 E Main Street, 3rd Floor – HR
- Attn: City Risk Services
- Stockton, CA 95202

City of Stockton Risk Services Phone: 209-937-5037
City of Stockton Risk Services Fax: 209-937-8558

Maintenance of Insurance
If at any time during the life of the Contract or any extension, the APL fails to maintain the required insurance in full force and effect, all work under the Contract shall be discontinued immediately. Any failure to maintain the required insurance shall be sufficient cause for the CITY to terminate this Contract.

Subcontractors
APL shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and APL shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Special Risks or Circumstances
City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

CITY OF STOCKTON
STANDARD AGREEMENT AMENDMENT

Agreement Number:	Amendment Number:
	1

This Amendment Number 1 to the Agreement entered into on June 28, 2018 (the "MOU"), between the Animal Protection League, a California nonprofit public health corporation (the "APL"), and the City of Stockton, a municipal corporation (the "City").

RECITALS

The parties having entered into the MOU on June 28, 2018 for the APL to provide the City with certain services as set forth in the MOU; and

The terms of the Agreement, contained in Section 11.1 **Amendment**, state that no provision of the MOU may be amended or modified except by a written instrument signed by both Parties; and

The Appointees listed for both the APL and the City in Section 8.1 **Designees** are no longer employed by their respective agencies and, therefore, each party must provide an updated Appointee.

Now therefore, the APL and the City mutually agree as follows:

1. The term of the Agreement, contained in Section 8.1, is amended to read as follows:

> "8.1. **Designees.** Each Party will appoint a person to serve as the official contact (each, a "**Designee**"). Each Designee shall have the authority to act on its respective Party's behalf in any matter relating to this MOU and shall be to whom formal notices and demands relating to this MOU are given. In addition, each Party will appoint a person to serve as the day-to-day coordinator for the activities of each Party in carrying out the terms of this MOU (each, an "**Appointee**"). Each Appointee shall have the authority to act on its respective Party's behalf in any matter relating to this MOU and shall be to whom communications relating to this MOU are given. The Designees and Appointees of each Party are as follows:
>
> <u>The APL 's Designee and Appointee</u>:
>
> Elizabeth Mowry-Hull, Executive Director
> OR Current Executive Director
> Animal Protection League
> P.O. Box 691912
> Stockton, CA 95269
> Tel: (209) 956-3647

2018-05-15-1402 NP Amendment 1

The City's Designee:

Eric Jones, Chief of Police
OR Current Chief of Police
City of Stockton Police Department
22 E. Market Street
Stockton, CA 95202
Tel: (209) 937-8217

The City's Appointee:

Police Services Manager
The Chief of Police
1575 South Lincoln Street
Stockton, CA 95206
Tel: (209) 937-8274

OR As Appointed By
Stockton Animal Services

2. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which, taken together, shall constitute one and the same agreement.

3. All other terms and conditions of the Agreement shall remain unchanged and remain in full force and effect unless modified by a written amendment signed by both parties.

CITY OF STOCKTON
STANDARD AGREEMENT AMENDMENT

Agreement Number:	Amendment Number:
2018-05-15-1402 NP	2

This Amendment Number 2 to the above referenced Agreement is entered into on June 28, 2018 between the City of Stockton ("City") and the Animal Protection League, a California nonprofit public health corporation "Contractor".

RECITALS

Section 11.1 Amendment states that no provision of this MOU may be amended or modified except by a written instrument signed by both Parties; and

The City elects exercise the option to extend the term of the MOU by one year, as specified in section 4.2 to continue veterinary and shelter services to the Stockton Animal Shelter for the humane care and treatment of animals; and

Section 5.1 states annual payment for any term extension exercised will be for a mutually agreed upon amount not to exceed five percent (5%) of the preceding year; and

Now therefore, the City and the Contractor mutually agree as follows:

1.The termination date in Paragraph 2 of the Standard Agreement is amended to:
June 30, 2022

2.The maximum not to exceed amount to be paid to the Contractor for a one-year extension will be:

$1,514,734.96

All other terms and conditions of the Agreement shall remain unchanged and remain in full force and effect unless modified by a written amendment signed by both parties.

IN WITNESS WHEREOF, the authorized parties have executed this Agreement.

APPROVE MOTION TO AWARD A SERVICE CONTRACT FOR EMERGENCY ON-CALL TREE SERVICES

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Approve the specifications for Emergency On-Call Tree Services, Project No. OM-22-051.

2. Award a three-year Service Contract in the amount of $604,800 ($201,600 annually) to West Coast Arborists, Inc. of Stockton, CA, for Emergency On-Call Tree Services, Project No. OM-22-051.

3. Authorize the City Manager to execute up to two optional one-year extensions to the original term of the Service Contract, in the amount of $201,600 annually, for a total contract amount of $1,008,000.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this motion.

Summary

Public Works supplements the City's tree crew with contracted vendor services during storms and other emergency events. On April 28, 2022, one bid was received for the Emergency On-Call Tree Services, Project No. OM 22-051.

It is recommended that Council approve a motion authorizing the City Manager to execute a three-year Service Contract in the amount of $604,800 with West Coast Arborists, Inc. (Attachment A). The initial contract will expire on June 30, 2025, with the option for two additional one-year extensions by mutual agreement. With the extensions, the total contract amount is $1,008,000. The Service Contract will be funded from the Public Works Department's Parks and Street Trees operating budgets.

DISCUSSION

Background

The Operations and Maintenance Division of the Public Works Department provides emergency tree services during normal and after business hours throughout the year. Emergency tree services include the removal of downed trees and limbs on homes or vehicles and trees blocking streets. During extreme weather events, the City relies on a tree services contractor to supplement the City's

tree crew response to the emergency callouts, as often there are simultaneous tree emergencies. In addition, during larger storm events, dispatch calls for tree emergencies typically continue over extended periods, requiring contracted assistance to accommodate shift work.

On July 26, 2016, Council adopted a Community Workforce and Training Agreement (CWTA). The CWTA became effective August 25, 2016, and applies to all Public Works projects over $1 million that are bid after that date. On July 16, 2019, by Motion No. 2019-07-16-1403, Council extended the CWTA term to August 25, 2024. The CWTA was not applied to this project because this is not a construction contract.

Present Situation

On April 7, 2022, the Emergency On-Call Tree Services, Project No. OM-22-051, was advertised for bids. On April 28, 2022, one bid was received with the following result:

COMPANY NAME	BID AMOUNT
West Coast Arborists, Inc. (Stockton, CA)	$604,800
Engineer's Estimate	$691,200

The requirements of Stockton Municipal Code (SMC) section 3.68.090, Local Business Preference, apply to this project. Application of the Local Business Preference has no effect on the bid order. The Local Employment Ordinance, SMC section 3.68.095, also applies to this contract.

The bid from West Coast Arborists, Inc., the sole bidder, is regular in all respects. West Coast Arborist, Inc. has the proper license to perform the work. Staff recommends Council approve the specifications for the project and award a three-year Service Contract to West Coast Arborists, Inc. in the amount of $604,800 (Attachment A). The initial contract will expire on June 30, 2025, with the option for two additional one-year extensions by mutual agreement for a total contract amount of $1,008,000.

FINANCIAL SUMMARY

The Service Contract with West Coast Arborists, Inc. for the Emergency On-Call Tree Services, Project No. OM-22-051, will be funded from the Public Works Department's General Fund - Parks and Street Trees operating budgets. Sufficient funding is available for the first year of the proposed Service Contract as noted in the table that follows. Funding for all future fiscal years will be allocated during the annual budget process.

FUND SOURCE	MUNIS ACCOUNT #	AMOUNT
General Fund, Park Maintenance and Repair Services	4540-700-630013	$ 15,000
General Fund, Street Trees Maintenance and Repair Services	4550-700-630013	$186,600

There is no additional impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended action.

Attachment A - Service Contract with West Coast Arborists, Inc.

CONTRACT FOR SERVICES

THIS CONTRACT is entered into this __ day of _____2022, between the CITY OF STOCKTON, a municipal corporation ("CITY), and **WEST COAST ARBORIST STATE OF CALIFORNIA CORPORATION,** with a business address at **2200 E VIA BURTON STREET, ANAHEIM, CA 92806**, hereinafter called "CONTRACTOR.," THIS CONTRACT is for the **EMERGENCY ON-CALL TREE SERVICES (PROJECT NO. OM-22-051)**, hereinafter referred to as "SERVICE".

RECITALS

A. CONTRACTOR represents that it is licensed in the State of California and is qualified, willing and able to provide the services proposed in the SCOPE OF WORK section of this Contract.

B. CONTRACTOR represents that it is registered pursuant to Labor Code Section 1725.5 and will register annually with the Department of Industrial Relations, if the services have a wage determination for the services outlined in the SCOPE OF WORK section of this Contract.

C. CONTRACTOR represents that it will pay all required prevailing wages under California Labor Code for all services provided that have a wage determination.

D. CITY finds it necessary and advisable to use the services of the CONTRACTOR for the purposes provided in this Contract.

NOW THEREFORE, in consideration of the mutual promises, covenants and conditions in this Contract, CITY and CONTRACTOR agree as follows:

1. SCOPE OF SERVICES. Subject to the terms and conditions set forth in this Contract, CONTRACTOR shall undertake and complete the services described in **Exhibit A (scope and specifications)**. CONTRACTOR shall provide said services at the time, place, and in the manner specified in Exhibit A and compatible with the standards of the profession. CONTRACTOR agrees that it shall provide fully complete services including all labor, materials, tools, equipment and insurance required and that are acceptable to the CITY.

2. COMPENSATION. CITY shall pay CONTRACTOR for services outlined in **Exhibit A** according to the fee not to exceed the schedule detailed in **Exhibit B (fee schedule)**, which is attached to this Contract and incorporated by this reference. CONTRACTOR agrees this fee is for full remuneration for performing all services and furnishing all staffing, materials and tools called for in the scope of services. The payments shall be made on a monthly basis upon receipt and approval of CONTRACTOR'S invoice for completed work. Total compensation for services and

reimbursement for costs shall not exceed **$604,800.00** with an annual cost not to exceed **$201,600.00** or as otherwise mutually agreed to in a Contract Change Order.

Pursuant to Section 22300 of the Public Contract Code, CONTRACTOR will be permitted, at its request and sole expense, to substitute securities for any monies withheld by the CITY to ensure performance under the contract. Said securities will be deposited either with the CITY or with a State or federally chartered bank as escrow agent. Securities eligible for this substitution are those listed in Section 16430 of the California Government Code or bank or savings and loan certificates of deposit. CONTRACTOR shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

a. Invoices submitted by CONTRACTOR to CITY must contain a brief description of work performed, location of work, time used, materials and special equipment and City project number. Payment shall be made within thirty (30) days of approval of invoice by City.

b. Upon completion of work and acceptance by CITY, CONTRACTOR shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by CITY upon receiving a written request thirty (30) days in advance of said time limitation. CITY shall have no obligation or liability to pay any invoice for work performed which CONTRACTOR fails or neglects to submit within sixty (60) days, or any extension thereof granted by the CITY, after work is accepted by CITY.

3. INSURANCE. During the term of this Contract, CONTRACTOR shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached **Exhibit C (Insurance Requirements and Forms)** which is attached to this contract and incorporated by this reference, and shall otherwise comply with the other provisions of **Exhibit C**. Maintenance of proper insurance coverage is a material element of this contract and that failure to maintain or renew coverage or to provide evidence of renewal may be treated as a material breach of contract.

CONTRACTOR shall not commence any work before obtaining, and shall maintain in force at all times during the duration and performance of this contract, the policies of insurance specified in **Exhibit C**, which is attached to this contract and incorporated by this reference, and as provided in the “contract documents” including Section 7-1.06 of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.

The Additional Insured coverage under the CONTRACTOR's policy shall be "primary and non-contributory" and will not seek contribution from the City of Stockton's insurance or self-insurance and shall be at least as broad as ISO CG 20 01 04 13.

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Stockton (if agreed to in a written contract or agreement) before the City of Stockton's own insurance or self-insurance shall be called upon to protect it as a named insured.

All self-insured retentions (SIR) must be disclosed to the CITY's Risk Management for approval and shall not reduce the limits of liability. Payment Bond in the amount of the self-insured retention (SIR) may be required.

Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or the CITY.

The CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

CONTRACTOR shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the CITY at its sole discretion may purchase the coverage required and the cost will be paid by CONTRACTOR.

CONTRACTOR agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by CONTRACTOR agree to be bound to CONTRACTOR and the CITY in the same manner and to the same extent as CONTRACTOR is bound to the CITY under the Contract Documents. CONTRACTOR further agrees to include these same provisions with any subcontractor regardless of tier. A copy of the CITY Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The CONTRACTOR shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the agreement prior to commencement of any work and contractor will provide proof of compliance to the CITY.

4. INDEMNITY AND HOLD HARMLESS. With the exception that this section shall in no event be construed to require indemnification by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, CONTRACTOR shall indemnify, protect, defend with counsel approved by CITY and at CONTRACTOR'S sole cost and expense, and hold harmless CITY, its Mayor, Council, officials,

representatives, agents, employees, and volunteers from and against any and all claims, causes of action, liabilities, judgments, awards, losses, liens, claims, stop notices, damages, expenses, and costs (including without limitation attorneys' fees, expert and consultant fees, and other expenses of litigation) of every nature, including, but not limited to, death or injury to persons, or damage to property, which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement, or from any violation of any federal, State, or municipal law or ordinance, or City Policy, by CONTRACTOR or CONTRACTOR'S officers, agents, employees, volunteers or subcontractors. CONTRACTOR shall not be obligated to indemnify or defend CITY for claims finally determined by a court of law or arbitrator to arise from the active negligence or willful misconduct of the CITY. It is the intent of the Parties that this indemnity obligation is at least as broad as is permitted under California law. To the extent California Civil Code sections 2782, et seq., limit the defense or indemnity obligations of CONTRACTOR to CITY, the intent hereunder is to provide the maximum defense and indemnity obligations allowed by CONTRACTOR under the law. The indemnity set forth in this section shall not be limited by insurance requirements or by any other provision of this Agreement.

With exception that this section shall in no event be construed to require indemnification, including the duty to defend, by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, the parties agree that CONTRACTOR'S duty to defend CITY is immediate and arises upon the filing of any claim against the CITY for damages which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement by CONTRACTOR or CONTRACTOR'S officers, agents, employees, volunteers or subcontractors. CONTRACTOR'S duties and obligations to defend the CITY shall apply regardless of whether or not the issue of the CITYS liability, breach of this Agreement, or other obligation or fault has been determined. CONTRACTOR shall be immediately obligated to pay for CITY'S defense costs of the claim, including, but not limited to, court costs, attorney's fees and costs, expert consultant and witness fees and costs, other witness fees, document reproduction costs, arbitration fees, and, if after final judgment an appeal is pursued, all of such costs for the appeal. At the conclusion of the claim, if there is any determination or finding of sole active negligence or willful misconduct on the part of the CITY, CITY will then reimburse CONTRACTOR for amounts paid in excess of CONTRACTOR'S proportionate share of responsibility for the damages within 30 days after CONTRACTOR provides CITY with copies of all bills and expenses incurred in the defense of the claim(s). It is agreed between the parties that this reimbursement provision assures CONTRACTOR is not obligated to defend or indemnify CITY in an amount greater than provided for under California law, including, without limitation, California Civil Code sections 2782, 2782.6, and 2782.8.

With the exception that this section shall in no event be construed to require indemnification by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, and in addition to the other indemnity obligations in this Agreement, CONTRACTOR shall indemnify, defend, and hold harmless CITY, its Mayor, Council, officials, representatives, agents employees and volunteers from and against all

claims, losses, expenses, and costs including, but not limited to attorneys' fees, arising out of any claim brought against the CITY by an employee, office, agent, or volunteer of CONTRACTOR, regardless of whether such claim may be covered by any applicable workers compensation insurance. CONTRACTOR'S indemnification obligation is not limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the CONTRACTOR under workers' compensation acts, disability acts, or other employee benefit acts.

CONTRACTOR'S obligation to defend, indemnify, and hold the CITY, its agents, officers, and employees harmless under the provisions of this paragraph is not limited to or restricted by any requirement in this Contract for CONTRACTOR to procure and maintain a policy of insurance.

CONTRACTOR/Subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this agreement for the full period of time allowed by law.

If any section, subsection, sentence, clause or phrase of this indemnification is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this indemnification.

5. SCHEDULE AND TERM. CONTRACTOR shall perform the scope of work as described in **Exhibit A** according to the schedule detailed in **Exhibit A**, which is attached to this Contract and incorporated by this reference. This contract shall commence on the date written above and shall expire on **JUNE 30, 2025**, unless extended by mutual agreement through the issuance of a Contract Change Order. This contract provides for two (2), one (1) year extensions at the same rates and terms as outlined in **Exhibit A** and **Exhibit B.**

6. CONFORMANCE TO APPLICABLE LAWS. CONTRACTOR shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances.

a. TITLE VI

Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d) http://www.dol.gov/oasam/regs/statutes/titlevi.htm.

The City of Stockton requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

b. DISCRIMINATION AND HARASSMENT POLICY

The City of Stockton has a Discrimination and Harassment Policy **(Exhibit D)**. The purpose of this policy is to reaffirm the CITY's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace, to define the types of behavior and conduct prohibited by this policy, and to set forth a procedure for reporting, investigating, and resolving complaints of discrimination and harassment in the workplace.

c. LABOR STANDARDS PROVISIONS/CALIFORNIA LABOR CODE

The bidder shall understand that conditions set forth in Chapter 1, Part 7, Division 2 of the California Labor Code shall be considered part of the contract agreement.
https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=LAB&division=2.&title=&part=7.&chapter=1.&article=2.

d. PREVAILING WAGE

CONTRACTOR and any subcontractor shall pay each employee engaged in the trade or occupation not less than the prevailing hourly wage rate. In accordance with the provisions of Section 1770 of the Labor Code, the Director of Department of Industrial Relations of the State of California has determined the general prevailing rates and employer payments for health and welfare, pension, vacation, travel time, and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs authorized by Section 3093 and similar purposes applicable to the work to be done. CONTRACTOR performing the work under this contract shall obtain a copy of the wage rate determination and shall distribute copies to each subcontractor. As the wage determination for each craft reflects an expiration date, it shall be the prime CONTRACTOR and each subcontractor's responsibility to insure that the prevailing wage rates of concern is current and paid to the employee.

i. The CONTRACTOR performing the work shall be responsible for obtaining a copy of the State wage rate determination. State wage rates may be obtained at http://www.dir.ca.gov/OPRL/pwd/Determinations/Northern/Northern.pdf. The CONTRACTOR shall be responsible for posting said wage rates at a prominent location at the work site and shall maintain same in a good readable condition for the duration of the work.

ii. Should the CONTRACTOR choose to work on a Saturday, Sunday or on a holiday recognized by the Labor Unions, the CONTRACTOR shall reimburse the CITY the actual cost of engineering, inspection, superintendence, and or other overhead expenses which are directly chargeable to the contract. Should such work be undertaken at the

request of the CITY, reimbursement will not be required. To conform strictly with the provisions of Division 2, Part 7, Chapter 1, Article 2, of the Labor Code of the State of California. To forfeit as a penalty to CITY the sum of TWENTY FIVE AND NO/100 DOLLARS ($25.00) for each laborer, worker, or mechanic employed by CONTRACTOR, or by any subcontractor under CONTRACTOR, in the execution of this contract, for each calendar day during which any laborer, worker, or mechanic is required or permitted to work more than eight (8) hours and who is not paid the general prevailing rate of per diem wages for holiday and overtime work in violation of the provisions of Sections 1770 to 1781 of the Labor Code of the State of California. That all sums forfeited under the provisions of the foregoing sections shall be deducted from the payments to be made under the terms of this contract.

iii. The CONTRACTOR to whom the contract is awarded shall insure that the prime and each subcontractor will in accordance with Section 1776 of the Labor Code, maintain certified payroll records. A copy of said records shall be provided with each invoice to the Public Works Department, Attention Contract Compliance Officer. It shall be the CONTRACTOR'S responsibility to obtain copies of the current prevailing wage rate determination for all subcontractors. Additionally, certified payroll records must be uploaded to the DIR website as required by labor code.

iv. The CONTRACTOR shall comply with the provisions established in Section 1777.5 of the Labor Code concerning the 1) certified approval by local joint apprenticeship committees for the employment and training of apprentices, and 2) contribution of funds to administer and conduct apprenticeship programs, if applicable to the job.

e. LOCAL EMPLOYMENT ORDINANCE

Pursuant to Stockton Municipal Code Section 3.68.095 the CONTRACTOR and all subcontractors shall make a good faith effort to employ at least 50 percent of the workforce on this project from local residents, as measured by total labor work hours. Failure of any CONTRACTOR or subcontractor to comply with these requirements shall be deemed a material breach of the contract or subcontract. CONTRACTORS and subcontractors shall maintain records necessary for monitoring their compliance with section 3.68.095.

7. CHANGE ORDERS. CITY reserves the right to make such alterations, deviations, additions to or omissions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work, as may be deemed by the Project Manager to be necessary or advisable and to require such extra work as

may be determined by the Project Manager to be required for the proper completion of the whole work contemplated.

Any such changes will be set forth in a contract change order which will specify, in addition to the work done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for such work. A contract change order will not become effective until approved by the City Manager and/or the City Council.

8. RIGHTS AND DUTIES OF CITY. CITY shall make available to CONTRACTOR all data and information in the possession of CITY which both parties deem necessary to complete the work, and CITY shall actively aid and assist CONTRACTOR in obtaining such information as may be deemed necessary from other agencies and individuals.

9. OBLIGATIONS OF CONTRACTOR. Throughout the term of this Contract, CONTRACTOR represents and warrants that it has or will have at the time this Contract is executed, all licenses, permits, qualifications, insurance, and approvals of whatsoever nature which are legally required for the CONTRACTOR to practice its professions, and CONTRACTOR shall, at its own cost and expense, keep in effect during the life of this Contract all such licenses, permits, qualifications, insurance, and approvals CONTRACTOR shall meet with the Public Works Director or other personnel of CITY or third parties as necessary on all matters connected with the carrying out of CONTRACTOR'S services. Such meetings shall be held at the request of either party hereto. CONTRACTOR further warrants that it will follow the best current, generally accepted and professional practices to make findings, render opinions, prepare factual presentations, and provide professional advice and recommendations regarding this project.

10. TERMINATION. This Agreement is effective on the Effective Date. The City may terminate this Contract and work pursuant to any of all scope of works at any time by mailing a notice in writing to Contractor. The Contract shall then be deemed terminated and no further work shall be performed by Contractor. If the Contract is so terminated, the Contractor shall be paid for that percentage of work actually completed at the time the notice of termination is received.

11. CONTRACTOR STATUS. In performing the obligations set forth in this Contract, CONTRACTOR shall have the status of an independent contractor and CONTRACTOR shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of CONTRACTOR are its agents and employees, and are not agents of the CITY. Subcontractors shall not be recognized as having any direct or contractual relationship with the CITY. The persons engaged in the work, including employees of subcontractors and suppliers, will be considered employees of CONTRACTOR. The CONTRACTOR shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Contract. The CONTRACTOR is responsible to the CITY for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

a. If in the performance of this Contract any third persons are employed by CONTRACTOR, such persons shall be entirely and exclusively under the direction, supervision, and control of CONTRACTOR. All terms of employment including hours, wages, working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by CONTRACTOR.

i. It is further understood and agreed that CONTRACTOR must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of CONTRACTOR'S personnel.

ii. As an independent contractor, CONTRACTOR hereby indemnifies and holds CITY harmless from any and all claims that may be made against the CITY based upon any contention by any third party that employer-employee relationship exists by reason of this Contract.

12. ASSIGNMENT. CONTRACTOR shall not assign, sublet, or transfer this Contract or any interest or obligation in the Contract without the prior written consent of the CITY, and then only upon such terms and conditions as CITY may set forth in writing. CONTRACTOR shall be solely responsible for reimbursing subcontractors.

13. HEADINGS NOT CONTROLLING. Headings used in the Contract are for reference purposes only and shall not be considered in construing this Contract.

14. NOTICES. Any and all notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed as follows:

To CONTRACTOR: West Coast Arborists, Inc.
2200 E. via Burton Street
Anaheim, CA 92806

To City: Public Works Director
City of Stockton
22 E. Weber Ave., Rm. 301
Stockton, CA 95202

15. LICENSES, CERTIFICATIONS, AND PERMITS. Prior to the CITY'S execution of this Contract and prior to the CONTRACTOR engaging in any operation or activity set forth in this Contract, CONTRACTOR shall obtain a City of Stockton business license, which must be kept in effect during the term of this Contract. CONTRACTOR covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Contract.

16. RECORDS AND AUDITS. CITY reserves the right to periodically audit all charges made by CONTRACTOR to CITY for services under this Contract. Upon request, CONTRACTOR agrees to furnish CITY, or a designated representative, with necessary information and assistance.

CONTRACTOR agrees that CITY or its delegate shall have the right to review,

obtain, and copy all records pertaining to performance of the Contract. CONTRACTOR agrees to provide CITY or its delegate with any relevant information requested, and shall permit CITY or its delegate access to its premises, upon reasonable notice, during normal business hours for the purpose of interviewing employees and inspecting and copying such books, records, accounts, and other material that may be relevant to a matter under investigation for the purposes of determining compliance with this Contract. CONTRACTOR agrees to maintain such records for a period of three years from the date that final payment is made.

17. CONFIDENTIALITY. CONTRACTOR shall exercise reasonable precautions to prevent the unauthorized disclosure and use of CITY'S reports, information, or conclusions.

18. CONFLICTS OF INTEREST. CONTRACTOR covenants that other than this Contract, CONTRACTOR has no financial interest with any official, employee, or other representative of the CITY. CONTRACTOR and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner or degree by the performance of CONTRACTOR'S services under this Contract. If such an interest arises, CONTRACTOR will immediately notify CITY.

19. WAIVER. In the event either CITY or CONTRACTOR at any time waive any breach of this Contract by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Contract, whether of the same or of any other covenant, condition, or obligation.

20. GOVERNING LAW. California law shall govern any legal action pursuant to this Contract with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the federal District Court of California, Eastern District, Sacramento Division.

21. DISPUTE RESOLUTION. Prior to undertaking any litigation, the Parties shall make reasonable efforts to resolve all disputes informally, including by means of a conference between senior managers of each Party having authority to resolve the dispute.

1. Venue
   Any controversy or claim between the Parties shall be determined with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the federal District Court of California, Eastern District, Sacramento Division.

2. If any litigation action or proceeding is commenced in connection with this Agreement, the prevailing Party, as determined by the court, shall be entitled to reasonable attorneys' fees (including allocated costs for in-house legal services), costs and necessary disbursements incurred in such action or proceeding.

22. NO PERSONAL LIABILITY. No official or employee of CITY shall be personally liable to CONTRACTOR in the event of any default or breach by CITY or for any amount due CONTRACTOR.

23. INTEGRATION AND MODIFICATION. The response by CONTRACTOR to the Request for Proposals or Qualifications and the Request for Proposals or Qualifications on file with the CITY are hereby incorporated herein by reference to the extent that such documents do not differ from the provisions and terms of this Contract that shall supersede such response to Request for Proposals or Qualifications. This Contract represents the entire integrated agreement between CONTRACTOR and CITY, supersedes all prior negotiations, representations, or agreements, either written or oral, between the parties, and may be amended only by written instrument signed by CONTRACTOR and CITY. All exhibits and this contract are intended to be construed as a single document. Should any inconsistency occur between the specific terms of this Contract and the attached exhibits, the terms of this Contract will prevail.

24. SEVERABILITY. The provisions of this Contract are severable to the extent that should any of its provisions or terms be declared void in whole or in part by operation of law or agreement of the parties, the remainder of the provisions or terms not expressly declared void shall remain enforceable and in full effect.

25. THIRD PARTY RIGHTS. Nothing in this Contract shall be construed to give any rights or benefits to anyone other than CITY and CONTRACTOR.

CITY OF STOCKTON

PUBLIC WORKS DEPARTMENT

SPECIAL PROVISIONS

EMERGENCY ON-CALL TREE SERVICES

PROJECT NO. OM-22-051

Mandatory Job Walk: N/A

Bid Opens: Thursday, April 28, 2022 2 p.m.

CONTRACTOR MUST HAVE A CLASS “C-61” and “D-49”LICENSE

Emergency On-Call Tree Services
Project No. OM-22-051

1.0 GENERAL DESCRIPTION OF WORK

The City of Stockton is seeking bids from State licensed contractors for a multi-year contract for emergency on-call tree services as set forth herein, in compliance with all applicable laws, regulations, policies and procedures. The work described herein is for emergency tree services, including disposal, throughout the City of Stockton. The contractor shall provide all necessary labor, tools, equipment, materials, and incidentals to competently complete the work and properly dispose of all materials generated according to the most recent "Best Practices" of the industry. The contractor shall be responsible for providing a crew with equipment during the weekdays, weekends, holidays and at all hours (24 hour per day, 7 days per week) to address tree related emergencies. Rates provided by the contractor in the bid schedule shall apply to all hours of the day, and all days of the week, including holidays. Work locations may include, but not be limited to, residential front yards, "park way strips" between the sidewalk and curb, landscaped street right of way and tree wells. The work will include emergency on-call tree services consisting of a variety of tasks including, but not limited to, clearing of City right of way, disposal of materials and notification of City staff. The selected contractor will work closely with City staff. The quantities in the bid schedule are estimated annual amounts. The actual amount paid will depend on the amount of work performed.

2.0 SCOPE OF WORK

- Contractor shall provide a standard crew and equipment to respond to tree related emergencies. The minimum crew size is to be three (3) crew members and one (1) lead person, a chipper van, chipper and an aerial lift truck and/or front loader. In the event a crane is required, contractor will provide the crane and operator. Crane operator may be one of the standard crew members referenced above; however, crane operator must be certified as recognized by the National Commission for the Certification of Crane Operators (NCCCO).

- Contractor will be provided with the emergency locations via telephone by a City authorized representative (City Supervisor, Parks Manager or Fire Communication staff) and will perform tree services as requested by City staff. Emergency response time will be within one (1) hour of receipt of call from City staff, and City staff calls may be at any time of day, 7 days per week, holidays included. The contractor shall not charge more than 1-hr time for any City staff call that is cancelled by the City, regardless of status of dispatch of the Contractor's crew.

- Tree services shall include, but not be limited to, removal of downed tree or limbs from City property, downed trees or tree limbs blocking a right-of-way area, on a vehicle, blocking access to a home or business, on a house or broken and hanging limbs. Contractor will assess the affected area and perform services to ensure public safety.

- Contractor will provide City representative with a twenty-four (24) hour emergency phone number.

- Contractor shall be required to provide all necessary traffic control during the course of all emergency work as shown in Section 9.0, Traffic Control and subject to City approval. Should the work involve any high voltage power lines or any utility lines the contractor shall be required to notify the responsible utility company.

- Contractor shall comply with all federal, state and local safety regulations.

- Contractor shall hold a valid, current and active C-61/D-49 Contractor's license.

- Contractor shall submit invoices every two weeks to the City representative/project manager. Invoices will be paid within 30 days of approval by City staff.

- The initial term of the contract will be for three (3) years with up to two (2) one-year renewals for a total contract term not to exceed five (5) years.

3.0 MATERIALS

Materials shall include, but not be limited to, all labor, materials, and equipment required for tree work.

4.0 LICENSING

A Class C-61 Limited Specialty and Class D-49 Tree Service license issued by the California Contractors State License Board is required for this project.

Any professional certifications or licenses that may be required will be the sole cost and responsibility of the successful bidder.

Contractor shall possess a City of Stockton Business License. Contractor is not required to have the business license to bid on this work. The contractor selected to perform this work must obtain a City of Stockton Business License prior to a purchase order being issued for this work.

5.0 CONTRACTOR QUALIFICATIONS

Contractor shall have adequate equipment and employ adequate staff to perform the described work.

5.0.1 Minimum Age Requirement: All employees of the Contractor must be a minimum of 18 years of age.

5.0.2 Conflict of Interest: The Contractor shall not employ any person who is an employee of the City if the employment of that person would create a conflict of interest.

5.0.3 Contractor Responsibilities

The Contractor shall employ only competent and skilled workers for work under this project. The City shall, throughout the life of this project, have the right of reasonable rejection and/or approval of staff assigned to the work by the contractor. If the City rejects one of Contractor's staff, the Contractor must provide replacement staff satisfactory to the City at no additional cost to the City. If, in the opinion of the City, any Contractor employee who is incompetent, disorderly, refuses to perform in accordance with the specifications, threatens or uses abusive language while on City property, or is otherwise unsatisfactory, shall be removed immediately from work under this project upon request of the City.

The Contractor shall appoint a Project Manager who shall be responsible for the performance of the work and an alternate(s) who shall act for the Contractor when the Project Manager is absent. The names of these persons shall be designated in writing to the City. For this work, the term “Project Manager” shall include the alternate as specified above. The Project Manager, or their designee/alternate, shall be available during normal business hours to meet with City representative(s) to discuss any problem areas. Contractor shall provide contact information for both the Project Manager and alternate. The Project Manager shall have a telephone/pager to permit timely contact by the City. The Project Manager must respond to a call/page within 30 minutes.

Contractor acknowledges it is an independent contractor and shall not for any purpose be deemed to be an employee, agent, or other representative of the City. Contractor shall not assign, sublet, transfer or otherwise substitute its interest in this work, or any of its obligations, without the prior written consent of the City. It is the intent of these specifications that all work is to be performed by Contractor's forces.

No unauthorized person or persons not employees of the Contractor (i.e., spouse, children, brother, sister, friends, etc.) shall be allowed within the immediate work area during the performance of services under this project.

Wherever work is being performed, Contractor shall have a designated person at the work site that has the authority to respond to the City Administrator and/or any citizens about work details or priorities. This designated person shall be able to accurately and effectively communicate any essential information.

Contractor shall provide supervision to assure that tasks are performed to the standards set forth herein. Contractor is solely responsible for the day-to-day supervision and control of

Contractor's employees. Personal supervision is not required provided that equipment or other means are provided that enables the work crews to communicate with the Contractor at all times.

Contractor shall employ a sufficient number of staff to ensure performance of the work described. All work shall be performed by experienced staff directly employed by the Contractor. The Contractor shall provide management and technical supervision through competent supervisors as required to implement modern methods and any newly developed procedures. The contractor shall be responsible for the skills, methods, and actions of Contractor's employees and all work.

5.0.4 Illness and Injury Prevention Program: Contractor shall have an Illness and Injury Prevention Program.

5.0.5 Quality Assurance / Quality Control Program: Contractor shall have a quality assurance/quality control program that includes procedures that are required to ensure that work is being internally inspected and that all work is performed in accordance with proper professional practice. The Contractor's quality assurance/quality control program and on-site work shall be subject to review, inspection and approval by the City representative who may withhold payment for any work found to have been performed unprofessionally, at the sole discretion of the City representative.

5.0.6 Inventory of Materials: Contractor shall have adequate inventory of materials used in the performance of this project. Contractor shall provide all supplies necessary to accomplish the required services. Materials and supplies shall conform to project requirements and industry standards for the type of work being performed.

5.0.7 Standards of Performance

Contractor is expected to provide the highest level of quality compatible with practices and modern techniques accepted by the industry. The Public Works Director or designee(s) shall be the sole judge as to whether Contractor's work conforms to the specifications.

Contractor and Contractor's personnel shall present a neat appearance. Contractor and Contractors employee(s) shall wear a uniform which clearly identifies the Contractor's company and the employee.

Contractor's vehicles shall be clearly marked with the Contractor's company name and logo and Contractor's license #.

Contractor shall provide at their own risk, all labor, materials, supervision, tools, equipment, insurance, storage, transportation, loading, hauling, dumping, proper protection and all other items needed, or as directed to perform the work described in these specifications.

Contractor shall appoint a person (Supervisor) acting as Foreman, Senior Lead Person, or Supervisor, or him/herself to oversee all work crews at all times while performing work under this project. Personal supervision by the Supervisor is not required provided that equipment or other means are provided that enables the work crews to communicate with the Supervisor at all times. Each work crew shall have a designated person on the work site that has the authority to respond to inquiries from any citizens encountered during the course of work and be able to communicate with the Public Works Director, City Administrator or other representative about work details and/or priorities. This designated person shall be able to accurately and effectively communicate any information essential to the operation of the organization.

All work shall be performed with the utmost concern for safety of both the workers and the public. Contractor is expected to be familiar with all areas and locations of the work and if they are not, shall have those questions answered before commencing work on this project.

6.0 WORKMANSHIP

Contractor is expected to respect all parties they encounter. Contractor shall perform work to the satisfaction of the Public Works Director or Designee(s). The Contractor shall cooperate with the Public Works Director or Designee(s) to enable determination of project compliance. If any work does not meet the standards specified, the Contractor will be responsible for correcting such deficiencies within five (5) working days or as directed by the Public Works Director or Designee(s). Corrections shall be at no additional cost to the City of Stockton. Contractor is expected to use additional personnel for corrections. There shall be no delay of regular maintenance to complete corrections.

7.0 DAMAGE TO IMPROVEMENTS AND PROTECTION OF PROPERTY

Contractor shall be held responsible for the preservation and protection of all public and private property and improvements adjacent to the work area and shall exercise due caution to avoid and prevent any damage to adjacent property and/or improvements. Should any direct or indirect damage or injury result to any public or private property or to any persons encountered in the course of work on account of any act, omission, neglect, or misconduct in the execution of the work, or as a consequence of non-execution thereof on the part of the Contractor or any of their employees or agent, such property or person shall be restored and made whole at the expense of the contractor.

Where personal property may be affected by Contractor's operations that the Contractor cannot effectively protect, Contractor shall notify the potentially affected property owner(s) prior to the operations to take steps to protect the personal property. Contractor shall notify City within 24 hours of any damage to any City or private amenities/improvements/property caused by Contractor.

Contractor shall take all reasonable measures to prevent accidental spills of fuel or oil for Contractor's equipment. In the event of such spill, immediately remove all spilled material, properly dispose of the spilled material and any material used in clean-up/absorption of the spilled material, and, if necessary, notify the proper authorities in accordance with applicable law.

8.0 SAFETY

Contractor shall be solely responsible for the safety and welfare of all Contractors' personnel performing work under this project. Contractor is solely responsible for advising and educating all personnel to the health hazards associated with this work prior to personnel commencing work under this project. Contractor shall have an injury and illness prevention program (IIPP) and shall provide a copy of the program with their bid.

All work shall be performed with the utmost concern for safety of both the workers and the public. Where necessary, contractor shall barricade or temporarily close to the public those areas where work is being performed.

9.0 TRAFFIC CONTROL

Attention is directed to Part 6 of the California Manual on Uniform Traffic Control Devices (MUTCD), Sections 7-1.03, "Public Convenience", 7-1.04, "Public Safety", and 12, "Temporary Traffic Control", of the Caltrans Specifications. Nothing in these bid documents shall be construed as relieving the Contractor from the responsibilities specified in these sections.

Lane closures shall conform to Section 9.0.1 Traffic Lane and Sidewalk Closure of this document.

The Contractor shall furnish, and maintain in good working order, all barricades and flashers, and provide flaggers as necessary to protect pedestrians, bicyclists, and vehicular traffic.

The Contractor shall provide adequate and continuous ingress and egress for all adjacent properties; except for the limited period of time it is necessary to perform work at a specific property. The Contractor shall diligently prosecute all work directly impacting businesses to completion. The Contractor shall coordinate limited closures with tenants or owners, as required by these bid documents, and as directed by the Engineer.

9.0.1 Traffic Lane and Sidewalk Closures

Lanes and sidewalks may be closed only as necessary to perform work at a specific property. Except for work required under Section 7-1.03 "Public Convenience" and Section 7-1.04, "Public Safety" of the Caltrans Specifications, work that interferes with public traffic shall be performed only as indicated. Traffic lane and sidewalk closures shall conform to the MUTCD requirements.

Personal vehicles of the Contractor's employees shall not be parked on the traveled way or shoulders, including any section closed to public traffic.

Adequate ingress and egress shall be maintained throughout the project limits for fire, police, and other emergency vehicles. The Contractor shall provide adequate ingress and egress for residences, property owners, and abutting business owners to their respective properties except when performing work at their specific locations.

Also, the Contractor shall provide adequate signing, barricades and flashers or portable flashing beacons, flaggers, and other equipment and personnel necessary to adequately control and direct traffic in a safe manner. The Contractor shall maintain all barricades, flashers and detour signs twenty-four (24) hours a day.

Tree Care Professionals Serving Communities Who Care About Trees

www.WCAINC.com

April 22, 2022

City of Stockton
Attn: City Clerk
425 N. El Dorado Street
Stockton, CA 95202

RE: RFB: Emergency On-Call Tree Services Project No. OM-22-051
Due: Thursday, April 28, 2022 at 2:00PM

To whom it may concern;

Thank you for allowing West Coast Arborists, Inc. (WCA) the opportunity to submit a proposal for tree maintenance services for the City of Stockton. WCA is a family-owned and operated company employing over 1,000 full-time employees providing various tasks to achieve one goal: serving communities who care about trees. We have reviewed, understand, and agree to the terms and conditions described in this RFP. We also hereby acknowledge that we meet the minimum requirements and responded to each of these requirements to the best of our ability.

WCA's corporate values include listening to customers and employees to help improve services offered. By establishing clear goals and expectations for the organization, supporting its diverse teams, and exchanging frequent feedback from customers and employees, we are able to provide 'gold standard' tree care services. WCA's top management team has created a culture where employees become accountable for actions and results. Our Tree Care Industry Association (TCIA) company-wide accreditation is evidence of the commitment WCA has to our safety and training programs, customer satisfaction and our capacity to maintain industry standards.

WCA has a 50-year track record of working for more than 330 California and Arizona municipalities as well as other various agencies. Our company has been in business since 1972 and is licensed by the California State Contractors License Board under license #366764. We have held this license in good standing since 1978. The license specializes in Class C61 (Tree Service), Class C27 (Landscaping) and Class C31 (Traffic Control). We currently employ over 90 Certified Arborists and over 150 Certified Tree workers, as recognized by the International Society of Arboriculture. WCA is also registered with the Department of Industrial Relations (DIR) for Public Works projects, our registration number is 1000000956. All work will be performed in-house; no subcontractors will be used.

Our employees will operate from our Stockton Office located at 3625 E. Stevenson Avenue, Stockton, CA 95205. For questions related to this proposal and who has the authority to negotiate/present please contact Victor Gonzalez, V.P. Business Development, at (714) 991-1900 or at vgonzalez@wcainc.com. Cal Haupt, Area Manager, will be assigned to this project should WCA be awarded a contract. He can be reached at (925) 595-1720 or chaupt@wcainc.com.

Sincerely,

Patrick Mahoney, President

BIDDER CERTIFICATION

The undersigned agrees that if this bid is accepted, he/she will contract with the City of Stockton in the form of contract attached hereto to perform all of the work in accordance with the contract and the drawings, specifications, and other documents incorporated therein; that he/she will take in full payment therefor, and for all other obligations assumed under the contract, the prices set forth in the following bid schedule except as otherwise provided in the specifications; and that he/she will execute such contract and furnish the required contract bonds in the manner and within the time provided in the bidding requirements and conditions. The undersigned further agrees that he/she has carefully examined the site of the work and the bid documents and any addenda thereto, and is fully informed of the nature and location of the work, the quantities of the work, and the conditions to be encountered in performing the work; that the only parties interested in this bid as principals are those named herein and that this bid is made without collusion with any other party; and that this bid is submitted in all respects in accordance with the bidding requirements and conditions and all other requirements of the bid documents.

A BID GUARANTY ACCOMPANIES THIS BID IN THE FORM OF: *(Check one of the following)*

- ☐ Cash, or
- ☐ Cashier's check, or
- ☐ Certified check payable to City of Stockton, or
- ☒ Bidder's bond in favor of the City.

For any amount not less than ten percent (10%) of the aggregate of the bid.

ALSO ACCOMPANYING THIS BID ARE THE FOLLOWING ATTACHMENTS, PROPERLY EXECUTED AND SIGNED:

1. List of Subcontractors
2. Non-Collusion Declaration
3. DIR Self-Certification
4. Title VI Self-Certification
5. Local Employment Ordinance Acknowledgement
6. Local Business Preference Acknowledgement

ARCH INSURANCE COMPANY

BID BOND

KNOW ALL MEN BY THESE PRESENTS: That we, **West Coast Arborists, Inc.**, as Principal, and the **ARCH INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of MISSOURI, and authorized to do business in the State of **California** as Surety, are held and firmly bound unto **City of Stockton** as Obligee, in the sum of **Ten Percent of Total Amount Bid ---------- (10% of Total Amount Bid)** DOLLARS, lawful money of the United States of America, to the payment of which sum well and truly to be made, the Principal and Surety bind themselves, and each of their heirs, executors, administrators, successors and assigns, jointly and severally by these presents.

The condition of this obligation is such, that, if the Obligee shall make any award to the Principal for:

Emergency On-Call Tree Services, Project No. OM-22-051
Bid Date: 04/28/2022

According to the terms of the proposal or bid made by the Principal therefore and the Principal shall duly made and enter into a contract with the Obligee in accordance with the terms of said proposal or bid and award and shall give bond for the faithful performance thereof, with the ARCH INSURANCE COMPANY, as Surety or with other Surety or Sureties approved by the Obligee; or if the Principal shall, in case of failure so to do, pay to the Obligee the damages which the Obligee may suffer by reason of such failure not exceeding the penalty of this bond, then this obligation shall be null and void; otherwise it shall be and remain in full force and effect.

This bond is subject to the terms and conditions attached hereto and made a part hereof.

This Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated. Not valid for Note, Loan, Letter of Credit, Currency Rate, Interest Rate or Residential Value Guarantees.

POWER OF ATTORNEY

Know All Persons By These Presents:
That the Arch Insurance Company, a corporation organized and existing under the laws of the State of Missouri, having its principal administrative office in Jersey City, New Jersey (hereinafter referred to as the "Company") does hereby appoint:

Meghan Hanes, Rosa E. Rivas, Samantha Russell and Tracy Aston of Los Angeles, CA (EACH)

its true and lawful Attorney(s)in-Fact, to make, execute, seal, and deliver from the date of issuance of this power for and on its behalf as surety, and as its act and deed: Any and all bonds, undertakings, recognizances and other surety obligations, in the penal sum not exceeding Ninety Million Dollars (90,000,000.00).
This authority does not permit the same obligation to be split into two or more bonds In order to bring each such bond within the dollar limit of authority as set forth herein.

The execution of such bonds, undertakings, recognizances and other surety obligations in pursuance of these presents shall be as binding upon the said Company as fully and amply to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at its principal administrative office in Jersey City, New Jersey.

This Power of Attorney is executed by authority of resolutions adopted by unanimous consent of the Board of Directors of the Company on December 11, 2020, true and accurate copies of which are hereinafter set forth and are hereby certified to by the undersigned Secretary as being in full force and effect:

"VOTED, That the Chairman of the Board, the President, or the Executive Vice President, or any Senior Vice President, of the Surety Business Division, or their appointees designated in writing and filed with the Secretary, or the Secretary shall have the power and authority to appoint agents and attorneys-in-fact, and to authorize them subject to the limitations set forth in their respective powers of attorney, to execute on behalf of the Company, and attach the seal of the Company thereto, bonds, undertakings, recognizances and other surety obligations obligatory in the nature thereof, and any such officers of the Company may appoint agents for acceptance of process."

This Power of Attorney is signed, sealed and certified by facsimile under and by authority of the following resolution adopted by the unanimous consent of the Board of Directors of the Company on December 11, 2020:

VOTED, That the signature of the Chairman of the Board, the President, or the Executive Vice President, or any Senior Vice President, of the Surety Business Division, or their appointees designated in writing and filed with the Secretary, and the signature of the Secretary, the seal of the Company, and certifications by the Secretary, may be affixed by facsimile on any power of attorney or bond executed pursuant to the resolution adopted by the Board of Directors on December 11, 2020, and any such power so executed, sealed and certified with respect to any bond or undertaking to which it is attached, shall continue to be valid and binding upon the Company. **In Testimony Whereof**, the Company has caused this instrument to be signed and its corporate seal to be affixed by their authorized officers, this **23rd day of March, 2022**

NON-COLLUSION DECLARATION

(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

To the CITY of STOCKTON DEPARTMENT OF PUBLIC WORKS.

The undersigned declares:

I am the President, of West Coast Arborists, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on April 22, 2022 at Anaheim (city), CA (state).

Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Exhibit C:
Insurance Requirements

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, his agents, representatives, employees or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation:** as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any

endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by

Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 1 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

I. PURPOSE

The purpose of this policy is to reaffirm the City's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace. This policy defines prohibited behavior and conduct, and sets forth a procedure for reporting, investigating and resolving complaints of discrimination, harassment, in the workplace, including retaliation and hostile work environment.

II. POLICY

A. The City of Stockton prohibits any form of discrimination and/or harassment of any person based on race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute consistent with state or federal law. All such discrimination and harassment is unlawful and shall not be tolerated. In addition, under the federal Affordable Care Act (ACA), the City of Stockton prohibits discrimination and/or harassment, or retaliation against an employee who obtains coverage, receives a tax credit or subsidy through the Health Care "Market Place" or "Exchange."

B. It is an unlawful employment practice to discriminate against or to harass an unpaid intern or volunteer on the basis of any legally protected classification unless an exception applies, such as a bona fide occupational qualification.

C. The City will neither tolerate nor condone discrimination and/or harassment of employees by managers, supervisors, co-workers, or non-employees with whom City employees have a business service, or professional relationship.

D. All City employees and non-employees share a responsibility to assist in

DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

maintaining an employment environment free of discrimination and harassment. This policy applies to all aspects of City employment, including, but not limited to, hiring, reassignment, placement, promotion, employment action, disciplinary action, layoff, reemployment, transfer, leave of absence, compensation and benefits, training; or other terms of treatment of that person in an unpaid internship, or another limited duration program to provide unpaid work experience for that person, or the harassment of an unpaid intern or volunteer.

E. All allegations of discrimination and/or harassment shall be investigated immediately by the City, in accordance with this policy. If it is determined that any prohibited activity has occurred, remedial action shall be taken. Such action may include discipline up to and including discharge. In addition, under applicable law, individual supervisors and employees may be subject to personal liability and/or punitive damages in any litigation arising as a result of such conduct.

F. All new hires shall attend harassment awareness training, and supervisors and managers shall attend harassment awareness and prevention training for supervisors every two years.

G. The City of Stockton prohibits retaliation against any employee or non-employee by another employee, non-employee, supervisor, or manager for reporting, filing, testifying, assisting or participating in any manner in any investigation, proceeding, or hearing conducted by the employer or a federal or state enforcement agency.

H. This policy applies to all officials, employees, volunteers, unpaid interns, agents, or contractors of the City.

I. This policy shall be administered by the Director of Human Resources.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 3 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

III. DEFINITION AND EXAMPLES OF DISCRIMINATION AND HARASSMENT

A. "Discrimination," as used in this policy, is any action, behavior, practice, or process that is intended to deny, or results in the denial of, employment rights, privileges, or benefits because of a person's race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other prohibition identified under state and federal law. The following are examples of conduct that may constitute discrimination:

1. Soliciting applications from a source where all or most of potential workers are of the same race or color.

2. Considering a person's gender as the basis for differences in pay, work assignments, performance evaluations, training, discipline, or any other area of employment; and

3. Questioning a job applicant about the existence, nature and severity of a disability.

B. "Harassment," as used in this policy, consists of any conduct affecting another person because of his or her race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute identified under state and federal law when such conduct has the purpose or the effect of: (1) creating an intimidating, hostile or offensive work environment; (2) unreasonably interfering with the employee's or non-employee's work performance; or (3)

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 4 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

otherwise adversely affecting an employee's or non-employee's employment opportunities.

Harassment may take many forms, including, but not limited to, the following examples:

1. Verbal Harassment: Epithets, derogatory and offensive comments or slurs based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

2. Physical Harassment: Assault, impeding or blocking movement that results in the physical interference with normal work or movement on the basis of race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

3. Visual Harassment: The displaying of posters, photography, notices, bulletins, e-mails, cartoons or drawings with derogatory and offensive content based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

C. "Sexual harassment," as used in this policy, is a subcategory of harassment, and is specifically defined by law as unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made a term or condition of employment; or

2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual; or

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

3. Such conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work performance or creating an intimidating, hostile or offensive working environment because of the persistent, severe or pervasive nature of the conduct.

Examples of Sexual Harassment include, but are not limited to the following:

a. Unwelcome sexual overtures or propositions.

b. Offering employment benefits or status in exchange for sexual favors.

c. Making or threatening retaliation after a negative response to sexual advances.

d. Visual conduct such as leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons, calendars or posters.

e. Verbal conduct such as using epithets or slurs, telling sexually explicit jokes, or making derogatory or suggestive comments about a person's body or dress.

f. Written communications of a sexual nature distributed in hard copy, soft copy or via a computer network.

g. Verbal abuse of a sexual nature, graphic verbal commentary about an individual's body, sexually degrading words to describe an individual, suggestive or obscene letters, notes or invitations.

h. Physical conduct such as touching, assaulting, impeding or blocking movements.

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 6 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

i. Retaliation for making harassment reports or threatening to report harassment.

D. Affordable Care Act (ACA) Anti-Retaliation

Pursuant to section §1558 of the Affordable Care Act, the City prohibits discrimination or retaliation towards any employee who:

1. Receives a health insurance tax credit or subsidy through the Health Care "Marketplace" or "Exchange", by which can trigger a penalty payable by the employer;
2. Reports potential violations of protections afforded under Title I of the Act, which provides guaranteed availability protections among other things;
3. Testifies in a proceeding concerning such violation;
4. Assists or participates in a proceeding concerning a violation; or
5. Objects to, or refuses to participate in, any activity, policy, practice, or assigned task that the employee reasonably believes to be in violation of any provision of the Title I of the Act.

An employee who believes that he or she has been discharged or otherwise discriminated against in violation of section §1558 of the Affordable Care Act may seek relief in accordance with the procedures, notifications, burdens of proof, remedies, and statutes of limitation set forth in section 2087(b) of title 15, United States Code.

IV. REPORTING AND COMPLAINT PROCEDURES

A. Immediate Action Required

The City's reporting and complaint procedures provide for an immediate, thorough and objective investigation of discrimination or harassment claims, appropriate disciplinary action taken against any person found to have engaged in prohibited behavior, and appropriate alternative remedies to any

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 7 of 14

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

employee or non-employee subject to discrimination or harassment. To accomplish this, such incidents must be reported immediately to a supervisor or manager.

1. Employee's and Non-Employee's Responsibilities when Subjected to Discrimination and/or Harassment

   a. Employees or non-employees who believe they have been subjected to discrimination or harassment, or are aware of discrimination or harassment against others, shall report the situation immediately to his/her supervisor or manager, except as specified in subsection (b), below. Employees and non-employees shall report any such incidents occurring in the workplace, whether committed by coworkers, supervisors or managers, or third persons doing business with the City, such as customers or vendors, or other non-employees. If comfortable doing so, an employee or non-employee who has a complaint of discrimination or harassment is encouraged to directly inform the person(s) engaging in the behavior that such conduct is offensive and insist the behavior to stop.

   b. Employees and non-employees must immediately contact a supervisor or manager to register a complaint of discrimination or harassment, unless that supervisor or manager is the individual engaging in the unwanted behavior. In that case, the employee or non-employee may contact someone at the next supervisory level. If the employee or non-employee feels uncomfortable dealing directly with his or her immediate supervisor or manager, he or she may contact the department head, or the Director of Human Resources (or either of their designees) to register a complaint of discrimination or harassment.

   c. Employees and non-employees may file a formal complaint of harassment or discrimination with their department head or

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 8 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

with Human Resources. To assist the City in conducting a thorough investigation, complaints shall be submitted in writing and shall include specific details of the incident(s), the names of the individuals involved, the names of any witnesses, and any documentary evidence (notes, pictures, cartoons, etc.) that will corroborate the allegations.

d. Employees and non-employees shall immediately report any retaliation to a supervisor, manager, department head or Director of Human Resources (or designee). All retaliation complaints shall be immediately, objectively and thoroughly investigated in accordance with the investigation procedures. If a report of retaliation is substantiated, appropriate disciplinary action, up to and including discharge shall be taken.

2. Supervisor's or Manager's Responsibilities to Eliminate Discrimination and/or Harassment

a. A supervisor or manager is responsible for enforcing the City's discrimination and harassment policy. Supervisors or managers must ensure that all employees and non-employees are aware of the City's policy through open discussion of the policy at staff meetings and by posting the policy in a conspicuous location accessible to all staff members.

b. A supervisor or manager shall be cognizant of employees' and non-employees' behavior and shall not permit any employee or non-employee under their supervision to be subjected to or engage in any conduct prohibited by this policy.

c. A supervisor or manager who observes conduct prohibited by this policy shall immediately direct the employee or non-employee to cease the conduct.

d. A supervisor or manager who receives a complaint of prohibited conduct is required to take the complaint seriously, and report the matter immediately to the department head; be supportive of the complainant; ensure there is no retaliation against the complainant; conduct an internal fact-finding review into the allegations; obtain as much detailed information as possible; thoroughly document the findings; communicate in written form to the parties the resolution of the complaint; and report to and consult with the Human Resources Department promptly, without delay.

B. Confidentiality. The City will make every effort to protect the privacy and confidentiality of all parties involved, as well as any information and/or documentation obtained, to the extent possible consistent with a thorough investigation.

C. Penalty for Non-Compliance. The City shall take disciplinary action, up to and including discharge, against any supervisor or manager who fails in his/her responsibility to take immediate action in response to an employee's or non-employee's complaint of discrimination or harassment. Further, such disciplinary action shall be taken against a supervisor or manager who fails to stop discriminatory or harassing conduct committed in his/her presence or to stop such conduct about which the supervisor or manager has knowledge.

V. INVESTIGATION PROCEDURES

A. Determination of Responsibility for Investigation

If a formal complaint is filed with the department head or the Director of Human Resources (or either of their designees), the department head and the Director of Human Resources shall consult with one another to determine whether the department or Human Resources shall conduct the fact-finding investigation into the allegations. Either the department head or the Director of Human Resources (or either of their designees), depending on who is

responsible for the investigation, shall issue written notification to the complainant and alleged harasser(s). The notification shall specify the nature of the complaint, and inform the parties that an investigation into the allegations of discrimination and/or harassment shall be conducted.

B. Investigative Guidelines

The investigation shall include the following steps taken in the order best suited to the circumstances:

1. Identify and preserve the evidence.

2. Confirm the name and position of the complainant. Interview the complainant.

3. Allow the complainant the opportunity to place the complaint in writing.

4. Obtain the identity of the alleged harasser(s).

5. Obtain as many details as possible regarding the incident(s) that prompted the complaint, including the number of occurrences, dates, times, locations, and witnesses (if applicable).

6. Ascertain how the complainant felt about the alleged incident when it occurred; complainant's response(s) to the alleged behavior; and witness statements (if applicable).

7. Ascertain if any threats or promises were made in connection with the alleged harassment.

8. Ascertain if the complainant knows of or suspects that there are other victims of harassment by the same person(s).

9. Ascertain whether the complainant has spoken to anyone, especially

supervisors, about the harassment.

10. Ascertain what resolution would be acceptable to the complainant.

11. Interview the alleged harasser to get his or her side of the story, including any possible motivation for a false allegation.

12. Interview witnesses who were identified by the complainant regarding the alleged harasser or other persons identified during the investigation.

13. Interview witnesses who were identified by the alleged harasser or other persons identified during the investigation.

14. Advise all participants that the investigation is "confidential" and not to engage in any retaliatory conduct, as such conduct is subject to disciplinary action up to and including discharge. Confidentiality will be maintained to the extent possible. An individual who is interviewed during the course of an investigation is prohibited from discussing the substance of the interview, except as otherwise directed by a supervisor or the Director of Human Resources. Any individual who discusses the content of an investigatory interview will be subject to discipline or other appropriate sanction.

15. Conduct follow-up interviews, if warranted.

16. Prepare report of findings and discuss with management and designated legal staff.

VI. RESPONDING TO THE COMPLAINT

A. Following the completion of the fact-finding investigation, either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation, shall

CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 12 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

make a report of findings, along with a recommendation regarding the appropriate remedial action to be taken, if warranted. The recommendation shall be made after reviewing the findings of the investigation, giving consideration to all factual information, the nature of the alleged conduct, and the totality of the circumstances. If the investigation was conducted by the Director of Human Resources, or designee, the Director, or designee, shall confer with the affected department head and both shall concur on the remedial action to be taken, if any. If the investigation was conducted by the department head, the department head shall confer with the Director of Human Resources prior to making the report of findings and both shall concur on the remedial action to be taken, if any.

B. If either the department head or the Director of Human Resources does not concur with the findings and recommendation of the other, the City Attorney (or designee) shall review and resolve the matter in dispute.

C. Report of findings and recommendation shall be treated as a confidential document and no other distribution shall be made without first consulting with the City Attorney's Office. A completed investigation report will not be disclosed, except as it is deemed necessary to support a disciplinary action, to take remedial action, to defend the City in adversarial proceedings, or to comply with the law or court order.

D. Either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation shall provide a written response to the complainant and the person alleged to have committed the misconduct, discrimination and/or harassment. The response shall include a copy of the City's discrimination and harassment policy and a memorandum indicating the City's determination as to whether the complaint is:

1. Unsustained: The investigation failed to disclose sufficient evidence to substantiate the allegation(s).

2. Unfounded: The investigation proved that the act(s) or omission(s)

complained of did not occur. The finding also applies when the individual employee(s) named in the complaint were not involved in the act(s) or omission(s) alleged.

3. Sustained: The investigation disclosed sufficient evidence to substantiate the allegation(s) made in the complaint; appropriate action will be taken.

E. Details regarding any specific fact-findings or disciplinary action to be taken will not be communicated to the complainant. The City Attorney shall review the response for legal sufficiency before dissemination.

F. The City shall close and retain the investigation file, in accordance with applicable laws, regulations, and City policy regarding retention of City records.

VII. DISCIPLINE

Disciplinary action imposed as a result of any investigation conducted pursuant to this policy shall be commensurate with the severity of the offense, up to and including discharge, even for a first offense.

VIII. ALTERNATIVE REMEDIES

If upon exhausting all internal remedies to file, investigate, and respond to a charges of discrimination/harassment, pursuant to title VII of the Federal Civil Rights Act of 1964 (42 U.S.C §§ 2000e *et seq.)*, any person has a right to file a charge of discrimination/harassment with the Equal Employment Opportunity Commission ("EEOC"). In addition, pursuant to the California Fair Employment and Housing Act (Gov. Code §§ 12900 – 12996.) a person may also file a complaint of discrimination/harassment with the California Department of Fair Employment and Housing ("DFEH"). Employees or non-employees who believe that they have been subjected to discrimination/harassment may file a complaint with either of these

agencies. Both the EEOC and DFEH serve as neutral fact-finders and attempt to assist parties in resolving disputes voluntarily.

IX. COMMUNICATION OF POLICY

This policy shall be provided to all managers, supervisors, employees, volunteers, unpaid interns, agents or contractors of the City and shall be posted in the appropriate places. All employees shall participate in City approved harassment awareness training as directed by management or Human Resources; and all supervisors, as required by law, shall participate in City approved interactive harassment awareness training and education sessions at least once every two years, or as otherwise specified by law.

File #: 22-0391, **Version:** 1

ADOPT RESOLUTION TO AUTHORIZE THE RECTANGULAR RAPID FLASHING BEACON INSTALLATION PROJECT

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Approve the Notice of Exemption No. NOE43-19 under the California Environmental Quality Act for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185).

2. Approve the plans and specifications for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185).

3. Transfer funds in the amount of $59,435 from the Wilson Way Bridge Slope Protection, Project No. WT18021, to the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185).

4. Award a Construction Contract in the amount of $245,946 to Construction H, Inc. of San Pablo, CA, for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185).

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

The Rectangular Rapid Flashing Beacon Installation project will install rectangular rapid flashing beacons, upgrade crosswalk ramps to include truncated domes, and improve crosswalk striping at four locations throughout the City (Attachment A - Vicinity Map). Primary funding for this project is from Cycle 9 of the Highway Safety Improvement Program (HSIP). The project was included in the 2021-26 Five-Year Capital Improvement Plan (CIP).

On February 10, 2022, the City received eight bids for this project. Staff recommends award of the Construction Contract to the lowest responsible bidder, Construction H, Inc., in the amount of $245,946. Staff also recommends that Council adopt a resolution approving Notice of Exemption No. NOE43-19 under the California Environmental Quality Act (CEQA) and approving the plans and specifications for the project. Construction is anticipated to be completed by December 2022.

This project is federally funded and is subject to federal Disadvantaged Business Enterprise (DBE) requirements.

DISCUSSION

Background

The HSIP is a federal-aid program that provides funding for projects that contribute to the significant reduction in traffic fatalities and all serious injuries on all public roads. In 2018, Public Works submitted the Rectangular Rapid Flashing Beacon Installation project grant application for funding under Cycle 9 of the HSIP. The project was awarded $250,000.

The Rectangular Rapid Flashing Beacon Installation project will install rectangular rapid flashing beacons, upgrade crosswalk ramps to include truncated domes, and improve crosswalk striping at four locations: 1) Hunter Street and Channel Street; 2) Sutter Street and Alpine Avenue; 3) El Dorado Street and Iris Avenue; 4) Pacific Avenue and Elm Street.

Since the project is funded with federal transportation dollars, DBE program rules apply. DBE rules require that the prime contractor either meet a calculated project specific DBE participation goal or undertake and document good faith efforts to do so. If the apparent low bidder does not meet the project goal, a Good Faith Efforts Evaluation must be made examining several specific factors. Failure to meet the goal or provide evidence of adequate good faith efforts are grounds for rejecting the bidder as non-responsive.

A DBE is a socially and economically disadvantaged small business owned by a woman or by a specified ethnic group that has been properly certified by Caltrans. These groups include:

- African American
- Asian Pacific American
- Native American
- Women
- Hispanic American
- Subcontinent Asian American

A DBE goal of 11 percent was established for this project. The goal was calculated by examining the breakdown of the types of work to be performed, and the availability of certified DBE companies in our market area to perform the work. A pre-bid meeting was held on January 25, 2022, to emphasize the DBE requirements and to provide information on how to meet the project DBE goal.

The federal HSIP funding restrictions prohibit the use of the Local Employment Ordinance (Stockton Municipal Code (SMC) section 3.68.095), and the Local Business Preference Ordinance (SMC section 3.68.090).

On July 26, 2016, Council adopted a Community Workforce and Training Agreement (CWTA). The CWTA became effective August 25, 2016, and applies to all Public Works projects over $1 million that are bid after that date. On July 16, 2019, by Motion No, 2019-07-16-1403, Council extended the CWTA term to August 25, 2024. The CWTA was not applied to this project as federal regulations prohibit the use of such agreements.

Present Situation

On January 13, 2022, the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (PW1904)/Federal Project No. HSIPL-5008(185), was advertised for bids. On February 10, 2022, eight bids were received with the following results:

COMPANY NAME	BID AMOUNT
Construction H, Inc. (San Pablo, CA)	$245,946.00
Tim Paxin's Pacific Excavation, Inc. (Elk Grove, CA)	$256,837.00
Ray's Electric (Oakland, CA)	$284,049.50
Bear Electrical Solutions, Inc. (Alviso, CA)	$321,554.50
Alfaro Communications Construction, Inc. (Compton, CA)	$327,777.00
PTM General Engineering Services, Inc. (Riverside, CA)	$337,330.00
Tennyson Electric, Inc. (Livermore, CA)	$339,252.00
B&M Builders, Inc. (Rancho Cordova, CA)	$364,287.00
Engineer's Estimate	$203,000.00

The bid from Construction H, Inc., the lowest responsible bidder, is regular in all respects. Construction H, Inc. has the proper license to perform the work and has proposed a DBE participation of 66.45 percent, which exceeds the 11 percent DBE goal.

Staff recommends Council approve the plans and specifications for the project and award a Construction Contract to Construction H, Inc. of San Pablo, CA, in the amount of $245,946. To award the Construction Contract, staff recommends Council transfer funds in the amount of $59,435 from the completed Wilson Way Bridge Slope Protection, Project No. WT18021, to the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185). Approximately $20,000 in project funds have been expended during the design phase, requiring additional funding to provide for award of the construction contract, contingencies, and construction management.

Caltrans National Environmental Policy Act determination was received on April 6, 2020. The State determined that the project is a Categorical Exclusion under 23 CFR 771.117(c): activity (c)(26). Similarly, the project is in conformance with the City's General Plan, pursuant to California Government Code, section 65402, and is categorically exempt from the requirements of CEQA as specified under Section 15301(c) of the CEQA guidelines. The activities related to this project constitute a discretionary project under the City's jurisdiction and qualifies as a project that does not have a significant effect on the environment. The resolution will approve the filing of Notice of Exemption No. NOE43-19 under CEQA.

Construction is anticipated to be completed by December 2022.

FINANCIAL SUMMARY

The current unencumbered balance in the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (formerly PW1904)/Federal Project No. HSIPL-5008(185), is not sufficient to award a Construction Contract to Construction H, Inc. in the amount of $245,946. Approximately $20,000 in

project funds have been expended during the design phase, requiring additional funding to provide for award of the construction contract, contingencies, and construction management.

With the transfer of funds in the amount of $59,435 (Measure K) from the Wilson Way Bridge Slope Protection, Project No. WT18021, Account No. 4570-000-800007-300-000-30-45-000-000, to the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (formerly PW1904)/Federal Project No. HSIPL-5008(185), Account No. 4570-000-800007-300-000-30-45-000-000, sufficient funds will be available to award a Construction Contract to Construction H, Inc. in the amount of $245,946.

There is no impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended actions.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING THE NOTICE OF EXEMPTION NO. NOE43-19, APPROVING THE PLANS AND SPECIFICATIONS, TRANSFERRING FUNDING, AND AWARDING A CONSTRUCTION CONTRACT FOR THE RECTANGULAR RAPID FLASHING BEACON INSTALLATION, PROJECT NO. WT19004/FEDERAL PROJECT NO. HSIPL-5008(185)

On February 10, 2022, the City Clerk of the City of Stockton opened, examined, and publicly declared the sealed proposals or bids offered for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004/Federal Project No. HSIPL-5008(185); and

The project will install rectangular rapid flashing beacons, upgrade crosswalk ramps to include truncated domes, and improve crosswalk striping at four locations throughout the City; and

Construction H, Inc. is the lowest responsible bidder in the amount of $245,946, and its bid is regular in all respects; and

Caltrans National Environmental Policy Act determination was received on April 6, 2020. The State determined that the project is a Categorical Exclusion under 23 CFR 771.117(c): activity(c)(26). Similarly, the project is in conformance with the City's General Plan, pursuant to California Government Code section 65402; and

The project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) as specified under section 15301(c) of the CEQA Guidelines, because this is a discretionary project under the City's jurisdiction and qualifies as a project which has been determined to not have a significant effect on the environment; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council approves the filing of Notice of Exemption NOE43-19 under CEQA for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (formerly PW1904)/Federal Project No. HSIPL-5008(185), a copy of which is attached as Exhibit 1 and incorporated by this reference.

2. The City Council approves the plans and specifications for the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (formerly PW1904)/Federal Project No. HSIPL-5008(185).

3. The City Council approves the transfer of funds in the amount of $59,435 from the Wilson Way Bridge Slope Protection, Project No. WT18021, to the Rectangular Rapid Flashing Beacon Installation, Project No. WT19004 (formerly PW1904)/Federal Project No. HSIPL-5008(185).

4. The City Council awards a Construction Contract between the City of Stockton and Construction H, Inc. in the amount of $245,946, and the City Manager is authorized and directed to execute same, a copy of which is attached as Exhibit 2 and incorporated by this reference.

5. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED June 14, 2022.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

ELIZA R. GARZA, CMC
City Clerk of the City of Stockton

CITY OF STOCKTON
NOTICE OF EXEMPTION

TO: COUNTY CLERK
COUNTY OF SAN JOAQUIN
44 N. San Joaquin Street, Suite 260
Stockton, CA 95202

FROM: Lead Agency
City of Stockton
Public Works Dept.
22 E Weber Avenue
Stockton, CA 95202-1997

NOTICE OF EXEMPTION PURSUANT TO PUBLIC RESOURCES CODE SECTION 21152(B) AND CALIFORNIA CODE OF REGULATIONS TITLE 14, SECTION 15062

PROJECT DATA

Project Title: Rectangular Rapid Flashing Beacon Installation Project
CEQA Exemption File No.: NOE43-19(PW 1904)
Applicant: Public Works Department
Project Description: The City of Stockton's Public Works Department is requesting the installation of rectangular rapid flashing beacon (RRBF) at four locations in the City of Stockton. The project will include the installation of RRFB's, upgrading crosswalk ramps to include truncated domes, and crosswalk striping improvements.

DETERMINATION/FINDING OF EXEMPTION

The above-described activity/project is exempt from the environmental assessment requirements of the California Environmental Quality Act (CEQA) pursuant to the following section(s) of the State CEQA Guidelines (California Code of Regulations, Title 14):

___ The activity is not a "project," as defined in CEQA Guidelines §15378.
___ The activity is exempt under the "general rule" at CEQA Guidelines §15061(B)(3).
___ The project is "Statutorily Exempt" per CEQA Guidelines §: _____.
_X_ The project is "Categorically Exempt" per CEQA Guidelines §:15301(c).

BASIS FOR FINDING OF EXEMPTION

___ The activity does not qualify as a project and/or clearly could not have a significant effect on the environment and, therefore, CEQA does not apply.

_X_ The activity constitutes a discretionary project under the City's jurisdiction and qualifies as a project which has been determined not to have a significant effect on the environment and, therefore, is exempt from the provisions of CEQA under the above-noted statutory or categorical exemption(s).

CONSTRUCTION CONTRACT

This contract is made and entered into on _____, by and between **CONSTRUCTION H, INC.**, a **STATE OF CA CORPORATION,** with a business address at **2766 CARLTON COURT, SAN PABLO, CA 94806**, hereinafter called "CONTRACTOR," and CITY OF STOCKTON, a municipal corporation, hereinafter called "CITY."

W I T N E S S E T H:

WHEREAS, plans and specifications for the construction of **RECTANGULAR RAPID FLASHING BEACON INSTALLATION, PROJECT NO. WT19004/FEDERAL PROJECT NO. HSIPL-5008(185),** hereinafter called "PROJECT," were regularly adopted by **Resolution No. _____**, on _____; and

WHEREAS, the contract for said work was regularly awarded to CONTRACTOR, by **Council Resolution No. _____**, on _____.

NOW, THEREFORE, in consideration of the promises and of the mutual covenants herein contained, the parties hereto expressly agree as follows:

CONTRACTOR agrees:

1. SCOPE OF SERVICES. To do the work and furnish all the labor, materials, tools, equipment, and insurance required for the construction of PROJECT in accordance with the plans and specifications adopted on _____, by **Council Resolution No. _____**. The "contract documents," which include the bid documents, project plans, specifications, all letters of clarification, and the City of Stockton Standard Specifications and Plans, are incorporated into and made a part of this contract by this reference to the same extent as if fully set forth.

2. COMPENSATION. To do and perform the work contemplated hereby in a good and workmanlike manner and to furnish all labor, materials, tools, and equipment necessary therefore at the prices specified in Exhibit A, attached hereto and by reference made a part hereof, under the direction of and to the complete satisfaction of the Director of Public Works of the City of Stockton. Total compensation for services and reimbursement for costs shall not exceed **$245,946.00**, or as otherwise mutually agreed to in a Contract Change Order.

3. INSURANCE. CONTRACTOR shall not commence any work before obtaining, and shall maintain in force at all times during the duration and performance of this contract, the policies of insurance specified in Exhibit B, which is attached to this contract and incorporated by this reference, and as provided in the "contract documents" including Section 7-1.06 of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016.

It shall be a requirement under this Agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured.

Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City of Stockton's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

The limits of insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Stockton (if agreed to in a written contract or Agreement) before the City of Stockton's own insurance or self-insurance shall be called upon to protect it as a named insured.

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Payment Bond in the amount of the self-insured retention (SIR) may be required.

Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named Insured or the City of Stockton.

The City of Stockton reserves the right to obtain a full certified copy of any Insurance policy and endorsements.

Failure to exercise this right shall not constitute a waiver of right to exercise later.

Contractor shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the City at its sole discretion may purchase the coverage required and the cost will be paid by contractor.

Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the City of Stockton in the same manner and to the same extent as Contractor is bound to the City of Stockton under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the City of Stockton Contract

Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor shall require all sub-contractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and contractor will provide proof of compliance to the City.

4. INDEMNITY AND HOLD HARMLESS. With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, Contractor shall indemnify, protect, defend with counsel approved by City and at Contractor's sole cost and expense, and hold harmless City, its Mayor, Council, officials, representatives, agents, employees, and volunteers from and against any and all claims, causes of action, liabilities, judgments, awards, losses, liens, claims, stop notices, damages, expenses, and costs (including without limitation attorneys' fees, expert and consultant fees, and other expenses of litigation) of every nature, including, but not limited to, death or injury to persons, or damage to property, which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement, or from any violation of any federal, State, or municipal law or ordinance, or City Policy, by Contractor or Contractor's officers, agents, employees, volunteers or subcontractors. Contractor shall not be obligated to indemnify or defend City for claims finally determined by a court of law or arbitrator to arise from the active negligence or willful misconduct of the City. It is the intent of the Parties that this indemnity obligation is at least as broad as is permitted under California law. To the extent California Civil Code sections 2782, et seq., limit the defense or indemnity obligations of Contractor to City, the intent hereunder is to provide the maximum defense and indemnity obligations allowed by Contractor under the law. The indemnity set forth in this section shall not be limited by insurance requirements or by any other provision of this Agreement.

With exception that this section shall in no event be construed to require indemnification, including the duty to defend, by Contractor to a greater extent than permitted under the public policy of the State of California, the parties agree that Contractor's duty to defend City is immediate and arises upon the filing of any claim against the City for damages which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement by Contractor or Contractor's officers, agents, employees, volunteers or subcontractors. Contractor's duties and obligations to defend the City shall apply regardless of whether or not the issue of the City's liability, breach of this Agreement, or other obligation or fault has been determined. Contractor shall be immediately obligated to pay for City's defense costs of the claim, including, but not limited to, court costs, attorney's fees and costs, expert consultant and witness fees and costs, other witness fees, document reproduction costs, arbitration fees, and, if after final judgment an appeal is pursued, all of such costs for the appeal. At the conclusion of the claim, if there is any determination or finding of sole active negligence or willful misconduct on the part of the City, City will then reimburse Contractor for amounts paid in excess of Contractor's proportionate share of responsibility for the damages within 30 days after Contractor provides City with copies of all bills and expenses incurred in the defense of the claim(s). It is agreed between the parties that this reimbursement provision assures Contractor is not obligated to defend

or indemnify City in an amount greater than provided for under California law, including, without limitation, California Civil Code sections 2782, 2782.6, and 2782.8.

With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, and in addition to the other indemnity obligations in this Agreement, Contractor shall indemnify, defend, and hold harmless City, its Mayor, Council, officials, representatives, agents, employees, and volunteers from and against all claims, losses, expenses, and costs including, but not limited to, attorneys' fees, arising out of any claim brought against the City by an employee, office, agent, or volunteer of Contractor, regardless of whether such claim may be covered by any applicable workers compensation insurance. Contractor's indemnification obligation is not limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor under workers' compensation acts, disability acts, or other employee benefit acts.

The City's acceptance of the insurance certificates required under this Agreement does not relieve the CONTRACTOR from its obligation under this paragraph. The indemnification obligations of this section shall survive the termination of this agreement. Any exceptions to this language may result in a proposal being deemed non-responsive.

Contractor/Subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this agreement for the full period of time allowed by law.

The defense and indemnification obligations of this agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this agreement. If any section, subsection, sentence, clause or phrase of this indemnification is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this indemnification.

5. STANDARD PLANS AND SPECIFICATIONS. The performance of said work and the furnishing of said materials shall be executed in accordance with Section 8-1.04B of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016, and the provisions of the issued project specifications.

The Director of Public Works will furnish CONTRACTOR a weekly statement showing the number of days charged to the contract for the preceding week, the number of days specified for completion of the contract, and the number of days remaining to complete the contract. CONTRACTOR will be allowed one (1) week in which to file a written protest setting forth in what respects said weekly statement is incorrect, otherwise the statement shall be deemed to have been accepted by CONTRACTOR as correct.

6. WORKING DAYS. It is agreed by the parties to the contract that in case all the work called for under the contract in all parts and requirements, is not finished or

completed within the number of days as set forth, damage will be sustained by CITY, and that it is and will be impracticable and extremely difficult to ascertain the actual damage which CITY will sustain in the event of and by reason of such delay; and it is therefore agreed that CONTRACTOR will pay to CITY the sum of TWO THOUSAND NINE HUNDRED AND NO/100 DOLLARS ($2,900) per day for each and every calendar day's delay in finishing the work in excess of the number of days prescribed; and CONTRACTOR agrees to pay said liquidated damages as herein provided, and in case the same are not paid, agrees that CITY, may deduct the amount thereof from any monies due or that may become due CONTRACTOR under the contract.

It is further agreed that in case the work called for under the contract is not finished and completed in all parts and requirements within the number of days as specified, CITY shall have the right to increase the number of days or not, as may seem best to serve the interest of CITY, and if CITY decides to increase the said number of days, CITY shall further have the right to charge to CONTRACTOR, CONTRACTOR's heirs, assigns or sureties, and to deduct from the final payment for the work, all or any part, as may be deemed proper, the liquidated damages as specified or the actual cost of engineering, inspection, superintendence, and other overhead expenses which are directly chargeable to the contract, and which accrue during the period of such extension, whichever is greater, except the cost of final surveys and preparation of final estimate shall not be included in such charges.

A working day shall not include, nor shall CONTRACTOR be assessed with liquidated damages nor the additional cost of engineering and inspection during any delay beyond the time named for the completion of the work caused by acts of God or of the public enemy, acts of CITY, fire, floods, epidemics, quarantine restrictions, strikes, and freight embargoes and subject to approval by the Director, inability to get materials ordered by CONTRACTOR or Subcontractor due to such causes provided that CONTRACTOR shall notify the Director in writing of the causes of delay within five (5) working days from the beginning of any such delay, and the Director shall ascertain the facts and the extent of the delay, and Director's findings of the facts thereon shall be final and conclusive.

If CONTRACTOR is delayed by reason of alterations made in these specifications, or by any act of the Director or of CITY, not contemplated by the contract, the time of completion shall be extended proportionately and CONTRACTOR shall be relieved during the period of such extension of any claim for liquidated damages, engineering or inspection charges or other penalties. CONTRACTOR shall have no claim for any other compensation for any such delay.

7. CONFORMANCE TO APPLICABLE LAWS

A. TITLE VI

Title VI of the Civil Rights Act of 1964 requires that “no person in the United States shall, on the grounds of race, color, or national origin, be excluded

from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d) http://www.dol.gov/oasam/regs/statutes/titlevi.htm.

The City of Stockton requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

B. DISCRIMINATION AND HARASSMENT POLICY

The City of Stockton has a Discrimination and Harassment Policy (Exhibit C). The purpose of this policy is to reaffirm the CITY's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace, to define the types of behavior and conduct prohibited by this policy, and to set forth a procedure for reporting, investigating, and resolving complaints of discrimination and harassment in the workplace.

C. LABOR STANDARDS AND PROVISIONS/CALIFORNIA LABOR CODE

The bidder shall understand that conditions set forth in Chapter 1, Part 7, Division 2 of the California Labor Code shall be considered part of the contract agreement. https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=LAB&division=2.&title=&part=7.&chapter=1.&article=2.

D. PREVAILING WAGE

CONTRACTOR and any Subcontractor shall pay each employee engaged in the trade or occupation not less than the prevailing hourly wage rate. In accordance with the provisions of Section 1770 of the Labor Code, the Director of Department of Industrial Relations of the State of California has determined the general prevailing rates of wages and employer payments for health and welfare, pension, vacation, travel time, and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs authorized by Section 3093 and similar purposes applicable to the work to be done. CONTRACTOR performing the work under this contract shall obtain a copy of the wage rate determination and shall distribute copies to each Subcontractor (see Exhibit D). As the wage determination for each craft reflects an expiration date, it shall be the prime CONTRACTOR and each Subcontractor's responsibility to insure that the prevailing wage rates of concern is current and paid to the employee.

(i) The CONTRACTOR performing the work shall be responsible for obtaining a copy of the State wage rate determination. State wage rates may be obtained at

http://www.dir.ca.gov/OPRL/pwd/Determinations/Northern/Northern.pdf. The CONTRACTOR shall be responsible for posting said wage rates at a prominent location at the work site and shall maintain same in a good readable condition for the duration of the work.

(ii) Should the CONTRACTOR choose to work on a Saturday, Sunday or on a holiday recognized by the Labor Unions, the CONTRACTOR shall reimburse the CITY the actual cost of engineering, inspection, superintendence, and or other overhead expenses which are directly chargeable to the contract. Should such work be undertaken at the request of the CITY, reimbursement will not be required. To conform strictly with the provisions of Division 2, Part 7, Chapter 1, Article 2, of the Labor Code of the State of California. To forfeit as a penalty to CITY the sum of TWENTY-FIVE AND NO/100 DOLLARS ($25.00) for each laborer, worker, or mechanic employed by CONTRACTOR, or by any Subcontractor under CONTRACTOR, in the execution of this contract, for each calendar day during which any laborer, worker, or mechanic is required or permitted to work more than eight (8) hours and who is not paid the general prevailing rate of per diem wages for holiday and overtime work in violation of the provisions of Sections 1770 to 1781 of the Labor Code of the State of California. That all sums forfeited under the provisions of the foregoing sections shall be deducted from the payments to be made under the terms of this contract.

(iii) The CONTRACTOR to whom the contract is awarded shall insure that the prime and each subcontractor will in accordance with Section 1776 of the Labor Code, maintain certified payroll records. A copy of said records shall be provided with each invoice to the Public Works Department, Attention Contract Compliance Officer. It shall be the CONTRACTOR'S responsibility to obtain copies of the current prevailing wage rate determination for all subcontractors. Additionally, certified payroll records must be uploaded to the DIR website as required by labor code.

(iv) The CONTRACTOR shall comply with the provisions established in Section 1777.5 of the Labor Code concerning the 1) certified approval by local joint apprenticeship committees for the employment and training of apprentices, and 2) contribution of funds to administer and conduct apprenticeship programs, if applicable to the job.

E. APPENDIX E OF THE TITLE VI ASSURANCES

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest agrees to comply with the Appendix E of the Title VI Assurances attached as Exhibit F.

CITY agrees:

8. COMPENSATION. To pay CONTRACTOR for the work herein contemplated in the following manner: Progress payments will be made on or about the first day of each calendar month, in such sum as shall make the aggregate of payment up to such day equal to ninety-five percent (95%) of the proportional contract price, upon the basis of the progress certificate of the Director of Public Works as to the amount of work done and the proportional amount of the contract price represented therefore; and all of the remaining part of the contract price not as aforesaid paid, shall be paid at the expiration of thirty-five (35) days from the completion of said work of construction and the certification by the Director of Public Works of such completion.

9. SECURITIES. Pursuant to Section 22300 of the Public Contract Code, CONTRACTOR will be permitted, at its request and sole expense, to substitute securities for any monies withheld by the CITY to ensure performance under the contract. Said securities will be deposited either with the CITY or with a State or federally chartered bank as escrow agent. Securities eligible for this substitution are those listed in Section 16430 of the California Government Code or bank or savings and loan certificates of deposit. CONTRACTOR shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

10. CHANGE ORDERS. CITY reserves the right to make such alterations, deviations, additions to or omissions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work, as may be deemed by the Engineer to be necessary or advisable and to require such extra work as may be determined by the Engineer to be required for the proper completion or construction of the whole work contemplated.

Any such changes will be set forth in a contract change order which will specify, in addition to the work done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for such work. A contract change order will not become effective until approved by the City Manager and/or the City Council.

Processing of change orders shall be in accordance with Section 4-1.05A of the City of Stockton Standard Specifications and Plans as adopted by Council on September 27, 2016, by Resolution No. 2016-09-27-2013, effective September 27, 2016, or as otherwise amended by Council. When the compensation for an item of work is subject to adjustment under the provisions of Standard Specifications and Plans, Section 4-1.05A, CONTRACTOR shall, upon request, promptly furnish the Engineer with adequate detailed cost data for such item of work.

11. AUDITS

(a) CITY reserves the right to periodically audit all charges made by CONTRACTOR to CITY for services under the contract. Upon request, CONTRACTOR agrees to furnish CITY, or a designated representative, with necessary information and assistance.

(b) CONTRACTOR agrees that CITY or its delegate will have the right to review, obtain and copy all records pertaining to performance of the contract. CONTRACTOR agrees to provide CITY or its delegate with any relevant information requested and shall permit CITY or its delegate access to its premises, upon reasonable notice, during normal business hours for the purpose of interviewing employees and inspecting and copying such books, records, accounts, and other material that may be relevant to a matter under investigation for the purpose of determining compliance with this requirement. CONTRACTOR further agrees to maintain such records for a period of five (5) years after final payment under the contract.

12. FHWA 1273 AND CARGO PREFERENCE ACT

Federal form FHWA 1273 is physically included in this contract as Exhibit E.

In compliance with the Cargo Preference Act of 1954 (CPA), 46 CFR §381, and the implementing regulations in 46 CFR §381.7, the Contractor agrees:

A. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels;

B. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, “on-board” commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b) (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590;

C. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

13. It is expressly understood and agreed by and between the parties hereto that a waiver of any of the conditions of this contract shall not be considered a waiver of any of the other conditions thereof.

It is further understood and agreed by and between the parties hereto that time is of the essence of this contract in all respects.

IN WITNESS WHEREOF, the parties hereto have hereunto affixed their hands and seals the day and year first above written.

CITY OF STOCKTON

The City of Stockton is now using www.PINSAdvantage.com to track Insurance Certificates and all related documents.

WHAT IS THE PROCESS?

The PINS system starts with **The City of Stockton**. A **Stockton User** logs into PINS and emails a request for proof of insurance to the **Vendor/Contractor**. The **Vendor/Contractor** forwards the request email to their **Insurance Agent(s)**. The **Insurance Agent(s)** logs into www.PINSAdvantage.com and completes the insurance certificate online.

***Note:** Vendors will receive the insurance request email from: no-reply@pinsadvantage.com*

Thank you for your compliance!

www.pinsadvantage.com
+1 626 844 1838

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Insurance Requirements for Construction Contracts

Contractor shall procure and maintain for the duration of the contract, *and for five (5) years thereafter*, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, their agents, representatives, employees, or subcontractors. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the City, at its sole discretion, may purchase the coverage required and the cost will be paid by the contractor.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office (ISO) Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form CA 0001 covering Code 1 (any auto), with limits no less than **$2,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employers' Liability insurance with a limit of no less than $1,000,000 per accident for bodily injury or disease.

4. **Surety Bonds** as described below.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No

representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Claims Made Policies – (Note – applicable only to professional and/or pollution liability)

If any coverage required is written on a claims-made coverage form:

1. The retroactive date must be shown, and this date must be before the execution date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.

3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the contract effective, or start of work date, the Contractor must purchase extended reporting period coverage for a minimum of five (5) years after completion of contract work.

4. A copy of the claims reporting requirements must be submitted to the City of Stockton for review.

5. If the services involve lead-based paint or asbestos identification/remediation, the Contractors Pollution Liability policy shall not contain lead-based paint or asbestos exclusions. If the services involve mold identification/remediation, the Contractors Pollution Liability policy shall not contain a mold exclusion, and the definition of Pollution shall include microbial matter, including mold.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Surety Bonds

Contractor shall provide the following Surety Bonds:

1. Bid bond

2. Performance bond

3. Payment bond (or Labor and Material bond)

4. Maintenance bond

The Payment Bond and the Performance Bond shall be in a sum equal to one hundred percent (100%) of the contract price. If the Performance Bond provides for a one-year warranty a separate Maintenance Bond is not necessary. If the warranty period specified in the contract is for longer than one year a Maintenance Bond equal to 10% of the contract price is required. Bonds shall be duly executed by a responsible corporate surety, authorized to issue such bonds in the State of California and secured through an authorized agent with an office in California.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address
Proper address for mailing certificates, endorsements and notices shall be:

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 1 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

I. PURPOSE

The purpose of this policy is to reaffirm the City's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace. This policy defines prohibited behavior and conduct, and sets forth a procedure for reporting, investigating and resolving complaints of discrimination, harassment, in the workplace, including retaliation and hostile work environment.

II. POLICY

A. The City of Stockton prohibits any form of discrimination and/or harassment of any person based on race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute consistent with state or federal law. All such discrimination and harassment is unlawful and shall not be tolerated. In addition, under the federal Affordable Care Act (ACA), the City of Stockton prohibits discrimination and/or harassment, or retaliation against an employee who obtains coverage, receives a tax credit or subsidy through the Health Care "Market Place" or "Exchange."

B. It is an unlawful employment practice to discriminate against or to harass an unpaid intern or volunteer on the basis of any legally protected classification unless an exception applies, such as a bona fide occupational qualification.

C. The City will neither tolerate nor condone discrimination and/or harassment of employees by managers, supervisors, co-workers, or non-employees with whom City employees have a business service, or professional relationship.

D. All City employees and non-employees share a responsibility to assist in

maintaining an employment environment free of discrimination and harassment. This policy applies to all aspects of City employment, including, but not limited to, hiring, reassignment, placement, promotion, employment action, disciplinary action, layoff, reemployment, transfer, leave of absence, compensation and benefits, training; or other terms of treatment of that person in an unpaid internship, or another limited duration program to provide unpaid work experience for that person, or the harassment of an unpaid intern or volunteer.

E. All allegations of discrimination and/or harassment shall be investigated immediately by the City, in accordance with this policy. If it is determined that any prohibited activity has occurred, remedial action shall be taken. Such action may include discipline up to and including discharge. In addition, under applicable law, individual supervisors and employees may be subject to personal liability and/or punitive damages in any litigation arising as a result of such conduct.

F. All new hires shall attend harassment awareness training, and supervisors and managers shall attend harassment awareness and prevention training for supervisors every two years.

G. The City of Stockton prohibits retaliation against any employee or non-employee by another employee, non-employee, supervisor, or manager for reporting, filing, testifying, assisting or participating in any manner in any investigation, proceeding, or hearing conducted by the employer or a federal or state enforcement agency.

H. This policy applies to all officials, employees, volunteers, unpaid interns, agents, or contractors of the City.

I. This policy shall be administered by the Director of Human Resources.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 3 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

III. DEFINITION AND EXAMPLES OF DISCRIMINATION AND HARASSMENT

A. "Discrimination," as used in this policy, is any action, behavior, practice, or process that is intended to deny, or results in the denial of, employment rights, privileges, or benefits because of a person's race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other prohibition identified under state and federal law. The following are examples of conduct that may constitute discrimination:

1. Soliciting applications from a source where all or most of potential workers are of the same race or color.

2. Considering a person's gender as the basis for differences in pay, work assignments, performance evaluations, training, discipline, or any other area of employment; and

3. Questioning a job applicant about the existence, nature and severity of a disability.

B. "Harassment," as used in this policy, consists of any conduct affecting another person because of his or her race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute identified under state and federal law when such conduct has the purpose or the effect of: (1) creating an intimidating, hostile or offensive work environment; (2) unreasonably interfering with the employee's or non-employee's work performance; or (3)

otherwise adversely affecting an employee's or non-employee's employment opportunities.

Harassment may take many forms, including, but not limited to, the following examples:

1. Verbal Harassment: Epithets, derogatory and offensive comments or slurs based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

2. Physical Harassment: Assault, impeding or blocking movement that results in the physical interference with normal work or movement on the basis of race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

3. Visual Harassment: The displaying of posters, photography, notices, bulletins, e-mails, cartoons or drawings with derogatory and offensive content based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

C. "Sexual harassment," as used in this policy, is a subcategory of harassment, and is specifically defined by law as unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made a term or condition of employment; or

2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual; or

CITY OF STOCKTON, CALIFORNIA

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

3. Such conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work performance or creating an intimidating, hostile or offensive working environment because of the persistent, severe or pervasive nature of the conduct.

Examples of Sexual Harassment include, but are not limited to the following:

a. Unwelcome sexual overtures or propositions.

b. Offering employment benefits or status in exchange for sexual favors.

c. Making or threatening retaliation after a negative response to sexual advances.

d. Visual conduct such as leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons, calendars or posters.

e. Verbal conduct such as using epithets or slurs, telling sexually explicit jokes, or making derogatory or suggestive comments about a person's body or dress.

f. Written communications of a sexual nature distributed in hard copy, soft copy or via a computer network.

g. Verbal abuse of a sexual nature, graphic verbal commentary about an individual's body, sexually degrading words to describe an individual, suggestive or obscene letters, notes or invitations.

h. Physical conduct such as touching, assaulting, impeding or blocking movements.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 6 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

i. Retaliation for making harassment reports or threatening to report harassment.

D. Affordable Care Act (ACA) Anti-Retaliation

Pursuant to section §1558 of the Affordable Care Act, the City prohibits discrimination or retaliation towards any employee who:

1. Receives a health insurance tax credit or subsidy through the Health Care "Marketplace" or "Exchange", by which can trigger a penalty payable by the employer;
2. Reports potential violations of protections afforded under Title I of the Act, which provides guaranteed availability protections among other things;
3. Testifies in a proceeding concerning such violation;
4. Assists or participates in a proceeding concerning a violation; or
5. Objects to, or refuses to participate in, any activity, policy, practice, or assigned task that the employee reasonably believes to be in violation of any provision of the Title I of the Act.

An employee who believes that he or she has been discharged or otherwise discriminated against in violation of section §1558 of the Affordable Care Act may seek relief in accordance with the procedures, notifications, burdens of proof, remedies, and statutes of limitation set forth in section 2087(b) of title 15, United States Code.

IV. REPORTING AND COMPLAINT PROCEDURES

A. Immediate Action Required

The City's reporting and complaint procedures provide for an immediate, thorough and objective investigation of discrimination or harassment claims, appropriate disciplinary action taken against any person found to have engaged in prohibited behavior, and appropriate alternative remedies to any

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 7 of 14

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

employee or non-employee subject to discrimination or harassment. To accomplish this, such incidents must be reported immediately to a supervisor or manager.

1. Employee's and Non-Employee's Responsibilities when Subjected to Discrimination and/or Harassment

   a. Employees or non-employees who believe they have been subjected to discrimination or harassment, or are aware of discrimination or harassment against others, shall report the situation immediately to his/her supervisor or manager, except as specified in subsection (b), below. Employees and non-employees shall report any such incidents occurring in the workplace, whether committed by coworkers, supervisors or managers, or third persons doing business with the City, such as customers or vendors, or other non-employees. If comfortable doing so, an employee or non-employee who has a complaint of discrimination or harassment is encouraged to directly inform the person(s) engaging in the behavior that such conduct is offensive and insist the behavior to stop.

   b. Employees and non-employees must immediately contact a supervisor or manager to register a complaint of discrimination or harassment, unless that supervisor or manager is the individual engaging in the unwanted behavior. In that case, the employee or non-employee may contact someone at the next supervisory level. If the employee or non-employee feels uncomfortable dealing directly with his or her immediate supervisor or manager, he or she may contact the department head, or the Director of Human Resources (or either of their designees) to register a complaint of discrimination or harassment.

   c. Employees and non-employees may file a formal complaint of harassment or discrimination with their department head or

CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 8 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

with Human Resources. To assist the City in conducting a thorough investigation, complaints shall be submitted in writing and shall include specific details of the incident(s), the names of the individuals involved, the names of any witnesses, and any documentary evidence (notes, pictures, cartoons, etc.) that will corroborate the allegations.

d. Employees and non-employees shall immediately report any retaliation to a supervisor, manager, department head or Director of Human Resources (or designee). All retaliation complaints shall be immediately, objectively and thoroughly investigated in accordance with the investigation procedures. If a report of retaliation is substantiated, appropriate disciplinary action, up to and including discharge shall be taken.

2. Supervisor's or Manager's Responsibilities to Eliminate Discrimination and/or Harassment

a. A supervisor or manager is responsible for enforcing the City's discrimination and harassment policy. Supervisors or managers must ensure that all employees and non-employees are aware of the City's policy through open discussion of the policy at staff meetings and by posting the policy in a conspicuous location accessible to all staff members.

b. A supervisor or manager shall be cognizant of employees' and non-employees' behavior and shall not permit any employee or non-employee under their supervision to be subjected to or engage in any conduct prohibited by this policy.

c. A supervisor or manager who observes conduct prohibited by this policy shall immediately direct the employee or non-employee to cease the conduct.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 9 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

d. A supervisor or manager who receives a complaint of prohibited conduct is required to take the complaint seriously, and report the matter immediately to the department head; be supportive of the complainant; ensure there is no retaliation against the complainant; conduct an internal fact-finding review into the allegations; obtain as much detailed information as possible; thoroughly document the findings; communicate in written form to the parties the resolution of the complaint; and report to and consult with the Human Resources Department promptly, without delay.

B. Confidentiality. The City will make every effort to protect the privacy and confidentiality of all parties involved, as well as any information and/or documentation obtained, to the extent possible consistent with a thorough investigation.

C. Penalty for Non-Compliance. The City shall take disciplinary action, up to and including discharge, against any supervisor or manager who fails in his/her responsibility to take immediate action in response to an employee's or non-employee's complaint of discrimination or harassment. Further, such disciplinary action shall be taken against a supervisor or manager who fails to stop discriminatory or harassing conduct committed in his/her presence or to stop such conduct about which the supervisor or manager has knowledge.

V. INVESTIGATION PROCEDURES

A. Determination of Responsibility for Investigation

If a formal complaint is filed with the department head or the Director of Human Resources (or either of their designees), the department head and the Director of Human Resources shall consult with one another to determine whether the department or Human Resources shall conduct the fact-finding investigation into the allegations. Either the department head or the Director of Human Resources (or either of their designees), depending on who is

Subject:	Directive No. HR-15	Page No. 10 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

responsible for the investigation, shall issue written notification to the complainant and alleged harasser(s). The notification shall specify the nature of the complaint, and inform the parties that an investigation into the allegations of discrimination and/or harassment shall be conducted.

B. Investigative Guidelines

The investigation shall include the following steps taken in the order best suited to the circumstances:

1. Identify and preserve the evidence.

2. Confirm the name and position of the complainant. Interview the complainant.

3. Allow the complainant the opportunity to place the complaint in writing.

4. Obtain the identity of the alleged harasser(s).

5. Obtain as many details as possible regarding the incident(s) that prompted the complaint, including the number of occurrences, dates, times, locations, and witnesses (if applicable).

6. Ascertain how the complainant felt about the alleged incident when it occurred; complainant's response(s) to the alleged behavior; and witness statements (if applicable).

7. Ascertain if any threats or promises were made in connection with the alleged harassment.

8. Ascertain if the complainant knows of or suspects that there are other victims of harassment by the same person(s).

9. Ascertain whether the complainant has spoken to anyone, especially

supervisors, about the harassment.

10. Ascertain what resolution would be acceptable to the complainant.

11. Interview the alleged harasser to get his or her side of the story, including any possible motivation for a false allegation.

12. Interview witnesses who were identified by the complainant regarding the alleged harasser or other persons identified during the investigation.

13. Interview witnesses who were identified by the alleged harasser or other persons identified during the investigation.

14. Advise all participants that the investigation is "confidential" and not to engage in any retaliatory conduct, as such conduct is subject to disciplinary action up to and including discharge. Confidentiality will be maintained to the extent possible. An individual who is interviewed during the course of an investigation is prohibited from discussing the substance of the interview, except as otherwise directed by a supervisor or the Director of Human Resources. Any individual who discusses the content of an investigatory interview will be subject to discipline or other appropriate sanction.

15. Conduct follow-up interviews, if warranted.

16. Prepare report of findings and discuss with management and designated legal staff.

VI. RESPONDING TO THE COMPLAINT

A. Following the completion of the fact-finding investigation, either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation, shall

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 12 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

make a report of findings, along with a recommendation regarding the appropriate remedial action to be taken, if warranted. The recommendation shall be made after reviewing the findings of the investigation, giving consideration to all factual information, the nature of the alleged conduct, and the totality of the circumstances. If the investigation was conducted by the Director of Human Resources, or designee, the Director, or designee, shall confer with the affected department head and both shall concur on the remedial action to be taken, if any. If the investigation was conducted by the department head, the department head shall confer with the Director of Human Resources prior to making the report of findings and both shall concur on the remedial action to be taken, if any.

B. If either the department head or the Director of Human Resources does not concur with the findings and recommendation of the other, the City Attorney (or designee) shall review and resolve the matter in dispute.

C. Report of findings and recommendation shall be treated as a confidential document and no other distribution shall be made without first consulting with the City Attorney's Office. A completed investigation report will not be disclosed, except as it is deemed necessary to support a disciplinary action, to take remedial action, to defend the City in adversarial proceedings, or to comply with the law or court order.

D. Either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation shall provide a written response to the complainant and the person alleged to have committed the misconduct, discrimination and/or harassment. The response shall include a copy of the City's discrimination and harassment policy and a memorandum indicating the City's determination as to whether the complaint is:

1. Unsustained: The investigation failed to disclose sufficient evidence to substantiate the allegation(s).

2. Unfounded: The investigation proved that the act(s) or omission(s)

complained of did not occur. The finding also applies when the individual employee(s) named in the complaint were not involved in the act(s) or omission(s) alleged.

3. Sustained: The investigation disclosed sufficient evidence to substantiate the allegation(s) made in the complaint; appropriate action will be taken.

E. Details regarding any specific fact-findings or disciplinary action to be taken will not be communicated to the complainant. The City Attorney shall review the response for legal sufficiency before dissemination.

F. The City shall close and retain the investigation file, in accordance with applicable laws, regulations, and City policy regarding retention of City records.

VII. DISCIPLINE

Disciplinary action imposed as a result of any investigation conducted pursuant to this policy shall be commensurate with the severity of the offense, up to and including discharge, even for a first offense.

VIII. ALTERNATIVE REMEDIES

If upon exhausting all internal remedies to file, investigate, and respond to a charges of discrimination/harassment, pursuant to title VII of the Federal Civil Rights Act of 1964 (42 U.S.C §§ 2000e *et seq.)*, any person has a right to file a charge of discrimination/harassment with the Equal Employment Opportunity Commission ("EEOC"). In addition, pursuant to the California Fair Employment and Housing Act (Gov. Code §§ 12900 – 12996.) a person may also file a complaint of discrimination/harassment with the California Department of Fair Employment and Housing ("DFEH"). Employees or non-employees who believe that they have been subjected to discrimination/harassment may file a complaint with either of these

"General Decision Number: CA20220018 01/07/2022

Superseded General Decision Number: CA20210018

State: California

Construction Types: Building, Heavy (Heavy and Dredging) and Highway

Counties: Alameda, Calaveras, Contra Costa, Fresno, Kings, Madera, Mariposa, Merced, Monterey, San Benito, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Stanislaus and Tuolumne Counties in California.

BUILDING CONSTRUCTION PROJECTS; DREDGING PROJECTS (does not include hopper dredge work); HEAVY CONSTRUCTION PROJECTS (does not include water well drilling); HIGHWAY CONSTRUCTION PROJECTS

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022, Executive Order 14026 generally applies to the contract. The contractor must pay all covered workers at least $15.00 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2022.

If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022, Executive Order 13658 generally applies to the contract. The contractor must pay all covered workers at least $11.25 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2022.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for

performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at www.dol.gov/whd/govcontracts.

Installer.....$ 35.25 20.86
Technician.....$ 40.54 21.02

SCOPE OF WORK
Includes the installation testing, service and maintenance, of the following systems which utilize the transmission and/or transference of voice, sound, vision and digital for commercial, education, security and entertainment purposes for the following: TV monitoring and surveillance, background-foreground music, intercom and telephone interconnect, inventory control systems, microwave transmission, multi-media, multiplex, nurse call system, radio page, school intercom and sound, burglar alarms, and low voltage master clock systems.

A. SOUND AND VOICE TRANSMISSION/TRANSFERENCE SYSTEMS Background foreground music, Intercom and telephone interconnect systems, Telephone systems Nurse call systems, Radio page systems, School intercom and sound systems, Burglar alarm systems, Low voltage, master clock systems, Multi-media/multiplex systems, Sound and musical entertainment systems, RF systems, Antennas and Wave Guide,

B. FIRE ALARM SYSTEMS Installation, wire pulling and testing

C. TELEVISION AND VIDEO SYSTEMS Television monitoring and surveillance systems Video security systems, Video entertainment systems, Video educational systems, Microwave transmission systems, CATV and CCTV

D. SECURITY SYSTEMS Perimeter security systems Vibration sensor systems Card access systems Access control systems, Sonar/infrared monitoring equipment

E. COMMUNICATIONS SYSTEMS THAT TRANSMIT OR RECEIVE INFORMATION AND/OR CONTROL SYSTEMS THAT ARE INTRINSIC TO THE ABOVE LISTED SYSTEMS SCADA (Supervisory Control and Data Acquisition) PCM (Pulse Code Modulation) Inventory Control Systems, Digital Data Systems Broadband and Baseband and Carriers Point of Sale Systems, VSAT Data Systems Data Communication Systems RF and Remote Control Systems, Fiber Optic Data Systems

WORK EXCLUDED Raceway systems are not covered (excluding Ladder-Rack for the purpose of the above listed systems). Chases and/or nipples (not to exceed 10 feet) may be installed on open wiring systems. Energy management systems. SCADA (Supervisory Control and Data Acquisition) when not intrinsic to the above listed systems (in the

scope). Fire alarm systems when installed in raceways (including wire and cable pulling) shall be performed at the electrician wage rate, when either of the following two (2) conditions apply:
1. The project involves new or major remodel building trades construction.
2. The conductors for the fire alarm system are installed in conduit.

ALL CRANES AND ATTACHMENTS

GROUP 1: Clamshell and dragline over 7 cu. yds.; Crane, over 100 tons; Derrick, over 100 tons; Derrick barge pedestal-mounted, over 100 tons; Self-propelled boom-type lifting device, over 100 tons

GROUP 2: Clamshell and dragline over 1 cu. yd. up to and including 7 cu. yds.; Crane, over 45 tons up to and including 100 tons; Derrick barge, 100 tons and under; Self-propelled boom-type lifting device, over 45 tons; Tower crane

GROUP 3: Clamshell and dragline up to and including 1 cu. yd.; Cranes 45 tons and under; Self-propelled boom-type lifting device 45 tons and under;

GROUP 4: Boom Truck or dual purpose A-frame truck, non-rotating over 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) over 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) - under 15 tons;

PILEDRIVERS

GROUP 1: Derrick barge pedestal mounted over 100 tons; Clamshell over 7 cu. yds.; Self-propelled boom-type lifting device over 100 tons; Truck crane or crawler, land or barge mounted over 100 tons

GROUP 2: Derrick barge pedestal mounted 45 tons to and including 100 tons; Clamshell up to and including 7 cu. yds.; Self-propelled boom-type lifting device over 45 tons; Truck crane or crawler, land or barge mounted, over 45 tons up to and including 100 tons; Fundex F-12 hydraulic pile rig

GROUP 3: Derrick barge pedestal mounted under 45 tons; Self-propelled boom-type lifting device 45 tons and under; Skid/scow piledriver, any tonnage; Truck crane or crawler, land or barge mounted 45 tons and under

GROUP 4: Assistant operator in lieu of assistant to engineer; Forklift, 10 tons and over; Heavy-duty repairperson/welder

GROUP 5: Deck engineer

GROUP 6: Deckhand; Fire tender

STEEL ERECTORS

GROUP 1: Crane over 100 tons; Derrick over 100 tons; Self-propelled boom-type lifting device over 100 tons

GROUP 2: Crane over 45 tons to 100 tons; Derrick under 100 tons; Self-propelled boom-type lifting device over 45 tons to 100 tons; Tower crane

GROUP 3: Crane, 45 tons and under; Self-propelled boom-type lifting device, 45 tons and under

GROUP 4: Chicago boom; Forklift, 10 tons and over; Heavy-duty repair person/welder

GROUP 5: Boom cat

TUNNEL AND UNDERGROUND WORK

GROUP 1-A: Tunnel bore machine operator, 20' diameter or more

GROUP 1: Heading shield operator; Heavy-duty repairperson; Mucking machine (rubber tired, rail or track type); Raised bore operator (tunnels); Tunnel mole bore operator

GROUP 2: Combination slusher and motor operator; Concrete pump or pumpcrete gun; Power jumbo operator

GROUP 3: Drill doctor; Mine or shaft hoist

GROUP 4: Combination slurry mixer cleaner; Grouting Machine operator; Motorman

GROUP 5: Bit Sharpener; Brakeman; Combination mixer and compressor (gunite); Compressor operator; Oiler; Pump operator; Slusher operator

FOOTNOTES:
Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive $0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander,

pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and bucker; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2"" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive $4.00 per day above Group 1 wage rates. ""Sewer cleaner"" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shal receive $5.00 per day above Group 1 wage

EXHIBIT 2
EXHIBIT D

rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive $ .25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

EXHIBIT 2
EXHIBIT D

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:
A: at demolition site for the salvage of the material.
B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

GUNITE LABORER CLASSIFICATIONS

GROUP 1: Structural Nozzleman

GROUP 2: Nozzleman, Gunman, Potman, Groundman

GROUP 3: Reboundman

GROUP 4: Gunite laborer

WRECKING WORK LABORER CLASSIFICATIONS

GROUP 1: Skilled wrecker (removing and salvaging of sash, windows and materials)

GROUP 2: Semi-skilled wrecker (salvaging of other building materials)

entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and bucker; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2"" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive $4.00 per day above Group 1 wage rates. ""Sewer cleaner"" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shal receive $5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive $ .25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100

lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:
A: at demolition site for the salvage of the material.
B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

LABORER (WRECKING - AREA B:)
GROUP 1.....$ 29.79 23.20
GROUP 2.....$ 29.64 23.20

FOOTNOTES:
Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive $0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and bucker; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2"" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and

worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive $4.00 per day above Group 1 wage rates. ""Sewer cleaner"" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shal receive $5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive $ .25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall

apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:
A: at demolition site for the salvage of the material.
B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

EXHIBIT 2
EXHIBIT D

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

FOOTNOTES:

Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive $0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small

trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and bucker; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2"" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive $4.00 per day above

Group 1 wage rates. ""Sewer cleaner"" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shal receive $5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive $ .25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and

EXHIBIT 2
EXHIBIT D

piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:
A: at demolition site for the salvage of the material.
B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

Articulated dump truck; Bulk cement spreader (with or without auger); Dumpcrete truck; Skid truck (debris box); Dry pre-batch concrete mix trucks; Dumpster or similar type; Slurry truck: Use dump truck yardage rate.

Heater planer; Asphalt burner; Scarifier burner; Industrial lift truck (mechanical tailgate); Utility and clean-up truck: Use appropriate rate for the power unit or the equipment utilized.

TRUCK DRIVER CLASSIFICATIONS

GROUP 1: Dump trucks, under 6 yds.; Single unit flat rack (2-axle unit); Nipper truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump machine; Fork lift and lift jitneys; Fuel and/or grease truck driver or fuel person; Snow buggy; Steam cleaning; Bus or personhaul driver; Escort or pilot car driver; Pickup truck; Teamster oiler/greaser and/or serviceperson; Hook tender (including loading and unloading); Team driver; Tool room attendant (refineries)

GROUP 2: Dump trucks, 6 yds. and under 8 yds.; Transit mixers, through 10 yds.; Water trucks, under 7,000 gals.; Jetting trucks, under 7,000 gals.; Single-unit flat rack (3-axle unit); Highbed heavy duty transport; Scissor truck; Rubber-tired muck car (not self-loaded); Rubber-tired truck jumbo; Winch truck and ""A"" frame drivers; Combination winch truck with hoist; Road oil truck or bootperson; Buggymobile; Ross, Hyster and similar straddle carriers; Small rubber-tired tractor

GROUP 3: Dump trucks, 8 yds. and including 24 yds.; Transit mixers, over 10 yds.; Water trucks, 7,000 gals. and over; Jetting trucks, 7,000 gals. and over; Vacuum trucks under 7500 gals. Trucks towing tilt bed or flat bed pull trailers; Lowbed heavy duty transport; Heavy duty transport tiller person; Self- propelled street sweeper with self-contained refuse bin; Boom truck - hydro-lift or

Swedish type extension or retracting crane; P.B. or similar type self-loading truck; Tire repairperson; Combination bootperson and road oiler; Dry distribution truck (A bootperson when employed on such equipment, shall receive the rate specified for the classification of road oil trucks or bootperson); Ammonia nitrate distributor, driver and mixer; Snow Go and/or plow

GROUP 4: Dump trucks, over 25 yds. and under 65 yds.; Water pulls - DW 10's, 20's, 21's and other similar equipment when pulling Aqua/pak or water tank trailers; Helicopter pilots (when transporting men and materials); Lowbedk Heavy Duty Transport up to including 7 axles; DW10's, 20's, 21's and other similar Cat type, Terra Cobra, LeTourneau Pulls, Tournorocker, Euclid and similar type equipment when pulling fuel and/or grease tank trailers or other miscellaneous trailers; Vacuum Trucks 7500 gals and over and truck repairman

GROUP 5: Dump trucks, 65 yds. and over; Holland hauler; Low bed Heavy Duty Transport over 7 axles

---

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

==========

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after

award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union, which prevailed in the survey for this classification, which in this example would be Plumbers 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007

in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Division National Office Branch of Wage Surveys. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

EXHIBIT 2
EXHIBIT D

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

==========

END OF GENERAL DECISION"

EXHIBIT 12-G REQUIRED FEDERAL-AID CONTRACT LANGUAGE
(For Local Assistance Construction Projects)

The following language must be incorporated into all Local Assistance Federal-aid construction contracts. The following language, with minor edits, was taken from the Code of Federal Regulations.

1. DISADVANTAGED BUSINESS ENTERPRISES (DBE)

The contractor, subrecipient or subcontractor shall take necessary and reasonable steps to ensure that DBEs have opportunity to participate in the contract (49 CFR 26). To ensure equal participation of DBEs provided in 49 CFR 26.5, the Agency shows a contract goal for DBEs. The prime contractor shall make work available to DBEs and select work parts consistent with available DBE subcontractors and suppliers.

The prime contractor shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate good faith efforts to meet this goal.

It is the prime contractor's responsibility to verify that the DBE firm is certified as DBE at date of bid opening and document the record by printing out the California Unified Certification Program (CUCP) data for each DBE firm. A list of DBEs certified by the CUCP can be found here. http://dot.ca.gov/programs/civil-rights/dbe-search

All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal.

Credit for materials or supplies the prime contractor purchases from DBEs counts towards the goal in the following manner:

- 100 percent counts if the materials or supplies are obtained from a DBE manufacturer.
- 60 percent counts if the materials or supplies are obtained from a DBE regular dealer.
- Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."

The prime contractor receives credit towards the goal if they employ a DBE trucking company that performs a commercially useful function as defined in 49 CFR 26.55(d)(1) as follows:

- The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.
- The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
- The DBE receives credit for the total value of the transportation services it provides on the Contract using trucks it owns, insures, and operates using drivers it employs.
- The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the Contract.
- The DBE may lease trucks without drivers from a non-DBE truck leasing company. If the DBE leases trucks from a non-DBE truck leasing company and uses its own employees as drivers, it is entitled to credit for the total value of these hauling services.
- A lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

a. Nondiscrimination Statement

The contractor, subrecipient or subcontractor will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR 26 on the basis of race, color, sex, or national origin. In administering the Local Agency components of the DBE Program Plan, the contractor, subrecipient or subcontractor will not, directly, or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE Program Plan with respect to individuals of a particular race, color, sex, or national origin.

b. Contract Assurance

Under 49 CFR 26.13(b):

The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

a. Withholding monthly progress payments;

b. Assessing sanctions;

c. Liquidated damages; and/or

d. Disqualifying the contractor from future bidding as non-responsible.

c. Prompt Progress Payment

The prime contractor or subcontractor shall pay to any subcontractor, not later than **seven days** after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed the contractor on account of the work performed by the subcontractors, to the extent of each subcontractor's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from the prime contractor or subcontractor to a subcontractor, the prime contractor or subcontractor may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subcontractor, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. This clause applies to both DBE and non-DBE subcontractors.

d. Prompt Payment of Withheld Funds to Subcontractors

The Agency may hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the Agency, of the contract work, and pay retainage to the prime contractor based on these acceptances. The Agency shall designate one of the methods below in the contract to ensure prompt and full payment of any retainage kept by the prime contractor or subcontractor to a subcontractor. The Agency shall include either Method 1, Method 2, or Method 3 below and delete the other two.

Method 1: No retainage will be held by the Agency from progress payments due to the prime contractor. Prime contractors and subcontractors are prohibited from holding retainage from subcontractors. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating contractor or subcontractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor, deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Method 2: No retainage will be held by the Agency from progress payments due to the prime contractor. Any retainage kept by the prime contractor or by a subcontractor must be paid in full to the earning subcontractor within seven (7) days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating contractor or subcontractor to the penalties, sanctions, and remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor, deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Method 3: The Agency shall hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the Agency of the contract work and pay retainage to the prime contractor based on these acceptances. The prime contractor or subcontractor shall return all monies withheld in retention from all subcontractors within seven (7) days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the Agency. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating prime contractor or subcontractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor; deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Any violation of these provisions shall subject the violating prime contractor or subcontractor to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the prime contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the prime contractor, deficient subcontract performance, or noncompliance by a subcontractor.

e. Termination and Substitution of DBE Subcontractors

The prime contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains the Agency's written consent. The prime contractor shall not terminate or substitute a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without prior written authorization from the Agency. Unless the Agency's prior written consent is provided, the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 15-G Construction Contract DBE Commitment form, included in the Bid.

The Agency authorizes a request to use other forces or sources of materials if the bidder shows any of the following justifications:

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.
2. The Local Agency stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the Local Agency's bond requirements.
3. Work requires a contractor's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent.
8. Listed DBE voluntarily withdraws with written notice from the Contract
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The Agency determines other documented good cause.

The prime contractor shall notify the original DBE of the intent to use other forces or material sources and provide the reasons, allowing the DBE 5 days to respond to the notice and advise the prime contractor and the Agency of the reasons why the use of other forces or sources of materials should not occur.

The prime contractor's request to use other forces or material sources must include:

1. One or more of the reasons listed in the preceding paragraph.
2. Notices from the prime contractor to the DBE regarding the request.
3. Notices from the DBEs to the prime contractor regarding the request.

If a listed DBE is terminated or substituted, the prime contractor must make good faith efforts to find another DBE to substitute for the original DBE. The substitute DBE must perform at least the same amount of work as the original DBE under the contract to the extent needed to meet or exceed the DBE goal.

f. Commitment and Utilization

Note: In the Agency's reports of DBE participation to Caltrans, the Agency must display both commitments and attainments.

The Agency's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.

The bidder shall submit the Exhibit 15-G Construction Contract DBE Commitment, included in the Bid book. This exhibit is the bidder's DBE commitment form. If the form is not submitted with the bid, the bidder must remove the form from the Bid book before submitting their bid.

The bidder shall complete and sign Exhibit 15-G Construction Contract DBE Commitment included in the contract documents regardless of whether DBE participation is reported. The bidder shall provide written confirmation from each DBE that the DBE is participating in the Contract. A copy of a DBE's quote serves as written confirmation. If a DBE is participating as a joint venture partner, the bidder shall submit a copy of the joint venture agreement.

If the DBE Commitment form, Exhibit 15-G, is not submitted with the bid, it must be completed and submitted by all bidders to the Agency within five (5) days of bid opening. If the bidder does not submit the DBE Commitment form within the specified time, the Agency will find the bidder's bid nonresponsive.

The prime contractor shall use each DBE subcontractor as listed on Exhibit 12-B Bidder's List of Subcontractors (DBE and Non-DBE), and Exhibit 15-G Construction Contract DBE Commitment form unless they receive authorization for a substitution.

The Agency shall request the prime contractor to:

1. Notify the Resident Engineer or Inspector of any changes to its anticipated DBE participation
2. Provide this notification before starting the affected work
3. Maintain records including:

    - Name and business address of each 1st-tier subcontractor
    - Name and business address of each DBE subcontractor, DBE vendor, and DBE trucking company, regardless of tier
    - Date of payment and total amount paid to each business (see Exhibit 9-F Monthly Disadvantaged Business Enterprise Payment)

If the prime contractor is a DBE contractor, they shall include the date of work performed by their own forces and the corresponding value of the work.

Before the 15th of each month, the prime contractor shall submit a Monthly DBE Trucking Verification (LAPM Exhibit 16-Z1) form.

If a DBE is decertified before completing its work, the DBE must notify the prime contractor in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify the prime contractor in writing of the certification date. The prime contractor shall submit the notifications. Upon work completion, the prime contractor shall complete a Disadvantaged Business Enterprises (DBE) Certification Status Change, Exhibit 17-O, form and submit the form within 30 days of contract acceptance.

Upon work completion, the prime contractor shall complete Exhibit 17-F Final Report – Utilization of

Disadvantage Business Enterprises (DBE), First-Tier Subcontractors and submit it within 90 days of contract acceptance. The Agency will withhold $10,000 until the form is submitted. The Agency releases the withhold upon submission of the completed form.

2. BID OPENING The Agency publicly opens and reads bids at the time and place shown on the Notice to Contractors.

3. BID RIGGING The U.S. Department of Transportation (DOT) provides a toll-free hotline to report bid rigging activities. Use the hotline to report bid rigging, bidder collusion, and other fraudulent activities. The hotline number is (800) 424-9071. The service is available 24 hours 7 days a week and is confidential and anonymous. The hotline is part of the DOT's effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General.

4. CONTRACT AWARD If the Agency awards the contract, the award is made to the lowest responsible and responsive bidder.

5. CONTRACTOR LICENSE

The Contractor must be properly licensed as a contractor from contract award through Contract acceptance (Public Contract Code § 10164).

6. CHANGED CONDITIONS

a. Differing Site Conditions

1. During the progress of the work, if subsurface or latent physical conditions are encountered at the site differing materially from those indicated in the contract or if unknown physical conditions of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the contract, are encountered at the site, the party discovering such conditions shall promptly notify the other party in writing of the specific differing conditions before the site is disturbed and before the affected work is performed.
2. Upon written notification, the engineer will investigate the conditions, and if it is determined that the conditions materially differ and cause an increase or decrease in the cost or time required for the performance of any work under the contract, an adjustment, excluding anticipated profits, will be made and the contract modified in writing accordingly. The engineer will notify the contractor of the determination whether or not an adjustment of the contract is warranted.
3. No contract adjustment which results in a benefit to the contractor will be allowed unless the contractor has provided the required written notice.
4. No contract adjustment will be allowed under this clause for any effects caused on unchanged work. (This provision may be omitted by the Local Agency, at their option.)

b. Suspensions of Work Ordered by the Engineer

1. If the performance of all or any portion of the work is suspended or delayed by the engineer in writing for an unreasonable period of time (not originally anticipated, customary, or inherent to the construction industry) and the contractor believes that additional compensation and/or contract time is due as a result of such suspension or delay, the contractor shall submit to the engineer in writing a request for adjustment within 7 calendar days of receipt of the notice to resume work. The request shall set forth the reasons and support for such adjustment.
2. Upon receipt, the engineer will evaluate the contractor's request. If the engineer agrees that the cost and/or time required for the performance of the contract has increased as a result of such suspension and the suspension was caused by conditions beyond the control of and not the fault of the contractor, its suppliers, or subcontractors at any approved tier, and not caused by weather, the engineer will make an adjustment (excluding profit) and modify the contract in writing accordingly. The contractor will be notified of the engineer's determination whether or not an adjustment of the contract is warranted.
3. No contract adjustment will be allowed unless the contractor has submitted the request for adjustment within the time prescribed.

4. No contract adjustment will be allowed under this clause to the extent that performance would have been suspended or delayed by any other cause, or for which an adjustment is provided or excluded under any other term or condition of this contract.

c. Significant Changes in the Character of Work

1. The engineer reserves the right to make, in writing, at any time during the work, such changes in quantities and such alterations in the work as are necessary to satisfactorily complete the project. Such changes in quantities and alterations shall not invalidate the contract nor release the surety, and the contractor agrees to perform the work as altered.
2. If the alterations or changes in quantities significantly change the character of the work under the contract, whether such alterations or changes are in themselves significant changes to the character of the work or by affecting other work cause such other work to become significantly different in character, an adjustment, excluding anticipated profit, will be made to the contract. The basis for the adjustment shall be agreed upon prior to the performance of the work. If a basis cannot be agreed upon, then an adjustment will be made either for or against the contractor in such amount as the engineer may determine to be fair and equitable.
3. If the alterations or changes in quantities do not significantly change the character of the work to be performed under the contract, the altered work will be paid for as provided elsewhere in the contract.
4. The term "significant change" shall be construed to apply only to the following circumstances:
   - When the character of the work as altered differs materially in kind or nature from that involved or included in the original proposed construction; or
   - When a major item of work, as defined elsewhere in the contract, is increased in excess of 125 percent or decreased below 75 percent of the original contract quantity. Any allowance for an increase in quantity shall apply only to that portion in excess of 125 percent of original contract item quantity, or in case of a decrease below 75 percent, to the actual amount of work performed.

7. BEGINNING OF WORK, TIME OF COMPLETION AND LIQUIDATED DAMAGES

The Contractor shall begin work within 15 calendar days after the issuance of the Notice to Proceed.

This work shall be diligently prosecuted to completion before the expiration of 20 WORKING DAYS beginning on the fifteenth calendar day after the date shown on the Notice to Proceed.

The Contractor shall pay to the City/County Stockton the sum **of $** 2,900 **per** day, for each and every calendar days' delay in finishing the work in excess of the number of working days prescribed above.

8. BUY AMERICA

Furnish steel and iron materials to be incorporated into the work with certificates of compliance and certified mill test reports. Mill test reports must indicate where the steel and iron were melted and manufactured. Steel and iron materials must be produced in the U.S. except:

1. Foreign pig iron and processed, pelletized, and reduced iron ore may be used in the domestic production of the steel and iron materials [60 Fed Reg 15478 (03/24/1995)];
2. If the total combined cost of the materials does not exceed the greater of 0.1 percent of the total bid or $2,500, materials produced outside the U.S. may be used.

Production includes:

1. Processing steel and iron materials, including smelting or other processes that alter the physical form or shape (such as rolling, extruding, machining, bending, grinding, and drilling) or chemical composition;
2. Coating application, including epoxy coating, galvanizing, and painting, that protects or enhances the value of steel and iron materials.

9. QUALITY ASSURANCE

The Local Agency uses a Quality Assurance Program (QAP) to ensure a material is produced to comply with the Contract. The Local Agency may examine the records and reports of tests the prime contractor performs if they are available at the job site. Schedule work to allow time for QAP.

10. PROMPT PAYMENT FROM THE AGENCY TO THE CONTRACTORS

The Agency shall make any progress payment within 30 days after receipt of an undisputed and properly submitted payment request from a contractor on a construction contract. If the Agency fails to pay promptly, the Agency shall pay interest to the contractor, which accrues at the rate of 10 percent per annum on the principal amount of a money judgment remaining unsatisfied. Upon receipt of a payment request, the Agency shall act in accordance with both of the following:

1. Each payment request shall be reviewed by the Agency as soon as practicable after receipt for the purpose of determining that it is a proper payment request.
2. Any payment request determined not to be a proper payment request suitable for payment shall be returned to the contractor as soon as practicable, but not later than seven (7) days, after receipt. A request returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the payment request is not proper.

11. FORM FHWA-1273 REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONTRACTS

(Excluding ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS)

12. DBE RUNNING TALLY OF ATTAINMENTS

After submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant shall complete and email the Exhibit 9- F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to the Agency.

[The following 12 pages must be physically inserted into the contract without modification.]

FHWA-1273 -- Revised May 1, 2012

REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONSTRUCTION CONTRACTS

I. General
II. Nondiscrimination
III. No segregated Facilities
IV. Davis-Bacon and Related Act Provisions
V. Contract Work Hours and Safety Standards Act Provisions
VI. Subletting or Assigning the Contract
VII. Safety: Accident Prevention
VIII. False Statements Concerning Highway Projects
IX. Implementation of Clean Air Act and Federal Water Pollution Control Act
X. Compliance with Government wide Suspension and Debarment Requirements
XI. Certification Regarding Use of Contract Funds for Lobbying

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under Title 23 (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract.

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding $10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

FHWA-1273 -- Revised May 1, 2012

2. EEO Officer: The contractor will designate and make known to the contracting officers and EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting and active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

FHWA-1273 -- Revised May 1, 2012

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.

b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women.

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

FHWA-1273 -- Revised May 1, 2012

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding $2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH–1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is utilized in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

FHWA-1273 -- Revised May 1, 2012

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g. , the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency.

(2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.

(4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

FHWA-1273 -- Revised May 1, 2012

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

FHWA-1273 -- Revised May 1, 2012

8. Compliance with Davis-Bacon and Related Actrequirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or theirrepresentatives.

10. Certification of eligibility.

a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR5.12(a)(1).

c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of $100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth inparagraph(1.) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated damages. The FHWA or the contacting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contractprice before computing the amount of work required to be performed by the contractor's own organization (23 CFR635.116).

a. The term “perform work with its own organization” refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting allrelevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
(2) the prime contractor remains responsible for the quality ofthe work of the leased employees;
(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submissionof payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.

5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.
2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

FHWA-1273 -- Revised May 1, 2012

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost $25,000 or more – as defined in 2 CFR Parts 180 and 1200.

1. Instructions for Certification – First Tier Participants:

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. “First Tier Covered Transactions” refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

* * *

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

FHWA-1273 -- Revised May 1, 2012

2. Instructions for Certification - Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200)

a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. “First Tier Covered Transactions” refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

* * * * *

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

* * * * *

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed $100,000 (49 CFR 20).

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

   a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

   b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed information of participant is not required to exceed that which is $100,000 and that all such recipients shall certify and disclose accordingly.

13. FEMALE AND MINORITY GOALS

To comply with Section II, "Nondiscrimination," of "Required Contract Provisions Federal-Aid Construction Contracts," the following are for female and minority utilization goals for Federal-aid construction contracts and subcontracts that exceed $10,000:

The nationwide goal for female utilization is 6.9 percent.

The goals for minority utilization [45 Fed Reg 65984 (10/3/1980)] are as follows:

MINORITY UTILIZATION GOALS

Economic Area		Goal (Percent)
174	Redding CA: Non-SMSA (Standard Metropolitan Statistical Area) Counties: CA Lassen; CA Modoc; CA Plumas; CA Shasta; CA Siskiyou; CA Tehama	6.8
175	Eureka, CA Non-SMSA Counties: CA Del Norte; CA Humboldt; CA Trinity	6.6
176	San Francisco-Oakland-San Jose, CA: SMSA Counties: 7120 Salinas-Seaside-Monterey, CA CA Monterey 7360 San Francisco-Oakland CA Alameda; CA Contra Costa; CA Marin; CA San Francisco; CA San Mateo 7400 San Jose, CA CA Santa Clara, CA 7485 Santa Cruz, CA CA Santa Cruz 7500 Santa Rosa CA Sonoma 8720 Vallejo-Fairfield-Napa, CA CA Napa; CA Solano Non-SMSA Counties: CA Lake; CA Mendocino; CA San Benito	28.9 25.6 19.6 14.9 9.1 17.1 23.2

For the last full week of July during which work is performed under the contract, the prime contractor and each non material-supplier subcontractor with a subcontract of $10,000 or more must complete Form FHWA PR-1391 (Appendix C to 23 CFR 230). Submit the forms by August 15.

14. TITLE VI ASSURANCES

During the performance of this Agreement, the contractor, for itself, its assignees and successors in interest (hereinafter collectively referred to as CONTRACTOR) agrees as follows:

a. Compliance with Regulations: CONTRACTOR shall comply with the regulations relative to nondiscrimination in federally assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the REGULATIONS), which are herein incorporated by reference and made a part of this agreement.

b. Nondiscrimination: CONTRACTOR, with regard to the work performed by it during the AGREEMENT, shall not discriminate on the grounds of race, color, sex, national origin, religion, age, or disability in the selection and retention of sub-applicants, including procurements of materials and leases of equipment. CONTRACTOR shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the agreement covers a program set forth in Appendix B of the Regulations.

c. Solicitations for Sub-agreements, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by CONTRACTOR for work to be performed under a Sub- agreement, including procurements of materials or leases of equipment, each potential sub-applicant or supplier shall be notified by CONTRACTOR of the CONTRACTOR'S obligations under this Agreement and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.

d. Information and Reports: CONTRACTOR shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the California Department of Transportation or FHWA to be pertinent to ascertain compliance with such

Regulations or directives. Where any information required of CONTRACTOR is in the exclusive possession of another who fails or refuses to furnish this information, CONTRACTOR shall so certify to the California Department of Transportation or the FHWA as appropriate, and shall set forth what efforts CONTRACTOR has made to obtain the information.

e. Sanctions for Noncompliance: In the event of CONTRACTOR's noncompliance with the nondiscrimination provisions of this agreement, the California Department of Transportation shall impose such agreement sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:
   i. withholding of payments to CONTRACTOR under the Agreement within a reasonable period of time, not to exceed 90 days; and/or
   ii. cancellation, termination or suspension of the Agreement, in whole or in part.

f. Incorporation of Provisions: CONTRACTOR shall include the provisions of paragraphs (1) through (6) in every sub-agreement, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto.

CONTRACTOR shall take such action with respect to any sub-agreement or procurement as the California Department of Transportation or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a sub-applicant or supplier as a result of such direction, CONTRACTOR may request the California Department of Transportation enter into such litigation to protect the interests of the State, and, in addition, CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

15. USE OF UNITED STATES-FLAG VESSELS (CARGO PREFERENCE ACT)

The CONTRACTOR agrees-

1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carries, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.
2. To Furnish within 20 days following the date of loading for shipments originating within the United State or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated "on-board" commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.
3. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

Federal Trainee Program Special Provisions
(to be used when applicable)

16. FEDERAL TRAINEE PROGRAM

For the Federal training program, the number of trainees orapprentices is zero.

This section applies if a number of trainees or apprentices is specified in the special provisions.

As part of the prime contractor's equal opportunity affirmative action program, provide on-the-job training to develop full journeymen in the types of trades or job classifications involved.

The prime contractor has primary responsibility for meeting this training requirement.

If the prime contractor subcontracts a contract part, they shall determine how many trainees or apprentices are to be trained by the subcontractor. Include these training requirements in each subcontract.

Where feasible, 25 percent of apprentices or trainees in each occupation must be in their 1st year of apprenticeship or training.

Distribute the number of apprentices or trainees among the work classifications on the basis of the prime contractor's needs and the availability of journeymen in the various classifications within a reasonable recruitment area.

Before starting work, the prime contractor shall submit to the City/County of Stockton :

1. Number of apprentices or trainees to be trained for each classification
2. Training program to be used
3. Training starting date for each classification

The prime contractor shall obtain the City/County of Stockton approval for this submitted information before the prime contractor starts work. The City/County of Stockton credits the prime contractor for each apprentice or trainee the prime contractor employs on the job who is currently enrolled or becomes enrolled in an approved program.

The primary objective of this section is to train and upgrade minorities and women toward journeyman status. The prime contractor shall make every effort to enroll minority and women apprentices or trainees, such as conducting systematic and direct recruitment through public and private sources likely to yield minority and women apprentices or trainees, to the extent they are available within a reasonable recruitment area and show that they have made the efforts. In making these efforts, the prime contractor shall not discriminate against any applicant for training.

The prime contractor shall not employ as an apprentice or trainee an employee:

1. In any classification in which the employee has successfully completed a training course leading to journeyman status or in which the employee has been employed as a journeyman
2. Who is not registered in a program approved by the US Department of Labor, Bureau of Apprenticeship and Training

The prime contractor shall ask the employee if the employee has successfully completed a training course leading to journeyman status or has been employed as a journeyman. The prime contractor's records must show the employee's answers to the questions.

In the training program, the prime contractor shall establish the minimum length and training type for each classification. The City/County of Stockton and FHWA approves a program if one of the following is met:

1. It is calculated to:
   - Meet the your equal employment opportunity responsibilities
   - Qualify the average apprentice or trainee for journeyman status in the classification involved by the end of the training period
2. It is registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, and it is administered in a way consistent with the equal employment responsibilities of Federal-aid highway construction contracts

The prime contractor shall obtain the State's approval for their training program before they start work involving the classification covered by the program.

The prime contractor shall provide training in the construction crafts, not in clerk-typist or secretarial-type positions. Training is allowed in lower level management positions such as office engineers, estimators, and timekeepers if the training is oriented toward construction applications. Training is allowed in the laborer classification if significant and meaningful training is provided and approved by the division office. Off-site training is allowed if the training is an integral part of an approved training program and does not make up a significant part of the overall training.

The City/County of Stockton reimburses the prime contractor 80 cents per hour of training given an employee on this contract under an approved training program:

1. For on-site training
2. For off-site training if the apprentice or trainee is currently employed on a Federal-aid project and prime contractor does at least one of the following:
    a. Contribute to the cost of the training
    b. Provide the instruction to the apprentice or trainee
    c. Pay the apprentice's or trainee's wages during the off-site training period
3. If the prime contractor complies with this section.

Each apprentice or trainee must:

1. Begin training on the project as soon as feasible after the start of work involving the apprentice's or trainee's skill
2. Remain on the project as long as training opportunities exist in the apprentice's or trainee's work classification or until the apprentice or trainee has completed the training program

The prime contractor shall furnish the apprentice or trainee with a copy of the program that the prime contractor will comply with in providing the training

Appendix E of the Title VI Assurances

(US DOT Order 1050.2A)

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following nondiscrimination statutes and authorities; including but not limited to:

Pertinent Nondiscrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 U.S.C. § 4 71, Section 4 7123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, subrecipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;

- The Federal Aviation Administration's Nondiscrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

BOND FOR FAITHFUL PERFORMANCE

KNOW ALL MEN BY THESE PRESENTS:

That we, **CONSTRUCTION H, INC.,** a **STATE OF CA CORPORATION**, as Principal and _____, a corporation, organized and existing under the laws of the State of _____and duly authorized to transact business under the laws of the State of California, as Surety, are held and firmly bound unto the City of Stockton, a municipal corporation, duly created and existing under and by virtue of the laws of the State of California, as obligee, in the just and full sum of TWO HUNDRED FORTY FIVE THOUSAND NINE HUNDRED FORTY SIX AND xx/100 DOLLARS ($245,946.00), in lawful money of the United States of America (being 100% of the contract price) for the payment whereof well and truly to be made to the said CITY, the said Principal and Surety bind themselves, their successors and assigns, jointly and severally, firmly by these presents.

The condition of the foregoing obligation is such that the above bounded Principal has simultaneously entered into a contract with the CITY, to do and perform the following work, to wit:

RECTANGULAR RAPID FLASHING BEACON INSTALLATION

File #: 22-0401, **Version:** 1

APPROVE MOTION TO AWARD A SERVICE CONTRACT FOR CITY OF STOCKTON CUSTODIAL SERVICES

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Award a multi-year Service Contract through June 30, 2027, in the amount not to exceed $5,147,404.59, to Imperial Maintenance Services, Inc. of Stockton, CA, for City of Stockton Custodial Services, Project No. OM-22-005.

2. Authorize the City Manager to execute two optional one-year extensions to this Service Contract upon completion of the original term, in the amount not to exceed $2,275,148.40, for a total amount of $7,422,552.99.

3. Approve findings pursuant to Stockton Municipal Code section 3.68.070 in support of an exception to the competitive bidding process.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this motion.

Summary

The City contracts for routine and special custodial services for 22 City facilities. The existing Service Contract with JaniTek Cleaning Solutions, Inc. expires on June 30, 2022, with no allowance for further extension.

On December 15, 2021, the City advertised a Request for Proposals (RFP) for City of Stockton Custodial Services, Project No. OM-22-005. Six firms submitted proposals for this project. The Selection Committee evaluated the proposals and found Imperial Maintenance Services, Inc. of Stockton, CA, to be the most qualified and highest ranked firm.

It is recommended that Council approve a motion authorizing the City Manager to execute a multi-year Service Contract in the amount not to exceed $5,147,404.59 with Imperial Maintenance Services, Inc. (Attachment A). Contracted services will begin July 1, 2022, and expire June 30, 2027, with the option of two one-year extensions at the same rate structure. With the optional extensions, the total contract amount is $7,422,552.99. The contract will be funded from Public Works, Community Services, Municipal Utilities, Police, Fire, and Municipal Utilities Departments' Operating Budgets.

DISCUSSION

Background

Public Works is responsible for custodial services at various City facilities. City staff provides these services at City Hall and Police facilities. The City does not have the staff resources to provide custodial services at all other City facilities.

The City contracts for custodial services at the following 22 facilities that are not serviced by City staff:

- 400 E. Main Street
- Animal Shelter
- Stewart-Eberhardt Building
- Arnold Rue Community Center
- Emergency Operations Center
- McKinley Community Center
- Oak Park Senior Center
- Siefert Community Center
- Stribley Community Center
- Van Buskirk Community Center
- Corporation Yard
- Merlo Gym
- Cesar Chavez Library
- Fair Oaks Library
- Linden Library
- Margaret Troke Library
- Maya Angelou Library
- Thornton Library
- Municipal Utilities Delta Water Treatment Plant
- Municipal Utilities Water Field Office
- Municipal Utilities Wastewater Plant
- Permit Center

Custodial services for park restrooms are not included, as they are covered in a separate contract with Brightview Landscape Services, Inc. for park maintenance.

On January 24, 2017, by Motion No. 2017-01-24-1205, Council approved a Service Contract with JaniTek Cleaning Solutions, Inc. for City of Stockton Custodial Services, Project No. OM-16-057. The Service Contract, in the amount of $498,000 annually, was for custodial services for a three-year term, which began May 1, 2017, with the option of two one-year extensions. The final contract extension with JaniTek Cleaning Solutions expires on June 30, 2022.

Present Situation

On December 15, 2021, the City advertised an RFP for City of Stockton Custodial Services, Project No. OM-22-005. On January 5, 2022, a mandatory bid orientation meeting was held. On January 20, 2022, six proposals were received from the following:

- Imperial Maintenance Services, Inc. (Stockton, CA)
- JaniTek Cleaning Solutions, Inc. (Stockton, CA)
- Consolidated Facility Services, LLC (Sacramento, CA)
- Vanguard Cleaning Systems (Lathrop, CA)
- Premier Property Preservation (Los Angeles, CA)
- Margaritas House Cleaning and Janitorial Services, Inc. (Tracy, CA)

A Selection Committee comprised of Public Works, Community Services, and Municipal Utilities Departments staff evaluated and ranked all proposals based on each firm's experience, staff qualifications, quality control, communication, referrals, and cost proposal. Imperial Maintenance Services, Inc. received the highest ranking based on the noted criteria and was determined to be the most qualified firm for this project.

The RFP allowed an option for vendors to include supplying custodial materials with their proposals. Staff negotiated a fee with Imperial Maintenance Services, Inc. in the amount of $971,284.00 for Fiscal Year 2022-23 to provide both custodial services and supply materials at each facility. Imperial Maintenance Services' fee to supply materials is comparable to the City's current expenditures to furnish the products. The contract also provides for an annual fee increase based on Consumer Price Index (CPI) for similar local services in accordance with the Bureau of Labor Statistics and not to exceed three percent in any year.

Findings

Pursuant to Stockton Municipal Code (SMC) section 3.68.070, Council may approve findings which support an exception to the competitive bidding process. These findings include:

1. The City does not have staffing available to perform all the City's custodial service needs.

2. Use of the RFP process is appropriate for this Service Contract because it relies on the evaluation of professional qualifications and performance as the basis for selection of a vendor. Use of the criteria helps ensure selection of a vendor that will provide the highest quality professional service which is in the public interest.

3. The City negotiated a contract following solicitation of competitive proposals in accordance with SMC section 3.68.070.A.3.

The recommended motion will approve a multi-year Service Contract, not to exceed $5,147,404.59 with Imperial Maintenance Services, Inc. for City of Stockton Custodial Services, Project No. OM-22-005. The Service Contract will begin on July 1, 2022, and expire on June 30, 2027, with the option for two one-year extensions by mutual agreement. With the extensions, the total not to exceed contract amount is $7,422,552.99.

FINANCIAL SUMMARY

The Service Contract with Imperial Maintenance Services, Inc. for City of Stockton Custodial Services, Project No. OM-22-005 is funded from various City department operating accounts and is encumbered on a fiscal year basis.

The funding for these services has been allocated in the various operating budgets (Attachment B) for FY 2022-23. The annual cost includes $30,000.00 in contingencies to cover possible emergency and one-time services, additional monthly services or consumables for existing facilities, and facilities not currently covered in the service contract. Contingency services and consumables will be charged to the respective account as needed. The funding for all future fiscal years will be allocated during the annual budget process.

The overall contract increase from the current provider in FY 2022-23 is 38% ($266,000), including the $30,000 contingency for items previously discussed. The greatest impact, dollar for dollar, will be to the General Fund as the majority of the costs reside in Public Works' operating budget, which holds 65% of total contract expenditures.

Attachment A - Service Contract with Imperial Maintenance Services, Inc.
Attachment B - Financial Breakdown with Baseline Contract
Attachment C - Financial Breakdown with Optional Contract Extensions

CONTRACT FOR SERVICES

THIS CONTRACT is entered into this __day of _____ 2022 between the CITY OF STOCKTON, a municipal corporation ("CITY), and **IMPERIAL MAINTENANCE SERVICES, INC.** a **STATE OF CALIFORNIA CORPORATION,** with a business address at **8830 CHERRY HILLS PLACE, STOCKTON CA 95209**, hereinafter called "CONTRACTOR.," THIS CONTRACT is for the **IMPERIAL MAINTENANCE SERVICES FOR THE CITY OF STOCKTON CUSTODIAL SERVICES (PROJECT NO. OM-22-005)**, hereinafter referred to as "SERVICE".

RECITALS

A. CONTRACTOR represents that it is licensed in the State of California and is qualified, willing and able to provide the services proposed in the SCOPE OF WORK section of this Contract.

B. CONTRACTOR represents that it is registered pursuant to Labor Code Section 1725.5 and will register annually with the Department of Industrial Relations, if the services have a wage determination for the services outlined in the SCOPE OF WORK section of this Contract.

C. CONTRACTOR represents that it will pay all required prevailing wages under California Labor Code for all services provided that have a wage determination.

D. CITY finds it necessary and advisable to use the services of the CONTRACTOR for the purposes provided in this Contract.

NOW THEREFORE, in consideration of the mutual promises, covenants and conditions in this Contract, CITY and CONTRACTOR agree as follows:

1. SCOPE OF SERVICES. Subject to the terms and conditions set forth in this Contract, CONTRACTOR shall undertake and complete the services described in **Exhibit A (scope and specifications)**. CONTRACTOR shall provide said services at the time, place, and in the manner specified in **Exhibit A** and compatible with the standards of the profession. CONTRACTOR agrees that it shall provide fully complete services including all labor, materials, tools, equipment and insurance required and that are acceptable to the CITY.

2. COMPENSATION. CITY shall pay CONTRACTOR for services outlined in **Exhibit A** according to the fee not to exceed the schedule detailed in **Exhibit B (fee schedule)**, which is attached to this Contract and incorporated by this reference. CONTRACTOR agrees this fee is for full remuneration for performing all services and furnishing all staffing, materials and tools called for in the scope of services. The payments shall be made on a monthly basis upon receipt and approval of CONTRACTOR'S invoice for completed work. Total compensation for services and

reimbursement for costs shall not exceed **$5,147,404.59** or as otherwise mutually agreed to in a Contract Change Order.

Pursuant to Section 22300 of the Public Contract Code, CONTRACTOR will be permitted, at its request and sole expense, to substitute securities for any monies withheld by the CITY to ensure performance under the contract. Said securities will be deposited either with the CITY or with a State or federally chartered bank as escrow agent. Securities eligible for this substitution are those listed in Section 16430 of the California Government Code or bank or savings and loan certificates of deposit. CONTRACTOR shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

a. Invoices submitted by CONTRACTOR to CITY must contain a brief description of work performed, location of work, time used, materials and special equipment and City project number. Payment shall be made within thirty (30) days of approval of invoice by City.

b. Upon completion of work and acceptance by CITY, CONTRACTOR shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by CITY upon receiving a written request thirty (30) days in advance of said time limitation. CITY shall have no obligation or liability to pay any invoice for work performed which CONTRACTOR fails or neglects to submit within sixty (60) days, or any extension thereof granted by the CITY, after work is accepted by CITY.

3. INSURANCE. During the term of this Contract, CONTRACTOR shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached **Exhibit C (Insurance Requirements and Forms)** which is attached to this contract and incorporated by this reference, and shall otherwise comply with the other provisions of **Exhibit C**. Maintenance of proper insurance coverage is a material element of this contract and that failure to maintain or renew coverage or to provide evidence of renewal may be treated as a material breach of contract.

CONTRACTOR shall not commence any work before obtaining, and shall maintain in force at all times during the duration and performance of this contract, the policies of insurance specified in **Exhibit C**, which is attached to this contract and incorporated by this reference, and as provided in the “contract documents” including Section 7-1.06 of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any insurance

policy or proceeds available to the named Insured; whichever is greater.

The Additional Insured coverage under the CONTRACTOR's policy shall be "primary and non-contributory" and will not seek contribution from the City of Stockton's insurance or self-insurance and shall be at least as broad as ISO CG 20 01 04 13.

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Stockton (if agreed to in a written contract or agreement) before the City of Stockton's own insurance or self-insurance shall be called upon to protect it as a named insured.

All self-insured retentions (SIR) must be disclosed to the CITY's Risk Management for approval and shall not reduce the limits of liability. Payment Bond in the amount of the self-insured retention (SIR) may be required.

Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or the CITY.

The CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

CONTRACTOR shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the CITY at its sole discretion may purchase the coverage required and the cost will be paid by CONTRACTOR.

CONTRACTOR agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by CONTRACTOR agree to be bound to CONTRACTOR and the CITY in the same manner and to the same extent as CONTRACTOR is bound to the CITY under the Contract Documents. CONTRACTOR further agrees to include these same provisions with any subcontractor regardless of tier. A copy of the CITY Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The CONTRACTOR shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the agreement prior to commencement of any work and contractor will provide proof of compliance to the CITY.

4. INDEMNITY AND HOLD HARMLESS. With the exception that this section shall in no event be construed to require indemnification by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, CONTRACTOR shall indemnify, protect, defend with counsel approved by CITY and at CONTRACTOR'S

sole cost and expense, and hold harmless CITY, its Mayor, Council, officials, representatives, agents, employees, and volunteers from and against any and all claims, causes of action, liabilities, judgments, awards, losses, liens, claims, stop notices, damages, expenses, and costs (including without limitation attorneys' fees, expert and consultant fees, and other expenses of litigation) of every nature, including, but not limited to, death or injury to persons, or damage to property, which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement, or from any violation of any federal, State, or municipal law or ordinance, or City Policy, by CONTRACTOR or CONTRACTOR'S officers, agents, employees, volunteers or subcontractors. CONTRACTOR shall not be obligated to indemnify or defend CITY for claims finally determined by a court of law or arbitrator to arise from the active negligence or willful misconduct of the CITY. It is the intent of the Parties that this indemnity obligation is at least as broad as is permitted under California law. To the extent California Civil Code sections 2782, et seq., limit the defense or indemnity obligations of CONTRACTOR to CITY, the intent hereunder is to provide the maximum defense and indemnity obligations allowed by CONTRACTOR under the law. The indemnity set forth in this section shall not be limited by insurance requirements or by any other provision of this Agreement.

With exception that this section shall in no event be construed to require indemnification, including the duty to defend, by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, the parties agree that CONTRACTOR'S duty to defend CITY is immediate and arises upon the filing of any claim against the CITY for damages which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement by CONTRACTOR or CONTRACTOR'S officers, agents, employees, volunteers or subcontractors. CONTRACTOR'S duties and obligations to defend the CITY shall apply regardless of whether or not the issue of the CITYS liability, breach of this Agreement, or other obligation or fault has been determined. CONTRACTOR shall be immediately obligated to pay for CITY'S defense costs of the claim, including, but not limited to, court costs, attorney's fees and costs, expert consultant and witness fees and costs, other witness fees, document reproduction costs, arbitration fees, and, if after final judgment an appeal is pursued, all of such costs for the appeal. At the conclusion of the claim, if there is any determination or finding of sole active negligence or willful misconduct on the part of the CITY, CITY will then reimburse CONTRACTOR for amounts paid in excess of CONTRACTOR'S proportionate share of responsibility for the damages within 30 days after CONTRACTOR provides CITY with copies of all bills and expenses incurred in the defense of the claim(s). It is agreed between the parties that this reimbursement provision assures CONTRACTOR is not obligated to defend or indemnify CITY in an amount greater than provided for under California law, including, without limitation, California Civil Code sections 2782, 2782.6, and 2782.8.

With the exception that this section shall in no event be construed to require indemnification by CONTRACTOR to a greater extent than permitted under the public policy of the State of California, and in addition to the other indemnity obligations in this Agreement, CONTRACTOR shall indemnify, defend, and hold harmless CITY, its Mayor,

Council, officials, representatives, agents employees and volunteers from and against all claims, losses, expenses, and costs including, but not limited to attorneys' fees, arising out of any claim brought against the CITY by an employee, office, agent, or volunteer of CONTRACTOR, regardless of whether such claim may be covered by any applicable workers compensation insurance. CONTRACTOR'S indemnification obligation is not limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the CONTRACTOR under workers' compensation acts, disability acts, or other employee benefit acts.

CONTRACTOR'S obligation to defend, indemnify, and hold the CITY, its agents, officers, and employees harmless under the provisions of this paragraph is not limited to or restricted by any requirement in this Contract for CONTRACTOR to procure and maintain a policy of insurance.

CONTRACTOR/Subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this agreement for the full period of time allowed by law.

If any section, subsection, sentence, clause or phrase of this indemnification is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this indemnification.

5. SCHEDULE AND TERM. CONTRACTOR shall perform the scope of work as described in **Exhibit A** according to the schedule detailed in **Exhibit A,** which is attached to this Contract and incorporated by this reference. This contract shall commence on the date written above and shall expire on **June 30, 2027**, unless extended by mutual agreement through the issuance of a Contract Change Order. This contract provides for two (2), one (1) year extensions at the same rates and terms as outlined in **Exhibit A** and **Exhibit B.**

6. CONFORMANCE TO APPLICABLE LAWS. CONTRACTOR shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances.

a. TITLE VI

Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d) http://www.dol.gov/oasam/regs/statutes/titlevi.htm.

The City of Stockton requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

b. DISCRIMINATION AND HARASSMENT POLICY

The City of Stockton has a Discrimination and Harassment Policy **(Exhibit D)**. The purpose of this policy is to reaffirm the CITY's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace, to define the types of behavior and conduct prohibited by this policy, and to set forth a procedure for reporting, investigating, and resolving complaints of discrimination and harassment in the workplace.

c. LABOR STANDARDS PROVISIONS/CALIFORNIA LABOR CODE

The bidder shall understand that conditions set forth in Chapter 1, Part 7, Division 2 of the California Labor Code shall be considered part of the contract agreement. https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=LAB&division=2.&title=&part=7.&chapter=1.&article=2.

d. PREVAILING WAGE

CONTRACTOR and any subcontractor shall pay each employee engaged in the trade or occupation not less than the prevailing hourly wage rate. In accordance with the provisions of Section 1770 of the Labor Code, the Director of Department of Industrial Relations of the State of California has determined the general prevailing raand employer payments for health and welfare, pension, vacation, travel time, and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs authorized by Section 3093 and similar purposes applicable to the work to be done. CONTRACTOR performing the work under this contract shall obtain a copy of the wage rate determination and shall distribute copies to each subcontractor. As the wage determination for each craft reflects an expiration date, it shall be the prime CONTRACTOR and each subcontractor's responsibility to insure that the prevailing wage rates of concern is current and paid to the employee.

i. The CONTRACTOR performing the work shall be responsible for obtaining a copy of the State wage rate determination. State wage rates may be obtained at http://www.dir.ca.gov/OPRL/pwd/Determinations/Northern/Northern.pdf. The CONTRACTOR shall be responsible for posting said wage rates at a prominent location at the work site and shall maintain same in a good readable condition for the duration of the work.

ii. Should the CONTRACTOR choose to work on a Saturday, Sunday or on a holiday recognized by the Labor Unions, the CONTRACTOR shall reimburse the CITY the actual cost of engineering, inspection, superintendence, and or other overhead expenses which are directly

chargeable to the contract. Should such work be undertaken at the request of the CITY, reimbursement will not be required. To conform strictly with the provisions of Division 2, Part 7, Chapter 1, Article 2, of the Labor Code of the State of California. To forfeit as a penalty to CITY the sum of TWENTY FIVE AND NO/100 DOLLARS ($25.00) for each laborer, worker, or mechanic employed by CONTRACTOR, or by any subcontractor under CONTRACTOR, in the execution of this contract, for each calendar day during which any laborer, worker, or mechanic is required or permitted to work more than eight (8) hours and who is not paid the general prevailing rate of per diem wages for holiday and overtime work in violation of the provisions of Sections 1770 to 1781 of the Labor Code of the State of California. That all sums forfeited under the provisions of the foregoing sections shall be deducted from the payments to be made under the terms of this contract.

iii. The CONTRACTOR to whom the contract is awarded shall insure that the prime and each subcontractor will in accordance with Section 1776 of the Labor Code, maintain certified payroll records. A copy of said records shall be provided with each invoice to the Public Works Department, Attention Contract Compliance Officer. It shall be the CONTRACTOR'S responsibility to obtain copies of the current prevailing wage rate determination for all subcontractors. Additionally, certified payroll records must be uploaded to the DIR website as required by labor code.

iv. The CONTRACTOR shall comply with the provisions established in Section 1777.5 of the Labor Code concerning the 1) certified approval by local joint apprenticeship committees for the employment and training of apprentices, and 2) contribution of funds to administer and conduct apprenticeship programs, if applicable to the job.

e. LOCAL EMPLOYMENT ORDINANCE

Pursuant to Stockton Municipal Code Section 3.68.095 the CONTRACTOR and all subcontractors shall make a good faith effort to employ at least 50 percent of the workforce on this project from local residents, as measured by total labor work hours. Failure of any CONTRACTOR or subcontractor to comply with these requirements shall be deemed a material breach of the contract or subcontract. CONTRACTORS and subcontractors shall maintain records necessary for monitoring their compliance with section 3.68.095.

7. CHANGE ORDERS. CITY reserves the right to make such alterations, deviations, additions to or omissions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work, as may be deemed

by the Project Manager to be necessary or advisable and to require such extra work as may be determined by the Project Manager to be required for the proper completion of the whole work contemplated.

Any such changes will be set forth in a contract change order which will specify, in addition to the work done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for such work. A contract change order will not become effective until approved by the City Manager and/or the City Council.

8. RIGHTS AND DUTIES OF CITY. CITY shall make available to CONTRACTOR all data and information in the possession of CITY which both parties deem necessary to complete the work, and CITY shall actively aid and assist CONTRACTOR in obtaining such information as may be deemed necessary from other agencies and individuals.

9. OBLIGATIONS OF CONTRACTOR. Throughout the term of this Contract, CONTRACTOR represents and warrants that it has or will have at the time this Contract is executed, all licenses, permits, qualifications, insurance, and approvals of whatsoever nature which are legally required for the CONTRACTOR to practice its professions, and CONTRACTOR shall, at its own cost and expense, keep in effect during the life of this Contract all such licenses, permits, qualifications, insurance, and approvals CONTRACTOR shall meet with the Public Works Director or other personnel of CITY or third parties as necessary on all matters connected with the carrying out of CONTRACTOR'S services. Such meetings shall be held at the request of either party hereto. CONTRACTOR further warrants that it will follow the best current, generally accepted and professional practices to make findings, render opinions, prepare factual presentations, and provide professional advice and recommendations regarding this project.

10. TERMINATION. This Agreement is effective on the Effective Date. The City may terminate this Contract and work pursuant to any of all scope of works at any time by mailing a notice in writing to Contractor. The Contract shall then be deemed terminated and no further work shall be performed by Contractor. If the Contract is so terminated, the Contractor shall be paid for that percentage of work actually completed at the time the notice of termination is received.

11. CONTRACTOR STATUS. In performing the obligations set forth in this Contract, CONTRACTOR shall have the status of an independent contractor and CONTRACTOR shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of CONTRACTOR are its agents and employees, and are not agents of the CITY. Subcontractors shall not be recognized as having any direct or contractual relationship with the CITY. The persons engaged in the work, including employees of subcontractors and suppliers, will be considered employees of CONTRACTOR. The CONTRACTOR shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Contract. The

CONTRACTOR is responsible to the CITY for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

a. If in the performance of this Contract any third persons are employed by CONTRACTOR, such persons shall be entirely and exclusively under the direction, supervision, and control of CONTRACTOR. All terms of employment including hours, wages, working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by CONTRACTOR.

i. It is further understood and agreed that CONTRACTOR must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of CONTRACTOR'S personnel.

ii. As an independent contractor, CONTRACTOR hereby indemnifies and holds CITY harmless from any and all claims that may be made against the CITY based upon any contention by any third party that employer-employee relationship exists by reason of this Contract.

12. ASSIGNMENT. CONTRACTOR shall not assign, sublet, or transfer this Contract or any interest or obligation in the Contract without the prior written consent of the CITY, and then only upon such terms and conditions as CITY may set forth in writing. CONTRACTOR shall be solely responsible for reimbursing subcontractors.

13. HEADINGS NOT CONTROLLING. Headings used in the Contract are for reference purposes only and shall not be considered in construing this Contract.

14. NOTICES. Any and all notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed as follows:

To CONTRACTOR: Imperial Maintenance Services, Inc.
8830 Cherry Hills Place
Stockton, CA 95209

To City: Public Works Director
City of Stockton
22 E. Weber Ave.,
Rm. 301
Stockton, CA 95202

15. LICENSES, CERTIFICATIONS, AND PERMITS. Prior to the CITY'S execution of this Contract and prior to the CONTRACTOR engaging in any operation or activity set forth in this Contract, CONTRACTOR shall obtain a City of Stockton business license, which must be kept in effect during the term of this Contract. CONTRACTOR covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Contract.

16. RECORDS AND AUDITS. CITY reserves the right to periodically audit all charges made by CONTRACTOR to CITY for services under this Contract. Upon

request, CONTRACTOR agrees to furnish CITY, or a designated representative, with necessary information and assistance.

CONTRACTOR agrees that CITY or its delegate shall have the right to review, obtain, and copy all records pertaining to performance of the Contract. CONTRACTOR agrees to provide CITY or its delegate with any relevant information requested, and shall permit CITY or its delegate access to its premises, upon reasonable notice, during normal business hours for the purpose of interviewing employees and inspecting and copying such books, records, accounts, and other material that may be relevant to a matter under investigation for the purposes of determining compliance with this Contract. CONTRACTOR agrees to maintain such records for a period of three years from the date that final payment is made.

17. CONFIDENTIALITY. CONTRACTOR shall exercise reasonable precautions to prevent the unauthorized disclosure and use of CITY'S reports, information, or conclusions.

18. CONFLICTS OF INTEREST. CONTRACTOR covenants that other than this Contract, CONTRACTOR has no financial interest with any official, employee, or other representative of the CITY. CONTRACTOR and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner or degree by the performance of CONTRACTOR'S services under this Contract. If such an interest arises, CONTRACTOR will immediately notify CITY.

19. WAIVER. In the event either CITY or CONTRACTOR at any time waive any breach of this Contract by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Contract, whether of the same or of any other covenant, condition, or obligation.

20. GOVERNING LAW. California law shall govern any legal action pursuant to this Contract with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the federal District Court of California, Eastern District, Sacramento Division.

21. DISPUTE RESOLUTION. Prior to undertaking any litigation, the Parties shall make reasonable efforts to resolve all disputes informally, including by means of a conference between senior managers of each Party having authority to resolve the dispute.

1. Venue
   Any controversy or claim between the Parties shall be determined with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the federal District Court of California, Eastern District, Sacramento Division.

2. If any litigation action or proceeding is commenced in connection with this Agreement, the prevailing Party, as determined by the court, shall be entitled to reasonable attorneys' fees (including allocated costs for in-house legal services), costs and necessary disbursements incurred in such action or proceeding.

22. NO PERSONAL LIABILITY. No official or employee of CITY shall be personally liable to CONTRACTOR in the event of any default or breach by CITY or for any amount due CONTRACTOR.

23. INTEGRATION AND MODIFICATION. The response by CONTRACTOR to the Request for Proposals or Qualifications and the Request for Proposals or Qualifications on file with the CITY are hereby incorporated herein by reference to the extent that such documents do not differ from the provisions and terms of this Contract that shall supersede such response to Request for Proposals or Qualifications. This Contract represents the entire integrated agreement between CONTRACTOR and CITY, supersedes all prior negotiations, representations, or agreements, either written or oral, between the parties, and may be amended only by written instrument signed by CONTRACTOR and CITY. All exhibits and this contract are intended to be construed as a single document. Should any inconsistency occur between the specific terms of this Contract and the attached exhibits, the terms of this Contract will prevail.

24. SEVERABILITY. The provisions of this Contract are severable to the extent that should any of its provisions or terms be declared void in whole or in part by operation of law or agreement of the parties, the remainder of the provisions or terms not expressly declared void shall remain enforceable and in full effect.

25. THIRD PARTY RIGHTS. Nothing in this Contract shall be construed to give any rights or benefits to anyone other than CITY and CONTRACTOR.

CITY OF STOCKTON

REQUEST FOR PROPOSALS
FOR
CUSTODIAL SERVICES
PROJECT NO. OM-22-005

Issued by:

City of Stockton

Public Works Department, Operations and Maintenance

1465 South Lincoln Street

Stockton, CA 95206

Date Issued: December 15, 2021

Date Proposals Due: Thursday, January 13, 2022, by 3:00 pm

LATE SUBMITTALS WILL NOT BE ACCEPTED

1.0 INTRODUCTION

The City of Stockton (City) is seeking proposals from qualified janitorial firms (Contractor) to provide custodial services at various City facilities. Service locations include City administrative buildings, public recreation facilities, and public libraries. The City intends to select a Contractor who is registered and licensed in the State of California to provide for a clean and sanitary environment for City employees and members of the public. The Contractor will be required to have qualified staff with demonstrated experience in janitorial work. Proposals will be reviewed and ranked on company experience, staff qualifications, communication, references, cost proposal, and other relevant information. Once negotiated, the City will award a Service Contract for a term of five (5) years.

2.0 BACKGROUND INFORMATION

The City's Public Works Department is responsible for custodial services at City facilities. City staff provide these services at City Hall and Police Department locations, and contracts services at 23 additional City-owned or occupied facilities/locations. The City seeks proposals from qualified firms to establish an agreement for custodial services that meets the requirements set forth in this Request for Proposals (RFP).

3.0 RFP INFORMATION

3.1 Description

They City of Stockton is soliciting proposals for Custodial Services, Project No. OM-22-005. Selection of a Contractor involves a competitive negotiation process. Qualified individuals, firms, contractors, consultants, or entities which meet the requirements set forth in this RFP are encouraged to participate.

The City considers this to be an outcome-based RFP. Generally, determinations for specific frequencies of service will be at the discretion of the Contractor. There are exceptions which are clearly noted throughout this document and the associated attachments. The interview process will be used to discuss contractor decisions regarding frequencies of service and their effect on pricing and outcomes. The City must agree that the proposed frequencies of service will result in desired outcomes. Please note: The final contract will be based on the outcome and not the proposed frequencies of service.

Base bids are for work described throughout this document. Items to be considered "Additional Services" have also been identified within this RFP. The Contractor is to provide rates and fees for additional services related to labor and applicable equipment or supplies as outlined in the bid documents.

3.2 Tentative Schedule

The following is the tentative schedule for this RFP. Any changes in the scheduled dates for the Pre-Proposal Conference, Deadline for Final Questions or Proposal

Submission Deadline will be advertised on BidFlash in the form of an addendum to this RFP. The schedule for the evaluation process and other future dates may be adjusted without notice.

RFP Release by the City	**12/15/2021**
Pre-Proposal Conference and Job Walk	**1/5/2022**
Deadline for Final Questions	**1/6/2022**
City Reponses to Questions	**1/7/2022**
Proposal Submission Deadline	**1/13/2022**
Contractor Interviews as Needed	**Week of 1/24/2022**
Contract Approval and Execution by City Council and City Manager	**Spring 2022**

3.3 Pre-Proposal Conference and Job Walk Registration

The mandatory pre-proposal conference will start at the Cesar Chavez Central Library at 605 N. El Dorado St., Stockton, CA 95202 at 9:00 AM on Wednesday, January 5, 2022. The pre-proposal conference will take place in the library's Stewart Hazelton Meeting Room. Site visits will include the Cesar Chavez Library, Stewart Eberhardt Building, and Stribley Community Center. Transportation between facilities will not be provided by the City. Please notify Cristina Pfeffer at (209) 937-8954 or Cristina.Pfeffer@stocktonca.gov, by January 4, 2022, to register for participation in the pre-proposal conference and job walk.

3.4 Selection Process

Contractors that have submitted the best and most complete proposals may be invited to an interview. The number of Contractors invited to an interview may vary depending upon the number of proposals submitted. The Contractor's proposed supervisor(s) of work to be performed may be required to attend.

The City reserves the right to make a selection after review of the proposals without oral interviews; therefore, the proposal should be submitted initially on the most favorable terms that the Contractor might propose.

A Service Contract will be negotiated with the Contractor considered best meeting the City's need for this project. In the event a mutually satisfactory contract cannot be negotiated with the City's first choice, negotiations may be terminated and commenced with the Contractor considered next best in meeting the City's needs for this particular project.

The selected Contractor will be required to execute a City-prepared contract. The contract may further refine the scope of services and will provide for the terms and conditions of employment.

The award of any contract is expressly contingent upon City Council approval and the availability of funds.

The City reserves the right to reject any or all proposals, or to waive minor irregularities in said proposals, or to negotiate minor deviations with the successful Contractor(s). In the case of a difference in unit price versus the extended figure, the unit price shall govern.

4.0 SCOPE OF SERVICES

4.1 Standards of Service

All City facilities included in this Contract shall be maintained in accordance with the City of Stockton Custodial Standards, attached as Attachment D. The Contractor shall provide routine, scheduled and emergency custodial services by qualified personnel. The Contractor must provide vehicle(s) to be used by the Contractor's staff, which shall display the Contractor's logo and have the various, necessary equipment to conduct these services.

The Contractor must possess, and have readily available in functioning order, all required tools, equipment, apparatus, materials and supplies needed to perform all work necessary to maintain facilities in compliance with standards set by the Public Works Department. All excess materials and equipment in the Contractor's inventory shall be the property and responsibility of the Contractor until such materials or equipment are used in City facilities.

4.2 Additional Services

The City has the authority to direct additional and extra work, including but not limited to, work to address vandalism, City initiated improvements, various event functions, service for City-owned sites not requiring routine service, and the addition of new sites. Additional Services outside the Facility Scope, attached as Attachment C, and/or the Custodial Standards (Attachment D) will require written approval from the City prior to the commencement of work. Costs for additional services completed by the Contractor prior to receiving written approval from the City shall be the responsibility of the Contractor.

The City recognizes the inherent complexity of "services," "standards" and building an agreement that covers every potential scenario. Below is a list of additional items that the City will deem as "Additional Services." Items may be added or deleted through the negotiation process.

A. Graffiti Removal
B. Additional kitchen cleaning due to facility rentals
C. Exterior walls in excess of 10 feet high
D. Hourly janitorial needs for special events and clean up

E. Carpet or cleaning services at City facilities not receiving normal custodial services (e.g., Fire Stations, City Hall, Police Department, etc.)
F. Electrostatic spraying of areas needing decontamination for COVID prevention measures

4.3 Special Instructions

A. ONLY Contractor's employees allowed on the premises.
B. All cleaning products shall be approved by the City prior to use by Contractor.
C. Contractor shall maintain onsite and up-to-date sets of Safety Data Sheets (material safety and data sheets) for all chemicals and cleaning products used at each site. This shall be subject to City inspection and shall be considered property of the City.
D. The City shall provide lockable storage for Contractor supplied cleaning materials.
E. Contractor shall maintain all cleaning materials inside lockable storage containers when not in use.
F. Contractors will report hazardous conditions and items beyond minor repair to Facilities Supervisor, or designee, for correction within eight (8) hours of service via the City's computerized maintenance management system (CMMS).
G. Contractors will report all vandalism, graffiti, and non-functional components within 8 hours of discovery via the City's CMMS.
H. Contractors will not be responsible for the removal of graffiti if effort above and beyond normal cleaning routines is required. All graffiti should be photographed prior to removal. Photographs shall be submitted to the City designee within 8 hours of discovery. If graffiti cannot be removed during the normal course of cleaning, the City shall be notified within eight (8) hours of discovery via the City's CMMS.
I. Appropriate cleaner shall be used so as to not damage window tinting.
J. At all times, personnel shall wear uniforms with exposed photo ID tags, or they shall not be permitted to enter the premises.
K. All Contractor's employees responsible for opening and closing City facilities shall be properly capable of setting/operating fire and burglar alarm systems. Contractor will be responsible for costs incurred if alarm systems are not properly operated and/or staff is called out to respond.
L. Contractor shall be in accordance with OSHA Standard #1910.1030 regarding worker exposures to blood-borne pathogens.
M. Removal of recyclable waste from City premises for the purpose of personal or Contractor gain shall be considered theft.
N. The City reserves the right to have Contractor remove from assignment to City facilities such Contractor employees deemed incompetent, careless, insubordinate or in any way objectionable, or any personnel whose actions may be contrary to the public interest or inconsistent with the best interests of the City.

O. Items found or left behind by patrons are to be turned in to the designated facility supervisor.
P. Contractor shall maintain janitorial closets and City-provided storage areas in a clean and orderly condition.
Q. All personal workspaces, cubicles and offices shall be maintained in accordance with the Custodial Standards unless specifically indicated by a “DO NOT CLEAN” sign placed in a conspicuous location such as a door, window, office chair or desktop.
R. Contractor shall not move any loose papers, books, other seemingly work-related material from personal workspaces such as desktops, bookcases, or armoires.
S. Contractor shall not be required to remove the belongings of or interact with any loiterers or “homeless” members of the public in order to complete the provisions of this contract.
T. Contractor shall contact the City’s representative to report loitering, or “homeless encampment” belongings which interfere with their assigned work.
U. Contractor shall handle universal waste in accordance with the City’s universal waste program.

4.4 Consumable Supplies

The Contractor shall supply, at the City’s expense, and with a predetermined markup, the following consumable supplies:

A. Paper toilet products (tissue and seat covers)
B. Paper hand towels
C. Liquid hand soap
D. Restroom air freshener
E. Urinal blocks/deodorizers
F. Bags or another container to be placed in receptacles for feminine sanitary product waste
G. Liquid hand sanitizer

The City reserves the right to purchase these consumable supplies elsewhere and supply them to the Contractor.

4.5 Inspections

The City and Contractor shall jointly conduct monthly quality of service inspections of facilities maintained by the Contractor. The City reserves the right to conduct additional independent inspections without the Contractor present. City of Stockton Custodial Standards (Attachment D) shall be used as a basis for all inspections.

4.6 Carpets and Spots

Any spot or stain on carpet smaller than one (1) square foot shall be dealt with during routine service. Any spot or stain on carpet larger than one (1) square foot

shall be dealt with via a scheduled extraction. The scheduled service shall be jointly agreed upon by the facility's supervisor and the Contractor. In the event that a service date and time cannot be agreed upon, the service will be determined by the Contract Administrator or their designee.

Any spot or stain on upholstered furniture smaller than four (4) square inches shall be dealt with during routine services. Any spot or stain on upholstered furniture larger than four (4) square inches shall be considered Additional Services and billed and paid as such.

5.0 CONTRACT ADMINISTRATION

5.1 Term of Service

The term of the Service Contract shall be effective 30 days from the date of contract execution and shall remain in full force and effect for a period of five (5) years, beginning July 1, 2022, through June 30, 2027. The City may terminate this Service Contract at any time if the Contractor fails to perform in accordance with the Scope of Work, Custodial Standards and terms and conditions of the contract, provided that 60 day prior written notice is given to the Contractor.

Goods and/or services shall not be suspended by the Contractor without 30-day prior written notice to the City's designated Contract Administrator.

5.2 Inspection Problem Resolution Process

The City will regularly inspect the Contractor's work and rate it according to the City of Stockton Custodial Standards. Contractor will be paid for work rated "meets standards." Contractor will not be paid for work rated "below standard," or for remedial required to improve such a rating if attributed to neglect on the part of the Contractor, until conditions are improved. City staff will work closely with Contractor's representatives to achieve the results described in the standards. However, responsibility for meeting standards rests with the Contractor.

The Contractor shall be responsible for maintaining City facilities in accordance with the Custodial Standards, the cost of which shall be included in the base bid, unless otherwise called out as "Additional Services" in this RFP.

During the first three (3) months of the contract, the Contractor will inspect the sites weekly and discuss inspections with the City. This process and time frame will allow for the Contractor to understand the site issues enough to proceed. Following this period, the Contractor shall continue performing weekly quality assurance inspections. Based upon performance, and at the Contractor's request, the City reserves the right to adjust the quality assurance schedule and extend the time between inspections.

The Contractor will provide electronic versions of the weekly inspections to the City within two (2) days of inspection completion. An action plan with deadlines must be provided to the City to indicate when corrections will be made if an area is deemed “below standard.” Failure to turn in inspections may result in monthly payment being withheld until inspections are submitted.

For any site that fails to meet City standards as a result of some action that is the Contractor’s responsibility, the Contractor is to notify the City immediately and develop a plan to bring the site back into compliance with standards. Should the City discover a site(s) that does not meet City standards, and the City has not been notified by the Contractor, the Contractor will be put on notice in writing to bring the site back into compliance. The following penalty will result:

A. The monthly payment for the specific site(s) will be withheld by the City until the site is compliant with City standards.
B. If compliance is reached within 48 hours of notice, the City will release one hundred percent (100%) of the payment.

If the City has to notify the Contractor a second time for noncompliance at the same site within 12 months of the initial notice, the following penalty will occur:

A. The City will withhold the monthly payment for the site. If compliance is reached within 48 hours of notice by the City, the City will release 80% of the payment, retaining 20% as a penalty.

For purposes of penalties, the “site” referred to in this section shall be the facility in which the deficiency has occurred. The percentage withheld will be in relation to the site’s monthly payment of this contract.

The parties will observe the following progressive resolution process:

A. Written notice of the problem.
B. Field conference with the inspector/Contractor’s field representative to identify the problem and agree on a solution as presented by the Contractor.
C. Conference between City’s Contract Administrator and Contractor’s representative.
D. Imposition of penalties and/or correcting defect at Contractor’s cost.
E. Termination of Service Contract.

5.3 Work Hours

Scheduled services shall typically occur during “cleaning hours” designated by the Facility Scope (Attachment C) for each listed facility/location. The Contractor shall conduct the work at all times in a manner which will not interfere with normal recreation programs and/or facility use. Any modification to the hours and days of

custodial services as requested by the Contractor is subject to approval by the City.

The City reserves the right to modify, add or lessen hours at any time. Should the City decide to request additional service hours, the City will notify the Contractor via change order prior to the service hours being added.

5.4 Safety

Safety provisions shall conform to Cal-OSHA Safety Orders, and all other applicable federal, state, county and local laws, ordinances, codes and regulations in performing the work under this contract. Where any of these are in conflict, the more stringent requirement shall be followed. The Contractor's failure to thoroughly familiarize itself with the aforementioned safety provisions shall not relieve it from compliance with the obligations and penalties set forth therein.

The Contractor shall develop and maintain for the duration of the contract a safety program that will effectively incorporate and implement all required safety provisions. The Contractor shall appoint an employee who is qualified and authorized to supervise and enforce compliance with the safety program. The Contractor shall submit a copy of this safety program along with proof of training to the City within 30 days of entering into this contract, and upon City request for the duration of the contract.

5.5 Response Time

Contract supervision shall be immediately available at all times Contractor employees are working onsite and must be available 24 hours a day via telephone. The Contractor must respond to a major discrepancy in the contract within one (1) hour of initial contact. All non-urgent communications shall be returned within the same working day.

5.6 Contractor's Employees

The Contractor and its employees represent the City in the performance of their work. Only Contractor's employees or subcontractors are allowed on City premises where work is being performed. At all times, personnel shall wear uniforms. Contractor's employees and subcontractors shall not smoke tobacco in any City park and within 20 feet of any public building.

5.7 Employer Provided Uniforms

The Contractor shall provide each of its employees with uniforms and photo ID cards. Uniform apparel shall be kept neat, clean and in good repair. All uniforms shall include the Contractor's name and logo.

5.8 Locks and Keys

The Contractor shall be responsible for the series of keys assigned to it and shall assign these keys to its personnel for use in maintaining the facilities. The Contractor shall properly use and keep safe all keys or locks issued by the City to the Contractor. The Contractor shall report all lost or stolen keys or locks to the City within 24 hours of discovery. The Contractor shall reimburse the City for the total cost of re-keying or replacement keys/locks that have been lost. Upon termination or cancelation of the contract, the Contractor shall immediately return all keys, cards, remotes, etc. to the City. The Contractor shall reimburse the City for the total cost of lost items.

5.9 Refuse Disposal

Disposal of refuse must be placed inside a dumpster serviced by the City of Stockton.

5.10 Recyclable Waste

Shall be placed in marked recyclable waste containers provided and serviced by the City of Stockton.

5.11 Service Requests

In addition to service requests submitted by the Contract Administrator, the Contractor shall routinely monitor the City's CMMS for work order assignments no less than once per business day. Upon receipt of service request via CMMS, the Contractor will contact the Contract Administrator for work authorization with a proposed date, time and cost (if applicable).

5.12 Reporting via CMMS

The Contractor shall use the City's CMMS to report vandalism, lighting issues, accumulation of Universal Waste, or other work orders for City staff as directed.

5.13 Staffing, Workmanship and Quality Level

The Contractor shall provide a staffing level to perform custodial services at City facilities in a thorough and professional manner, so that the City is provided with reliable and high-quality custodial services at all times. The Contractor shall provide management and technical supervision through competent supervisors as required. The Contractor shall be responsible for skills, methods, and actions of all employees, subcontractors, and for all work done. All frontline janitorial staff shall have a basic level of speaking and understanding English in order to accept basic instructions during dangerous or emergency circumstances. Contractor shall provide management and supervision who can fluently speak, read, and write English to effectively communicate with City staff.

5.14 Service Locations

See City of Stockton Custodial Base Pricing Sheet, attached as Attachment E, or the Facility Scope (Attachment C) for service locations.

5.15 Equipment

The Contractor shall furnish and maintain all equipment necessary for properly servicing and maintaining the Custodial Standards in City facilities. Failure to provide suitable equipment for carrying out all requirements of this contract may be grounds for contract termination.

5.16 Emergency Situations

For medical or public safety emergencies occurring at City facilities, call 911. For all building maintenance emergencies (water leaks, etc.) contact the Public Works Supervisor or designated staff to report the issue immediately (24 hours/day).

5.17 Contract Administrator

During the performance of the contract the City will be represented by the Facilities Manager, (209) 937-5069, and/or Contract Administrator, (209) 937-8954.

5.18 Additions and Deletions to Contract

The City currently requires custodial services for all the locations listed in this RFP and reserves the right to either add or delete locations as conditions warrant. Cost of additional locations shall be the same base rate relative to supplied square footage.

5.19 Continued Use of Facilities

The facilities being serviced by this contract will continue to be occupied during the contract. Work shall be performed in an orderly manner with minimum disturbance and inconvenience to the occupants. The Contractor shall confine and limit its personnel to only those areas required in performing the work.

6.0 PROJECT GENERAL INFORMATION

6.1 Proposal Submissions

Costs for developing proposals are entirely the responsibility of the Contractor and shall not be chargeable in any way to the City. All materials submitted become the property of the City.

An electronic copy of the proposal shall be submitted no later than **3:00 pm on Thursday, January 13, 2022**, to the following email addresses:

Keegan.Rauzi@stocktonca.gov
Cristina.Pfeffer@stocktonca.gov

The cost proposal must be a separate electronic document labeled "Cost Proposal," with project name and number.

The subject line of the email shall include: **CUSTODIAL SERVICES, Project No. OM-22-005.** Late proposals will not be accepted.

6.2 Acceptance or Rejection of Proposal

The City reserves the right to negotiate an agreement with the firm submitting the highest-ranking proposal. Also, the City reserves the right to reject any and all proposals or to waive any irregularity in a proposal if it is deemed to be in the best interest of the City. Failure to submit all requested information could be grounds for rejection of the proposal.

6.3 Proposal Questions and Requests for Clarification

Any questions or requests for clarification shall be submitted via email to:

Cristina.Pfeffer@stocktonca.gov

Requests for clarification shall be submitted by **Thursday, January 6, 2022, at 3:00 pm**. If a response warrants an addendum to the RFP, such addendum will be posted on BidFlash at least two days prior to the proposal due date. It is the proposer's responsibility to check the website for any addendums or responses to questions. The website address is as follows:

http://www.stocktongov.com/services/business/bidflash/pw.html?dept=Public_Works

6.4 Causes for Disqualification

Any of the following may be considered cause to disqualify a proponent without further consideration:

A. Evidence of collusion among proponents.

B. Any attempt to improperly influence any member of the evaluation panel.

C. Any attempt to communicate in any manner with a City of Stockton elected official during the RFP process will, and shall be, just cause for disqualification of proponent's proposal and considered non-responsive.

D. A proponent's default in any operation of a professional services agreement which resulted in termination of that agreement.

E. Existence of any lawsuit, unresolved contractual claim, or dispute between proponent and the City.

F. No person, firm, or corporation shall be allowed to make or file or be interested in more than one bid for the same supplies, services, or both, provided, however, that subcontract bids to the principal bidders are excluded from the requirements of this section: Section 3.68.120 of the Municipal Code.

G. Any exceptions to the insurance requirements may result in declaring a proposal non-responsive.

6.5 Licensing Requirements

Any professional certifications or licenses that may be required are the sole cost and responsibility of the successful proposer.

Contractor is not required to have a business license to submit a proposal. The Contractor selected to perform this work must obtain a City of Stockton business license prior to a purchase order being issued and maintain this license throughout the duration of the Contract.

The successful proposer and any subcontractor(s) shall provide copies of all valid licenses and certificates required for performance of the services being bid upon. The copies shall be emailed or delivered to the City of Stockton no later than ten (10) days after the Contractor receives notice of award from the City of Stockton. Current copies of licenses and certificates shall be provided to the City of Stockton within 24 hours of demand at any time during the contract term.

City of Stockton Business License Customer Service can be reached at (209) 937-8313, or business.license@stocktonca.gov.

6.6 Insurance Requirements

The proposer must obtain and maintain the required insurance. Proposer should review Attachment A, Instructions to Vendors, for information regarding insurance, indemnification, Disadvantaged Business Enterprises, prevailing wages, etc. Failure to comply with the Instructions to Vendors may be grounds for rejection.

6.7 Department of Industrial Relations

Registration with the California Department of Industrial Relations is required for this project. Please refer to Attachment A, Instructions to Vendors, for registration requirements.

6.8 Start of Work

The selected firm shall be expected to begin work within 30 days of contract signing and complete services according to the Scope of Services (Section 4.0) and Custodial Standards at the locations listed in the Facility Scope and Custodial Base Pricing Sheet at frequencies proposed by Contractor.

6.9 Product Ownership

Any documents resulting from the performance of work in the contract will become property of the City. This includes all work performed by subcontractors.

7.0 REQUIRED PROPOSAL CONTENT

The proposal shall be no more than 50 pages, with a minimum font size of 12. Proposer shall submit one electronic copy of the proposal and a separate electronic document with the cost proposal.

Proposals must include narrative responses to the following:

7.1 Introduction

Briefly introduce the proposal, including a statement of the firm's approach to providing custodial services to the City. Provide the name of the company, address, email, telephone number and name of the appropriate contact person. Describe any subcontract arrangements or licensing agreements.

7.2 Statement of Qualifications/Responsiveness

Describe your firm and provide a statement of your firm's qualifications for performing the requested services. Detail any involvement, past or current, relative to litigation or other disputes, if any, concerning your performance with any clients to whom your company has provided services. List all contracts canceled or not extended. State any and all instances of being disqualified, removed or otherwise prevented from completing the terms of any previous contracts over the past five (5) years. Give names, street addresses, and phone numbers, and explain the circumstances. Identify the services which would be completed by your firm's staff and those that would be provided by subcontractors, if any. Identify any subcontractors you propose to utilize to supplement your firm's staff. Include the firm's organization chart, including its constituent parts, and size variation of staffing levels in the past five (5) years.

7.3 Experience and References

Include a summary of your firm's experience in providing these or similar services. Provide a minimum of three (3) references for projects or services similar in nature and scope completed within the last five (5) years. Include brief descriptions of the contracts, dates, client names and contact persons' names, addresses, and

telephone numbers. Public sector references are preferred. No City of Stockton elected or appointed officials, or employees may be provided as a reference for this proposal.

7.4 Resources and Service Description

Provide a detailed discussion of your firm's approach to the successful implementation of this project. Include a comprehensive description of the resources and methodology that will be used to complete each element of the requested services.

7.5 Quality Control

Include a comprehensive description of your firm's vision of customer service, quality assurance and quality control for the work being proposed. Describe the steps your company takes to ensure that each person's role in your firm is understood as it relates to exceptional customer service and quality, not only to the City, but to the residents and visitors served by the City.

7.6 Staffing Process and Project Team

Include a work plan describing how your firm will regularly staff and supervise the contracted services. Describe the qualifications of the Project Manager and any other key personnel related to the project. Provide an overview of staff training programs, including information on the certifications maintained by the project team. Demonstrate the ability of the project team to perform the proposed work within the time limits of the required services, considering their current and projected workload and assignments. Discuss the availability of a supervisor and contingency plans when unavailable.

7.7 Liability Issues

Describe how your firm handles damage and theft claims.

7.8 Logistics

Describe where your firm is based, where it will store materials, and how your firm will make available the equipment and materials needed to perform all work.

7.9 Chemicals

List the chemicals proposed for use in this Contract. Describe how each will be used and methods used to comply with Local, State, and Federal laws and regulations.

7.10 Environmentally Preferable Procurement

Describe how your selection of materials and processes will best meet the intentions of the City's Directive FIN-35 Environmentally Preferable Procurement Policy (Attachment G).

7.11 Carpets and Upholstered Furniture

Describe how your firm proposes to handle carpet and upholstered furniture cleaning, care, and stain extraction. Please describe how spots are to be removed, frequencies for cleanings and your proposed timeframes.

7.12 Frequencies

Provide and discuss your proposed frequencies for each task associated with obtaining the desired outcomes. Please include expected production hours per task and per facility to obtain the desired outcomes in accordance with the City's Custodial Standards (Attachment D).

7.13 Billing/Invoicing

Describe your firm's billing and accounting system, as it will relate to this Contract. Describe your capability to customize invoices to meet the City's needs. Attach samples of your firm's billing forms and invoices.

7.14 Reports

Discuss management reports and quality assurance methods and their frequency. Emphasize how you would customize reports for the City that will show work accomplished, labor hours, and materials consumed by each site. Attach sample reports.

7.15 Computerized Maintenance Management System

Describe how your firm has worked within a customer-provided computerized maintenance management system for tracking assigned work orders and resource planning.

7.16 Cost Proposal

A. Base Bid Prices: Base bid prices shall include everything necessary for the completion of and fulfillment of the Contract, including but not limited to, furnishing all transportation, materials, equipment and all management, supervision, permits, labor, and services for each provided Facility Scope (Attachment C), unless otherwise identified as "Additional Work" within this document. Proposal prices shall include all applicable federal, state and local taxes.

   Individual annual costs are to be submitted for each facility and grouping of facilities listed on Attachment E, Custodial Base Pricing. The basis of payment shall be on a monthly fixed price for services, unless otherwise agreed to in writing by the City.

   The Contractor must agree to perform the described work for the prices indicated in its proposal and markup stipulated in the contract or as negotiated

by the City for the life of the contract. At the request of the Contractor, City, and Contractor will meet and revise prices annually to be effective for the next contract year in December of each year. This increase request shall be in accordance with consumer price index (CPI) for similar services in Stockton, California, according to the Bureau of Labor Statistics and shall not exceed 3% in any one year. The City agrees to adjust payments to reflect changes in work quantities and to pay for new work assigned to the Contractor at the contract rates then in effect. The City will only award a Service Contract if the cost of the agreement is at or below the approved funding allotment for specific facilities and funding sources.

Contractor is encouraged to attend the pre-proposal conference and job walk to inspect areas prior to submitting proposal in order to be fully aware of the scope of services required. Failure to do so will not relieve the successful proposer from performing in strict accordance with the specifications at no additional cost to the City.

B. Material and Supply Pricing: The proposal shall include the Contractor's percentage markup on consumable supplies over its cost. This percentage should be included in the Contractor's Additional Services pricing sheet (Attachment F). Include a comprehensive list of the consumable supplies needed for this contract with your current pricing. The City reserves the right to purchase and supply to the Contractor all consumable materials and supplies.

   Consumable supplies are defined as supplies utilized by facility users, guests and staff. All cleaning supplies necessary to maintain facilities in accordance with City of Stockton Custodial Standards (Attachment D) shall be provided by the Contractor and be accounted for in the Contractor's base bid for each facility.

C. Additional Services: Proposals for hourly rates, unit costs, markups, etc. should be included in the Additional Services Price Sheet (Attachment F).

The cost proposal must be in the form of a separate, electronic document from the proposal.

8.0 PROPOSAL EVALUATION

The Contractor selection process will follow the estimated timeline below:

Event	Date
Post Request for Proposals	December 15, 2021
Pre-Proposal Conference/Job Walk	January 5, 2022
Written Questions submitted by	January 6, 2022

Response to Written Questions	January 7, 2022
Proposals Due	January 13, 2022
Contractor Interviews	Week of January 24, 2022
City Council Approval	Spring 2022

8.1 Proposal Scoring Criteria

Proposals will be selected using a "best value" methodology based on the following categories:

A. **Cost Proposal (25 points).** Points will be weighted with regard to the overall base bid prices and additional service rates.
B. **Experience (20 points).** Previous experience in providing a superior level of service to like-sized public and/or private entities.
C. **Quality of Work (20 points).** Assessments of work quality, performance, and working relationships by current and recent clients that indicate high levels of satisfaction and effectiveness.
D. **Qualifications of Staff (15 points).** Qualifications of proposed staff to be assigned to the project.
E. **Communications Capabilities (10 points).** Well organized communications systems and reporting capabilities that demonstrate an ability to complete tasks efficiently and effectively and do not require constant supervision by the City.
F. **Reports and Invoices (5 points).** Effectiveness and clarity of sample reports and invoices utilized by the firm.
G. **Local Business Preference (5 points).** A maximum of 5 points will be given for local preference in accordance with Stockton Municipal Code Section 3.68.090.

The selection committee will evaluate all proposals. This is a qualifications and cost-based selection, so ranking will be in accordance with the attached Evaluation Scoring Worksheet (See Attachment B). Cost will be a factor in evaluation, but selection is predominately qualifications based. Cost proposals will not be opened until after other categories have been evaluated. Local preference will also be a factor, so Stockton firms are encouraged to propose. Also, non-Stockton firms should make an effort to use Stockton subcontractors whenever possible. Points will be weighted based on the amount of work being performed by the local consultants and/or businesses.

8.2 Negotiations

City staff will begin negotiations with the highest ranked firm. If an agreement cannot be reached after a reasonable period of time, as determined by the City, then the City will terminate negotiations with the number one ranked firm and negotiations will be opened with the second ranked firm. The compensation discussed with one prospective Contractor will not be disclosed or discussed with another Contractor.

The selected consultant will be expected to enter into a Professional Services Contract with the City. Proposers should direct their attention to Attachment A, Instructions to Vendors, for the most current insurance and indemnification language. It is expected that the successful proposer will accept these terms without modification.

The contract shall not be in force until the Council approves the Contract and the City Manager signs it. Work performed before the issuance of a Notice to Proceed cannot be paid by the City.

City of Stockton Custodial Standards

At the conclusion of every service the following frequencies and standards shall be met:

Section 1: Accessibility

All City facilities are places of public accommodation, and as such, custodial services shall be performed in a manner that does not negatively impact business operations of the various City facilities.

Section 2: Hours of Service

Custodial services can normally begin at the end of business day for each location. Hours vary by location. Location hours are located on the Facility Scope. City may revise or require additional hours within the scope of this contract at any time.

Section 3: Exterior of Facilities

All facility exteriors shall be presentable and clean at the conclusion of each service and the appearance shall be safe and inviting. All surfaces and fixtures shall be safe, relatively dry and debris free and ready for immediate public use.

Daily:

- Facility entrances (approximately 20' area around each doorway) shall be free from debris and litter.
- Facility floor mats shall be vacuumed and free from debris, stains and installed properly.
- Facility will be properly secured at all times during non-operational hours.
- Facility trash and recycling cans will be emptied with a clean liner left in place and tops wiped down.
- Facility parking lots and trash enclosures adjacent to the building will be free of litter and debris.
- Facility trash enclosures will be locked at all times during non-operational hours.
- Surrounding areas (approximately 10' from building wall) – such as planter boxes, grass, and walkway – will be free of litter.

Weekly:

- Facility entrances (approximately 20' area around each doorway) shall be washed of stains and sticky substances (ie: gum).
- Facility windows, window sills and doors shall be clean and free of dust, dead bugs, spots and smudges up to 10' above the ground.
- Facility shall be clean of all spider webs up to 10' above the ground.

Bi-Monthly:

- Trash enclosure interior and exterior shall be washed of stains and trash residues.

Semi-Annually:

- Facility windows, window sills and walls shall be free of dust, dead bugs, spots, smudges, and spider webs for the entire height of the building.

Section 4: Interior of Facilities

All facility interiors shall be presentable, clean, safe and inviting. All surfaces and fixtures shall be safe, relatively dry, debris free and ready for immediate public use.

Daily:

- Facility floors (including perimeters, reception halls, gymnasiums) shall be swept, vacuumed, spot cleaned and/or spot mopped so as to be free of debris and stains.
- Facility baseboards are to be clean and free of spots and stains.
- Facility waste baskets, recycling bins, and trash cans will be emptied, liners replaced and trash/recycling disposed of appropriately.
- Drinking fountains will be clean, sanitized, polished and free of spots, grease, smudges, etc.
- Facility counters shall be clean, free of dust and smudges on all surface areas.
- Facility stainless steel shall be wiped clean, sanitized, polished and free of spots, grease and smudges.
- Facility stairwells shall have handrails wiped/polished and shall be free of dust and debris.
- Facility elevators shall be wiped clean, swept, vacuumed, and mopped and shall be free of litter, dust and debris.
- Facility floor mats shall be vacuumed and free from debris, stains and installed properly.
- Facility tables and chairs shall be wiped clean, sanitized and disinfected.

Weekly:

- Facility shall be clean of all spider webs up to 10’ above the ground.
- Facility tile/grout and carpets shall be clean and free of spots and stains.
- Facility furnishings shall be clean, free of dust and smudges on all surface areas. ie: desks, counters, cabinets, artificial plants, bookcases, window sills, tops of doors, etc.
- Facility blinds/windows coverings shall be free of dust and stains.
- Facility appliances shall be wiped clean, sanitized, polished and be free of spots, grease and smudges.
- Facility appliances shall be wiped clean, and sanitized internally.
- Facility walls, doors, chair rails and fan/air vents shall be wiped clean and free of stains and dust.
- Facility windows and window sills up to 10’ shall be clean and free of dust, dead bugs, spots and smudges, etc.
- Facility upholstered furniture shall be clean and free of spots and stains.
- Facility reception hall and gymnasium floors shall be mopped in their entirety.

Semi-Annual:

- Facility carpets shall be steam cleaned or wet extracted following manufacturer’s recommendations for proper cleaning procedures.
- Facility tile or laminate floor surfaces shall be waxed and buffed.

Annually:

- Facility windows, window sills and walls shall be free of dust, dead bugs, spots, smudges, and spider webs for the entire height of the building.
- Facility tile or laminate floor surfaces shall have the wax stripped and cleaned prior to new application of wax.

Section 5: Fitness and Gymnasium Areas

All fitness and gym areas shall be presentable and inviting. All surfaces and fixtures shall be safe, clean and ready for immediate public use.

Items in addition to “Interior of Facilities”

Daily:

- Facility fitness equipment shall be wiped clean and sanitized.
- Facility disinfectant dispensers and paper towels shall be stocked and replenished.
- Facility mirrors shall be free of dust and smudges.

Weekly:

- Fitness equipment to be raised/moved once a week by City staff. Custodial staff shall vacuum under the equipment so that floorings are clean and free of all debris.
- Bleachers will be free of dirt, dust, debris, litter, and gum.

Monthly:

- When in use, area under bleachers will be free of dust, debris, and litter.
- Basketball backboards will be free of dust and smudges up to 10' from the floor.

Annually:

- All fixtures attached to ceiling of gymnasium will be free of dust, debris, cobwebs, and dead bugs.

Section 6: Kitchen

Kitchens shall be presentable and free of foul odors. All surfaces and fixtures shall be safe and relatively dry, debris free, and ready for immediate food preparation.

Facility will comply with State and Local Health Department standards.

Daily:

- Facility floors, including all perimeters, shall be swept, mopped, and be free of spots, dust, stains and grease.
- Facility tile/grout and back splash walls shall be clean and free of spots, stains and grease.
- Facility waste basket/recycle containers will be emptied and liners replaced. Waste shall be disposed of properly.
- Facility stainless steel shall be wiped clean, sanitized, polished and free of spots, grease and smudges.
- Facility appliance exteriors shall be wiped clean, sanitized, polished and free of spots, grease and smudges.
- Facility food preparation areas, including sinks, shall be clean, sanitized, and free of spots, stains and smudges.
- Facility disinfectant dispensers and paper towels shall be stocked and replenished.
- Facility floor mats shall be vacuumed and free from debris, stains and installed properly.
- Facility floor drains shall be clean, odor free, free of debris (including hair).

Weekly:

- Facility shall be dust free on all surface areas (ie: top shelves of counters, window sills, tops of doors, etc.)
- Facility floors, walls, and backsplashes behind/beneath refrigerators, stoves, water-coolers, and other appliances shall free of debris, dusts, and grease.
- All facility floor drains shall be flushed with clean water.
- Facility appliances shall be wiped clean, sanitized, and free of spots, grease and smudges, including refrigerators.

Section 7: Locker/Changing Rooms
Locker Room shall be presentable, clean, free of foul odors, and fully stocked. All surfaces and fixtures shall be safe, relatively dry and debris free and ready for immediate public use.

Items in addition to "Interior of Facilities"
Facility will comply with State and Local Health Department standards.

Daily:

- Facility waste baskets and feminine hygiene containers will be emptied and liners replaced.
- Facility hand towel, soap dispensers, fragrance sprayer, toilet seat covers and toilet paper shall be stocked and replenished.
- Facility floors shall be swept and mopped with germicidal solution.
- Facility stainless steel shall be wiped clean, sanitized, polished and free of spots, grease and smudges.
- All tiles and shower walls shall be free of soap scum, film, stains, mildew, disinfected and sanitized.
- Facility mirrors, sinks, fixtures, partitions and walls shall be clean, disinfected and free of soap scum.
- All facility sinks, toilets, urinals, shower curtains and diaper changing tables shall be clean, disinfected, sanitized, with any prescribed aromatic devices functioning properly. Do not leave any un-dissolved cleaning agents behind.
- Facility floor mats shall be vacuumed and free from debris, stains and installed properly.
- Facility floor drains shall be clean, odor free, free of debris (including hair).
- All facility lockers and benches shall be dust free and clean.

Weekly:

- All facility benches, walls, doors and frames shall be cleaned and disinfected.
- All exterior locker surfaces shall be disinfected.
- All facility floor drains shall be flushed with clean water.

Quarterly:

- Clean interior surfaces of all lockers.

Section 8: Facility Restrooms and Showers
Restrooms and showers shall be presentable, clean, free of foul odors, and consumables fully stocked. All surfaces and fixtures shall be safe, relatively dry and debris free and ready for immediate public use.

Items in addition to "Interior of Facilities and Exterior of Facilities"

Daily:

- Facility waste baskets and feminine hygiene containers will be emptied and liners replaced.
- Facility hand towel, soap dispensers, fragrance sprayer, toilet seat covers and toilet paper shall be stocked and replenished.
- Facility floors shall be swept and mopped with germicidal solution.
- Facility stainless steel shall be wiped clean, sanitized, polished and free of sports, grease and smudges.
- All tiles shall be free of soap scum, film, stains, mildew, disinfected and sanitized.
- Facility mirrors, sinks, fixtures, partitions and walls shall be clean, disinfected and free of soap scum.

- All facility sinks, toilets, urinals and diaper changing tables shall be clean, disinfected and sanitized. Do not leave any un-dissolved cleaning agents behind.
- Facility floor mats shall be vacuumed and free from debris, stains and installed properly.
- Facility floor drains shall be clean, odor free, free of debris (including hair).

Weekly:

- All Facility walls, doors and frames shall be cleaned and disinfected.
- All Facility floor drains shall be flushed with clean water.

DEPARTMENT OF INDUSTRIAL RELATIONS
LABOR COMPLIANCE
SELF-CERTIFICATION

We, the undersigned, self-certify that we will comply with all California Department of Industrial Relations (DIR) laws, rules and regulations that apply to Public Work as defined in Labor Code Section 1720(a)(1), as well as Senate Bill 854 (2014), and all other related statutes.

In addition, we acknowledge that to be eligible to bid on City of Stockton Public Works projects, we and all subcontractors under us are registered, and will remain registered with the DIR until project completion; otherwise, we will be disqualified from consideration as a bidder for the subject project.

CONTRACTOR: Imperial Maintenance Services, Inc.

NON-COLLUSION DECLARATION

(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

To the CITY of STOCKTON DEPARTMENT OF PUBLIC WORKS.

The undersigned declares:

I am the CEO, of Imperial Maintenance Services. Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on January 13, 2022 at Stockton (city), Ca. (state)

(Signature)

TITLE VI VIOLATION SELF-CERTIFICATION

We, the undersigned, self-certify that pursuant to Federal Code of Regulations (CFR), 23 CFR 200.9, 633 and 49 CFR 21.7, we do not have any unresolved violations under Title VI of the Civil Rights Act of 1964 and related statutes, including Americans with Disabilities Act (ADA). In addition, we acknowledge that an unresolved Title VI violation will disqualify us for consideration as a bidder for the subject project.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. FIN-35	Page No. 1 of 6
ENVIRONMENTALLY PREFERABLE PROCUREMENT POLICY	Effective Date: 12/03/07	Revised From: N/A

I. PURPOSE

To increase the use of environmentally preferable products and services in the City of Stockton in order to:

- conserve natural resources;
- minimize environmental impacts such as pollution and use of water and energy;
- eliminate or reduce toxics that create hazards to workers;
- support the recycling markets; and
- increase the use and availability of environmentally preferable products that protect the environment.

II. POLICY

A. The City shall, to the extent reasonably practicable, use and require its contractors and consultants to use, environmentally preferable products with the maximum amount of recoverable materials.

B. The City shall specify recycled content and environmentally preferable products unless such products do not perform satisfactorily and/or are not cost effective. The priority for purchasing recycled content products shall be as follows:

1. The highest percentage of recycled content of "post-consumer recovered material," available in the marketplace; and
2. The highest percentage of "pre-consumer recovered material," available in the market place.

C. The City shall solicit the use of recycled content and other environmentally preferred products in its procurement documents.

D. The City shall ensure that specifications and performance standards for goods and services do not require the use of products made from virgin materials nor specifically exclude the use of environmentally preferable products.

E. The City shall procure environmentally preferable goods and services where environmental criteria have been established by the United States Environmental Protection Agency or other widely recognized authorities.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. FIN-35	Page No. 2 of 6
ENVIRONMENTALLY PREFERABLE PROCUREMENT POLICY	Effective Date: 12/03/07	Revised From: N/A

F. The City shall integrate environmental factors into the City's buying decisions, when practicable. Examples include but are not limited to:

- purchasing non-emergency fleet vehicles and equipment that provide, whenever practicable, the best available net reduction in vehicle fleet emissions;
- replacing disposables with re-usable, recyclable, or compostable goods;
- considering life cycle economics;
- considering impacts and threats of harm to human health or the environment; and
- evaluating, as appropriate, the environmental performance of vendors in providing products and services.

G. All City departments shall practice waste prevention and recycling.

DEFINITIONS

Environmentally Preferable Products and Services refers to products and services that have a lesser or reduced negative effect on human health and the environment when compared with competing products that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, and/or disposal of the product.

Recycling means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products that meet the quality standards necessary to be used in the marketplace.

Waste Prevention means any action undertaken by an individual or organization to eliminate or reduce the amount of toxicity of materials before they enter the municipal solid waste stream. This action is intended to conserve resources, promote efficiency and reduce pollution.

Practicable means sufficient in performance.

Recycled Products are products manufactured with waste material that has been recovered or diverted from the waste stream. Recycled material may be derived from post-consumer waste (material that has served its intended end-use and been discarded by a

final consumer), industrial scrap, manufacturing waste, and/or other waste that otherwise would not have been utilized.

Post-consumer recovered materials are finished materials that would normally be disposed of as solid waste, having completed its life cycle as a consumer item.

Examples of post-consumer recovered materials include, but are not limited to: old newspapers, office paper, yard waste, steel and/or aluminum cans, glass, plastic bottles, oil, asphalt, concrete and tires.

Pre-consumer recovered materials are materials or by-products generated after manufacturing of a product is completed, but before the product reaches the end-use consumer. Examples of pre-consumer recovered materials include, but are not limited to: obsolete inventories of finished goods, rejected unused stock and paper wastes generated during printing, cutting and other converting operations.

Life Cycle Economics means the identification and inclusion of all direct and indirect costs associated with a particular product or material. This includes the initial cost of purchase, anticipated maintenance and repair and the direct and indirect disposal costs associated with the disposal or removal of the product at the end of its useful life.

III. ENVIRONMENTALLY PREFERABLE PRODUCTS

The following product lines are initially designated as areas of focus for environmentally preferable purchases:

A. Printing and writing papers including all imprinted letterhead paper, envelopes, copy paper, and business cards shall contain a minimum of 30 percent post-consumer recycled content.

B. Paper products including janitorial supplies, shop towels, hand towels, facial tissue, toilet paper, seat covers, corrugated boxes, file boxes, hanging file folders, and other products composed largely of paper.

C. Remanufactured laser printer toner cartridges and remanufactured or refillable inkjet cartridges.

D. Re-refined antifreeze including on-site antifreeze recycling.

E. Re-refined lubricating and hydraulic oils.

CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: ENVIRONMENTALLY PREFERABLE PROCUREMENT POLICY	Directive No. FIN-35	Page No. 4 of 6
	Effective Date: 12/03/07	Revised From: N/A

F. Recycled plastic outdoor wood substitutes including plastic lumber, benches, fencing, signs, and posts.

G. Recycled content construction, building and maintenance products, including plastic, lumber, carpet, tiles and insulation.

H. Recrushed cement concrete aggregates and asphalt.

I. Cement and asphalt concrete containing tire rubber, glass cullet, recycled fiber, plastic, fly ash or other alternative products.

J. Retreaded tires and products made from recycled tire rubber including rubberized asphalt, playground surfaces and fatigue mats.

K. Compost, mulch and other organics including recycled biosolid products.

L. Remanufactured paint.

M. Janitorial cleaning supplies.

N. Other products that may be designated.

IV. WASTE PREVENTION PRACTICES

A Recycling Team, comprised of department representatives, shall be established to increase waste reduction and recycling practices in all City departments. City staff shall be required to reduce their consumption of resources by incorporating the following practices into their daily activities:

A. Consider durability and reparability of products prior to purchase.

B. Conduct routine maintenance on products/equipment to increase the useful life.

C. Use back-to-back features on laser printers and copiers. Specify back-to-back on all print jobs wherever practical.

D. Send and store information electronically when possible. This includes e-mail, web site, and electronic fax

	Effective Date: 12/03/07	Revised From: N/A

E. Review records retention policies and implement document imaging systems.

F. Other waste prevention practices that further the goals of this policy.

V. RESPONSIBILITIES OF ALL DEPARTMENTS

Each department shall be responsible for the implementation of this policy and shall:

A. On a quarterly basis, the Recycling Team department representatives shall report to the City Manager's Office their progress of policy implementation including the types of environmentally preferable products purchased, successes, pitfalls, and changes.

B. Practice waste prevention and source reduction whenever possible.

C. Continue to utilize recycling programs and expand them where possible.

D. Procure recycled products whenever practicable.

E. Develop, evaluate and maintain information about environmentally preferable and/or recycled products containing the maximum practical amount of recycled materials. Share information with other departments when potential use of a product exists.

F. Develop specifications used in bids/request for proposals, aimed at eliminating barriers to recycled-content products, such as outdated or overly-stringent product specifications and specifications not related to product performance.

G. Ensure the bid documents require environmental preferred alternatives whenever practical.

H. Educate and promote this policy through appropriate staff and the use of the City's Intranet.

VI. RESPONSIBILITIES OF ADMINISTRATIVE SERVICES PURCHASING DIVISION

The Purchasing Division shall:

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. FIN-35	Page No. 6 of 6
ENVIRONMENTALLY PREFERABLE PROCUREMENT POLICY	Effective Date: 12/03/07	Revised From: N/A

A. Maintain and use information, furnished by its vendors, about environmentally preferable and recycled products containing the maximum practical amount of recycled materials and encourage Departments to purchase such products whenever possible.

B. Provide Departments with vendor furnished information about recycled products and environmental procurement opportunities.

C. Inform vendors of the City's Environmentally Preferable Procurement Policy.

D. Structure applicable contracts to offer and/or feature recycled-content products whenever possible (e.g., office supplies, lubricating oils and janitorial supplies).

E. Encourage development of specifications used in bids/request for proposals aimed at eliminating barriers to recycled-content products, such as outdated or overly stringent product specifications and specifications not related to product performance. All bids/request for proposals shall encourage vendors to offer recycled products whenever practical.

VII. EXEMPTION

Nothing in this policy shall be construed as requiring the purchase of products that do not perform adequately and/or are not reasonably available at a reasonable cost.

APPROVED:

J. GORDON PALMER, JR.
CITY MANAGER

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Exhibit C:
Insurance Requirements for Most Contracts
(Not for Professional Services or Construction Contracts)

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, his agents, representatives, employees or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than **$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation:** as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any

endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by

Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

City of Stockton

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 1 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: **5/1/2015**	Revised From: **7/27/09 4/6/09 3/1/2010 (see below)**

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

I. PURPOSE

The purpose of this policy is to reaffirm the City's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace. This policy defines prohibited behavior and conduct, and sets forth a procedure for reporting, investigating and resolving complaints of discrimination, harassment, in the workplace, including retaliation and hostile work environment.

II. POLICY

A. The City of Stockton prohibits any form of discrimination and/or harassment of any person based on race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute consistent with state or federal law. All such discrimination and harassment is unlawful and shall not be tolerated. In addition, under the federal Affordable Care Act (ACA), the City of Stockton prohibits discrimination and/or harassment, or retaliation against an employee who obtains coverage, receives a tax credit or subsidy through the Health Care "Market Place" or "Exchange."

B. It is an unlawful employment practice to discriminate against or to harass an unpaid intern or volunteer on the basis of any legally protected classification unless an exception applies, such as a bona fide occupational qualification.

C. The City will neither tolerate nor condone discrimination and/or harassment of employees by managers, supervisors, co-workers, or non-employees with whom City employees have a business service, or professional relationship.

D. All City employees and non-employees share a responsibility to assist in

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

maintaining an employment environment free of discrimination and harassment. This policy applies to all aspects of City employment, including, but not limited to, hiring, reassignment, placement, promotion, employment action, disciplinary action, layoff, reemployment, transfer, leave of absence, compensation and benefits, training; or other terms of treatment of that person in an unpaid internship, or another limited duration program to provide unpaid work experience for that person, or the harassment of an unpaid intern or volunteer.

E. All allegations of discrimination and/or harassment shall be investigated immediately by the City, in accordance with this policy. If it is determined that any prohibited activity has occurred, remedial action shall be taken. Such action may include discipline up to and including discharge. In addition, under applicable law, individual supervisors and employees may be subject to personal liability and/or punitive damages in any litigation arising as a result of such conduct.

F. All new hires shall attend harassment awareness training, and supervisors and managers shall attend harassment awareness and prevention training for supervisors every two years.

G. The City of Stockton prohibits retaliation against any employee or non-employee by another employee, non-employee, supervisor, or manager for reporting, filing, testifying, assisting or participating in any manner in any investigation, proceeding, or hearing conducted by the employer or a federal or state enforcement agency.

H. This policy applies to all officials, employees, volunteers, unpaid interns, agents, or contractors of the City.

I. This policy shall be administered by the Director of Human Resources.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 3 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

III. DEFINITION AND EXAMPLES OF DISCRIMINATION AND HARASSMENT

A. "Discrimination," as used in this policy, is any action, behavior, practice, or process that is intended to deny, or results in the denial of, employment rights, privileges, or benefits because of a person's race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other prohibition identified under state and federal law. The following are examples of conduct that may constitute discrimination:

1. Soliciting applications from a source where all or most of potential workers are of the same race or color.

2. Considering a person's gender as the basis for differences in pay, work assignments, performance evaluations, training, discipline, or any other area of employment; and

3. Questioning a job applicant about the existence, nature and severity of a disability.

B. "Harassment," as used in this policy, consists of any conduct affecting another person because of his or her race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute identified under state and federal law when such conduct has the purpose or the effect of: (1) creating an intimidating, hostile or offensive work environment; (2) unreasonably interfering with the employee's or non-employee's work performance; or (3)

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 4 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER 037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

otherwise adversely affecting an employee's or non-employee's employment opportunities.

Harassment may take many forms, including, but not limited to, the following examples:

1. Verbal Harassment: Epithets, derogatory and offensive comments or slurs based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

2. Physical Harassment: Assault, impeding or blocking movement that results in the physical interference with normal work or movement on the basis of race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

3. Visual Harassment: The displaying of posters, photography, notices, bulletins, e-mails, cartoons or drawings with derogatory and offensive content based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

C. "Sexual harassment," as used in this policy, is a subcategory of harassment, and is specifically defined by law as unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made a term or condition of employment; or

2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual; or

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

3. Such conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work performance or creating an intimidating, hostile or offensive working environment because of the persistent, severe or pervasive nature of the conduct.

Examples of Sexual Harassment include, but are not limited to the following:

a. Unwelcome sexual overtures or propositions.

b. Offering employment benefits or status in exchange for sexual favors.

c. Making or threatening retaliation after a negative response to sexual advances.

d. Visual conduct such as leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons, calendars or posters.

e. Verbal conduct such as using epithets or slurs, telling sexually explicit jokes, or making derogatory or suggestive comments about a person's body or dress.

f. Written communications of a sexual nature distributed in hard copy, soft copy or via a computer network.

g. Verbal abuse of a sexual nature, graphic verbal commentary about an individual's body, sexually degrading words to describe an individual, suggestive or obscene letters, notes or invitations.

h. Physical conduct such as touching, assaulting, impeding or blocking movements.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 6 of 14

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

i. Retaliation for making harassment reports or threatening to report harassment.

D. Affordable Care Act (ACA) Anti-Retaliation

Pursuant to section §1558 of the Affordable Care Act, the City prohibits discrimination or retaliation towards any employee who:

1. Receives a health insurance tax credit or subsidy through the Health Care "Marketplace" or "Exchange", by which can trigger a penalty payable by the employer;
2. Reports potential violations of protections afforded under Title I of the Act, which provides guaranteed availability protections among other things;
3. Testifies in a proceeding concerning such violation;
4. Assists or participates in a proceeding concerning a violation; or
5. Objects to, or refuses to participate in, any activity, policy, practice, or assigned task that the employee reasonably believes to be in violation of any provision of the Title I of the Act.

An employee who believes that he or she has been discharged or otherwise discriminated against in violation of section §1558 of the Affordable Care Act may seek relief in accordance with the procedures, notifications, burdens of proof, remedies, and statutes of limitation set forth in section 2087(b) of title 15, United States Code.

IV. REPORTING AND COMPLAINT PROCEDURES

A. Immediate Action Required

The City's reporting and complaint procedures provide for an immediate, thorough and objective investigation of discrimination or harassment claims, appropriate disciplinary action taken against any person found to have engaged in prohibited behavior, and appropriate alternative remedies to any

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 7 of 14

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

employee or non-employee subject to discrimination or harassment. To accomplish this, such incidents must be reported immediately to a supervisor or manager.

1. Employee's and Non-Employee's Responsibilities when Subjected to Discrimination and/or Harassment

   a. Employees or non-employees who believe they have been subjected to discrimination or harassment, or are aware of discrimination or harassment against others, shall report the situation immediately to his/her supervisor or manager, except as specified in subsection (b), below. Employees and non-employees shall report any such incidents occurring in the workplace, whether committed by coworkers, supervisors or managers, or third persons doing business with the City, such as customers or vendors, or other non-employees. If comfortable doing so, an employee or non-employee who has a complaint of discrimination or harassment is encouraged to directly inform the person(s) engaging in the behavior that such conduct is offensive and insist the behavior to stop.

   b. Employees and non-employees must immediately contact a supervisor or manager to register a complaint of discrimination or harassment, unless that supervisor or manager is the individual engaging in the unwanted behavior. In that case, the employee or non-employee may contact someone at the next supervisory level. If the employee or non-employee feels uncomfortable dealing directly with his or her immediate supervisor or manager, he or she may contact the department head, or the Director of Human Resources (or either of their designees) to register a complaint of discrimination or harassment.

   c. Employees and non-employees may file a formal complaint of harassment or discrimination with their department head or

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

with Human Resources. To assist the City in conducting a thorough investigation, complaints shall be submitted in writing and shall include specific details of the incident(s), the names of the individuals involved, the names of any witnesses, and any documentary evidence (notes, pictures, cartoons, etc.) that will corroborate the allegations.

d. Employees and non-employees shall immediately report any retaliation to a supervisor, manager, department head or Director of Human Resources (or designee). All retaliation complaints shall be immediately, objectively and thoroughly investigated in accordance with the investigation procedures. If a report of retaliation is substantiated, appropriate disciplinary action, up to and including discharge shall be taken.

2. Supervisor's or Manager's Responsibilities to Eliminate Discrimination and/or Harassment

a. A supervisor or manager is responsible for enforcing the City's discrimination and harassment policy. Supervisors or managers must ensure that all employees and non-employees are aware of the City's policy through open discussion of the policy at staff meetings and by posting the policy in a conspicuous location accessible to all staff members.

b. A supervisor or manager shall be cognizant of employees' and non-employees' behavior and shall not permit any employee or non-employee under their supervision to be subjected to or engage in any conduct prohibited by this policy.

c. A supervisor or manager who observes conduct prohibited by this policy shall immediately direct the employee or non-employee to cease the conduct.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 9 of 14

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

d. A supervisor or manager who receives a complaint of prohibited conduct is required to take the complaint seriously, and report the matter immediately to the department head; be supportive of the complainant; ensure there is no retaliation against the complainant; conduct an internal fact-finding review into the allegations; obtain as much detailed information as possible; thoroughly document the findings; communicate in written form to the parties the resolution of the complaint; and report to and consult with the Human Resources Department promptly, without delay.

B. Confidentiality. The City will make every effort to protect the privacy and confidentiality of all parties involved, as well as any information and/or documentation obtained, to the extent possible consistent with a thorough investigation.

C. Penalty for Non-Compliance. The City shall take disciplinary action, up to and including discharge, against any supervisor or manager who fails in his/her responsibility to take immediate action in response to an employee's or non-employee's complaint of discrimination or harassment. Further, such disciplinary action shall be taken against a supervisor or manager who fails to stop discriminatory or harassing conduct committed in his/her presence or to stop such conduct about which the supervisor or manager has knowledge.

V. INVESTIGATION PROCEDURES

A. Determination of Responsibility for Investigation

If a formal complaint is filed with the department head or the Director of Human Resources (or either of their designees), the department head and the Director of Human Resources shall consult with one another to determine whether the department or Human Resources shall conduct the fact-finding investigation into the allegations. Either the department head or the Director of Human Resources (or either of their designees), depending on who is

responsible for the investigation, shall issue written notification to the complainant and alleged harasser(s). The notification shall specify the nature of the complaint, and inform the parties that an investigation into the allegations of discrimination and/or harassment shall be conducted.

B. Investigative Guidelines

The investigation shall include the following steps taken in the order best suited to the circumstances:

1. Identify and preserve the evidence.

2. Confirm the name and position of the complainant. Interview the complainant.

3. Allow the complainant the opportunity to place the complaint in writing.

4. Obtain the identity of the alleged harasser(s).

5. Obtain as many details as possible regarding the incident(s) that prompted the complaint, including the number of occurrences, dates, times, locations, and witnesses (if applicable).

6. Ascertain how the complainant felt about the alleged incident when it occurred; complainant's response(s) to the alleged behavior; and witness statements (if applicable).

7. Ascertain if any threats or promises were made in connection with the alleged harassment.

8. Ascertain if the complainant knows of or suspects that there are other victims of harassment by the same person(s).

9. Ascertain whether the complainant has spoken to anyone, especially

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 11 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: **5/1/2015**	Revised From: **7/27/09 4/6/09 3/1/2010 (see below)**

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

supervisors, about the harassment.

10. Ascertain what resolution would be acceptable to the complainant.

11. Interview the alleged harasser to get his or her side of the story, including any possible motivation for a false allegation.

12. Interview witnesses who were identified by the complainant regarding the alleged harasser or other persons identified during the investigation.

13. Interview witnesses who were identified by the alleged harasser or other persons identified during the investigation.

14. Advise all participants that the investigation is "confidential" and not to engage in any retaliatory conduct, as such conduct is subject to disciplinary action up to and including discharge. Confidentiality will be maintained to the extent possible. An individual who is interviewed during the course of an investigation is prohibited from discussing the substance of the interview, except as otherwise directed by a supervisor or the Director of Human Resources. Any individual who discusses the content of an investigatory interview will be subject to discipline or other appropriate sanction.

15. Conduct follow-up interviews, if warranted.

16. Prepare report of findings and discuss with management and designated legal staff.

VI. RESPONDING TO THE COMPLAINT

A. Following the completion of the fact-finding investigation, either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation, shall

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 12 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

make a report of findings, along with a recommendation regarding the appropriate remedial action to be taken, if warranted. The recommendation shall be made after reviewing the findings of the investigation, giving consideration to all factual information, the nature of the alleged conduct, and the totality of the circumstances. If the investigation was conducted by the Director of Human Resources, or designee, the Director, or designee, shall confer with the affected department head and both shall concur on the remedial action to be taken, if any. If the investigation was conducted by the department head, the department head shall confer with the Director of Human Resources prior to making the report of findings and both shall concur on the remedial action to be taken, if any.

B. If either the department head or the Director of Human Resources does not concur with the findings and recommendation of the other, the City Attorney (or designee) shall review and resolve the matter in dispute.

C. Report of findings and recommendation shall be treated as a confidential document and no other distribution shall be made without first consulting with the City Attorney's Office. A completed investigation report will not be disclosed, except as it is deemed necessary to support a disciplinary action, to take remedial action, to defend the City in adversarial proceedings, or to comply with the law or court order.

D. Either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation shall provide a written response to the complainant and the person alleged to have committed the misconduct, discrimination and/or harassment. The response shall include a copy of the City's discrimination and harassment policy and a memorandum indicating the City's determination as to whether the complaint is:

1. Unsustained: The investigation failed to disclose sufficient evidence to substantiate the allegation(s).

2. Unfounded: The investigation proved that the act(s) or omission(s)

Subject:	Directive No. HR-15	Page No. 13 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: **5/1/2015**	Revised From: **7/27/09 4/6/09 3/1/2010 (see below)**

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER 037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

complained of did not occur. The finding also applies when the individual employee(s) named in the complaint were not involved in the act(s) or omission(s) alleged.

3. Sustained: The investigation disclosed sufficient evidence to substantiate the allegation(s) made in the complaint; appropriate action will be taken.

E. Details regarding any specific fact findings or disciplinary action to be taken will not be communicated to the complainant. The City Attorney shall review the response for legal sufficiency before dissemination.

F. The City shall close and retain the investigation file, in accordance with applicable laws, regulations, and City policy regarding retention of City records.

VII. DISCIPLINE

Disciplinary action imposed as a result of any investigation conducted pursuant to this policy shall be commensurate with the severity of the offense, up to and including discharge, even for a first offense.

VIII. ALTERNATIVE REMEDIES

If upon exhausting all internal remedies to file, investigate, and respond to a charges of discrimination/harassment, pursuant to title VII of the Federal Civil Rights Act of 1964 (42 U.S.C §§ 2000e *et seq.)*, any person has a right to file a charge of discrimination/harassment with the Equal Employment Opportunity Commission ("EEOC"). In addition, pursuant to the California Fair Employment and Housing Act (Gov. Code §§ 12900 – 12996.) a person may also file a complaint of discrimination/harassment with the California Department of Fair Employment and Housing ("DFEH"). Employees or non employees who believe that they have been subjected to discrimination/harassment may file a complaint with either of these

agencies. Both the EEOC and DFEH serve as neutral fact finders and attempt to assist parties in resolving disputes voluntarily.

IX. COMMUNICATION OF POLICY

This policy shall be provided to all managers, supervisors, employees, volunteers, unpaid interns, agents or contractors of the City and shall be posted in the appropriate places. All employees shall participate in City approved harassment awareness training as directed by management or Human Resources; and all supervisors, as required by law, shall participate in City approved interactive harassment awareness training and education sessions at least once every two years, or as otherwise specified by law.

APPROVED:

KURT O. WILSON
CITY MANAGER

ADOPT RESOLUTION TO AUTHORIZE THE CRACK SEALING VARIOUS STREETS PROJECT

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Approve Notice of Exemption No. NOE3-22 under the California Environmental Quality Act for the Crack Sealing Various Streets, Project No. WT22003.

2. Approve the plans and specifications for the Crack Sealing Various Streets, Project No. WT22003.

3. Award a Construction Contract in the amount of $224,800 to Pavement Coatings Co. of Sacramento, CA, for the Crack Sealing Various Streets, Project No. WT22003.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

The Crack Sealing Various Streets project will apply crack seal to approximately 23 centerline miles of residential and collector roadways in various streets citywide (Attachment A - Vicinity Map). Crack sealing involves the placement of adhesive material into pavement cracks to prevent water intrusion. Cracks occur on the pavement due to traffic load and thermal stress, and water intrusion then weakens the pavement base structure leading to potholes and pavement failure. Crack sealant slows the deterioration process of cracks and extends the life of the roadway from 2-5 years on average.

The Crack Sealing Various Streets project is part of the Local Street Resurfacing Program FY 2021-22 SB1, which was included in the 2021-26 Five-Year Capital Improvement Plan (CIP).

On March 3, 2022, the City received five bids for the project. Staff recommends award of the Construction Contract to the lowest responsive bidder, Pavement Coatings Co., in the amount of $224,800.

Staff also recommends that Council adopt a resolution approving Notice of Exemption No. NOE3-22 under the California Environmental Quality Act (CEQA) and approving the plans and specifications for the project. Construction is anticipated to be completed by summer 2022, weather permitting.

DISCUSSION

Background

On April 28, 2017, the Governor signed Senate Bill 1 (SB1), known as the Road Repair and Accountability Act of 2017. SB1 funding provides for basic road maintenance, rehabilitation, and critical safety needs on both the State highway and local streets and road systems. The California Transportation Commission (CTC) is responsible for oversight of funding and/or programs created with the approval of SB1.

SB1 provides funding for the Road Maintenance and Rehabilitation Account (RMRA) Program. Other programs include the Local Partnership Program, the Active Transportation Program, State Highway Operation and Protection Program, and Local Streets and Roads Program. The RMRA funding is part of the City's overall Gas Tax allocation; however, RMRA funds can only be expended on projects that meet eligibility criteria and have been approved by the CTC. RMRA funds are accounted for and reported separately from regular Gas Tax funds.

An estimated $6.2 million in SB1 RMRA Program funding was allocated to the City for FY 2021-22 and approved by Council on May 11, 2021, by Resolution No. 2021-05-11-1208. The project list was subsequently approved by the CTC.

The Crack Sealing Various Streets project will apply crack seal to approximately 23 centerline miles of residential and collector roadways in various streets Citywide (Attachment A - Vicinity Map). Crack sealing is a pavement preventative maintenance treatment that prevents water intrusion into the pavement base structure. Cracks occur on the pavement due to traffic load and thermal stress, and water intrusion then weakens the pavement base structure leading to potholes and pavement failure. The process includes clearing cracks of vegetation and debris, then applying sealant that is leveled to match the adjacent pavement surface. Crack sealant slows the deterioration process of cracks and extends the life of the roadway from 2-5 years on average. This treatment also serves as preparatory work for future pavement resurfacing.

The list of roads for this project was developed from the City of Stockton Pavement Management System. Roadways with a Pavement Condition Index (PCI) ranging between 65 and 80 are suitable for this treatment. The Crack Sealing Various Streets, Project No. WT22003, is part of the Local Street Resurfacing Program FY 2021-22 SB1 project, which was included in the 2021-26 Five-Year CIP.

On July 26, 2016, Council adopted a Community Workforce and Training Agreement (CWTA). The CWTA became effective August 25, 2016, and applies to all Public Works projects over $1 million that are bid after that date. On July 16, 2019, by Motion No. 2019-07-16-1403, Council extended the CWTA term to August 25, 2024. The CWTA was not applied to this project because the engineer's estimate was less than $1 million.

Present Situation

On February 7, 2022, the Crack Sealing Various Streets project was advertised for bids. On March 3, 2022, five bids were received with the following results:

COMPANY NAME	BID AMOUNT
Pavement Coatings Co. (Sacramento, CA)	$224,800
Roy Allen Slurry Seal, Inc. (Santa Fe Springs, CA)	$245,800
Graham Contractor's, Inc. (San Jose, CA)	$248,900
Global Road Sealing, Inc. (Garden Grove, CA)	$279,000
Pavement Rehab Co., Inc. (Costa Mesa, CA)	$373,000
Engineer's Estimate	$295,000

The requirements of the Stockton Municipal Code (SMC) section 3.68.090, Local Business Preference, apply to this project. Application of the Local Business Preference has no effect on the bid order. The Local Employment Ordinance, SMC section 3.68.095, also applies to this contract.

The bid from Pavement Coatings Co., the lowest responsive bidder, is regular in all respects. Pavement Coatings Co. has the proper license to perform the work. Staff recommends Council approve the plans and specifications for the project and award a Construction Contract to Pavement Coatings Co. in the amount of $224,800.

The project is in conformance with the City's General Plan, pursuant to California Government Code Section 65402, and is categorically exempt from the requirement of CEQA as specified under Section 15301(c) of the CEQA guidelines. As a result, the project has been granted a Categorical Exemption. The activities related to this project constitute a discretionary project under the City's jurisdiction and qualifies as a project that does not have a significant effect on the environment. This resolution will approve the filing of Notice of Exemption No. NOE3-22 under CEQA. Construction is anticipated to be completed by summer 2022, weather permitting.

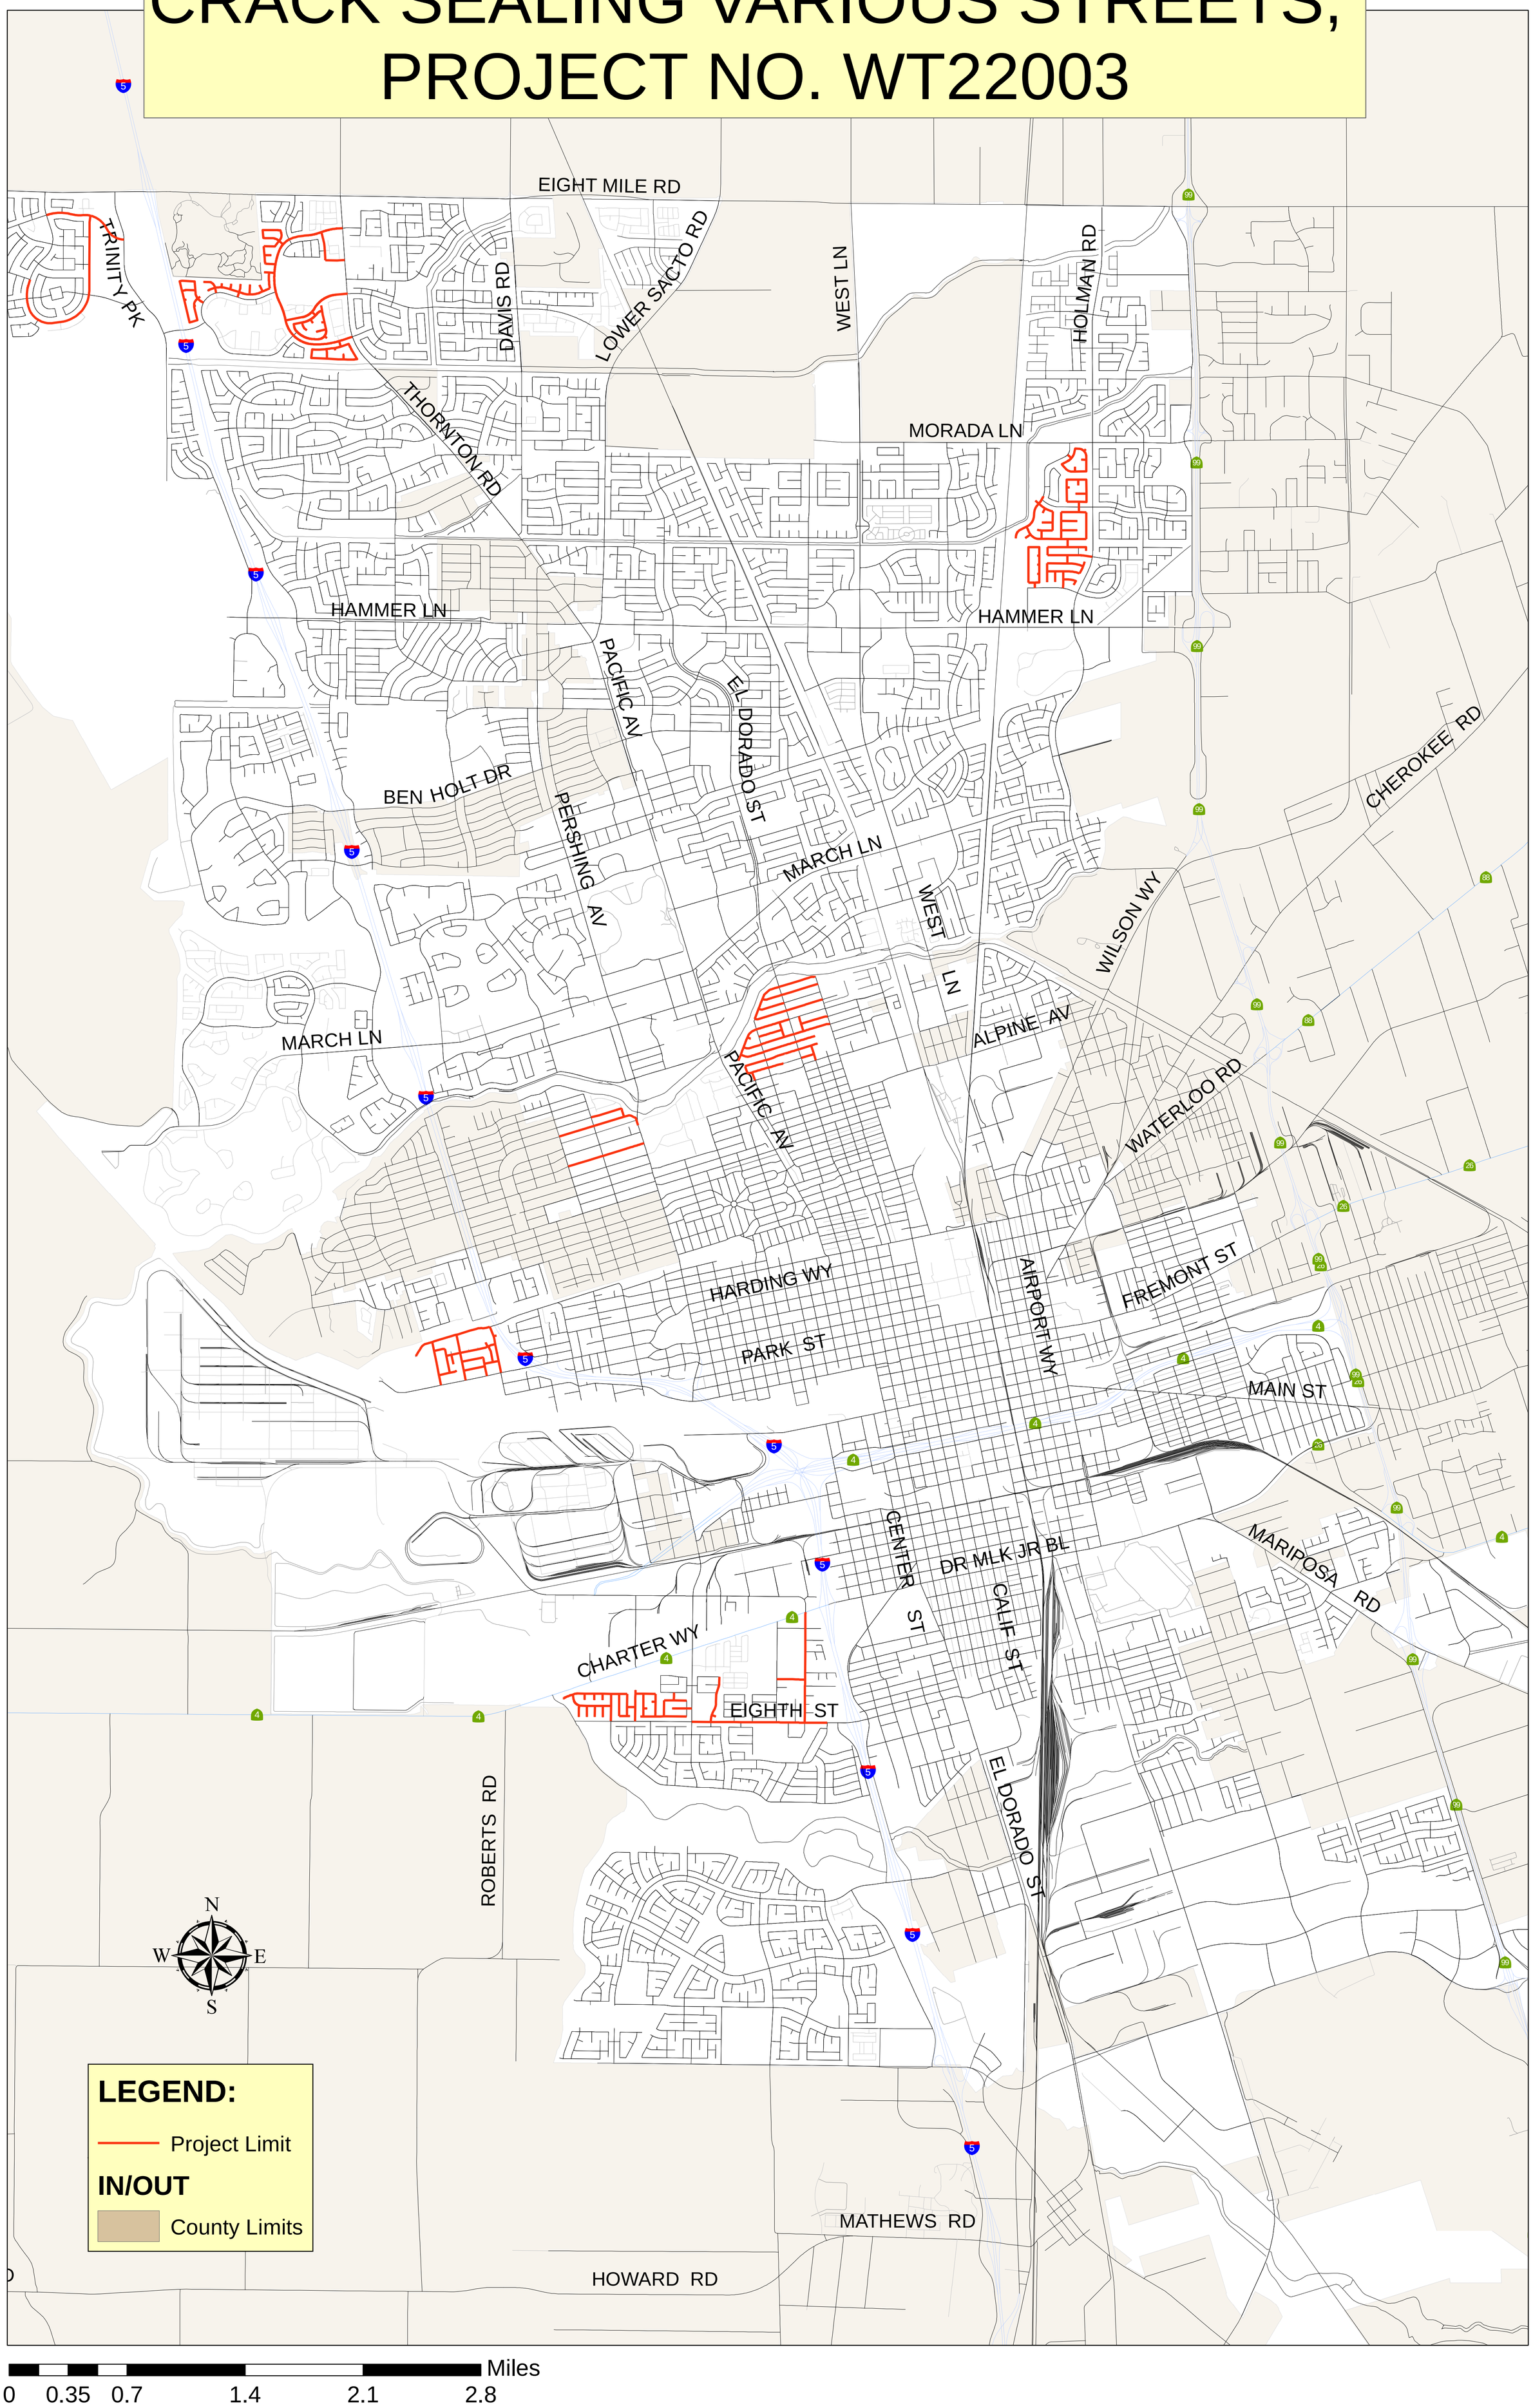
FINANCIAL SUMMARY

There are sufficient funds available in the Local Street Resurfacing Program FY 2021-22 SB1, Project No. WT22003, Account No. 4570-715-800007-240-241-30-45-000-000, to award a Construction Contract to Pavement Coatings Co. in the amount of $224,800 for the Crack Sealing Various Streets, Project No. WT22003.

There is no impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended actions.

Attachment A - Vicinity Map

CRACK SEALING VARIOUS STREETS, PROJECT NO. WT22003



Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING THE NOTICE OF EXEMPTION NO. NOE3-22, APPROVING THE PLANS AND SPECIFICATIONS, AND AWARDING A CONSTRUCTION CONTRACT FOR THE CRACK SEALING VARIOUS STREETS, PROJECT NO. WT22003

On March 3, 2022, the City Clerk of the City of Stockton opened, examined, and publicly declared the sealed proposals or bids offered for the Crack Sealing Various Streets, Project No. WT22003; and

The project will apply crack seal to approximately 23 centerline miles of residential and collector roadways in various streets citywide; and

Pavement Coatings Co. is the lowest responsive bidder in the amount of $224,800; and

The project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) as specified under section 15301(c) of the CEQA Guidelines, because this is a discretionary project under the City's jurisdiction and qualifies as a project which has been determined to not have a significant effect on the environment; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON AS FOLLOWS:

1. The City Council approves the filing of Notice of Exemption No. NOE3-22 under the CEQA for the Crack Sealing Various Streets, Project No. WT22003, a copy of which is attached as Exhibit 1 and incorporated by this reference.

2. The City Council approves the plans and specifications for the Crack Sealing Various Streets, Project No. WT22003.

3. The City Council awards a Construction Contract between the City of Stockton and Pavement Coatings Co. in the amount of $224,800, and the City Manager is authorized and directed to execute same, a copy of which is attached as Exhibit 2 and incorporated by this reference.

//
//
//
//
//
//
//

4. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED June 14, 2022.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

ELIZA R. GARZA, CMC
City Clerk of the City of Stockton

CITY OF STOCKTON
NOTICE OF EXEMPTION

TO: COUNTY CLERK
COUNTY OF SAN JOAQUIN
44 N. San Joaquin St., Ste. 260
Stockton, CA 95202

FROM: Lead Agency
City of Stockton
c/o Public Works Department
22 East Weber Avenue, Suite 301
Stockton, CA 95202

NOTICE OF EXEMPTION PURSUANT TO PUBLIC RESOURCES CODE SECTION 21152(B) AND CALIFORNIA CODE OF REGULATIONS TITLE 14, SECTION 15062

PROJECT DATA

Project Title: CRACK SEALING VARIOUS STREETS, PROJECT NO. WT22003
CEQA Exemption File No.: NOE 3-22
Applicant: City of Stockton Public Works Department
Project Description/Location: The City of Stockton's Public Works Department will be performing repairs via crack seal through various locations Citywide. See attachment A for specific locations. The contractor will provide traffic control and a water pollution control plan.

DETERMINATION/FINDING OF EXEMPTION

The above-described activity/project is exempt from the environmental assessment requirements of the California Environmental Quality Act (CEQA) pursuant to the following section(s) of the State CEQA Guidelines (California Code of Regulations, Title 14):

____ The activity is not a "project" as defined in CEQA Guidelines Section 15378.
____ The activity is exempt under the "general rule" at CEQA Guidelines Section15061(B)(3).
____ The project is "Statutorily Exempt" per CEQA Guidelines Section: _____
__X__ The project is "Categorically Exempt" per CEQA Guidelines Section 15301(c).

BASIS FOR FINDING OF EXEMPTION

____ The activity does not qualify as a project and/or clearly could not have a significant effect on the environment and, therefore, CEQA does not apply.
__X__ The activity constitutes a discretionary project under the City's jurisdiction and qualifies as a project which has been determined not to have a significant effect on the environment and, therefore, is exempt from the provisions of CEQA under the above-noted statutory or categorical exemption(s).

CONSTRUCTION CONTRACT

This contract is made and entered into on _____, by and between **PAVEMENT COATINGS CO.**, a **STATE OF CALIFORNIA corporation with** a business address at **2150 BELL AVENUE, SUITE 125, SACRAMENTO, CA 95838**, hereinafter called "CONTRACTOR," and CITY OF STOCKTON, a municipal corporation, hereinafter called "CITY."

W I T N E S S E T H:

WHEREAS, plans and specifications for the construction of **CRACK SEALING VARIOUS STREETS (PROJECT NO. WT22003)**, hereinafter called "PROJECT," were regularly adopted by **Council Resolution No. _____**, on _____; and

WHEREAS, the contract for said work was regularly awarded to CONTRACTOR, by **Council Resolution No. _____,** on _____.

NOW, THEREFORE, in consideration of the promises and of the mutual covenants herein contained, the parties hereto expressly agree as follows:

CONTRACTOR agrees:

1. SCOPE OF SERVICES. To do the work and furnish all the labor, materials, tools, equipment, and insurance required for the construction of PROJECT in accordance with the plans and specifications adopted on _____, by **Council Resolution No. _____**. The "contract documents," which include the bid documents, project plans, specifications, all letters of clarification, and the City of Stockton Standard Specifications and Plans, are incorporated into and made a part of this contract by this reference to the same extent as if fully set forth.

2. COMPENSATION. To do and perform the work contemplated hereby in a good and workmanlike manner and to furnish all labor, materials, tools, and equipment necessary therefore at the prices specified in **Exhibit A**, attached hereto and by reference made a part hereof, under the direction of and to the complete satisfaction of the Director of Public Works of the City of Stockton. Total compensation for services and reimbursement for costs shall not exceed **$224,800.00**, or as otherwise mutually agreed to in a Contract Change Order.

3. INSURANCE. CONTRACTOR shall not commence any work before obtaining, and shall maintain in force at all times during the duration and performance of this contract, the policies of insurance specified in **Exhibit B**, which is attached to this contract and incorporated by this reference, and as provided in the "contract documents" including Section 7-1.06 of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27, effective September 27, 2016.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured.

Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.

The Additional Insured coverage under the CONTRACTOR's policy shall be "primary and non-contributory" and will not seek contribution from the City of Stockton's insurance or self-insurance and shall be at least as broad as ISO CG 20 01 04 13.

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Stockton (if agreed to in a written contract or agreement) before the City of Stockton's own insurance or self-insurance shall be called upon to protect it as a named insured.

All self-insured retentions (SIR) must be disclosed to the CITY's Risk Management for approval and shall not reduce the limits of liability. Payment Bond in the amount of self-insured retention (SIR) may be required.

Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or the CITY.

The CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements.

Failure to exercise this right shall not constitute a waiver of right to exercise later.

CONTRACTOR shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the City at its sole discretion may purchase the coverage required and the cost will be paid by contractor.

CONTRACTOR agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by CONTRACTOR agree to be bound to CONTRACTOR and the CITY in the same manner and to the same extent as CONTRACTOR is bound to the CITY under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the CITY Contract Document Indemnity

and Insurance provisions will be furnished to the Subcontractor upon request. The General CONTRACTOR shall require all sub-contractors to provide a valid certificate of insurance and the required endorsements included in the agreement prior to commencement of any work and contractor will provide proof of compliance to the City.

4. INDEMNITY AND HOLD HARMLESS. With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, Contractor shall indemnify, protect, defend with counsel approved by City and at Contractor's sole cost and expense, and hold harmless City, its Mayor, Council, officials, representatives, agents, employees, and volunteers from and against any and all claims, causes of action, liabilities, judgments, awards, losses, liens, claims, stop notices, damages, expenses, and costs (including without limitation attorneys' fees, expert and consultant fees, and other expenses of litigation) of every nature, including, but not limited to, death or injury to persons, or damage to property, which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement, or from any violation of any federal, State, or municipal law or ordinance, or City Policy, by Contractor or Contractor's officers, agents, employees, volunteers or subcontractors. Contractor shall not be obligated to indemnify or defend City for claims finally determined by a court of law or arbitrator to arise from the active negligence or willful misconduct of the City. It is the intent of the Parties that this indemnity obligation is at least as broad as is permitted under California law. To the extent California Civil Code sections 2782, et seq., limit the defense or indemnity obligations of Contractor to City, the intent hereunder is to provide the maximum defense and indemnity obligations allowed by Contractor under the law. The indemnity set forth in this section shall not be limited by insurance requirements or by any other provision of this Agreement.

With exception that this section shall in no event be construed to require indemnification, including the duty to defend, by Contractor to a greater extent than permitted under the public policy of the State of California, the parties agree that Contractor's duty to defend City is immediate and arises upon the filing of any claim against the City for damages which arise out of or are in any way connected with the work performed, materials furnished, or services provided under this Agreement by Contractor or Contractor's officers, agents, employees, volunteers or subcontractors. Contractor's duties and obligations to defend the City shall apply regardless of whether or not the issue of the City's liability, breach of this Agreement, or other obligation or fault has been determined. Contractor shall be immediately obligated to pay for City's defense costs of the claim, including, but not limited to, court costs, attorney's fees and costs, expert consultant and witness fees and costs, other witness fees, document reproduction costs, arbitration fees, and, if after final judgment an appeal is pursued, all of such costs for the appeal. At the conclusion of the claim, if there is any determination or finding of sole active negligence or willful misconduct on the part of the City, City will then reimburse Contractor for amounts paid in excess of Contractor's proportionate share of responsibility for the damages within 30 days after Contractor provides City with copies of all bills and expenses incurred in the defense of the claim(s). It is agreed between the

parties that this reimbursement provision assures Contractor is not obligated to defend or indemnify City in an amount greater than provided for under California law, including, without limitation, California Civil Code sections 2782, 2782.6, and 2782.8.

With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, and in addition to the other indemnity obligations in this Agreement, Contractor shall indemnify, defend, and hold harmless City, its Mayor, Council, officials, representatives, agents, employees, and volunteers from and against all claims, losses, expenses, and costs including, but not limited to, attorneys' fees, arising out of any claim brought against the City by an employee, office, agent, or volunteer of Contractor, regardless of whether such claim may be covered by any applicable workers compensation insurance. Contractor's indemnification obligation is not limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor under workers' compensation acts, disability acts, or other employee benefit acts.

The City's acceptance of the insurance certificates required under this Agreement does not relieve the CONTRACTOR from its obligation under this paragraph. The indemnification obligations of this section shall survive the termination of this agreement. Any exceptions to this language may result in a proposal being deemed non-responsive. CONTRACTOR/Subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this agreement for the full period of time allowed by law.

The defense and indemnification obligations of this agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this agreement. If any section, subsection, sentence, clause, or phrase of this indemnification is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this indemnification.

5. STANDARD PLANS AND SPECIFICATIONS. The performance of said work and the furnishing of said materials shall be executed in accordance with Section 8-1.04B of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016, and the provisions of the issued project specifications.

The Director of Public Works will furnish CONTRACTOR a weekly statement showing the number of days charged to the contract for the preceding week, the number of days specified for completion of the contract, and the number of days remaining to complete the contract. CONTRACTOR will be allowed one (1) week in which to file a written protest setting forth in what respects said weekly statement is incorrect, otherwise the statement shall be deemed to have been accepted by CONTRACTOR as correct.

6. WORKING DAYS. This work shall be diligently prosecuted to completion before the expiration of 30 WORKING DAYS beginning on the tenth calendar day after the date shown on the Notice to Proceed. It is agreed by the parties to the contract that in case all the work called for under the contract in all parts and requirements, is not finished or completed within the number of days as set forth, damage will be sustained by the CITY, and that it is and will be impracticable and extremely difficult to ascertain the actual damage which CITY will sustain in the event of and by reason of such delay; and it is therefore agreed that CONTRACTOR will pay to CITY the sum of ONE THOUSAND FIVE HUNDRED DOLLARS AND NO/100 DOLLARS ($1,500) per day for each and every calendar days delay in finishing the work in excess of the number of days prescribed; and CONTRACTOR agrees to pay said liquidated damages as herein provided, and in case the same are not paid, agrees that CITY, may deduct the amount thereof from any monies due or that may become due CONTRACTOR under the contract.

It is further agreed that in case the work called for under the contract is not finished and completed in all parts and requirements within the number of days as specified, the CITY shall have the right to increase the number of days or not, as may seem best to serve the interest of CITY, and if the CITY decides to increase the said number of days, the CITY shall further have the right to charge to CONTRACTOR, CONTRACTOR's heirs, assigns or sureties, and to deduct from the final payment for the work, all or any part, as may be deemed proper, the liquidated damages as specified or the actual cost of engineering, inspection, superintendence, and other overhead expenses which are directly chargeable to the contract, and which accrue during the period of such extension, whichever is greater, except the cost of final surveys and preparation of final estimate shall not be included in such charges.

A working day shall not include, nor shall CONTRACTOR be assessed with liquidated damages nor the additional cost of engineering and inspection during any delay beyond the time named for the completion of the work caused by acts of God or of the public enemy, acts of CITY, fire, floods, epidemics, quarantine restrictions, strikes, and freight embargoes and subject to approval by the Director of Public Works, inability to get materials ordered by CONTRACTOR or subcontractor due to such causes provided that CONTRACTOR shall notify the Director of Public Works in writing of the causes of delay within five (5) working days from the beginning of any such delay, and the Director shall ascertain the facts and the extent of the delay, and Director's findings of the facts thereon shall be final and conclusive.

If CONTRACTOR is delayed by reason of alterations made in these specifications, or by any act of the Director of Public Works or of the CITY, not contemplated by the contract, the time of completion shall be extended proportionately, and CONTRACTOR shall be relieved during the period of such extension of any claim for liquidated damages, engineering or inspection charges or other penalties. CONTRACTOR shall have no claim for any other compensation for any such delay.

7. CONFORMANCE TO APPLICABLE LAWS. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Contract on the basis of any legally protected classification, including race, color, national origin, ancestry, sex, or religion of such person.

a. TITLE VI

Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d) http://www.dol.gov/oasam/regs/statutes/titlevi.htm.

The City of Stockton requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

b. DISCRIMINATION AND HARASSMENT POLICY

The City of Stockton has a Discrimination and Harassment Policy **Exhibit C**. The purpose of this policy is to reaffirm the CITY's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace, to define the types of behavior and conduct prohibited by this policy, and to set forth a procedure for reporting, investigating, and resolving complaints of discrimination and harassment in the workplace.

c. LABOR STANDARDS PROVISIONS/CALIFORNIA LABOR CODE

The bidder shall understand that conditions set forth in Chapter 1, Part 7, Division 2 of the California Labor Code shall be considered part of the contract agreement. https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=LAB&division=2.&title=&part=7.&chapter=1.&article=2.

d. PREVAILING WAGE

CONTRACTOR and any subcontractor shall pay each employee engaged in the trade or occupation not less than the prevailing hourly wage rate. In accordance with the provisions of Section 1770 of the Labor Code, the Director of Department of Industrial Relations of the State of California has determined the general prevailing wage and employer payments for health and welfare, pension, vacation, travel time, and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs

authorized by Section 3093 and similar purposes applicable to the work to be done. CONTRACTOR performing the work under this contract shall obtain a copy of the wage rate determination and shall distribute copies to each subcontractor. As the wage determination for each craft reflects an expiration date, it shall be the prime CONTRACTOR and each subcontractor's responsibility to ensure that the prevailing wage rates of concern is current and paid to the employee.

i. The CONTRACTOR performing the work shall be responsible for obtaining a copy of the State wage rate determination. State wage rates may be obtained at http://www.dir.ca.gov/OPRL/pwd/Determinations/Northern/Northern.pdf. The CONTRACTOR shall be responsible for posting said wage rates at a prominent location at the worksite and shall maintain the same in a good readable condition for the duration of the work.

ii. Should the CONTRACTOR choose to work on a Saturday, Sunday or on a holiday recognized by the Labor Unions, the CONTRACTOR shall reimburse the CITY the actual cost of engineering, inspection, superintendence, and or other overhead expenses which are directly chargeable to the contract. Should such work be undertaken at the request of the CITY, reimbursement will not be required. To conform strictly with the provisions of Division 2, Part 7, Chapter 1, Article 2, of the Labor Code of the State of California. To forfeit as a penalty to CITY the sum of TWENTY-FIVE AND NO/100 DOLLARS ($25.00) for each laborer, worker, or mechanic employed by CONTRACTOR, or by any subcontractor under CONTRACTOR, in the execution of this contract, for each calendar day during which any laborer, worker, or mechanic is required or permitted to work more than eight (8) hours and who is not paid the general prevailing rate of per diem wages for holiday and overtime work in violation of the provisions of Sections 1770 to 1781 of the Labor Code of the State of California. That all sums forfeited under the provisions of the foregoing sections shall be deducted from the payments to be made under the terms of this contract.

iii. The CONTRACTOR to whom the contract is awarded shall insure that the prime and each subcontractor will in accordance with Section 1776 of the Labor Code, maintain certified payroll records. A copy of said records shall be provided with each invoice to the Public Works Department, Attention Contract Compliance Officer. It shall be the CONTRACTOR'S responsibility to obtain copies of the current prevailing wage rate determination for all subcontractors. Additionally, certified payroll records must be uploaded to the DIR website as required by labor code.

iv. The CONTRACTOR shall comply with the provisions established in Section 1777.5 of the Labor Code concerning the 1) certified approval by local joint apprenticeship committees for the employment and training of apprentices, and 2) contribution of funds to administer and conduct apprenticeship programs, if applicable to the job.

e. LOCAL EMPLOYMENT ORDINANCE

Pursuant to Stockton Municipal Code Section 3.68.095 the CONTRACTOR and all subcontractors shall make a good faith effort to employ at least 50 percent of the workforce on this project from local residents, as measured by total labor work hours. Failure of any CONTRACTOR or subcontractor to comply with these requirements shall be deemed a material breach of the contract or subcontract. CONTRACTORS and subcontractors shall maintain records necessary for monitoring their compliance with section 3.68.095.

CITY agrees:

8. COMPENSATION. To pay CONTRACTOR for the work herein contemplated in the following manner: Progress payments will be made on or about the first day of each calendar month, in such sum as shall make the aggregate of payment up to such day equal to ninety-five percent (95%) of the proportional contract price, upon the basis of the progress certificate of the Director of Public Works as to the amount of work done and the proportional amount of the contract price represented, therefore; and all of the remaining part of the contract price not as aforesaid paid, shall be paid at the expiration of thirty-five (35) days from the completion of said work of construction and the certification by the Director of Public Works of such completion.

9. SECURITIES. Pursuant to Section 22300 of the Public Contract Code, CONTRACTOR will be permitted, at its request and sole expense, to substitute securities for any monies withheld by the CITY to ensure performance under the contract. Said securities will be deposited either with the CITY or with a State or federally chartered bank as escrow agent. Securities eligible for this substitution are those listed in Section 16430 of the California Government Code or bank or savings and loan certificates of deposit. CONTRACTOR shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

10. CHANGE ORDERS. CITY reserves the right to make such alterations, deviations, additions to, or omissions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work, as may be deemed by the Engineer to be necessary or advisable and to require such extra work as may be determined by the Engineer to be required for the proper completion or construction of the whole work contemplated.

Any such changes will be set forth in a contract change order which will specify, in addition to the work done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for such work. A contract change order will not become effective until approved by the City Manager and/or the City Council.

Processing of change orders shall be in accordance with Section 4-1.05A of the City of Stockton Standard Specifications and Plans as adopted by Council on September 27, 2016, by Resolution No. 2016-09-27-1213, effective September 27, 2016, or as otherwise amended by Council. When the compensation for an item of work is subject to adjustment under the provisions of Standard Specifications and Plans, Section 4-1.05A, CONTRACTOR shall, upon request, promptly furnish the Engineer with adequate detailed cost data for such item of work.

11. AUDITS. CITY reserves the right to periodically audit all charges made by CONTRACTOR to CITY for services under the contract. Upon request, CONTRACTOR agrees to furnish CITY, or a designated representative, with necessary information and assistance.

CONTRACTOR agrees that CITY or its delegate will have the right to review, obtain and copy all records pertaining to performance of the contract. CONTRACTOR agrees to provide CITY or its delegate with any relevant information requested and shall permit CITY or its delegate access to its premises, upon reasonable notice, during normal business hours for the purpose of interviewing employees and inspecting and copying such books, records, accounts, and other material that may be relevant to a matter under investigation for the purpose of determining compliance with this requirement. CONTRACTOR further agrees to maintain such records for a period of three (3) years after final payment under the contract.

12. **WAIVER.** It is expressly understood and agreed by and between the parties hereto that a waiver of any of the conditions of this contract shall not be considered a waiver of any of the other conditions thereof.

It is further understood and agreed by and between the parties hereto that time is of the essence of this contract in all respects.

IN WITNESS WHEREOF, the parties hereto have hereunto affixed their hands and seals the day and year first above written.

NON-COLLUSION DECLARATION

(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

To the CITY of STOCKTON DEPARTMENT OF PUBLIC WORKS.

The undersigned declares:

I am the Vice President, of Pavement Coatings Co., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on 02/22/2022 at Sacramento (city), CA (state).

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 24th day of February, 2022.

NOTE: The City of Stockton is now using the online insurance program PINS Advantage. Once you have been awarded a contract you will receive an email from the City's online insurance program requesting you to forward the email to your insurance provider(s). Please see attached flyer regarding PINS Advantage.

Exhibit B:
Insurance Requirements for Construction Contracts

Contractor shall procure and maintain for the duration of the contract, *and for five (5) years thereafter* , insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, their agents, representatives, employees, or subcontractors. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the City, at its sole discretion, may purchase the coverage required and the cost will be paid by the contractor.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office (ISO) Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form CA 0001 covering Code 1 (any auto), with limits no less than **$2,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employers' Liability insurance with a limit of no less than $1,000,000 per accident for bodily injury or disease.

4. **Surety Bonds** as described below.

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named insured; whichever is greater. No

representation is made that the minimum insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

Limits of Insurance

The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Claims Made Policies – (Note – applicable only to professional and/or pollution liability)

If any coverage required is written on a claims-made coverage form:

1. The retroactive date must be shown, and this date must be before the execution date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.

3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the contract effective, or start of work date, the Contractor must purchase extended reporting period coverage for a minimum of five (5) years after completion of contract work.

4. A copy of the claims reporting requirements must be submitted to the City of Stockton for review.

5. If the services involve lead-based paint or asbestos identification/remediation, the Contractors Pollution Liability policy shall not contain lead-based paint or asbestos exclusions. If the services involve mold identification/remediation, the Contractors Pollution Liability policy shall not contain a mold exclusion, and the definition of Pollution shall include microbial matter, including mold.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City of Stockton Risk Services before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.

Subcontractors

Contractors shall require and verify that all subcontractors, or other parties hired for this work, purchase and maintain coverage for indemnity and insurance requirements as least as broad as specified in this agreement to the extent they apply to the scope of the subcontractor's work with the same certificate of insurance requirements and naming as additional insureds all parties to this contract. Contractor shall include the following language in their agreement with Subcontractors: Subcontractors hired by Contractor agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under the contract documents and provide a valid certificate of insurance and the required endorsements included in the agreement as proof of compliance prior to commencement of any work and to include this same requirement for any subcontractors they hire for this work. A copy of the owner contract document indemnity and insurance provisions will be furnished to the subcontractor upon request. Contractor shall provide proof of such compliance and verification to the City upon request.

Surety Bonds

Contractor shall provide the following Surety Bonds:

1. Bid bond

2. Performance bond

3. Payment bond (or Labor and Material bond)

4. Maintenance bond

The Payment Bond and the Performance Bond shall be in a sum equal to one hundred percent (100%) of the contract price. If the Performance Bond provides for a one-year warranty a separate Maintenance Bond is not necessary. If the warranty period specified in the contract is for longer than one year a Maintenance Bond equal to 10% of the contract price is required. Bonds shall be duly executed by a responsible corporate surety, authorized to issue such bonds in the State of California and secured through an authorized agent with an office in California.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

Proper address for mailing certificates, endorsements and notices shall be:

City of Stockton
Attn: City Risk Services
400 E Main Street, 3rd Floor – HR

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 1 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: **5/1/2015**	Revised From: **7/27/09 4/6/09 3/1/2010 (see below)**

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

I. PURPOSE

The purpose of this policy is to reaffirm the City's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace. This policy defines prohibited behavior and conduct, and sets forth a procedure for reporting, investigating and resolving complaints of discrimination, harassment, in the workplace, including retaliation and hostile work environment.

II. POLICY

A. The City of Stockton prohibits any form of discrimination and/or harassment of any person based on race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute consistent with state or federal law. All such discrimination and harassment is unlawful and shall not be tolerated. In addition, under the federal Affordable Care Act (ACA), the City of Stockton prohibits discrimination and/or harassment, or retaliation against an employee who obtains coverage, receives a tax credit or subsidy through the Health Care "Market Place" or "Exchange."

B. It is an unlawful employment practice to discriminate against or to harass an unpaid intern or volunteer on the basis of any legally protected classification unless an exception applies, such as a bona fide occupational qualification.

C. The City will neither tolerate nor condone discrimination and/or harassment of employees by managers, supervisors, co-workers, or non-employees with whom City employees have a business service, or professional relationship.

D. All City employees and non-employees share a responsibility to assist in

DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

maintaining an employment environment free of discrimination and harassment. This policy applies to all aspects of City employment, including, but not limited to, hiring, reassignment, placement, promotion, employment action, disciplinary action, layoff, reemployment, transfer, leave of absence, compensation and benefits, training; or other terms of treatment of that person in an unpaid internship, or another limited duration program to provide unpaid work experience for that person, or the harassment of an unpaid intern or volunteer.

E. All allegations of discrimination and/or harassment shall be investigated immediately by the City, in accordance with this policy. If it is determined that any prohibited activity has occurred, remedial action shall be taken. Such action may include discipline up to and including discharge. In addition, under applicable law, individual supervisors and employees may be subject to personal liability and/or punitive damages in any litigation arising as a result of such conduct.

F. All new hires shall attend harassment awareness training, and supervisors and managers shall attend harassment awareness and prevention training for supervisors every two years.

G. The City of Stockton prohibits retaliation against any employee or non-employee by another employee, non-employee, supervisor, or manager for reporting, filing, testifying, assisting or participating in any manner in any investigation, proceeding, or hearing conducted by the employer or a federal or state enforcement agency.

H. This policy applies to all officials, employees, volunteers, unpaid interns, agents, or contractors of the City.

I. This policy shall be administered by the Director of Human Resources.

CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE

Subject:	Directive No. HR-15	Page No. 3 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

III. DEFINITION AND EXAMPLES OF DISCRIMINATION AND HARASSMENT

A. "Discrimination," as used in this policy, is any action, behavior, practice, or process that is intended to deny, or results in the denial of, employment rights, privileges, or benefits because of a person's race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other prohibition identified under state and federal law. The following are examples of conduct that may constitute discrimination:

1. Soliciting applications from a source where all or most of potential workers are of the same race or color.

2. Considering a person's gender as the basis for differences in pay, work assignments, performance evaluations, training, discipline, or any other area of employment; and

3. Questioning a job applicant about the existence, nature and severity of a disability.

B. "Harassment," as used in this policy, consists of any conduct affecting another person because of his or her race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute identified under state and federal law when such conduct has the purpose or the effect of: (1) creating an intimidating, hostile or offensive work environment; (2) unreasonably interfering with the employee's or non-employee's work performance; or (3)

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

otherwise adversely affecting an employee's or non-employee's employment opportunities.

Harassment may take many forms, including, but not limited to, the following examples:

1. Verbal Harassment: Epithets, derogatory and offensive comments or slurs based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

2. Physical Harassment: Assault, impeding or blocking movement that results in the physical interference with normal work or movement on the basis of race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

3. Visual Harassment: The displaying of posters, photography, notices, bulletins, e-mails, cartoons or drawings with derogatory and offensive content based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.

C. "Sexual harassment," as used in this policy, is a subcategory of harassment, and is specifically defined by law as unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made a term or condition of employment; or

2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual; or

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

3. Such conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work performance or creating an intimidating, hostile or offensive working environment because of the persistent, severe or pervasive nature of the conduct.

Examples of Sexual Harassment include, but are not limited to the following:

a. Unwelcome sexual overtures or propositions.

b. Offering employment benefits or status in exchange for sexual favors.

c. Making or threatening retaliation after a negative response to sexual advances.

d. Visual conduct such as leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons, calendars or posters.

e. Verbal conduct such as using epithets or slurs, telling sexually explicit jokes, or making derogatory or suggestive comments about a person's body or dress.

f. Written communications of a sexual nature distributed in hard copy, soft copy or via a computer network.

g. Verbal abuse of a sexual nature, graphic verbal commentary about an individual's body, sexually degrading words to describe an individual, suggestive or obscene letters, notes or invitations.

h. Physical conduct such as touching, assaulting, impeding or blocking movements.

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

i. Retaliation for making harassment reports or threatening to report harassment.

D. Affordable Care Act (ACA) Anti-Retaliation

Pursuant to section §1558 of the Affordable Care Act, the City prohibits discrimination or retaliation towards any employee who:

1. Receives a health insurance tax credit or subsidy through the Health Care "Marketplace" or "Exchange", by which can trigger a penalty payable by the employer;
2. Reports potential violations of protections afforded under Title I of the Act, which provides guaranteed availability protections among other things;
3. Testifies in a proceeding concerning such violation;
4. Assists or participates in a proceeding concerning a violation; or
5. Objects to, or refuses to participate in, any activity, policy, practice, or assigned task that the employee reasonably believes to be in violation of any provision of the Title I of the Act.

An employee who believes that he or she has been discharged or otherwise discriminated against in violation of section §1558 of the Affordable Care Act may seek relief in accordance with the procedures, notifications, burdens of proof, remedies, and statutes of limitation set forth in section 2087(b) of title 15, United States Code.

IV. REPORTING AND COMPLAINT PROCEDURES

A. Immediate Action Required

The City's reporting and complaint procedures provide for an immediate, thorough and objective investigation of discrimination or harassment claims, appropriate disciplinary action taken against any person found to have engaged in prohibited behavior, and appropriate alternative remedies to any

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

employee or non-employee subject to discrimination or harassment. To accomplish this, such incidents must be reported immediately to a supervisor or manager.

1. Employee's and Non-Employee's Responsibilities when Subjected to Discrimination and/or Harassment

   a. Employees or non-employees who believe they have been subjected to discrimination or harassment, or are aware of discrimination or harassment against others, shall report the situation immediately to his/her supervisor or manager, except as specified in subsection (b), below. Employees and non-employees shall report any such incidents occurring in the workplace, whether committed by coworkers, supervisors or managers, or third persons doing business with the City, such as customers or vendors, or other non-employees. If comfortable doing so, an employee or non-employee who has a complaint of discrimination or harassment is encouraged to directly inform the person(s) engaging in the behavior that such conduct is offensive and insist the behavior to stop.

   b. Employees and non-employees must immediately contact a supervisor or manager to register a complaint of discrimination or harassment, unless that supervisor or manager is the individual engaging in the unwanted behavior. In that case, the employee or non-employee may contact someone at the next supervisory level. If the employee or non-employee feels uncomfortable dealing directly with his or her immediate supervisor or manager, he or she may contact the department head, or the Director of Human Resources (or either of their designees) to register a complaint of discrimination or harassment.

   c. Employees and non-employees may file a formal complaint of harassment or discrimination with their department head or

with Human Resources. To assist the City in conducting a thorough investigation, complaints shall be submitted in writing and shall include specific details of the incident(s), the names of the individuals involved, the names of any witnesses, and any documentary evidence (notes, pictures, cartoons, etc.) that will corroborate the allegations.

d. Employees and non-employees shall immediately report any retaliation to a supervisor, manager, department head or Director of Human Resources (or designee). All retaliation complaints shall be immediately, objectively and thoroughly investigated in accordance with the investigation procedures. If a report of retaliation is substantiated, appropriate disciplinary action, up to and including discharge shall be taken.

2. Supervisor's or Manager's Responsibilities to Eliminate Discrimination and/or Harassment

a. A supervisor or manager is responsible for enforcing the City's discrimination and harassment policy. Supervisors or managers must ensure that all employees and non-employees are aware of the City's policy through open discussion of the policy at staff meetings and by posting the policy in a conspicuous location accessible to all staff members.

b. A supervisor or manager shall be cognizant of employees' and non-employees' behavior and shall not permit any employee or non-employee under their supervision to be subjected to or engage in any conduct prohibited by this policy.

c. A supervisor or manager who observes conduct prohibited by this policy shall immediately direct the employee or non-employee to cease the conduct.

d. A supervisor or manager who receives a complaint of prohibited conduct is required to take the complaint seriously, and report the matter immediately to the department head; be supportive of the complainant; ensure there is no retaliation against the complainant; conduct an internal fact-finding review into the allegations; obtain as much detailed information as possible; thoroughly document the findings; communicate in written form to the parties the resolution of the complaint; and report to and consult with the Human Resources Department promptly, without delay.

B. Confidentiality. The City will make every effort to protect the privacy and confidentiality of all parties involved, as well as any information and/or documentation obtained, to the extent possible consistent with a thorough investigation.

C. Penalty for Non-Compliance. The City shall take disciplinary action, up to and including discharge, against any supervisor or manager who fails in his/her responsibility to take immediate action in response to an employee's or non-employee's complaint of discrimination or harassment. Further, such disciplinary action shall be taken against a supervisor or manager who fails to stop discriminatory or harassing conduct committed in his/her presence or to stop such conduct about which the supervisor or manager has knowledge.

V. INVESTIGATION PROCEDURES

A. Determination of Responsibility for Investigation

If a formal complaint is filed with the department head or the Director of Human Resources (or either of their designees), the department head and the Director of Human Resources shall consult with one another to determine whether the department or Human Resources shall conduct the fact-finding investigation into the allegations. Either the department head or the Director of Human Resources (or either of their designees), depending on who is

Subject:	Directive No. HR-15	Page No. 10 of 14
DISCRIMINATION AND HARASSMENT POLICY	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

responsible for the investigation, shall issue written notification to the complainant and alleged harasser(s). The notification shall specify the nature of the complaint, and inform the parties that an investigation into the allegations of discrimination and/or harassment shall be conducted.

B. Investigative Guidelines

The investigation shall include the following steps taken in the order best suited to the circumstances:

1. Identify and preserve the evidence.

2. Confirm the name and position of the complainant. Interview the complainant.

3. Allow the complainant the opportunity to place the complaint in writing.

4. Obtain the identity of the alleged harasser(s).

5. Obtain as many details as possible regarding the incident(s) that prompted the complaint, including the number of occurrences, dates, times, locations, and witnesses (if applicable).

6. Ascertain how the complainant felt about the alleged incident when it occurred; complainant's response(s) to the alleged behavior; and witness statements (if applicable).

7. Ascertain if any threats or promises were made in connection with the alleged harassment.

8. Ascertain if the complainant knows of or suspects that there are other victims of harassment by the same person(s).

9. Ascertain whether the complainant has spoken to anyone, especially

supervisors, about the harassment.

10. Ascertain what resolution would be acceptable to the complainant.

11. Interview the alleged harasser to get his or her side of the story, including any possible motivation for a false allegation.

12. Interview witnesses who were identified by the complainant regarding the alleged harasser or other persons identified during the investigation.

13. Interview witnesses who were identified by the alleged harasser or other persons identified during the investigation.

14. Advise all participants that the investigation is "confidential" and not to engage in any retaliatory conduct, as such conduct is subject to disciplinary action up to and including discharge. Confidentiality will be maintained to the extent possible. An individual who is interviewed during the course of an investigation is prohibited from discussing the substance of the interview, except as otherwise directed by a supervisor or the Director of Human Resources. Any individual who discusses the content of an investigatory interview will be subject to discipline or other appropriate sanction.

15. Conduct follow-up interviews, if warranted.

16. Prepare report of findings and discuss with management and designated legal staff.

VI. RESPONDING TO THE COMPLAINT

A. Following the completion of the fact-finding investigation, either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation, shall

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

make a report of findings, along with a recommendation regarding the appropriate remedial action to be taken, if warranted. The recommendation shall be made after reviewing the findings of the investigation, giving consideration to all factual information, the nature of the alleged conduct, and the totality of the circumstances. If the investigation was conducted by the Director of Human Resources, or designee, the Director, or designee, shall confer with the affected department head and both shall concur on the remedial action to be taken, if any. If the investigation was conducted by the department head, the department head shall confer with the Director of Human Resources prior to making the report of findings and both shall concur on the remedial action to be taken, if any.

B. If either the department head or the Director of Human Resources does not concur with the findings and recommendation of the other, the City Attorney (or designee) shall review and resolve the matter in dispute.

C. Report of findings and recommendation shall be treated as a confidential document and no other distribution shall be made without first consulting with the City Attorney's Office. A completed investigation report will not be disclosed, except as it is deemed necessary to support a disciplinary action, to take remedial action, to defend the City in adversarial proceedings, or to comply with the law or court order.

D. Either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation shall provide a written response to the complainant and the person alleged to have committed the misconduct, discrimination and/or harassment. The response shall include a copy of the City's discrimination and harassment policy and a memorandum indicating the City's determination as to whether the complaint is:

1. Unsustained: The investigation failed to disclose sufficient evidence to substantiate the allegation(s).

2. Unfounded: The investigation proved that the act(s) or omission(s)

complained of did not occur. The finding also applies when the individual employee(s) named in the complaint were not involved in the act(s) or omission(s) alleged.

3. Sustained: The investigation disclosed sufficient evidence to substantiate the allegation(s) made in the complaint; appropriate action will be taken.

E. Details regarding any specific fact-findings or disciplinary action to be taken will not be communicated to the complainant. The City Attorney shall review the response for legal sufficiency before dissemination.

F. The City shall close and retain the investigation file, in accordance with applicable laws, regulations, and City policy regarding retention of City records.

VII. DISCIPLINE

Disciplinary action imposed as a result of any investigation conducted pursuant to this policy shall be commensurate with the severity of the offense, up to and including discharge, even for a first offense.

VIII. ALTERNATIVE REMEDIES

If upon exhausting all internal remedies to file, investigate, and respond to a charges of discrimination/harassment, pursuant to title VII of the Federal Civil Rights Act of 1964 (42 U.S.C §§ 2000e *et seq.)*, any person has a right to file a charge of discrimination/harassment with the Equal Employment Opportunity Commission ("EEOC"). In addition, pursuant to the California Fair Employment and Housing Act (Gov. Code §§ 12900 – 12996.) a person may also file a complaint of discrimination/harassment with the California Department of Fair Employment and Housing ("DFEH"). Employees or non-employees who believe that they have been subjected to discrimination/harassment may file a complaint with either of these

THE FISCAL YEAR 2022-23 PROJECT LIST FOR THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017 (SB1) AND SUBMITTAL OF REPORTS TO THE CALIFORNIA TRANSPORTATION COMMISSION

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Approve the Fiscal Year 2022-23 project list for the Road Repair and Accountability Act of 2017 (SB1).

2. Approve submittal of reports to the California Transportation Commission related to the Road Repair and Accountability Act of 2017 (SB1).

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

Adoption of the proposed resolution allocates an estimated $7,314,000 in new funding to local street resurfacing; curb, gutter, sidewalk, and curb ramp repair; LED streetlight conversion; streetlight pole replacement; and street re-striping. On April 28, 2017, the Governor signed Senate Bill 1 (SB1), known as the Road Repair and Accountability Act of 2017. SB1 funding provides for basic road maintenance, rehabilitation, and critical safety needs on both the State highway and local streets and road systems. The California Transportation Commission (CTC) is responsible for oversight of funding and/or programs created with the approval of SB1.

SB1 funds the Road Maintenance and Rehabilitation Account (RMRA) Program. The CTC adopted guidelines that require agencies to submit a list of eligible RMRA projects by July 1 of each fiscal year (FY). The FY 2022-23 RMRA funding allocation for the City is estimated to be $7,314,000. Staff recommends that funding be allocated to local street resurfacing, curb, gutter, sidewalk, and curb ramp repair, streetlight pole replacement, street furniture painting, and street re-striping. Specific locations within these project categories are selected by utilizing a variety of data resources and analysis methods. Street resurfacing locations are selected based on pavement condition data and cost/benefit analysis utilizing the City's pavement management system (PMS). Curb, gutter, sidewalk, and curb ramp repair locations are prioritized in chronological order, based on the date of the original customer service request. Selected residential streetlights with high-pressure sodium streetlights will be replaced with LED streetlight fixtures. Streetlight poles that are found to be oxidized will be replaced. Re-stripe of worn traffic striping along arterial and collector streets will be done as funding allows.

The recommended action approves the allocation of available funding for the projects listed in Exhibit 1 to the Resolution. The projects are included in the proposed FY 2022-27 Capital Improvement Plan (CIP). The projects are anticipated to be advertised for construction bids by late 2022, with most of the construction activity to be undertaken in 2023, weather permitting.

DISCUSSION

Background

On April 28, 2017, the Governor signed SB1, known as the Road Repair and Accountability Act of 2017. SB1 funding provides basic road maintenance, rehabilitation, and critical safety needs on both the State highway and local streets and road systems. The CTC is responsible for oversight of funding and/or programs created with the approval of SB1.

SB1 provides funding for the RMRA Program. Other programs include the Local Partnership Program, the Active Transportation Program, State Highway Operation and Protection Program, and Local Streets and Roads Program. The RMRA funding is part of the City's overall Gas Tax allocation; however, RMRA funds can only be expended on projects that meet eligibility criteria and have been approved by the CTC. RMRA funds are accounted for and reported separately from regular Gas Tax funds.

At its June 2017 meeting, the CTC adopted programmatic guidelines which set forth the process and procedures for using the RMRA funding. The guidelines are intended to provide guidance and ensure accountability of funding invested on public projects.

An estimated $6.2 million in SB1 RMRA Program funding was allocated to the City for FY 2021-22 as approved by Council on May 11, 2021, by Resolution No. 2021-05-11-1208. An update of the delivery of the FY 2021-22 projects is included as Attachment A.

Present Situation

In accordance with the program guidelines, each agency is required to submit a list of eligible RMRA projects to the CTC by July 1 of each fiscal year. The criteria for eligible projects include road maintenance and rehabilitation, safety initiatives, railroad grade separations, complete streets components, and traffic control improvements. The funds cannot be used for general miscellaneous transportation maintenance operations.

Funding for the City is estimated to be $7,314,000 for FY 2022-23. Staff recommends that the project funding be allocated to the following local street resurfacing; curb, gutter, sidewalk, and curb ramp repair; streetlight pole replacement; and street re-striping projects:

- Local Street Resurfacing - Install approximately 45 centerline miles of resurfacing treatments on local roadways Citywide ($4,586,000). The City's PMS is used to determine which specific roadway segments should be included. The system analyzes variables such as current pavement condition and projected traffic load to forecast how roadway segments will decline over time. The forecasts are used to evaluate the cost and benefit of repair options and identify the optimal pavement resurfacing plan. The current pavement condition is numerically

represented by the pavement condition index (PCI), which is calculated for each roadway segment utilizing a nationally standardized method. A PCI rating of 100 means the street is in perfect condition. A zero means the road has no functioning surface. Resurfacing work consists of either slurry seal resurfacing, micro-surfacing, cape seal, or an asphalt overlay. A cost-effective method of maintaining streets is to provide treatment for streets that are in fair to good condition (PCI ratings near or above 70). The preservation of streets in this condition is critical, as rehabilitation costs rise exponentially as pavements deteriorate. Examples of project locations include:

- Fresno Avenue from State Route 4 to Navy Drive
- Waterbury Drive from Davis Road to Whistler Way
- Pock Lane from Industrial Drive to San Joaquin County Line
- Euclid Avenue from Sutter Street to El Dorado Street

The City's current overall PCI for the entire network is approximately 64 (on a 0 to 100 scale. Continued allocation of a significant portion of RMRA funds to pavement resurfacing is expected to result in incremental progress toward the City's long-term goal of an overall network PCI of 70.

- Curb, Gutter, Sidewalk, and Curb Ramp - Remove and replace City tree-damaged curb, gutter, and sidewalk and update curb ramps at approximately 120 (75 sidewalk and 45 curb ramps) locations citywide ($1,450,000). The City regularly receives requests for the repair of curb, gutter, and sidewalks and the installation of curb ramps. Each request is evaluated to determine if the repair is the City's responsibility. If repairs are warranted, the location is added to a database for future permanent repairs. For sidewalk locations that need immediate correction, the temporary repair is made using asphalt concrete material to patch the displaced area to remove the tripping hazard. Permanent repairs are made as funding becomes available and are prioritized in chronological order, based on the date of the original service request.

- Streetlight Pole Replacement - Replace streetlight poles that are oxidized and replace streetlight foundations with damaged anchor bolts as needed ($328,000).

- Street Furniture Painting - Repaint streetlight poles, railings, and other street furniture to prolong the useful life and aesthetics of the asset ($250,000).

- City Street Re-striping - Re-stripe worn traffic striping along arterial and collector streets ($200,000).

- Bridge Maintenance Program - The project will cover routine bridge maintenance that would not be funded with Federal-Aid Highway Program funding. Routine bridge maintenance is defined as regularly scheduled activities that maintain bridge components in their present or intended condition ($500,000).

The CTC established a standardized project submission form, and the list of projects to be submitted to the CTC in the required format is attached as Exhibit 1 to the Resolution. The FY 2022-27 CIP will

include the budget for the estimated $7,314,000 in FY 2022-23 SB1 RMRA funding. These projects are anticipated to be advertised for construction bids by late 2022, with most of the construction activity to be undertaken in 2023, weather permitting.

RMRA funding is estimated to be relatively the same in FY 2023-24 at approximately $7 million. Expenditure of these funds will be programmed to specific projects in the FY 2023-28 CIP, with separate approval by Council prior to July 1, 2023.

FINANCIAL SUMMARY

The total RMRA funding is estimated to be $7,314,000 for FY 2022-23. The FY 2022-27 CIP will include the appropriation for the estimated $7,314,000 in FY 2022-23 SB1 RMRA funding as follows:

- Local Street Resurfacing, Project No. WD23003, Account No. 4570-000-800007-300-000-30-45-000-000, in the amount of $4,586,000.

- Curb, Gutter, Sidewalk, and Curb Ramp Repairs, Project No. WD23004, Account No. 4570-000-800007-300-000-30-45-000-000, in the amount of $1,450,000.

- Streetlight Pole Replacement, Project No. WD23006, Account No. 4570-715-800007-240-241-30-45-000-000, in the amount of $328,000.

- Street Furniture Painting, Project No. WD23008, Account No. 4570-715-800007-240-241-30-45-000-000, in the amount of $250,000.

- City Street Re-striping, Project No. WD23009, Account No. 4570-715-800007-240-241-30-45-000-000, in the amount of $200,000.

- Bridge Maintenance Program, Project No. WT23010, Account No. 4510-000-800007-300-000-30-45-000-000, in the amount of $500,000.

There is no impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended actions.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING THE FISCAL YEAR 2022-23 PROJECT LIST FOR THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017 (SB1) AND SUBMITTAL OF REPORTS TO THE CALIFORNIA TRANSPORTATION COMMISSION

On April 28, 2017, the Governor signed Senate Bill 1 (SB1), known as the Road Repair and Accountability Act of 2017. SB1 funding provides for basic road maintenance, rehabilitation, and critical safety needs on both the State highway and local streets and road systems; and

The California Transportation Commission (CTC) is responsible for oversight of funding and/or programs created with the approval of SB1; and

SB1 provides funding for the Road Maintenance and Rehabilitation Account (RMRA) Program. The RMRA funding is part of the City's overall Gas Tax allocation; however, RMRA funds can only be expended on projects that meet eligibility criteria and have been approved by the CTC; and

The Fiscal Year (FY) 2022-23 RMRA funding allocation for the City is estimated to be $7,314,000; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council approves the FY 2022-23 project list for the Road Repair and Accountability Act of 2017 (SB1), in the amount of $7,314,000, a copy of which is attached as Exhibit 1 and incorporated by this reference.

2. The City Council authorizes the Public Works Director or his/her designee to submit all necessary reports to the CTC related to the Road Repair and Accountability Act of 2017 (SB1).

3. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution

PASSED, APPROVED, and ADOPTED June 14, 2022 .

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

ELIZA R. GARZA, CMC
City Clerk of the City of Stockton

APPROVAL OF THE DRAFT MOSSDALE TRACT ENHANCED INFRASTRUCTURE FINANCING DISTRICT INFRASTRUCTURE FINANCING PLAN

RECOMMENDATION

It is recommended that City Council adopt a Resolution approving the Draft Mossdale Tract Enhanced Infrastructure Financing District (EIFD) Infrastructure Financing Plan (IFP).

Summary

On May 3, 2022, the City Council participated in a Workshop to receive a presentation describing the Infrastructure Financing Plan (IFP) (Attachment A). Council provided comment to the consultant team charged with preparing the IFP. Subsequently, the consultant team worked with the Mossdale Tract Enhanced Infrastructure Financing District (Mossdale Tract EIFD) Public Finance Authority (PFA) and the participating taxing entities to incorporate comments to the IFP. The IFP went to the PFA in two public hearings. Prior to the 3rd Public Hearing, the IFP has come back to the City Council for approval.

DISCUSSION

Background

Senate Bill 5 (SB5), and related companion bills, created a new requirement for certain land use decisions made by cities and counties in the California Central Valley. Prior to approving discretionary land use decisions for non-residential projects, and prior to approving ministerial land use decisions (building permits) for new residential buildings in areas that don't have an Urban Level of Flood Protection, land use agencies are required to make findings related to the provision of 200-year or Urban Level of Flood Protection (ULOP).

As part of the region's efforts to comply with this requirement the Cities of Lathrop, Manteca and Stockton made findings of Adequate Progress toward the provision of ULOP 200-year flood protection and have annually validated these findings each year since each respective cities' initial adoptions based on an Annual Reports of Adequate Progress (Annual Reports) submitted to the Central Valley Flood Protection Board (CVFPB). Since 2018, the Annual Reports have been approved and submitted by SJAFCA to the CVFPB subsequent to the Cities of Lathrop and Manteca becoming members of SJAFCA.

The Annual Reports describe the financing plan and the identified funding mechanisms that are being utilized to fund and implement the improvements necessary for ULOP.

The new funding mechanisms being implemented to generate the necessary funding include:

1. A Regional Development Impact Fee Program, currently in place.
2. A new Overlay Assessment District (OAD) proposed to overlay the existing RD 17 Assessment District.
3. The Mossdale Tract Enhanced Infrastructure Financing District (EIFD).

The City Council supported the implementation of the Mossdale Tract ULOP Program and associated funding mechanisms by supporting the amendment of the SJAFCA Joint Exercise of Powers Agreement in late 2017 and then supporting the implementation of the Regional Development Impact Fee in 2018. SJAFCA is currently working to evaluate and implement the proposed Overlay Assessment District in the future. In January of this year, the City Council was requested to participate in the formation process of the proposed Mossdale Tract EIFD.

EIFDs
Enhanced Infrastructure Financing Districts are districts that receive tax increment generated from the growth in property taxes collected from within a designated district boundary from certain entities that consent to an agreed upon allocation of their property tax revenues. EIFDs are new entities governed by the creation of a PFA.

The City of Lathrop took the lead with the creation of the EIFD with its action on January 13, 2022. The cities of Manteca and Stockton and San Joaquin County followed suit by adopting a corresponding resolution to support the formation and appoint representation to the PFA.

The newly created Authority is moving through the EIFD formation process by directing the preparation of an IFP. The purpose of the May 3, 2022, Workshop was to present the IFP to the City Council as an informational item. Ultimately, final approval of the formation of the EIFD will require the City Council's approval of the IFP.

EIFD Financing Plan
The Mossdale Tract Area EIFD will be funded from property tax increment revenues, which would be pledged to repay bonds issued to fund construction of the improvements needed to achieve ULOP.

The Draft Mossdale Tract Area EIFD does not impose any new tax on property owners. The Affected Taxing Entities (ATEs) will participate in and contribute property tax increment revenues to the Mossdale Tract Area EIFD. In the case of the proposed Mossdale Tract Area EIFD, the EIFD is to have four (4) ATEs: the City of Lathrop; the City of Manteca; the City of Stockton; and San Joaquin County.

The financing plan for the Mossdale Tract Area EIFD has been the subject of discussions among the staff of the ATEs for many months and an IFP has been prepared at the direction of the PFA. In general, the following describes the basic terms of how the EIFD tax increment will be allocated and assist in financing SJAFCA's Mossdale Tract Project as further described in the attached IFP (Attachment A).

The Mossdale Tract Area EIFD includes approximately 5,125 developable acres. Approximately 11,200 housing units and 33.1 million square feet of nonresidential buildings are anticipated in the Mossdale Tract Area EIFD between the assumed Base Year of the EIFD (FY 2022-23) and buildout

(2060). As development takes place throughout the basin, and as the assessed value of property increases over time, net new property taxes will be generated. As those taxes are allocated to the ATEs, a portion of the net new property taxes will be allocated to the Mossdale Tract EIFD. The amount that would otherwise be allocated to an ATE, but diverted to the Mossdale Tract EIFD, will be the amount specified in the IFP prepared by the PFA and ultimately approved by each of the ATEs. The amount of Tax Increment allocated by each ATE will be subject to change over time as SJAFCA's ULOP Project is implemented. The proposed amount of Tax Increment that is reflected in the Plan is shown in the table below:

	EIFD Contribution Rate			
Affected Taxing Entity	Initial Years (2021-2029)	2030-2032	2033-2043	2044-2061
Maximum Tax Rate Scenario				
City of Lathrop	10.0%	20.0%	20.0%	20.0%
City of Manteca	5.0%	20.0%	20.0%	20.0%
City of Stockton	1.0%	20.0%	20.0%	20.0%
San Joaquin County	47.3%	20.0%	20.0%	20.0%
Variable Tax Rate Scenario				
City of Lathrop	10.0%	13.0%	9.5%	4.5%
City of Manteca	5.0%	13.0%	9.5%	4.5%
City of Stockton	1.0%	13.0%	9.5%	4.5%
San Joaquin County	47.3%	13.0%	9.5%	4.5%

- During the ULOP project construction, anticipated to run through 2029 (Initial Years), the City of Lathrop and the County each would contribute a flat rate of ten percent (10%), the City of Manteca would contribute five percent (5%), and the City of Stockton would contribute one percent (1%) (Initial Base Rates).

- During the Initial Years, the County would contribute a total of 47 percent of property tax increment, composed of an Initial Base Rate of ten percent (10%), plus an additional 37 percent of property tax increment. The additional 37 percent would be defined as the County's Additional EIFD Contribution. This Additional Contribution would be subject to repayment by SJAFCA from future Regional Development Impact Fee revenues collected after 2029.

- Following the Initial Years, the maximum portion of the total property tax increment revenue allocation proposed to be apportioned to the EIFD will be 20 percent until such time as the cost of eligible EIFD facilities has been satisfied. However, based upon the financing plan, it is not expected that the full 20 percent of Tax Increment would be needed based on EIFD revenue requirements. As such, the expected amount of increment is shown as the Variable Rate Scenario in the table above.

The revenues allocated to the EIFD would be transferred to SJAFCA to fund the ULOP Project initially on a Pay-As-You go basis. To finance the construction of the ULOP Project, it is expected that SJAFCA would issue two separate series of debt instruments.

The first debt issuance would be secured by a pledge of OAD revenues. The second series would be secured by a combined pledge of OAD revenues and EIFD revenues pledged to SJAFCA.

EIFD Analyses
As required by the relevant EIFD authorizing legislation, in addition to the financing plan and detailed description of the amount of property tax allocations from each of the ATE's, the draft IFP presents information and analysis that includes the following:

- A detailed description of the Boundary of the EIFD.
- A description of the facilities to be financed by the EIFD.
- A financing section that addresses the maximum amount of tax increment to be committed to the EIFD; and
- An analysis of the fiscal impact to the Cities and County of committing tax increment to the EIFD.

FINANCIAL SUMMARY

The fiscal impacts of the EIFD to the City would happen over time and are analyzed and included within the IFP (Attachment A).

At Buildout, under the Maximum Tax Rate Scenario described previously, development in the Mossdale Tract Area EIFD is anticipated to result in a net fiscal surplus to the City of Stockton General Fund of approximately $3.9 million annually. For earlier periods (fiscal years ending 2025 through 2059), development is anticipated to result in a net fiscal impact ranging from a maximum deficit of $1.6 million in 2025 to a surplus of $3.0 million annually.

1. Introduction

Mossdale Tract Enhanced Infrastructure Financing District

Project Overview

State of California (State) Senate Bill 5 (2007) (SB 5), and related companion bills, created a new requirement for certain land use decisions made by cities and counties in the California Central Valley. Before approving discretionary land use decisions for nonresidential projects, and before approving ministerial land use decisions (building permits) for new residential buildings, land use agencies are required to make findings related to the provision of 200-year or Urban Level of Flood Protection (ULOP).

The Reclamation District (RD) 17 basin in the Central Valley, hereafter referred to as the Mossdale Tract Area, includes land in the Cities of Lathrop, Manteca, and Stockton, and the County of San Joaquin (County) (hereafter referred to as the Affected Taxing Entities [ATEs]). Existing RD 17 levees protecting the Mossdale Tract Area do not meet current State Department of Water Resources (DWR) Urban Levee Design Criteria (ULDC) standards adopted in May 2012 and are not certified to provide 200-year protection in accordance with SB 5 requirements.

In 2016 and 2017, the Cities of Lathrop and Manteca, as well as RD 17, comprised the Local Flood Management Agency (LFMA). Beginning in January 2018, the San Joaquin Area Flood Control Agency (SJAFCA) assumed the role of LFMA for the Mossdale Tract Area and is pursuing efforts to achieve an ULOP by the required deadline, 2028.[1]

SJAFCA's plan for flood protection through 2028 consists of two components: (1) RD 17's ongoing Phase 3 Levee Seepage Repair Project (LSRP) and (2) SJAFCA Levee Improvements to achieve ULDC 200-year requirements (Phase 4 SJAFCA Project).

RD 17 is advancing the completion of the LSRP with the formation of the RD 17 assessment and funding from the DWR's Early Implementation Projects (EIP) and Urban Flood Risk Reduction (UFRR) Programs. These revenue sources remain in place to fund the LSRP.

To fund the Phase 4 SJAFCA Project, the LFMA identified several funding sources for the design, environmental review, permitting, and construction of ULOP improvements. These sources comprise existing funding sources: (1) the RD 17 assessment and (2) a regional SJAFCA 200-Year Development Impact Fee (DIF). In addition, the LFMA identified two new funding sources: (1) a new special benefit Overlay Assessment District (OAD) and (2) a new Enhanced Infrastructure Financing District (EIFD). In addition, SJAFCA

[1] State Assembly Bill 838 (AB 838), signed into law on September 28, 2020, extended the ULOP deadline from 2025 to 2028.

anticipates that State grant revenues would be available from an existing UFRR Agreement with SJAFCA.

This report describes the details of the Mossdale Tract Area EIFD, which is proposed to be established to fund a portion of the improvements necessary to ensure ULOP. As described in further detail later in this document, requisite improvements include construction to strengthen and repair existing levees, as well as measures to ensure climate adaptability needs are being met to ensure 200-year flood protection.

Enhanced Infrastructure Financing District Formation and Public Financing Authority

California Government Code sections 53398.50–53398.88 (EIFD Law) enabled jurisdictions to consider formation of EIFDs as a means of using tax increment financing to fund a variety of eligible improvements with communitywide benefit. An EIFD may be formed by resolution of the governing body of an ATE proposing to dedicate all or a portion of its incremental property tax revenue to the EIFD.

Formation of an EIFD establishes a Public Financing Authority (PFA) that operates as the governing board of the district once the EIFD is formed. The PFA's membership shall consist of 2 members of the legislative body of each ATE and 2 members of the public chosen collectively by the legislative bodies of ATEs.[2] In the case of the proposed Mossdale Tract Area EIFD, the EIFD has 4 ATEs. Thus, the PFA will consist of 8 members from the respective ATEs and 2 public members, for a total of 10 members.

As described above, SJAFCA is the LFMA and in that capacity is anticipated to manage completion of the Phase 4 SJAFCA Project. At the discretion of the PFA, the PFA may enter into one or more agreements with SJAFCA to memorialize the use of EIFD funding towards the SJAFCA Phase 4 Project. In addition, should the PFA wish to use SJAFCA to provide support in regards to PFA administration, the details of that engagement would be subject to an agreement between the PFA and SJAFCA.

Infrastructure Financing Plan

This Infrastructure Financing Plan (IFP) for the Mossdale Tract Area EIFD has been prepared in accordance with EIFD Law. The Mossdale Tract Area EIFD will be an important tool for the LFMA to generate a portion of the funding necessary to implement 200-year levee improvements and to allow the ATEs, in the interim until 2028, to make findings related to Adequate Progress toward ULOP, and ultimately a finding of ULOP upon completion of the improvements in accordance with DWR's ULOP criteria and SB 5 requirements.

The Mossdale Tract Area EIFD will be funded from property tax increment revenues, which could be pledged, in conjunction with OAD revenues, to repay bonds issued to fund construction of the Phase 4 SJAFCA Project. The Mossdale Tract Area EIFD does not

[2] California Government Code Section 53398.51.1 (1).

impose any new tax on property owners. The ATEs will participate in and contribute property tax increment revenues to the Mossdale Tract Area EIFD. As required by Government Code Sections 53398.59–53398.74, this IFP contains the following information:

1. A map and detailed description of the proposed Mossdale Tract Area EIFD boundaries, as presented in **Attachment A**, respectively.

2. A description of the public facilities and other forms of development or financial assistance proposed in the area of the district, including those to be provided by the private sector, those to be provided by governmental entities without assistance from the Mossdale Tract Area EIFD, those to be financed with assistance from the proposed Mossdale Tract Area EIFD, and those to be provided jointly by a governmental entity and the private sector, as presented in **Chapter 2**.

3. A finding that the development and financial assistance are of communitywide significance and provide significant benefits to an area larger than the area of the Mossdale Tract Area EIFD. This information is presented in **Chapter 2**.

4. A financing section, containing these:

    a. A specification of the maximum portion of the incremental tax revenue of each ATE proposed to be committed to the Mossdale Tract Area EIFD each year during which the Mossdale Tract Area EIFD will receive incremental property tax revenue. It is important to note that no taxing entity other than the ATEs defined in this IFP will allocate tax increment revenues to the Mossdale Tract Area EIFD. During the ULOP project construction projected, through 2029 (Initial Years), the City of Lathrop and the County each commit to contribute a flat rate of 10 percent, the City of Manteca agrees to commit to 5 percent, and the City of Stockton agrees to commit 1 percent (Initial Base Rates). For the Initial Years, the County will contribute a total flat rate of 47 percent of property tax increment, composed of its Initial Base Rate of 10 percent, plus an additional 37 percent of property tax increment, with such additional amount defined as County Additional EIFD Contribution. ***Following the Initial Years, the maximum portion of the total property tax increment revenue allocation proposed to be apportioned from each ATE, subject to applicable law, to the EIFD will be 20 percent until such time as the cost of eligible EIFD facilities has been satisfied as described in Chapters 2 and 3.*** *Note: This IFP includes an estimate of EIFD revenues and fiscal impacts under the maximum tax rate of 20.0 percent for all years after the Initial Years (beginning FY ending 2030) (hereafter referred to as the Maximum Tax Rate Scenario). In addition, this IFP includes an estimate of EIFD revenues and fiscal impacts under a Variable Tax Rate Scenario, reflective of rates which vary over time estimated based on annual EIFD revenue requirements. The Variable Tax Rate Scenario reflects an allocation rate of 13.0 percent after beginning FY ending 2030, which decreases to 9.5 percent beginning FY ending 2033 and 4.5 percent beginning FY ending 2044. A*

description of tax rates included in this IFP are described in more detail in ***Chapter 3*** *and shown in* ***Table 3-2****.*

b. A projection of the amount of tax revenues expected to be received by the Mossdale Tract Area EIFD in each year during which the Mossdale Tract Area EIFD will receive tax revenues, including an estimate of the amount of tax revenues attributable to each ATE for each year. ***An annual projection of tax revenues to be allocated to the Mossdale Tract Area EIFD is contained in Chapter 3 of this IFP.*** The inputs and assumptions used in this IFP are based on information available as of preparation of this IFP about recent historic, current, and anticipated trends. These projections, which were provided by the ATEs, are considered reasonable for planning purposes, but actual results will differ from those estimates included in this IFP.

c. A plan for financing facilities, including a description of any intention to incur debt. ***The financing plan is presented in Chapter 3 of this IFP.*** The PFA, separately or in conjunction with the ATEs or SJAFCA, could participate in financing arrangements involving the issuance of debt secured by the Mossdale Tract Area EIFD tax increment revenues when it is financially prudent to do so. Based on the tax revenue projections contained in this IFP, it is estimated that a range of approximately **$114 million to $126 million** (2021 dollars) of net bond proceeds could be generated during the duration of the EIFD. This projection, which is included in **Attachment B**, is considered reasonable for planning purposes, but actual results will differ from those estimates included in this IFP.

d. A limit on the total number of dollars of property tax increment revenue that may be allocated to the Mossdale Tract Area EIFD pursuant to this IFP. ***The maximum number of dollars of tax revenue that may be allocated to the Mossdale Tract Area EIFD shall not exceed $560 million (as shown in Chapter 3), unless modified by the PFA. The maximum tax revenue that may be allocated to the Mossdale Tract Area EIFD estimate is based on Initial Year allocation rates and the maximum tax allocation rate of 20 percent in all later years.***

e. A date on which the Mossdale Tract Area EIFD will cease to exist, by which time, all tax revenue allocation to the Mossdale Tract Area EIFD will end. Pursuant to Government Code section 53398.63 et seq., the maximum duration of an EIFD is 45 years from the date on which the issuance of bonds is approved, pursuant to subdivision (a) of section 53398.81, or the issuance of a loan to the Mossdale Tract Area EIFD is approved by an ATE, pursuant to section 53398.87. ***Based on these requirements, the proposed Mossdale Tract Area EIFD termination date will be the earlier of (a) 45 years following the first bond issuance by the PFA or (b) 45 years after the ATE approves a loan to the Mossdale Tract Area EIFD***. ***The specific dates on which those actions may be taken for the Mossdale Tract Area EIFD are not known at this time. However, the Mossdale Tract Area EIFD will cease to exist by no later than June 30,***

2100. The financial projections are based on the assumption that the Mossdale Tract Area EIFD will be formed in Fiscal Year (FY) 2022-23 and will begin receiving tax revenues in FY 2023-24. The financial analysis in this IFP is based on the assumption that the PFA or SJAFCA would not seek approval for the issuance of bonds before FY 2023-24, and no ATE would provide a loan to the Mossdale Tract Area EIFD before that date, noting specifically that these assumptions do not preclude the PFA from taking alternative actions.

f. An analysis of the costs to each ATE of providing services to the Mossdale Tract Area EIFD during the time the area is being developed and after the area has been developed. **Appendix C in Attachments F through I of this IFP includes a projection of service costs during the time the Mossdale Tract Area EIFD area is being developed and after it has been developed for each of the four ATEs.** New development in the Mossdale Tract Area is anticipated to generate additional, annual municipal service costs for each jurisdiction, as shown on **Table 1-1** and described below:

- It is projected that development in the Mossdale Tract Area EIFD that is estimated to absorb beginning in July 2022 through December 2025 (referred to as the Initial Phase) will generate additional, annual municipal service costs ranging from $3.0 million to $4.2 million (2020$) to each ATE.
- Development in the Mossdale Tract Area EIFD that is estimated to absorb beginning in July 2022 through December 2060 (Buildout) will generate additional, annual municipal service costs ranging from $6.6 million to $17.8 million (2020$) annually to each jurisdiction.

Table 1-1. Estimated Costs of Municipal Service Provisions (2020$)

Affected Taxing Entity	Annual Municipal Service Costs: Initial Phase (through 2025)	Annual Municipal Service Costs: Buildout (through 2060)
City of Lathrop	$4,092,000	$17,831,000
City of Manteca	$5,884,000	$14,204,000
City of Stockton	$2,988,000	$6,624,000
San Joaquin County	$4,169,000	$15,827,000

g. An analysis of the projected fiscal impact of the Mossdale Tract Area EIFD and the associated development on each affected taxing entity. Affected taxing entities are defined as any governmental taxing agency that levied or had levied on its behalf a property tax on all or a portion of the property located within the

boundaries of the Mossdale Tract Area EIFD in the fiscal year before the formation of the Mossdale Tract Area EIFD. **The Cities of Lathrop, Manteca, and Stockton and the County (the ATEs) will allocate tax increment revenues to the Mossdale Tract Area EIFD. No other taxing entities will be impacted by the formation of the Mossdale Tract Area EIFD. Accordingly, this IFP includes an analysis of the fiscal impacts of the Mossdale Tract Area EIFD on all ATEs (as defined in this document as the Cities of Lathrop, Manteca, and Stockton and the County). The fiscal impact analyses are provided as Attachments F through I of this IFP for each respective ATE.** *The net fiscal impact analysis results described below and shown in **Table 1-2**, are based on the assumption that the percentage of property tax increment generated by properties in the Mossdale Tract Area EIFD allocated to the Mossdale Tract Area EIFD based on the Initial Base Rates (including County Additional EIFD Contribution) ranging from 1 percent to 47 percent in the Initial Years (ending in the fiscal year ending 2029) and adjusting to the Maximum Tax Allocation Rate (20 percent) in the fiscal year ending 2030.*[3]

- At Buildout, development in the Mossdale Tract Area EIFD is anticipated to result in a net fiscal surplus to the County General Fund of approximately $21.7 million annually. For earlier periods (fiscal years ending 2025 through 2060), development is anticipated to result in a net fiscal surplus ranging from $3.5 million to $20.2 million annually.
- At Buildout, development in the Mossdale Tract Area EIFD is anticipated to result in a net fiscal deficit to the City of Lathrop General Fund of approximately $2.4 million annually. For earlier periods (fiscal years ending 2025 through 2060), development is anticipated to result in a net fiscal surplus ranging from $134,000 to $4.0 million annually.
- At Buildout, development in the Mossdale Tract Area EIFD is anticipated to result in a net fiscal surplus to the City of Manteca General Fund of approximately $4.1 million annually. For earlier periods (fiscal years ending 2025 through 2060), development is anticipated to result in a net fiscal impact ranging from a deficit of $1.1 million to a surplus of $3.7 million annually.
- At Buildout, development in the Mossdale Tract Area EIFD is anticipated to result in a net fiscal surplus to the City of Stockton General Fund of approximately $3.9 million annually. For earlier periods (fiscal years ending 2025 through 2060), development is anticipated to result in a net fiscal impact ranging from a deficit of $1.6 million to a surplus of $3.0 million annually.

[3] Fiscal Impact result under both the Maximum Tax Rate and Variable Tax Rate Scenarios are described later in this IFP and detailed in **Attachments F** through **I**.

Table 1-2. Estimated Net Fiscal Surplus/(Deficit) with Maximum Tax Rate EIFD Contribution (2020$)

Affected Taxing Entity	Annual Fiscal Surplus/(Deficit) with Maximum Tax Rate EIFD Contribution (Fiscal Year Ending)					
	2025	2030	2035	2040	2050	Buildout (2060)
City of Lathrop	$133,700	$2,774,200	$3,709,000	$4,038,900	$711,000	($2,417,400)
City of Manteca	($1,050,900)	$578,700	$2,282,000	$2,876,900	$3,697,100	$4,101,600
City of Stockton	($1,641,800)	($1,018,700)	($187,000)	$966,400	$3,006,400	$3,860,300
San Joaquin County	$3,495,900	$10,502,700	$14,835,700	$17,381,700	$20,165,400	$21,671,100

5. A plan for replacing dwelling units that are proposed to be removed or destroyed in the course of public works construction in the area of the district or private development in the area of the district that is subject to a written agreement with the district or that is financed in whole or in part by the district. **It is unknown if any dwelling units will be removed as a result of any project identified in this IFP. However, if the relocation of any dwelling units is deemed to be required in the future for a project financed by the district, the PFA will develop a plan that complies with the requirements of Government Code Section 53398.56 and other applicable requirements.**

6. The goals the district proposes to achieve for each project to be financed by the district. **The district's goals for each project to be financed by the Mossdale Tract Area EIFD are addressed in Chapter 2 of this IFP.**

THIS PAGE INTENTIONALLY LEFT BLANK

2. Mossdale Tract Area EIFD Overview and Description of Facilities

Description of Mossdale Tract Area EIFD

The Mossdale Tract Area EIFD is being considered to provide partial funding for construction of 200-year flood improvements. The estimated cost to design and construct the EIFD-eligible infrastructure is approximately $230.0 million (in 2021 dollars).

EIFD revenues would be limited to net-new incremental property tax revenue that is directly derived from development in the Mossdale Tract Area EIFD and incremental growth of assessed value in the Mossdale Tract EIFD of existing uses. The Mossdale Tract Area EIFD is proposed to be used with other funding sources to repay bonds issued to fund construction of the Phase 4 SJAFCA Project.

As described above, SJAFCA is the LFMA and in that capacity is anticipated to manage completion of the Phase 4 SJAFCA Project. At the discretion of the PFA, the PFA may enter into one or more agreements with SJAFCA to memorialize the use of EIFD funding towards the SJAFCA Phase 4 Project. In addition, should the PFA wish to use SJAFCA to provide PFA administration, the details of that engagement would be subject to an agreement between the PFA and SJAFCA.

Anticipated Future Development in EIFD

The Mossdale Tract Area EIFD includes approximately 5,125.5 developable acres. Approximately 11,200 new housing units and 33.1 million building square feet of new nonresidential uses are anticipated to be developed in the Mossdale Tract Area EIFD between the assumed Base Year of the EIFD (FY 2022-23) and buildout (2060). All new development is anticipated to occur within an existing city boundary or be annexed into the nearest city prior to development; no new development in the unincorporated portion of the County is assumed. **Table 2-1** shows assumed development by phase over the approximate 40-year period.

Although the financing section of this report is based on an assumed pace of development as informed by ATE community development staff, the actual timing of development may differ from those assumptions on which this analysis is based.

Subject to PFA approval (if deemed necessary under the EIFD Law) and in accordance with applicable law, this IFP incorporates all Local Area Formation Commission (LAFCO) conditions, amendments, and requirements as they may apply to this EIFD and to be imposed because of any annexation contemplated herein. LAFCO conditions, amendments, and requirements of said annexation(s) shall reflect this IFP to the extent necessary.

County LU

Source: San Joaquin County; City of Manteca; City of Lathrop; City of Stockton; LWA; EPS.

[1] This analysis assumes the EIFD will be formed in FY 2022-23 (Base Year) with the first year of revenue accruing to the district in FY 2023-24. Secured and unsecured tax rolls for a fiscal year are based on taxable assessed values with a lien date of the prior January 1. Thus, the initial phase of this analysis includes estimated development occurring in July-December 2022 (50% of development estimated in calendar year 2022) and development occurring in full calendar years for the remainder of the phase (2023-2025). Subsequent phases include 5-year development periods for development occurring from 2026 through 2040 and 10-year development periods from 2041 through 2060.

[2] Development projections include development projections in incorporated cities as were provided by LWA based on land use data provided by the Cities of Lathrop, Manteca, and Stockton as of February, 2020.

[3] For purposes of this analysis, residential units were categorized as owner- or renter-occupied based on assumed density.

[4] Nonresidential commercial land use projections provided by the applicable City reflect a general commercial land use designation. This analysis assumes general commercial will comprise both retail and office land uses. EPS determined a preliminary estimated allocation of retail and office space based on the existing proportion of retail and office space in each City, the City's current General Plan, and the proposed land use plans of anticipated development projects within the EIFD boundary.

City of Lathrop

Of the 5,125.5 acres included in the Mossdale Tract Area EIFD, 2,303.6 acres are in the existing City of Lathrop city limits, with an additional 25.2 acres anticipated to annex into the City of Lathrop. Approximately 4,900 housing units and 14.5 million nonresidential building square feet are anticipated to develop in the City of Lathrop and an additional 275,000 nonresidential building square feet are anticipated to develop in the City of Lathrop's annexation area included in the Mossdale Tract Area EIFD. **Table 2-2** shows the assumed development in the City of Lathrop by phase over the approximate 40-year period. The detailed maps in **Attachment A** show the portion of the City of Lathrop to be included in the EIFD.

City of Manteca

The Mossdale Tract Area EIFD includes approximately 1,788.3 acres are in the existing City of Manteca city limits, with an additional 348.9 acres anticipated to annex into the City of Manteca, including the Oakwood Shores development. Approximately 4,297 housing units and 8.8 million nonresidential building square feet are anticipated to develop in the City of Manteca and an additional 860 housing units and 2.3 million nonresidential building square feet are anticipated to develop in the City of Manteca's annexation areas, for a total of 5,157 housing units and 11.1 million nonresidential building square feet developing in the portion of the City of Manteca included in the Mossdale Tract Area EIFD. **Table 2-3** shows the assumed development in the City of Manteca by phase over the approximate 40-year period. The detailed maps in **Attachment A** show the portion of the City of Manteca to be included in the EIFD.

City of Stockton

There are approximately 472.3 acres in the existing City of Stockton city limits, with an additional 187.12 acres anticipated to annex into the City of Stockton. Approximately 1,075 housing units and 4.8 million nonresidential building square feet are anticipated to develop in the City of Stockton and an additional 2.4 million nonresidential building square feet are anticipated to develop in the City of Stockton's annexation areas, for a total of 1,075 housing units and 7.2 million nonresidential building square feet developing in the portion of the City of Stockton included in the Mossdale Tract Area EIFD. **Table 2-4** shows the assumed development in the City of Stockton by phase over the approximate 40-year period. The detailed maps in **Attachment A** show the portion of the City of Stockton to be included in the EIFD.

[1] This analysis assumes the EIFD will be formed in FY 2022-23 (Base Year) with the first year of revenue accruing to the district in FY 2023-24. Secured and unsecured tax rolls for a fiscal year are based on taxable assessed values with a lien date of the prior January 1. Thus, the initial phase of this analysis includes estimated development occurring in July-December 2022 (50% of development estimated in calendar year 2022) and development occurring in full calendar years for the remainder of the phase (2023-2025). Subsequent phases include 5-year development periods for development occurring from 2026 through 2040 and 10-year development periods from 2041 through 2060.

[2] Development projections were provided by LWA and are based on land use data provided by the City as of February, 2020. Includes development projections in railroad Industrial Area, Center Point South, Telles and Willson, Villa Ticino West, Yosemite Greens, Kiper, Alma Apartments, Yosemite/Fishback, Family Entertainment Zone, Embarcadero, Airport/Daniels, Highway 120, Oakwood Trails, Denali, Sundance, The Trails of Manteca, Cerri, Terra Ranch, Wackerly, Lewis Estates, and Oleander.

[3] Includes development projections in the Manteca Annexation Area, and Oakwood Shores.

[4] For the purpose of this analysis, low density residential is considered to be owner-occupied and high density residential is assumed to be renter-occupied.

[5] Nonresidential commercial land use projections provided by the City reflect a general commercial land use designation. This analysis assumes general commercial will comprise both retail and office land uses. EPS determined a preliminary estimated allocation of retail and office space based on the existing proportion of retail and office space in the City, the City's current General Plan, and the proposed land use plans of anticipated development projects within the EIFD boundary.

Source: City of Stockton; LWA; EPS.

[1] This analysis assumes the EIFD will be formed in FY 2022-23 (Base Year) with the first year of revenue accruing to the district in FY 2023-24. Secured and unsecured tax rolls for a fiscal year are based on taxable assessed values with a lien date of the prior January 1. Thus, the initial phase of this analysis includes estimated development occurring in July-December 2022 (50% of development estimated in calendar year 2022) and development occurring in full calendar years for the remainder of the phase (2023-2025). Subsequent phases include 5-year development periods for development occurring from 2026 through 2040 and 10-year development periods from 2041 through 2060.

[2] Development projections were provided by LWA and are based on land use data provided by the City as of February, 2020. Includes development projections in Weston Ranch and the South Airport Area.

[3] Includes development projections in the future Stockton Annexation Area.

[4] For the purpose of this analysis, low density residential is considered to be owner-occupied and high density residential is assumed to be renter-occupied.

[5] Nonresidential commercial land use projections provided by the City reflect a general commercial land use designation. This analysis assumes general commercial will comprise both retail and office land uses. EPS determined a preliminary estimated allocation of retail and office space based on the existing proportion of retail and office space in the City, the City's current General Plan, and the proposed land use plans of anticipated development projects within the EIFD boundary.

EIFD-Financed Facilities

The EIFD is authorized to finance the purchase, construction, expansion, improvement, or rehabilitation of the facilities described herein. These facilities have an estimated useful life of 15 years or longer and are projects of communitywide significance that provide significant benefits to the EIFD or the surrounding community. Any facilities located outside the boundaries of the EIFD have a tangible connection to the work of the EIFD. The EIFD will also finance planning and design activities that are directly related to the purchase, construction, expansion, or rehabilitation of these facilities. Facilities authorized to be financed by an EIFD pursuant to State law can include the following infrastructure projects:

- The ongoing or capitalized costs to maintain public capital facilities financed in whole or in part by the EIFD.
- Highways, interchanges, ramps and bridges, arterial streets, parking facilities, and transit facilities.
- Sewage treatment and water reclamation plants and interceptor pipes.
- Facilities for the collection and treatment of water for urban uses.
- Flood control levees and dams, retention basins, and drainage channels.
- Parks, recreational facilities, and open space.
- Facilities for the transfer and disposal of solid waste, including transfer stations and vehicles.
- The development of projects on a former military base, provided the projects are consistent with the military base authority reuse plan and are approved by the military base reuse authority, if applicable.
- Acquisition, construction, or repair of industrial structures for private use.

All EIFD-eligible infrastructure projects would need to be constructed according to applicable standards set by USACE, DWR and SJAFCA. Below are descriptions of the types of costs authorized to be Mossdale Tract Area EIFD-financed.

Description and Estimated Cost of EIFD Facilities

Cost estimates for EIFD facilities are derived from the SJAFCA Mossdale Tract Area ULDC Climate Change Adjustment Consolidated Cost Estimate, prepared by Kjeldsen Sinnock Neudeck Civil Engineers and Land Surveyors, dated January 29, 2021. Total estimated costs for Mossdale Tract Area EIFD facilities equal approximately $230.0 million (in 2021 dollars). The estimated costs are based on the following types of Mossdale Tract Area EIFD-eligible facilities: flood improvement facilities and incidental expenses, as described in the following sections.

Flood Improvement Facilities

The EIFD is authorized to finance the purchase, construction, expansion, improvement, or rehabilitation of the facilities described herein. These facilities have an estimated useful life of 15 years or longer and are public facilities of communitywide significance that provide significant benefits to the EIFD or the surrounding community. Any facilities located outside the boundaries of the EIFD shall have a tangible connection to the work of the EIFD. The EIFD will also finance planning and design activities that are directly related to the purchase, construction, expansion, or rehabilitation of these facilities. Facilities authorized to be financed by the EIFD include public flood control facilities, including but not limited to public flood risk reduction infrastructure associated with ensuring that the resulting levee system complies with the Urban Levee Design Criteria promulgated by the California DWR and SJAFCA Resolution No. 19-06 and SJAFCA's Adopted Policy for Adapting Design Standards for the Mossdale Tract Area of SJAFCA in light of Climate Change.

Incidental Expenses

In addition to the direct costs of the above facilities, other incidental expenses as authorized by EIFD Law include but are not limited to the cost of engineering, planning, and surveying; construction staking; utility relocation and demolition costs incidental to the construction of the facilities; costs of project/construction management; costs (including the costs of legal services) associated with the creation of the EIFD; issuance of bonds or other debt; costs incurred by the ATEs or the EIFD in connection with the division of taxes pursuant to Government Code section 53398.75; costs otherwise incurred to carry out the authorized purposes of the EIFD; and any other expenses incidental to the formation and implementation of the EIFD and to the construction, completion, inspection, and acquisition of the authorized facilities.

EIFD-Funded Facilities

The following sections required by EIFD Law describe how EIFD facilities may be constructed, whether privately or publicly. The EIFD and the IFP are flexible to fund public facilities that may be constructed entirely privately; jointly by the private sector and one or more public-sector agencies, including the PFA, SJAFCA, or the ATEs; or entirely constructed by a public-sector agency. At the time of EIFD formation, it is anticipated that the PFA will provide funding for development of EIFD-funded facilities with SJAFCA in charge of development of facilities.

Facilities to Be Provided by the Private Sector

Public facilities constructed by the private sector may be eligible for reimbursement from the PFA through funds generated by the EIFD, development impact fees, or land-secured financing districts, such as Mello-Roos Community Facilities Districts (CFDs) or Assessment Districts (ADs).

Facilities to Be Provided by the Public Sector Without Assistance from the EIFD

Separate from EIFD-funded facilities, specifically related to overall development of the Mossdale Tract Area, the PFA may use available funds to construct eligible public infrastructure, such as ATE-imposed development impact fees, or funds from other available sources. The provisions of this IFP do not preclude any public-sector entity from providing facilities without assistance from the EIFD.

Facilities Provided Jointly by Private Sector and Governmental Entities

It is possible that EIFD-funded facilities may be funded by some combination of private and governmental entity (PFA, SJAFCA, or ATE) effort. This IFP does not preclude this potential outcome.

Goals and Communitywide Benefits of EIFD-Funded Facilities

Policy Goals

The existing RD 17 levees protecting the Mossdale Tract Area and planned RD 17 improvements do not meet the updated DWR ULDC standards, and existing levees are not certified to provide 200-year flood protection. Accordingly, the goal of the Mossdale Tract Area EIFD is to fund facilities to achieve ULOP.

Each EIFD-funded infrastructure facility being financed is required to further the goal of achieving adequate flood protection. To achieve required ULOP, the primary goal in financing EIFD-eligible infrastructure is to improve regional infrastructure and prepare for climate change uncertainties.

Community Benefits

Investment in EIFD-funded public facilities is anticipated to leverage private investment in the development of improved flood protection facilities. The County and surrounding region would recognize one-time and ongoing economic benefits from these investments. Absent proper flood protection facilities, development in the region **would likely** come to a halt **and may result in a** decrease in overall property values for existing development, as well as a reduction in assessed value resulting from new development and reduced revenues for all ATEs. Adequate flood protection will allow ATEs to make findings related to the provision of 200-year or ULOP, which is required to approve discretionary land use decisions for nonresidential projects and ministerial land use decisions (building permits) for new residential buildings.

Consistency with General Plans

By adopting this IFP, the Mossdale Tract Area EIFD PFA finds and declares this IFP is consistent with the General Plans of each ATE, as required by EIFD Law.

Regional Significance

By adopting this IFP, the Mossdale Tract Area EIFD PFA finds and declares the facilities and development projects planned as of this date are of regional significance and provide significant benefits to the area comprising and greater than the area of the Mossdale Tract Area EIFD, as described above.

3. Financing Section

This chapter describes the financing of Mossdale Tract Area EIFD facilities and the maximum portion of property tax increment revenues that may be dedicated to the Mossdale Tract Area EIFD. Estimates of Mossdale Tract Area EIFD revenues are described in this chapter, as well as the estimated fiscal impacts of the proposed new development on the General Fund of each ATE.

Allocation of Revenues to EIFD

Contingent Nature of Annual Allocation of Tax Revenues by ATEs

The annual allocation of tax revenues to the Mossdale Tract Area EIFD by each ATE is contingent upon the Mossdale Tract Area EIFD PFA's use of such increment to pay for the costs (including debt service) of authorized facilities, projects, or services and to accomplish other authorized Mossdale Tract Area EIFD purposes. Each annual allocation of tax revenues to the Mossdale Tract Area EIFD under this IFP shall be subject to this condition (unless financial market considerations require otherwise).

Description of Tax Revenues Allocated by each ATE to the Mossdale Tract Area EIFD

Revenues shall be allocated to the Mossdale Tract Area EIFD in accordance with section 53398.75. More specifically, that portion of the property taxes levied on taxable property within the boundary of the Mossdale Tract Area EIFD after the effective date of the resolution adopted to establish the Mossdale Tract Area EIFD shall be allocated as follows:

(1) That portion of the taxes that would be produced by the rate on which the tax is levied each year by or for the ATE, as the only ATEs that have agreed to participate pursuant to Section 53398.68, on the total sum of the assessed value of the taxable property in the Mossdale Tract Area EIFD, located in each ATE as shown on the assessment roll used in connection with the taxation of the property by the ATE, last equalized before the effective date of the resolution adopted pursuant to Section 53398.69 to create the Mossdale Tract Area EIFD, shall be allocated to, and when collected shall be paid to, the ATE as taxes by or for the ATE on all other property are paid.

(2) That portion of the levied taxes each year specified in this IFP for the ATE, as the sole ATEs that have agreed to participate pursuant to Section 53398.68, in excess of the amount specified in paragraph (1) shall be allocated in part to, and when collected shall be paid into a special fund of, the Mossdale Tract Area EIFD for all lawful purposes of the Mossdale Tract Area EIFD, based on agreed upon allocation rates. Unless and until the total assessed valuation of the taxable property in the Mossdale Tract Area EIFD exceeds

the total assessed value of the taxable property in the Mossdale Tract Area EIFD as shown by the last equalized assessment roll referred to in paragraph (1), all of the taxes levied and collected on the taxable property in the Mossdale Tract Area EIFD shall be paid to the ATE. When the Mossdale Tract Area EIFD ceases to exist pursuant to this IFP, all moneys thereafter received from taxes on the taxable property in the Mossdale Tract Area EIFD shall be paid to the ATE as taxes on all other property are paid.

Notwithstanding the foregoing, because the Mossdale Tract Area EIFD's boundaries overlap with the boundaries of a former redevelopment project area, any debt or obligation of the Mossdale Tract Area EIFD shall be subordinate to any and all enforceable obligations of the former redevelopment agency, as approved by the Oversight Board and the Department of Finance. For the purposes hereof, the division of taxes allocated to the Mossdale Tract Area EIFD pursuant to the foregoing shall not include any taxes required to be deposited by the County auditor-controller into the Redevelopment Property Tax Trust Fund created pursuant to subdivision (b) of Section 34170.5 of the Health and Safety Code.

In addition, the net available revenue annually allocated to the ATE shall be allocated to, and, when collected shall be apportioned in part to, a special fund of the Mossdale Tract Area EIFD for all lawful purposes of the Mossdale Tract Area EIFD, based on agreed upon allocation rates. For the purposes of this IFP, "net available revenue" means periodic distributions to the ATE from the Redevelopment Property Tax Trust Fund, created pursuant to Section 34170.5 of the Health and Safety Code, that are available to the ATE after all preexisting legal commitments and statutory obligations funded from that revenue are made pursuant to Part 1.85 (commencing with Section 34170) of Division 24 of the Health and Safety Code. Net available revenue shall not include any funds deposited by the County auditor-controller into the Redevelopment Property Tax Trust Fund or funds remaining in the Redevelopment Property Tax Trust Fund before distribution and shall not include any moneys payable to a school district that maintains kindergarten and grades 1 to 12, inclusive, community college districts, County office of education, or to the Educational Revenue Augmentation Fund, pursuant to paragraph (4) of subdivision (a) of Section 34183 of the Health and Safety Code. The net available revenue is also sometimes referred to in this IFP as RPTTF revenue.

In addition, the Mossdale Tract Area EIFD shall not be prevented from using revenues from any of the sources set forth in EIFD Law or other applicable law to support its activities, provided the applicable voter approval has been obtained (if applicable).

Maximum Portion of Incremental Tax Revenue Committed to EIFD

The ATEs are only pledging incremental property tax revenues to the Mossdale Tract Area EIFD and are not pledging other sources of eligible revenues. As described in this Financing Section, incremental property tax revenues may only include property tax revenues. The maximum portion of incremental property tax revenues (as defined above)

the ATEs are proposed to commit to the EIFD varies in the Initial Years and the subsequent years (through buildout in 2060). During the Initial Years, the City of Lathrop and the County each commit to contribute a maximum base flat rate of 10 percent of their tax increment, the City of Manteca commits to a maximum rate of 5 percent, and the City of Stockton committed to a maximum rate of 1 percent. In addition, the County will contribute an 37 percent of additional tax increment in the Initial Years (defined previously as the County Additional EIFD Contribution), resulting in a maximum tax allocation of 47 percent for the County in the Initial Years. After the Initial Years (2030 and after), each jurisdiction agrees to provide a maximum allocation of 20 percent.

Based on annual EIFD revenue requirements accounting for anticipated EIFD expenditures and other revenue source, including but not limited to development fee revenue, and an additional 10 percent cost contingency factor, it is anticipated that the required rate of allocation for each ATE following the Initial Years would be lower than the maximum tax allocation. The Variable Tax Rate Scenario included in this IFP reflects a potential allocation scenario, based on current cost and development projections. As shown in **Table 3-1**, the EIFD contribution rates are consistent between both scenarios in the Initial Years. Under the Variable Tax Rate Scenario, beginning in FY ending 2030, the anticipated allocation rate adjusts to 13 percent for all ATEs and decreases to 9.5 percent in FY ending 2033 and 4.5 percent in FY ending 2044.

Table 3-1. EIFD Contribution Rates by Scenario

	EIFD Contribution Rate			
Affected Taxing Entity	Initial Years (2021-2029)	2030 - 2032	2033 - 2043	2044 -2061
Maximum Tax Rate Scenario				
City of Lathrop	10.0%	20.0%	20.0%	20.0%
City of Manteca	5.0%	20.0%	20.0%	20.0%
City of Stockton	1.0%	20.0%	20.0%	20.0%
San Joaquin County	47.3%	20.0%	20.0%	20.0%
Variable Tax Rate Scenario				
City of Lathrop	10.0%	13.0%	9.5%	4.5%
City of Manteca	5.0%	13.0%	9.5%	4.5%
City of Stockton	1.0%	13.0%	9.5%	4.5%
San Joaquin County	47.3%	13.0%	9.5%	4.5%

Tax Revenue Projections

Tax revenues available to the Mossdale Tract Area EIFD will be based on each ATE's share of property tax revenue attributable to the growth in taxable assessed value in the Mossdale Tract Area EIFD beginning FY 2022-23. Property tax revenue is collected by the County Tax Collector through a 1.0 percent general tax levy on the taxable assessed value of all real property. The 1.0 percent property tax levy is collected and distributed to agencies in the County's geographic area, including the County, cities, school districts, and special districts, in accordance with applicable State statutes.

This section describes anticipated Mossdale Tract Area EIFD revenues by year, with consideration to the statutory framework dictating the distribution of property tax revenues as that framework may change over time. **Tables 3-2** and **3-3** summarize the Mossdale Tract Area EIFD revenue projections by year under each tax rate scenario, and the following sections offer a detailed description of the analysis supporting the revenue projections. **Table 3-2** provides the revenue projections under the Maximum Tax Rate Scenario and **Table 3-3** provides the revenue projections under the Variable Tax Rate Scenario.

It is important to note that the amounts shown in **Tables 3-2** and **3-3** are based on the best information available regarding the amount, timing, and value of future development in the Mossdale Tract Area EIFD, as provided by the ATEs. However, because of uncertainty regarding the timing of Mossdale Tract Area EIFD development, the actual revenues will be different than the projections contained herein.

Under both scenarios, EIFD revenue estimates are based on the Initial Base Rates for all jurisdictions in the Initial Years, including the County Additional EIFD Contribution.

Following the Initial Years, the assumed allocation varies between scenarios as described in the previous section and shown on **Table 3-1**. **Figures 3-1** through **3-4** illustrate the Annual EIFD rates and revenues under both scenarios for each jurisdiction.

Financing Plan

At the time of EIFD formation, it is expected that all of the facilities will be publicly constructed. However, it is possible that a portion of the facilities could be privately constructed. The EIFD is just one of at least a few funding sources that will be used to construct or reimburse for the construction of the Phase 4 SJAFCA Project. The Financing Plan to fund the design, environmental review, permitting, and construction of ULOP improvements anticipates funding from at least the following sources:

- Existing RD 17 assessment.
- Existing Regional SJAFCA 200-Year DIF.
- New special benefit OAD.
- State grant revenues available from an existing UFRR Agreement with SJAFCA.
- Mossdale Tract Area EIFD.

For any EIFD-eligible improvements that may be privately constructed, the PFA anticipates developers would be responsible for securing financing and other funding sources needed to design and construct the improvements. Once completed and accepted by the appropriate public agency, the constructing entity may be eligible to be reimbursed by EIFD revenues subject to one or more reimbursement agreements executed between the constructing entity and the that appropriate public agency.

Limit on Total Taxes Allocated to the EIFD

The analysis in **Attachment D** informs the estimated number of dollars of tax revenue that may be allocated to the Mossdale Tract Area EIFD, which shall not exceed $559.6 million, unless modified by the PFA. The maximum tax allocation estimate provided assumes collection of EIFD revenues through 2060, as shown in **Attachment D**.

EIFD Termination Date

The specific date on which the Mossdale Tract Area EIFD will terminate is not known at this time. Pursuant to Government Code Section 53398.63 et seq., the maximum duration of the Mossdale Tract Area EIFD would be 45 years from the earlier date on which the issuance of bonds is approved pursuant to subdivision (a) of Government Code Section 53398.81, or the issuance of a loan to the Mossdale Tract Area EIFD is approved by an ATE pursuant to Government Code Section 53398.87. Based on these requirements, the proposed Mossdale Tract Area EIFD termination date will be the earlier of (a) 45 years following a successful bond election by the qualified electorate if an election is required or following the first bond issuance by the PFA if an election is no longer required or (b) 45 years after the ATE approves a loan to the Mossdale Tract Area EIFD. However, the Mossdale Tract Area EIFD will cease to exist by no later than June 30, 2100.

Fiscal Impact Analyses by ATE

In accordance with Government Code section 53398.63(d), this report includes an analysis of the costs of providing services, as well as the estimated fiscal impacts of incremental new development in the EIFD, on the operating budget (General Fund) of each participating ATE, during development and at buildout.

The fiscal impact analyses estimate taxes and other operating public revenues generated by new development, as well as the cost of public services required to serve new development. The analyses focus on fiscal impacts to each participating ATE in the EIFD: the County, the City of Lathrop, the City of Manteca, and the City of Stockton. The fiscal impact analyses do not address activities budgeted in other Governmental Funds or Enterprise Funds (e.g., Water Fund, Sewer Fund, Storm Sewer Fund).

The fiscal impact analysis model used for each individual fiscal impact analysis was developed by EPS with support from the staff of each ATE. EPS consulted each ATE's budget documents to develop forecasting methodologies for specific revenues and expenditures affected by new development. In addition, EPS consulted with staff to clarify budget data and review fiscal assumptions on which this analysis is based. The models are based on the FY 2020-21 Adopted Budget for each ATE and any midyear budget adjustments, 2020 countywide population figures for fiscal multipliers, and existing 2021 market conditions. All results are reported in 2020 dollars.

Key assumptions, provided and validated by the ATEs, underlying these fiscal impact analysis results are described below:

- **Incremental New Development and Population.** At buildout, incremental new land uses in the Mossdale Tract Area EIFD include about 11,200 residential units and 33.1 million building square feet of nonresidential space. This level of development translates into about 32,900 residents and 40,600 employees, resulting in a total persons-served generated by development in the Mossdale Tract Area EIFD of 53,100.
- **General Fund Property Tax Revenue.** Incremental new property tax revenue generated by new development in the EIFD is based on each city or County General Fund's share of the 1 percent property tax rate for all development located within existing city limits. For development located in the unincorporated portions of the County, it is assumed the projects will annex into the applicable adjacent city before development. The fiscal impact analyses reflect property tax-sharing agreements assuming the existing master tax-sharing agreement between the cities and the County remains in place. The analyses include estimates of the potential EIFD contribution for each ATE under two potential scenarios: a scenario reflecting the maximum tax rate for each ATE across all time periods, and the other, reflecting a variable tax rate, consistent with the rates used for the EIFD revenue estimates discussion in the prior section and summarized on **Table 3-2**. **Table 3-1** shows the EIFD contribution allocations for each jurisdiction under both scenarios.

- **General Fund Service Cost Assumptions.** New development in the Mossdale Tract Area would represent incremental growth in the County, adding approximately 32,900 residents and 40,600 employees to an existing population base of approximately 773,700 residents and 282,200 employees (including those residents and employees in the incorporated cities). This level of growth is anticipated to have an incremental impact on most County-provided services. A similar dynamic will be experienced by each city. As such, the fiscal impact analyses estimated projected incremental General Fund municipal service costs to each jurisdiction, primarily through the use of a multiplier method.

A summary of annual net fiscal impact analysis results for each ATE is described in the sections and shown in **Tables 3-4** through **3-7**.

City of Lathrop

The initial phase of development (ending 2025) results in a net fiscal surplus of $264,000 annually to the City of Lathrop before any contribution to the EIFD. This estimated surplus decreases to $134,000 following EIFD allocation under both scenarios. At buildout, development in the City of Lathrop is estimated to result in a net fiscal deficit of $1.4 million before EIFD contributions, based on anticipated revenues of approximately $16.5 million and expenditures of approximately $17.8 million. It is anticipated that EIFD contributions will decrease the estimated revenues at buildout by $233,000 to $1.0 million, resulting in a net fiscal deficit ranging from $1.6 million to $2.4 million under the Variable Tax Rate Scenario and Maximum Tax Rate Scenario, respectively.

In the interim years, the City of Lathrop is anticipated to experience a net fiscal surplus ranging from $1.6 million to $4.7 million annually, before EIFD contribution, reduced to surpluses ranging from $711,000 to $4.0 million under the Maximum Tax Rate Scenario and $1.4 million to $4.4 million under the Variable Tax Rate Scenario. **Table 3-4** summarizes the net fiscal impacts to the City of Lathrop. The fiscal impact analysis for the City of Lathrop is included as **Attachment F** of this document.

Fiscal Lathrop

Source: EPS.

[1] This analysis assumes the EIFD will be formed in FY 2022-23 (Base Year) with the first year of revenue accruing to the district in FY 2023-24. Secured and unsecured tax rolls for a fiscal year are based on taxable assessed values with a lien date of the prior January 1. Thus, the initial phase of this analysis includes estimated development occurring in July-December 2022 (50% of development estimated in calendar year 2022) and development occurring in full calendar years for the remainder of the phase (2023-2025). Subsequent phases include 5-year development periods for development occurring from 2026 through 2040 and 10-year development periods from 2041 through 2060.

[2] EIFD Allocation represents the portion of City property tax revenues diverted to the EIFD. Refer to Table B-3 of Attachment F for details.

City of Manteca

The initial phase of development (ending 2025) results in a net fiscal deficit of $962,000 annually to the City of Manteca before any contribution to the EIFD. This estimated deficit increases to $1.1 million following EIFD allocation under both scenarios. At buildout, development in the City of Manteca is estimated to result in a net fiscal surplus of $5.2 million before EIFD contributions, based on anticipated revenues of approximately $19.4 million and expenditures of approximately $14.2 million. It is anticipated that EIFD contributions will decrease the estimated revenues at buildout by $247,000 to $1.1 million, resulting in a net fiscal surplus ranging from $5.0 million to $4.1 million under the Variable Tax Rate Scenario and Maximum Tax Rate Scenario, respectively.

In the interim years, the City of Manteca is anticipated to experience a net fiscal surplus ranging from $1.2 million to $4.8 million annually, before EIFD contribution, reduced to surpluses ranging from $579,000 to $3.7 million under the Maximum Tax Rate Scenario and $812,000 to $4.5 million under the Variable Tax Rate Scenario. **Table 3-5** summarizes the net fiscal impacts to the City of Manteca. The fiscal impact analysis for the City of Manteca is included as **Attachment G** of this document.

City of Stockton

The initial phase of development (ending 2025) results in a net fiscal deficit of $1.6 million annually to the City of Stockton before any contribution to the EIFD. This estimated deficit remains consistent following EIFD allocation under both scenarios. At buildout, development in the City of Stockton is estimated to result in a net fiscal surplus of $4.2 million before EIFD contributions, based on anticipated revenues of approximately $11.2 million and expenditures of approximately $6.6 million. It is anticipated that EIFD contributions will decrease the estimated revenues at buildout by $85,000 to $378,000, resulting in a net fiscal surplus ranging from $4.2 million to $3.9 million under the Variable Tax Rate Scenario and Maximum Tax Allocation Scenario, respectively.

In the interim years, the City of Stockton is anticipated to experience net fiscal impacts ranging from a deficit of $920,000 to a surplus of $3.4 million annually, before EIFD contribution, reduced to a deficit of $1.0 million to a surplus of $3.0 million under the Maximum Tax Rate Scenario and a deficit of $984,000 to a surplus of $3.3 million under the Variable Tax Rate Scenario. **Table 3-6** summarizes the net fiscal impacts to the City of Stockton. The fiscal impact analysis for the City of Stockton is included as **Attachment H** of this document.

San Joaquin County

The initial phase of development (ending 2025) results in a net fiscal surplus of $6.0 million annually to the County before any contribution to the EIFD. This estimated surplus is reduced to $3.5 million following EIFD allocation under both scenarios. At buildout, development in the County is estimated to result in a net fiscal surplus of $25.7 million before EIFD contributions, based on anticipated revenues of approximately $41.5 million and expenditures of approximately $15.8 million. It is anticipated that EIFD contributions will decrease the estimated revenues at buildout by $909,000 to $4.0 million, resulting in a net fiscal surplus ranging from $21.7 million to $24.8 million under the Variable Tax Rate Scenario and Maximum Tax Rate scenario, respectively.

In the interim years, the County is anticipated to experience net fiscal surpluses ranging from $12.5 million to $23.8 million annually, before EIFD contribution, reduced to $10.5 million to $20.2 million under the Maximum Tax Rate Scenario and $11.2 million to $23.0 million under the Variable Tax Rate Scenario. **Table 3-7** summarizes the net fiscal impacts to the County. The fiscal impact analysis for the County is included as **Attachment I** of this document.

Financing Reimbursement Costs

Because improvements being funded by EIFD revenues do not qualify for a Transit Priority Project Program, any permit and affordable housing expenses related to the project as described in Section 65470 would not be financed.

Dwelling Unit Replacement Plan

It is unknown if any housing units will be removed as a result of any project identified in this IFP. Therefore, a replacement plan is not included in this IFP. However, if any relocation of dwelling units is determined to be required in the future for a project financed by the Mossdale Tract Area EIFD, the PFA will develop a plan that complies with applicable relocation laws, including Government Code section 53398.56, the California Relocation Assistance Law, Government Code section 7260, et seq., and the implementing regulations set forth in California Code of Regulations, Title 25, Chapter 6, section 6000, et seq.

Net General Fund Surplus/(Deficit)	**$3,495,900**	**$11,204,600**	**$16,262,800**	**$19,017,800**	**$23,001,600**	**$24,800,500**

fiscal county

Source: EPS.

[1] This analysis assumes the EIFD will be formed in FY 2022-23 (Base Year) with the first year of revenue accruing to the district in FY 2023-24. Secured and unsecured tax rolls for a fiscal year are based on taxable assessed values with a lien date of the prior January 1. Thus, the initial phase of this analysis includes estimated development occurring in July-December 2022 (50% of development estimated in calendar year 2022) and development occurring in full calendar years for the remainder of the phase (2023-2025). Subsequent phases include 5-year development periods for development occurring from 2026 through 2040 and 10-year development periods from 2041 through 2060.

[2] EIFD Allocation represents the portion of County property tax revenues diverted to the EIFD. Refer to Table B-3 of Attachment I for details.
